Gallagher Refuses Comment
As Construction Company Pulls Out of Center Job

Although the John H. Finley Student Center opened today—with limited facilities—complaining were still going on. The difficulties began with the company which was renovating the building, the K. & C. Construction Company. In August, the company pulled their men off the job. They claimed that the city had broken the contract, and that as far as they were concerned, the job was finished. In dismissing this, Presi­dent Buell G. Gallagher refused to comment further on the specific disagreements involved. He maintains that it is a matter between the legal departments of the city and the company.

Further complicating matters, the company which was installing the plumbing fixtures in the snack bar went bankrupt. According to the President, new bids will be accepted from other construction companies. Also, the company hired to install the snack bar's kitchen fix­tures was crippled by a strike. Meanwhile, they are expected to be back on the job soon.

These two companies are not affiliated with K. & C. A representative of K. & C has told Observation Post that they intend to sue the city. However, they refuse to go into detail about the dispute.

According to President Gal­lagher, no court action has been started yet. He said that there are three alternatives open to the city in order to have the con­struction in the Student Center completed:

1. We can open bids to other construction companies, and use K. & C.
2. We can sue K. & C and force them to complete the job.
3. We can accept bids from other construction companies, and sue K. & C.

Lewis Quits Post as Student Center Head for Jersey Job

Dr. Alton Lewis resigned as late last August. His duties have been assumed by James S. Peace, the College's Associated Dean of Students.

Dr. Lewis is now Director of Student Personnel in the Free­hold, New Jersey, Public School System. He said last week that he had considered accepting the position in Freehold for some time. However, Dean Peace, who said Dr. Lewis' immediate superior, said that he did not know of any plans to leave until they were made public.

According to Dean Peace, Dr. Lewis had primarily devoted himself to teaching and guidance, "without the associated headaches" of adminis­tration and guiding a student body.

Barney McCaffrey, former Stu­dent Center Head, was started in a letter to the student newspaper groups that Dr. Lewis had wanted policy changes, and that he did not feel that he could not and should not remain as director of the center.

Early in 1953, President Buell G. Gallagher set up a student-faculty-alumni committee (Board of Directors) which immediately began to institute a student-oriented Center. Many changes in policy were initiated.

As a result of these changes, McCaffrey wrote a House Commit­tee, composed of members of the Board of Directors, began to replan the Student Center, and the House Committee gave its (Continued on Page Ten)

College of Liberal Arts Goes To Manhattanville Location Area Still Not Completed

After three years and an expenditure of more than $10 million dollars the College is now 18½ acre South Campus. In 1952, the College purchased the site from the Manhattanville College of the Sacred Heart for more than $15,000,000 and over the last two years spent more than $3,000,000 on a repair program.

A brief tape-cutting ceremony today at 11 AM will officially open the new student residences at the South Campus Main Gate, 333 St. and Convent Ave.

Liberal Arts courses will be given at the new site, while Science and Technology classes remain on the old campus.

The class rooms are finished. But the John H. Finley Student Center is still in a state of transition, with its torn hell tower, and floors covered with rubble. Also, its walls are not all painted yet.

With the acquisition of the nine buildings in Manhattanville, and the loss of the old Finley and Army Halls, the College has gained only ten new class rooms. The Student Center building will be operating on a limited scale. The cafeteria in the basement will be open, but only sandwiches and drinks will be sold.

No definite date has been set for the completion of the entire Student Center. The Grand Ballroom, and the entire fourth floor have not been fin­ished. But most of the student organization offices are ready for occupancy, although not all the furniture has been installed. Many organizations will have to use old furniture for a short time.

Other facilities of the Student Center such as the lounges, chapel, music listening room, and the public typing room still (Continued on Page Ten)

What Improved Facilities?

Fortunately, things are not as rough as our cartoon indicates. After a week of being shuffled from one campus to another, we've finally established permanent headquarters in Room 328, Finley Student Center and now—-with two campuses to cover—we need additional reporters, artists, photographers and business men.

