Sidat Scores 2 Overtime Fouls
By JOE LOWEN

The College's basketball team defeated Fordham University last night, 62-61, in an overtime period, as Don Sidat rode calmly and confidently along the foul line with one hand remaining, and converted both of his free throws for the victory.

With thirty seconds remaining in the overtime period, the Rams trails the ball and a 61-60 lead and looked as if a valiant Beaver effort was going to be for naught. Rams had to do was hold on to the lead until the final buzzer. With twenty-two seconds to Fordham's Bob Melvin thought he had a clear path and drove in the basket only to have the ball rim his iron and a foul called.

"It was a game to watch," Professor J. Stevens of the College of Engineering (Continued on Page 8)

Dear Nilsen

High Beaver

A lay-up. He missed and Alex Nishiyama rebounded. The Beavers brought the ball up court and passed it to Tur Nilsen who fed it up and missed. Blatt then rebounded and passed to Nilsen, who again missed.

Nilsen then high up on the boards to feed it once again, was big Alex, passed out to the side—this time to Don Sidat who, with one hand to go in the game jumped high and was fouled in the act of shooting.

The cheers and jubilation of nearly Beaver crowded at the gymnasium, Don switched his free throws cleanly through the net for what must be termed the sweetest Beaver victory in a long time.
**MCS Guys And Dolls' Cavort in Runyon Fable**

By LENA MAIN

The boys were in floppy 1940-vintage double-breasted suits; the girls wore tight sequined dresses or the navy blue of the Salvation Army. No, they weren't hoping for a revival. They were rehearsing for the Musical Comedy Society's production of "Guys and Dolls."

And they rehearsed and rehearsed. During the week they were History or Geology or Psychology majors, but every Friday night ever since last November, they've been the renegades from Damon Runyanland — the gangsters, gamblers, women and prostitutes. The good guys and the bad guys.

Taking over the Taft High School auditorium in the Bronx, they've been singing and dancing the gag-lines and song-numbers which spin the tale of a guy who bets another guy he can't take a Salvation Army doll to Havana. Sandwiched between the plot and sub-plots of what was once a Broadway smash-hit are floating crap games and cops and dance-ball girls — the razzamatazz side of New York.

Last Friday night the costumes came. Before the rehearsal, Paul Blake, wearing a brown and white striped suit with padded shoulders, an orange shirt and blue tie, burst into the girl's dressing room and greeted them with a "Here I am — George Raft!"

The girls laughed. They adjusted their costumes at least, what there was to adjust. Joyce Fried, this year's MCS president and chorus line member looked despairingly at herself in the mirror. She wore a scintillating blue and white checked outfit in which she and the other "Hot Box" girls would sing, "I love you a bushel and a peck." "I have to find something to add this with!" she groaned.

Meanwhile, on the stage two floors below the dressingroom things were in apparent chaos. Impressionistic Broadway scenery snapped and adjusted itself under the supervision of its creator, mounted actor Richard Galichkren. Long-haired Reggie Axelrod did a back bend in a corner of the stage warming up for her dance number. At last, just when it seemed they would never be able to rehearse anything, Dick Nagel, the director of it all, commanded silence, and gave final instructions. People quieted down, and the lights dimmed. In the audience, Mr. Edmond Sarfaty, advisor to MCS sat expectantly with his wife and two little boys. The curtain came up and the hokum world of Damon Runyanland was in splendid view. The first full dress rehearsal of "Guys and Dolls" has begun.

NSA: What Does It Mean?

By JAMES TRUPIN

The NSA is the National Student Association of the College’s NSA Committee.

In December, 1946, invitations were sent to every college and university in the country to meet at the U. of Chicago. Student leaders from more than 200 institutions gathered and spent three days in deciding the form and purpose of a “national student organization.”

The following summer a Constitutional Convention convened at the University of Wisconsin in Madison. A great deal of the impetus for the formation of NSA has come from a desire that American students be represented at the international student conferences which had begun to take place immediately after the war.

Although the discussion of international problems was the main topic of earlier student congresses, NSA began to develop a substantial domestic program which was aimed at ameliorating current governmental policies by providing for exchange of information, and at developing a responsible voice for the American students on problems within the United States.

The Association’s international program was also expanded. The first meeting of the program has grown from the initial 21 national unions of students who attended the Los Angeles meeting in 1950 until there were nearly 60 national student organizations in attendance at the 6th NSC held in Cleveland in September of 1956. The delegations of American congresses manifested their concern over the problems of the African, Asian and Latin American students. Resolutions were passed giving support for educational freedom in other countries. The Association’s continuing concern in the field of civil rights, especially in the problem of desegregation in Southern universities, led to the establishment of a special Southern Human Relations Seminar. NSA’s travel department, Educational Travel, Inc. also began to diversify its programs. While continuing to provide low cost tours to Europe for American students, it also developed new educational travel literature.

