

Drug Addict Held by Cops As Coat Thief

At 12:45 yesterday afternoon, an alleged "coat-snatcher," Donald Plummer, 22, was apprehended in Knittle Lounge by two students, Aaron Brownstein and Murray Pitkowsky, after he had been seen walking off with a student's coat under his own.

Plummer, not a City College student, was forcibly taken up to Student Life to await the arrival of the police. When asked by Dean Peace about the validity of the charges, he vehemently denied stealing the coat, claiming that while he was picking up his own coat, he accidentally walked off with the other one as well.

When questioned as to his presence in the school, Plummer said that he had come to eat in the cafeteria.

The coat which Plummer is alleged to have attempted to steal, belongs to Manfred Luttiger who intends to press charges, "in the hope of aiding to stop this type of thing."

Plummer was taken to the 30th precinct soon after his apprehension and questioned further. Detective John Furlong, the arresting officer told OP in an exclusive interview that the accused, upon questioning, finally admitted attempting to steal the coat. He maintained however, according to the detective, that this was his first effort at City College. The suspect told the police that the idea of stealing coats was given to him by a "friend," who told him that if he needed money, he could pick "things" up at City College.

Detective Furlong further revealed that Plummer admitted being a drug addict, a habit which cost him \$18 a day to maintain. While being questioned at the police station, the accused is said to have begun retching and begging for dope.

Plummer was described as being a native of Baltimore who has been in New York for the past three years, and gave his address as 3026 Fifth Avenue. Detective Furlong said that Plummer is the type who "floats from the YMCA to the Salvation Army to cheap flop-houses."

Open Hearing Suggested In Lanzer Case

In an interview with OP Professor Warren Brown of the Sociology Department revealed his reasons for not signing the statement which the Sociology and Anthropology Department issued last week.

The Department statement defended Professor Burt W. Aginsky (Chairman, Sociology) of charges of anti-Semitism which were leveled against him by Mr. Irving A. Lanzer, former lecturer of the department, and criticized OP for "irresponsible journalism."

Professor Brown said that he did not sign the statement because he believed that the story which brought to light the charges made by Mr. Lanzer against Professor Aginsky was not proof of "irresponsible and irrational journalism."

Speaker at Education Society Gives View on Loyalty Oaths

By Molly Roland

In a follow-up of Dean Egbert M. Turner's (Education) speech two weeks ago on loyalty oaths, the Education Society presented Mrs. Bertha Davis, who spoke last Thursday on "Non-academic Requirements for Teachers." Mrs. Davis is an assistant in the Social Studies branch to a member of the Board of Examiners.

Every prospective teacher who hopes to get a teaching license in New York City must be passed by the Board of Examiners. Besides the obviously necessary scholastic requirements, Mrs. Davis tried to explain what else the Board wants and the screening process by which it sets it.

Mrs. Davis pointed out that the teacher must embody the qualities of mind and character she wants to develop in the students. These qualities must include a "deep, personal devotion to democracy and American institutions" which, according to the speaker, must permeate the teacher's thinking.

To pass the Board of Examiners which is under oath to adhere to the qualifications set up by the Board of Education, the student must take an oral and written exam as well as interview test. The officials of the College from which the applicant came, are asked for endorsement of the candidate. The official may endorse the candidate fully, or else he may mark the application "approved with hesitation or reservations," or "cannot endorse."

The speaker was insistent upon the right of the College to check on the loyalty of any student. In reference to the recent example of a student not being certified by the school because of "loyalty," Mrs. Davis said that Dean Turner had the right not to certify the student and it was his privilege to do what his conscience says.

Dean Turner was asked by OP to give his opinion of the Student Council resolution condemning loyalty oaths. He refused to make any comment on this matter, as well as on any further developments in the case of the student denied state certification.

SC Considers Resolution Opposing Dean for Pres.

By Fred Borota

Student Council, Friday night, sent to a special committee consisting of Executive Committee, a resolution expressing dissatisfaction with Dean Morton Gottschall (Liberal Arts) as a possible successor to President Harry N. W. The committee will report back to Council with their recommendations at this week's meeting.

Gerald Walpin Proposes resolution

The resolution, as proposed by Gerald Walpin, last term's SC president, contrasted Dean Gottschall with President in the following words:

... whereas President Wright, during his term in office, has shown the qualities necessary for a good college president, that of reciprocal respect between him and the rest of the College Community.