The experience journalistic work is needed since all the funda­ments of journalism are taught at OP's informal candidate classes. The only requirement necessary is a willingness to work.

Just drop into OP's new office Room 328, Finley Center and sign up for any one of OP's departments—News, Features, Sports, Arts and Photo Business.
Still in Critical Condition

Knickerbocker Hospital since severe cerebral concussion and a been received through the radio Labor was struck by a taxi and affected her centers of conscious-1 man, Director of Hillel, many broken clavicle. j program "Big Joe." Through the

Entrance Now More Difficult

Higher entrance requirements have bee announced at the College this semester in order to stabilize the number of entering freshmen. Although the number of applicants was 20 per cent over that of last fall, the number of freshmen accepted remained approximately the same. In addition, a combination of high-school grades and entrance exam. SAT scores has been raised eight points, from 154 to 162.

Money from Goodman's Book will Encourage New Writers

Royalties from a posthumous work of the late Professor Hillel Goodman will be used to stimulate creative writing at the College. The professor was a member of the College's English Department for thirty years until he died in the spring of 1952. After his widow turned the manuscript of his last book to four collaborators who edited it and prepared it for publication. The book, "Techniques of Verse," will be published by Routledge and Kegan Paul this fall. Professor Goodman's widow has donated all royalties the book will earn, to the College's Goodman Memorial Fund.

New Plans for Activity Fee Allocations Adopted

A new policy for the allocation of the Student Activities ($200) was adopted at a joint meeting of the Student Government Fee Committee (SFFC) and the Student Faculty Fee Committee (SFFC) which was held on June 21, 1955.

Kingsley: SG Must Find More New Responsibility

"Student Government cannot wait for responsibilities; it must go out and seek them," Student Council President Gloria Kingsley said.

Speaking before the new members of Student Council (SC), she expressed the hope that the students move to the Student Center presented an excellent opportunity for the Student Government (SG) to show it could fulfill its present responsibilities and gain new ones.

In outlining her program, Miss Kingsley emphasized that "a student government must not be occupied solely with projects but must also seek to provide a rationale for its existence."

"Students, Government," she continued, "must treat the student not as an intelligent individual but as a group, with "intelligence" in its deliberations. She declared that it should be concerned not only with internal problems but also with those national, state, and civic issues that affect students as well as students. She said, "The biggest problem, she said, was lack of sufficient funds. Few schools with the academic standing of our college, the president declared, have a student government running on so limited a budget.

Another of her aims will be to "round the Moon" last fall. Miss Labell has received financial aid from several sources to meet the high cost of constant nursing care. President Buhl of Gallaher has allotted $200 from emergency College funds and several hundred dollars have been received through the radio program "Big Joe." Through the efforts of Rabbi Arthur Zucker­ man, Director of Hillel, many synagogues have contributed money and the Free Nursing Service of Brooklyn has supplied three weeks of nursing care. The members of Hillel themselves have contributed $38. Miss Labell has also received blood from the student blood bank. Contributions may be made at Hillel.

Dance...

Hillel will present its annual concert dance on October 29 at 8:30 PM. There will be square dancing and an open dance floor. Bal­ lard, Hillel members will be admitted free, but non-mem­ bers will be charged seven cents.

Student Center Room Change Under Attack

The administration's reassigning six student activities, including JFK Student Center with Vergennes Street, is being attacked by the Hillel students. The committee's chairman was one of the voting fac­ ulty members of the committee in order to maintain equal re­presentation of student and faculty on SFFC, the students will be used by the students of the Student Government Fee Commission.

Another decision reached at the joint meeting was that the $200 Student Activity Fee will continue to be used for the programs created by the SFFC and the money from the sale of these programs will be used for "housekeeping." The committee's chairman, John H. Finley Student Center.