The NSA, with headquarters in Philadelphia, is currently composed of nearly 400 universities and colleges representing about one million students. National officers are elected at the close of each annual Congress. They are prohibited from attending school during their term of office and are paid a uniform salary of $2,500 per year, plus traveling expenses. Regional officers, from ten geographical areas of the country, make up the National Legislative Assembly.

Many observers saw 1950 as a turning point for American students. Increased activity on political and social issues, coupled with the dramatization of the role of students everywhere, as shown in student demonstrations in Korea, Turkey, and Japan, made Americans conscious of students as they had not been before.

On the national scene, the sit-in movement, beginning in February of 1960, caused widespread concern and action both within and outside of the student community. The NSA, at its annual meeting at the University of Minnesota in August of 1960, passed a resolution endorsing the actions of the associations in applying pressure on the sit-ins, and urging member campuses to continue their efforts in the field of civil rights.

Whether this renewed burst of student political activity is a temporary phenomenon, or whether it promises the growth of another permanent period of social and political ferment in American life, the NSA will continue to serve as a mechanism to coordinate activities main­ tened during the academic year.

Students View NSA Sessions

Evaluations of the National Student Association (NSA) Congress vary from “it’s a good educational experience” to “it’s the forum for national student opinion.”

The Congress is held every summer to coordinate activities maintained during the academic year. “Politics decided upon at these sessions determine what NSA does and how its spends its money,” said Monroe Wash, a College delegate to the 1961 Congress, last week.

“NSA is the only national stu-
OBSESSION POST
MANAGING BOARD

Dollars

Underlying the functioning of all clubs and organizations at the College is the allocation of student fees. This is supposed to be an equitable distribution of the student body's needs and importance to the smooth running of a student community at the College. The student newspapers, while technically only two student organizations, obviously absorb a tremendous portion of the fees due to their essential role in keeping the College community informed.

Now, however, the newspapers are told that they will only be given enough money for eleven issues—a drastically cut back from the thirty-four issues printed in previous years. Mr. Sarfaty, editor of the newspapers, has expressed his desire to see the newspapers each year allocated a minimum of fifteen hundred dollars to cover news through March. Explanations for this drastic cut have repeatedly been manufactured—but none of them are different. There is either a mysterious evaporating of two thousand dollars, or over-allocation, or just a refusal to start all over again and allocate fees fairly to all groups.

The student newspapers have often been the target for both student and faculty criticism on the basis of their alleged incompetence, carelessness, and inaccuracy. This is largely the result of a wide circulation and of the urge to scream aloud at something which is unable to answer back. But now, it is a student newspaper which will boldly and uninhibitedly shout about the grossly unjust handling of the student fees.

Why, for example, were the student newspapers left to suffer so drastic a cut with a reasonable allocation of fifty dollars in fees and SG has received an allocation only nine hundred dollars shy of last term's (a cut of only 1/5).

Why was it not realized that a cut of four or three dollars on a usual fee allocation of ten dollars could never be as crucial or detrimental to the group as the cut of more than fifteen hundred dollars to the newspapers? Why did the newspapers have to suffer so drastic a cut with a reasonable allocation of fifty dollars in fees and SG has received an allocation only nine hundred dollars shy of last term's (a cut of only 1/5).

Letters to the Editor

Dear Editor:

Due to understandable limitations of time and space, the Observation Post issue of February 25 was able to carry only a very condensed description of the debate which occurred at Student Council on February 14. I think that it is both necessary and proper for the student body to know in greater detail the issues involved in that discussion.

My original motion would have endorsed the Student Action Project. For a Turn Toward Peace. When I considered the motion in my own mind, I was not fully aware of all the consequences of such an endorsement by the Student Council. There were stated aims in the literature concerning the project, the implications of which I could not understand unquestionably neither as an individual nor as a representative of student opinion at the City College. For example, I do not favor unilateral action on the part of the United States for a "disengagement" from the affairs of Central Europe. On the other hand, it was clear from the wording of the same literature that one of the project's intentions was to call upon the governments of both the United States and the Soviet Union to refrain from atmospheric nuclear testing. With this in view I introduced a substitute motion, which called for Council's endorsement of this stated aim of the project.

