January 26, 1981

Edwards ousted as President Can appeal decision within 15 days

Mike Edwards has been expelled as Day Student Senate President, effective immediately, The Campus has exclusively learned.

The Student-Faculty Disciplinary Committee found Edwards guilty on two of the four charges against him, it was learned from a reliable source at the College. Edwards was convicted of punching an unidentified man at a lecture by Kwame Toure on October 16 and tossing 2,000 issues of *The Campus* into the garbage last May 20, the source added.

In addition to forever barring him from holding a student government position, the Committee's penalties including placing Edwards on "disciplinary Edwards on "disciplinary probation" and prohibiting him from engaging in any extracurricular activity on campus.

As of press time Friday, ad-

ministration officials could not be reached for comment. At least two administrators who were closely

been following the developments of the Senate committee were said to be attending a conference at the State University at New Paltz. However there is speculation that ad-ministration officials are withholding comment on the

matter until Edwards confirms an "illegal committee." He did not was taken against Edwards. receiving notification of the amplify on the statement.

decision. The new acting Day

Reached at his home Thursday night, Edwards claimed he had not been contacted on the matter and called the Disciplinary Committee

The new acting Day Student President will be Tony Antoine, formerly executive vice-president. Although sources say school bylaws are not exactly clear on procedural matters after a president is removed from office, a vote will be taken at the next Day Student Senate meeting on whether

through the spring semester.

Asked to comment on Edwards' ousting, George Innes, vice-president for educational affairs, said "It's the best thing to happen at City in a long time. Mike became

Antoine should remain as president

power hungry."
This is the second time Edwards has been brought before disciplinary committee. On April 5, 1979 the Committee found him guilty of violating Philosophy Professor James Bayley's academic freedom by entering Bayley's class and accusing him of teaching in a racist manner. No punitive action Former President Mike Edwards

Edwards has 15 days to appeal the latest decision by the Committee. Prior to becoming student president, student ombudsman.

Vice Provost for Student Affairs Ann Rees.

Director of Intercollegiate Athletics Richard Zerneck

Athletics Program in Doubt

In response to the decision, a

A decision by the Student
Services Corporation to freeze
Intercollegiate Athletic funds
has placed the future of that
program in serious jeopardy.
The Corporation, in a 6-1 vote
(two abstentions) last December
22. charged the Intercollegiate (two abstentions) has a con-22, charged the Intercollegiate Addition Department with Athletic Department with noncompliance of the by-laws of the S.S.C. and the College governance charter.

Director of Intercollegiate Athletics commented, "If the issue is not resolved by the first week in February, we will have to close shop and cease intercollegiate activities. It will be a devastating blow to the 300 student athletes at the school." He continued, "As I understand it, the S.S.C. doesn't control the funds, and until this term this issue never arose.

However, Francis Osazuwa, Executive Vice President of the Evening Student Senate and member of the S.S.C., noted, "The law (that the budget be submitted to the S.S.C.) has always been in existence. He (Zerneck) should have known better. We understand the consequences of the motion, but he clearly was in violation of

An incensed Zerneck claims the same procedures were followed for this budget as have always been. "I submitted the budget to the Faculty Student Committee (FSCIA), the Faculty Senate, and the Day Student Senate," he observed, continuing, "The legality of their continuing, "The legality of their move is murky at best. I'm upset by

the issue—I feel strongly that we're in the right."

An obvious lack of communication exists between the two sides, and the underlying reasons for the committee's aciton vary

Zerneck feels the committee is upset over the projected surplus of \$39,000, shown in the budget. Indeed, Garth Marchant, President of the Evening Student Senate, feels it unfair that students were subjected to a \$5 increase in activity fees, with the Athletic Dept. displaying a surplus. Zerneck contends the surplus is more likely to be \$15,000. The former studentathlete at the College said, "We projected a surplus for a year or two, and then a deficit. We made this clear and felt it preferable to going to the Student Body and asking for money on a year to year

Yet. Osazuwa stated that the Committee was not concerned with the surplus. He did, however, mention that a major concern was what he felt was the illegal. collection of money from part-time evening students, who are not evening students.

Planning director Abdel-Salam speaking before the South Campus Planning Commission

Proposals made for South Campus area

By Mike Herman

An array of proposals, including the construction of a multi-faceted technology site, has been brought before the South Campus Planning Committee. The body is in charge of recommending a plan to determine the fate of the vacated school buildings after the move into the North Academic Center is completed.

On January 16 the architecture firm of Roger Jones Associates Inc. suggested building an International Trade Center on part of the 10 acres that comprise the South Campus. The proposed building, to be modeled after the Harlem World Trade Center, would serve to attract American and foreign students in high technology research and job training for positions here and overseas.

In making the proposal, Mr. Medhat Abdel-Salam, director of planning for the firm, said benefits for the College would include increased enrollment, closer ties with the community and the opportunity for the school "to re-use its strength and influence.

The scope of the proposal, with its budget ranging from \$35 to \$90 million, shocked but generally pleased representatives from the administration, faculty, community, and students who sit on the

Vice-Provost for Academic Affairs Morton Kaplon said he was "very excited" about the idea, adding that foundations and corporations could lend financial support if the proposal becomes viable. However both members of Jones Inc. and the committee said the trade center is just a thought and no research has been undertaken as to its feasibility.

Other proposals suggested for the buildings between 130th and 133rd Streets east of Convent Avenue include rehabilitation for possible conversions into domitory space or a community center for children.

