# Metropolitan Championship at Stake When Booters Encounter Kingsmen

The Beaver booters meet Brooklyn College Saturday afternoon in a game that will decide the metropolitan conference championship. Both teams will go into this game undefeated. Brooklyn College is our traditional soccer rival. City will be gunning for its first

> ◆victory since 1947 in this series. We tied them in 1948 and lost in 1949 and 1950.

The Kingsmen have two All-Americans and five All-City players. Their goalie Sal Catania has not been scored upon this season. Brooklyn defeated Kings Point, 2-0, Pratt, 3-0 and Queens, 1-0.

The Lavender's record is: Long Island Aggies, 6-1, Columbia Soccer Club, 4-1, Stevens Tech, 3-2 Kings Point, 4-3 and Queens, 7-0. The game against Pratt scheduled for last Saturday was cancelled because of rain. It will be played some time next week. This will be the last conference game for the Beavers. Pratt, however, with a record of none won and two lost is out of competition for the Met. title.

Some indication of the strength of the City team is the comparison of the scores of the games against Queens College. Brooklyn beat Queens, 1-0, but the Beavers College vate business" ran the score to 7-0 in their game against Queens.

Coach Rothschild besides having a spectacular first team has an exceedingly strong bench. His charges will have to be at their best to penetrate Kingsmen's formidable defense. Coach Werner Rothschild has confidence that his team will win.

# Panel Picks Five Finalists at Fete; Vie for Carnival Queen Crown Prof. Schukz,

By Neil Dimschitz

In a hotly contested competition, necessitating three elimination rounds in place of the mal two, five beautiful damsels were selected to vie for the title of Carnival Queen, and that goes with it. They are: OP cutse Mirrorn Birmbaum, a 5:5, 124 pound F

mipr; Madalinc Landau, Juneesbrunette education major om the Evening Session: Lois ger. petite 105 pound freshman ducation major: Laurie Abram. 5 foot six inches, 125 pound shman beauty, a math major: ercia Olcheck, 18 year old freshwho formerly modeled faions, while a student at Walton high School.

Queried by this reporter, the otential Queens expressed comlete amazement with regard to eir selection. Responsible for latter was a panel of five. esisting of Professors Raab listory). Diffie (History). Woodof (Psychology). Talett (Ecnmics), and Mrs. Taffet, subbing w the absent Dr. Erlich (Hyg.). ## Walpin Letter **Cites Misuse** NIF Funds

The lack of funds for student assistants is "both unwarranted and immoral," charged the Executive Committee of Student Council on Monday, Nov. 5. A letter sent to Pres. Harry N. Wright and to Dr. Ordway Tead, Chairman of the Board of Higher Education, stated that while the student aide appropriation has been dropped. thousands of dollars have been appropriated from Non-Instructional. Fee Funds (NIF) "as added compensation, over and above instructional budget salaries, to individual instructors and staff members."

The letter, signed by Gerald Walpin, President of Student Council, for the Executive Committee, alleged that supplementary salaries appropriated from NIF funds "circumvent the legally accepted method of setting salary schedules: through the Budget Director and Board of Estimate, within the Budget, and from tax monies." The Committee argued that since NFF funds accrue mostly from student fees and governmental veterans fees, they should not be used to supplement tax monies.

The exact amounts appropriated for supplementary salaries and cut from student aides was unknown, the letter said, because Dean Leslie W. Engler (Administration) refused to reveal the figures. When contacted by OP, Dean Ergler stated that he reigards such information as "the

## Please Help

The World Student Service Fund is one of the few enterprises that is at present actively helping the cause of world reconstruction. We who live in a land of comparative plenty, who are shocked if the steam heat in our apartments of agony, still there is much cause does not work for one day, can hardly appreciate the plight for concern. It would be wise to of those peoples whose homes, schools, churches, and hospitals were destroyed by war. WSSF, however, is definitely aware of the hardships of students throughout the world. not only in those places actually ravished by world conflict. but also in countries which found themselves financially sterile at the war's end.

WSSF has been helping education in these areas with thy and indifference towards a such contributions as textbooks, laboratory equipment, collapsing morality. We have evichalk, blackboards, and even pencils and paper. Obviously, all these items have to be paid for by some one, and that lic interest in the plunderworld is where WSSF steps into the picture. Here at the College, to a temporary stage of high exfor instance, Sigma Alpha sold carnations some terms ago. with all proceeds of the sale going to WSSF, which in turn sent aid to the University of Calcutta. This type of work is constantly going on, with those students who are lucky enough to have what they need helping those who lack the cotics, the basketball fix, the West fundamentals necessary for getting an education.

