BEAVER '5' RIPS FORDHAM, 66-62

By Herb Kasaurek

Re-light those torchy candes, mother, those hard-to-figure Beavers are still in there doing nothing. Last night they turned back the Fordham Rams, 66-62, in a pulsating battle at the 69th Regiment Armory. This would have been an easy go for the Legion last week when they were taking it on the chin from the likes of Wagner. In the last 13 minutes the Legion has been hotter than Stromboli, and eight of the fans could take the icing on the cake as they pulled away with many of the fans of the Rams. They led all the way. Archie Lipton was high man with 16 points, though he lacked the pizzazz of Captain Irwin Carlson who shot 18. Sharpshooting of Captain Irwin Carlson was definitely the master floor at the end of the first half and the Beavers are still in a battle at the 69th Regiment Armory.

Hillel Drive On to Remodel Buildings;

By Henry Krisch

There's a 4-door Pontiac sedan waiting for one of the people who attend Hillel's dance later in the term. The autos are part of the holdings of Hillel, which would allow discrimination against racial and religious groups.

The question of whether campus organizations should be permitted to exist if they practice discrimination against different racial and religious groups is now the subject of a new Student Council constitution at Long Island University.

Some of the facilities which will be available in the new kitchen, a large record library, and game and study rooms.

Prof. S. Van Veen, Authority on Burlesque, Paints Pictures of Oscillating G-Strings at HP

By Gloria Berzonsky

After fifteen years of scientifically observing bumps, grinds and oscillating G-Strings, Prof. Suyvestra Van Veen (Art) has decided to pass on some of his pleasantly-acquired knowledge of burlesque. This he did, with an appropriate number of "oohs" and "aahs" to indicate that he enjoys the music, the lighting, the dance and the color. HP News, for example, had a selection of which they were particularly pleased.

"When we watch Ava Gardner's film, a movie screen," the