A rotation plan for the faculty members of SFFC was also agreed upon. According to the plan for the SFFC each faculty member will serve for two and a half years.
Wilson Dismisses Final Appeal of Hygiene Dept.

A Hygiene Department appeal of the formula setting up their teaching loads was dismissed by President Buell G. Gallagher on May 13, 1954, with full and complete authority, McCaffrey continued, and these totaled $116,600. The Student Center had $200,000 to work with. The money was given by the alumni through the City College Fund.

When your courses are set
And a dream-girl you've met...
Have a real cigarette—have a CAMEL!

Man, that's pure pleasure!

It's a psychological fact: Pleasure helps your disposition.
If you're a smoker, remember
— more people get more pure pleasure from CAMEL than from any other cigarette.
No other cigarette is so rich-tasting, yet so mild!

S. S. Cappel Wholesale Co., Tacoma, Wash.

National Student Congress Attacks Membership Lists

The use of permanent membership lists was condemned at the National Student Association (NSA) Congress this summer. Desegregation, the eighteen year old vote and the new military reserve program were among the major issues discussed at the Congress, which was held at the University of Minnesota in Minneapolis from August 21 to 31.

NSA is a confederation of 281 college student governments which represent over 800,000 students and is affiliated with the national student unions of forty other nations. The Congress is held each year to determine future association policies and bring together student leaders. Included in this year's 726 participants was a ten member delegation from the Student Government.

The Big Question

The new South Campus makes its long-awaited appearance today. But it certainly as not a smooth premiere.

The Student Center remains the big fly in the ointment. Strangely, all the buildings on the new campus are ready for use except the student Center, and no responsible person is taking a tentative venture even so much as a guess as when it will be ready to swing into full operations.

It is difficult, indeed, to ascertain why this task alone is not ready for full service. The Department of Student Affairs & C, the contractor for the permanent complex, are getting along nicely. The student Center, suddenly walked off the job in August, and because of possible liens it has not for refuses to disclose why. The administration now admits that it had its doubts at the beginning about the firm's reliability and will say nothing more except "the job not done but it will be done."

To compound the confusion, during the summer the former Director of the Center, Dr. Clinton Lewis, the man primarily responsible for seeing that the building was ready by September, declared he had walked off the job. Now the student Center is in the hands of the College (See story on ag. 1) charge that some of his policies were wrong and adds that he was in the process of establishing himself as the omnipotent power at the center.

There are only some of the facts which we have finally seen the light of day. What else is within the labyrinth of official administration? silence is anyone's guess. To us it doesn't look good.

It is also doubtful that the official silence will compensate for the $5 Student Center Fee paid by the student for service he apparently will not get. It's a fee which was hastily imposed in the final weeks of the term, but which the student service he has been told the Center would not be operating on all weekends.

A entire situation needs a full airing so that the students' interest in the Student Center. Any parliamentary body comes under strong pressure to keep the machinery running. We encourage the College to chart the wilderness of Manhattanville to permit the student Center to live up to the student expectations.

City College has lost a loyal son. Shelly Scherr. President-elect of the Junior Class, was struck down by a crippling disease, arthritis. Through tremendous energy and vitality to everything he set his sight on, Shelly made a distinct impression on it and many students, those who knew him well found a right kind of courage in him.

For Shelly to die was an especially ironic tragedy. Once before he had been struck down by a crippling disease, arthritis. Through tremendous energy and vitality to everything he set his sight on, Shelly made a distinct impression on it and many students. Those who knew him well found a right kind of courage in him.

Shelly is gone now, but he has left behind many concrete accomplishments and much in the memory of his friends.

One More Change

City College this semester is a place of many changes. We would like to urge one more—something more important to the spirit of a school than the Student Center. Our new students.

You who are freshmen will be asked to join hubs this term, to become citizens instead of just occupants of the College. When you do so, you will become members of the Student Center.

