Circulate Austin Petition: 5 Students Go to BHE

By RITA ASHENKAS

A petition expressing the "alarm" of the student body of the College over the "disregard" of the rights of Profs. Aaron Cohen, SG President; Mike Horowitz, former SG Treasurer; Arnold Deutchman, former SG Treasurer; and Eli Sadownick, Associate Editor is being circulated on campus.

Beginning yesterday, students have been asked to sign a petition which states that they are "through not attempting to judge the guilt or innocence of Dr. Warren Austin, are compelled to express alarm over the disregard on the part of the Trial Committee of the Board of Higher Education for an individual's basic freedoms." Student Government officials

Dr. Warren R. Austin Petition On His Behalf

Semi-Annual Election Issue

SG Elections Begin Today:

Two to Vie for Presidency

The first three-day Student Government election in the history of the College will begin today. In the past, only one day was reserved for the election.

SG Secretary, Arthur Genen, SG Vice-President, and Steve Nagler, SG Vice-President, are rivals for the position of SG President. There are three candidates for the position of SG Vice-President: Arthur Genen, former SG Treasurer and Steve Nagler, Chairman of the Student Faculty Student Court; and Paul Feldman, Student Faculty Representative.

Ken Werden, a member of the Student Faculty Committee, is unopposed in his quest for SG Treasurer. As in past terms, there are candidates for two student representative positions on the Student Faculty Committee on Student Activites (SFCSA). They are: Burt Bernstein, Chairman of the SFCSA, and Steve Nagler, SG Vice-President. Charters for the Student Faculty Committee must be dismissed from the College for "conduct unbecoming a student," Rosen claimed, "I didn't droop or dip the flag. The entire incident has been magnified out of proportion."

Referring to the "flag-dipping" incident, Rosen returned, "I didn't droop or dip the flag. The entire incident has been magnified out of proportion."

Rosen was also asked to comment on charges made earlier this term by President Ruel G. Gallager that the International Agency of which Rosen was chairman had been "indulged in" an attempt to recruit for the World Youth Festival held in Moscow last summer. He replied that he had not used any of his influence on the College to recruit for the festival.

Student Government officers are prepared to speak and answer any questions of the Board.

IFC Affirms Anti-Bias Policy

The College's Inter-Fraternity Council (IFC) has reaffirmed its anti-discrimination policy in reaction to a report issued by the National Inter-Fraternity Council supporting the retention of "racial and religious discrimination clauses in fraternity constitutions."

No Bias Clauses

In a statement issued yesterday, Tom Lee, President of IFC declared, "The fraternities and sororities of the College are proud to say that there is not one discriminating clause in any of their constitutions. The individual social organizations are responsible for their own constitutions."

College regulations prohibit any organization from including in its constitution any clause which excludes anyone on the basis of race, color, or creed. Any group violating this ruling cannot obtain a charter. IFC reviews all prepared fraternity constitutions.

The Student Faculty Committee on Student Activities opposes the first review of all organizations,Activities Fee be increased from two dollars to three dollars.

* Resolved that: "Faculty athletes be permitted to register early.

* Resolved that: "The student body approves the principle of establishing student exchange with the Soviet Union."

* Resolved that: "The students at City College are opposed to compulsory membership lists."

* Resolved that: "We the students at City College are opposed to compulsory membership lists."

Electing tomorrow will not be allowed in the area designated by the Elections Committee as being that of the polls.
Want to Pass Your Examinations? Develop Extra-Sensory Perception!

By ESTHER MAE MELLOMOL

Extra-sensory perception may be the solution for students who have difficulty guessing correctly on exams. According to Dr. Gardner Murphy, former chairman of the College’s Psychology Department and present chairman of the Measuring Foundation, there is much more to guessing correctly than meets the eye.

"While on the surface this method seems ideal for passing finals, the subject of this particular experiment, according to Dr. Murphy, is a man with "special gift" for extra-sensory perception. The subject finds himself able to transmit the "telepathic" tests, while those who believe in it score highly enough not to have their success attributed to chance.

