

31 Colleges To Compete In Debating Tournament

The Debating Team will be host to thirty-one colleges and universities, at its second annual Invitational Debate Tournament, to be held on Saturday, March 30. Sponsored by the Debating Society and the Finley Student Center, the tournament will begin at 10 AM in the Center and will continue until 5 PM.

The topic to be debated is: "Resolved: That the United States should discontinue direct

represented the College in more than seventy-five debates, of which three were major tournaments. The season's best score was made on March 3 when Bill Roth, Gilbert August, David Bernheim,

Speaker . . .

The Physics Society will present Dr. Polykarp Kusch, 1955 Nobel Prize Winner in Physics, speaking on, "The Role of Science in Our Culture," today at 12:15 PM in Room 105 Shepard.

Purim Festival On Tap Today

A Purim Arts Festival will be presented by the College's B'nai B'rith Hillel Foundation today, in Townsend Harris Auditorium at 12:15 PM.

In honor of the forthcoming Jewish holiday the Festival will present Israeli artists and Hillel Art groups.

A reception honoring Dr. Judah J. Shapiro, National Director of the B'nai B'rith Hillel Foundations, will take place after the festivities from 2-4 PM. President Buell G. Gallagher will officially welcome Dr. Shapiro to the College.

A group of Hillel members, directed by Raphael Adler, will sing the cantata, "Seven Golden Buttons." The Hillel Israeli and Advanced Folk Dance groups will also perform.

At the reception for Dr. Shapiro, in Hillel House, an exhibit of paintings by Israeli artist Joel Rohr will be opened. The exhibit will extend until April 3.

Dr. Shapiro, the National Director of the B'nai B'rith Hillel Foundations, has for many years been engaged in Jewish youth and educational work.

He served as director of the B'nai B'rith Hillel Foundation at Cornell University in Ithaca, New York, and organized Hillel service in the Boston area at Harvard University, Boston University, Simmons College and Tufts College.

Ernst May Plead Tuesday At Council of Presidents

By DAVID GROSS

Morris L. Ernst may appear Tuesday before the Administrative Council of Municipal College Presidents to discuss the recent decision of the Council to bar Smith Act violators from the municipal campuses.

Mr. Ernst, noted lawyer and authority on civil rights, was retained by Student Government last week.

Although Mr. Ernst had not until yesterday received an invitation to appear before the Council, he said he was "hopeful" of receiving the invitation today.

The responsibility for further study and review of the Council's decision, President Buell G. Gallagher announced yesterday, rests

tor of the Daily Worker, and other persons convicted under the Smith Act from the municipal colleges. The emphasis of any further study and revision, Dr. Gallagher said, will be placed on the second clause of the Council's decision. This clause states "our intent to respect one another in a variety of methods and procedures, each appropriate to our own circumstances" in dealing with communist speakers not convicted under the Smith Act on campus.

The municipal colleges do not have a uniform policy dealing with communist speakers on campus other than those convicted under the Smith Act, Dr. Gallagher said. And in the future, he continued, the colleges will continue to decide on their policy independently without going to the Board of Higher Education.

The ruling applies, President Gallagher said, not only to communist speakers invited to the College by SG but also to those invited to speak in the classrooms by instructors.

Dr. Buell G. Gallagher Not Backing Away

with the Council itself. He said that the decision of the Council was "subject to further exploration and revision."

President Gallagher emphasized, however, that the Council is "not backing away" from the decision to bar John Gates, Edi-

