Parents Hit College's Failure To Aid Enrichment Programs

By NANCY FIELDS

Parents of pupils at P.S. 161 (133 St. near Convent Ave.) are dissatisfied with the lack of aid that their school receives from the College, according to Mrs. Edythe Edwards, co-chairman of the P.T.A. Curriculum Committee. "We are called 'the campus school,'" she said, and the College has promised us help in such things as remedial reading and curriculum planning. So far very little has materialized.

Two weeks ago, students from the College's Evening Division began a tutorial program in remedial reading at P.S. 161, which was greeted with enthusiasm by parents and students. The Curriculum Committee of P.S. 161 is now appealing to students at the College to set up a program of after-school clubs. "We are not a private school," said Mrs. Edwards, but we would like to have an enrichment program for our pupils who are interested in learning more than what is taught in their classes.

Mrs. Edwards pointed out that the College uses both her school and P.S. 164 (147 St. near Convent Ave.) as laboratories for its Education and Psychology students. "As it has turned out," she said, "we service the College more than the College services us." She added that any interested students should write to her in the PS 161 main office.

African Here Hits US Congo Policy

By ZITA ALLEN

"This revolution is not an isolated revolution. It is a revolution of the people," said Chuma Bantu here yesterday. Bantu, a cabinet minister in the Tanganyika-Zanzibar government who has been described as a "Peking-trained revolutionary and key Zanzibar Communist leader," spoke in a program sponsored by Youth Against War and Fascism.

Speaking against US involvement in the Congo, Bantu explained his revolution by the imperialist-motivated death of Lumumba. He also asserted that this revolution was only a part of the Africans' fight to rid their country of colonialism.

Frosh SC Winners Announced; IFC, HPA Elect Term's Officers

HAPA: Fleischman

IFC: Waldman

Alan Fleischman won the N.A.A.C.P. and the Human Association (HAPA) Presidency Friday, defeating Richard Tropp. Bob Voigt, running unopposed.

At-Large Victor Announced

By REBEK OWEN

Student Council Elections results for the Class of '68 were released yesterday. Andy Kertesz, Allan Perry, Bill Reich, Kenny Schaffer, Andrew Shepard and Ellen Turk were elected. Turkish, running on the Campus First slate, polled 520 votes, or more than her nearest opponent. Kertesz and Perry were also running on Campus First. Shepard was running on the Beaver Action Ticket.

Michael Sigall was announced the winner of the Council-at-Large.

Regents' Policy At Berkeley

Former Teacher Here Asks Berkeley Strife Discussed

By J. L. ROBERTS

Speaking as a faculty member of the Berkeley Division of the University of California, Dr. Morton Paley, a former teacher here, declared yesterday that the faculty had "a lot of reasons to distrust the Administration" from their actions in handling the student free speech controversy. Making the point that he did not question their honesty, the English Professor said that the many changes and the removal of the changes by the Administration, and their consistency in finding "some old, obscure rule" which could counter a demand raised by the students, were largely responsible for this distrust.

Citing the placing of a Christmas tree, which took up more room than all the political tables combined, on the twenty-six foot "free-speech" strip in front of Berkeley, Dr. Paley contended that the administration's complaint that students blocked pedestrian traffic were not creditable. The pulling of Mario Savio away from the microphone by the police was tabled.

Student Council Refuses Sponsorship Of Flight

By DON WEINGARTEN

A request by Council member, Janis Lubawsky, that Student Government co-sponsor a flight was turned down by SC last night on grounds that Miss Lubawsky was receiving a "kick-back" for the flight.

It was pointed out at the meeting which was primarily devoted to fee allocations, that she would receive $5 for each person signed up for the trip and a free flight for every 15 persons. Miss Lubawsky had asked for on-campus publicity rights.

The remainder of SG's action on the budget will be taken at a special mid-semester meeting.

$2,500 To HPA

Major allocations so far approved include $3,500 for House Plan Association (HPA), including $1,900 for Leadership Training, 160 students are expected to participate in this activity.

Amounts of $540 each were allocated to HAPA's College House, $5,540 for one or two general elections. All people are asked to assemble in Room 336 of the Administration.

At-Large Victor Announced

The pulling of Mario Savio away from the microphone by the police was tabled.

Apts. Available To Students Here

In an effort to foster racial balance in the Manhattanville Houses, the Inter-group Relations Committee (IRC) of the Manhattanville Town Council is offering an opportunity for students to apply for apartments there.

Apartments in the Manhattanville Houses, which are located from 125th Street to 133rd Street, are between New York Avenue and Broadway. There are a variety of rooms, such as the Pink and Green, and a color of room can be chosen by the student.

The IRC has received a promise from a Housing Authority official, William R. Valentine, that red tape would be cut on all applications that would help to achieve racial balance in the projects. An educational brochure on the merits of living in Manhattanville is being prepared, and a list of eligible applicants is being formulated by the IRC.

An educational brochure on the merits of living in Manhattanville is being prepared, and a list of eligible applicants is being formulated by the IRC.

Two years residence in New York State, and a maximum annual income of $5,540 for one or two persons, or $8,340 for three to four persons are the requirements for residence in the Manhattanville Houses.

