Freshmen

The Class of 1960 will hold its first evening event of the year, "class night," Saturday at 8:30 PM in the Finley Student Center.

President Bueli G. Gallagher and Mrs. Gallagher will welcome the freshmen at a Tea in the Center's Main Lounge. There will be dancing in the Grand Ballroom, where a Freshman Queen will be selected. Short films will be shown during the evening and refreshments may be obtained at the Snack Bar, which will be open for the occasion.

Admission is free and will be limited to freshmen.

This is the first activity of the class this semester. Other functions are planned.

Faculty Panel Discusses

Halting Tests of H-Bombs

By MICHAEL SCHNURMAN

A discussion of "Should Hydrogen Bomb Tests Be Banned?" was held last Friday, by a panel of political scientists. The forum, consisting of four physicists and moderated by President Bueli G. Gallagher, was sponsored by the Students Opposed to Continuing Tests.

The four speakers, Professor Duchacek, the second speaker, disagreed that this was a proper campaign issue. He felt that "sharing the issues" of a candidate's campaign would make the public informed before, and it is important to have a free press for presidential candidates. He also said that this probably the most important presidential campaign that has ever been debated politically before, and that it is important to have a free press for presidential candidates.

Professor Blaisdell also said that this was a proper campaign issue. He felt that "sharing the issues" of a candidate's campaign would make the public informed before, and that it is important to have a free press for presidential candidates.

Stempel Faces Cuban Medic

In Video Quiz Battle Tonight

At ten-thirty tonight two men will settle down to play a game of "Twenty-One" for the highest prize of $1,000. The outcome will decide whether Herbert Stempel will add to the $44,000 he has amassed in three weeks on the TV quiz show. "Twenty-One," or is he the first loser of an H-Bomb anywhere in the world who could easily be determined with the Other scientists opposed to continuing tests.

Topple Iona In Finale, 24-32

By BARRY MALIN

The College's cross-country team climaxd its first unbeaten season in eight years Saturday by defeating Iona, 24-32, at Van Cortlandt Park.

The victory, the Beavers' seventh of the season, was also the toughest. Co-captain Randy Crouse, consistently the top-scoring runner, capped his fifth consecutive victory with a time of 20:15, his best clocking of the season. The squad's outstanding newcomer, Ralph Taylor, followed Crouse eighteen seconds later to give City a quick lead.

But it was still going to be a tough day for both teams as the race soon turned into a wide-open affair. Iona's Bill Good and Masanovich Sets Goal Record

By MAURY GLASSER

Paced by Novak Masanovich's three-goal, record-breaking performance and John Novak's three-goal, tie, the City Soccermen overcame an early Adelphi lead Saturday to sweep the home team, 7-1.

Masanovich's three goals beat the Marquardt League season scoring record (12) and tied the Lavender individual season scoring mark (13), both established by John Kostantinou in 1954. One of "Kostantinou's" tallies came against Stevens Tech, a non-league opponent.

"Kostantinou," the highest scoring defenseman to rear a Beaver (Continued on Page Four)

Booters Blast Adelphi, 7-1: Harriers Finish Unbeaten

By SHELLY HALPERN

A man suspected of holding up two students at the College last week was apprehended Friday.

A patrol car from the 30th Precinct caught the suspect at 9:45 AM as he was alleged to be robbing a student at 143rd St. and Convent Ave.

According to the police, the alleged thief had a pen knife in his hand as he was "caught in the act" of robbing Herbert Ekins, a junior at the College.

Mayor Wagner To Speak At Dedication of Lounge

Mayor Robert F. Wagner will be among the speakers this Sunday at the dedication of the Gustave Hartman Student Lounge (Room 348) in the Finley Student Center. The room is being dedicated to the late City Court Justice and graduate of the College's Class of 1900 on the twentieth anniversary of his death. Several hundred persons, many of whom are prominent in educational, business, civic, philanthropic and public affairs, are expected to attend. Students are also welcome to attend the ceremonies which begin at 2 PM.

