Human Rights Being Eroded—Prof. Easton

By CLAIRE KATZ

Professor Stuart C. Easton (His-\Lay) accused the American people of "allowing our freedoms to be eroded in an appalling manner." The professor spoke Friday at a ten a.m. when he was given the Academic Freedom Award. Professor Easton compared the "idea of freedom in the world" to the "idea of the Fifth Amendment." He said that those people who "live in a country of freedom" do not generally care about the erosion of freedom," and said the country as a whole is guilty of "apathy and fear."

Point of Order?

The British parliament throws out Robert's Rules and consi-\dering an amendment on the "first ballot and Sullivan opined "If one of the "People and the Peri." which will foreman this Friday and Saturday night by the Gilbert

1013 Sign OP Club List Poll

As a result of the Observation List創新 the following students asked that the question membership lists be placed on a decided.

560 Required

The minimum total of 650 signatures required to place the referendum on the ballot was reached at 3 P.M. Friday, and five days after petition was filed.

Students Circulate Petitions

Petitions were placed on the doors of Room 16A, the OP office, and circulated throughout the campus by students interested in the referendum on the ballot. The proposal to place the referendum on the ballot was approved a vote of 12-6.3 last Wednesday.

GFCSA Upholds Ruling

The General Faculty Commit-\te ment of Student Activities upheld the ruling at its meeting on April 31.
Rings...  

The Class of '56 senior rings will go on sale, Thursday, May 12, in Room 20 Main.

According to Dave Pfeffer, '56, two classes of rings will be different from any other in Senior Class history. It will have a cornerstone design, on the Main Building on one side, and a variation of the College seal on the other.

Mr. Joseph L. Taffet, Injured Last Week, Is Gone for Term

Mr. Joseph L. Taffet (Economics) who was injured in an automobile accident on the Grand Concourse last Wednesday, will be replaced by Mr. Harry Greenfield, who has been invaluable to me. I wish to emphasize that his real achievement is a demonstration of teaching ability and effective student guidance. It is no surprise to the Department that a recent issue of Microcosm (1951) has devoted the front piece of the section on "Our Educators" to Mr. Taffet.

Two City Seniors Take Top Phys. Chem. Prize

By MELINDA FARKER

Two City College seniors took first place and honorable mention respectively for original research papers in the field of physical chemistry at the annual American Chemical Society Student Affiliates meeting held Saturday at the College.

Competing against students from Wagner College, New York University (Uptown and Downtown), and Manhattan College, Jonson Weiss won the first prize of $10 for his paper on the "Conductivity in Low Dielectric Media." The paper is a product of his research and experiments.

Robert Amter took honorable mention for his paper on the "Effect of the Solvent on the Rate of Bimolecular Reaction." Amter also based his paper on research material and his own experimental work.

The presentations were made at a dinner held in the Faculty dining room by Mr. Warren M. Sperry, Chairman of the New York Section of the ACS. The guest speaker was Dr. Irving B. Wilson of the College of Physicians and Surgeons of Columbia University, who spoke on "Nerve Dyes, Enzymes and Enzymes." Dr. Wilson is a graduate of City College, Class of '41.

Main Donors Defeat Baruch

The City College Uptown Center has collected 427 pints of blood from its donors, compared to the Baruch Center's total of 360 pints, it was announced yesterday by Jesse Benjamin, Chairman of the Blood Bank Committee.

The total of 427 pints, fifty of which were contributed by BOCY students, is an increase of sixty-nine pints from last year's total of 358.

"College smokers agree...

WINSTON brings flavor back to filter smoking!

WHAT DO YOU THINK?

TASTES GOOD!

WINSTON tastes good—

like a cigarette should!

• No wonder Winston's winning so many friends so fast! College smokers found

flavor in a filter cigarette when they found

Winston. It's got real tobacco flavor!

Along with finer flavor, Winston also brings you a finer filter. The exclusive

Winston filter works so effectively, yet

doesn't "thin" the taste or flatten the flavor.

Smoke WINSTON

the easy-drawing filter cigarette!

Name Douglas To Math Dept.

Dr. Jesse Douglas, internationally known mathematician, has been appointed Professor of Mathematics at City College. Dr. Douglas was the recipient of the Fields Medal of the International Congress of Mathematicians in 1936. He received the award for the solution of a problem of "plateau" which had remained unsolved for more than a half a century.

Before coming to City College, a faculty member of Yale University, Dr. Douglas has written numerous articles on mathematical problems.

He is a member of the National Academy of Sciences. Phi Beta Kappa and the Mathematical Society and the Mathematical Association of America.

Dr. Douglas received a bache-}

lor of science degree from City College in 1916, and a doctorate from Columbia University in 1923.
Trackmen Take Trophy
In College Class Relay

By TED JONES

The City College track team continued its winning ways this weekend at the sixty-first Annual Penn Relays by coming home with the first place prize in the College Class Mile Relay. With skillful running on the part of co-captains Joe Gold and Jim Spencer, Shelly Roach, and Jim Teaham, the Brucomen were able to win their second mile relay trophy within a week.

The Lavender trackmen turned in a time of 3:26 to finish second behind Fort Lee, in a field of ten. They received the school trophy, a twelve-inch bronze plaque, and individual wreath plaques on the basis that City was the first college to finish the event; Fort Lee participated as a non-college entry.

The Beavers were favored in the sprint medley, because of their good showing in the College class mile relay. The Brucomen were competing against schools like Iona, Hofstra, and Philander Smith. Those same schools lost to City in the Iona-Queens Relays last Saturday. With Bob Marsh and Roach scheduled to run the 220 laps and Jim Spencer set to anchor the 880-yard run, Joe Gold, running the lead-off 440-yard run, had the baton knocked out of his hand coming off the first turn. The game co-captain in his hurried attempt to retrieve the stick, sprained his ankle.

Joe Gold

and Jim Teaham, the Brucomen were able to win their second mile relay trophy within a week.

Sorbera First
To Receive 4 Major Letters

Sal in stature, but a "big man as far as athletic competition is concerned—that's Sal Sorbera, the diminutive five-foot-three-inch, 123-pound "mighty mite" of City College, who literally has his hands full Thursday morning after the presentation of varsity letters at the school's 108 Charter Day exercises.

Sophomore Sal is the first athlete in City College history to win four major letters in one year. He is scheduled to receive varsity letters in wrestling, rifle, cross-country and track and field. He was the grappleman outstanding lightweight, competing in the 123-pound class, and was the rifle team's number one sharpshooter, averaging close to 280 points per match during the nimrods' campaign. In addition he served as head manager of the cross-country squad in the fall of the track and field team last spring. He also acted as head manager for the nimrods.

Nine athletes will receive two letters. They are Vince Deluca, Rock Hurford, Bill Koskalski, and Jim Spencer, who will be awarded major letters in cross-country and track and field. Five other major and minor letters will be awarded, Moore Kechmer, in soccer and track; Joe Bruney, Haywood Blum, and Gene Forsyth, in cross-country and track.