Whatever proposal is recommended by the committee, it must be self-amortizing, or financially self-

sustaining. The administration hasn't allocated any money for the project and the architecture firm is being paid out of a \$50,000 grant from the Charles Revson foundation.

According to a report issued by the firm the goal of the committee "is to explore, via joint College-Community participation, the potential for the development and use of South Campus for the general

betterment and welfare of both communities.

Before any proposal is implemented it must pass through public hearings and approval by the College's president and board of trustees. Kaplon said the SCPC will issue its recommendation by the end of the spring semester. Except for the athletic field South Campus is expected to be empty by the summer of

Out of the four buildings on South Campus representatives of Jones Inc. said only Finley and Steiglitz Halls need to be demolished due to deteriorating conditions. Salam said Finley should not be open now since its old construction and non-conformity to updated building code regulations make

it a potential fire hazard.

"It's dangerous but so many buildings exist this way in the city. My purpose is to alert the students without scaring them," he said.

Kaplon said it would be impractical and too costly

to significantly upgrade Finley at this late date. He said no plans are currently in the works to renovate any aspect of the building.

"We're stuck with Finley," he said.

Campus Profile: Audie Colon

By Mike Herman

Audie Colon says he enrolled at City College under a false pretense. Based on the school's brochures he expected the communications program, noted for its print journalism graduates, to also have flourishing facilities for those interested in television. He found out there was no equipment to teach production classes, no real studio, and only one faculty member with television

Instead of switching schools he decided to remain here and fight—by going outside the classroom. As a freshman he joined SAME (Students for Art, Media and Education), a four-year-old club that allows for hands-on television experience in everything from technical use of an editing machine to developing the "eye" needed when operating a developing the "eye" needed when operating a camera. Along with a handful of other die-hard heathers the group films events on campus including basketball games, a college news show and even a performance by the junior Joffrey ballet (where an interview request was denied by the new President's

However Colon, 23, pulled a coup last semester while filming the Audeleo awards given for outstanding performances by blacks in theater. It so happened that Channel II, taping the ceremonics for a special, suffered an equipment breakdown

"The producer came up to me and asked if she could look at our footage. A few weeks later I sat mesmerized watching their program with 75% of our shots," said the Mass Communication junior.

Ironically SAME's shows can barely be seen on

campus. Club members claim Ann Rees, Vice Provost for Student Affairs, agreed to install twelve viewing monitors throughout the campus this year. Members add they have received no word indicating why the action wasn't taken.

Colon caught the video bug while at John F. Kennedy High School and knows just getting a PA's job (production assistant) in the field means beating out hordes of applicants from the media generation.

He admits his Puerto Rican background could open a few doors but prefers being judged on the achieved status of talent. What miffs him is the lack of understanding that many interested students have about the nature of television

"Many of the people that come to SAME are only interested in what goes on in front of the camera but when it comes to going over the routine details of an equipment check they're nowhere to be found," Colon, a former president of the organization.

Due to the lack of responsibility he's now "ambivalent" about having any part in SAME for the spring semester. He already abdicated his position on the media board which allocated the group \$2,953 last semester. SAME members expressed the wish that Colon remain involved in the program, with current SAME president Calvin Tyler describing him as "very active" and "someone with good ideas."

In any case Colon's sights are set for a career in In any case Colon's sights are set for a career in television, either as a producer or director. He's handled all phases of television production, topped off by working as the producer's assistant during last summer's first annual City jazz festival.

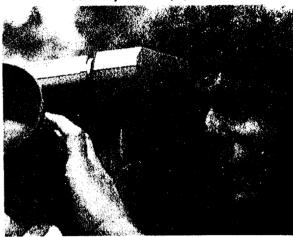

"Television can bring people closer to just about anything. When people are watching a concert I want them to see the strain in the singer's voice and the fingering of the guitar strings," he said.

With this issue, The Campus begins a regular column require an integrating against a regular votable.

featuring an interesting, active, or otherwise notable City college student or faculty member. Please submit any suggestions concerning future profile subjects to Campus -Room 338 Finley or call us at 690-8177

INBRIEF (Continued from page 1)

College Takes Stand on Nuclear Waste

majority representing the thoughtful opinion of a distinguished American college or

English Dept. To **Award Prizes**

City College's Faculty Senate has voted overwhelmingly to endorse a resolution opposing the shipment of radioactive waste or other highly radioactive material through New York City's streets and other densely populated areas

Professor Barbara Bellow Watson, Chairperson of the Executive Committee of the Faculty Senate, noted that the Department of Transportation plans to issue regulations shortly that would negate any attempts by the City or other local governments to stop the shipment of radioactive wastes through their communities.

'This resolution represents the concerned response of the faculty of City College on an issue that strongly affects the health and safety of the people of New York City and other communities," Dr. Watson said.

The Faculty Senate resolution which was transmitted to Mr. Neil Goldschmidt, Secretary Transportation, reads as follow

Mindful of our responsibility to our students, to the com munity, and to ourselves and other employees of the City College of the City University of New York, we hereby express our opposition to the shipment of radioactive waste or any other highly radioactive material through our city's streets and other densely

populated areas.
Dr. Leonard R. Solon, Director
of New York City's Bureau for Radiation Control, Department of Health, called the resolution a "progressive action in behalf of public health." He said he believed was "the first time a group

university has so expressed themselves on this vital matter."