"And whereas Dean Gottschall, while showing his abilities as an administrator, has not, in any way, proven his having the following qualities:

- 1—that of being able to work with students.
- 2—that of having the respect of the student body and the rest of the College Community."

Irwin Schiffres, SC President, speaking in favor of referring the resolution to committee, said that Council should wait a week before considering this motion.

... that Student Council go on record as opposing any possible appointment of Dean Gottschall as President or temporary President."

The motion also provided for SC to "send a three man delegation to appear before the Board of Higher Education Committee to deliver the opinion of SC."

Later in the evening Council elected Ernst Hauser and Jay Fischer to the Judiciary Committee. Mark Maged was elected chairman of the Judiciary Committee. Other committee chairmen elected were: Lenny Lederman (Civil Liberties), Herb Viebrock (Facilities), and Irv Hahn and Dick Mollicone (Boat Ride).

Communists Caused Fall of Republic, Franco Has 'Negative Strength': Diffie

Speaking on the Spanish Falange movement and its philosophy at the History Society meeting last Thursday, Professor Bailey Diffie said: "We can't expect military or moral strength to come out of an alliance with Spain. Any bases in Spain will be of no aid because it is much nearer to Russia."

The professor, who lived in Spain for many years, feels that the average Spaniard cannot be depended upon to fight against the Russians. The Spanish people do not see the world situation clearly, Professor Diffie said, and they feel that the worst that can happen if Russia wins is that they will shout "Viva Stalin" instead of "Viva Franco."

The strength of Generalissimo Franco is a "negative strength." By this the professor means that Franco's strength lies in the fact that there is no able leader for the people to turn to in the event that the "Dictator" is overthrown. According to Professor Diffie,

the reason for the fall of the Spanish Republic was the Communists. While Hitler and Mussolini were openly giving aid to the Generals in the war that they secretly plotted, the Reds "selling" aid to Spain. They insisted that the fight on after they pulled their "International Brigade" and they actually shot to death republican soldiers who refused to fight.

Prof. Bailey Diffie Speaks on Spain

Today even the Catholic Church has begun to talk against Franco. The Falangists may capitalize on Franco's death, but Professor Diffie says that no matter how bad Franco is, Spain will not be the consequence of another war out of fear of a better world.

Letters . . .

Dear Editor:

In your first issue you spoke of possible candidates for the presidency of the College. You included the name of Dean James Peace of student Life as a person eligible for the office because of his "caliber," "knowledge of the unique situation at City College," and his interest in student activities. The Y.P.A. feels that Dean Peace has demonstrated none of the aforementioned qualities, and would, moreover, be a most regrettable choice for the presidency.

Dean Peace has consistently shown a contempt for students' rights and struggles. Last term he began by intimidating Mr. Lisle Greenidge, a 40 year old Negro student who became chairman of the Non-Partisan Committee for Paul Robeson's appearance at City College. He called Mr. Greenidge into his office, screamed at him, and accused him of being chairman of a non-existent committee. In treating a person of Mr. Greenidge's age and dignity in such a manner, Dean Peace displayed evidence of racial bigotry, for it becomes apparent that if Mr. Greenidge were not a Negro, Peace would not have spoken so disrespectfully. Yet Peace went ahead to treat as a child a person the age of any of our parents.

Secondly, Peace demonstrated his anti-intellectual attitude and consequent unfitness for posts in higher education by stating as a personal reason for voting against Mr. Robeson's appearance, "I do not think a person of his ilk will make a positive contribution to the cultural program at City College." This statement may be seen as an attempt to widen the area of subjective administrative decisions as to who is and who is not acceptable to the ears of the student body. Such decisions are forms of censorship and various violations of academic freedom. They mean that Dear Peace takes it upon himself to determine whose contribution is acceptable and whose is not.

Peace repeatedly poked fun at serious student struggles for academic freedom. For instance, on one occasion he showed a representative of YPA a phony motion picture supposedly by the General Faculty Committee rebuking SFCSA for denying use of Great Hall to Mr. Robeson. The student reported this to other members of YPA, who were on the point of calling the press when it was learned that Peace was only "joking." When reproached for this assinine stunt, Peace manifested surprise, and declared that he did not think the test would be unintelligent enough to believe that

the General Faculty Committee would ever render such a decision. He also said, "Would you believe a notice announcing that the American Legion was inviting Paul Robeson," thereby equating the policies of the Legion with those of City College. He also indicated, by these remarks, that the General Faculty Committee is impervious to logical appeal, and is irrevocably committed to a policy of repression.

