G Exec. Grants Hillel Time To File Constitution

A motion which recommends that Hillel be granted a two-week extension of the deadline for filing club constitutions passed by the SG Executive Committee Friday afternoon.

Earlier last week Student Community Council unanimously adopted a recommendation that Hillel file a constitution. A resolution was also adopted at that time which would allow for allocations, supplies, and use of College facilities to which failed to file constitutions with the Department of Student Life by October 15. These proposals would have been ready when a constitution was not available.

Representatives of Hillel argued for the constitution because they had a constitution already ready. The motion was passed.

SZN...

The Student Zionist Organization (SZO) has selected Yaffe, Israel's consul in New York, as its representative for the organization's Washington office. Jaffe, who also is director of Israel's Office of Information, will discuss the effect of the Soviet resumption of nuclear testing on the young African countries.

Hillel House is located at 475 West 148 Street.

Unusual Situation

President contended that a resolution should be passed dealing with the unusual situation. "They fifteen minutes of twenty-nine," he held, and wete "not for the fact that our new year was not unconstitutional."

G Exec. Group dorses Wagner

Mayor Robert F. Wagner endorsed by the Executive Committee of the College Young Democratic Club Thursday.

The Mayor's running mate, Richard M. Harriman, a member of the Democratic ticket for Mayor, was endorsed by the Young Democratic Club. The student organization also its vigorous support to Mayor Wagner and his ticket.

SG President Irwin Premo supports resolution passed by the Class of '62, asserted that "they still have a few weeks and nothing stops them from amending it [since the constitution is handed in]. Let it get its constitution in by October 15 to get its money."

The motion failed in favor of a Hillel by a 4:3:1 vote. Council will take up the recommendation at its meeting tomorrow.

Tests Hinder Peace

Lustig Tells SANEX

The Soviet resumption of nuclear testing has not only been "a terrible setback" for world peace, it has worsened the already "ugly mood" of the American people, Dr. Harry Lustig (Physics) said Thursday.

Speaking before the College's Committee for a Sane Nuclear Policy, Dr. Lustig charged that the Soviet move had only added momentum to a US magazine and newspaper campaign to convince people that if all they do is build a little fallout shelter we can go ahead with a nuclear war. "It is a tragic fact of life in this country today," he said, "that views not terribly different from those of the John Birch Society are accepted by our people."

Dr. Lustig characterized US newspaper reports that the Soviet testing was not a danger to health as "utterly mendacious." Any addition to fallout will within five years, increase the number of deaths from leukemia and an increase in genetically damaged children, he said.

The mood of the people is that they have been "tough enough" and have to take a stand. "But," Lustig said, "the Constitution and the BHE spokesmen are not in a position to review the Frouge claims for compensation, and...but a set up a special meeting to discuss the continued "change order.""

A change order is an agreement by a party in a contract to pay additional sums of money for work done other than that specified in the original contract.

September Opening

Following this meeting, the statement adds, work was resumed, and continued until September 8. At this time, the company had not as yet received BHE compliance with the May 10 agreement, and could not longer continue operations.

It was stated by the company that work on the building is now ninety per cent complete.

A revised estimate issued by the BHE spokesman gave the completion date for the building as next September. The last estimate gave the opening date as the opening date.

Film Series

Since the middle of last week has been screening in the Finley lobby. An announcement of the screening heralds the first film, "Professor Mamlock," in the Board of Manager's Film Series.

This 1932 Russian version of Frederick Wiseman's play was made by German refugees. It strongly denounces the Nazi's Jewish policy. It will be shown tomorrow and Thursday at 3 PM in Room B201 Cohen and at 8 PM in Room 175 Finley. Admission is free.

Other films in the series include: "Josef von Sternberg's " ad " (October 8, 9) and "A Sickle in the Back" (October 8, 9) and "Adir Shelberg's "Road to Heaven" (October 25, 26).
The students at the College have been promised a new technology building for almost a decade. Granted, progress has been slow. But now the $3 million project is almost ready to open its doors. While the building will not be completed in time for the start of the fall semester, it will be open for classes in the spring. The building will house the College's computer and communications facilities and will be the new home for the School of Business Administration.