An amount totalling nearly Silverberg last December 19th.
\$12,000 will be awarded to City College students, graduate and undergraduate, on May 14th 1981 as prizes and scholarships for works of fiction, poetry, drama and essays. This amount of prize money is probably not exceeded by the given by any other college in given by any other college in the United States.

All submissions should be made to Professor Richard Goldstone in 939 Mott 4 no later than 4PM March 20, 1981.

Rules and regulations will be distributed in the 2nd week of February, and will be posted in the

The largest single prize, the De Jur Award, given for any extended work, is three thousand dollars. Many other prizes range from fifty to five hundred dollars.

Extends Hours Registration

"The registration committee of the college has agreed to extend the late registration hours on February 9th. On Monday, February 9th, the Great hall will be open until 8:00 P.M. during late registration to accommodate Evening Division students. Dean Simmelkjaer has requested that the Evening supervisors he applicable in Great hall of visors be available in Great hall so that SGS students can get their courses approved and complete the registration process. Those students who obtain course approval also will be able to pay the Bursars on February 9th."

Stays Open **Veterans Office**

The College's Office of Veteran Affairs, scheduled to be closed December 31, will remain open through fiscal 1982. The move follows successful lobbying by the Veterans Association with Acting Provost for Student Affairs Morris Silverberg last December 19th.

the program, added that resumes will be accepted through February 6th. A spokesman for Dean Ann Rees said the position will probably be filled by the second week of

collected from this past semester. Speculation remains as to why the entire issue was not raised at the Ian 12 meeting of the S.S.C., so a resolution might be ob rained.

When Ann Rees, Vice Provost matter at for Student Affairs, and member February.

supposed to contribute toward of several committees overseeing Intercollegiate Athletic fees. He the budget, was told of Zerneck's wants a meeting of the Committee somber statement, she said, "The in February to transfer monies prediction that the Athletic Dept. prediction that the Athletic Dept. would close is exaggerated." She added that there is no timetable for resolving the issue, and no contingency plans.

All parties hope to discuss the matter at the S.S.C. meeting in

Antenna Attracts Satellite Reception

By Mike Herman

Imagine sitting in Steinman Hall and catching a raunchy movie. Or seeing the latest heavyweight fight normally available only through the steep prices of cable television.

A professor of electrical engineering says each of these is at least conceptually possible after a group of his students finish con-structing a satellite receiver atop the engineering building. The huge television antenna, spanning 10 feet in diameter, would pick up programs from a communication satellite similar to such cable TV systems as "Home Box Office" and "Showtime."

Professor Norman Scheinberg said that based on the successful testing of a TV antenna earlier this year, the administration has allocated him \$3,350 to design and construct a new antenna.

He said the purpose of the earth station is "to acquaint students with the field of satellite communications and to provide a source of research projects for our graduate students.

Scheinberg spoke of the recent explosion of communication explosion of communication satellites since AT&T launched the first experimental one in 1962 which enthralled the nation by providing nearly 20 minutes of live television from across the Atlantic. Western Union financed the first U.S. domestic communication satellite in 1974. Scheinberg noted that the influx of telephone and data communication satellites has "left almost no room" for anything else since they must all be located on the Equator.

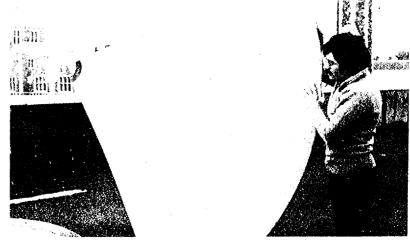

Costs for antennas have plummeted from \$100,000 to about \$3,000 recently, due to a number of companies' manufacturing cheap electronic components, he added.

It also was Western Union which lent the College its antenna in December after failing to get any feedback because of its midtown location.

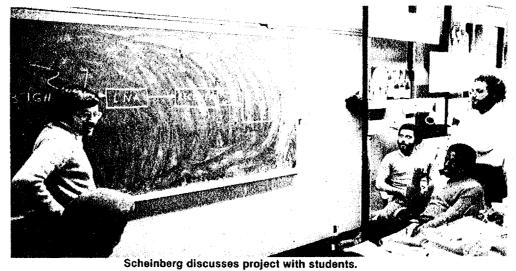

The antenna must be precisely in line with an overhead satellite to function properly which the students initially failed to achieve. Then on a bitterly cold Saturday morning the group got it working for which one graduate student received course credit. "We got PBS, HBO and some

blue movies but then Western Union asked for it back after a week," Scheinberg said. He added the new, largely homemade antenna should be ready by April.

Huge increases in the use of earth stations have deterred the Federal Communications Commission from prosecuting individuals who construct their own. Scheinberg

Scheinberg examines antenna

New Computer Cuts Through Red Tape

By Norman P. Johnson The College recently received a sparkling new computer that has come not a moment too soon according to the head of

the computation center.

The new IBM 4341, the size of a large desk, is valued at \$300,000. Purchased through the state's leasing program, it replaces the former risprogram, it replaces the former six-piece, 12 year-old machine that Professor George Elder described as "almost ancient", in the ex-polding field of computer tech-nology. Elder said the new model has five times the memory and speed capacity over the former which ran continuously and still couldn't get the job done.

