One hundred delegates and observers, representing various community, civic and educational organizations, heard Prof. James H. Sheldon, Administrative Chairman of the Anti-Nazi League, charge that the Board of Higher Education has adopted a practice in hiring and promoting faculty members at the College.

At a "Conference to End Discrimination in Our Educational Institutions," Prof. Sheldon stated that the League had investigated the promotional policies of the Board of Colleges, New York City, for the past 12 years.

According to the League's investigation, Post-Graduate Education in Romance Languages had 'been sending political correspondence to members of Congress, wrote the League's designated representative.

**For Student Council Vice-President**

HERB GREENBERG has been on the ballot as a candidate on the ticket. The Administration does not want HERB GREENBERG as SC Chairman because he has only challenged them on the issue of discrimination, the admittance of women into the college, in the past and the present. The American Press is not doing its job adequately.

These were the words of Don Hollenbeck, famed foreign correspondent and analyst of the press on the radio, as he addressed an audience of City College students and faculty in the Great Hall.

In rebuttal, James B. Reston, diplomatic correspondent for the New York Times, the other speaker on the American Town Meeting program, stated that the job of the U.S. Press is to give complete coverage to all important events. No matter what the paper's attitude towards it is. He went on to state, the American Press is doing a better job than any other in the world, but not as good as it might do.

Mr. Hollenbeck, in order to support his argument, cited the Pulitzer Prize winning stories of the St. Louis Post-Dispatch and the Chicago Daily News. He claimed that these stories, which dealt with corruption of Illinois editors by means of graft, were never given adequate coverage by papers outside the state.

Mr. Reston, on the other hand, referred to the quality of the publication in regards to the desire for serious news. He said that sensationalism, comics, and sports coverage were the main factors for the success of most newspapers, but that if a reader wishes serious news, it is always possible to obtain such journals.
