Probably the only area in which structural innovations have had substantial effect is that of the Student Activities Board (SAB), where the problems have also been the most frequent and most serious.

The greatest difficulty emanates from the member organizations' of enthusiasm. Calendar items have not been received, attendance at federation meetings has been spotty, and Survey, the SAB newspaper, frequently finds itself with a dearth of material.

However, its assumption of the regulation of publicity has met with success. Curiously enough, the elections have inadvertently disqualified nearly the entire agency, as candidates are not allowed to serve during the cam-

Uncertainty temporarity reigned in another area when Levine, who was originally the only candidate for SG Treasurer, said that he would seek the highest student position instead.

SG President Ted Brown then announced that he would seek the position and is now running unopposed on the GORF slate.

Transylvanian blood and Southern sex will dominate the College stage this month as two dramatic groups here prepare for production.

Three sultry one-acters by Tennesse Williams will be presented by Dramsoc next week

and the blood sucking Count "Dracula" will stalk the Townsend Harris Auditorium familiar with Williams' characters Friday and Saturday night.

The Williams' plays scheduled for production are: "This Property is Condemned," "Lady of Larkspur Lotion," and "27 Wagons Full of Cotton," from which the movie "Baby Doll" was made.

The plays will culminate the dramatic society's term-long workshop on the writer.

'Journal' Achieves Two-Day Sell-Out

The Journal of Social Studies sold out last Thursday, after only two days and one evening of sales.

Editor Charles Brooks said that all but twenty copies had been sold, for a total of 975 copies. "This, even exceeds the sales of Vector for the term," Brooks asserted.

The Journal, which will stand to make a small profit on the issue, contained an article on the Vilna Ghetto, and a paper on the House Rules Committee.

Student Council, on the other hand, has run smoothly. Its meetings have almost consistently ended early, something unprecedented here.

Although SC now has powers, which include suspension of organizations and of individuals from organizational office, it has rarely invoked these. When the Conservative Club asked the removal of one of its officers, Exec found that the club had never existed and thus evaded a major difficulty and possible test of authority.

Originally, President Buell G. Gallagher had hoped to save Jasper Oval for future construction because it is the only large free area remaining. It had been koped that the area behind Klapper and Brett Halls could be obtained but condemnation proceedings would forestall construction several years.

Beyond the science building, the only forseeable future expansion is the possibility of a central cafeteria on the site of Klapper Hall and the expectation that the College will obtain use of Music and Art High School when it is vacated in favor of Lincoln Center.

SCHLESINGER

Dear Editor:

It has become customary for the out-going Student Government President to indicate a preference in the choice of his successor. Since I am running for SG Treasurer on the GORF slate, my choice of slate affiliation has already indicated my personal choices for next term's Student Government officers. I think it inappropriate to state anything further in regard to the candidates for SG positions,

Nevertheless, in the case of the Senior Class. Presidency, I feel it imperative to make my views explicitly known. Ken Schlesinger, for three semesters, has devoted his time and energies almost exclusively to the Class of 1963. It would in fact be inappropriate for someone else to receive credit for the work Ken has done, and it would be indecent, if not immoral, to turn Ken out of office at this

Dear Editor:

As the time draws near for the coming election of class officers, our thoughts naturally turn to the consideration of electing outstanding and experienced candidates to office.

In my capacity as Senior Class President of the Baruch School of Business, I have had the good fortune of knowing and working with Ken Schlesinger, your Senior Class President. He has played a great part in bringing about and arranging a wonderful program of Senior Class activities, the likes of which have seldom been offered to the students of City College.

Never before have the Uptown and Downtown campuses of City College worked together so closely. There is strength in unity, and for the first time we are beginning to realize this strength by planning joint Senior Class activities. Beginning in September and ending with Commencement in

Un Richard Weisberg

The Constructive Action Party support the election of Richard Weisberg as SG President, but feels obliged to make the following explanatory statement.

We base our endorsement of candidates for SG office on an individual's deep and well-thought-out commitment to CAP's ideals, his personal integrity, his capacity to fulfill the obligations of the office he seeks, and his past actions and views.

