Committee Affirms Narcotics Policy; General Faculty to Vote on Report

A policy statement on drug use at the College, already described as both "commendable" and "intentionally vague", will be submitted to the General Faculty this afternoon.

The report of the President's Committee on Drug Usage, which proposes the prohibition of "selling, purchasing, possesing or using illegal drugs" on campus, is largerly a restatement of current College policy.

The report recommends that

President Gallagher Calls Report "Helpful"

violators of the ban of drugs on campus "be subject to disciplinary action up to and including expulsion or dismissal."

However, the 16-member Committee, which is composed of students, faculty members, and administrative staff, (appointed by President Buell G. Gallagher because of their professional or personal interest in drug use and abuse) stated in its report that the College should "not necessarily act against an individual convicted for a drug offense by the courts," but "reserve the right to act upon any violation of its own rules."

A member of the Committee,

the president this morning held

still want to ask him," Prof. Bier-

The Committee is accepting

comments on the report before

"There are questions which I

to "clarify" the statement.

man explained.

Gallagher Gives Cryptic Letter On Campus Governance Aims

After three months of a meeting between himself and silence. President Buell G. Gallagher has sent a fourpage statement to the chairman of the Committee of 17 "which gives my reactions to the problem of devising a

lege would take no action against a student who is convicted of a drug offense off campus, "in a case where a student is a citizen but not a student." The work of the Committee has already been read by Dr. Gal-

Dr. Harry Meisel, (Department of

Student Personnel and Services),

said that this would probably be

interpreted to mean that the Col-

lagher, who called it "intelligent, restrained and commendable." He declined further comment, except to say it will be "helpful." He would not say in what way it would bê helpful, or to whom.

According to Dr. Meisel, a major difference from the current policy, a copy of which was mailed to each student along with registration and health insurance information during the summer, is in the introduction, where the policy on release of information to "outside" authorities is defined.

The report states that information from the disciplinary files should not be available to persons other than President Gallagher, the academic deans. and the professional staff of DSPS unless authorized by the student or under court order.

"This was implied, but never stated before," Dr. Meisel said. "The strength of the statement is in the introducction."

Joe Eaton, Vice-President of Evening Session Student Government and a member of the Committee. was critical of both the Committee and the report.

"It was probably made to be specifically vague," he said, "there are no specific punishments for specific crimes in it."

Eaton, who said he is in favor of the College "simply ignoring" the laws concerning drugs, feels that the Committee took the easy way out by issuing

McCarthy + Kennedy = Controversy

By JONNY NEUMANN

In the strange political contest between two often called "idealistic" peace candidates - Eugene McCarthy and Robert Kennedy --- students are taking staunch opposing stands, often forgetting that they basically agree. But what seems even odder is that both sides

usually use the same arguments against each other.

The large majority of the 'liberal' student body is supporting Senator McCarthy.

"McCarthy, of course!" Why? "He did it first!"

Opportunist

But there are some, not many, who see the New York Senator as the better candidate.

"Kennedy has stood almost alone, speaking out on the big issues for the last two years. Where was McCarthy then?"

"Kennedy has always opposed Johnson and the war. I think that the opportunist was Senator Mc-Carthy who jumped in when he saw the vacuum."

But both sides agree on at least one proposition: Johnson must go. Beyond the common disdain of the incumbent President, however, most students, like many others in the nation, have ignored

And it's that plain; the issues have lost importance.

"The way Kennedy used Mc--Carthy - I just can't trust him."

"I don't know about him," commented one student skeptical of Kennedy.

It is clear that students have greater respect for the older Senator. They feel McCarthy is a "géntleman" and not a politician. But, if the Senator is a good and honest gentleman, should his humility alone qualify him as a candidate for the presidency?

Vietnam. But they don't know how. Kennedy supporters are

"Actually, McCarthy's only plan is to stop the bombing and hope," said one pro-Kennedy student. "He hasn't mentioned a de-escalation of ground troops or negotia-

skeptical.

(Continued on Page 3)

the major issues.

McCarthy Unknown

Most students know very little about the fifty-two year old candidate from Minnesota.

Where does McCarthy stand on civil rights? What are his proposals to end the war? The answers are vague:

"He is an honest man." Why? "He spoke out." What did he say?

"He's against the war." Did you ever hear him speak before last December?