My substitute motion was ruled out of order by the chair because "it did not constitute a substitute motion." In explanation of his decision, the chairman stated further that he also objected because the motion was "factually inaccurate and ambiguous." I immediately appealed this arbitrary and foolish decision. It is clear that my motion was indeed a true substitute motion. I further pointed out that the substitute motion involved the same project that had been open to previous debate, and it included much of the wording and justification of the original motion. It is also clear that the chair and those upholding the decision of the chair were basing their claim on an arbitrary, and in this case, false interpretation of factual correctness and ambiguity.

Partial correctness, when open question, is to be resolved in debate, not in a decision of chair. A motion which, in opinion of certain members of body, is "ambiguous" should be corrected by stylistic change amendment.

Because my appeal was denied and because I was allowed to only on a motion which was far [as I learned in the course of debate], I abstained from voting with the qualifications that I am now presenting in full to the student body. I would like to in conclusion that I am very pleased that Student Council thought that an aspect of peace movement in this country was within its range of consideration, and I sincerely hope that this issue before Council will be ceded on its own merits, not on basis of pre-conceived notions of unfinished qualifications.

Very truly yours,

Ted Brown
Student Council Representative
Class of 1963

The variety of articles as well as human experience and personality is evidenced by the varying techniques and moods of the paintings of female nudes pictured above. Culled from the College's new exhibit now on view in Eicker Hall, the two selected are only some of the more eye-catchingly among it gallery of frame-impressed fruits, flowers, color and line compositions, and feminine forms.

Yuriko Nakajima Tells
Of Present Day Japan
A new Japan which combines "Gunsmoke" and Kabuki, hamburgers and tatami mats was described Thursday by a bright-eyed, curly-haired Japanese exchange student at the College.

"Tokyo is the melting pot of East and West," Miss Yuriko Nakajima told a meeting of the Hellenic Society. Miss Nakajima, now studying at the College as an exchange student under the Townsend Harris scholarship program, spoke on post-war Japan and the changes in Japanese life due to Western influence.

"April, 1952," stated Miss Nakajima, "was a memorable time for us in Japan. It was then that Japan regained her sovereignty.

Recalling her native Tokyo, Miss Nakajima noted that it is not an uncommon sight to see oriental sitting on grass tatami mattresses eating hamburgers. A typical evening's television viewing may combine a traditional Japanese kabuki dance with the less familiar but equally popular "Gunsmoke," she added.

"Since then, people have gotten used to Western and Japanese ways at the same time," the nineteen year old student explained.

The facility would replace the two obsolete cafeterias now located in the basements of Finley and Shepard Halls. Students would be able to work their own tables to help the school save money.

Controversy surrounds the proposed fallout shelter. Pres. Rivlin has appointed a committee to study the feasibility of constructing it. An alternative, he said, would be to build the foundations and lower floors of the science building with sufficient strength to serve the double function of laboratory and shelter.

Dr. Rivlin offered assurances, however, that he will not put up a shelter at the expense of other buildings. A first-rate college is better than a deeper hole in the ground.

Yuriko Nakajima, "Kabuki" and "Gunsmoke"

Kabuki, was originally done by young girls to perform a drama for the gods of Japanese mythology. All Kabuki dancers today are men.

A rather somber note was struck by Miss Nakajima as she speculated on the future of Japan. "By 1970 Japan's population will exceed 99 million."

Fees...

(Continued From Page 1) learned that a deficit of about two thousand dollars existed in fee funds after allocations made for the Fall, 1961 Term. This was revealed only the day of the meeting by Mr. Edmond Sarfaty, financial advisor to student organizations.

The only other clubs and organizations to receive a similar cut in fees, were the other publications including Prometheus, Mercury, and the Journal of Social Studies whose allocations were passed at the same meeting.

Allocations to other organizations were made late last term when the committee assumed a total budget of about $18,000 for the Spring Term. No substantial cuts from monies allocated for this term have yet been released.

Bloom, however, rejected this idea as "impractical," preferring to slash money allocated for certain items instead, such as student-faculty dinners.

Both Bloom and Brown expressed certainty that OP and Campus would receive money for at least fifteen issues and Tech News seven this term. Bloom had planned to ask for seventeen space for OP and Campus at the SFCP meeting Tuesday. Last term the two newspapers received money for twenty issues with three more granted later on appeals, and Tech News eleven.

The deficit which brought the announced fee budget to $13,500 was traced partly to Mr. Sarfaty's decision to keep more than three thousand dollars of the student activity money in reserve to cover late budget requests and appeals by clubs this term.

The $18,000 figure, on which the committee had originally based its budget, would have kept the total approximately the same as that of the Fall term, the reserve fund covering the anticipated drop in student enrollment in the Fall.

A further reason for the deficit revealed in an admission by Mr. Sarfaty of the failure of the College's Treasurer to account last term for fee money unused by campus groups. This money is normally returned to the Treasury by the clubs themselves for use in future allocations.

