City U Sets 'Higher Horizons for Disadvantaged HS Grads'

Two experimental programs that will admit more students to City University without lowering its standards were announced yesterday by the CU.

Both plans are designed to raise the academic achievement of the students involved. The centers will be selected, in part, on the basis of "evidences of strong motivation and qualities of leadership and creativity" not reflected in their high school grades.

These centers will be primarily for "selected students who had not thought of going to college." The two-year program of those "school within a school" would stress reading, writing, study skills and speech.

All students who successfully completed the center's program would be admitted to the City University.

None of the students participating in either plan will pay tuition. The Chairman of the Board of (Continued on Page 3)

Annual Alumni Cocktail Party To Host 30 Republican Solons

More than thirty Republican legislators have accepted invitations to an Alumni Association cocktail party to be given in Albany next week. A Republican triumph of three turned up at a similar event last year.

It is felt that the increased number of Republicans who plan to attend in the results of the free-tuition campaign students and alumni have been carrying on this year. Among those who have accepted invitations are every Republican Assemblyman and State Senator from New York City.

The second plan, developed in cooperation with the Board of Education, will establish "development centers" in five high schools.

The Democrats, who last year outnumbered the Republicans, by a considerable margin, is also expect to have increased attendance.

A Proclamation

WHEREAS it has been brought to the attention of the writer that the university is facing a severe enrollment crisis as a result of the post-war baby boom,

WHEREAS the freshman class, as large in the school, is most urgently in need of protection,

THEREFORE, I, by the power vested in me, do hereby order and direct all freshmen to report during the club period today, to Room 301 Bowwer, there to be counted and placed under protection and shut.

ONE SINGLE MEANS of preserve, by constitutional law, is ordered to be as follows:

ALL YE who desire to save yourself may enroll post haste in the books of the staff of Observation Post in Room 336 Finley.

Plan State Anti-Tuition Confab; Hope to Shew Unified Front

Student Government Vice-President Daniel Katkin revealed Tuesday that tentative plans for an Albany convention of student leaders from the City and State Universities. The purpose of the convention would be to present a unified statement of student views before the State Legislature votes on the restoration of the free-tuition mandate. If the mandate were restored, no tuition fee could be charged at either the City or State University.

Katkin noted that while several State colleges, including Buffalo, New Paltz, and Oswego, were certain to lend their support to this effort, the rest of the upstate situation remained uncertain.

He also announced that Mayor Robert F. Wagner, Republican Representative Robert V. Lindsay and Secretary of Health, Education and Welfare, Anthony Celebrezze, will arrive at the Convention, which would be held about March 2, 1964.

SG President Bob Rosenberg, said that those upstate student leaders who could not or would not attend the Convention may be asked to get in touch with their Assemblies. It is hoped that such a move would convince the Legislature.

B. Malamud Reads From His Works Today; Robert Graves To Give Lectures Next Week

Two celebrated authors, Robert Graves and Bernard Malamud, have accepted invitations to appear at the College.

Bernard Malamud, the winner of the National Book Award for fiction in 1955, will read selections from his works today.

Robert Graves, British poet, novelist, critic, and mythologist, is scheduled to read the second selections of the Jacob C. Saponek Memorial Lectures, next week.

Mr. Malamud is well-known for such books as "The Magic Barrel," "The Assistant," and "A New Key." Mr. Malamud, whose appearance being sponsored jointly by the English department and the Alumni Association, will speak at 12:45 in Room 200 Shepard Hall.

The lectures will be given at 3 PM in Memorial Auditorium.

The Jacob C. Saponek Lectures are named in honor of a 1918 graduate of LaFayette College and a professor of sociology at the University of Virginia until his death in 1956. The fund for the lectures is a bequest of his surviving sisters, Miss Rebecca and Miss Sadie Saponek, of New York City.

Robert Graves

Poet To Lecture Here

With a Commentary. The last lecture will include a reading of the poet's latest, and as yet unpublishe poems. Mr. Graves, a Professor of poetry at Oxford University, is also known for his historical novels and critical works. His autobiography is contained in "Goodbye to All That" and "Occupation and God," works of criticism such as "Poetic Unreason," and books of mythology including "The White Goddess" and "Greek Myths."