If any student manages to master ESP, the College may have to seek out "telepathic" proctors to prevent group efforts on exams. According to Dr. Murphy, it is not an intrinsic faculty, but presupposes belief in its possibility on the part of the subject.

Telepathic Proctors

Subjects who reject the idea of ESP actually score below the mean chance range according to correct answers on "telepathic" tests, while those who believe in it score highly enough not to have their success attributed to chance.

If any student manages to master ESP, the College may have to seek out "telepathic" proctors to prevent group efforts on exams. According to Dr. Murphy, it is not an intrinsic faculty, but presupposes belief in its possibility on the part of the subject.

MURTHA SAYS POLICE TRY TO DICTATE MORALES

Chief Magistrate John M. Murtaugh last week criticized the College’s Government and Law Society last Thursday, saying, "It is not for us to dictate laws to the people. The trouble was that the laws filled up with ashes and became useless after a few weeks. It remains for Primus to conquer that problem. He invented a mechanism to remove ashes from the bottom of the stove and was thereupon known to the world as the Primus stove.

Two File Suit Against Peace

Two $50,000 suits for false arrest have been filed against Dean James S. Peace (Student Life), Mr. Stamos G. Zades (Student Life), two policemen and the City of New York.

Dean Peace said yesterday that he has referred the matter to the Law Secretary of the Board of Higher Education (BHE) for an investigation. When contacted, the law department declined to comment until the matter had been thoroughly looked into. Remember, charges must be answered within twenty days.

Stopped in Center

According to Dean Peace, the plaintiffs have filed a habeas corpus petition, and the students' measurements. Rental fee is $5.

Two File Suit Against Peace

Two $50,000 suits for false arrest have been filed against Dean James S. Peace (Student Life), Mr. Stamos G. Zades (Student Life), two policemen and the City of New York.

Dr. K. D. Irani (Philosophy) will discuss "The Buying Policy." Dr. Raymond Lebegue, a professor at the Sorbonne and a member of the American Peace Movement, will speak on "La Philosophie de l'Esclavage" today at Noon in the Aeronaut Concert Hall.

Scientific Over-Emphasis Hit by Pres. Gallagher

President Buell G. Gallagher scored Sunday the emphasis on crash programs in scientific and technological education at the expense of the social sciences and humanities.

Speaking at a dinner given by the American Association for Jewish Education at the Waldorf Astoria, the President said that it would be dangerous for the schools and colleges to turn out students ignorant of the arts and humanities. This, he claimed, would be "equivalent to cultural handicap." The dinner was held in honor of Dr. Horace M. Kallen, professor emeritus and a research professor in social philosophy at the New School. Dr. Kallen, 75, was called in to give his verdict. He gave the nod to the other luminaries, but said his verdict must be answered within twenty days.

Mike Horowitz
Because I believe that students can maturely analyze and modify the educational community in which they live, I propose to the Student Body as a candidate for President for the coming term. And because I care as deeply as I do for the City College with its unique flavor of cosmopolitan intellectuality I have concerned myself with the welfare of City College.

I offer myself as a candidate for the presidency of an SG which I have worked for and believed in since entering the College. I do so because I feel that I can supply the leadership so necessary to mold the SG into a meaningful campus organization; one which affects and helps every student attending the College. As evidence for this claim I present for consideration the record of service to the student body which I have built up over the years, which appears elsewhere in this paper.

If elected I promise to make the SG along the following lines: 1. Greater involvement of students in the academic processes of the College. 2. Responsible political leadership against Membership Lists and in defense of student rights. 3. Investigation of the Fee Allocation System with an eye towards the establishment of student funds for the Student Activities Programs. 4. The purchase of a City College campus with the $25,000 granted which we presently have. Concerted student action favoring purchase of the campus can bring this about. I ask that you give me a chance to get to work on these and other projects. I think I can do the job and help make our SG one of the greatest in the nation founded as it is on a Rock solid moral foundation which reflects the true feelings of the present crop of City College students.

