Large Turnout Marks Voting
In Gimmick-Less Campaign
By RICHARD COE

Despite the “gimmick-less” campaign mandated by the new regulations this term, students turned out in unusually large numbers to vote on the first day of Student Government elections.

It is unofficially estimated that almost fifteen hundred ballots were cast yesterday, the first of four days polls will be open.

Last May, less than seventeen hundred students cast ballots during the entire four-day election period.

The new voting booth on the first floor of the Cohen Library is partially responsible for the increasedballoting, but there were long lines as the other polls too.

More Seek Posts

Part of the increased interest is probably due also to the greater number of candidates seeking election. Council members now serve three-terms beginning in December, and therefore weren’t running last May.

There are also fewer candidates seeking the presidency this term, as opposed to two in the previous election.

In addition to the Cohen Library booth, polls in Finley and Shepard Hall will be open from 11 AM to 3 PM today, tomorrow and Friday.

Rivlin Discusses
Teacher Education

Dr. Harry N. Rivlin, Dean of Teacher Education for the city University, declared Saturday that the teacher and administrator appointed in New York City should understand the sociological factors which affect learning and teaching in the urban community.

In a speech before the Metropolitan New York Commission on Teacher Education and Professional Standards, which met at the Columbia Teachers College, Dr. Rivlin, commenting on Dr. James B. Conant’s recent book, "The Education of American Teachers," and "As Dr. Conant points out, teachers must understand the processes by which social behavior emerges in children.

More Debate Courses

Dean Rivlin had several other suggestions for improvement of teacher training, including more courses which the colleges “delete any courses that can be defended only in terms of state requirements for certification.”

He also suggested that the college work with the schools to improve student teaching, to help the State Education Department to re-examine testing requirements and to prepare teachers “for new patterns of school organization and for new methods of teaching.”

Grads of the College Review Their Success as Corpsmen

Peace Corps Director
To Reveal Plan Today

R. Sargent Shriver is expected to announce plans for a new Peace Corps project when he addresses students at 8 PM today in Aronow Auditorium. The project will be of special interest to Juniors, Observation Post learned Monday.

His speech will be piped into the Grand Ballroom where he will appear at approximately 8:45 PM. Questions and answer periods will be held in both halls.

Mr. Shriver, director of the Peace Corps, should reaffirm President Johnson's confidence in the Corps and his desire to see its work continued through the change of Administration. President Johnson, who served as Chairman of the National Advisory Committee for the Peace Corps, "is a strong supporter of the Corps," said Mr. William Simon, a representative of the Public Affairs Division of the Peace Corps.

The speaker, brother-in-law of the late President, said F. Kennedy, plans to continue working with the Peace Corps. In his capacity as organizer and director of the Corps, he has traveled extensively during the past two years visiting Peace Corps Volunteers and discussing new projects with foreign government officials.

Mr. Shriver, who has never run for public office, has been men-

Former Israeli Prime Minister
To Lecture Today in Aronow

A former Prime Minister and one of the founders of the State of Israel, Moshe Sharett, will address the College today, as guest of Hillel and the Student Zionist Organization.

Mr. Sharett will discuss "Israel and the Challenge to the University Student" in Aronow Auditorium, Finley, at 3:45 PM. Following the speech, a reception will be held in Buttenwieser Lounge.

Mr. Sharett is in America now to encourage support for Israel through the United Jewish Appeal.

He is presently Chairman of the Jewish Agency for Israel, a philanthropic body concerned with settling and absorbing immigrants. Israeli immigration laws are practically non-restrictive, and much of its present population has come to Israel since 1948, when the state was established by United Nations partition.

A member of Knesset (Parliament), Mr. Sharett is also an economist, educator, and director of the publishing house of the Israeli Federation of Labor, Am Oved, and an important force in the Mapai, Israel's majority party.

He presented the Jewish case to the Anglo-American Committee of Inquiry in 1946, and again the next year to the UN Special Committee on Palestine, the body which recommended establishment of independent Jewish and Arab states in Palestine. Upon Israel's admission to the UN after its founding on May 14, 1948, Mr. Sharett addressed the General Assembly and signed for Israel the Reparation Agreement with West Germany's Chancellor, Dr. Konrad Adenauer.