The lectures will be given at 3 PM in Memorial Auditorium.

Garbage Bin Fire Squeeked Quickly

Flashing red lights brightened up the North Campus Quadrangle last Tuesday as three Fire Department companies attempted to extinguish a garbage bin blaze.

The engines began to arrive at 3:45 PM, but within minutes all but a hose, and hook and ladder truck, both from the 125th St. Station, had left. The metal container contained a wood fire, but the garbage, consisting of old Venetian blinds and ROTC pamphlets, was piled high that firemen worked on it for twenty-five minutes.

Senior Custodian Farmen James Brown (Buildings & Grounds) said he was sure the blaze could not have started by itself, because of the nature of the material and the temperature outdoors.

Opportunities in government will be discussed by representatives of the City, state, and federal governments at today's meeting for the Government and Law Society at 2:30 PM in Room 218 Wagner.

JUDGES CAN'T ADD:

Match Stolen From Debaters

The College's debating team ran into disaster in the form of a clerical error last weekend at Columbia University. After compiling a record of 3-1 in preliminary rounds with 4-0 records, the top two teams in the tournament, Carlye Witzman '65 and Joel Glassman '66 were deprived of their rightful positions when the tournament officials incorrectly tabulated their total points. As a result, the team finished third, behind Marymount College and St. Joseph's College (Brooklyn).

The error came about when these teams all finished the 7-round preliminary rounds with 4-0 records. The top two units were to be selected on the basis of individual speaker points, and in this area Marymount had 171 points, the College 161, and St. Joseph's 148.

However, in a previous debate against the Newark College of Engineering in which Glassman and Witzman had scored 36 points to their opponent's 17, the College had been mistakenly credited with the 17 points, thus reducing their cumulative total by 19 points.

By the time the mistake was noticed, the final round had been held, Marymount had been declared the winner and Columbia had dropped responsibility. The College has requested a rematch with Marymount.

RAISE Student in Housing Strike;

Trying To Block A Harlem Eviction

By MARC BRODY

A student from the College's Congress of Racial Equality (CORE) was arrested with ten other persons February 7th for allegedly interfering with a police officer in the performance of his duty. This arrest came at the end of a year-long effort by the College's CORE to improve the housing conditions of Harlem tenants.

The student, Paul Landau, is a member of CORE's Housing Committee, which has organized several buildings on West 122nd Street, between Lenox Avenue and Seven

enth Avenue. "Organizing" consists of inspecting an apartment from cellar to roof, talking to the tenants, and setting up a tenant's council if a majority of the tenants are interested. This council is an autonomous self-governing body comprised of tenants.

Many problems must be overcome before a building can be organized. There is apathy on the part of the tenants after repeated individual efforts at improvement have failed; there is widespread fear of eviction if they complain, largely born of ignorance of the New York housing laws; and there is the difficulty of arranging meeting times convenient to most of the participating tenants.

Many of the conditions in the CORE organized houses have been rectified since their organization and the threat of a rent strike. Most active in organizing have been Paul Landau, Joyce Knowles, Cathy Beckman, and F. Berger. CORE is sponsoring a cleaning and blanket drive this Thursday and Friday in front of Knitting Lounge on North Campus, opposite Room 162 Finley on South 162 Finley on South Campus. Clothing, even if it is not in the best condition, and blankets of any shape or size will be accepted.

Cara will be needed to transport the donations to the tenants on Friday night. Those who are interested should leave their names and phone numbers in the CORE mailbox, Room 162 Finley.

State U. Support For Free Tuition Sought By Katkin

An attempt to rally upstate support for a state-wide anti tuition convention in Albany will be made by Student Government President Daniel Katkin at a New Paltz State Teachers College leadership conference training seminar this weekend.

The Albany convention would be designed to influence upstate Republican legislators to vote for a discharge of the bill mandating free tuition in the City University.

Accompanying him will be SG Treasurer John Zippert, SG Secretary Joel Cooper, and Richard Goe, Associate Editor of Observation Post. They also will go to Albany later this week to make arrangements for the convention.

