**Gallagher Raps SFCSA Procedure in OP Affair**

President Buell G. Gallagher went on record yesterday, criticizing the procedure by which nine observation post members were asked to resign. The nine members of OP, a social fraternity, feel that "Freedom of the press must carry with it responsibility."

"I find it most peculiar," Dr. Gallagher went on, "that one of the complaining students participated in the discussion of SFSCA while his complaints against the newspaper were being weighed."

"An elementary recognition of justice as we know it should have led such a student to disqualify himself from the President," he stated.

Dr. Gallagher characterized the procedure of the SFSCA meeting at which the ouster of the editor was announced as a 'comedy of errors.' He denounced the members of SFSCA who "leaked the confidential decision of the Committee in advance of its intended date of publication."

The system whereby three SFSCA members who voted to suspend the editor were later given membership in the SFOSA members ability to appeal their judgment also came in for criticism from the President. He suggested that the General Faculty Committee of Five and the Student Council may look into methods of averting such situations in the future.

Under the heading of "Constructive President," Dr. Gallagher expressed confidence that the question raised in a subsequent OP editorial which asked, "What, after all, is this poor taste... what is desirable, undesirable, immoral, sinful, scandalous?" may "lead us to a serious and thoughtful consideration of these value decisions."

Alumni to Hold Their Reunion On Saturday

The College's Alumni Association will hold its annual reunion and homecoming Saturday noon, on the College's new South Campus.

Feared speaker, at the reunion, will be Deputy Mayor Bennett Epstein and President Buell G. Gallagher.

Alumni Awards

Alumni Service Awards for "outstanding post-graduate service to the College and the Alumni Association" will be presented to Jerome Alexander '36, Walter J. Halpern '31, George Koch '25, James P. Murtagh '31 and Irwin Karpf '46.

According to Jacob Holman '94, president of the College's Golden Anniversary Class and chairman of the reunion committee, the affair will begin at noon and will include a picnic lunch on the campus and buildings, business meeting and a variety of events between the College's track team and Hofstra College.

Curriculum Change Planned In Science, Math Sequence

By JACK LEVINE

Plans to change the Science and Mathematics requirements for Arts and Science students were approved by the Faculty Council of the College of Liberal Arts and Science on April 15th.

Approval of these recommendations by the Faculty Councils of the other three schools of the College and the Board of Higher Education is expected by the end of the spring according to Dean Morton Gottshall (Liberal Arts) and will affect the next semester's entering freshman class.

The new curriculum reduces the number of required mathematics courses and increases the number of credits for the basic science courses.

Applications for Student Government Committee members able to Room 20 Main starting Friday. Awards will be decided on the basis of leadership and service in curricular activities.

Baruch Slated For Lectures On Problems

Bernard M. Baruch '99, will deliver a series of three lectures on major contemporary problems, in the College's Downtown Center. The lectures will be given on May 3rd, 11th and 19th at 11 AM and will be rebroadcast over radio and television.

According to Dean Thomas L. Morton of the Baruch School of Business of Public Administration, "Mr. Baruch will summarize the experience of his forty years of public service in order that he may share his knowledge with the students."

The first lecture will deal with how the individual can meet and overcome the problems he faces in adjusting to various social and natural forces. The second lecture will discuss the law of supply and demand and the human equation of profit and loss. The third lecture in this series will concern itself with the relation of the citizen to his government and their mutual responsibilities.

CBS radio will carry the lectures from 10:30 to 11 PM on the days of the lectures. WNIT will rebroadcast the series from 3 to 4 PM on May 9th, 16th, and 23rd.

Frosh Student Robbed in St. Nicholas Park

A College student was robbed of $50 in St. Nicholas Park yesterday afternoon in an incident paralleling one which occurred two weeks ago to the day and almost to the hour.

Solomon Max, an upper freshman, said he encountered "four or five" youths yesterday at the foot of the steps leading from the building to the street. They asked him for the time. When he looked at his wristwatch, they threw him to the ground and took the watch and a fountain pen. Seeing a woman descending the steps, the gang fled into the park.

A similar robbery also occurred on a Tuesday, April 13, at 3:30 PM. Several young men attacked a Frosh near the entrance of the Architectural firm drawing up plans for Manhattanville. This time, however, they left with only $25. He was treated at Knickerbocker Hospital.

By 3:30 PM, 32nd police precinct said they were investigating the two incidents. Because of the similarities believed to be the work of the same gang, the possibility in both cases were Negro youths.
Journal...

The Spring 1954 issue of the Journal of Social Studies, with a new format, will be on sale from May 3 to May 14 in Lincoln Corridor and the Cafeeteria, at twenty-five cents a throw.

The publication will include among others an article by Alex Groth on Marxism, a paper by Ruth Fenner on the Hero's role in history, and Peter Rymar's piece on the relation between Roman philosophy and Roman science.