Peace Corpsman Bank Jibin (left), an alumus of the College, and comrades along the Rio Zabatitas.

Forty-three Peace Corpsmen from the College, who didn't wait for the Corps to come to them this week, are now serving on six continents.

These graduates live on the same plane as natives with similar jobs. Thus, a teacher in Ghana may be quite well off, while a Civil Engineer with a road-building crew in Tashkent, is lucky to have a tent to himself.

However, the biggest complaint among Peace Corps members is not poor living conditions, but a "frustration in not doing as much as they expect to do," said Dr. Joseph G. Cole, Director of Recruitment.

The Peace Corps, which with the Peace Corps in 1961.

In addition to fulfilling its present role, the Corps should specific projects" and "to encourage support for Israel through the United Jewish Appeal."
The Men

SIMON FOR PRESIDENT: If experience and competency are the deciding factors, Howard Simon will be elected president of Student Government. One of the originators of the reorganization plan, Simon has worked very closely with the term’s president, Ira Bloom. He has also been on Council three terms and supervised the activities of some thirty-five student governments in the Metropolitan area, while serving as Regional Chairman of the National Student Association last year. Simon is intelligent and capable; the student body would be doing itself a favor by electing him.

PESSIS FOR VICE-PRESIDENT: Girard Pessis is a living argument for allowing SG executives to serve a full year in office. This term Pessis has laid the groundwork for effective action in the free-tuition struggle. He has made contacts with state political leaders, the College’s Alumni Association, and State University student leaders. But Pessis’ term in office expires in January—just as the State Legislature is in session. Its successor should be re-elected to finish the job he started so ably.

STEINHAUSER FOR TREASURER: We would trust Larry Steinhauser with our fees allocations and we recommend that you do the same. He has served two terms on Fee Commission and has been Treas and Manager of the Debating Team, he is most familiar with the duties of the office and quite competent to handle them. In successful fulfillment of the Treasurer’s tasks. Elect Larry Steinhauser.

ZIPPER FOR SECRETARY: John Zipper is a rarity in Student Government. Not only does he speak forcibly and convincingly, but he gets things done. Not content, as are some Councilmen, with producing a lot of hot air on Wednesday night, Zipper works hard the rest of the week to turn Council’s resolutions into meaningful action. Zipper should be made a member of the executive where he can accomplish even more.

The Issues

YES ON REORGANIZATION: Student Government is mired in a vast amount of potential. Passage of the three referenda on SG reorganization will insure the fulfillment of all possibilities. Year term executive officers will assure the creation and support of meaningful ongoing SG meetings. Three elected Executive Vice Presidents will ease the President’s workload. Increased student representation on Exec Committee. OP urges students to vote YES on all three SG referenda.

ABOLISH THE SAB: Students last term indicated a desire to have SG assume control of the Student Activities Bureau. The SAB’s attempt to monopolize SG’s activities met endless delays and met blank silence or a condescending attitude, then you know this is true.

If you, as an individual or as a member of an organization, have ever come before Student Government and asked for help, you know that SG has rapport with neither individuals or organizations on campus. If you, as an individual or as a member of an organization, have ever come before Student Government and begged for a red tape, then you know this is true.

If you have not, then you, as an individual or as a member of an organization, have an utter disregard for Student Government as a motivating force on Campus; if you feel that Student Government has done nothing and never will do anything, then you will have proven to yourself that this is true.

The consequence is that SG should be abolished because it is not supported, it is functionless, and its very existence is an insult to the concept of responsible student government.

Having gazed upon the ballot yesterday, one further point occurs to us. Essentially it is this: as worded on the ballot, the SAB referendum is confusing and meaningless. The only possible solution is to ignore the “noes” and vote “yes” on the proposal you favor (hopefully proposal “A”).

YES ON AWARDS: The manner in which Honors and Awards have been bestowed by past Student Councils suggests that the mode of praise needs revision. At best, Council has acted on the basis of hearsay; at worst, it has been influenced by pressure from others. We urge you to vote YES on the referendum which would remove from Council the power to give out awards.

