

Student Faculty Fee Committee Ignores Policy

The Student-Faculty Fee Committee (SFFC), at their meeting today, will disregard a policy on appropriations that they had adopted at a joint meeting with the Student Government Fee Commission (SGFC) last June.

The new policy provided for the student group to approve appropriations without prior consultation with the student-faculty committee. These appropriations were to be official unless a member of the Student-Faculty Fee Committee raised a serious objection.

Mr. Phillip Brunstetter (Student Life), the non-voting chair-

man of SFFC, explained that the new policy will not be followed by his committee because it "does not afford enough understanding" on appropriations between the two groups. In addition, he said, that some faculty members of the committee had expressed the fear that they would become a "rubber-stamp" committee.

At today's meeting, the SFFC will review, item by item, the appropriations recommended by the Student Government Fee Commission. They also expect to hear an appeal from the Inter-Fraternity Council and the Gilbert and Sullivan Society concerning the appropriations recommended for them by SGFC.

Alumni Group Will Give Gift

President Buell G. Gallagher will accept a check for \$140,000 in behalf of the College today from the City College Fund. The ceremony will take place at a student convocation beginning at 10AM in Townsend Harris Auditorium.

The check represents the major portion of \$200,000 raised by the alumni group to cover the cost of decorating and furnishing the Finley Student Center.

Money from the fund was also used to operate Lamport House (at the Baruch Center) and provide fiscal assistance for the College's placement service.

The official presentation will be made to President Gallagher by Dr. I Ogden Woodruff '00 and Harold Lifton '18, president and campaign chairman respectively of the fund.

BHE Forms Plan to Give Music & Art HS to CCNY

Tentative plans are being made by the Board of Higher Education for City College to acquire the Music and Art High School building. Plans have also been made to construct an elementary school at the south end of the South campus.

Abbe and Hackett Halls will be torn down to make room for the proposed project. It had been previously agreed by the Board of Education that the College would receive \$800,000 to replace the two buildings.

If the proposed plans to acquire Music and Art are carried out, the Board of Education will not give the College the \$800,000, since the class room space lost when Abbe and Hackett Halls are torn down will be made up by the acquisition of Music and Art.

These plans were adopted by the BHE at a meeting Monday night.

The proposed elementary school will occupy an area 100 feet in from 130th St. and Hamilton Grange, presently at 138th St. and Convent Ave., will occupy an area 200 feet in from 130th St. The two locations will be adjacent to each other.

The plan to acquire Music and Art originated from a number of correspondences between President Buell G. Gallagher and Dr. Benjamin M. Steigman, Principal of Music and Art.

The correspondence said that "it might be of decided advantage" for "both schools if Music

Student Council Upholds Opposition to List Ruling

Opposition to compulsory club membership lists at the College was embodied in two motions passed by Student Council (SC) last night. Council's action reaffirms the stand it took on membership lists last semester.

One motion directs SC's Civil Liberties Committee to explore ways and means of having the Student Faculty Committee on Student Activities (SFCSA) rescind its ruling on membership lists. The other motion expresses SC's opposition to SFCSA's membership list implementation ruling of October 18.

The latter motion, made by Dave Pfeffer, Senior Class President, was passed 12-8-3 by Council following a two hour debate. Council in debating this motion did not consider whether membership lists were desirable in principle, but whether the implementation of the lists as devised by SFCSA was satisfactory.

Rescind Ruling

Later in the evening, Charles Krantz, '56 Rep, proposed the motion that the Civil Liberties Committee seek ways to have SFCSA's ruling rescinded. This motion passed 14-2-2 after a few

minutes consideration by the Council.

Membership lists had been made a special order of business at the Council meeting as a result of a motion made last week that SC go on record as favoring the membership list ruling passed by SFCSA on October 18. When the motion was made last week, Council decided to table it until this week to enable its members to consider the issues involved.

Affirm Stand

After the SC meeting, Gloria Kingsley, Student Government President, said, "I was sure SC would reaffirm its previous action taken toward compulsory club membership lists."

Commenting on Council's decisions, Arnold Adoff, Chairman of the Political Action Committee (the group formed by the clubs protesting compulsory membership lists) said, "The vote to oppose the October 18 resolution of SFCSA will bolster the PAC in any protest it may make."