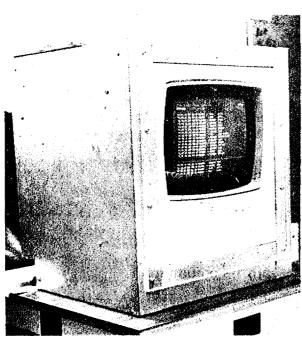

Elder said students will benefit from the switch by allowing for quicker access to financial aid and academic records. He said a ter-minal is planned to be reinstituted in the administration building enabling students to insert their LD, cards and view their tran-

scripts themselves.
"It also cuts down on the fear of computers which are now a part of our everyday technology," he said.

The computer, located in Steinman Hall, will be used by computer science classes, he added.

The College has been trying to obtain the computer for two years, but was delayed by the bureaucratic red tape from CUNY, Elder said.
Other CUNY schools will shortly get similar models.

Meanwhile a twelve-year computer, which the College is attempting to sell, lies dormant in the computation center.

The IBM 4341 computer

"I really enjoy my life as an Army Nurse. And the salary is super."

—CAPTAIN JOANNE HOPKINS

"I think I have a lot more opportunity to take a leadership position here. I feel special being in the military.'

If you'd like to join Joanne Hopkins in the Army Nurse Corps, here are a few facts you should know. Army nursing is open

to men and women under the age of 33, with BSN degrees. Every Army Nurse is an officer. Your pay is excellent,

and you get 30 days paid vacation each year. And your initial tour is three yearsjust enough to try the job on for size.

For more information about opportunities for Registered Nurses in the Army Nurse Corps, write Army Nurse Opportunities, HQ NERRC, Fort Meade, MD 20755. Or phone collect to 301-677-4891.

The Army Nurse Corps

When Escapism is Best

By Richard Lichenstein =

Spring comes in many ways: the fluttering wings of a redbreasted robin, the fluttering heart of an excited teen-ager, the clamor of a Good Humor Ice Cream truck and yes, even the rustling of pages in the College's Schedule of Classes. Certainly there is something in the air.

Biologists explain it easily, citing activity in the pineal

gland, poets and romanticists compare it to the thawing of

A VIEW-FROM THE HEIGHTS

the hard, cracked earth and students usually attribute the special feeling to the shedding of clothes with the warmer weather (comforted by knowing there are real people beneath all those layers). But just as one begins to rekindle spirits that have lied dormant for months, another ritual begins with all the feeling of a winter freeze—College registration. There is perhaps nothing as sterile and unfeeling to greet the new season.

Even at the onset of the procedure one can sense a chill crawling up the spine. The Directory of Classes is distributed individually with the pomp and dignity of a classified document; people queue on lines, and divulge class codes

precious. Indeed, inside, only ex-CIA men and seers can decipher headings like "Currents Mdrn Lit 2" and "Engr Stat Anal." One can imagine the same mastermind behind the computer's listing condensing a professor's doctoral thesis into five unpronounceable words. After this close encounter of the worst kind there is a break and one can soon feel reborn with a little partying, some b-ball perhaps and unaccustomed laughter (it's after finals you remember). The day of reckoning however will not be denied. The shoulder comes quickly enough. A visit in Great Hall becomes an angry nightmare with staffers un-sympathetic and some as unreceptive as automatons to your poignant plea of misreading the schedule. Even promises of unmentionable favors will not move this underpaid crew; the College likes it this way-everything in order, everyone

One can almost become asphyxiated by the conformity of the next stop—Nat Holman Gymnasium. Inside, professors sit captive behind tables with faraway eyes, students sit herded on bleachers, a look of desperation clouding the sight of their schedules which are inked and blotched with rejections from courses that closed the first day (somehow it seems you're always scheduled for the most inconvenient

The picture is even bleaker when you couple it to the thought of all the things you could be doing. The relationships left on hold during finals, bar-hopping with even just relaxing snuggled wiht good music seem distant when concentrating on yellow cards, stubborn professors and endless lines.

There is one bright spot, however dim. You witness trough all the misery "computer magic" at its best. through all the misery somehow the packet of cards you have amassed through the hours, acquires meaning and it is only with reluctance that you exchange it for one simple colored one. Those unac-customed to the ritual can feel quite jerky with the one card, thinking that it will never relay all those courses you have thinking that it will never relay all those courses you have transcribed so diligently. There's got to be a computer fuck-up somewhere, doesn't there? Your cards have to be chomped up by unthinking hole punchers, don't they? Somehow after another forty-five minutes worth of lines have been negotiated with, a mystical person exchanges your seemingly worthless card, for an itemized account of all your classes—I just know there's got to be gremlins

For the second spring semester, 'I'm escaping this ror the second spring seniester. In escaping this nightmare. Last year I went to the tropics for a hard-earned vacation and primed my esprit de corps with liquor, sun, and smiling faces. This time I plan to go with friends up to frosty Vermont for five days of skiing and anything else that pops up. Although it won't be warming like the upcoming springtime in metropolis, the wintry blast will be blatantly refreshing compared to the subtle chill of the College's registration. And who is the unlucky soul preparing my courses? My roommate is probably at this very moment understanding the validity of my words and will probably start to complain rather loudly soon. Five-four-three-two-

LETTERS

Your December 17th issue carries

letter from Professor Arlene k chiding for Leonhard-Spark organization for pre-medical students, the Caduceus Society, for inviting Dr. Carlton Fredericks, noted nutritionist, to speak before them. Prof. Leonhard-Spark them. Prof. Leonhard-Spark characterizes many of Dr. Fredericks' remarks as dubious and inflammatory, but it is hard to imagine anything more in-flammatory than her suggestion that medical school applicants might jeopardize their chances of admission to medical school if they quoted Dr. Fredericks (God forbid that they might find some of his ideas to their liking!), nor could anything be more dubious as well as destructive of the spirit of academic inquiry than her criticism the Caduceus Society for wishing to hear an unorthodox point of view in the field of health

and healing.

