Student Council Passes New Resolution on Loyalty Oaths

A new resolution dealing with loyalty oaths on college campuses was passed by the Student Council at its meeting on Friday night. This resolution was substituted for Council's resolution of Jan. 16, 1952. In the original asking Dean Eggenberger to classify all students "in their best of his knowledge," was made the recommendation that the Dean certify all students as loyal unless he has evidence to the contrary which either would be admitted in a court of law or which he is required to consider by state law or by regulations of the State Board of Education.

Another change was in the wording which was somewhat toned down. Such words as "informers, blacklist, are not in the new motion. Herb Greenberg, a former member of SC Exec, said that the wording was loaded but it was loaded to beat something that's hateful." Henry Krushak, one of the makers of the motion, said "loaded words were wrong regardless of the purpose." The new wording, which was introduced by six members of Council, contains this central idea: "That objections or objections on college campuses which involve the application of evidence not admissible in a court of law."

The original resolution was resubmitted to the new motion for consideration of the motion of the makers of the motion, said Herb Greenberg. A group of students who expect to attend college next semester must file election cards with the registrar's office by tomorrow. Both required and elective courses for the student intends to take next semester should be listed.

Lanzer Speaks to SC Commit; Plan to Hear Prof. Aginsky

The Civil Liberties Committee of the Student Council heard Mr. Irving Lanzer give his views on the Lanzer-Aginsky case last Friday. Mr. Lanzer spoke on his non-reappointment by the Sociology and Anthropology Department. This was the first step in the Civil Liberties Committee's investigation of charges of anti-Semitism against Professor Burt W. Aginsky (Chairman, Sociology). Mr. Lanzer's talk, and the idea of "big brothers" Freshman Advisory, was approved by the Honor Committee to go by its wishes and the original asking Dean Eggenberger to classify all students "in their best of his knowledge," was made the recommendation that the Dean certify all students as loyal unless he has evidence to the contrary which either would be admitted in a court of law or which he is required to consider by state law or by regulations of the State Board of Education.

The Bloodmobile is once more coming to the College. Two different groups will be heading the drive to secure blood. The Pershing Rifles and the Webb Patrol are heading the campaign to secure 480 pints from students in the ROTC, which includes the Omega Nu Chapter. These drives are headed by the directors of the student body. The blood collected from ROTC students will in all probability go to Korea, while the other blood is headed for the City College Blood Bank.

The need for blood is greater at this moment than it has ever been in the past. As many of you as possibly can be urged to give NOW! The blood you give may save the life of some one dear to one of our own students or faculty members. It is not much to ask for one pint of blood. You'll never miss it, and its absence in Korea may cost a life.

It matters not whether a student agrees or disagrees with the purpose behind the conflict in Korea. Blood is being spilled on the battle-scarred fields and valleys of the peninsula—blood which must be replaced in order that young Americans who come to such an end will not be faced with an accident of birth which made us fortunate to be able to attend college, many of us could easily be in Korea at this minute.

The weather may not show it, the calendar may not indicate it, but Spring is definitely in the air. The College baseball team held its first pre-season workout last week.

Amidst the hubbub of baseball continuing at the Verrazzano Stadium, coach Sol Shkolnik, beginning his fifth sea- son as head of C.C.N.Y., can be heard whispering his team into shape as a great team can be. The team which opens at Columbia in April will make a tremendous impression on the opening of 1952.

The team seeks to better an outstanding record of last year and improve on its fourth place standing in the Metropolitan College Baseball Conference. "Our infield is good," said Shkolnik, "probably the strongest part of the team. We have Ted Soloman at first base, Larry Cutler and Mel Baden around the middle sack, and Dicky Dickstein in third. And with ample depth in our inner defense it is as good as any in the Conference. Our pitching staff is little better than mediocre. I'm counting on two veteran right-handers, Warren Neuberger and Neil Bank, these two will form the nucleus of our staff.

"With some good freshmen coming up, I haven't decided on my starting outfield yet. Of the freshmen, George Montouse and Jerry Cohen, a freshman, have the most to offer. He names his names, and you'll see why..."