Among those invited to the convention is Professor Robert F. Wagner and Republican Assemblyman John Lindsay.

FRIDAY,
Terriers Defeat Beavers, 61-54; Lose In Shattering Second Half
By HARVEY WHINBERG and STEVE ABE

Playing good ball through the first half, the College's basketball team collapsed in the second half to lose to St. Francis last night, 61-54. The Beavers took a 32-29 half-time lead into the 60th Regiment Amory locker room, but couldn't hold onto it against a driving Terriers team.

Al Zuckerman led the scoring for the Lavender squad hitting on 6 field goals and 2 fouls for 18 points. Alex Blatt was second with 18 points, followed by Paul DeLoca with 10 markers.

The Terriers jumped off to a 3-0 lead before Steve Golden could hit the first Beaver point. Crispi hit a couple of jump shots before the Beavers attacked off the ground again.

This time they exploded for 14 points. Alex Blatt led the way with 6 while Ira Smoler pumped in 5 points on two beautiful lay ups and a foul, while Al Zuckerman broke the ice with a jump and foul.

The Terriers' Jay Riedell soon got the muzzle off hitting a lay-up with 9 minutes to go in the half. The Terriers then went on to score 9 straight points to put them ahead 18-16.

Zuckerman once more got the Beavers going, popping a jump shot with 6 minutes left. From there to the end of the half it was nip-and-tuck all the way. Paul DeLoca hit a jumper points and the half-time score was 23-23.

In the second half what might be called the "Lavender Syndrome" hit again. The other team came out with a full court press and were able to take the ball game away.

The key operator here was Paul DeLoca who hit all of his ten points in the first 7 minutes of the half. In the meantime the Lavender squad lost the ball about five times.

By the time that was over the score was 45-40 and the game was, to all intents and purposes, clinched for the now 9-8 Terriers.

The Beavers tried to make a come-back but missed a number of key foul shots while most of the referees calls went against them.

The Beavers are now 7-7. For the Terriers' Jay Riedell lost 51-65, although John Cliffon hit 34 points.

ECONOMICS CAN BE CHUCKLES

Many of you have been avoiding economics because it is so widely known as "the dismal science." Oh, good friends, stop exclaiming yourselves of many a laugh and cheer, because economics is a positive riot! True, it is called the dismal science, but that is only because it was invented in 1681 by Walter C. Dismal.

It is easy to understand why Mr. Dismal's discovery of economics a today almost forgotten, but the fact is that he himself only stayed with the subject for two or three days. After that he took up embroidery, which he taught. It is said that he also played a Mr. Dismal tried 1200 times. This later became known as Mr. Fawkes Day.

It was not until 1776 when Adam Smith walked his Wealth of Nations (or Oeconomica, as it is usually known) that the world came to realize what it is a rosy, twinkly, fun subject economics is. As Mr. Smith showed in his little treatise, there is nothing complicated about economics.

When there is a great demand for a product, a great supply is placed on the market. When there is a small demand, there is a small supply. Take, for example, castanets. You walk into any average American town today and I'll wager you won't see more than eighty or ninety castanet shops. That is because the demand is small.

For Marlboro Cigarettes, on the other hand, the demand is great. Thus, you will find Marlboros—with all their yummy rich tobacco flavor and pure white Sidereal filter and pliable soft pack and unflappable Flip-Top box—at any counter where cigarettes are sold in every one of our fifty great States and Duliuth.

To Adam Smith, I say, belongs the distinction of popularizing economics. Mr. Smith was followed by David Ricardo. In fact, everywhere he went he was followed by David Ricardo. Mr. Smith finally got so annoyed that he summoned a bobby, as British policemen are called, and had Mr. Ricardo arrested.

This later became known as the Louisiana Purchase.

Upon his release from jail, as a British jiffy is called, Mr. Ricardo reported to his parole officer, Thomas Robert Malthus. Upon, as Mr. Smith showed in his jocular little treatise, there is nothing complicated about economics. As Mr. Smith showed in his little treatise, there is nothing complicated about economics.
