SC Places Merger on Ballot Again; Rejects OP’s Plan for Two Newspapers

By Joan Snyder and Jack Levine

Student Council reversed a previous decision of its Elections Agency, and declared Phil Lotter eligible to run for the next term's
SC President, at its meeting last night.

Herbert Viebrock and Ernie Cohen have announced that the Student Council's elections agency had annulled on Tuesday night's vote that Mr. Lotter was ineligible because he was not a day session student. Mr. Lotter also tallied up the council in both the day and evening, and carried a majority of his credits in the evening.

The council's decision on Lotter was seven to vote in favor of Mr. Lotter. Will thus be placed on the ballot with two other candidates for the top spot, Manny Halper and Ira Kiosk.

College-wide elections will be held on December 18.

The council also acted last night by a tie vote to four to count place from Pudl's name on the ballot - a candidate for Treasurer.

Vote on Referenda

In another action taken last night, Councilors-at-large to place seven referenda before the student body, next Friday.

By a vote of three to margin, the council decided to ask the students questions concerning the selling of the CCNY Messenger, the limitation of students to Soviet Russia, unique with the proposal made by Swarthmore College in its delegation be sent there coming summer.

Quintet Downs Knights, 71-60

Froz. N. Y., Dec. 9-Led by

- the sparkling all around play of Merv Shorr, the Beaver hoops won their third straight game of the season by defeating the pack, but determined Queens College quintet, 71-60.

Sherr led the Lavender attack with 20 points. Captain Jerry Domershick was second high scorer with 13 and Herb Holmstrom followed into the double figure column with 11. Sherr, from St. Knick left the court after the first half with a scant 31-30 advantage.

The men from St. Knick left the court after the first half with a scant 31-30 advantage. The game of the season by defeating a weak, but determined Queens of students to Soviet Russia. The council carried a majority of its credits in the evening.

The Observer Post and The Campus on the ballot.

Student Activities Fee, this daily between the two papers is now a single daily newspaper. The decision came at 8:55 PM at the conclusion of a six hour meeting, which was called to consider the election ballot.

An OP-sponsored proposal that the referendum should include, as an alternative, a daily paper composed of the two existing newspapers, each coming out every other day, was rejected by Council in a 9-11 vote.

Lotter Can Run, Council Declares

--- OP Editorial ---

Merger Again

In an almost unbelievably irresponsible move, Student Council once again put the question of a merger of The Observation Post and The Campus on the ballot again.

Furthermore, the referendum they have adopted is worded in such a way as to suggest that the only way to give the students a daily newspaper is through merger.

This is an unarguable lie—and no one knows this fact better than the perpetrators of the lie themselves.

Here are the facts. The student body has, in referendum, defeated merger by an ever-increasing majority three times in the past four years, the last time only one year ago. As late as last term, students overwhelmingly approved an OP-sponsored plan which would give each of the two newspapers sufficient funds to publish on alternate days and every day of the week. With the fifty cent raise in the Student Activities Fee, this daily between the two papers can become a reality by next term. As you have probably noticed, OP has already begun a twice-a-week schedule. This plan defeats the only sane argument the proponents of merger ever had.

Why have the students repeatedly, and wisely, defeated the idea of merger? Because they realize the advantages of having room for two opinions in the College press, and the press would be a true fountain of information at CCNY. Because they realize the advantages of a healthy competition which produces better issues for the entire campus community. Because they realize that freedom of the press, and perhaps even more important, responsibility of the press cannot truly exist where there is only one newspaper. Because they believe in Democracy, in extra-curricular as well as national life.

But Student Council has taken the outspoken and repeated decision of the students and thrown it back in their faces. They have made themselves unworthy of the name "representatives." They have played politics with the popular will. They have made the student referendum into an primitive sort of lottery, where if they don't get what they want they try and try and try again, ignoring the good of the students, ignoring the wishes of the students, ignoring the trust which has been given them to represent and not to rule.

What is behind this latest scheme? Here are the facts. The editors of The Campus have, for reasons known only to them.