The feeling is that McCartly can be trusted; Kennedy cannot.

OPology ...

The box, 'Dirty Pool,' which appeared in last issue was factually incorrect. The area referred to in the quote is not the Wingate Pool, and students who swam in the pool are not in danger of disease. Observation Post regrets the error.

Sen, Robert F. Kennedy The Practical Choice?

Apparently most students feel it should.

"I'll stick with McCarthy all the way," one senior at the College commented. "He's the best man there is."

"I'd like to see McCarthy in the White House. It would just make me feel better."

Military Mess

Students are confident that Senator McCarthy would, as President, unleash the United States from the military mess in

satisfactory procedure for campus governance."

The statement does not comment directly on the Committee's recommending changes in the College's administrative procedures.

After detailing five alternate "analogs" or models of possible procedures, and rejecting all five, the president wrote that "devices which divide us, establish counter-vailing checks and balances and hostile camps are to be discouraged."

Dr. Gallagher indicated Tuesday that the members of the committee would understand any implied criticisms of the report which his statement might contain.

The Committee's report calls for faculty and student senates which would direct the Administration.

The Committee's chairman, Professor Arthur Bierman (Physics) reserved comment until after issuing a final report later in the a restatement of the College's semester. (Continued on Page 3)

Council Rejects Peace Strike

Student Council last night refused to endorse the April 26 international student-faculty strike against the war. racism. and the draft.

Proposed by Councilman-at-Large Fergus Bordewich and former SG Secretary Tom Friedman. The same motiin was passed a week ago, by a vote of 10-7, but it was introduced again, because SG President Joe Korn voted then "yes, with intent to reconsider." It was defeated yesterday, 8-10-1.

Korn criticized the strike as "poorly motivated" because it is allegedly based on "a whole mess of issues." He also claimed that the demands, particularly the one that calls for "self-determination for Vietnam and Black America,"

SG President Joe Korn **Poorly Motivated**

are too "vague."

A rally supporting the strike will be held in front of the Administration Building today at 11:55 PM.

Drug Abuse

A committee composed of administrators, faculty and students will present their report on the College's drug policy to the General Faculty this afternoon.

Indications are that it will be adopted.

Which is to say that the College will have a drug policy that is mealy-mouthed and miasmic.

For example, the report sympathetically recognizes that criminal penalties for the use of marijuana are excessively harsh. Having come to this stunning realization, the report recommends that the College sit by and do nothing.

It is true that academic inquiry entails calm and reasoned appraisal. But such appraisals imply decision. And decision implies commitment.

Thus, a committee which has come to a conclusion about an important aspect of a serious problem recommends an attitude of "that's too bad."

And that is too bad.

But there is more.

Having recognized penalties are excessive, the report reccommends that the College reserve the perogative of adding to those penalties - not excluding, as the terminology goes, expulsion.

And that is incredible.

And while the committee does say that the College's records will be made available to outside agencies only under legal compulsion, it does not add the corollary that some means must be established to prevent snooping by these agencies on campus. This is what happened in Stony Brook, to the great embarassment of that administration.

OP Review

Technics Improve in Spring oncerts

Bill Needleman

The College's Music Department presented its first two concerts in the Spring Concert Series, on February 29, and March 7, offering works of Schubert, Brahms, and Faure. The performers in the chamber works were Professors Felix Galimir, violin; Jack Sha-

piro, viola: Otto Deri, cello: and Fritz Jahoda, piano.

The first program was Schubert's String Trio No. 2 in Bflat Major. The composition is brisk, lively, and has a very Haydnesque sound to it.

Although the performance was technically accurate, it was somewhat lacking in spontaneity. Tempi tended to be deliberate, phrasing was overly meticulous, and dynamics were often underplayed. In parts, the tonal balance between 'the instruments was imperfect, the violin and viola overpowering the cello line. The performance as a whole, sounded contrived and studied rather than free flowing.

The other work presented was the Brahms Piano Quartet in G minor. When Professor Jahoda came on stage to join his colleagues, he seemed to bring with him a remedy for the shortcomings of the Schubert performance. The Brahms was played with dash and abandon, and was given a grand, romantic reading. Tech-

writes first time.

Despite

nical hazards were tossed off with ease. The blend of sonorities of the instruments worked to produce rich, beautiful, and voluminous tones. The slow movement was treated with delicate dynamic nuance, and crystalline clarity of tone.