"The money just went through our hands," Mr. Sarfaty is reported to have told the SG Committee investigating the fee question this Friday.

Publicity Regulations...

"Changes in Publicity Regulations..."

1. All student organization mimeographing, publicty, posters, and speaker letters of acceptance shall be brought to Room 151 Finley rather than Room 125 Finley for processing between the 10 AM and 4 PM Monday through Friday.

2. Publicity approval facilities will be set up on the North Campus in the Office of Curricular Guidance, School of Technology as follows:

   Monday AM 8-12 8117 Civil Engineering Cubicle
   PM 3-4 8118 Civil Engineering Cubicle
   Wed. PM 3-4 8117 Civil Engineering Cubicle
   Thurs. PM 1-4 8118 Civil Engineering Cubicle
   Fri. PM 1-4 8117 Civil Engineering Cubicle

3. These changes are in effect as of Monday, February 26, 1962.

New Rates

$1.50 per column inch for ads placed by students or student organizations at the College.

$1.75 per column inch for all others.

Classified Ads

10 cents per word.

HOW TO BE A BWOC

Ladies, let me be frank. The days of the college your daughter down to a precious few. And some of you—let's face it—have become a BWOC is so easy if you'll only follow a few simple you can see, lends a whole new dimension of tone and dignity. On your placard put: "ZUTL. REGARDEZ moods of onlookers.

It is not too much to say, a way of life. She has gone the whole hog in achieving little boyhood. Her hair is Sexquisitely coiffed, with a fresh rubber band around the pony tail. Her lower lip, and is followed everywhere by a dog named Spot. Withdraw the brand of her choice, will always reply, "Marlboro, which is the hallmark of the true BWOC.

The true BWOC will always have "hour longer than scheduled. The Beavers put them ahead 26-25, when Carl Weitzman, one of the har­ est students, indicated that he would appeal to the next higher body, "whether it be the General Faculty or the General Faculty Committee on Student Activi­ ties," to change the decision. The other student involved was Louis Mandel. The Beavers took their cue from Mike Winston. As he was coming down court with the ball, with only As he was going up, he was past Garsman, and went in for a drive. As he was going up, he was

A pleasant surprise for the Beavers was Tony Ravaitine who netted 15 points. There were three other men in double figures. Tom Fox had 17, Len Alberto had 12, and Mike accelerated his tempo, got past Garsman, and went in for a drive. He was driving the ball, and in the same motion, Mike went up once too often and succeeded in lighting a fire under his team.

SFCSA Rejects Weitzman Appeal

The Interfraternity Council barrage two members of the Youth Representatives (YR) from holding elective office in the group this term was upheld last Monday by the Student-Faculty Committee on Student Activities (SFCA). A motion to reverse the SC rul­ ing was defeated 9-0 at the spe­ cial session. The outcome was a half hour longer than scheduled.

Beaver Morris Levine established a new record with a time of 5:27.1. He won the 200 yard back­ stroke and a second by Levine in the 200 yard butterfly (2:33.51). And the relay team pulled a second in the 400 yard medley.

Other records were set by Marty Labin of Queens in the 200 yard individual medley in a time of 2:51.53. And John Fulop of Queens in the 50 yard freestyle with a time of 22.93.

In the second half the rest of the team were leading 25-20. Wyles put them ahead 26-25, when Wyles got off the bench, that incited him to get moving. I saw him," he said "and didn't want to go out. That's good, I'm not the second half of the rest of the team took out Mike from the line-up and got a new one in.

With Alex Blatt in there, they rebounded well, and were able to fast break many times. Nilsen led the team in that with thirteen points, scoring 9 for, overall, to emerge as high scorer for the team. Winston scored four more drives for a fifteen point evening, and Don Sidat and Jerry Green­ berg were tremendous in scoring, scoring eight points each.

Shrewsbury had three men in doubles in the quarter finals, Sam Grossman with 15, Bob Podursky with 13, and Jay Garman with 12.

FDU 69, Lavender 46; Beavers 75, Yeshiva 53

(Continued from Page 8) FDU defeated, 69, Irv Levin’s "Lefty" Cohen, and Mike Weinstein, who are usually as dependable as rocks, missed a total of six throws from the field attempt, among them. Shrewsbury's surprise for the Beavers was the rebounding of Alex Blatt. The big, strong sophomore boxed out well under the boards, grabbing 10 rebounds. Nilsen led the team in rebounds with eleven.

High scorer for the FDU squad was Tony Ravaitine who netted 18 points. There were three other men in double figures. Tom Fox had 17, Len Alberto had 12, and

bench. Then it happened.