On Sunday, November 11, a benefit performance of Thornton Wilder's "The Skin of Our Teeth" will be presented by the Theatre Workshop at the Pauline Edwards Theatre. The entire proceeds of the show (\$.85 per ticket), will go to the WSSF to be used as it sees fit to help needy students throughout the world.

It is up to US, as students, to support this wonderful presumptuous of me, as a mem-who have made their way in the cause. In this days of world unrest, it is a privilege to be ber of the slightly older genera-professional and business worlds able to help the cause of world peace and betterment. Be-ition which has made a mess of sides seeing a worth-while show, those of us who attend the present world, to deliver the Sunday performance will be making a genuine contribution to the cause of student progress throughout the world. Let's get behind WSSF by getting tickets for the show TODAY

## What's Wrong With Us?

A Study of Student Morals

## Article II The Student in an Era of Declining Morality

By Louis L. Snyder

In enumerating the reasons for the decline and fall of the Roman Empire, Edward Gibbon wrote of the latent causes of decay and corruption. The face of learning was darkened and the decline of genius was soon followed by a corruption of taste. Morals col-

lapsed as degenracy debased the sentiments of the Romans, enervated their courage, and depressed their talents. Rome became peopled by a "race" of pygmics, as some children always remain

While the situation of the world today is by no means as critical as that of Rome in her late days study the experience of the Roman Empire carefully, if we are to avoid the same disastrous end.

Our own American society is under the influence, at this moment, of a slow and insidious poison, generated by public apadence of this trend in the Kefauver hearings, which brought pubcitement via television. Five percenters in Washington, the involvement of political leaders in questionable financial transactions, the terrible scandal in nar-Point story, tax evasion, business malpractices-all these are segments of a larger picture that, to say the least, is disquieting.

#### The City College Student

What about the place of the City College student in this era of declining morality? It would be sermon on the subject of morality College students are paragons of and ethics. But here is an expres- virtue. As in any society or comsion of opinion.

of City College are much the same many thousands who have been in their general attitude and con-graduated from the City College duct as the students of other there is a normal—and only norcolleges and universities. The bas- mal-supply of those who operate ketball tragedy of recent unhappy on the philosophy that the shortmemory is by no means a reflect est line between two points is a tion on the entire student body, crooked line. But for every one Billel Festical ... dent is obviously in need of the educational system. Whatever the

#### City College a Microcoun

City College is, in effect, a microcesm of our society, subject to the same strains and pressures as the society as a whole. People have varying standards of morality. Some adhere to what is good and right--people who believe in decency, propriety, fair play, and the square deal; there are others who accept indecency, partisanship, foul play, unlawfulness, and mbbing-Peter-to-pay-Paul as satisficitive philosophy of life

Prof. Louis L. Snyder

Both types will be found in any student body.

I am convinced that the vast majority of our students are decent, honorable young men and women, who are understandably perplexed not only by the Sturmund-Drang of early adulthood, but also by the declining standards of the society around them. During my twenty years at the City College, I have learned to respect and admire the students who pass through its halls. These young men and women are not motivated by the desire to become hot-rod specialists. They are serious, earnest, conscientious. They can be judged by scanning the lists of graduates of the College of New York City.

This is not to say that all City munity, there may be decayed ap-In my estimation, the students ples in the barrel. Among the

#### Editor's Note

Professor Snyder was asked to write this article after an Op editor heard him expound his ideas in class. The author of one of our basic texts in history has also co-authored the recent Treasury of Great Reporting The third article in this series by Professor Krikorian (Phile) will appear next week.

> Herman J. Cohen. Editor-in-Chief.

the game is not worth the effort The cheater in College examinations will become a cheater in later life. If his sense of decency remains in low gear, there is nothing much that can be done tor him.

I would say to the students: Hold your heads high!" There is no sense nor accuracy in the repeated allegation that "a degree from the City College does not mean as much as degrees from other institutions." Nothing-not even the death-in-the-family that was the basketball tragedy, can alter the fact that you are attending an institution that is unique in the history of higher education. The academic, business and professional worlds have a considerably higher opinion of City College than have many of its students.

Finally, on the issue of student morality, that student is wise who decides to live by Kant's principle of the categorical imperative: "Act only on that maxim whereby thou canst at the same time will that t should become universal law."

