Rosenwasser, Gurahian Asked By SC To Vote for Free Press

By Norman W. Friedman

In an atmosphere that sometimes bordered on the volcanic, Student Council met last Friday for eight hours to consider whether its President and Vice President acted in contempt of the SC and of the student body when they voted in last Tuesday's Student Faculty Committee on Student Affairs meeting that there be only one newspaper on the campus.

Before they took up the charge of OP and Campus, the SFSCA decided to create policy which would govern the future of the publications. As the result of a meeting called by President Alan Rosenwasser that "it be the desire of this committee that only one student newspaper exist at this College," the vote was 4 to 4 with Dean John J. Thothing, Chairman of the meeting, not voting.

He recommended that the entire matter be sent to a subcommittee which would be created to study the matter of two publications on the campus.

At the SC meeting AVC representative, William Fortanauto, made a motion which was passed. It recommended that Rosenwasser and Gurahian change their vote at the next SFSCA meeting and that, thereafter, they not participate in any motion to have only one newspaper.

A sentiment of many representatives seemed to be that the SC President and Vice President should resign to the Council on the SFSCA. They felt that they have a right to instruct Rosenwasser and Gurahian on their responsibility as much as the two officers are their staff representatives. SFSCA representative, Theobald, "took issue with Rosenwasser and Gurahian" (continued on page 1)

At Stormy Meeting, Council Seeks 'Real Representation'

By Nat Halebsky

Paul Brown '49, co-chairman of the Unity Council for Democracy in Education, presented a petition for "distribution of an unauthorized publication" last October 20.

The action was taken by the College Disciplinary Committee, chaired by Dean James Peace, after Brown submitted his guilt of charges brought by Albert Hahn, of the evening Session Student Life Department that he had distributed copies of "Free and Equal" on College Property.

The committee made a unanimous ruling that Brown be placed on probation until the end of the semester. It further stated that "he would be expelled from the College for further infractions of the regulations.

Hahn said that Brown had been giving out copies of the newspaper in front of the Main Building when he was asked to stop. Brown replied that he would not, and then submitted the charges to the committee.

At the hearing, held before 30 student auditors, Brown said that "the eyes of the nation are on the campus and on the student body when they have to instruct Rosenwasser and Gurahian on the SFSCA. They felt that they have a right to instruct Rosenwasser and Gurahian on their responsibility as much as the two officers are their representatives. Prof. Karsen, AMG Educator,
Tells of Experiences in Germany

By Professor Fritz Karsen (German)

I left Germany on the night when the Reichstag burned (February 28, 1933). I had been in charge of the experimental school system in Berlin Neukölln until February 21, when I was dismissed. My main object was the education of democratic citizens through new methods of teaching; it was an experiment in democratic living. Both the institutions and the students fought for so long as we the main targets of most insidious attacks coming from the Nazis and their more or less open followers. After a few months families were broken up. Refugees, from the East and from western Germany, found an incredible state of misery. I saw my former colleagues and many of my former students, not about fifty. Those who left had gone through the excruciating process of evacuation camps. They had the best desire to build a better and democratic Germany. They freedom was taken from them; they had the right to try and even material he in for a form of living. Lack of

"The experiment is about to be," we informed. "You know, we have a naive subject."

All over

Finally, the test was finished, and thanking the young ladies for cooperation, we staggered out. Tests are always being conducted by Psych majors on the fourth floor of the Townsend Harris Hall. The complete test of 100 cases takes approximately 3 1/2 hours. Experimental subjects are always tested in naive subjects even if a part-time basis.

Starting for the amays of a coach's dream, the game unfolded in twelve minutes, and the Beav end up running over the young blood of Hofstra.
