Gruber Proposes Asks Altering of 2 SC Posts

In a report released yesterday to Student Council, Martin Gruberg, SC Vice President, suggested the elimination of the Student Treasurer in order to "obtain a more representative office that will be within the minimum of duplication."

Gruberg says that the positions of Treasurer and Secretary should not be elected posts, since he claims that the administrators are not necessarily legislators and vote getters are not necessarily administrators. He suggests that the positions should be appointed by Council.

According to Gruberg, the two vacant positions should be replaced by two associate Vice Presidents. He wants to continue to have four out of the seven members of the Executive Committee elected by the students. The Executive Committee consists of the president, vice-president, secretary, treasurer, and three council members elected by it by SC. By eliminating the two positions, as they are presently set up, he continued, the Secretary and Treasurer will be freed of all the burdens of legislation and general executive responsibilities, and so would be able to devote much more time to the position for which they were chosen.

Jared Jussim, Student Council Treasurer, said that the plan was a good idea, in certain respects, but added that "it is my belief that the Treasurer of Student Government be a non-political post, but it is absolutely essential that a Treasurer, in order to perform an efficient job, be able to have a voice at both Council and Executive meetings. It is difficult for a Treasurer to guide financial policy when he has no voice in the group which makes the expenditures."
DOBSON and Dollars and Sense

A little over a year ago, you, the students, voted overwhelmingly in favor of the Student Observation Post and The Campus publish semi-weekly. At the time, no one predicted that because of lack of news and manpower, the plan would soon be abandoned.

In the fall, a new editor, the semi-weekly schedule may have to be discarded. The newspapers will have to do this not because of lack of news, manpower or initiative but because of lack of funds. Unless the drastic cuts in fee allocations recommended by the Student Government Fee Committee are rescinded by the Student Faculty Fee Committee, the newspapers will have no other choice.

The members of the fee committee who recommended this cut are probably in their right minds. In no other way can there be nothing else.

If the Student-Faculty Fee Committee, which meets today, approves the cuts, the editors will be flouting the will of the student who has demanded a newspaper four times a week. Whether the Campus ask all students who see the danger to themselves in this indiscriminate slashing of funds, to attend the meeting of the Student Faculty Fee Committee in Room 120 Main today at 12:15 PM.

Both newspapers will present their plan for continuing the four times a week schedule. We both believe these proposals to be sound and feasible. We also believe that if the cuts are not rescinded, the group that will suffer the most will be YOU the student. The recommended cuts for OP and The Campus, the only groups serving the entire student body may also curtail the activities of other organizations dependent on them for the existence.

Wrong Direction

A plan has been proposed by the Technical Interfraternity Council that would reduce Student Council to its most primitive and ineffective form. TIIC wants its own private representative on Council.

Only three years ago Council finally got rid of the Club Senate system. Few students may remember, but at that time Council included representatives of different campus organizations, more publication dates, more clubs, but less money.

If the Student-Faculty Fee Committee, which meets today, approves the cuts, the editors will be flouting the will of the student who has demanded a newspaper four times a week. Whether the Campus ask all students who see the danger to themselves in this indiscriminate slashing of funds, to attend the meeting of the Student Faculty Fee Committee in Room 120 Main today at 12:15 PM.

Both newspapers will present their plan for continuing the four times a week schedule. We both believe these proposals to be sound and feasible. What young people are doing at General Electric

Young engineer is responsible for design analysis of $3,000,000 turbine-generators

The average large steam turbine-generator costs $3,000,000 and takes two years to build. It is one of the biggest pieces of electrical equipment made. Yet its thousands of parts are put together as carefully as a fine watch. Even a small change in design can affect the stresses and vibration of the turbine, and the way it performs. At General Electric, several men share the responsibility of predicting those effects before the turbine is built. One of them is 29-year-old E. E. Zwicky, Jr.

His job: analytical engineer

Here's what Ted Zwicky does. He takes a proposed mechanical design feature, describes it mathematically, breaks it down into its parts and then settles down to figuring what is going to happen inside the turbine. His work helps Zwicky make progress, everybody benefits—the individual, the company, and the country.

...
STEP RIGHT UP FOR LUCKY DROODLES!

WHAT'S THIS? For solution see paragraph below. Suggested by Robert Bordo, University of Florida.

ENJOY YOURSELF to the hilt whenever you smoke. Simply light up a Lucky and get Lucky's famous better taste. Luckies taste better for good reasons. First of all, Lucky Strike means fine tobacco. Then, that mild, good-tasting tobacco to make it taste even better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco to make it taste even better.

Now for the Droodle above, titled: Better-tasting Lucky smoke puffed by modern sculptor. Make a monumental discovery. Next time you buy cigarettes, try the better-tasting cigarette... Lucky Strike.

PREFERRED LUCKIES!