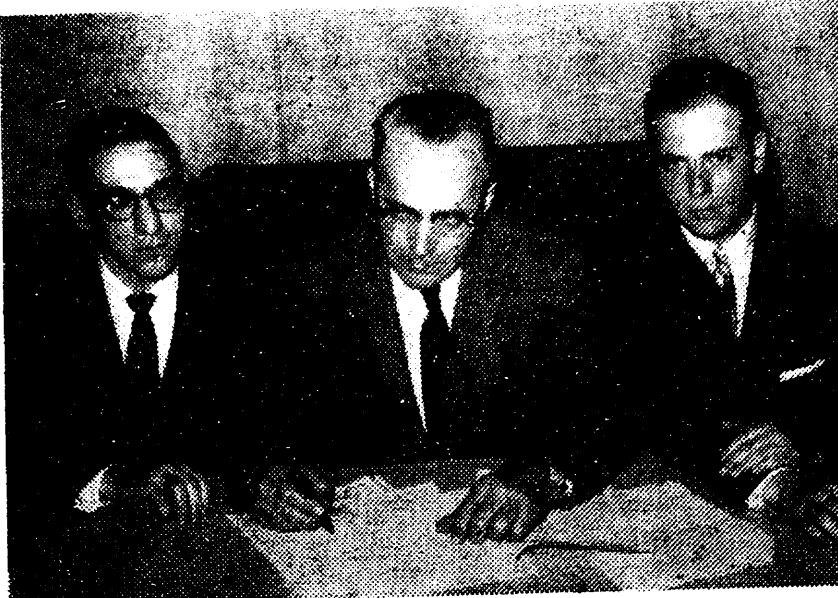

Career Tests Set for May 11

The New York State Department of Civil Service will hold its next Professional Entrance Test May 11. The test offers college students an opportunity to begin a career in entrance-level professional and technical positions throughout the state.

The test, which is held three times a year, is open to college juniors and seniors, as well as to those who already have degrees. Juniors, however, will not be eligible for appointment until after they graduate. Others who pass the test may go to work as early as July 1.

Starting salary is \$4,028 a year with three annual raises to \$4,560.

Applications and details may be obtained from Mr. Ernest Schnaebli, Placement Director of the College, in Room 203 Finley.

Pictured above, from left to right, are Bill Roth, Debating Society President, Dr. Wayne A. Nicholas, Faculty advisor and Gilbert August, Captain.

economic aid to foreign countries."

Chosen by over 800 colleges in the country that have debating teams, this topic has been discussed throughout the year.

A new topic is chosen each year and is called the National College Topic.

Competing in the tournament will be the University of Pennsylvania, Fordham University, Cornell University, and Columbia University.

The Baruch School's Debating Team will represent the College at the tournament since the up-town squad will only act as host. This year, the Team has rep-

and Melicent Berman took first honors at the Yeshiva College Tournament with seven wins and one loss.

Commenting on the increased number of participants over last year's tournament, Dr. Wayne A. Nicholas (Speech), Faculty Advisor to the society said, "A tournament involving thirty-one schools is a sizable undertaking for any group to sponsor." "However," he continued, "the experience of last year should stand us in good stead, and we are indeed fortunate to have the full cooperation of the Department of Student Life and the Finley Student Center Board of Managers."

First Career Day Scheduled To Discuss Job Opportunities

Career Day, sponsored by the Senior Class in co-operation with the Alumni Association and Placement Office, will take place on Friday, April 26. The Day, which is the first of its kind to be presented at the College, will begin at 3-PM in the Finley Student Center.

The opportunities in the fields of Government Services for Liberal Arts students, Insurance, Personnel Work, Stock Brokerage, Journalism and Creative Writing, Small Business, Advertising and Market Research, Merchandising and Sales will be discussed.

Eli Guinsberg, head of the National Manpower Resources Council, will give an introductory lecture in the Grand Ballroom, and then the speakers—Professor Dworkin, Acting Director of NYU's School of Public Administration, representatives from the New York Personnel Club, the

American Stock Brokers Association, the Young Presidents Association, the Sales Executive Club, and Robert Stein, Managing Editor of "Redbook," will speak on Journalism and Creative Writing

Arts Majors Neglected

According to Martin Pollner, Senior Class President, the activity is primarily for Bachelor of Arts students who are considered by him to be the neglected ones of the school, and who have little or no idea of the jobs offered after graduation. He said, "Bachelor of Arts students have more of an idea of the various jobs offered, while the Engineering students literally walk on a red carpet upon graduation."