OP Editorial

The Facts

Yesterday, the most serious charges that can be leveled against any newspaper were aimed at **Observation Post**. Moreover, these charges came from the President of the College, which gives them the greatest possible weight. We feel it our obligation to examine the nature of the case against us, and to answer it with the facts.

The editorial which President Gallagher took exception to was entitled, "The Big Silence," and dealt with the matter of the K & C Construction Company's walkout on the Finley Student Center. It was our stand that the matter is of interest to the student body, and that more facts concerning the status of the Center's completion and the negotiations with K & C should be released.

After K & C was hired to work on the new campus, it was termed an unreliable company, on the basis of past performance, in an open hearing at the College. This was said by one of the members of the Center's Board of Directors at that time. When this semester began, the students returned to find all the buildings renovated except the Center, where K & C had walked out. After the Board of Higher Education declared the company in default of contract, matters seemed to come to a standstill. Week followed week, and still the Center remained uncompleted. President Gallagher told the press in answer to questions that the case might be headed toward litigation, and that he therefore would not comment on the city's case. We still had no idea of when,

NCAA Council Takes Cagers Off Probation

The College's basketball team was taken off its one year probationary status by the National Collegiate Athletic Association Council (NCAA) at a meeting held Tuesday night in Chicago, Illinois.

The hoopsters had been penalized October 20, 1954 for "malpractices" as the result of accusations growing out of the 1950 basketball "point-sharing" scandals and were ruled ineligible to participate in the Association's 1955 basketball post-season tournaments.

President Buell G. Gallagher, commenting on the Committee's acknowledgment of the College's "good behavior" said, "The action of the NCAA was anticipated on my part. The original policy had no effect on our athletic policy because we had cleaned up the 'mess' three years ago, long before we were placed on probation."

Before adjourning its three-day session, the Council also adopted the following by-law amendment to be submitted to the NCAA convention in Los Angeles in January: to change the start of basketball practices from November 1 to October 15 and eliminate the twenty sessions of spring or post-season drills now permitted. The twenty-six game maximum schedule would be retained, as would the December 1 date for playing its first game.

Pres. Buell G. Gallagher Plans Move to Music & Art

and Art is transferred to the proposed development at Lincoln Square, north of 60th St."

In a letter written to Dr. Steigman, President Gallagher stated that the move to the new development would relieve the College of a "sorely needed and long-awaited relief from its very serious problem of overcrowding."

The BHE stated that the move would be advantageous since the City is planning to establish a music center as part of the proposed slum clearance project at Lincoln Square. This area, the BHE report continued, "has already been designated for a new Metropolitan Opera House and ... a new concert hall for the (Continued on Page Three)

PAC to Meet; Discuss Lists

The Political Action Committee (PAC), organized by those clubs seeking to rescind and protest the continuance of the membership ruling of the Student Faculty Committee on Student Affairs (SFCSA), meets today in Room 121 Finley Student Center at 3PM.

Two elected representatives from Students for Democratic Action (SDA), Young Liberals, Young Democrats, Young Progressives of America (YPA), Marxist Discussion Club (MDC), National Association for the Advancement of Colored People (NAACP) and two observers from Hillel will be present at today's meeting. Arnold Adoff, acting president of SDA and chairman of the meeting, said that any observers from interested organizations regardless of their nature are welcome.

Prior to today's meeting, the individual member clubs of PAC voted whether to submit membership lists. The elected representatives that are sent to PAC will have this information with them

if ever, the Center would become worth the \$3 fee the students had paid for it.

We then found out, through unofficial sources, that preliminary meetings had begun between the counsels of the Company and the city. However, this could not be verified without President Gallagher's consent. When he was again contacted, he still had no comment to make on the K & C matter. We felt that an editorial request for more information was in order.

That was the basis and the only basis, for "The Big Silence." We attacked no one. We criticized the Administration, as is our right, for not releasing more facts. Far from defaming anyone's motivations, we didn't even mention them.

President Gallagher's special press conference came, then, as a complete surprise to us, as did his interpretation of our "motives." His three-page indictment of OP began with an accusation that we attempted to "create a mystery where none exists." Well, we didn't know what was happening with the Center or the company. You can call it a perplexity, a problem, or a mystery, according to your taste in terminology, but we didn't create the situation.