Course Nos. Deciphered

There's method to the seeming madness of the course-numbering system at the College.

A little research yields a goodly harvest of reasons why one department labels its elementary course 1, another 5, and another 55.

When CCNY was young, according to Mr. Peter Pruden of the Registrar's Office, a basic course numbering system was set up. Part of it is still followed.

All Liberal Arts studies were to be numbered under 100, with higher appellations given to graduate and school (Tech. Education) courses.

Numbers under ten were reserved for required work, those above for elective, with the fifties and fifties set aside for the deficiency course. The language department still follows this policy, with the result that students planning to major in a foreign language must begin with Latin 111 or French 111.

The thirties are the design courses, again with decimals used as sub-dividers. The forties and fifties, according to Professor Al- bert D'Andrea, (Chmn, Art) are for courses in social studies, toward a Bachelor of Arts degree. The sixties are used for oil, and .2 for water colors, so that .1 for oil, .2 for water colors is universally in use in social studies. The seventies are for required work, those eighties for departmental expansion. The eighties are used for departmental (Tech. Education) courses, and the nineties are a combination of the eighties and seventies.

City Poor M. Zywokarte! His Last Name Is Last

With the last man, it doesn’t matter anymore.

Michael Zywokarte is, alphabetically speaking, the last word student at the Uptown Session of City College.

Zywokarte, a nineteen year old Electrical Engineering major does not recall ever being in a school, even in high school, where his name was not alphabetically last. He is last in high school (Stuyvesant) and Zywokarte is the last name in the Bronx telephone directory.

Zywokarte, an upper freshman, is something very strange about Zywokarte, a Ukrainian name, and not at all a common one, even in the Ukraine. "To me," he says, "it’s just a plain average name.

Of course Zywokarte practically always sits in the last seat in a class. "About half the time I’m falling asleep back there," he admits, "but, he adds, "sometimes that’s fine."

But his face darkens as he talks of registration. "As an incoming freshman I was the last man in the whole school to register. There were very few lines then," he says simply.

Zywokarte is satisfied with his place however and would not sit with it even in exchange for a man. Few people dare sit at this pure courage in the face of adversity.

At the other extreme, lies Marvin Zarou Jr., another engineering major (ME). He, if you haven’t already guessed, is the first name registered at the Uptown Day Session. He is surprised at this because, as he says, his last name is usually an Aaron or so in front of me."

"Anywhere, he has become used to the first-seat-first-row routine. According to him it is "the most moving place in the world to be." Says he, "I get a kick out of sitting in class and it’s sort of high right out in front there."

But Abbe, like Zywokarte, is satisfied with his family cognomen. His a short name, he says, and easy to remember. It also comes handy at registration.

Although both Zywokarte and Zarou have some difficulties with their names, neither would trade with the other. Possibly some sort of philosophy could be built around this.

Q: What do you think of the Academic Freedom Week program held at the College?

A: Martin Gruberg Jr. 1:

It is something that has definitely made an imprint on the student minds which should be made an annual event.

A: Manny Halpern Jr. Sr. 1:

I was very pleasantly surprised. I don’t usually favor the setting aside of weeks but I think this Academic Freedom Week accomplished its purpose of getting people to think.

Ira Kloss Jr. 1:

I thing it was a step in the right direction which I feel should be carried still further. I think it was a means of getting the important problem before the student body and as such accomplished its aims.

Daniel Parker Jr. 5:

I feel that Academic Freedom Week was mostly overrated by all concerned. Although academic freedom is very important, the type of program presented at the college did nothing to aid the achievement of this.

Marvin Zarou Jr. 1:

I don’t think it was successful as I still don’t know what academic freedom is and I don’t like people wearing buttons the meaning of which they do not know.

Exhibit...

The Hamilton Grange Branch of the New York Public Library, 503 West 145th Street, will display works from the CCNY Art Department through Friday. The display concerns the various problems in a Composition course (Art 23).

When You Join the "Men Who Measure"

When you leave school as an engineer and join the ranks of "the men who measure," you’ll want the most accurate and durable measuring tapes. Let’s Chrome Clad Tapes! All the many accurate and durable because their markings are fused to the line and protected by multiple platings of metal that also protect the face steel in the line. This glass-like free is longer wearing — it won’t crack, chip, peel — is easier to keep clean — is more rust and corrosion resistant. Chrome Clad Tapes are the choice of the men of the world over.

Whether you’re renovating a survey, building a bridge or building, road building, mining or drilling — there’s a Lufkin measuring tape exactly right for the job.

Specify Lufkin, ask your job or get on the job — send today for our free catalog.

THE LUFKIN RULE COMPANY
SAGINAW, MICHIGAN

The new 1954 Chevrolet Bel Air 4-door sedan. With 3 great series, Chevrolet offers more beautiful choice of models in its field.

