Bart Cohen Is Proposed To Fill Vice-Presidency

By STEVEN LUDWIG

Bart Cohen may emerge as Student Government Vice President this week, officials said last night. "If Council accepts Arlie Genen's resignation and considers me for the position of Vice President, I would accept it," Cohen said.

Genen submitted his letter of resignation from the SG Vice Presidency on Monday. The resignation takes effect today, which President Steve Nagler said he will recommend that Council refuse to accept it.

When Genen submitted his resignation, he charged Nagler with displaying "lack of leadership and understanding of the problems of Student Councils.

Nagler said, "I make no request for Artie to withdraw his base charges. If we can't get him to change his mind and attempt to work for the good of Student Government, I think Bart would make an excellent Vice President.

Even if we expect nothing else from Bart, we know we can count on his contributing positive thoughts."
Academic Farce

The Academic Freedom Week Committee has brought to the fore an issue which has plagued the College since John Gates was first proscripted from speaking here.

In its desire to fulfill the true purpose of Academic Freedom Week, the Committee would like to include Robert Thompson, a Communist convicted under the Smith Act, among the speakers it is inviting.

Mr. Thompson, unfortunately, will not be allowed to speak to us on Academic Freedom, or on any other subject, because of the ban on Smith Act violators inflicted upon the municipal colleges.

Robert Thompson would round out the program by presenting the Communist viewpoint, which would be quite different from the viewpoint expressed by the rest of the speakers. The essence of academic freedom is precisely this, the expression of more than one way of looking at life.

It may be argued that the Communist viewpoint could be obtained from speakers who were not convicted under the Smith Act, but it is evident that those most qualified to speak on the Communist idea of academic freedom are its leaders. Of course, its leaders have all been convicted under the Smith Act. Therefore, it is virtually impossible to obtain a Communist speaker who could inform the students articulate.

The last time the Smith Act ban was brought up was in November, when the General Faculty voted to accept President Gallagher’s recommendations that “no ideological or religious restrictions” be placed on invitations to visiting speakers, and later, when they urged the Administrative Council of Presidents and the Board of Higher Education to rescind the ban completely.

President Gallagher has always been in the forefront of those who would allow us true academic freedom. We hope that Academic Freedom Week will witness the abolition of the Smith Act Ban, and that President Gallagher will be permitted to carry out the policies which will give the College true academic freedom.

Right-Hand Man

Last week we voiced our distress with the feud between Student Government President Steve Nagler and his right-hand man, Artie Genen, and we called upon them to resolve their differences for the good of SG. It appears it was too late for a truce. According to Genen, the situation has degenerated beyond any hope of reconciliation.

Genen’s letter of resignation was brought to the attention of Student Council tonight and Nagler says he will ask Council to turn over Genen’s letter to the Student Government. Nagler claims that Artie Genen’s letter of resignation will come before Student Council sees fit to accept Genen’s resignation.

Last term Cohen did a fine job as SG President. He sincerely believed in Student Government and the possibilities which lay within its grasp. It was this which inspired the members of Council to place complete faith in him. Cohen’s ability to command respect and admiration has been lacking this semester. Council has been little more than a disjointed flock of sheep. Barr Cohen’s mere presence in the College’s political scene would do much to enhance the prestige of Student Government.

UBE Improves Service; Erases Errors Of Past

The College's Used Book Exchange (UBE), which, according to Manager Jerry Tashbook, "has been highly and justifiably criticized in the past," has initiated reforms to address recent complaints.

The "gripes" leveled against UBE have been in the form of letters to the Exchange and of direct complaints to the Administration. Foremost criticisms were that students had to wait an excessive amount of time to sell and buy books, like a Gestapo, guards at every corner like the Book Store," he explained. "We respect the mutiny of students, but several still walk out without paying for their books."

UBE and its faculty adviser, Professor Simon Schaffel (Geology), have been "highly praised" by the Student Faculty Committee on Liberal Arts and Science. Tashbook and the UBE will welcome any suggestions students may have to offer towards the further improvement of UBE. Complaints and suggestions may be deposited in the UBE letter box in Room 151 Finley Student Center.

The successful conclusion of the fencing season at the recent Intercollegiate Championships is an excellent example of how the learning process functions in Varsity athletics.

With the graduation of the most difficult Varsity program, how could we justify a schedule that called for matches with such teams as Columbia, Harvard, and Yale, to say nothing of NYU, the NCAA champions? With no athletic scholarships