What bothers us about the President's statement was not the fact that he disagrees with us, as he has every right to do. The editorial doesn't exist that doesn't have its partisans and its detractors. We are alarmed by such references as "the irresponsible discussion and distortion which OP appears to desire to insert into the situation, for reasons which are known only to the editors." This is indeed far from the question of "inuendo," which the President accuses us of. This is clear-cut, unequivocal attack.

We were also accused of "making up out of whole cloth" a statement by the President that news on K & C couldn't be released because of "the legal complexity" of the case. The President later modified his stand to say that, while he might have said that, we took his words out of context. This is a far cry from saying that we made it up. The original statement, however, remains on the record.

In the furor our original editorial seemed somehow to have been forgotten. We would like to return to it. It is our opinion that the editorial was fair and reasonable. The only part that seems really to have caused repercussions was this: "In fact, there are suspicious people in the world who think that secrecy is the result of facts that somebody doesn't want to have revealed. We don't suggest that this is the case with the K & C matter. However, operating in darkness as the Administration is, they must expect to have all kinds of motives attributed to their silence."

From our point of view, this is merely being realistic. The company had been questioned even before they finished the job. They walked out, and for two months, little more was known. In a case like this, it is inevitable that questions of the sort we referred to should come up unfair as they may be. We brought it up as one more reason why further information could clear the air. We didn't try to create a rumor, we wanted to have any basis for one removed.

The President found this a source of innuendo, and an attempt to impugn his integrity. We are sincerely sorry that he should have read this into an editorial which was written with absolutely nothing like that in mind. Indeed, we had heard of no such inference drawn by anyone who read the editorial—until we saw the President's statement.

His entire action seems to us to be out of character. In cases like this, when he or another member of the Administration disagreed with an editorial, we might be told so privately, or be sent a letter stating their views. At any rate, the President was holding a press conference the next day.

We still stand by our editorial as an honest expression of opinion, motivated by nothing more than a desire for information. In reading between the lines to the extent of creating an entirely new editorial, President Gallagher has created the "situation" he seemed to wish to avoid. That he might disagree with us is understandable. But that he should launch a lengthy attack on our ethics, motives, and honesty is another question altogether.

A holier-than-thou editorial in The Campus also succeeds admirably in missing the point: Was the president's action proportionate to any objection one might reasonably feel to the editorial? Feeling the weight of its post-1907 tradition, The Campus intoned that our editorial "was clearly in the wrong." Well, to a certain school of journalism, asking questions may indeed be unwise. We have never felt so. We will continue asking questions without malicious intent, only with a desire to know the truth, for as long as we exist as a newspaper.

SG Committee Forms Budget 'Underground'

The Student Government Fee Commission has gone underground.

A lack of meeting space for its "wee hours of the morning" sessions has forced the Commission to accept inadequate facilities in the basement of Alpha Phi Omega's fraternity house at 467 West 143rd Street. Jared Jussim, a SGFC member, who is also president of APO, donated the cellar, and it was quickly accepted.

Arms loaded with budget forms, charts and an adding machine contributed by Central Treasurer Irving Slade, the SGFC

members slink past APO brothers to their basement office. The only light is a single bulb that is short circuited and keeps blinking on and off.

The SGFC members complained about the working conditions at first but soon the familiar cries of "cut the budget," "this club can get by on less" and "we've appropriated \$300 more than we've got" rang through the cellar.

A suggestion that the Commission enjoy improved facilities by switching its meeting to the South Campus catacomb was voted down.

Why do more college men and women smoke

VICEROYS

than any other filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from a pure natural substance—cellulose—found in delicious fruits and other edibles!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes, Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
3. Smokers en masse report that filtered Viceroy's have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
4. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroy's cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

The BHE established a committee to negotiate with the Board of Education with reference to the transfer. However, Dr. Gallagher said that no definite meeting has been arranged yet.

The President is not sure what changes would have to be made in the Music and Art building to make it suitable for the College's use. This he stated, would have to be discussed after more definite plans have progressed.

The \$800,000 which the City would have given the College after Abbe and Hackett Halls were torn down would have been used to construct one building for classes and another building which would have been a "little theatre," resembling Hackett Hall.

Uneager Beavers Win 2-1; Trip Aggies on Kouts Goal

By MARV GLASSBERG

Whew!

The way the College's Soccer team has been playing in the last few games, it's a wonder that the Beaver fans haven't had kittens.

