Jenner and Velde Defend Current Investigation of College Communists

By PETE KACALANOS

Senator William E. Jenner (R., Illinois) and Representative Harold H. Velde (R., Illinois), in ajoint address in the April issue of "Alumnum," the University alumni magazine, both expressed their beliefs that congressional committees should investigate and expose Communists in U.S. colleges.

Senator Jenner is chairman of the Senate Internal Security Subcommittee recently investigating colleges. His Alumni article, "Exposing the Conspiracy," defended his Committee's purpose as one that is to "protect and safeguard academic freedom," and not one that infringes upon academic freedom.

The Republican Senator declared that there is definite danger of alien conspiracy in the country's colleges. Senator Jenner said that his Committee has "overwhelming evidence . . . that there is a small but dangerous group of Communists in many schools and colleges. . . . The Democratic Senator has sworn testimony before official bodies that the network is operated from Moscow through the Soviet disciplinary organs in the U.S., with its agents in many schools and colleges.

Senator Jenner concluded his article with the declaration that "Our committee is not concerned with telling the leaders of our schools and colleges what to teach, or how to teach. It is concerned with showing where this alien conspiracy is hidden, that it is fully armed with every weapon, waiting to attack at every vantage point. It is concerned with helping our academic leaders to meet the threat. There can be no academic freedom until this Soviet conspiracy hidden in our schools and colleges is exposed.

TRIPLE THREAD MAN!

The Brains of the Team

Teamwork can work miracles. In a football game the man who sparked these miracles is the quarterback. He's the man who calls the signals. There's a man who calls the signals for an Air Force flying team, too! They call him an Aircraft Observer.

Do YOU have what it takes to become an Aircraft Observer? It isn't easy. It's tough. You have to be a MAN to qualify as an Aircraft Observer. But when you are one, brother, you're SOMEBODY! The success or failure of a mission involving over a million dollars worth of flight equipment depends on you.

THE AIRCRAFT OBSERVER IS THE SOMEBODY WHO:

As Bombardment Officer, it's number one man on a bombing run, the man who controls the plane in the target area! As Navigation Officer, he's the pilot's guiding hand on every flight! As Radar Officer, he's master of a new science and operator of the device that sees beyond human sight! As Aircraft Performance Engineer Officer, he's the one who "keeps the plane flying", the man who knows his plane inside and out, who keeps it fit for the skies and sees that it stays there!

If YOU can accept a challenge like this, YOU'll take your place beside the best—you'll find your future in the clouds!

TO BE QUALIFIED you must be single, a citizen, between 19 and 25 years old, have had at least 2 years of college and be in top physical shape. If this describes you, then YOU, too, can qualify. Today!

AND THEN, AFTER GRADUATION, YOU'LL win your silver wings, and earn more than $5000 a year as an Air Force Lieutenant. You'll enjoy an adventurous, exciting career with a hand-picked crew of real men. You'll BE THE BRAINS OF THE TEAM, A TRIPLE THREAT MAN . . . as a Bombardment Officer, as a Navigation Officer, as an Aircraft Performance Engineer, as an Aircraft Observer Program.

THE SOONER YOU APPLY, THE SOONER YOU FLY!

For details, visit your nearest Air Force Base or Air Force Recruiting Office. Or write to Director of Training, Headquarters, USAF, Washington 25, D.C., Attention: Aviation Cadet Branch. If you are in a school that has an Air Force ROTC program, or your Professor of Air Science and Tactics.

Reasons to be decided:

Other question to be decided:

A proposal that there be no classes Tuesday from 12 to 2 in addition to the Thursday break will be considered at the Inaugural. Both days were allotted to club meetings, more clubs could exist, it is argued, and this idea was rejected last term by those who maintain that profits from candy machines, pin sales, and the like should be used instead of upping the fee.

Throughout the term, we have often decried the "punk system" under which Student Council operates, and have called for a thorough reorganization of SC. The referendum on tomorrow's number 6 ballot for reorganization of Student Council is thoroughly inadequate. We strongly urge all students to vote NO on this measure.

The place is empty. The day is Sunday, May 17th, and why anyone be here when they can be upon the briny?

Gaily sailing everywhere, the good ship Robert (named after the inventor), reverberates with the squawks and indents. Metriaseat is the order of the day.

There's still time to get in all the excursions. The Student ides, a perennial affair, will leave Pier 3, nestled at Montauk Street, at 8:00 ante meridian. Tickets can still be had for a pittance $2.00 (per couple) and a student activities card stub No. 1 in Room 208.

Professor O’Connell, who has served in the College’s Geology Department for thirty years, plans to resume his teaching after his term as Chairman expires at the end of this semester. “I feel that the Chairman loses his opportunity to keep up with the subject matter of the course,” explained the retiring Chairman. “I would rather spend more time with students.”

Professor O’Connell added “it’s time for younger men to carry on routine duties. I feel my efforts to build the Department are completed.” He will continue as Director of the College’s placement in the summer camp.

In high school he alternated between second base and left field, and was stationed in the outer garden for the Beaver freshmen when he committed three errors in his first game. He has had several offers but has not yet decided anything definite. However, he has always been a Giant fan so perhaps

League Leading Mishkinmen Face Wagner this Saturday

By JERRY STEIN

The City College baseball team will face Wagner College, currently in second place in the Met Conference, this Saturday afternoon. The contest will be held at Staten Island, home of the Sea Hawks. If Wagner completes its series of games against Warren Neuberger, sporting a magnificent 6-0 conference record, it is slated to face the men from Grymes Hill for the first time this year. Don Finley will probably pitch for the Staten Islanders.

In their previous contest with Wagner, the Beavers beat the Sea Hawks 3-2, on April 27, as southpaw Steve Weipstein threw a near three-hitter.

The team edged closer to its first Metropolitan Conference championship by beating Brooklyn College, 6-0, Monday at Babe Ruth Field. Warren Neuberger, the outstanding pitcher in the conference, pitched a two-hitter, while he and his mates clubbed two batters for eight hits, including two batters for four hits, including two home runs.

The victory was the seventh for coach Sol Mishkin's charges, and the sixth for big Warren who has been the vital cog in the team's 7-2 record thus far this season.

The tail righthander began rather shakily, walking the first two men, Larry Richie and Gus Fransa. However, only one more batter faced him in the innings because, while he was pitching to Bill Anderson, catcher Jim Cohen picked Richie off second and nailed Fransa attempting to steal.

As for his future, Warren hopes to pitch pro ball. He has had several offers but has not yet decided anything definite. However, he has always been a Giant fan so perhaps

Tracksters Lose to Hofstra, 82-58
Meet Marred by Unpleasant Incident

The City College Track Team was defeated last Saturday by Hofstra College, 82-58. The team now has a 1-1 record.

In the mile event Tom O'Brien and Paul Pardoe placed first and second respectively, while in the two-mile event, the Lavender placed first, second, and third thanks to Bob Armstrong, Gene Forvey, and Don Rosenberg.

An unpleasant incident occurred during the running of the half-mile. As the race was progressing, a Hofstra man attempted to pass one from City. Instead of making sure that he was not interfering, the runner from Hofstra pushed the City man. The Hofstra coach would not disqualify his man, and the Lavender trackmen threatened to leave the field. After about 10 minutes of deliberation Coach Bruce decided that it would be better to resume festivities.