(Continued on Page Two)
Quartet to Perform Today!

By ANDREW MEISEL

Listening to chamber music seems to be a popular pastime with City College students. The string quartet, in residence at the College for the past six semesters, due to Club Boards, which were abolished this term, has rounded the entire Council as irresponsible.

Further, the editors have enlisted the aid of the student body. This is the gang that is trying to kill a newspaper. This attempt at informality has raised problems. The rooms in which the quartet performs are far too small to accommodate the great number of students that want to come in and listen. "We have to close the doors to keep them out," Prof. Shapiro said. "We'd get a larger room, but we're afraid that this would destroy the very atmosphere of informality which draws them in."

Members Experienced

All the members of the quartet have had professional experience in the field of music. The members, in addition to Prof. Shapiro, are: Melvin Berger, violinist; Melvin Berger, violist and Prof. Otto Deri, who plays the cello.

At its concert today, the quartet will play Beethoven's String Quartets, Op. 18 No. 6 in F flat Major, and Quintet for Piano and Strings by Schubert. The concert is open to all. "Come and listen," Prof. Shapiro urges. "We'll be glad to have you, if we can get you in."

(For Young Ladies & Men)

The concerts are given in small, intimate settings, with the listener in the middle and the audience around them. "We don't like to think of them as an audience," Prof. Shapiro commented, "but as fellow listeners."

This attempt at informality has raised problems. The rooms in which the quartet performs are far too small to accommodate the great number of students that want to come in and listen. "We have to close the doors to keep them out," Prof. Shapiro said. "We'd get a larger room, but we're afraid that this would destroy the very atmosphere of informality which draws them in."

Hughes Cooperative Fellowship Program for

Master of Science Degrees

The Hughes Cooperative Fellowship Program has been established to enable outstanding graduates to pursue work for the Master of Science degree while employed in industry and making significant contributions to important military projects.

Eligibility

Applicants must be United States citizens who have evidenced outstanding ability and who will receive the B.S. degree during the coming year and members of the Armed Services being honorably separated and holding B.S. degree. In either case the field of the B.S. degree must be: ELECTRICAL ENGINEERING PHYSICS OR MECHANICAL ENGINEERING

The awards will be made to applicants who have evidenced outstanding ability and some degree of creativity. They must also possess the training enabling them to work well with others.

Applicants must be United States citizens for whom appropriate security clearance can be obtained.

Citizenship

Applicants must be United States citizens.

Eligibility

Applicants must be United States citizens.

University

Applicants must be enrolled in a University of Southern California, covering the same basis as for full-time members of the scientific-engineering staff. Recipients will also be eligible for health, accident and life insurance benefits, as well as other privileges accruing to full-time staff members.

Travel

Tuition, admission fee, and required books at either the University of California at Los Angeles or the University of Southern California, covering the same basis as for full-time employees. Salary growth will be on the same basis as for full-time members of the scientific-engineering staff. Recipients will also be eligible for health, accident and life insurance benefits, as well as other privileges accruing to full-time members.

Sponsorship

The Hughes Research and Development Laboratories.

Selection of Candidates

A sufficient number of qualified candidates will be invited to apply for fellowships in the Hughes Cooperative Fellowship Program.

Application Procedure

Application forms should be obtained immediately. Completed applications must be accompanied by detailed college transcripts.

Hughes Research and Development Laboratories

Culver City, Los Angeles County, California

Hughes Cooperative Fellowship Program for Master of Science Degrees

Recipients will earn five-eighths of a normal salary each year. This salary will be determined by the individual qualifications and experience, and will reflect current salary practice in the electronics industry. Salary growth will be on the same basis as for full-time members of the scientific-engineering staff. Recipients will also be eligible for health, accident and life insurance benefits, as well as other privileges accruing to full-time members.

Carnival Queen Begins Reign on Barry's Show

Barbara Spiro, CONY's latest queen for a year, smiled. "I was not surprised. It was just happy," she said.

