Hubert T. Delaney Appointed to Finley Bd. of Directors

TUESDAY, OCTOBER 25, 1955

Hubert T. Delaney has been appointed to the Board of Directors of the Finley term as Justice of the Court of Domestic Relations expired. He was not reappointed. Judge Delaney has been an active member of the committee as a group set up by the Mayor as a sham. He was appointed to his post as Justice of the Court by the late Mayor Fiorello H. La Guardia. However, after his term was up, Mayor Wagner failed to reappoint him. Prof. Clark was among the many citizens who re-elected Mayor Wagner's action. Dr. James S. Peace (Director of the Student Center and Chair- man of the Board of Directors) said that he was "happy to hear" that Judge Delaney was appointed. He said that, "a man of his experience and background... would contribute to the committee immensely."

Among other Alumni members in the Board are Edward Goldberg '41 and Walter Pepper.

In March of 1949, Judge Delaney, who had been chairman of the Student Center Board, was appointed to the Board by Mayor La Guardia as a Justice to the Court of Domestic Relations.

As Vice President of the National Association for the Advancement of Colored People, the Judge's viewpoints have done much to advance liberal thought in America.

All Mayor Wagner failed to reappoint Judge Delaney. Professor Kenneth B. Clark (Psychology) resigned from the Mayor's Citizens Advisory Committee of Education. In a letter to the Mayor, Prof. Clark wrote: "Because of your methods and decision not to reappoint Hubert T. Delaney, it now seems to me that the ignoring of the committee's findings was accidental or with ill intention."

The Big Silence

Mysteries, unlike wine, do not grow mellower with time. They only get more irritating. Such is the case of the K & C Construction Company melodrama. They walk off the job on the Finley Student Center before the semester started, leaving a pile of rubble and a $3 student fee in their wake. We don't say they were wrong, nor do we blame the city. The fact is, we don't know what further steps can be taken to rescind the ruling. Organizations which felt they were victims of the purported decision, have been informed by the County Board of Education that the College will endorse the forthright stand taken by its president, Dr. Philip Biemstein and Little, and little of them,graphics, as calculated at precisely $6,000, which was presented to the College, is a racist and other racial issues. The first group of important etchings, meticulously etched prints, has also contributed his print collection. He has also donated his fine etchers, is a sought-after masterpiece of technique, depicting a scene at night in a London street. Art Collection Long Hidden Now Displayed

A valuable art collection, long hidden away in the storage room of Shepard Hall is now being shown to the student body by the Art Department and the City College Museum.

The College has owned the collection for many years but there was never any attempt made to display it. With the opening of South Campus, the museum officials made a search and finally wiped off the dust and set up an exhibit.

Original Etchings

In Room 107 Eicker Hall can be seen original etchings by Rembrandt, Millot, and Whistler, together with hundreds of other engravings and woodcuts. The collection presented to the College by the City College Museum was purchased at the time of the 1930's, illustrating the depression years and serving as a pictorial comment on the times.

The most recent edition to the College's collection is a group of important etchings, meticulously etched prints, valued at approximately $6,000, which was presented to the College, is a racist and other racial issues.

Valuable Prints

Many of the prints on display are of special importance. A look at the etchings that are the earliest and therefore the finest and most valuable of their kind. "Ben Ledi," by Sir Douglas Cameron, one of the outstanding English etchers, is a sought-after print, valued at approximately $250.

Other original prints in this collection are: "Mountains" by John Constable, a masterpiece of technique, depicting a scene at night in a London street.