ABSTAIN ON BASKETBALL: The final determination as to whether or not participating in big time basketball is up to the Board of Higher Education, which ruled that the Colleges of the City University may not play in any arena not under educational supervision and may not play more than 18 games per year. The Guards can do little to change the present situation. We urge you to vote ABSTAIN on this referendum and encourage SG to further investigate the question.
Correction

An editorial in Thursday's Observation Post refers to Alan Blume's "inability to wake up early in the morning." The reference is to an emergency meeting of Student Council held at 8 AM during Blume's term as SG President. It was the morning before elections, and Council had to decide whether to put a referendum calling for the abolishment of the Student Activities Board on the ballot. Blume was not present at that meeting; however, the reason for his absence, he has informed us, was a make-up final examination scheduled for the same hour. We hope Alan will accept our sincerest apology for our misstatement.

with soap after seeing some of the Volunteers using it.
Another graduate of the College, Ron Loden, told how he helped the villagers in Jamaica develop a small industry of their own. Noticing driftwood on the beaches, he showed them how to prepare the wood and sell the plaits to tourists.

A Little League Developed
A sort of Little League was developed in the Dominican Republic by Harold Meyerson, another graduate of the College. He organized about sixty boys, collected money from local people, and got bats and balls from the Peace Corps. The Volunteers have degrees in such varied fields as Fine Arts, Psychology, and Economics. Explaining exams or grades necessary for admission to the University, he said, "You need is to have a high school diploma and to look forward to the draft in the United States is by enrollment in courses."

News of the Campus

One of the surest ways of postponing the draft in the United States is by enrollment in courses. "All you need is to have a high school diploma and to look forward to the draft..." This, according to President Gallagher, was one of the surest ways of postponing the draft in the United States. It was also one of the surest ways of advancing by passing exams or grades necessary for admission to the University, he said.

"An Israeli, almost by definition, is more puritanical than an American," Dr. Gallagher continued, "but there is no reason why we cannot catch up with 2,000 years in twenty years." In contrast to problems created by the enrollment in courses, he said, there are no qualifying exams or grades necessary for admission to the University. "All you need is to have a high school diploma and to look forward to the draft in the United States is by enrollment in courses." This, according to President Gallagher, was one of the surest ways of postponing the draft in the United States, he said.
Cagers Smash Upsala; Score Big 91-67 Win

The College's basketball team racked up its third straight victory and its highest point total in almost two years as it wallowed Upsala 91-67 last night.

Dave Polansky's charges poured in 56 points in the second half after taking charge shortly before intermission. The Beavers hit in double figures, headed by Alex Blatt and Tim Smoler with 21 points apiece. Steve Golden, with 17, and Julie Levine had 12, and Steve Schwartz scored 10.

Steve Golden, with nine points, played fiercely at center, pulling down twenty rebounds to lead both teams in that department. "Bad Boy" Blatt also played an aggressive game, hauling in 15 rebounds and drawing such fouls from the Howes, known as "tough man" and "bad boy." The Beavers scored 70 of their points from the floor, taking 80 field goals, and 22 free throws.

Wilton Mahland with 15 and Herb Cohen with 11 were the only Vikings in double figures. The scene was set in the early going, but after fifteen minutes of play, the Beavers took off on a spurt. They outraced their Upsala opponents 15-2 over a four minute span to move from an 18-17 deficit to a 33-20 lead. The halftime score was 45-26.

Golden looked especially good in the first half. Not only was his shooting on target, but he set up many shots for his teammates and pulled down ten rebounds.

I recognize that all organized groups, fraternalities, sororities, journals, newspapers, etc., will endorse certain individuals. Supposedly, these endorsements hint their members to vote in a specific manner—beginning this Tuesday in the school-wide elections. Nevertheless, when you take your opportunity to vote, YOU must be responsible to yourself, above ANY group. I tell you never to prostitute this most important principle of human dignity and freedom. Do not vote for your Brothers, Sisters, or Houses, but for YOURSELF.