If, indeed, Dr. Fredericks' approach to nutrition is "debatable," then by all means let us have a debate in which we can hear from him and his colleagues and also from Prof. Leonhard-Spark and her list of "reputable" specialists. Let us, indeed, have an open forum for all shades of opinion in this university of ours.

Marshall D. Berger

Professor of Speech and Linguistics

COMPLETELY FREE!

The Campus looks forward to hearing from you, and we will publish letters to the editor from responsible members of the College Community. Just be sure that you sign your name, maybe leave a telephone number ad make it neat enough that we can read it. You can mail it to us, or drop it off in Finley 152, or come on by our office in Finley 338, and tell us what you think The Campus should be up to.

President

Ronald Reagan was sworn in as the country's 40th president on Jan. 20. Meanwhile it's taking the college more than two years to find a permanent president for the College, with little news of even viable candidates being heard.

However capable they are, lame duck Presidents cannot run the However capable they are, lame duck Presidents cannot run the college at a time when decisions are needed on a variety of tough issues. We hear that various administration officials have consulted with Acting President Arthur Tiedemann on freezing the intercollegiate funds and transferring funds for Finley but no actions, one way or the other, have been taken. The new President will have to immediately contend with giving the College its direction for the new decade. Will we become a more specialized institution or expand Liberal Arts offerings? What steps can be taken to halt declining enrollment? declining enrollment?

Reagan's aiming to revitalize the country, we need someone to revamp the college. It's important for everyone—students, faculty, administration officials—to know that whoever occupies the office on the third floor of the Administration Building is at least expected to be around for a while. We think it's about time to reveal who that person might be.

Find out why Kearfott's vironme is for yo

We'll be on your campus Monday, March 2

You'll hear all about some of the most sophisticated advances in the aerospace industry in which Kearfott has played an important role . . . like the full-scale inertial navigation system program for the F-16 lightweight fighter . . . an inertial measurement unit and multiplexing equipment for the Space Shuttle orbiter . . . MRAALS, the most modern self-contained scanning beam system for landing all types of aircraft. . . . The list is virtually endless.

If you're tooking for a rarefied environment to try your wings . . . THINK KEARFOTT. See your Placement Office for our company profile and to sign up for a one-on-one interview.

An equal opportunity employer, m/f, who creates opportunities

LE GAY GHETTO: Gav Cartoons from Christopher Street by Charles Ortleb & Richard Fiala (St. Martin's Press) \$3.95)

With City's campus being one of the handful of Big Apple educational institutions not hosting a gay organization, what is a gay person to do up on 138th Street? Ogle the antifag grafitti on toilet stalls? Take a course where reading Wilde is one of the requirements? Or enroll in Ballet Technique and hope what your Uncle Harry said about Technique and hope what your Uncle Harry said about dancers is true? Well, a more genial alternative is leafing through Le Gay Ghetto. Not only will this book peter out your depression, you will be hysterically guffawing while you watch homosexuality lovingly ripped apart and shown to be as freaky as heteroxexuality (Well, almost as freaky.) Cartoonists Ortleb and Fiala with acute vision and feisty mien fathom the worlds of bar life, fashion, hustling and the houder for any humor. Not a Bloomingdale's short or a

bouldoir for gay humor. Not a Bloomingdale's sheet or a Crisco can is left unturned. Originally printed in Christopher Street, an estimable gay literary magazine, this collection of topical comies (the third in the series) might just be the weapon needed to fight the Moral Majority's gaining battle against sexual freedom. And if Le Gay Ghetto isn't, you might as well follow Jean De La Bruyere's sound advice: "We must laugh before we are happy, for fear we die before we laugh at all."

—Brandon Judell

Stirring Up "The Competition"

By H.R. Morales

(Editor's note: The Competition, written and directed by Joel Oliansky, has opened to markedly mixed reviews. Those who delight in this flick swear by their grandmother's cooking that here is a monumental, emotionally-jaunting epic. The film's disparagers are just as unyielding in their negativity, especially about the star's (Richard Dreyfuss) strange complexion. Nonetheless, according to Variety, The Competition is the seventeenth biggest box office hit in the country (week ending January 14th) after six weeks of release, beating out The Elephant Man, Aristocats, and Mountain Family Robinson. Not bad for a love tale about two classical pianists who fall in love while in the midst of competing against each other for a prize that can only change one of their lives.) Born and raised in New York, Joel Oliansky is the

product of a family proud of their love for music. He attended the High School of Performing Arts until his family moved to Long Island. It was here he was introducéd to directing. 'I was sixteen at the time and the drama teacher directing. asked me to stage the first act of Our Town for an assembly.

Later in his education, while editor-in-chief of the Hofstra University literary magazine, Oliansky published short stories by classmate Francis Ford Coppola, and worked with him in the drama department, His newly discovered talent for writing and directing garnered him the office of the Yale Drama School's playwright-in-residence,

Oliansky's capabilities then led to working on a successful eries of television episodes including Emergency, Kojak, Quincy and The Bold Ones. His highest achievement was the acclaimed 1974 T.V. movie The Law, His most recent accomplishment has been the soon-to-be telecast eight-hour

The directing of any film can present a challenge even with the very best of actors and assistants. The Competition was no exception. At a post-screening question-and-answer period, Joel Oliansky was asked about his experiences on his first feature-length film.

