Candidates... Candidates for the news, features and sports staffs are needed on Observation Post. Classes in writing, page layout, and photography are held every Thursday at 10 p.m. Applications are also open on the business staff. All those interested should come to Room 336 Finley today at 12:30 PM.

President Voices Football Protest

By PETER STEINBERG

The re-institution of football at the College was decisively opposed by President Buel G. Gallagher yesterday.

Dr. Gallagher said that "the only way to make football pay is to put it on a competitive basis. I won't pay the costs of commercial football," as declared.

It also occurred in Tuesday's Observation Post that the Alumni Association and the Alumni Varsity Association had resolved that a study be instituted concerning the re-establishment of football at the College on a local scale.

President Gallagher questioned the accuracy of the report, and said that he doubted that there was "open backing" for that type of recommendation.

The President of the Alumni Association, Mr. Clifford O. Anderson, said last night that the question of football at the College is in the "discussion stage" in his organization. "It meets with favor among many members," he said.

Mr. Anderson added that he thought the proposal "a good idea provided we stay within our scholastic scope" in choosing collegiate opponents.

According to Mr. Anderson, the proposal will be studied further, particularly in the light of financial and other difficulties, in the Alumni Athletic Committee. Mr. Leo M. Balin is chairman of the proposal, which is known as the Committee.

The President said that "In the (Continued on Page 4)

4th Salk Shot Not Available

Salk polio vaccine booster shots are not now available or use at the College, according to President Buel G. Gallagher.

Dr. Gallagher said yesterday that the Department of Health has informed him that it cannot now provide the fourth polio shots.

The President said, however, that the College wishes to administer more vaccines and that he has not yet received all or any one of his first three inoculations. "It gives me some concern," he admitted.

The President has appointed Dr. Leslie W. Engler (Administration) and the College's chief physician, Dr. Allen L. Bamberger, to investigate the practicality of the College handling the administration of the vaccine.

According to President Gallagher, "administration of the shots are not yet been settled." The policy of the Department of Health has been to write for the Municipal Colleges, if not to supply the personnel to administer these shots.

Zionist Says: 'Exodus' Boosts Israel, Zionism Less Effective

"Exodus" has been able to get more across about Israel and Judaism than Zionists have been able to do, said the National Director of the Student Zionist Organization Tuesday.

Speaking before a large crowd in Hillel House, Aryeh Simon said that "the book is a Reader's Digest of modern Jewish History. It presents a new and exciting picture of a real Jew to an American audience."

"When Leon Uris began writing his book about Israel and life there, he had to start his research from scratch," Mr. Simon explained.

"In the process of preparing the book, he discovered for the first time that a great period in the history of Israel had just gone by, and he had to tell what he had just discovered."

In his lecture Mr. Simon made it clear that while "Exodus" is an excellent and moving portrayal of the history and growth of Judaism, it does not expand on the hopes and ideals of the Jew of the nation.

The book is an heroic, war-like, good-guys versus bad-guys (the British) cowboy movie of "Exodus" include the fact that an American movie has never before presented the British as "bad-guys."

Booters Victorious In Season Opener

By STEVE SOLOMON

Sparked by the scoring of Heinz Minnerop and Marco Wachter, the College defeated Queens in the season's first game with a decisive 8-1 rout of Queens. A crowd believed in excess of one thousand watched from their seats in Lewisham Stadium.

Minnkop, the College's leading candidate, is no decoder to tell in such or to Wachter who scored the two goals that broke the game open.

"Picture Fly" With the College leading by a slim 3-1 advantage in the second period he combined with Minnerop to make the picture play of the game.

Heinz was standing to the left of the net when he received a pass from Wachter.

Instead of firing a shot at the goal, he kicked the ball back and passed perfectly back to Wachter who put the ball into the net. The play appeared to loosen up the Beavers.

Four minutes later at 6:30 of the period he kept up a loose rebound and slipped it by the goalie. This made the score 3-1, and whatever hope Queens had of upsetting the might Beavers was dissipating.

"The rest of the game was played in crisp fashion. Minnerop and Orest Bilous scored goals near the end of the third period and Victor Levavitt tallied his first College score in the fourth."

The first half of the game was played in a disorganized fashion. Minnerop put the Beavers ahead with a goal at the four minute mark of the first period but after that the team bogged down.

Passing became sloppy and when Queens was awarded a penalty shot with only thirty seconds remaining in the period they had the opportunity they wanted. Alex Dalian didn't let them down. He fired, a low bullet into the net and the score was tied.

Break Tie

With one minute gone in the second period Queens united it. The goal gave the College a 3-1 advantage but failed to ignite them. It wasn't until three minutes before halftime that Andy Soukas scored what was then the insurance goal.

"We were a little ragged in the beginning," Coach Harry Karlin admitted after the game, "but it didn't work. bad considering it was the first game. We'll do all right." Some, observers from Queens didn't think so. "They're good," Queens Coach Guido Foglia remarked near the end of the game. "But they're not in a class with us."

Zionist Says: 'Exodus' Boosts Israel, Zionism Less Effective

"Exodus" has been able to get more across about Israel and Judaism than Zionists have been able to do, said the National Director of the Student Zionist Organization Tuesday.

Speaking before a large crowd in Hillel House, Aryeh Simon said that "the book is a Reader's Digest of modern Jewish History. It presents a new and exciting picture of a real Jew to an American audience."