Mike accelerated his tempo, got past Garsman, and went in for a drive. As he was going up, he was powedered with a little top! That's when he got mad a second time. It was enough to keep him hot for the rest of the game. He scored only one of his foul shots and went into the game. On the next play, it was Winston who was in for a drive. He was stolen by Winston on a bounce ball, for another drive, and the Beav­ ers were leading 25-20.

Irvin Cohen

IMPORTANT POINTS

The night buckets by Yesh­ iva put them ahead 36-25, when Winston took over again, this time pressing off to Tar Nissen off a drive for a two-pointer that put the Beavers ahead to stay at 38-25.

After the game, the game ack­ nowledged the fact that it was Wyles getting off the bench, that incited him to play. I saw him," he said "and didn't want to go out. That's good, I'm not the second half of the rest of the team took out Mike from the line-up and got a new one in.

Shrewsbury had three men in doubles in the quarter finals, Sam Grossman with 15, Bob Podursky with 13, and Jay Garman with 12.

Cagers Defeat Fordham, Yeshiva, But Lose to FDU

(Co-continued from Page 1) 54-52, had the ball, and were in a position for a last shot to tie. But in Coen's case, it was a minute later, to tie the ball game at 54-55. With four and a half to go he missed a last chance to tie, another to give the Beavers a 2-point advantage.

They could have put it on ice twenty seconds later, when the on the next play Bob Movin converted two free throws to knot the score at 57. Thereafter each team had one more chance at putting the game away. The Beaver offense failed to pass to Nilson in the basket, lost it on an interception by George Kazimire.

With six seconds to go in the regulation time Bob Movin had a chance to wind up the hero in the final moments of the game, but he awarded one free throw after being fouled. He missed, paving the way for Taylor's overtime goal.

"It felt very confident when I went to free throw line." For Nilson was high scorer for the Beavers, netting nineteen points in four games. He took five free throws against Yale in the season opener at New Haven, and another one at St. John's. But in doing so he cut Vito's beard. Nilson has been strong in the lower pound class.

As in the previous season, the Nilson family is a mainstay of the Beavers, including Little Nilson, a freshman. The Nilson family has a two-year history of helping Bob Movin gain a 6-3 decision. For Nilson has been strong in the lower pound class.

Jerry Robinson, who has been making the team, has been more for the Beavers, netting nineteen points in four games. He took five free throws against Yale in the season opener at New Haven, and another one at St. John's. But in doing so he cut Vito's beard. Nilson has been strong in the lower pound class.

Columbia Troubles Parriees, 22-5

Mannino Sets College Win Record

By STEVE ARG

Vito Mannino extended his winning streak to nineteen straight victories and Joe Petito won his first varsity bout Saturday. But it was not to avail as the Columbia University Athletic Association joined in the fun.

The victory gave Columbia second place in the Eastern Intercollegiate Track Meet for the third year in a row. The Lions have now negated nineteen dual-meets in a row.

of the day Mannino, a junior, scored more than five points each in both the 60-Yard Hurdles and the 600-Yard Sprint. He won both events, setting records for the latter event.

Lenny Zane won the One-Mile Run in 4:38, finished fourth in the 880-Yard Run, and ran a leg of the 440-Yard Relay. Julian Offay, who ran the same events as Zane, followed Zane in the first three places in the first three events.

Ralph Lauder won the Mile Run in 4:03, taking a lead over the 880-Yard Run in the 1000 and led off the One-Mile Relay. Joel Saubert won the 220 in 23.8.

The Beavers went off the court at time of 22:19.8. But in doing so he cut Vito's beard. Nilson has been strong in the lower pound class.

Co-captain Bill Casey led the team tied for second place in Saturday's duals.

John Pappas, an Evening Session student at the College last term, walked into the South New York Mesh clubhouse in St. Petersburg and asked if they could use a pitcher. What more could be accomplished in convincing them to give him a tryout.

As it turned out, though, he could talk better than he could pitch. Pappas gave the Mesh a back on the College next term.

There may be complaints that the basketball team doesn't face the better competition. But other Larvender teams have complained in the past. The Mesh-Ivory Coast games have been signed with NYU in cross-country and soccer.

The Beaver hooligans had failed to do the job under the leadership of Tony Koff, who was appointed coach of the team.

Co-captain Pat Lamprinos, Mike Didyc, and the Larvender Coach Edward Lo said before the competition, "I love Columbia in in the EIC (Eastern Intercollegiate) and NCAA (National Collegiate Athletic Association) championships." Also in context for the top honors are the visiting Beavers, next opponent.