How did you go about setting up this project? .

had in mind. When I left Universal T. V. I had a certain reputation as a writer. I wanted to direct and would only take a screenplay assignment if I would be allowed to. Otherwise I decided I would stay in television where I was allowed to direct. Ray then offered me a picture to work with Bill Sackheim, whom I did 'The Law' with. So the actual project came out of need, not out of anything specific I had in mind."

Do you have a way or style of going and holding the attention of your audience?

"I don't have a trunk (gimmick), I'm not that kind of writer.

Did you have a hard time recruiting Richard Drevfuss for the part? Was he in on it from the beginning?

'No, we had to go out there and get him. We had him in mind from the beginning. We showed him the script. He was not overly thrilled with it. We then spent a month working on it and he then agreed to do the film. It was not a package deal or anything. Richard then worked for four solid months with Jean Shaw to get to manipulate the piano keys for that six minutes of the Beethoven. It was terribly hard for him. He had no musical orientation whatsoever. He had never been to a concert of any kind, not a jazz concert, a rock concert of or a classical. He never listens to that kind of musical.

Can you give me an example of some items in the script Dreyfuss thought needed revamping?

"Yes, the whole idea of Heidi (Amy Irving) being the one to convince him to go for the brass ring (First Place) and not worry about his parents. The fact that his character turns down a teaching job as opposed to his being fired. Those were Richard's ideas.

Cat on a Formica Roof

By Brandon Judell

The American Theatre of Actors (314 West 54th Street) is an exciting complex where artists of all persuasions can test and perfect their craft. Sadly I showed up awhile back on an off night. The following is a callous account of what occurred.

William Narducci's Delusion of Grandeur is that he has

written a play by that title. That his bound pages of trivialities was performed by this enterprising company only

points to the need of greater government subsidies to the arts, especially in the field of playwrighting.

Imagine if you will the writers of Three's Company revising The Glass Menagerie. Only then might the following lines appear feasible:

"If you are a better breakfast, you wouldn't be so nervous."

'I'm mysterious like the Bermuda Triangle.'

"Beer is like the devil's urine."
"I get an erection everytime I see the American flag."

Frightfully this flatulent abomination occurs somewhere in the present and tells of two sisters: Lucinda, a pert, blind virgin and Martha, a drunkard with a scandalous past, who "looks best in her green dress." As the hours tiptoe by, we learn Martha is to wed Howard the dud just as her old trick, Slade (David Orange) the stud, returns to town to paint her house pink and her shutters orange. Meanwhile Coke (John Outlaw), whose girlfriend has hepatitis, wants to go all the way with Lucinda who has the hots for Slade. (You'd be wise to diagram this action for comprehension.) As a bonus. blind Lucinda believes Slade once disguised himself as her Uncle Willy and felt her up when she was a mere nine year

old. In the time that she reminisces, Mrs. Mellon (Harrier Rawlings) pops in to borrow an eggbeater.

1 ask you: "Will Slade or Coke bang Lucinda on the pinball table? Who was Uncle Willy? Will Mrs. Mellon return the eggbeater?" My lips are sealed only because I

conked out during the second act.

Barring the previous paragraphs, all was not rotten in the state of Denmark. Director James Jennings ably forced some momentum into this Edsel of an epic, especially when David Orange was on hand. Mr. Orange, a familiar face by the virtue of his numerous television commercials and work on Love of Life, projected a raw sexuality and an innate intelligence that appeared sorely out of place in these mundane trappings. Also John Outlaw, a striking youth, displayed a bravura in a brief bit where he delivered groceries and flirtations. However Harriet Rawlings as the sex-starved gossip could not convince Annette Eunicello liver is more nutritious than peanut butter if her life depended on it. Set and lighting designer Joe Ray could. His skills have improved tenfold since the Thirteenth Street Theater's production of Israel Horowitz's *The Line*. The set

here was appropriately tacky and lived-in.

Searching for a moral, I believe Mr. Narducci states his case best with the following truism: "I love pickles, but a man, is more than a nickle.".....

Amy Irving confronts Richard Dreyfuss in Joel Oliansky's "The Competition."

"It was a project Ray Stark (the producer of Funny Girl) So, were you surprised when he decided to do the film:

"I was never convinced until the day we began shooting that he would go through with it. I always thought that at the last minute he would say, 'No, I don't want to go through with it.' But happily, he did. I was a little amazed that he accepted the idea of playing that role, after all, he loses. But he understood that the strength it took to come back at the end was something to be admired.

The cinematography was beautiful and reminded me of "The Turning Point." Were you influenced by it?

'No, but we all thought that people would say that. What we were trying to do was to get a kind of gold lighting. Dick Kline is a very rich lighting man. He uses soft light in the available places very well and is indeed a painter with color. Sometimes he goes a little too far, but it's my job to bring him back. He is a truly superb cinematographer and what you see is what we decided on. Again, no, we did not run The Turning Point and look at it."

trying to figure out which directors have influenced you Can you lend me any insight?

don't know. The directors that I really love are not directors that I try to copy. Kurosawa is my favorite director. He always has been. I love Hitchcock like everybody else. Coppola, I think, is the closest thing to a genius that we got. But I don't think any director has in-fluenced me. I'm not distinctive enough yet. I haven't found a style. The only style I have is the ability to work off the nervous energy of actors. Directors have only influenced me in the sense that they've made me love the medium.