We cannot ignore Mr. Weisberg's past views. His profound change in attitude, although intelligent and logical, must necessarily be reviewed. It is in light of this, and this alone, that we must stop short of full endorsement.

Mr. Weisberg now has a liberal and broadly based view of the student's role in the academic community. He believes as we do, that there are rights and commitments inhereon in the students status and that the SG is the organ which properly must represent him in fulfilling these commitments and fighting for these rights. He recognizes and affirms the assertion that student concern must, at times transcend the boundaries set by

the University's walls. CAP believes that Richard Weisberg is an excellent, and indeed by far the best. candidate for this office. We wholeheartedly urge his election.

A Quick Glance At Student Governments Of Colleges In The New York City Area

By MIKE GERSHOWITZ

Student Governments at other colleges in the metropolitan area are often vastly different from the one here. A random sampling of other schools shows that:

- Most have a Student Court as a division of SG to handle student discipline.
- The President of SG is often elected by the other members of SC rather than by the entire student body.

- Interest is usually centered on social events rather than politics.
- Even where SG's are empowered to act on off-campus issues, they tend to confine themselves to on-campus ones.
- The most commonly held maior power is that of allocating funds to student organizations.
- Apathy is rampant on virtually all campuses; the percentage of students living on campus does not appear to affect this.
- SG at the College appears to wield considerably more power than its counterparts outside the City University.

Following is a school-by-school survey of SG's at other colleges in the metropolitan area.

ADELPHI

The most striking feature of campus politics at Adelphi is the existence of two long-standing and well-organized parties: the Democrats and Republicans.

Another unique feature is that SC has the right, when passing resolutions unanimously, to issue them in the name of all the stu-

FORDHAM

Although concerned with politics, Fordham's students are also rather conservative, according to SG President Jerry McLaughlin.

Student interest is greater than average, with about a 60 per cent turnout at the annual elections.

The governing body usually takes a conservative position on off-campus issues. Early this term it passed a resolution disapproving President John F. Kennedy's violation of states' rights in the Meredith case.

After a dispute with the administration over attempted newspaper censorship, SG has stayed away from controversial issues, McLaughlin said.

A Student Court, with members appointed by the four major officers "with the advice and consent" of SC, performs functions similar to the SAB here.

The SG at tor of the daily campus paper, limited amount of money at its disposal. This year, it requested an allocation of \$53,000 for student activities, for a student body of 3,300 students — and got every penny of it. But, says SC member had always exercised control over Carol Salk, tuition fees are \$35 per credit.

"I don't like the way SG is being run, it hasn't done anything concrete . . . I have an idea of what SG should be, and I am backed by a large number of students," he affirmed.

Blume feels that Student Government must do something for the student. "If you do tangible things, they'll vote and they'll be interested."

Power and Prestige

Expressing his view with peculiar honesty, Blume said that "I don't deny I'm after the power and the prestige of the position. Anybody who denies that this is not part of their reason is not telling the truth.".

This is the second time that Blume has had a chance to expound his pre-presidential philosophy. He unsuccessfully ran for the post last term.

Assuming a mellow mood, Blume says that "deep down I'm glad I lost; in defeat I gained proper perspective. This term I'm more qualified. I've got grim determina-

Weisberg Is 700 Years Behind In History Although A Forward-Looking SG Candidate

By VIVIAN NEUMANN

Richie Weisberg looks look the perfect picture of an All-American, Ivy League, college boy. Little can one guess that beneath his red hair are stored thoughts of Sir Launcelot and King John rather than beer parties and panty raids.

"I don't love the idea of chivaly and serfdom," the SG Presi dential candidate mentioned, "I'm just fascinated by the growth of Political institutions after 1250."

Richie, however, is also intersted in the growth of political institutions at the College. He beame involved in SG as an upper sophomore when Stu Baden ran insuccessfully for the post, he is ecking now. Since then he has served as a Council member and ast term as SG Secretary.

Richie's attitude is supported by the GORF ticket which he is heading, many of whose members were at one time among his most vocal opposition on Council.