Qualified Pre-med Grads Find Opportunities Good

By JACK LEVINE

Qualified pre-medical students at the College have a three-out-of-four chance of being accepted into medical school, according to Professor H. Herbert Johnson (Biology), co-secretary of the Pre-Medical and Pre-Dental Committee.

He termed as qualified those students who keep their records high, with middle "B" grades or better in science courses, and who successfully pass the medical aptitude achievement test given by the Association of American Medical Colleges.

In placing them, Dr. Johnson said, "We do as well as any college of our size and better than some." As for dental school, he continued, ninety percent of The College's qualified applicants are accepted.

During the present academic year, thirty seniors have already been admitted to medical colleges. This is a good figure for this time of year, according to Dr. Johnson, since many acceptances come in March and April.

In the past year, forty-five applicants were successful, and in 1955, thirty-four graduates entered schools of medicine. In addi-

tion twenty seniors have received acceptances from dental schools. Eighteen were accepted in 1956 and twenty-seven the year before.

Local Percentage High

The greatest number of acceptances have come from three medical colleges in New York City—Albert Einstein, New York University and New York State Medical College. In other schools, Dr. Johnson continued, "we get our share of admissions." Most CCNY graduates study medicine within a 150 mile radius of the city.

To register, a student should contact either Dr. Johnson or Dr. Donald W. Farquhar (Biology) during the Professors' conference hours, which are posted on the Biology Department bulletin board on the third floor of Shepard Hall.

Activity . . .

All organizations interested in participating in the Activities Fair, to be held April 4th, must leave requisition slips in the Chi Lambda mailbox in Room 151 Finley by March 22. Slips must list: the name of the organization, type and purpose of booth, amount of materials needed and the name, address and telephone number of a representative of the organization.

Cloak & Dagger Sported In Sober Way by Prof.

By STEVE LUDWIG

Government agents are generally depicted as dashing, devil-may-care heroes who spend half their time in alluring women's boudoirs and the other half exchanging blows with foreign agents.

Professor Donald C. Blaisdell who was a United States government agent at the formative sessions of the United Nations, is a far cry from the above-mentioned imaginary figure.

In the capacity of a technical expert in the field of international security, he attended the three major conferences which led ultimately to the formation of the UN (the 1944 Dumbarton-Oaks Conference and the Yalta and London Conferences in 1945) and came out of it all without having had a single dagger thrown at him.

Of the negotiations with Russian and Chinese representatives over the problem of the Security Council veto, Professor Blaisdell says, "The Russians were unwilling to talk unless they knew that you were authorized to approach them and to speak to them—it was much easier in these matters to contact British or French delegates and discuss things informally. As for the Chinese, they were greatly impressed by the way the American Constitution had been amended by interpretation and usage."

Counterspy in Action

The professor was born in Chautaugua, New York, and obtained an MA degree and a PhD from Columbia University. He thereafter studied, traveled, and taught in Europe and the Near East. He started work for the United States government in the 1930s, and in 1953, when the Republicans came into office and decided that a reduction in staff was needed, Professor Blaisdell was dismissed and had to hand in his cloak and dagger.

Ed. Professor Is Enlightened On India Visit

A ten-month sojourn in India earned Professor Janet Kelley (Education) a new name. For a going-away gift, Prof. Kelley's Indian friends aptly dubbed her "Jyoti," Hindustani for "one who spreads light."

The professor received the honored appellation in recognition of her educational work in India. From September 1955 to July 1956 she travelled through most of the huge sub-continent helping to conduct secondary education workshops for Indian educators.

As part of a three-member American team, Prof. Kelley learned vividly how the average Indian lives. She dressed in the traditional "Sari," a long flowing robe; slept on razor-thin mattresses, and had her clothes washed by native laundrymen by the ancient method of pounding the garments on rocks.

"It was important for my work to learn how Indians lived, and I felt this was the ideal way to know the people," she explained.

A workshop participant became her self-appointed "guru" (instructor) and taught her Hindustani. In addition she gained a better understanding of the history, art and culture of India at orientation classes held during her first month there.