Racial balance in housing must be achieved, said the IRC Chairman, Mr. Brown, because "in the

The frenzy which has accompanied discussion of that hard perennial, the "students as students" clause, of the Student Government constitution, has obscured the larger question of whether we should have a student government at all. We are debating the extent of Student Government's jurisdiction without understanding the constraints within which they must operate. Without that understanding, we cannot fairly examine the question of whether the students are served by the current system.

Institutions exist to solve problems; they represent collective solutions to problems which are insoluble by individual action alone. Any legitimate system of student government, therefore, requires that the students who cannot help themselves, to satisfy their demands without understanding the constraints within which they must operate. Without that understanding, we cannot fairly examine the question of whether the students are served by the current system.

Anastatasie. "We are talking to the faculty and to school officials, declaring that there is no immediate plans, continued the faculty, is upset. He declared that there was a "general feeling that substantial progress has been made" at the University. Both the city's newspapers had commented on the faculty's handling of the situation, he added.

Kerr attends Press Conference
Concerning the secret meeting of the faculty, he said that there was a "general feeling that substantial progress has been made" at the University. Both the city's newspapers had commented on the faculty's handling of the situation, he added.

Peter Vogel, opposed by Mike Bromberg, won the vote for recording Secretary. Enid Levinson held the office this semester. Kathy Marino, running unopposed, will succeed Barry Feinberg as Corresponding Secretary. Delegates from thirty fraternalities and sororities voted in the election.

to the Editor

To the Editor

I am writing to you in protest against the current American political system.

We have neither the resources nor the desire to join the night riders and the neo-fascists in the unpleasant modernivals of a witch-hunt. As a socialist group we welcome the contributions of all progressives and socialists, Communists included.

We refuse to be led around by the nose by an Establishment terrified of the progress of the youth of this country militantly condemning the dirty wars in the Congo and Vietnam, and the indifference of the military-industrial complex to the struggle of Americans who live in poverty and second-class citizenship. The DuBois Club is the largest group, and our Club calls for a full market-place of ideas.

This is just an attempt to stop this witch-hunt. As a socialist group we believe that the worst witch-hunts are those of the witch-hunters.

65 E. 45, New York

FOREST HILLS 74, N. Y.
The upcoming holiday season will be packed with pro football championships, college bowl games, and a few tackles against term papers. Amidst all this cheer and joy, the College's basketball team will face Queens College's Knights, next Tuesday night. Tip-off time is 8 PM, in Wingate Gym.

The rest of the College's teams will be idle during the Christmas Vacation. The coed will be seeking to return to the victory trail after Saturday's hard-luck loss to Wagner and to change their 2-3 record to 3-2. The Beavers will also be trying to average last year's 14-53 loss to the Knights. Last year was only the second time in seventeen decisions that Queens came out on top in a game between the. Beavers and the Knights since their rivalry began in 1949.

Queens have seven men on their squad who saw last year's action. Marty Zuehlke, a six-foot, new, has been the leader scorer on this year's team, averaging 20 points per game. Two other "little men" have been wearing shining armor for the Knights, who have compiled a 3-2 record this season. 5-foot, 11-inch Sid Resnick has averaged 14 ppg, and 5-foot, 10-inch Mark Beinart has chipped in with 10 ppg. Beinart has also been doing a good job as the team's field general. Other returning lettermen who will probably see action are Ed Derry, Fred Thaler, and Nunn Zuehlke.

Knight victories this year have come over Montclair, Stony Brook, Pratt, Hunter and Kings Point. They were nipped by Yeshiva in triple overtime, but to Adelphi, and were bombed by Hofstra.

The Lavender has played good basketball all season. Probably their worst game was the season's opener against Rutgers of Newark, and they won that game. With a little bit of luck, the Bears could have come out on top in their games with Columbia, Adelphi, and Wagner, but you can't blame Lady Luck for being so generous.

There has been nothing lucky about the play of Al Zuckerman. He has been a little less than phenomenal. The 5-foot, 9-inch junior has averaged 12.7 points per game, but you really have to see how he scores them because if extra points were awarded for effort, "Zuck" would be averaging twice as much.

Added Height

By JERRY HOENIG

When basketball season began earlier this Fall, the College's basketball coach, Dave Polansky, knew he had to fill the holes in his squad caused by the graduations of Alex Blatt and Steve Golden, in June. He also knew that he would be getting his material from last year's freshmen, sophomores and juniors.

What he did not know was that a six-foot, six-inch junior would all of a sudden develop into the team's leading scorer.

During his first two-and-a-half years at the College, Eisenman attended the Baruch School. He did not go out for the team because he thought that the length of the practice sessions would interfere with his school work. This semester he transferred up north, and he switched his major to civil engineering, a change made possible by the introduction of the academic team.

For some strange reason, he thinks that now that he is an engineering major he will have enough time to be on the team. Moreover many reasons he feels he can only benefit.

Eisenman neither has been on the starting team, nor has played much of the time. However, when he has played, he has shown that he has the potential of being an All-American, something that was never realized in high school.

He will have an extra half year to develop his potential. He will be eligible for one-and-a-half years after the end of this season, even though he is a junior now.

Actually he would be expected to have another two years of eligibility because this is only his first year playing, but he has been attending the College for two-and-a-half years and, as an engineer's student, is allowed only two-and-a-half years more to complete his eligibility.

It's really hard to single out one player on the Lavender squad because each game played has been the epitome of team effort. Center Bob Kimmerson deserves special note. His rebounding has been great.

Bob Kissman deserves special note. His rebounding has been great.