Viewing himself as a version of the College's Respice, Prospice, Adspice seal, Richie said "I hope students will vote on my past competence, my present philosophy.

A "democratic" Student Government does not exist at City College and will not exist at City College because it cannot exist at City College.

In the light of the usual hogwash you hear about Student have clouded the true issues of Government, this is a shocking statement to make, but I am prepared to back up this contention

A real government must exercise sovereignty in its area, in other words, must possess some absolute and unimpeachable power. Student Government has no absolute power in any area, being always subject to reversal by the Dean of Students acting in the name of General Faculty Committee on Student Activities which itself is subject to reversal by the General Faculty.

A real government must be able to lay and collect taxes to cover its cost and other evpenditures. Student Government does not lay taxes (i.e. the \$3.00 Student Activities Fee), but only makes recommendations to the Board of Higher Education, which may or may not be accepted. Student Government does not collect the taxes; this also is done by the Administration, which bludgeons the fee out of the student body as a condition of registration.

The fact that the Student Government is not a government at all is significant, since it lays open to criticism the past and present policy of Student Government in terms of off-campus (and occasionally extra-terrestial) issues.

Student Council, acting as the legislative branch of the Student Government, has seen fit in the past to consider such matters as the existance of the House Committee on Un-American Activities and the policy of Apartheid in the Union of South Africa. That these matters are of legitim ate concern to those students who wish to concern themselves with them as any citizen may is of course undoubted.

But whether Student Government should consider these issues is another question entirely. Since the only real "government" at City College is the Administration, from where can Student Government derive the power or right to speak on these matters? My claim is that since they have an "enlightened liberal." I ques- considered the moderate position. no such right (as a legitimate government might), then the argument of the "liberais" in Student Government laying claim to such a right is an absurdity. BLUME

I have been asked to issue a statement expressing the views of my ticket. Anyone who has read my platform and compared it to the platform of the GORF party would see a close structural resemblance. I wonder how the two platforms came to have the same structure. I honesty believe that my platform was copied in

dents as students clause, and I wish to once and for all clarify my viewpoint on this issue. I believe there can be three interpretations to this clause. There is one view which states that SG should concern itself with anything at all. This is the view generally held by the GORF slate and is one that I consider to be harmful to the growth process of Student Government. Another view, stated by Mr. Eiferman and Mr. Berkowitz, is that we should isolate ourselves from everything which is not within the physical boundaries of the campus. I op-

consequence, the longest platform offered in this election.

BEST aims to have Student Government discuss on campuproblems before discussing how we shall improve the other colleges. We believe in the principle that before you can improve others you must improve yourself.

The BEST aims for next term are: To maintain a representative and democratic Student Government; To give more responsibility to the Student Activities Board: dent non-academic matters to the students through the Student Government and the S.A.B.; To have Student Government concerned primarily with matters that affect the students at City College; and to get a graduation ceremony for those students who graduate in January.

I and my ticket plan to make a lounge up north for the engineering students, like myself, to relax in in between their classes. This lounge will be located in the lobby of Steinman Hall, easily accessible to all students.

We also plan to improve the gloomy atmosphere of the Finley Center by piping music, supplied by the Beaver Broadcasters, throughout Finley.

I would like to say in closing that if the student body elects my ticket (BEST) and myself to office they will never be sorry.

WEISBERG

The essential difference between the slates in this term's Student Government elections, as expressed by various observers, is the interpretation of the following clause of the Student Government Constitution: "The powers and functions of Student Council shall be . . . to discuss, consider, and act on matters affecting students in their role as students." This is a key issue; however, it is not the only point of difference among the parties.

Candidates running on GORF hold the same basic view concerning off-campus issues as part of the role of Student Government. o Simply stated, it is that events o happening beyond the gates of To Convent Ave. and St. Nicholas Terrace do affect every City College student. For this reason Stu dent Council, the legislative branch of Student Government. has the responsibility of discussing, considering, and acting on these significant issues.