Other speakers besides Mayor Wagner are General Session Judge Jonah J. Goldstein, Fannie Hurst, Mrs. M. Hartman, widow of the late jurist, and President Buell G. Gallagher. A portrait of Judge Hartman by David Immerman will be unveiled in the lounge during the dedication ceremonies. The painting and the furnishings of which begin at 2 PM. are the gift of the Gustave Hartman City College Memorial Fund, of which Mayor Wagner is chairman. The fund was organized as a tribute to Judge Hartman's services to education and his 12-year devotion to public service and philanthropy. "The late judge is probably best known as the founder in 1914 of the New York State Lawyers Association, a Grand Master of the Independent Order of B'nai B'rith, and as a member of the executive committee of the American Jewish Congress. With some reluctance I began the agonizing walk. An uncanny presentiment hovered in the air. Those fears became a reality as part of my shoe detached itself from the floor. But I was not to see that sole lying there so forlorn. During insomnient weather no student at home would have thought of using his shoes to the College. More than that he would not think of going to the College! Since the majority of the students stayed away, the College would declare those days as holidays. I longingly wondered if City would do the same. To me the multitudinous courses offered at City was astonishing. To crown it they were offered gratis. What a change it was from India. There the tuition fees resulted in financial fatigue. No attempts were made to deprecate it. Yet, if someone failed to pay at registration, the required minimum, he would forfeit his admission to another on the waiting list. And usually there were many waiting.

During the term, if the fee was not paid those whose names were on the list were fined, and rather excessively. As a last resort they would request the Student Center To Get Television Set. Plans are underway for the acquisition of a color or black and white television set for the Finley Student Center. Mr. David Newton, Associate Dean of the Center, said Monday he would request the Student Center Board of Managers to investigate and suggest the most desirable location in the Center for a TV set. Whether a color or black and white TV set is purchased, according to Mr. Newton, depends on the cost of maintenance of the color set. If the cost is prohibitive, a black and white set will be purchased. Approximately $250 is allocated in the Center's capital budget for the set.

NEW YORK... Mercury... Mercury, the College's boisterous magazine, will be put on sale tomorrow and Friday, the magazine, which sells for twenty-five cents, will be sold at booths located in the Main Corridor of Shepard Hall. Interested students are also offered scholarships but they were a mere pittance. The recipients of these were from the Harjian ('unthinkable') class and the other back ward communities. This gesture at desegregation was an outgrowth of the Gaithersburg movement for social upliftment of these classes. There were eight European languages to choose from at City Center To Get Television Set. Plans are underway for the acquisition of a color or black and white television set for the Finley Student Center. Continued from Page One)

The use of hydrogen bomb tests is dangerous not only to the present population, but to our descendants as well. The experts estimated that 10,000 children would be born defective if the present rate of testing were to continue. "This figure could be as high as 500,000," he said, if the calculations are wrong by as little as a factor of two.

The term of the fee was not paid those whose names were on the list were fined, and rather excessively. As a last resort they would request the Student Center To Get Television Set. Plans are underway for the acquisition of a color or black and white television set for the Finley Student Center. Mr. David Newton, Associate Dean of the Center, said Monday he would request the Student Center Board of Managers to investigate and suggest the most desirable location in the Center for a TV set. Whether a color or black and white TV set is purchased, according to Mr. Newton, depends on the cost of maintenance of the color set. If the cost is prohibitive, a black and white set will be purchased. Approximately $250 is allocated in the Center's capital budget for the set. But your college offers more than this. There were other Indian languages, and students invariably studied Telugu—India's most proud language.

At home, the pre-engineering and pre-medical curricula did not include Social Studies and Humanities. This would involve additional expense and time. Moreover, the students had not a language to wrest a be degree.

With its bewildering diversity of courses, City College and Mrs. Ankitam Venkata Narasimhan has one outstanding feature in common. It was the Gothic structure. The gray walls had a stoic look about them. The familiar scene that greeted me at City extended a grotesque inversion. Mrs. Ankitam Venkata Narasimhan was a new arrival to the United States. Born in India, Mr. Nicolas was a fresh student, and rather excessively. As a last resort they would request the Student Center To Get Television Set. Plans are underway for the acquisition of a color or black and white television set for the Finley Student Center. Mr. David Newton, Associate Dean of the Center, said Monday he would request the Student Center Board of Managers to investigate and suggest the most desirable location in the Center for a TV set.
Ugh Again

The College's gargoyles at last have something to rival them in ugliness.

