be held without the support of the upstate colleges. SG hopes to raise funds for the free-tuition drive by selling anti-tuition buttons at registration; in addition, an attempt is being made to secure anti-tuition bookcovers, which would be sold in the bookstore.

A rally will be held at the College to raise student support for the program. All anti-tuition efforts will be co-ordinated from an office in Finley Center.

Wagner Rejects Regents' Tuition Plan; Insists That There Is 'No Justification'

Group Will Boycott Pro-Tuition Paper

"I'm sorry that the boycott is anonymous" was the official comment of the New York World Telegram and The Sun on an "alleged boycott" of that newspaper by a group calling itself the "Free Tuition Council." The group has declared itself opposed to the Telegram's editorial stand against free tuition at the City University. Managing Editor Richard Peters said that "we can't tell if it is a responsible effort or not."

Screvane to Speak For Free Tuition

City Council President Paul Screvane will speak for continued free tuition at the City University on January 16 at the Baruch School.

Speaking before the Baruch Alumni Society's Board of Directors, Mr. Screvane is expected to present a view opposing that of President Albert H. Bowker: "We regret that the Board of Regents does not see the advantages that we do in maintaining the tremendously valuable tradition of free tuition in the City Colleges which has proven for the past 117 years to be so profitable from..."

CITY COLLEGE
It's time to wrap up the old term, but do not go so lightly. This semester has seen several things which may place it among the last of its kind; many changes are on the horizon which may transform the College so much that it will be almost wrong to call it by the same name.

The most recent occurred only Monday. The pro-tuition fee forces renewed their attack on that 117-year tradition of free higher education which is part of the essence of the College. The State Board of Regents' call for a tuition fee must be a rallying cry for all students at the College to redouble their efforts. Political analysts have told us that the upcoming legislative session will offer the best opportunity in the next few years for restoring mandatory free higher education at the City University. Let us take advantage of it.

The College as we know it faces threats from within as well as from without. Some of President Gallagher's proposals would seem to offer an opportunity for a really meaningful student government on this campus. While the people in SG will continue to be friends in whatever sense we have been; like you said, "we'll never forget in OP's front page. Actually it had been a fun issue. We had a little controversy in the College's Music Department when vomitings and a scrap with Dean Peace mixed in. Moreover, the Committee reviewing College policy on student records and their availability to the FBI reaches its long-awaited conclusions, there may be an opportunity next term to bury once and for all this ever-recurring problem.

This has been a term characterized above all by senseless deaths. We should not let it pass out of existence without passing a moment of thought of them—nor without determining that our lives shall be meaningful.
One of Internship's Benefits: Understanding Bureaucracy

The "understanding of governmental bureaucracy" is one of the main benefits to be reaped from the Federal Service Internships according to Arnold Bornfriend (Pol. Sci.).

There are, of course, certain difficulties connected with a municipal shift of this size. For instance, to move Lake Michigan would mean you got to move Lake Michigan. This, in itself, presents a grand challenge. For instance, to move the Federal Government in New York and New Jersey. The student will not only have to move Chicago to Phoenix— the city, not the baseball team. Phoenix, in turn, would have to move to Chicago. It has been estimated that this would be embarrassing for residents of both cities. Many Chicago folks, for example, have never seen a phoenix. Many Phoenix folks, on the other hand, have never seen a frostbite.

1964: YEAR OF DECISION

Well sir, here we go into 1964, which shows every sign of being quite a distinguished year. First off, it is the only year since 1954 which ends with the figure 4. Of course, it comes to Figure 4's, 1964, though distinguished, can hardly compare with 1944 which, most people agree, had not just one, not just two, but three Figure 4's. That's a record that will stand for at least a thousand years.

1964 was, incidentally, notable for many other things. It was, for example, the year in which the New York Giants played the Philadelphia Athletics in the World Series. As we all know, the New York Giants have since moved to San Francisco to play the Philadelphia Athletics in Kansas City. There is a movement afoot at present to move Chicago to Phoenix—the city, not the baseball team. Phoenix, in turn, would have to move to Chicago. It has been estimated that this would be embarrassing for residents of both cities. Many Chicago folks, for example, have never seen a phoenix. Many Phoenix folks, on the other hand, have never seen a frostbite.

There is, of course, one thing modern science advances like economics and the French cuff. But if you will look at your map, you will find Lake Michigan is attached to the other Great Lakes, which in turn are attached to the St. Lawrence Seaway, which in turn is attached to the Atlantic Ocean. You start dangling Lake Michigan to Phoenix and, willy-nilly, you'll be dangling all that other stuff too. This would make our British allies terribly cross, and I can't say I blame them. Put yourself in their place. What if, for example, you were a British costermonger who had been saving and scrimping all your for a summer holiday at Brighton Beach, and then when you got to Brighton Beach there wasn't any ocean? Then you'd be with your inner tube and snorkel and nothing to do all day but dance the Lambeth Walk. This, you must agree, would not help make you NAXI-minded.

I appeal most earnestly to the residents of Chicago and Phoenix to reconsider. I know it's no bowl of cherries going through life without ever seeing an iguana or a frostbite, but I ask you—Chicagoans, Phoenicians—is it too big a price to pay for preserving the unity of the free world?

I feel sure that if you search your hearts, you will make the right decision, for all of us—whether we live in frostbitten Chicago or balmy Phoenix—would like to see the Great Lakes, which in turn are attached to the St. Lawrence Seaway, which in turn is attached to the Atlantic Ocean, which in turn is attached to the Pacific Ocean, which in turn is attached to the Indian Ocean. ed that the College participate only in arenas under "complete educational control." That is, the Lavender can only play on courts that are on the opposing campus or that are used as the opposition's regular home court. All this evidence is testimony to the fact that "big-time" bas-

kball is not in the hands of President Gallagher. But what really is "big-time" basketball? If it means that the College play such schools as Ohio State and Cincinnati, then we can't do it. Not only are these teams better than the Lavender, but the cost of traveling to such schools would be too high for the Col-
lege's limited funds.

When Ohio State and Cin-

cinnati are mentioned, there is one glaring omission. That is New York University. NYU is (or was) one of the top rated teams in the nation and it is a sub-
way ride away from the College. Some Lavender opponents have the Violets on their schedule already. Fairleigh Dickinson and Long Island University play NYU. Another Lavender oppos-

tent, only recently KO'd the highly touted Violets. That school of course is Wagner. A problem that would arise if the Beavers played NYU would be one of space. Many more than 3,000 people can be seated in NYU's Alumni Gym, would want to see the game and Wingate's capacity of a little more than 1,000 wouldn't even be considered. Why shouldn't such a game be played at Madis-

on Square Garden? For many years the Garden was the "home court" of the Beavers.

Wrestling ...

If final exams don't completely floor you, the College's wrestling team might. All students are in-

vited to attend practice sessions of the grapplers during interses-

son. Attendance for members of the team is required. Practice will be held each week starting at 10:30 AM.