For most, this view would cause no ideological conflict if Student Government were meeting its responsibilities. The fact is that S. G. does perform its duty of representing the students. Nevertheless, the myth arises that Student Council only deals with offcampus issues-which seems to preclude action in all other areas. This myth is due, unfortunately. to the lack of publicity given the services performed by the Student Government, Student Council is equally concerned with both fields. Off-campus issues, being political. are by their nature controversial and therefore more publicized But Student Government, through its committee system, works in both these necessary areas.

The "Students as Students" issue is not the only point of divergence among the parties

Student Government Election Editorials

President

Richie Weisberg is obviously the most responsible and the most mature of the SG Presidential candidates. At a time when cynicism is the byword, Weisberg has displayed honesty and sincerity. No discourse on his qualifications would be complete without remarking on this unique quality. Among a poor crop of candidates he is the only alternative to irresponsible or immature Student Government, however, reservations still exist in our minds.

His knowledge of the powers and functions of that body is unusual and more than sufficient for the job. His competence and diligence as a member of the Student-Faculty Discipline Committee is a matter of record. Weisberg spent a great deal of time this term researching the College's disciplinary regulations, so that a codification of them could be made. Furthermore, he was instrumental in obtaining official recognition of the student's right to be presented with a formal statement of any charges against him.

He served out his term as SG Secretary in a creditable manner. Weisberg's views, particularly with regard to the scope of Student Government, are in a state of flux and may thus only be hesitantly commented upon. During his term on Council, Weisberg labored under an unnecessarily severe restriction of the scope of student representative action. It is this record which forces us to withhold an endorsement.

Weisberg now assumes a more mature and considerably altered attitude toward the limitations of effective station action. Time and world events have caused him to reconsider and repudiate his earlier ill-considered philosophy. Yet because his views are now being formulated and have not reached their ultimate destination, we hesitate to don the soothsayer's garb.

We cannot hold with those who castigate Weisberg for altering his views. If someone has the desire to change and has the courage of his new convictions, he cannot be cut down for seeing the light. Those who close their minds to suggestion and opposing ideas, adhere to a blind standard that is not to be commended per se. We have no doubt that Weisberg's change is an honest one.

Unfortunately, these optimistic words cannot be applied to the other SG Presidential candidates.

The "new" Alan Blume, one of the strongest contenders for the post, attempts to ingratiate himself with all, but is *supported* by few. The members of his own ticket invariably begin their remarks with "I know he's not the most competent of candidates, but..."

Blume claims to have matured since his last campaign; no doubt he has. Certainly Blume has abandoned his loud arrogance of the past, but he still has a distance to go. When a Council member mimics his fellows and plays sad violin tunes in the air, we cannot help but see the disparity between what he is and what he says he is. The tune may become more harmonious with work, but his music is now atonal.

Herb Berkowitz is perhaps the most disappointing candidate of all. Here is a student of obvious intelligence and extreme potential. His mind works with lightning speed and sharpness, yet his immaturity and concomittant instability keep him from fulfilling his capacities.

Berkowitz is the only candidate who has held a "leadership" position in SG. He has served, but not served well, as chairman of the SAB. His failure here leads us to project a dismal picture for the likelihood of his success as President of SG.

Berkowitz further helds an unrealistic superrestricted view of Council's scope. He feels that the body should only concern itself with matters

directly affecting the students as students of the campuses within the intellectual gates of the City University. He would reduce SC to a virtual "University SAB."

Little need be said of Sam Eiferman or his abilities to fulfill the office. He served an undistinguished term on Council; he could not be President.

Rebach

Unfortunately, the SG Constitution seems to neglect the second highest student position in the College, the Vice-Presidency. This officer, previously charged with the coordination of SG agencies and bureaus, now does little more, constitutionally, than act as chairman when the President wishes to enter debate at Council meetings.

Steve Rebach, our choice for Vice President, is capable of acting even with this handicap. He is one of those individuals who can find something constructive to do while others sit and twiddle their thumbs. He possesses imagination, a rare quality that is often sadly lacking in SG.