Make your own "proving ground" test

Chevrolet is out ahead in powerful performance

You can easily tell the difference between engines when you drive—and the difference is all in Chevrolet’s favor! That’s because Chevrolet’s great engines deliver full horsepower where it counts—on the road. What Chevrolet promises, Chevrolet delivers!

There’s new power, new performance and new economy in both 1954 Chevrolet engines—the “Blue-Flame 125” in Powerglide models and the “Blue-Flame 115” in gearshift models. And they bring you the highest compression ratio of any leading low-priced car. That’s why they deliver a big gain in power, acceleration and all-around performance, along with important gasoline savings!

Your test car’s ready now... We’ll be glad to have you compare the smooth, quiet performance of this new Chevrolet with any other car in its field. Come in and put it through any kind of "proving ground" test you care to, and judge its performance for yourself. Your test car’s ready now and we hope you are, too.

Make your own "proving ground" test

Chevrolet is out ahead in economy

You offer your more people buy Chevrolets than any other car

SEE YOUR CHEVROLET DEALER FOR ALL YOUR AUTOMOTIVE NEEDS!

Conveniently listed under "Automobiles" in your local classified telephone directory.
Jasper Tilt Postponed; CCNY in Fourth Slot

By ED LIPTON

St. John's baseball team, mainly because of the strong right arm of ace hurler Dick Eichhorn, is in the catbird seat today, while the champion Beavers lick their wounds down in fourth place in the Metropolitan Collegiate Baseball Conference. Yesterday's scheduled City-Manhattan clash was postponed.

The Redmen, who won their fourth conference game on Monday, are a well balanced team that features fairly good hitting, Eichhorn, and a few good hurlers to back him up. The Redmen lead NYU and Hofstra in the win column, 4-3-2, with all three teams having come out on the short end once. City has split four games, while Brooklyn and Manhattan stand 2-3 and 1-3 respectively. Wagner brings up the rear with but one win in five tries.

Beavers One Down

With each team only playing twelve conference games a season, the loss column looms very big right from the outset. City College is one down in this column to the Redmen, Violets and Dutchmen. But the Lavender will have a chance to even the losses up in head to head combat, because City still has one game left to play with each of them. All three games, will be at home. The first time around, City beat NYU but lost to the other two. Incidentally CCNY last three games while winning the title last year.

Tough Losses

City has been suffering from a lack of hitting and not pitching this year, which is surprising in light of preseason expectations which had the Beavers tabbed as a "good hit-no pitch" team. City lost by 3-2, and 3-1 scores to St John's and Hofstra.

However, the defending champions definitely have the hitting potential with men such as Ozzie Baratz, Vito Giovanniello and Paul Nacinovich around, and if Konig and Joe Galletta can keep pitching the way they have so far this year the Beavers are liable to make things real rough for their Met League rivals the second time around.

Sport Notes

Jerry Domershick, leading Lavender basketball scorer for the past three seasons, has been drafted by the Milwaukee Hawks of the National Basketball Association. Coincidentally, "Red" Holzman, another former Beaver hoopster, is coach of the Hawks.

Ronnie Kowalski, varsity basketball veteran, shot an imposing 78 against Hofstra last Saturday on the golf range.

Jerry Domershick, leading Lavender basketball scorer for the past three seasons, has been drafted by the Milwaukee Hawks of the National Basketball Association. Coincidentally, "Red" Holzman, another former Beaver hoopster, is coach of the Hawks.

Today's CHESTERFIELD is the Best Cigarette Ever Made!

"Chesterfields for Me!"

The cigarette with a proven good record with smokers. Here is the record. Bi-monthly examinations of a group of smokers show no adverse effects to nose, throat and sinuses from smoking Chesterfield.

"Chesterfields for Me!"

The cigarette tested and approved by 30 years of scientific tobacco research.

Lacrosse Team Is Ready For Tough Manhasseters

In an attempt to end a two game losing streak the Lacrosse squad will journey to Long Island to take on a strong Manhasset team on Saturday. This will be the first meeting between the two teams since 1951, when the Lavender-and-Black came out on the long end of a 8-6 score. The Long Islanders are made up of several former All-Star players from various Long Island colleges.

Miller Hopeful

Coach Leon Miller is optimistic over the Beaver's chances. He feels that the Beaver's performance against Hofstra was their best of the year. The Beavers displayed some excellent passing and team work before losing in the final half.

—Marcus

Today's CHESTERFIELD is the Best Cigarette Ever Made!

"Chesterfields for Me!"

The cigarette tested and approved by 30 years of scientific tobacco research.

Largest Selling Cigarette in America's Colleges

"Chesterfields for Me!"

The cigarette that gives you proof of highest quality—low nicotine. For the taste and mildness you want—smoke America's most popular 2-way cigarette.