The team played listlessly throughout most of the first half, but came to life in the second one. Thanks to goals by Wolfgang Wostl and John Koutsantanou, they defeated a fired-up Long Island Aggies team, 2-1, yesterday afternoon at Farmingdale, L. I.

The Farmers, who played their best game of the season, were continually pressing the Laverdemen. Add to this the fact that "City" played so indifferently and the reason for the match being so close is evident.

In spite of their lethargy the Booters did sparkle on occasion. The first City attack started and fizzled after seventeen minutes had elapsed in the second period when Fred Bonnet got the ball at midfield and passed it to Morris Hocherman. "Moishe" tried to get off a head shot but it was smothered by Aggie left fullback Bob Jerpening.

Just before the end of the same stanza Koutsantanou displayed some fine ballhandling as he dribbled past three Farmingdale defensemen. But the goalie, Ralph Osborne, blocked the shot.

That's the way it went most of the game. They came close, but close isn't enough.

CCNY finally tallied at 15:05 of the third frame, but this goal could hardly be considered a "picture" one. When Koutsantanou made a short pass to Wostl, Walt Smith, the Farmers' right fullback, knocked Wolf to the ground. Wostl was awarded a free kick and sure-footed it into the cords.

The Beaver lead was short-lived when Dick Shand smashed the ball into the unguarded Laverd twines. A mixup on defensive strategy between goalie Wally Meisen and the City defense was responsible for Meisen being too far out to block the shot.

The Aggies started the last inning by stopping the Booters'

Wolfgang Wostl Tallies First Goal

scoring thrusts and keeping the ball in their attacking zone. They

narrowly missed gaining the lead when the home team's forward line seized the ball and raced downfield. A cross-goal pass to Angie DiLitsis was deflected at the last moment by neophyte left fullback Fred Munters.

The forces of Coach Harry Karlin won the game at the 9:00 mark of the last quarter, when Koutsantanou tallied the most picturesque goal of the year. Wostl dribbled the ball into the left corner in order to draw defensemen away from the middle. He then passed to Vahe Jordan who relayed it to Kouts. Johnny pivoted and sent the spinning sphere past three defensemen and Osborne into the lower left part of the twines.

Farmingdale had two more opportunities to knot the count, and they were good ones, but the Agrarians couldn't rise to the occasion. The first occurred when

Cindermen Face Adelphi In Dual Meet Saturday

By LEW EGOL

Coach Harry de Girolamo's cross country squad will try for its first dual meet win of the season when the harriers meet Adelphi at Van Cortland Park at 11:30 AM this Saturday.

Thus far this year the hill 'n' dalers have a 1-1 record, beating Queens and Hunter, 37-28-47 in a quadrangular meet (Brooklyn was to be the fourth team but did not have enough men to compete), and losing to a powerful Fordham, aggregation 15-50.

The runners are in good shape physically, with Dan Henafin and Ronnie Lindo, the only question marks according to co-captain Bill Kowalski. Henafin has

been bothered by a bad leg and Lindo has had some ankle trouble. Kowalski, who was unable to compete in the Fordham matches because of a virus attack, is back in shape and is definite starter Saturday.

Among the starters will be sophomore Brian Quinn who was pushed himself up near the top of the squad with a seventh place

Faculty Comm. Approves Two Athletic Moves

At its meeting on Tuesday, the General Faculty Committee on Intercollegiate Athletics approved two requests suggested by the Student Faculty Committee on Intercollegiate Athletics on Friday, October 14.

The first concerned the televising of three or possibly four basketball games during the coming season, over station WATV (Channel 13). The Brooklyn College contest on February 10, the NYU encounter on February 22, and the Queens game on February 25 will definitely be televised. The Columbia home opener on December 8 is still waiting approval by WATV.

Secondly the Committee agreed that the training in the sport of boxing should be continued for the academic year with a view toward continuing or discontinuing the activity next season dependent upon a minimum schedule of three opponents.

CONFUSION REIGNS in the Droodle above, titled: Switchboard operated by absent-minded Lucky smoker. Poor girl's been swamped by too many phone calls. But she isn't confused about better taste—she smokes Luckies. Luckies taste better, first of all, because Lucky Strike means fine tobacco. Then "It's Toasted" to taste even better... cleaner, fresher, smoother. Switch to Lucky Strike yourself. You'll say it's the best-tasting cigarette you ever smoked—and you won't have your wires crossed, either.