In the past his enthusiasm has sparked such affairs as the SG Boat Ride. This semester, the tuition campaign has rested almost solely on Rebach's shoulders. His lack of success was due to disinterest by a number of New York City high school administrators. However, this shouldn't detract from the hard and good work he put into the project.

Rebach's opponent can be dismissed in a few words. He served on SC for one semester and resigned after only half a term's office. His performance on SC was profoundly mediocre. In short, no aspect of his SG service is worthy of even minor consideration.

Schreibstein

One of the most energetic and enthusiastic workers in SG is running for Secretary this term. In her three terms on Council, Adele Schreibstein has developed the habit of doing a job and doing it well, and for this reason we endorse her for SG Secretary. Miss Schreibstein's views on the function of SG, and her proven ability to work, will enable her to make a real contribution to that body as its Secretary.

In fact, Miss Schreibstein already has experience in the duties of the office for which she is running. When this term's Secretary became derelict in her duties, Miss Schreibsten, with characteristic drive and purpose, stepped right in to do the job.

Richard Schweidel has taken a different approach to SG. A double-threat man, Schweidel has proven his ability to be one of the loudest, most disruptive forces on both the Student Activities Board and Council.

Brown

It is refreshing when, in a field of mediocrity, a candidate appears who stands above the rest with outstanding qualities and well conceived ideas and ambitions. It is a rare phenomenon, however, when competence and quality are in adequate supply, that one individual overshadows all the rest.

Such is the case with the sole candidate for Student Government Treasurer, Ted Brown. While the common practice at the College is to perform the menial tasks offered by this position so as to reap the rewards of the Presidency later on, Brown has done just the opposite. He has already outstandingly served in the Presidency, and what he now intends to do may only be described as a favor for SG and for the College.

As Student Government President, Brown did

what many thought would be impossible. He maintained SG's status under its new constitution, and dispelled all fears on the part of the Faculty, Administration, and many organizations here that SG would not be able to handle its new responsibility. For the first time in years, an SG President was sitting at regular meetings with the Dean of Students, serving on Curricular committees, maintaining one of the top academic averages in the entire College, and providing unprecedented leadership for SG and for the student body, all at the same time.

Anticipating the imminent growth and unification of the City University on the academic and administrative level, Brown has been a driving force in unifying the students of the University, through the City University Executive Committee. He has been a prime instigator of the Course Evaluation program, using his high standing with faculty members to facilitate the College's acceptance of the program.

His leadership on Council becomes apparent when one examines the election's candidates and the issues on which they are running. For the first time, the "students as students" controversy is beginning to take on a semblance of intellectuality. Even "liberals" who previously took only moderate stands on the function of representation are now able to accept, and even more important, to logically justify a wide, and nearly all-encompassing representational theory for the body. The one unfortunate aspect of this is that his influence has become so great that his ideas have been perverted to dogma by some, and student leaders here are wont to speak of the "Ted Brown" interpretation of this philosophy.

Just as SG's success must be regarded as a tribute to Ted Brown, so must his candidacy for the Treasurer's post be considered a boon to SG. He is certain to fill this position with dignity, efficiency, and leadership.

S.H.I.T. And Sam Mitnick

Sam Mitnick is a lower freshman. At first glance, he seems to be one of the 9,000 nameless and faceless students who daily trudge from Shephard to Wagner, spend an hour or two daily in the cafeteria, and then run as fast as possible to the nearest subway after their last class. He isn't.

S.H.I.T. is one of the tickets in this semester's SG election. At first glance, it seems to be an off-color word or a bad joke. It is.

Sam wandered into the OP office late Wednesday evening. He wanted to run for Freshman Council, but he made a mistake. He told us that he discovered he had unwittingly become a candidate for Student Council. He said that he would have prepared for the interview, but all he could find were Pages 2, 7, and 9 of the By-Laws. He said that he wanted to be on Council so he could teach others about SG.

Sam wants to learn in order to be able to serve. He's one of those people who want to gain more than a diploma from the College. Except S.H.I.T. is too busy making fun of that which could make this school meaningful to teach him. S.H.I.T. has not yet learned that the 9,000 constituents of SG are individuals. Each does have a name and a face. Many of them, like Sam; have a desire to learn and serve.