Nine students and six members of the faculty will vie tomorrow in Alpha Phi Omega's Ugly Contest. The faculty members eager for the beast honors are Professors Werner Miermann (German), John Hutcheson (English), William Etkin and James Ikenfessors (Studen Life).

The contest will run two days, tomorrow and Friday, after which votes will be tabulated and the lucky winner announced. Students may vote for their favorite by depositing money in the ballot boxes. Each nickel will count as one vote, the proceeds going to the Cystic Fibrosis Fund in the name of Dorothy Ann Sailer, a five year old victim of the disease.

But Observation Post's Stan Hendler remains confident. "I'm bound to win," he exclaims. They say mother love conquers all, but my mother makes me wear a "house.""

Model...

Evening Session House Plan is looking for hands with a yen for modeling. They would like the feminine to take part in a fashion show for the benefit of the Student Loan Fund. Gowns between five feet five inches and five feet nine inches with a seven to eleven dress size are needed for this venture. Contact Ricky Weiss, or Sue Coleman in the House Plan office any evening from 7 to 10 P.M.

What young people are doing at General Electric

Young engineer sells million-dollar equipment to utilities

Selling electric equipment for a utility substation—a complex unit used in power transmission and distribution—requires extensive technical knowledge of the products involved. Men who sell such complex equipment must also know a customer's requirements, what will best fill his needs, and how to sell the merits of their products to the executives who buy such apparatus.

One such man at General Electric is 31-year-old Allen J. Clay, an apparatus sales engineer serving the electrical utility companies in the Philadelphia-Allentown area.

Clay's work is important, diversified

For Clay, technical selling is not a door-to-door job. As a representative of General Electric, he must be ready to discuss customer needs with vice presidents or help solve intricate problems with skilled engineers. His recommendations are based on his own engineering background, and are backed up by the know-how of the Company's best application engineers. His interest in working with people carries over into his community life, where he takes a part in many local activities—Rotary, Community Chest, Boy Scouts, and his University Engineering Alumni Association.

27,000 College Graduates at General Electric

Allen Clay is a well-rounded individual who has come to be a spokesman for General Electric wherever he goes. Like each of our 27,000 college-graduate employees, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: Whenever fresh young minds are given freedom to make progress, everybody benefits—the individual, the Company, and the country.

Booters Crush Adelphi; Masanovich Sets Mark

By Dr. Harry de Girolamo

I had no idea that we would go undefeated, but the team had a great deal of credit. This season is of utmost importance in sport like cross-country, and the team trained without let-up throughout the season.

We had three good men on last year's team, but after that the team was weak. This season, though, we were much balanced and the freshmen and fifth men considerably got into the scoring column.

Wrestlers Win Five Matches To Cap Initial Practice Meet

By Coach Joe Sapora

The College's wrestling team captured the season's first five matches to cap another successful and balanced training. The team's five top spots as they entered the campaign with a 4-31 win over Adelphi, and then dropped their next nine decisions.

"The girls started slow in practice," Miss Ham said, "but in the last few sessions they've really been moving along." Led by last year's high scorer, Captain Helen Wong, the Beaverettes boast a small but fast moving outfit. "If I had just one big man (womyn, we'd be in fighting shape," the coach moaned. "We do have a six-footer on the JV squad, but I don't know whether she'll be able to play this season."

Others who are expected to start are forwards Betty Castro and Lee Caldwell, and guards Son Larran, Jewel Gold and Natalie Bowen. All saw action last season.

The Beaverettes did not fare as well as the Beaverettes, however; coach Charles Lennen, who supervised the Varsity and a new crew of Sanitas and Mike Stearn who remain, lost.

The Beaverettes next match is Friday, when they wrestle the "Y" in the Tech Gym at 7:30 PM.

Harriers Finish Season With Victory Over Iona

By Dr. Harry de Girolamo