STARLEY BRETTMAN
I am a firm believer in the principle of cooperation with administration and student organizations prevalent. Student Government had the largest staff running any services in three and a half years. Most of these things resulted directly from my action. I alone promised that I will make it to continue to further a program of public education and cooperation with a view to making changes where we deem them necessary to improving Student Government's operation. I would object to a President who would be secretive and disagreeable toward people with whom cooperation is a must. I make no specific charge that my opponent would be such a President, because I am not sure. All I am sure of is that I am an action leader and I consider this possibility in the light of his objectionability to people so active in and out of Student Government. As the old saying goes, "If the shoe fits, wear it."

The problem, involved in my being President, could be that I am proceeding in June and continuity could be broken. I would, however, see that all complete an information program was conducted as to what the job of President in particular and Student Government in general would be, that any possibility of the above arising would be erased.

**ARTHUR GENEN**
I believe that Student Government should coordinate all its activities to make possible the maximum return to the entire Student Body, community, students, faculty and administration. The constant aim of SG must be one of service to the whole college, and not if it has no purpose.

I feel that Student Government must assume the responsibility to look after schedules, final exams, institute a tutorial service, continue the driver education program, and run another successful Five College Prom. Besides its own program, SG must assume the role of a true central student organization bringing together all clubs and encouraging, promoting, and aiding their programs, especially in the Student Center.

A most essential right of Student Government is in the realm of civil liberties. I shall do my best to see that Student Government remains vigilant in the realm of civil liberties and academic freedom.

I ask only to give me the opportunity to apply the program which I have in mind for the past two and one half years, as a Freshman and Sophomore President, Student Government Treasurer, and Chairman of School Affairs and Social Activities.

Harold Gottselk
Because most candidates for Student Government executive positions this semester show an awful lack of enthusiasm for civil liberties, must CCNY lose, by defaul, its battle against encroachments upon our freedom?

CCNY needs enlightened, liberal leadership in matters pertaining to civil liberties and also in administration of SG. I advocate centralization of Student Government to bring about a better co-ordination of activities of prime importance; SG and not self-interest organizations must run SG events.

Paul Kahan
Student Government at present has many problems. The one that I consider most important is the problem of organization. For a strong Student Government a strong central organization is essential. This I intend to provide.

Ken Werden
Here at the College we are faced with a grave financial situation, and on one hand, we are faced with the desire of all clubs and publications to have a greater voice and better themselves; and on the other hand by a lack of enough Student Fees to satisfy all organizations. In such a situation I believe it is necessary to have a strong Student Government treasurer who has had experience not only with the Fee Commission and Student Government but also with better organizations as well. With my varied experience, I believe I would handle the situation.
Nagler for Presy...  
Decisions made by Student Government this year will undoubtedly determine its status at the College in the future. It has only been the last semester that Student Government has begun to emerge from its hitherto customary quagmire of confusion and inaction, which characterized the various agencies before it. The student body, however, has not only demanded, but also demanded by force, a government that is active, efficient and capable of handling the more immediate problems of the College. Government has awakened and now must act. The student body who can act now is Steve Nagler.

Steve Nagler was the successful Vice-President in recent years in coordinating the numerous SG agencies. It was due to his ability to present his plans and ideas to any other single factor, that these agencies were able to present their fullest programs to date. But the President of Student Government must be more than merely a capable adminstrator. He must be a forward-looking leader, unafraid of seeking changes in the status quo and exploring other areas of responsibility to bring under the jurisdiction of Student Government. Steve Nagler has shown himself to be such a leader.

It is a tribute to Genen's administrative ability that the College can now expect a student director of the office of the student director--as long as Genen is in command. It should be, however, the student's training SG in the chain of command, for it is the office of the vice-president that must be drawn to the student government. SG will solve its traditional problem of continuity of ideas, the ideas in which have been the main contributing factor to its success this year.