One of the saddest things about SG and the people who profess an interest in representing their fellow students is that Sam and S.H.I.T. seem doomed to remain separate entities in what is supposed to be a community. Sam will continue to ask and S.H.I.T. will keep on playing games, always too busy to answer.

been arranged which include: 1963 Wintersession at the Concord, Senior Beer Party at Adelphi Hall, in NY and the 1963 "Ship and Shore" Senior Prom at the fabulous Riviera Yacht Club on Manhasset Bay. The initial evidences of the outstanding cooperation between Uptown and Downtown Senior Class Councils can be seen by the tremendous increase in attendance at the Wintersession (600 in '62 to 1000 in '63) and the competent manner in which all of the arrangements have been made.

The Baruch School can only hope that whoever is elected to the Senior Class Council will continue the outstanding cooperation between Uptown and Downtown which we have experienced with the past administration of Ken Schlesinger.

When Nebraska comes into town for the December 15 Gotham Bowl, they may not find Miami very hospitable, but they certainly won't complain about their official hostess, pretty Linda Rosen.

House Plan's reigning Carnival Queen was named Queen of the Gotham Bowl by the March of Dimes for whose benefit the game is being played.

Although Linda is "very excited about it," she really isn't exactly positive how it happened. House Plan's Assistant Director Lisa Avedon put her in touch

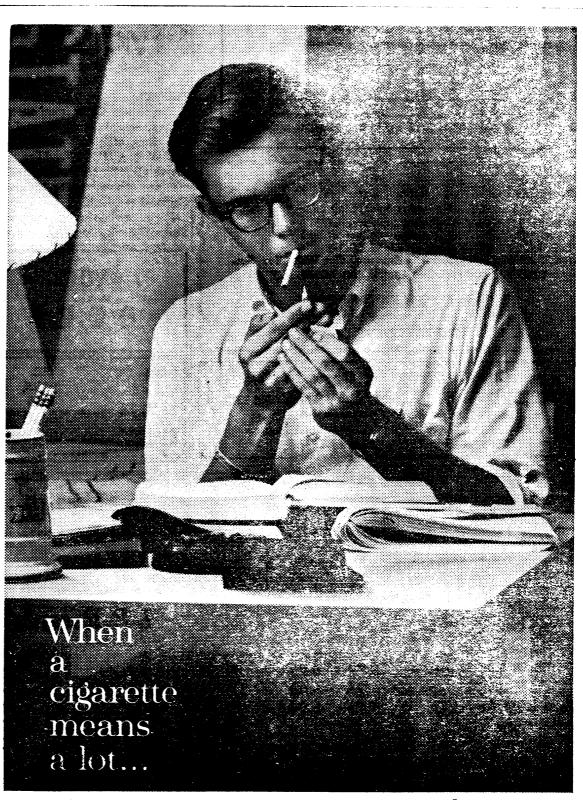

with the March of Dimes. Later she was summoned to an interview in a room with lots of

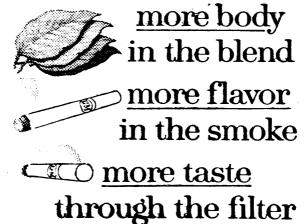

newspaper men. But Linda isn't even sure who the judges were. Moreover, having been picked, she isn't quite

clear just what her duties are.

The honors include a free ticket to the game. Linda likes foothall and she hasn't seen a game since Rutgers romped over Columbia last month. Besides, that wasn't a very good game and Archie Roberts isn't as good as

HOOPSTERS BEAT RPI; SHOOTING IMPROVES

TROY, N. Y., Dec. 8-The College's basketball team overcame a four-point halftime deficit to defeat Rensselaer Polytech, 59-49, in a duel which saw the score tied seven times in the first half.

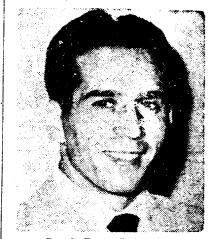

Don Sidat and Ray Camisa led the Beavers with 14 markers apiece.