While their growing pains the. press, snatch, and the clean and middle sack, and Dicky Dickstein

Swordsmen Foil West Point 14-13
Schwartz, Byron, Goldsmith Win

By Joe Maranz

Spurred by the expert fencing of Roy Schwartz, Bobby Byron and Hal Goldsmith, the City College Fencing team defeated West Point, 14-13, for its fourth victory of the campaign. Schwartz, Byron and Goldsmith won all three of their bouts to give the Lavender and Black nine points. With City leading 14-11, Harvey Miller, substituting for Murray Reich, overcame a 2-1 deficit to defeat Army's favorite, Roy Schwartz, participating in his first bout of the afternoon, defeated Bill Grace, 5-3. The Cadets captured the next three even bouts, and when Charles Piperno suffered his second loss of the day at the hands of Hill, 5-2, the Beavers trailed 7-3. The Lavender captured four out of the next seven bouts, to cut the Cadets lead to three points.

Charlie Fields, 10e Beaver high-jumper, clearing the bar at 6' 4". Fields has achieved this height four times this season. In the Metropolitan Sr. Championships and the Metropolitan AAU tournament, his jumps of 6' 4" gained him first place ties. His current jump of 6' 4" gained a tie for third place, while in the Milrose Games, he wound up in a three way deadlock for second place. A High Jump of 6' 9 1/4" set a new record in the Met. Jr. Championships in which Charlie shattered the old mark of 6'3 1/4.

Cadets Defeat Sharpshooters

"Continued from Page Three"

were the only other men to break 270. They fired 271 and 270 respectively. Henry Brockhagen and Howie Sodler did the rest of the Lavenders' scoring with marks of 280 and 266.

Coach Taylor's charges now stand 5-4 on the season, counting the West Point match. This event did not count in the Met League standings, and leaves the Beavers with a 6-3 conference mark.

The loss was no disgrace, for the West Pointers have consistently come up with the best teams in the country in past years.

The riflers next match will be against Seton Hall, next Friday, at the Lewisohn Stadium range.

Lengths of matches have been cut in half, on the City range, by the opening of five new alleys, thereby doubling the number. Team totals are determined by the scores of the first five men of each team. Firing is done from three positions: prone, kneeling and standing. A perfect score is 300, ten shots, base taken from each position by every man.

Boxers Lose

C.C.F.'s Boxing Team sustained its second loss of the season, 5-3, at the hands of a rugged Navy Squad from the U.S.S. Ordinance, last Tuesday night at the Navy Hall in Brooklyn.

In their only previous outing, the Beavers were trounced by Catholic University by a score of 8-1-1/2.

Ronald Elyshovski won the only victory for the Beavers, over the Navy man.

The results were:

Beaver, Navy, defeated 4-1.
Beaver, Navy, defeated 4-1.
Beaver, Navy, defeated 4-1.
Beaver, Navy, defeated 4-1.

Be Happy-Go LUCKY!

LUCKIES TASTE BETTER!

It takes fine tobacco to give you a better-tasting cigarette. And Lucky Strike means fine tobacco. But it takes something else, too—superior workmanship. You get fine, light, mild, good-tasting tobacco in the better-made cigarette. That's why Luckyes taste better. So, Be Happy—Go Lucky. Get a carton today!

It's good to make a Lucky Smile;

But it takes something else too;
That's why Luckyes taste better.

George A. Taylor
Northwestern University

L.S./M.F.-Lucky Strike
Means Fine Tobacco

Lucky Strike cigarettes take just a second more to light than other cigarettes. So we make just 300 seconds more of preparation than the others.

But the difference is there in the finished product. Lucky Strike cigarettes are the result of 21 years of research and scientific development. They are made from a blend of fine tobaccos, selected by a panel of experts who have spent their whole lives in the tobacco business. The result is a cigarette that is smooth and mild to the taste, rich and satisfying to the smoker.

It's no surprise that Lucky Strike cigarettes are the most popular brand in the world. They are the choice of smokers everywhere, from the East Coast to the West Coast, from the North to the South. And they are the choice of the millions who have tried them and found them better than any other cigarette.

So, the next time you smoke, make sure it's a Lucky Strike. You'll be glad you did.