Too many students hear the Ephebic Oath for the first time on the day of their graduation. It is unsurpassed as a personal code of conduct. The student of goodwill should think about it during the entire course of his undergraduate career. It bears repeating in part here:

"We men and women, graduated by the College of the City of New York, do this day, after the manner of the Athenian youths of old about to enter public life, take this oath of de votion to the City of New York: · . . we will strive to transmit this city not only not less but greater, better, and more been tiful than it was transmitted in

# OP Sports Baskethall: Fall '51

Marty Doutsch

On November 24th, the City College Basketball team opens the '51-'52 season against the Alumni, in the Main Gym. This game may set the tone for the other 19 games that are to follow. The opener finds a green, experimental squad. relegated to its own gym, that will encounter tough sledding in the coming winter.

Shattered by corruption, riddled by the draft and other factors the team, for the first time in over two decades, is on the outside looking in at the major hoop powers. The man faced with the Herculean task of leading the Basketeers back to the heights from which they crashed, stood at the window of his office in Lewisohn Stadium, watching the City-Queens soccer game. In this, his 33d year as head-coach, Nat Holman begins another cycle, the first one having ended one Sunday morning with the arrest of several "Grand-Slam" heroes. The name stars gone, the Garden taboo, and the reputation smeared by scandal, the "Coach of the Year" in 1950, must start from the bottom again. Nat turned away from the window. "We've got so many problems this season," he said. "and the sudden shocks we've been getting aren't going to help any."

The ranks of the team have been taking a terrific beating since last spring. The Romans and the Warners are gone. All that remains of the "Cinderella" team is a mixture of sad and pleasant memories. Ray Schwartz, the 6-3 Junior, has been drafted. Co-Captain Herbie Holstrom is skating on thin ice with his draft board. Jerry Gold, a promising six-footer, is out with appendicitis. Vinnie Zoda, termed a good prospect by Holman, has left College to work, and Jerry Bartolema has also left school. Chester Zager has transferred to another College and Gill Allen, Teddy Levine and Irv Blumenreich, who are having scholastic difficulties, may become eligible to compete in February. Three members of the team may have to quit because they are unable to find jobs on the campus. A decision on Larry Myers. Howie Levinson and Shelly Thomas, who have violated the ECAC Chapter by playing "Mountain" basketball, is being awaited. It is quite possible that they will? be dropped from the squad.

This roll-call of losses, real and potential, presents a gloomy picture. Bu the "Old Celtic". Nat Holman, isn't throwing in any towels. "Each season is like a new baby. There are new problems. And every season we're hopeful of overcoming these problems. Give me enough time and I can make a good working unit. Then they'll be a threat." The leading exponent of team-play, or "mesh" basketball paused, then he went on, somewhat more slowly. "We've got a solid four, Arnie Smith, Jerry Domershick, Ed Chenetz and Herbie Holstrom, if the Army doesn't get him. Domershick is the most impressive of the new players. Chenetz is still trying to get into condition and I wish he was twenty pounds lighter. Holstrom is a great help. He handles the ball well, he's a good playmaker and all he needs is a little more conditioning." He hesitated and then began to talk about Co-Captain Arnie Smith. "I don't like to say this beforehand, but I think Smith is a good All-Metropolitan prospect. He's playing very well."

The fifth spot remains open. Nat feels that Moe Bragin could make it, but is "still inconsistant." Bobic Logan, the Frosh star of last season, and 6-712 Dick Watson, round out the core of the varsity club.

Because of the many vacancies. Nat indicated that he may use several members of Bobby Sand's Junior Beavers. Billie Behrens, Bobie Manas and Bobie Baker have already worked out with the varsity and performed well. Holman, however, is cautious about bringing up Freshmen. He feels that "it takes at least a year to develop a player."

This ten is the team that will meet the Alumni on the 24th in: what appears to be the first game of a watered-down line-up of opponents. "We've got a tough schedule," said Nat, "plenty tough. Those Army teams are loaded with basketball talent. And there's! NYU and St. Johns. We've got a tough schedule. We need student support more than anything. We have to keep them interested. This is the test.

The man whose teams have compiled a record of 395 wins and 139 losses got up from his chair and stretched. "We need more backbone at the College for the continuation of Basketball. Just because a few went bad doesn't mean we have to take a step backwards. What do we have to be afraid about? I'll challenge anybody on any irregularities. The boys must do their work. championships don't mean a damn thing if they flunk out of sol. I don't want any athletic burns on the team. They must

. n.\* Coach Holman slipped into his sweatshirt. It was almost time for practice. He walked to the door and stopped. "In the quiet hours of the night." he said. "I have visions that we'll be back someday. And nobody should stop us."

ans, each dealing with a special Building.