On numerous other occasions, Peace censored club leaflets and degraded individual students. Once, at an SFCSA meeting, he declared that rather than invite Mr. Robeson to the College he would give him "a one-way ticket to China." On another occasion, Peace asked a student, "Do you love Stalin? Do you read the Daily Worker?" and "What is your draft classification?"

Are these the "characteristics" desirable in a City College president.

Camp Marion Holds Bonfire On Fri. at 2

This Friday at 3 P.M. in the stadium, a bonfire is being sponsored by the Camp Marion Committee. The conflagration will climax the committee's "City in the Country" program. This fire will not just be an ordinary one that you might see around town. It will include chairs, tables, and other nondescript discarded furniture. The highlight of the performance will be the burning of an ancient piano, and naturally that old standby, firewood, is expected to make its appearance. It can safely be said that a hot time will be had by all.

Another House Plan function will be the showing of the outstanding motion picture, "The Quiet One." On Sunday night, March 23, there will be an upper class showing of the film and general showings the following afternoon, Monday March 24th. As always, all those who wish to come are welcome.

In addition to the equipment and instructional aids which will be on display, there will be short speeches by President Wright and Col. Malcolm Kammerer. Refreshments, consisting of coffee and doughnuts, will be served by cooks from the 80th AAA Battery.

The event has attracted the attention of the New York papers, a number of which are expected to publicize it. This brings to mind last year's review at which time the story was carried by virtually every New York paper, and was sent throughout the country via INS and AP. From all indications, this year's ceremony will be even better than last year's and will be a major event of the Spring Term.

Hoopsters Bow to Fordham 55-52; Domershick Sinks 20; NYAC Next

By Les Derfler

Thanks to their superiority in height, experience, and bench depth, Fordham handed the hoopsters their tenth loss of the season last Saturday night, 55-52, but not before the Beavers threw quite a scare into the Rose Hill camp.

The Lavender quintet capitalized on a zone defense and were in front nearly twenty-seven of the forty minutes, in a game witnessed by approximately 1000 persons. The Beavers broke away to an early 9-3 lead, which wasn't relinquished until late in the third period when Ram Cap-

utes had gone by in the third period. They led by a point the end of the quarter, 45-44. With but five minutes left in the game, the Rams began freezing the ball. It was at this point Bobby Logan entered the game. Fordham continued her stalling tactics, waiving foul shots in order to retain possession of the ball until the final buzzer sounded. Final score 55-52.

In the preliminary encounter, the Fordham J.V.'s romped to a 64-35 triumph over the Beaver freshmen.

Although Christ netted 15-points to go over the 1000 point mark, scoring honors went to Jerry Domershick, who, with 9 field goals and 2 fouls, totaled 20 points. Fordham's big gun of the evening was Ed Parchinski, the 6-2 sophomore, who scored 17 points.

Campus Interviews on Cigarette Tests

No. 35..

THE LARGEMOUTH BASS

Always a sucker for attractive bait, our aquatic brother went off the deep end and got caught on the quick-trick cigarette hook! But he wormed his way out when he suddenly realized that cigarette mildness can't be tossed off reel lightly. Millions of smokers have found, too, there's only one true test of cigarette mildness.

It's the sensible test—the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

Swimmers Rip Kingsmen for 5th; Mets Fri.

By Steve Marburg

In their final dual meet of the season, the CCNY swimmers swamped Brooklyn College 51-33. The Kingsmen were no match for the Lavender who won six of the ten events and placed in the three others.

The big surprise of the day was John Tiernan's double victory over Howard Schloemer in the 220 and the 440. Schloemer had previously been undefeated in league competition. Both Schloemer and Tiernan hit their best times to date. The latter in winning the 440-yard free style established a new Brooklyn College record. Schloemer will get another crack at Tiernan this Friday in the Metropolitan Finals.

Norm Klein

Fulladosa's second place in the 50-yard freestyle, in under 26 seconds.

Coach Jack Rider is pretty optimistic about the Mets. With the Medley Relay hitting its best time of the season against Brooklyn and the 400-yard freestyle relay being just about the best in the city, he has a right to be. Another factor is that Norman Klein, last year's Met backstroke champ, has chopped about four seconds from his own record time. De-

Jack Rider

spite his tremendous improvement Klein will have to go pretty far to beat Curran of Fordham and Matejka of NYU. Boiling things down it should be nip and tuck between NYU and CCNY, with the 400-yard relay being the deciding event.