Genen for Veep...  
Viewers of the College scene have always looked condescendingly upon the office of Student Government Vice President as a lowly position. It should be, however, the student link in SG's chain of command, for it is the office of the vice-president that must be drawn to the student government. SG will solve its traditional problem of continuity of ideas, the ideas in which have been the main contributing factor to its success this year.

Of the three candidates vying for the position of vice-president, there is only one person who, in our estimation, is capable of performing this function. Nelson Grumer has shown himself to be a capable organizer and coordinator. He is one of the few people who have ever functioned as a student leader. Nelson Grumer has served on the SFCSA subcommittee, was active in Hillel and is still active in his fraternity, as well as serving on the SG board.

He is a man of initiative who, in our opinion, is one of the larger than life leaders that the student community needs. The other two hopefuls simply don't measure up to Genen. He can be the only choice.

SFCSA Reps...  
The Student Faculty Committee on Student Activities (SFCSA) is the highest policy-making body on campus in which students have voice. It is, therefore, imperative that the students elected to this body not only have the ability to influence the functions and duties of the SFCSA, but also be well grounded in their knowledge of the entire student community.

Both Arnold Deutchman and Nelson Grumer fulfill these qualifications. Both are mature, responsible students who believe possess a clear idea as to what policies are in the best interests of the college community. Arnold Deutchman has successfully administered to every position he has undertaken. His job as Student Government Treasurer still stands as the best within recent memory. Deutchman's experience, however, has not been limited to the area of student government. He has also served on an SFCSA subcommittee, was active in Hillel and is still active in his fraternity, as well as serving on the Observation Post.

Nelson Grumer has successfully demonstrated his ability as one of the policy-making officers of Hillel. To him can go part of the credit for Hillel's diverse and higher success rate this term—a program that embraced both the cultural and political spheres. Grumer was a member of the committee that met with President Gallagher and was instrumental in voicing student protest against the Brown-Sharkey-Iasacs anti-discrimination housing bill. His firm grasp and mature understanding of actual problems on campus have convinced us that he is worth your vote.

Due to the last SFCSA election, where there was a dearth of able candidates, we find the happy situation of having five good choices. But only two can be chosen. We feel that Arnold Deutchman and Nelson Grumer deserve your vote.

The Referenda...  
Fee Increase... Yes  
Our extra-curricular program is among the top in the nation and yet we pay the smallest student activities fee. As the cost of services and products has risen rapidly in the past year, we have paid a less than negligible increase in the fees which go to support our expanded extra-curricular program.

The lack of funds available to all organizations on campus during the past semester has paid a heavy toll and we can no longer ignore the situation. Indeed, if our large program of extra-curricular activities is to continue, that at all, the extra money must be made available immediately. It is out of the direct necessity that we urge your "yes" on this referendum asking for a $1 increase in fees.

There has been much comment over the fact that both papers have published only one a week over the last several weeks and that they will continue on this schedule for the rest of the semester. The fact that in publication dates limits the amount of publicity given to all campus organizations.

This is just one example of how a lack of funds has affected the College—there are many others.

At the strategic moment, when we seem to have disentangled ourselves and gained an advantage in our fight for more student responsibility, it would be folly of us to threaten to set back our extra-curricular program by at least ten years. The fate of our activities programs rests with you. Vote "yes" for raising the student activities fee.

Preferential Registration...Yes  
More than once this term we have editorially supported early registration for the College's athletes. This year we are reaffirming the fact that teams have been hindered in the past by the administration's refusal to permit athletes to sign up for their sports in advance. It is an old but true tale that key players on the various squads have not been able to work out with their teammates at the same time, because of disparate programs. Approximately forty-five percent of all varsity players are engineering students and their work load is not made easier by the odd hours they must fit in to practice. We strongly urge the student body to vote yes on this referendum and we hope that in the coming term a rider will be added enabling the clubs' officers to register earlier, also.