Before leaving India, Prof. Kelley found time to take an elephant ride to supplement a trip she had taken down the Ganges River. "I'm glad to say the elephant ride was a short one," she was quick to add.

—Fisher

Opinion

QUESTION: What do you think of the beards sported at the College?

- Melva Gillman, LSo 3:
Something small I like—but not a jungle!
- Evelyn Compton, LSr 1:
I love them! Moustaches are great—beards and moustaches are even better.
- Peggy Casin, LSo 1:
Faces with beards look like armpits!
- Bea Nietro, LSr 1:
How do you kiss a fellow with a beard? You can't tell where his nose ends and his mouth begins!
- Harriet Goldberg, USr 1:
The majority of people that wear them either have weak chins or are pseudo-intellectuals.
- Marlene Steinberg, USo 1:
If they like beards and want to wear them, let them.
- Arlene Roth, USr, 7:
They rub me the wrong way. I don't like them.
- Dianne Isaacs, UJ 3:
I try not to think of them at all.
- Marlene Sweitzer, UJ 1:
I like them very much—on the men I don't go out with. They tickle. If my fiance ever wore one, I'd divorce him before we got married.
- Marilyn Brand, USo 1:
They're awful. I don't see why any fellow would want to do such a thing to himself.

Club Notes

- AICHe**
Presents Dr. E. A. Regna, of The General Chemical Company, who will talk on "Pilot Plant Practice" today at 12:30 PM in Room 103 Harris.
- AIEE-IRE**
Meets at 12:30 PM in Room 126 Shepard. An IBM representative will tell members what to expect from industry.
- Amateur Radio Society**
Meets today at 12:15 PM in Room 13 Shepard. All licensed hams are invited.
- The Anthropology Society**
"El Navajo"—the daily life of the Navajo to be shown in Room 209 Steiglitz at 12:30 PM.
- Architectural Society**
Meets today in Room 104 Wagner at 12:30 PM.
- Baskerville Chemical Society**
Will present Prof. John D. Roberts of the California Institute of Technology at 12:30 PM in Doremus Hall.
- Biological Review**
Meets today at 12 Noon in Room 316 Shepard to discuss the forthcoming issue.
- Biological Society**
Presents Dr. H. H. Johnson who will speak on "The Natural History of the Georgia Coast" in Room 319 Shepard at 12:15 PM.
- Caduceus Society**
Will present a speech on medical schools in general at 12:30 PM. Plans will also be made for the Friday night cook-in.
- Camera Club**
Conducts a "model session" today in Room 438 Finley at 12:15 PM. All shut.
- Chi Lambda**
Watch for: Friday Night Dance Mar. 22; Engineering Day Apr. 6; Activities Fair Apr. 3 and 4.
- Christian Association**
Meets in Room 424 Finley Center. Miss Jimmy Woodward will speak on "Summer Projects."
- Class of '58**
Meets in Room 313 Finley. All Prom aficionados must attend.
- Class of '59**
Will congregate at 12 PM at ticket booth near the main entrance of Finley Center.
- Class of '60**
Needs help in arranging the big event of this term—"Honolulu Holiday," which will be held on Apr. 13. Please attend meeting in Room 337 Finley at 12 Noon.
- Club Iberoamericano**
All Cha-Chaphiles are invited to the Cha-Charama today in Room 440 Finley at 12:30 PM.
- Dramsoc**
Presents readings today in Room 428 Finley. Everyone interested in the stage should attend.
- Education Society**
Presents Mrs. Suffer from WNYE who will discuss Educational Programming at 12:30 PM in Room 210 Klapper Hall.
- English Society**
Prof. Edward Penn (English) will speak on "The Plays of William Inge" at 12:30 PM in Room 304 Mott.
- Gilbert and Sullivan Society**
Holds rehearsals for "Jolanthe" tonight from 6-9 PM in Room 327 Finley, for girls chorus only.
- The Gov't and Law Society**
Screen a film depicting an actual trial at 12:30 PM in Room 106 Wagner.
- Hiking Club**
Will present Shunemunk Mountain, complete with caves, roaring brooks and pine
- clad slopes, today at 12 Noon in Room 312 Shepard. Everyone welcome, with or without alpen-stocks.
- History Society**
Presents Prof. Brooke Hindle, of New York University, who will speak on "Ben Franklin and the Lightning Rod" at 12:30 PM in Room 105 Wagner.
- IVCF Christian Fellowship**
Will meet at 12:30 PM in Room 206 Harris for a Bible study and election of officers.
- Le Cercle Francaise du Jour**
Will present an interesting and instructive causerie on "L'Argot Francaise" (French slang) from 12-2 PM in Room 350 Downer.
- The Logic Society**
Will mail over "Systems of Modal Logic" on Friday, Mar. 23, at 3 PM in Room 225 Wagner.
- Mathematics Society**
Dr. F. Steinhardt will speak on "The Geometry of Convex Bodies" at 12:30 PM in Room 125 Shepard. Bring calipers.
- Modern Jazz Society**
Will be stoned today by West Coast sounds in Room 105 Mott at 12:30 PM.
- Musical Comedy Society**
Meets in Room 312 Mott at 12:15 PM. Prof. Frank C. Davidson (Speech) will lecture on the musical comedy.
- Newman Club**
Communion Breakfast this Sunday at 10 AM. Mass at Our Lady of Lourdes Church. Breakfast and initiation of new members will take place right after mass at Catholic Center, 469 W. 142nd Street.
- Philosophy Society**
Presents a lecture by Prof. Edwin Rubens (Economics) on "Scientific Methodology in Economics" at 12:30 PM in Room 118 Wagner.
- Physical Education Society**
Meets at 12:30 PM in Room 116 Harris to discuss important business.
- Psychology Society**
Prof. Lawrence Plotkin will speak on "Changing Patterns of Social Character" at 12:30 PM in Room 210 Harris.
- Rod and Gun Club**
Meets in Room 014 Wagner. Three films will be shown and discussion on fishing trip will follow target practice.
- Weightlifting Club**
Will hold a New Member Meeting and will ponder other weighty matters at 12:30 PM in Room 11 Lewisohn.

