Protesting Arab Boycott

The Student Zionist Organization (SZO) will be conducted next week by the College's chapter of the Student Zionist Organization (SZO).

Permission to circulate petitions calling for a "firm stand against the Arab boycott" will be requested by SZO at the Student Government Executive Committee meeting on Monday, according to a member of the executive council of the College's Branch of the Zionist organization.

"Although the US officially renounced discrimination against Americans by foreign countries," in practice, the government has failed to voice vigorous objection to the Arab discrimination, with the result that American Jews are no longer equally protected in their rights as citizens, Morris Anschel, a member of the council, said.

No Jews Allowed

"US forces in Dhahran, Saudi Arabia," according to field supervisor Pat Collins, "do not allow Jews to be involved by any private company." The Arab League has extended its boycott of Israel to include the blacklisting of any American industry that deals with Jews or has connections with any firm which deals with Israel, Anschel said.

"A ship from an Israeli port is not allowed to proceed from this port, and if the Arab hand, but has to return to the US and then go to the Arab nation," according to Anschel.

The cost for this unnecessary trip comes from the American economy, he said.

"In effect, the US Government is bowing down to the Arab nations with the support of the American taxpayers," Anschel asserted.

It is argued that the US must appeal to Arab nations for economic reasons. However, the US doesn't need Middle-Eastern oil, whereas nations which really do need the oil, such as France and Switzerland, are not bowing in Arab intimidation, Anschel declared.

Arab Retreat

"There is ample evidence that when faced with firm resistance the Arabs back down," he said.

In the past, he pointed out, "and Americans are not allowed to do the same." The College and stimulating public opinion by sending these petitions to the US and State Department officials will "perhaps induce the American government to think twice before bowing down to the Arabs," the SZO representative said.

Aronow Not Right' For Jazz Soc. Concert

The Modern Jazz Society has canceled a concert scheduled for tomorrow evening, because an auditorium could not be found. The concert, which would have been held in the College's auditorium, was scheduled for tomorrow evening.

"There has been little or no effect on production," said Allan Gallagher, Professor of Music. "However, the steel strike has had little or no effect on production and even if it is resumed work will continue as planned, he said.

"The only thing that might slow us up is the weather. Concrete freezes when it gets cold and this will delay us slightly," he said, "so I estimate that the building will be completed by December 1960 as originally planned."

SG Deadline Tomorrow; Few Positions Contested

By BARBARA SCHNEIDER

Only one position for a female is being contested with elections running one day off.

A new student group, The Independent Student Ticket (IST) has formed to endorse candidates in the oncoming SG election.

David Bernstein and Jay Freeman are running for SG President, according to an unconfirmed report Jacob Zisman is also seeking this position. He was not available for comment at the time of publication.

Jerome Pitowsky has announced his availability for SG Vice President. He is unopposed. Bernstein and Pitowsky are members of the IST slate.

Neil Salzman is running uncontested for SG Secretary and Irwin Pronin is unopposed for the office of SG Treasurer.

IST Not Political

According to Pitowsky, IST member and Vice Presidential candidate, IST is endorsing candidates from the Class of '60, '61 and '62 as well as candidates for SG office.

"IST is not a political party," he said. "It is a group of students with similar views who have decided that the only way for something to be done in Student Government is by the work of a 'concerted majority on Student Council," he said.

Pitowsky stated that the IST platform is one of reform and they plan to:

- Support the recommendations of the SG Reorganization Committee if they are workable or to make suggestions of their own.
- Publicize SC agencies so that they will have members.
- See that SC Committees function properly.
- Also running on the IST slate are Bob Saginaw SC candidate from the Class of '62 Liberal Arts & Science, and Fax Bennett who is running for Senior Class President.

Dr. Rosenberg: 2 As political science and government, the war has shown a number of countries amenable to totalitarianism.

The report was the sixth annual report made by the BHE under the terms of the 1952 Feinberg Law. It was submitted to the Board of Education Commissioner James E. Allen Jr.

"This was the first report made which did not cite cases under the consideration of the Board. According to the report, three cases which had been cited by the BHE last year under the terms of the Feinberg Law have been "disposed of." Two of the cases involved the Board.

The dismissal of Dr. Warren R. Austin, a former professor of philosophy at the College, "after a disciplinary trial" was upheld by Commissioner Allen in May. Prof. Austin was accused of perjury for denying an acquaintance with members of the Communist Party.

The case of Richard Austin, a former clerk in the Registrar's Office, was also dismissed by Prof. Rosenberg as "dismissed of." Mr. Austin contested his dismissal from the College in the courts. His "complaint" was dismissed by the Court of Appeals in April.

In the Feinberg law we had to insure that there were no Communists on the payroll and we have done so," said Professor R. G. Gallagher yesterday.

Feinberg Report: 'No Communists'

There were no Communists on the payroll of the Municipal College as of October 31, 1959, according to a report submitted Monday by Board of Higher Education (BHE) Chairman Gustave G. Rosenberg.

The report was the sixth annual report made by the BHE under the terms of the 1952 Feinberg Law. It was submitted to the Board of Education Commissioner James E. Allen Jr.

"This was the first report made which did not cite cases under the consideration of the Board. According to the report, three cases which had been cited by the BHE last year under the terms of the Feinberg Law have been "disposed of." Two of the cases involved the College.

All is Right

Mothers can send their children off to school confidently—members of the administration can benignly smile at one another—all is right at the Municipal College.

Another annual hunting season is over. We're safe for a time being. We can enter our classrooms free of fear of subversion. Our professors are harmless.

Our essential purpose is served.

Community. The methods, of course, are very different and connected with the College, can, in effect, override the pre-existing laws, which are now before the school authorities. Specific issues or create them. Specific issues which are now before the school authorities are membership lists, student fees, and the National Defense Education Act loyalty oath are not in the realm of council power.

Mr. Rosenberg said.

In last year's report three matters in litigation were pending before the Court of Appeals or the Commissioner of Education. "These matters have now been disposed of," Mr. Rosenberg said.

Now that all subservient elements in the faculty have been disposed of we can all sit back and relax. And perhaps if we relax long enough they won't even bother to start "disposing" of students.

Free Publicity

Publicity is not always an easy commodity to obtain either in everyday life or within the realm of the College community. The methods, of course, are very different and in the later case are comparatively primitive, but the same essential purpose is served.

Recently, "unauthorized" announcements of performances to be given by Brother Theodore have been illegally circulated around the campus. Before any announcements are permitted to be posted within the College, they must pass administrative review which can become tedious. The task of getting publicity for the clubs on campus is one which is a difficult one.

It is aggravating to see that someone who is not connected with the College, can, in effect, override the present rules and take advantage of any "free" space on the bulletin boards to be found in some of the buildings on campus. The practice cannot be condoned, nor can it be casually noted and then half-heartedly laughed at.

Rather, the people who are illegally using the bulletin boards should be made to realize that they are using space which is valuable and essential to the lives of the College's clubs. The comparative vastness of the College's area makes contact among students difficult at times, and these somewhat inefficient methods of communication must not be stifled.

### Female Five Lose 35-33, Alumnae Stave Off Late Bid

Too little, too late was the story of the women’s basketball game Tuesday night.

The distaff version of the College’s basketball team showed a lot of hustle in the last quarter of their annual game with the Alumnae, but their rally fell one basket short of their opponents. They lost a squeaker 35-33.
