Silver Drops Race for V.P., Runs for Pres.

Dave Silver announced on Thursday that he has withdrawn from the race for Student Council Vice-President, thus leaving Halper unopposed for that position. At the same time, he revealed he is campaigning as the "anti-Halper" candidate.

Referring to the withdrawal of Halper, Hamilton, Lederman, and Barry Schlesinger from the presidential contest in favor of Broadus, Silver accepted that the three "have backed a candidate that CCNY problems are completely unknown; who speaks in cliches and slogans; and who is qualified as far as CCNY is concerned are out.

The withdrawal of the three frustrated gentlemen leaves the student body with the choice of an unknown candidate who refuses to commit himself on any issue.

No Major Changes Are Planned for Psych Dept.

By Manfred Intrator

Dr. John Gray Peatman, new chairman of the Department of Psychology, expressed the opinion that some of the best opportunities for the field of Psychology are to be found in Clinical and Industrial Psychology. Both fields have gained great impetus from the last war. Peatman added that the teaching aspect of psychology shouldn't be overlooked.

Advising psych majors against over-specialization, he recommended that they place great emphasis on related fields such as Biology, Mathematics, Sociology, Economics, Anthropology, and Physiology.

Regarding possible changes in the department, Dr. Peatman said, "We are quite satisfied with the Psychology Department as it is now, and contemplate no major changes."

There will be a couple of minor changes in the Experimental Psychology being raised in credit from four points to six and five respectively, and the elective course "Contemporary Viewpoints in Psychology" being made required for psych majors.

Closer integration between under-, graduate and graduate stalls will be emphasized. Dr. Peatman denied that the Graduate School is turning out of town students by pointing out that 80% of the graduate students come from the metropolitan area.

Zauderer, ROTC Captain, Leaves College and Army

The face of Capt. Charles Zauderer of the ROTC staff will no longer be seen on the campus. He has completed his 17 months tour of extended active duty and has received a notice from the Department of the Army ordering him to report to Governor's Island. It is there that he will obtain his release.

Capt. Zauderer was in charge of all drill for some months could be seen almost daily in Lewisohn Stadium, drilling a company of the Corp. He rose from the rank of private to captain while serving as a parachute test jumper and later as head of the radio section of the Parachute Communications School.

Capt. Zauderer served overseas in the Philippines and Japan, and at the end of his tour of duty was serving as Regimental Communications Officer of the 180th Parachute Infantry Regiment of the 11th Airborne Division.

Capt. Zauderer's departure will place a greater strain on the already understaffed ROTC staff. In addition, two more officers are expected to leave before the end of June. However, it is hoped that some of these positions will be filled by next September, despite the army's shortage of commissioned personnel.