For the first time all season the Lavender really played as a team. The Beaver offense settled down to using Coach Dave Polansky's favorite styles, a single and double post or weave, which call for a lot of passing to set up the shot.

The Redmen got off to a quick 6.2 start before the Beavers even loosened up from their three-and-1half hour bus trip. But Sidat's jumper from the keyhole and a tap-in by Camisa evened it up at 6-6. The lead see-sawed throughout the first half with the Redmen finally coming out on top, 27-23.

Camisa opened the second half by dunking a hook shot, and within five minutes the score was knotted at 31-31. The Beavers went ahead on Steve Golden's jump shot, but the Redmen tied it up a few minutes later when Dick

With 7:37 to play, Marc Keller fouled Golden, and the 6-5 center plunked his foul shot to give the Beavers a lead which they never surrendered.

It really wouldn't have mattered who the College's rifle team was shooting against Friday because they could have beaten a team using even a cannon. They rolled up a fantastic score of 1442 out of a possible 1500, in beating C. W. Post and Columbia.

The Beavers left little to be desired as they shot with amazing accuracy. Captain Fred Grospin lead all shooters with a score of 293. Two Lavender nimrods were tied for second place in the individual scoring. Fred Bondzeit fired a 289 which was equaled by his teammate, Jim McCusker. Another happy Beaver was Bernie Abramson who fired his best score ever the season, the Lavender hit on a 288. "Low man" of the Beaver team was Frank Palka, NRA sec-

NIT and NCAA Fall To 'Cinderella' Team

Beaver basketball has had its ups and downs. One "up" year completely outclasses all others.

The College's sophomores opened the 1949-50 season to the greatest build-up ever given a local team. Assistant Coach Bobby Sand enthusiastically predicted that they would be America's Olympic representatives in 1952, two years distant.

In addition to his sophs Holman had seven veterans from the 1949 NIT team. For the first time he had height as well as depth and announced a two-platoon system. Little wonder that the Garden debut was cagerly awaited. The Beavers didn't disappoint their fans as they routed Lafayette and then bowled over SMU.

Holman, who had left a sick bed to come to the game with a 103 temperature, went

for the Lavender. To everyone, that is, but lowing days, there were rallies at the College, in Times Square and spontaneous celebrations in the streets. Mayor Willam O'Dwyer greeted the team and the City Council passed a resolution congratulating

On Thursday night it started again. Ohio State was the first NCAA opponent and the Big Ten champions played the Beavers even, but lost, 56-55.

North Carolina State, with Dick Dickey and Sam Ranzino, fell before the Lavender attack that could no longer be beaten. The stage was set for the rematch of the year, with Bradley, for the NCAA title. The Braves came into town again with Coach Forddy Anderson flatly predicting

Bradley switched tactics and put up a zone defense, but the Beavers had no trouble against it, as Ed Roman with one of the best nights of outside shooting seen that year, hit for twelve points in the first twelve minutes.

Bradley switched to its man to man defense and roared back when Roman fouled out with nine minutes left. But the Beavers hung on for a 71-68 win.

Sand Back As Coach; Roman Hils Holman

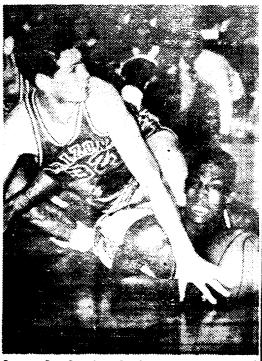

By STEVE ABEL

Every Monday and Thursday a middleaged,, round-cheeked man goes up to Goethal's Gym to coach the evening session basketball team. His name is Harry R. Sand. Some of his friends call him Bobby.

Few of the students in his Physical Education classes recognize the name, although there was a time when they would've been quick to brag about it. Then he was an assistant coach on the College's basketball team which had won the NCAA and NIT championships.

According to Ed Roman, one of the ton men on that team, Sand was the one who really did the coaching, not Nat Holmans Now a teacher in a Bronx 600 school, Roman said Holman stopped teaching during the best year's of Beaver basketball. He added that every member of the squad disliked Holman.