Rose Bushes, Garbage Cans All in a Groundkeeper's Day

While those unfortunate students who have an eight o'clock class are snoring the hour away, five fellows are busy every morning emptying the garbage barrels.

These are the men of Local 924 of the Laborers and Assistant Gardeners' Union. The yard boss is Frank Potenza, and his efficient staff includes Joe Muller, Tom McKenna, Jerry Williams and Tom Affisco.

Taking care of the barrels in the morning is but one part of their 8-4:30 job. They also dispose of snow, keep grounds clean, and plant bushes in the spring.

Joe Muller, the self-announced spokesman, promises that "things will look rosy" around South Campus during the next few months. Besides the flowers the men intend to plant. Joe also promises tomatoes—but says it with too much of a smile to be taken seriously.

According to Joe, the hardest part of the job is moving furniture. Lunch-time is the best part.

Frank, the affable chief who takes a busman's holiday over the weekends by doing his own gardening, maintains the students

here are "more friendly than at Hunter College" where he kept things in shape before coming to City.

Joe, also a "transfer student," (from Queens College) says that while he likes the students here more, "the girls at Queens were prettier."

There are two things in particular that irk the group. Their job is made harder by the students who break coke bottles when they throw them into cans. Joe also feels that certain students aren't considerate in this respect: "The lovers burn up the grass in the meadow—they don't give the sun a chance to come through."

At least the men are more optimistic than some students in one way: "Even though we put 25 years in here, we'll get out eventually," one said.

Engineers Show Alter Ego; Will Sport Palettes, Berets

An occasional easel may be found between the drawing boards, and a palette or brush may be lying on a generator or dynamo in Goethals Hall, at the annual E-Day art exhibit. Sponsored by Tau Beta Pi, the exhibit will be one of the many features of E-Day, held at the College on Saturday, April 6.