The performance reached a peak in the last movement, in which the quartet emphasized the gypsy flavor and vitality of the music. This was a full-blooded rendering of Brahms in which all the stops were pulled out.

The second concert began with a group of Faure songs presented by Constantine Cassolas, tenor. Mr. Cassolas is a fine artist but he was hindered by vocal limitations. His voice has a mellow sound but tends to become constricted and pushed at the top of its range. It is a small voice that is well used.

Today, chamber works of Haydn, Bach, and Schubert will be presented. The concert will be in the Jerome K. Aronow Hall at 12:30 PM.

It is a sad thing to tell a committee that it has labored six weeks in vain. But it must be done. It is to be hoped that students who care will ask to address the General Faculty when it meets this afternoon.

Blood Bank Faces Insolvency

The College Blood Bank ated if the Blood Bank does not needs donors urgently in order to continue its services.

Last semester only 127 pints were donated, compared to the 250 pints needed. As a result, the Red Cross, which has provided the Blood Bank with professional services and facilities for the storing of blood, is threatening to discontinue its assistance.

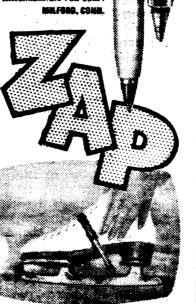

The Blood Bank provides blood for students, faculty, and their immediate families free of charge. But the service will be terminrecruit more donors.

Only one third of those who sign up actually donate blood. Before blood is accepted the prospective donor is subjected to a physical examination which determines if he is able to donate blood.

Due to its immediate shortage, the Blood Bank has extended recruitment another week. Those who wish to donate blood may sign up in Room 119 Finley, before Thursday, March 28, which will be the last day of donation. -Martínez

Another Kennedy supporter pointed out that the present Mc-Carthy platform is "almost identical to that of Johnson in '64." He fears that McCarthy, if elected, would be pressured into continuing the war effort.

But McCarthy supporters fear that Kennedy would be a worse president.

"I just have an innate dislike for Kennedy," one student commented. "He would make an ugly president."

"McCarthy has the guts; Kennedy has gall. McCarthy would be the better leader."

"I really don't know who Mc-Carthy is; but I hate Kennedy. I'm with McCarthy all the way." "I do not like Kennedy."

And it is all that simple. Students do not trust Kennedy, they don't trust any politician.

Some students feel that the idealism could be dangerous: in the end, the clash between Mc-Carthy and Kennedy could give the nomination to the President.

Difficult Choice

Students realize that it is very difficult to chose.

The man to lead the nation for the next four years. And, after three years of painful struggle against the Johnson Administration, students can not afford to forget the issues to make personality judgments.

Most students see the ultimate necessity of solidarity.

"I'll stay with McCarthy as far as he can go, but then I'll campaign for Kennedy," one student

"I guess I'll support Kennedy, when it comes to that," added another McCarthy backer.

"Realistically"

"Idealistically, I'm for McCartry all the way ... but realistically - I'll have to take Kennedy," remarked one student, reflecting the general College mood. Perhaps the perfect candidate

would be "McKennedy," a senior

Lavender Nine Sticks to the Rule; **Cheery Atmosphere Spells Reward**

(Firt of a Two-part Series) By ALAN SCHNUR

In the past few years, New York's professional sport clubs have experienced a noticeable reversal of fortunes. The Rangers, Knickerbockers, and Jets have gone from the bottom of their leagues to the top or at least to contender status. On the other hand, the

Yankees and Giants have dropped from the top of their leagues to mediocrity.

Page 4

Only the Mets remain unaffected by the trend, but they have always been in a class by themselves.

When applied to the College's teams, the rule should stand up. The basketball team has gone from the top to the bottom and this spring the baseball team should rise from the bottom of their league to the top.

For the last few seasons the Baseball team has been a prominent loser. Last year their record was four wins, and nine losses, and one tie - the usual sub .500 percentage of recent years.

The reverse rule started taking effect in the fall when the diamondmen finished their exhibition schedule with a 5-3 record,

Frosh Lacrosse Needs New Men

The College's freshman lacrosse team is in trouble --trouble which only a sudden outpouring of manpower can help.

We've got more games than we do players," Seymore Karlin, the team's coach said, "we have our biggest schedule in years and not enough.players."