Any parliamentary body comes under strong pressure to keep the machinery running. We encourage the College to chart the wilderness of Manhattanville to permit the student Center to live up to the student expectations.

Shelly Scherr

Governing Finley Center Largely Job of Students

In contrast to the governing structures of most student centers throughout the country, general management of the John H. Finley Student Center will be determined largely by students. General management of the Student Center is divided among four sub-committees, each composed fully of students, with the third, the Board of Directors, having 50% student representation and 50% faculty.

These boards will serve in an advisory capacity to Dean James S. Peace (Student Life), Director of the John H. Finley Student Center.

A Student Center Board of Directors, consisting of four Day Session, three Evening Session, one Baruch, four faculty, and four alumni representatives, with Dean Peace as non-voting chair, will decide general policy and approve the annual budget of the Student Center.

Day-to-day management will be handled by two student groups—the Board of Managers of the Day Session and the Management Committee of the Evening Session. Nine students comprise the Board of Managers, elected last spring by the Student Council. At that time, Joe De Maios was elected Chairman and Stuart Schwartz Vice-Chairman. Other members of the Board are Marilyn Lifton, Norma Loewen, Norma Folkart, Al Eisenkraft, Herb Geissler, Mike Rizzo, and Paul Siegman.

Dr. Lewis Wilson Retires; Allen New Ed Chief

Dr. Lewis Wilson retired from his post of State Commissioner of Education on August 30, 1955. His successor, James E. Allen, Jr., took office on the following day. It was Dr. Wilson who reversed the decision of the New York City Board of Higher Education to dismiss Professor Nat Holman, the College's basketball coach.

Lewis Wilson ordered Holman reinstated over his grave, according to a death was announced. The money Deputy Commissioner, and in 1941, he had a...on the following day.

Wilson ordered Holman reinstated to his position on the Hygiene Department with full back pay. In this way Dr. Wilson sustained the earlier report of the BHE's trial committee, which recommended the dismissal of the charges against Holman.

Dr. Wilson was first appointed to the State Commission of Education as an Assistant Commissioner in 1927. In 1930, he became Deputy Commissioner, and in 1950 Commissioner. Mr. Allen, his successor, was previously Deputy Commissioner.

Scherr

after arriving at the University of Minnesota where the convention was held and died on August 31, of multiple injuries.

Delegates at the Congress contributed $346 to a fund in his memory. At the time of his death was announced. The money will be distributed to the family over his grave. In his place, he was deeply shocked to hear of his death.

September Campfire--Hayride Planned by the Senior Class

The Senior Class is planning an extremely interesting program of events and activities for the semester, according to 36 President Dave Pfister. The program is to begin this Saturday evening, September 24, with an old-fashioned hayride followed by a campfire, with refreshments provided. A few tickets at $4 per couple are still available and will be on sale tomorrow in Room 152 in the John H. Finley Student Center, and on Thursday at noon in the Townsend Harris Auditorium.

Class to Meet

The Class Senate Committee has also called a meeting of the entire class to take place in the Townsend Harris Auditorium at 12 noon. The purpose of this meeting is to discuss a new plan for counseling of members of the Class of 1956 by responsible alumni of the College. Plans will be discussed.

The Senior Prom, which will be held at the Hotel St. Moritz Saturday, December 15, will be auctioned off on Thursday, from 5:30 to 7:00 in the main lounge of the building.

Auction ... 

Pool tables, pianos and furnishing from Army Hall will be auctioned off on Thursday, from 5:30 to 7:00 in the main lounge of the building.

President Buell G. Gallagher and Dean James S. Peace (Student Life) are expected to be auctioners at the Inter-Fraternity Council event. Proceeds from the event will go toward the Student Center operating budget.

All items except pianos require minimum bids ranging from 5.50 to $25.00.

More Women Engineers

The battle for women's rights apparently did not end with suffrage, Professor Cecilia Froehlich, chosen Electrical Engineering Department chairman three weeks ago, has a crusade of her own. The first female chairman in the College's history and only woman in the EE Dept. has been conducting a one-woman campaign to encourage girls to major in engineering.