If this is done, the students themselves will benefit in the long run, for the time put into extra-curricular activities may be better apportioned and would naturally result in a finer product—be it a team, or a newspaper.

Exchange Plan...No

We see no reason at all for placing this referendum on the ballot in the first place, since there already is a student exchange program at the College. Rather than adding to the lengthy ritual involved in voting, the Council would have done better to simply expand the existing program, which is so negligible that few students at the College are even aware of it. In the Student Council's haste to implement the present program instead of arguing over the wording of this senseless referendum, then perhaps their time would not have been wasted. One is almost led to believe that the Council feared enlarging their program to include Russia and making a step for which it could later be held to have been.
Candiates Qualifications...

**SG Reps.:**

- Three positions open.

**Vice President:**
- Career planning for success. Map-to-career counseling.

**President:**
- Analysis of existing potential.

**Candidates Qualifications... (Continued from Page 4)**

No qualifications submitted.

Hoopsters Take On Knights
In Attempt to Start Rolling

By PETER FRANKLIN

The big question, however, is: Will the Polansky five be able to take advantage of Queens' hand-luck? After the 52-50 defeat at the hands of Hunter, it's hard to say.

Biggest trouble for the Knights is the loss of Don Hill who scored over 1,000 points in three years of competition. Hill, who was the third to set this record in the metropolitan area, was graduated in June.

Pete Allen, second man under Hill last year, broke his wrist during the 74-50 win over the Queens Alumni. Queens coach Bob Salmons also has the added woes of a team whose average height is about 5-9, and that Al Mohr, another key man last season, will be graduated in February.

Goldberg Big Hope

According to Salmons, Goldberg, the only non-returning letterman on the starting five, is his big hope. "Although he didn't play on the starting five, is his big hope," Salmons said.

One broken wrist, the leg, and a midget-size team makes tonight in the Wingate Gym.

The question, however, is: Will the Knights be able to take advantage of the Queens' hand-luck? After the 52-50 defeat at the hands of Hunter, it's hard to say. Big trouble for the Knights is the loss of Don Hill who scored over 1,000 points in three years of competition. **Bulls-Eye...**

The College's riflers capped their Friday night match, downing New York University, 149-1301. Top scorers for the Lavender were Bob Helgans (287), Donald Minervini (282), Walter Venberg (282) and Robert Sehlerman, 5-0, were followed by Walter Orlowski, 7-3, and Mike Stehman, 5-0, were followed by Richard Brunner in a one-sided match, 5-0.

The season started off with a bang, Sam Berkowitz, the College's 123 pounder, defeated his opponent Richard Brunner in a one-sided match, 5-0.

Following two consecutive losses, James Golia to Edward Colgan, 2-0, Walter Orlovski, 7-3, and Mike Stehman, 5-0, were followed by Charles Wurtz's forerunner in the heavyweight class to Milton Gliem of City.

The next three losses, James Golia to Edward Colgan, 2-0, Walter Orlovski, 7-3, and Mike Stehman, 5-0, were followed by Charles Wurtz's forerunner in the heavyweight class to Milton Gliem of City.

The next three losses, James Golia to Edward Colgan, 2-0, Walter Orlovski, 7-3, and Mike Stehman, 5-0, were followed by Charles Wurtz's forerunner in the heavyweight class to Milton Gliem of City.

**Grapplers Beaten by Aggies In Season's Opener, 17-13**

By CARL TANNENBAUM

The College wrestling team opened its 1957-58 season in a home match against the Long Island Aggies.

The Beavers defeated the Aggies in a close one by a score of 17-13. The loss can be attributed to the fact that half the team lacks any previous varsity experience.

The season started off with a bang, Sam Berkowitz, the College's 123 pounder, defeated his opponent Richard Brunner in a one-sided match, 5-0.

Following two consecutive losses, James Golia to Edward Colgan, 2-0, Walter Orlovski, 7-3, and Mike Stehman, 5-0, were followed by Charles Wurtz's forerunner in the heavyweight class to Milton Gliem of City.