Karlin's arithmetic may be somewhat off, but his headcount isn't. With only two weeks to go before the squad's first of seven games on April 6, Karlin has eight frosh stickmen, two less than the minimum number required to play a game. So the team has gone on a recruiting drive to draw freshmen to their 4-6 PM daily practices in Lewisohn Stadium.

"We don't expect the kids to know anything about the game," varsity coach George Baron said. "All of our all-Americans in the past didn't know anything about the game when they starteđ.**

Baron, whose varsity squad compiled a creditable 8-2 won-lost record last season figures that

including a victory over powerful St. John's. After years of darkness, the Beavers can look forward to a bright spring.

The attitude on the team is completely different from last year's. Last spring the team tramped through a dismal season with a defeatist attitude. The atmosphere in locker room is now one of optimism rather than defeat as the team showed it could win in the fall. The diamondmen feel that they can defeat any other team in the tough Metropolitan Collegiate Baseball conference. The difference in mental attitude off the field would be enough to create a difference in play even if there wasn't any added performance on the field. (To Be Continued)

Knel: A Different Quality

By JOEL-PHILIPPE DREYFUSS

Parrierettes Defeated

The College's women's fencing team brought its record to three wins and two defeats by losing to Montclair State College by a score of 9-7 at Park gym on Monday.

Nelda Latham won all four of her bouts to bring her season record to 20-1. Adrienne Hamalian won two and lost two, Melanie Ross was 1-3, while Carol Marcus lost all four of her bouts.

The Parrierettes led 5 bouts to three at the halfway point in the match, but a poor second half made the difference.

Nimrods Take 3rd in Sectionals As Feit Shoots High of 295

The College's rifle team finished the Conventional Sectionals at the Lewisohn Stadium range on Saturday with mixed emotions. They had taken four out of the top five places in the individual com-

petition in the morning, but

then lost to Army in the team competition held in the afternoon.

The College's Alan Feit shot a score of 295 on the conventional targets which are a little larger than the more normally used international targets. Last year the same score would have placed him in the for third in the country, so Coach Jerry Uretzky hopes that Feit will finish at least the top ten this year. Placing third was Paul Kanciruk with a 292. Frank Yones also shot a 292, but was fourth because Kanciruk's bullet holes were closer to the center of the targets. Nick Buchholz finished fifth with a 291.

The team completely fell apart though in the team competition. as none of the four could hit above the 290 mark. The Beavers' team finished with a score of 1044, placing third behind two Army squads.

Richie Knel After Four Years

ny Clifton found the touch that had been missing for two years. The substitute role fitted Knel's style. Barry Eisemann and Keizer took care of the rebounds Mike Pearl played the magician and Pat Vallance played the tough man.

Richie's job, when he got in, was simple — shoot! He would come off the bench and shoot fantastic percentages: four of four, five of six, seven of eight. They weren't cheap shots, either. Then Polansky made him move in closer, into the pattern. His range was now 25 or 30 feet, and Knell was doing what came naturally.

the team leader, a rebounder, and in his words, "a steadying influence." No mention was made of shooting. His position in the pattern offense led to driving layups and passing.

In the early, dismal part of the season, Knel was doing it all. He was near the 20-point-per-game mark and doing everything else as well. But the word got around the scouting circles and defenses keyed on the six-footer. His high scoring career ended right there.

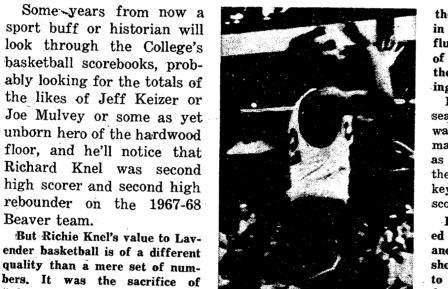

Instead, he suddenly developed into a fierce defensive played and rebounder. And he wasn't shooting. It seemed almost tragic to see him take the ball in the forecourt, hesitate as he fought the natural instinct and achieved his personal victory. He passed off.

What's in the future? Knel says he has a chance to play on an amateur team in New York with Columbia ex-star Stan Felsinger, Zuckerman and others, but he is trying to concentrate on his studies.

Don't believe him. If you've seen the look on Knel's face when he has a ball and there's a hoop you know he'll be taking the shot.