"Most young women," she says, "think of technology as a physically taxing, masculine occupation. Actually many branches of engineering are ideally suited for girls." She cites acoustics, electronics, engineering design and chemical engineering. Women with engineering degrees have no trouble finding jobs after graduation, Prof. Froehlich asserts. Industrial firms grab them hungrily, in some instances signing them to future contracts before they receive their degrees, she adds.

Back in Germany, Prof. Froehlich received her doctorate in mathematics from the University of Erlangen. Before coming to the United States in 1941, she worked for engineering firms in Belgium and Germany. In addition to her work at the College, she has taught graduate courses at New York University.

Students! It's Lucky Droodle Time Again!

Hundreds and hundreds of students earned $25 in Lucky Strike's Droodle drive last year—and they'll tell you it's the easiest money yet.

Droodles are a map to do—just look at the samples here. Droodle anything you want. Droodle as many as you want. If we select your Droodle, we'll pay $25 for the right to use it, with your name, in our advertising.

Droodles are a snap to do—just look at the samples here. Droodle anything you want. Droodle as many as you want. If we select your Droodle, we'll pay $25 for the right to use it, with your name, in our advertising.

"It's Toasted" to taste better.

Lucky Strike is the only cigarette that's Toasted.

Lucky Strike Cigarettes

Lucky Strike leads all other brands, regular or king size, among 36,075 college students questioned coast-to-coast. The number one reason: Lucky Strike tastes better.
Social Functions Agency Prepares New Program

By DEBRA WEISSTEIN

The Student Government Social Functions Agency has planned an expanded program to be held concurrently with the increased facilities for co-curricular activities. Lectures, parties and dances—all hand-tailored for individual groups and among the additional projects being prepared by the SFA.

Two new divisions have been initiated by the Agency in conjunction with the expanded program: Party Bids and Theater Tickets. The Party Bids division will arrange parties between groups on and off campus. A letter is enclosed in the letters to be filled out with information about what type of party the group would like and whether the members prefer males, females, engineering students or education majors. The Division will check the halls and organize parties between compatible groups. Rooms at the Center have been specially designated for these parties.

Tickets to any and every play, movie or athletic event in the metropolitan area will be handled through the SFA's recommendations. Free passes to TV shows will also be distributed by this Division.

"What to wear" and "where to go" will be the subjects of a lecture series planned by SFA. The Agency hopes to get people from night clubs and clothing houses to speak at the College. These talks will be designed to help those in all economic brackets get the most for their money, socially and materially.

"We plan to hold the lectures in the Student Center, Main Lounge," says Mike Rizzo, Director of SFA. "We want the atmosphere to be comfortable and informal."

Friday nights at the Center will feature Student Center Balls in the Grand Ballroom. The balls will be a continuation of the Friday Night Dances. Added bonuses are being prepared for this term: dances will last until 2 AM and a Winter Carnival King and Queen Contest. The winners will be crowned on the second floor of the Student Center, Main Lounge. The victory will be as elation as chaperones.

Finally, for admirers of the old college tradition, SFA is sponsoring a Films Program. Greta Garbo and Rudolph Valentino will enter the lives of College students on celluloid, of course.

M'tville

(Continues from Page One)

require extensive renovations, their opening dates are definite.

Both the Book Store and the Grand Ball Room are expected to be ready for use by October. Upon completion, the Student Center will be one of the largest Student Center Buildings in the country.

The game rooms, which include checker, checker, bingo, and card playing rooms, are expected to be functioning within weeks.

Bids for the Morris Raphael Cohen Library will be accepted starting September 20. It will eventually be constructed behind Bowery Hall. A model of the building is on display in Lincoln Terrace (Sheppard Hall).