"When Leon Uris began writing his book about Israel and life there, he had to start his research from scratch," Mr. Simon explained.

New... But Smaller

Room 337 Finley
Old Office

Student government has been moved from Room 332 Finley to smaller quarters in 341 Finley. 56's new office is partitioned into three rooms. It was formerly occupied by Mr. Walter Stahl, the Central Treasurer.

SG President Harry Kahn said, "We do not need much room. Although the next rooms are small they will be more convenient than our former quarters. We will be able to hold three meetings simultaneously."

Thursday, October 8, 1959

Talks Set On Christ

The first of a series of three lectures concerning the person and influence of Christ will be given Wednesday at 12 Noon in the Grand Ballroom, Finley.

The lectures, entitled "The Impact of Jesus," are being sponsored by Inter-Varsity Christian Fellowship (IVCF) and will feature Mr. Walter Liefeld as guest speaker.

His first lecture will be "Jesus as a Hellenistic Figure." Jim Brenahan, president of IVCF, said yesterday. "Our organization hopes to acquaint students at the College with Christ, both as a person and as a theological figure."

Mr. Liefeld is a candidate for a doctorate in Hellenistic literature at Columbia University. He has also done graduate work at the Union Theological Seminary and is a former instructor of Greek at Skidmore College. Mr. Liefeld was a counselor to students in the IVCF and the Christian Medical Society for several years.

The second lecture, "Jesus as a Jewish Figure," will be given next Thursday at 12 noon in the Arrow Auditorium, and the third, "Jesus as a Contemporary Figure," next Friday at 1 PM in the Grand Ballroom.

Mr. Liefeld has given a similar lecture series at Cornell University, the University of Toronto, Queens College, and other Eastern Universities. Brenahan said the series was very successful at these other colleges.

History of SG

The just announced move of Student Government from its spacious office in Room 332 Finley to the smaller confines of Room 341 Finley is more significant than it may at first writ appear. It illustrates in a nutshell the plight of SG.

Room 332 is a wide and airy room with plenty of space for both desks and people. Not too many semesters ago it was a virtual beehive of student activity. At that time the room was "too small" to accommodate the myriad of concerned students who wandered in; students who saw in SG the only remaining instrument through which the students could express themselves and influence the administration.

Today, a room half the size of the old SG office suffices. "We don't need larger quarters," the President of SG, Barry Kahn, admitted. Room 332 lay bare and empty most of the day.

Certainly this is indicative of degeneration. Degeneration which is all the more dangerous because it is taking place in the only remaining instrument through which the students can express their opinions and criticisms.

More power to enact decisions in order to regenerate student interest must be given to SG. Or, like Room 332, Student Government will be vacated and forgotten.

Vote Row SG

Until this semester, both students and administration have been curiously mute about the functional procedure in which we elect our Student Government.

The defects in our present system of elections, which allow such malpractices as voting twice and voting out of class to flourish, have been ignored continuously although their presence is more apparent at every election.

The invalidation of last spring's election, the subsequent postponement of the election to this semester, and the poor attendance seem to indicate a failure of our election machinery to function properly.

Boycotting the elections does not seem to be a cure; student apathy or ignorance are the only apparent solutions. Nothing is done about the situation. Neither does ignoring the defects and malpractices seem to be the solution, since this can be construed only as silent approval.

This operational defect makes it difficult for elections to proceed fairly, and prevents such violations as voting twice.

The Election Agency's proposals would alleviate these mechanical difficulties and would prevent such violations as have occurred in the past.

The most expensive of the proposed innovations, but the most worthwhile investment, we feel, would be the rental of four voting machines at each polling place, one for each class.

The use of the machines would not only prove educational and enlightening to students with the actual mechanics of local, state and national elections as Dr. Newton pointed out, but it would also make the process of voting more appealing and stimulate student participation. Their use would also eliminate the possibility of out of class voting.

Election Agency's proposals to Student Council consisted of a number of laws to improve the elections procedures which we feel are also necessary to alleviate existing vices. If put into effect the laws and regulations would be a firm basis on which to stand and willfully violate election regulations, forbid the extension of the election date and card the qualifications necessary to run for major office.

The desire for correction of the defects in election procedure is a reflection of a revival of permanent interest in Student Government. We hope, the beginning of the reformation of Student Government to the high status it should rightfully hold on campus.
**Do You Think for Yourself?**

(PUT THESE QUESTIONS ON YOUR BRAIN-PAN AND SEE IF THEY SIZZE*)

1. Would you choose a filter cigarette because it claims to filter well because it is limited so call now for information and reservations!*
2. If you saw a man on his horse and knew in the street, searching for something would you (A) try to find it before he does? (B) tell him it isn't worth getting run over for? (C) ask him what he's doing down there? (D) offer to buy it from him when he finds it?
3. Do you think that the old saw "an apple a day keeps the doctor away" is (A) simply a trick to get you to eat apples? (B) rough on your stomach? (C) giving a philosophy that can apply to other fruit, too? (D) approximate?
4. Would you choose a filter cigarette because (A) it is low in tar? (B) it has found out the Viceroy filter? (C) because they've found out the Viceroy filter is there? (D) offer to buy it from him when he finds it?
5. If you saw a man in a merry-go-round use the Viceroy filter? (C) because they've found out the Viceroy filter is there? (D) offer to buy it from him when he finds it?