Barbara graduated from Thomas Jefferson High School in Brooklyn in 1951. She is now a Forest Hills resident. She entered the Carnival contest at the urging of a friend. She received the sponsorship of House Plan Post '56, but didn't think she 'hardly had a chance.'

When it was all over, Queen Barbara was asked for a statement. "It was hard to realize that one of us (the five finalists) had won the title," she said, "we had all been so close. But if I had lost I don't think it would have made much difference. I would be just as happy.

To date Barbara has appeared in two film shorts: one by 20th Century-Fox, "Once Upon a Time," and the other for Universal Films, "Hollywood last Thursday when Miss Spiro was presented to the students.

She is a Retailing major at the Baruch College, where she is vice-president of the Student Council. In her spare time Barbara plays the piano, she enjoys athletics, good books, likes to go dancing and she's engaged.

Drum and Sheet Music

The Bacteriological Society will present: "The History of the Bacteriological Society" today at 12:30 PM in Rm. 204 Chem.

Lafayette Tests
Hoosters Sat.

The City College Basketball team will leave New York State for the first time in two years this Saturday when they travel to Easton, Penn., to face a veteran Lafayette squad. The Beavers are hoping to repeat last year's 83-59 victory over the Leopards.

Six returnees bolster the squad which is seeking to improve on last year's 13-12 record. At center the Leopards have Leo Miller, who stands 6-6 and displays a deadly jump shot from the pivot. The forwards are Rick Weisen- born, and Charlie Eyer, while the starting five is rounded out by John Alvis and Charlie Quigg. Alvisgath was the team's high scorer last year and displays a deadly set along with a driving layup. Eyer started off last season like a house of fire but the Peacocks defence held him in check.

Strong Bench.
Lafayette has a strong bench and in their opening games this season Coach Bobbi Van Bred- koff has been able to substitute freely. Malv Kaddum, who measured 6-6, is the leading replacement for Miller, while other top substitutes are Cassy Ahl, Ed Kirnp, Joel Weisman and Todd Walker. George Young, Bob Werner, Don Kerns, Cornellius Alexander, Jim Powers and Evrett Peters round out the Leopards array.

In their New York debut last week the Leopards put up a good fight before bowing to a strong St. John's University "five." In the contest Lafayette displayed good passing and accurate outside shooting.

Marcus

Fulladosa Now
City Splasher

By Jerry Salas
Co-captain of the City College swimming team, Vic Fulladosa, splashed his way into the ranks of the swimmers at a tender age.

"When I was 10 years old," Vic explained, "I was thrown by some friends off an Atlantic Avenue dock in Brooklyn. At the time I could just barely swim a few feet. From then on, I was never afraid of the water."

Vic, in his third season with the City swimmers, has swum in the 50 yards freestyle, 100 yards individual, and 200 yard breaststroke competitions. He won four of the six dual meets in which he swam last season, and in the Metropolitan Champions-

Last year a survey of leading colleges throughout the country showed that smokers in those colleges preferred Luckies to any other cigarette.

This year another far more extensive and comprehensive survey—supervised by college professors and based on more than 31,000 actual student interviews—shows that Luckies lead again over all other brands, regular or king size...and by a wide margin! The No. 1 reason: Luckies taste better.

Smoking enjoyment is all a matter of taste, and the fact of the matter is Luckies taste better—first, because L.S./M.F.T.—Lucky Strike means fine tobacco. And second, Luckies are made better to taste better. So, Be Happy—Go Lucky!

- Vic Fulladosa

Fulladosa has been an outstanding swimmer in the New York City YMCA. He placed fourth in the 200-yard and sixth in the 100-yard breaststroke.

Outside of school competition Vic has been very active as a member of the 1:12 Pacific Coast YMCA Swim Club.

A native of New York, he plans to enter Swin- son College in his senior year. He expects to be serving Uncle Sam after graduation, but he hopes to obtain a Masters Degree in physical education after his Army hitch.

Aside from his interest in swimming, Vic also enjoys drumming on his guitar. "Last summer," Vic gravely related, "I used to be the talk of the lifeguards at Rockaway Beach."