The gala celebration will begin at 10 AM with a luncheon in Townsend Harris, and through the night, culminating in a Saturday evening ball for 9 PM in the Grand Ballroom of Finley Student Center.

Respective DaVincis can enter their paintings, etchings, statues and mobiles in the art show, but they will not be experts on the canvas. They will have their work shown by Slav Dobrohotoff, Director of the exhibition, disclosed that 100 works were chosen from the 200 submitted. Also highlighted will be a display and demonstration of newly acquired tech apparatus, and guided tours of the labs by representatives of the various engineering departments.

The program will be thrown open to the entire city. One of the main objectives will be to maintain the high school student, general public, and even the liberal Arts major, with the College's School of Engineering. The program, in particular, will learn that the engineer is not a cold, calculating Univac, but also has a "human" aspect to his personality.

The E-Day Ball, of course, will add to the day's social calendar. The highlight of the Ball will be the election of Miss E-Day.

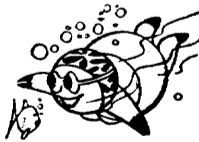

The dance will also feature a show and refreshments. Tables will be set up in the Grand Ballroom to accommodate students from all schools of the College, who will dance to the mechanical music of Marv Adler.

BANANA BOATS

aren't too popular in Miami, but all-college recess trips sure are. . . in fact, National Airlines has provided additional seats for college students leaving April 12, 13 or 14 and returning April 21, 22 or 23.

So, a Banana Boat Sightseeing tour of Miami no can do—but a real calypso steel band beach party, including a moon-lit swim at the Lucerne Hotel Pool (or ocean, if you like Man-o-Wars) . . . and a good time . . . is thrown into the package.

Yes—another collegiate special:

CONCORD HOTEL WEEKEND

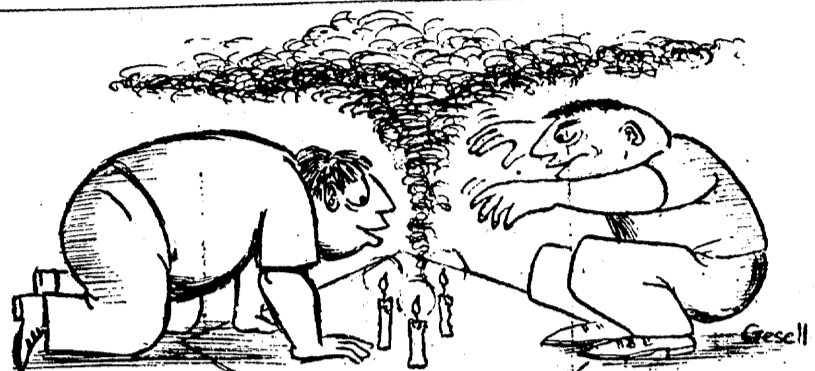

at Kiamesha Lake, N.Y. provides the setting for a May 10, 11, 12 weekend fling. Special rates at \$39.50 complete (including transportation) are still available.

"A big company works for me..."

JOHN D. EVANS, University of Pennsylvania, 1952

"I began working on a training program for General Electric in the summer of '52. Right now, I'm 'Employee and Plant Community Relations Manager' of my company's new plant in Burlington, Iowa. One of the advantages I found in working for a big company such as General Electric is that, because of its size, it is able to give me, and other college-graduate employees like me, a wide variety of training and experience in any one of 159 plants all over the country. Through an extensive on-the-job training program, it is providing me with the opportunity to become one of the top men in my field, and I know that as long as I apply myself to each job, I'll keep moving up. The way I look at it, General Electric is helping me help myself. That's why I say I'm working for a big company, but a big company works for me, too."

size. 27-year-old John Evans is just one example of the thousands of college graduates at General Electric, each being given the opportunity for self-development so that he may grow and realize his full potential.

As our nation's economy continues to expand in the years ahead, thousands of young people of leadership caliber will be needed to fill new positions of responsibility in American industry. General Electric feels that by assisting young people like John Evans in a planned program of personal growth, we have found one way of meeting this need.