According to President Buell G. Gallagher, no provisions have been made for a parking space. However, some faculty members have been issued special parking permits on the roads leading into the campus. Students will be permitted to sit on the grass in Manhattanville as they weren't allowed to do on the old Campus.

Letters . . .

Letters to the Editor should not exceed 250 words in length and should be signed. All such correspondence should be addressed to Features Editor Paul Weisstein.

Nothing In Its Field Can Match Chevrolet For Acceleration!

When you need a quick sprint for V8 power, you come to Chevrolet. It's pure dynamite, and you have to try it to believe it. It's the big reason Chevrolet's been taking all comers in short track stock car events this season. Sizzling acceleration along with handling ease and cornering ability—things that mean safer, happier highway driving. Come on in and let a new Chevrolet show you what we mean.

Convent Goes Collegiate

After 6 Years of Delay

A six year transition from prayerbooks to textbooks has finally been completed.

The change started in 1949, when the nuns at the Manhattanville College of the Sacred Heart, a convent, felt that they could develop their program better in suburban surroundings. To this end, they planned to purchase the property.

The story of the new campus was one of delays. In February, 1954, no construction or renovation had been started. Plans were still being revised, requiring more work that had been expected. The finished plans had to be adjusted to a number of city departments for approval before any work could be done. President Buell G. Gallagher expressed "a mounting frustration because of the face of difficulties."

Dr. Allen Lewis, then Director of the John H. Finley Student Center, announced in March of the same year that relocation of the Student Center at the former campus of Manhattanville College would begin in the following July.

Girls' time, this had been using one of the buildings as their Hygiene classes. Boys were permitted to enter Manhattanville and New York City officially, haggling for three years, could not agree on a suitable selling price. Finally, 1952, agreement was reached. The College paid $8,000,000 for the property.

Boothers Aim to Repeat Metropolitan Championship; Thirteen Vets Return

Led by their recently elected co-captains, Bob Hayum and Johnny Koutsantanou, the Beaver boys on the Metropolitan Intercollegiate Soccer League team and forwards Johnny Phil Letter, Al Winters and Paul Riviere will hold a place at the top.

The schedule opens Saturday, October 1, with a home engagement against a Pratt eleven that time in "the recent history of the league. Bob Hayum had this comment: "The team has scheduled bi-weekly practice sessions for the season, according to an announcement by the hygiene Department.

The "salle" will be equipped with three cubicles.5 mat running from north to south, a wall by four mirror, an equipment locker, and trophy racks.

Practice sessions in the new "salle" will be conducted in the old fencing "salle" at the Baruch Center. Home inter-collegiate meets will still be held in the Main Gym, George W. Wingate Gymnasium.

Fencing mentor Edward Lucia commenting on the revised setup, said: "I am extremely grateful to Dr. Hyman Krakower (Chmn., Hygiene Department) for his cooperation, and I hope that it will lead to greater team participation by all students in the Mt. Sinai Fencers Club."

Bert Rosenthal

Anxious I conferred with the new strategist last Monday. His self spoken manner belied a feeling of anxiety concerning the forthcoming cross country season. Analyzing the present cross country situation he said, "Right now I'm unacquainted with any of the boys on the team, but starting with our first meeting on Monday, I'll get to know every man on the team thoroughly." Prof. de Girolamo then added that, "Dr. Bruce left a very big pair of shoes to fill. I'll put every effort I have into the organization to produce a winning team."
DeGirolamo, New Track Mentor, Needs Runners

The annual call for cross country runners is being sounded again, but for the first time in ten years the voice of Harold Anson "Doc" Bruce will not be beckoning. New cross country and track mentor Dr. Harry de Girolamo is this season harking.

Returning from last season's squad which faced with a tremendous rebuilding program. The loss of number one runner, Jim Spencer, who has transferred to night school and will not compete, will undoubtedly hamper the Beavers, as will the departures of co-captains Dave Nourok, Vince DeLuca, Joe Thompson.