This Thursday will mark the problem of war and peace. The opening of a "Causes of War" first seminar of the series, "Psyopening of a "Causes of war chological Causes of War," will be symposium a series of five for presented at 12:30 in the Main

# Rams Nip Beaver Harriers, 24-32

By Joe Marcus

The Fordham Rams handed coach Harold Anson Bruce's Beaver harriers their second loss of the season as they defeated the Lavender, 24-32, at Van Cortlandt Park, last Saturday.

Captain Don Anderson of Fordham was the first man to cross the finish line with a time of 28:20. It was the sixth consecutive race that Anderson has been the first Ram to cross the line. Lou Cascino again was the first Beaver to finish. Lou was in the second position with a time of 28:41. Tom Brown and Harold Bates both of Fordham crossed the line holding hands to tie for third position with times of 29:38 each. John Euphenia also representing Ford-

ture fifth position. The next five mark was forced out of the rate positions were occupied by the Beavers with Gene Rocks placing sixth with an impressive time of 30:31. Turning in times of 30:45 and 31:13 respectively Don Rosenberg and Joe Grevious finished in seventh and eight spots. Tom O'Brien and Herb Jeremias both of the Lavender rounded out the first ten places, with times of 31:21 and 31:43. Paul Pollack of Fordham was the eleventh to

An odd quirk about the finish was that positions of the first seven men was the same as it was at the three mile mark. Anderson with a time of 17:21 was five seconds ahead of Cascino. Kil Kenny of Fordham who occupied ham clocked in at 30:21 to cap- tenth position at the three mile

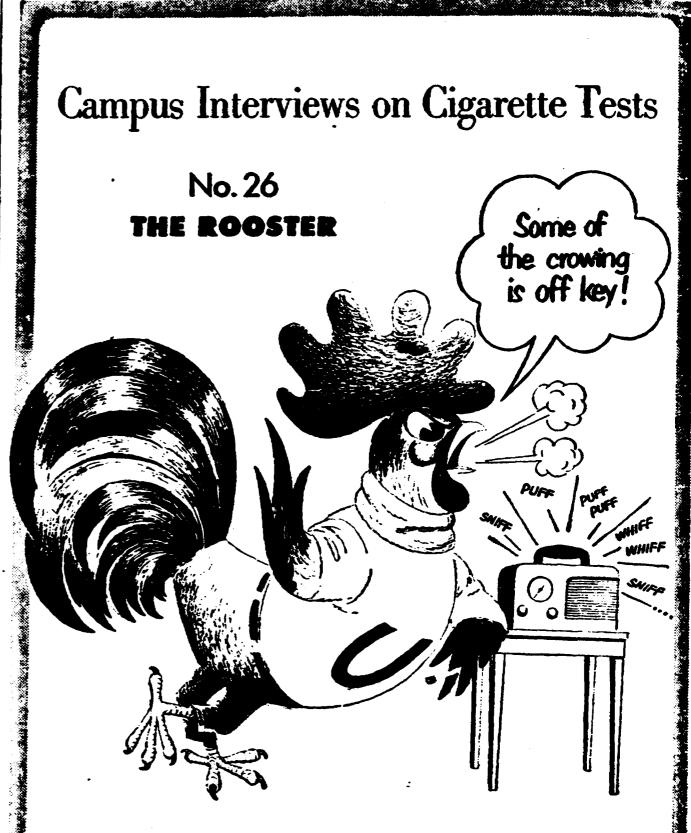

because of a leg injury.

Dr. Harold Anson Bruce stated that he was very proud of the teams showing. He added, "the boys ran the gamest races of their lives." Gene Rocks ran a very fine race recovering from his had

The College Cross Country team finished last yesterday in the Metropolitan Cross Country Championships, Lou Cascine was the first Beaver to cross the line finishing fifteenth. He time was 28:05, his best time this season.

Manhattan captured its fifth straight Met Championship followed by NYU. St. Johns. Ford. ham. Columbia and City.

You have to get up early in the morning to put one over on this cock-of-the-walk! When it came to making "quick-trick" experiments of cigarette mildness, he stated flatly. "That's strictly for clucks"! How 'ya going to keep 'em down on the farm-when they know there's one convincing way to prove cigarette mildness!

It's the sensible test ... the 30-day Camel Mikiness Test, which simply asks you to try Camels as a steady smoke—on a day after day basis. No snap judgments. Once you've enjoyed Camels for 30 days in your "T-Zone" (T for Throat, T for Taste ), you'll see why ...