A Manager of Employee and Plant Community Relations at General Electric holds a responsible position: he handles employee benefits, health and safety, training, wage and salary administration, and community relations.

Progress Is Our Most Important Product

GENERAL ELECTRIC

This wide framework of opportunity is a unique characteristic of a company of General Electric's

SPRING COACHES

Harry Karlin

By Marv Glassberg

The ability to coach successfully is not possessed by all. Of those who try, many soon realize the hardships of organizing, instructing, and understanding the team. Some are talented enough to produce winning units from any material and Dr. Harry Karlin, soccer and tennis mentor, rates high in this group.

When Professor Karlin was given the reins of the soccer team in 1954, he was greeted by an aggregation of stars that had completely dominated the Metropolitan League Conference, but which was in no condition to compete with strong, nationally recognized squads.

"Doc" devised a training program for the booters and the results are evident. In three years the soccermen posted a 25-2-1 mark and last season they were unanimously selected All-State Champions. With modifications, the same schedule has been fed to the netmen with similar effects. They have achieved marks of 6-3, 7-2, and 8-1 respectively in the past three years.

The popular hygiene instructor started to coach after leaving the navy in 1919. After entering in 1918 he engaged in many activities aboard ship. On one memorable occasion, because of his short stature and great agility, Dr. Karlin was cast in the female role in "Merryland." In the audience sat the ingenue of "Listen Lester," a popular Broadway musical. She was so impressed by his performance that, when his naval service was completed, she invited Karlin to join her and

a few other associates in forming the New York Theatrical Exchange.

Established in 1922, this booking office secured employment for numerous chorus girls. It was "Doc's" job to mold them into a

Harry "Doc" Karlin
Experienced Coach

smoothly functioning line. Shows as far west as the Pacific coast would submit librettos along with descriptions of the performers desired. Karlin selected and trained the girls and advanced them enough money to cover transportation and living costs

until they received payment. By insuring their getting decent wages, he did a lot to correct the many abuses that showgirls were exposed to.

Meanwhile, Prof. Karlin had been teaching at The College since 1920 and coaching the baseball team since 1921. On Sundays he would take moving pictures at the agency. The pressure was too great and Karlin had to choose between the two vocations. After a leave of absence, during which he engaged in long conversations with his associates and family, he decided that the enjoyment and security, which would be gained by teaching at City, would far overshadow the entertainment field's inducements.

Before resuming his instructional duties, Karlin became a co-partner on a burlesque wheel. Back at school he became the swimming coach in 1926.

Karlin had graduated from Newtown High and Savage, a two-year college. Before enlisting in the navy he attended NYU but did not receive a degree. "Doc" re-entered the Violet institution, going evening session, and attained his BS in 1932 and Masters two years later. Dr. Karlin earned his present title in 1941.

Eager Beaver Stickmen Ready for Alumni Fr

By GAIL BELL

Just how good this year's Lavender lacrosse team is was determined Saturday, March 30, when the varsity engaged Alumni in the season's opener. Although most of the squad never handled a lacrosse stick before, Coach Leon "Chief" Miller is pleased with its eagerness. However, Miller pointed out that inclement weather, combined with numerous laboratory hours and other commitments on the part of the players, have impeded their physical conditioning.

Leon "Chief" Miller
Awaiting Opener

A few returning stickmen from last year's squad will form the nucleus around which the team will be built. Shelly Cashdan, with several years of experience to his credit, will probably serve as the Beaver goaltender. Others, including co-captains Mike Volpe and Leonard Fagen, along with George Jensen and Joel Asher, basketball luminaries, will all be

steadying influences.

Several newcomers, number among them Marty Doherty, Prince, Vito Cutrone, R. Crossfield, Dave Elias and ry Kolaitis are waging fights for starting positions will give the returnees competition.

Meanwhile, the "Chief" is seeking varsity candidates, particularly "men who have played football and other rugged sports. He quickly added that "although lacrosse is a tough, rugged game, there are comparatively few injuries."
