UNITE AGAINST WAR

ARMISTICE DAY will be observed throughout the country tomorrow. The dominant theme for this day ever since its first celebration has been commemoration of the dead. We at City College dedicate our commemoration to the task of preventing any more unknown soldiers.

In the Great Hall, Friday, November 12, at 12 noon, the Student Council Peace Demonstration Committee has arranged a program which is of vital concern and interest to the student body, as well as keeping up the traditions of the school. Recognizing the direct perils inherent in the wars in two parts of the globe, the Student Council in presenting the students with a positive program of action which we believe will serve to assist in the termination of hostilities in Spain and China. Representatives of the Chinese and Spanish consular offices will present the problems of their respective nations. Another purpose of the meeting is to acquaint the student body with ways and means, which they, as American students, can use to prevent American entrance into war. Outstanding points of view will be presented by such individuals as Michael Quill, of the Transport Workers Union, John Haynes Holmes, prominent pacifist, and Raymond Buell, noted author, lecturer and president of the Foreign Policy Association.

We at the college owe it to our boys fighting in Spain to make this a real peace demonstration of the entire student body. Make the Great Hall seem too small for a CITY COLLEGE PEACE DEMONSTRATION!

A united organization of students for peace action will result from this demonstration and you should be represented.

STUDENT COUNCIL PEACE DAY COMMITTEE

GREAT HALL FRIDAY: 12
DEMONSTRATE FOR PEACE!