What would you like to do next?

some point I would like to do a film about Charlie Parker. I just don't know. At this point the only viable person would be Richard Pryor and I don't know how Richard feels about doing a film ever again. You see it is a very tricky project. It'll take about a year to write; the script, because I haven't the faintest idea what jo do with it, But the

The Alvin Ailey Repertorý Ensemble

Ailey at Davis Hall:

Davis Hall is a fairly marvelous place to watch dance. It manages to be spacious yet intimate, and is certainly preferable to a downtown theater such as City Center, where the balcony hovers menacingly over the orchestra, the view of the dance is hindered considerably, and claustrophobia tries to pass as intimacy. The Alvin Ailey Repertory Ensemble recently performed at Davis for three days—Jan. 16, 17, 18—and my only complaint is that someone should turn down the heat. On Saturday, the 17th, a number of people in the audience complained that the auditorium was stuffy.

There was nothing stuffy, however, about the troupe's performance. Saturday's program began with Talley Beatty's "Celebration," and for the most part it was just that . . . a joyous ode to life in the city. Especially playful during this piece was the delicately beautiful Kay Uchishiba, whose mischievous grin and exorbitant energy lit up the

The tempo changed a bit with "How Long Have It Been," choreographed by Marlene Furtick and performed by Renee Robinson. Ms. Robinson pulled off a rather difficult feat she exuded energy while spending a good part of the dance sitting on a chair.

Also worthy of mention were Dianne Maroney, the center of attraction of Penny Frank's "Between Shadows"; and a duct by Susan Dillon and Norman Kauahi which displayed Mr. Kauahi's strength and Ms. Dillon's acrobatic abilities. Also, something must be said about Jeffery Ferguson's legs. They are so thick and muscular you wonder how they're ever going to get off the ground. But they do. At times, they soar Everythody soars, It was a good evening.

Are you dissatisfied with The Campus?

Would you like to see The Campus change? We would. But we need your help.

If you are willing to put in some time and effort, YOU can make The Campus cover issues that are important to you.

Most of our positions are now open—the opportunity is yours! If The Campus has made you angry enough to complain about it, then take our invitation.

ON-CAMPUS INTERVIEWS CITY COLLEGE OF THE CITY UNIVERSITY OF NEW YORK TUESDAY FEBRUARY 17, 1981

Campus Sport

Beavers bow to Pace; Edwards scores 24

By Victor Jimenez
They seem to develop the same problem in the second half. The Men's Varsity slowly loses a lead, then allows the op-position to tie the game and go on to defeat City. It has become commonplace in most of their losses. That was the case last week as the Setters of Pace University defeated the Beavers 69-58 at the Pace University Gymnasium.

So this long road trip has begun on the heels of a three game losing streak, the last two losses (Staten Island and Pace) marking the start of an eight game road swing that will see the Beavers coming home around the second

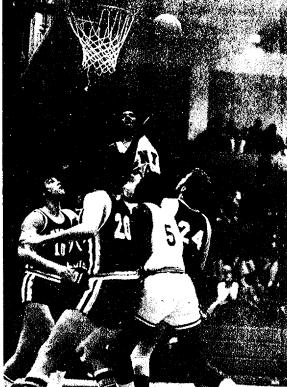

In the first half against Pace City was able to halt the scoring of Pace guard Fred Oglesby who in the past killed City by scoring 20 or more points ten times against them. Oglesby was held to 8 first-half points, 12 overall. During that first half, City outrebounded the Setters 18-17. In doing so, they were able to get their running game going. Beaver guard Henry Edwards led

City in scoring with 24 points.
While City led at half 36-31, Pace was able to keep within striking distance due to the deadly outside shooting of senior forward Luis Cruz, the team's leading re-bounder. "It did keep us close for the best part," said Cruz who finished with 26 points. "City was running crazy on us in the first half and Freddie (Oglesby) was shut down so I had to take the shots. We adjusted defensively in the second half. We played tougher defense and got into a zone that kept making City shoot outside. They're a good team though. As small as they are, they were very aggressive on jumpballs, looseballs and in-bounds passes."

Along with Cruz' hot shooting in the second half, the all-around play of center-forward Mike Faherty was instrumental. He grabbed a couple of strong rebounds and made some key baskets and free throws, finishing with 15 points and eight rebounds. "I was able to get some good passing inside," said Faherty. "Once we started executing as well as rebounding, the game turned in our favor."

Pace coach Stu Wittner said likewise. "We stumbled in the first balf. But it was a matter of

half. But it was a matter of completing the plays. The guys picked up on defensive rebounds and began to execute. City was playing with a lot of intensity and that's a tribute to Floyd Layne."
Coach Layne feels that waning

The Beavers bowed to Pace for their

patience and concernation factors in the defeat. But the game plan told part of the story too. "We were keying on Ogleshy and Cruz, A fair job was done on Oglesby but Cruz wasn't played." The coach communed to stress those areas of communed to stress those areas of patience and concentration as essential in upcoming games. Hopefully, the team can learn from these mental mistakes. They're 0-8 against non-CUNY competition but are going to have to get set in the learn terms. the long run against CUNY

Through the Hoop:

Prace leads series versue City 6-5
... Presently in fourth place in the
Big Apple Conference, Pace came
into the game having lost its last three. Overall, it had lost 6 out of 13 games by less than 3 points . . . Senior guard Johnny Brown's been bothered by recurring leg problem that has kept him out of number of Gruz' outside shooting was just about automatic two points each time he was given the ball. Finished 11-13 from floor and 4-4 from foul line ... City's 3 cheerleaders outclassed three times number of Pace cheerleaders in overall per-formance at midcourt . . . After road game cersus St. Francis this Thursday (8 pm), City faces Northern Division—leading Statesmen of Baruch on Sunday (Feb. 1) at 7 P.M. . . . Beavers need as much fan support as they can get so plan to be at 69th Regiment Armory on Lexington Ave. and 25 Street for CUNY divisional

Layne reflects on scandal and reasons for it

He has always been a monumental part of the college's basketball program. From the day he started as coach of the Men's Varsity back in 1974, Floyd Layne has led the team to four CUNY championships in six years. He was an integral part of the City College team that took the NIT and NCAA championships in 1950, a feat never before or since accomplished by any other team. It was the year after that Grand Slam season that has now become a reference point for a recently alleged ignominy in the world of college sports.

When you talk with Floyd Layne about the alleged point-shaving affair at Boston College, there are un-fortunate memories from the '51 season that he fels should be best kept in their past frame of context. But for the present, the situation calls for some reflection on conditions now and in the future.

"It's an unfortunate situation but a part of our society," the soft-spoken coach said in an interview. "It's a fact of life and reflects our society. When adults, who are looked upon by youngsters with the highest authority, preach to them that honesty is the best policy, the youngsters accept it to mean what it is. But when they (adults) aren't practicing what they preach, it's quite a different story."

Layne considers the youngsters' involvement in

such point-shaving practices as "a self-inflicting wound. These wounds hurt the person or individuals getting involved. They've really done it to themselves Their schooling, education and careers have been interrupted." The Men's Varsity coach points to the

need for more investigation into the weaknesses of youngsters who have put themselves into such a situa-tion "as well as remedies and conclusions to the pro-

Layne believes that his past "could have played a art" in his applying but being rejected for vacant coaching positions on the collegiate and professional level. He is appreciative of those who helped him obtain his education and chance to coach at City. For the time being, he has not applied for professional or major college coaching positions. For the future, in this writer's view, this man's past should not hinder his at-tempt to coach at a higher collegiate or professional level. He has worked with many youngsters to instill in them a sense of strength and character. The local media may use him as a point of reference going back to a time he doesn't want to discuss but, Floyd Layne, in my opinion, has proven himself to be much more than that. He has proven himself to be as good a collegiate coach as any. That's what counts.

City College Coach Floyd Layne

Sports Slant

Swimmers unbeaten

The City College swim learn remains undefeated after their first three meets. The Beavers easily beat Queens and Brooklyn by scores of 63-37 and 62-42 respectively. On January 15th, the swimmers triumphed over William Patterson. The mermen took the lead in the meet's first event by winning the 400 yard Medley Relay. Jimmy Drakopoulos set a new school record in the 1000 yard freestyle with a time of 11 minutes and 7.9 seconds. However, Patterson's swimmers proved to be faster in the event as well as two other events and were able to

narrow the score to 19-15. In the Valedon broke his own school record by swimming a time of 2:05.8. Jose Paulino and Jesus Sanchez made a tremendous contribution by scoring much higher in diving than they have before, thereby taking points away from Patterson. The mermen have a perfect record of seven wins depending on last Saturday's outcome against Adelphi. Their next swimming meet is against Lehman on January 31 (1 p.m.) at the Mahoney swimming pool.

Workout Sessions:

Baseball Workouts start at 7:30 A.M. sharp at the Wingate Gym

nasium every Monday, Wednesday and Thursday.

Lacrosse practice will be held this Friday January 30th from 5-7 pm at the South Campus Athletic

Men's Tennis Workouts begin on February 9th. Workouts will be held at the Stadium tennis indoor courts on 161 St. and Jerome Ave. in the Bronx. Time schedules are: Mon., Wed., Fri. from 7-9 am and Thursdays from 6-8 pm. Women's Tennis workouts start on February 10th. They'll be held at Bill's Indoor Courts on 142 St. and Fifth Ave. in Manhattan. Time schedules are: Tues., Wed. and Friday from

New Baseball Coach

Jerry Schacher has been named to head the coaching slot for the Beaver baseball team. Once a local area scout in the Philadelphia Phillie's organization, Schacher spent the last two years as an assistant coach and pitching instructor for the Mount Vernon Generals in the Atlantic Collegiate Generals in the Atlantic Conegiate Baseball League. The new coach expects the team to be "competitive, hard-working and dedicated." Schacher wants to see a turnaround come about for a team that has had too many a losing that has had too many a losing

Trackers Trekkin:

Derek Alvez, city's ace halfmiler, clocked a time of 1:58.6 at the Dartmouth Invitational Relay Championship two weeks ago. Freshman Darryl Landres ran the 500 yard dash in 61 seconds in an open meet held at the 169 St. Armory. There have been fine performances in the high jump. Sophomore Charles Belton cleared a height of 6'2" at Pratt Institue not too long ago. The event that is generating the most excitement is the 4 by 400 meter relays. The track team came close to breaking City's six year-old record of 3:25.2 when six year-old record of 3:25.2 when they clocked a time fo 3:29.1 at Dartmouth. The relay consisting of Belton (in the leadoff position), Landres, Alvez and Terence Samuels is expected to break the record before the end of the season. The team is looking forward with great anticipation to the indoor CUNY Championships in March at Manhattan College.