THE SATELLITE NEWS

The entire episode is difficult to understand, but it does seem evident that the blame rests partially with the endearred red tape procedures employed by agencies of the municipal government. When an educational group ventures into the world of business, it has no choice but to relate itself to the community in which it operates. How it relates is important. The public may be misled if it does not function compatibly with the community.

Dear Editor:

Since I am supposed to have spoken frankly in my last letter to the editor, I feel I should also point out a few other things. I believe that the College's athletic teams are not as competitive as they should be. I think that the imports should be allowed to play, but I also think that the imports should be held accountable for their actions on and off the field.

Sincerely yours,

Michael Goldberg

Hillel's Head Replies

Dear Editor:

In a recent issue of Observation, I stated that Hillel is a cultural organization separate from the Jewish Student Community. This is not to say that the two organizations do not have separate functions; they do. However, the Jewish Student Community is not separate from the Jewish Student Community, nor is it separate from the Jewish Student Organization. Both are part of the Jewish Student Community, and both are part of the Jewish Student Organization.

Sincerely yours,

Hillel President

For the Record

The letter to the editor that appeared in this week's issue of Observation was written by Mary Smith. The letter was not written by anyone else, and it was not signed by anyone else. The letter was not intended to be signed by anyone else. The letter was not written by anyone else, and it was not signed by anyone else. The letter was not intended to be signed by anyone else. The letter was not written by anyone else, and it was not signed by anyone else. The letter was not intended to be signed by anyone else.
THE GIRL I LEFT BEHIND ME

It happens every day. A young man goes off to college, leaving his home town sweetheart with vows of eternal love, and then finds that he has outgrown her. What, in such cases, is the sensible thing to do?

Well sir, you can do what Rock did."

When Rock left Cut and Shoot, Pa., he said to his sweetheart, "My dear, I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyeballs burst and my heart break."

But on the contrary you can do what Rock did. When he met a cordial and circumspect Fata Morgana, he married her. And the marriage is still going strong.

It was a splendid fellow," said Rock, "but if he had been a woman it would never have happened."

On Friday afternoon, October 6, a car drove up to the couple's house to protect them from an irate mob.

Mr. David Morton, a Freedom Rider, stated that Williams, charged with kidnaping a couple, had brought the couple into his house to protect them from an irate mob.

Morton, a former student at the University of Minnesota, related the day's events which culminated in the incident leading to the kidnaping charge as he spoke before the College's E. V. Deba Club.

During a peaceful week long demonstration in front of the Monroe, N. C. courthouse, picketers were constantly harassed by a mob of "white racists," according to Morton, "I have heard of a case yet where someone on a police line was hit from the front," he declared.

On Sunday, a said Morton, the mood of the mob was particularly hostile so the picketers decided to leave by cab. Some of the picketers left, while the others were willing to leave, a car drove up. People entered, but as the car was leaving the policestopped it.

ARE YOU IN PHI-EP?

JACK FOX, VICE-PRESIDENT OF Student Government, is KEEP IN STEP GO PHI-EP
Nine Loses 2 to Rams; DiB - Bound For Army?

By LARRY BORTSTEIN

Baseball coach Al DiBernardo received an invitation from the federal government last Wednesday to join sundry other Army reservists at Fort Bragg in North Carolina on Monday, Oct. 30.

Although the 25-year old coach isn't what one would call particularly elated over this, any more performances like Saturday's twin losses to Fordham, and the French Foreign Legion may not be far enough away.

The Beavers, so promising in a 6-1 defeat of Hunter only the week before, reneged at Jack Coffey Field to the tune of 18-2.

Three singles were mustered by the Beavers off senior Ram fireballers Don Woods and Bill Schramm. Artie Goldsher spanked two solid singles, and soph recruit Marty Antinelli, in center field, collected the other safety.

In the second game, held to seven innings by league rule, only 0-0 was scored at the start.

The Beavers managed to hold the punch-less Lavender.

Veterans Howie Friedman and Murray Steinfield worked the morning game, which got under way at 11.

Friedman, in particular, was coming in too high with his delivery and had a shaky 3/5 in innings, yielding eight hits. Jim Mackin, Fordham's big, strong right-handed newcomer, struck out 12 Beavers, which combined with seven official Beaver errors and innumerable other evidences of loose play, left the issue never in doubt.
