OCTOBER 6, 1910.

No. 3.

Seven Hundred Thousand Dollars.

IN 1905, the number of students attending our College was 562. Registration statistics of the current year show an enrollment of nearly 1,300. In five years, therefore, there has been an increase in our size of considerably more than 100 per cent. This is but one of the many interesting revelations of our portion of the Budget Exhibit, now open to the general public at 320 Broadway. Representing the size of our new buildings contrasted with the proportions of the old moss-covered structure down-town, is a novel pencil sketch by Mr. Neus showing the "chapel" by the side of the new group, and giving these figures: Cubical contents of the old building 1,152,000 cubic feet, of the new buildings 9,851,000 cubic feet; floor space of the old building 70,600 square feet, of the new, 535,000 square feet; total number of square feet of grounds at Twenty-third Street 40,000, at Convent Avenue, 381,000.

Hanging immediately beneath this sketch is what is called a "phantom" view of the buildings showing upon close inspection the locations of the various departments, laboratories, lecture halls, museums, offices, and so forth, while at a distance, one can see just the group of five buildings, not alone in outline, but also in external decoration and design.

The several departments are represented by specimens of the students' work, examination papers, and explanatory bulletins. What, however, will be of most interest to all of us, is the large chart setting forth our monetary needs for 1911. It is estimated that for instructional expenses, the College will require \$537,368.32. For ad-

Seven Hundred Thousand Dollars.

IN 1905, the number of students attending our College was 562. Registration statistics of the current year show an enrollment of nearly 1,300. In five years, therefore, there has been an increase in our size of considerably more than 100 per cent. This is but one of the many interesting revelations of our portion of the Budget Exhibit, now open to the general public at 320 Broadway. Representing the size of our new buildings contrasted with the proportions of the old moss-covered structure down-town, is a novel pencil sketch by Mr. Neus showing the "chapel" by the side of the new group, and giving these figures: Cubical contents of the old building 1,152,000 cubic feet, of the new buildings 9,851,000 cubic feet; floor space of the old building 70,600 square feet, of the new, 535,000 square feet; total number of square feet of grounds at Twenty-third Street 40,000, at Convent Avenue, 381,000.

Hanging immediately beneath this sketch is what is called a "phantom" view of the buildings showing upon close inspection the locations of the various departments, laboratories, lecture halls, museums, offices, and so forth, while at a distance, one can see just the group of five buildings, not alone in outline, but also in external decoration and design.

The several departments are represented by specimens of the students' work, examination papers, and explanatory bulletins. What, however, will be of most interest to all of us, is the large chart setting forth our monetary needs for 1911. It is estimated that for instructional expenses, the College will require \$537,368.32. For ad-

ministration, the need runs to \$563,039.32, while the items for supervision and operation amount to \$136,781.56. The total estimate for 1911 is \$699,820.88, an increase of \$80,258.06 over the total allowance for 1910. Seventy-five per cent. of this increase is due to a jump of \$59,340 for instructional expenses.

The Three R's.

The officers of the Student Council elected at last Friday's meeting are President Lorenz Reich, Jr., February '11; vice-president, Stephen K. Rapp, June '11; secretary-treasurer, Louis M. Ruderman, February '12. Important acts of the Council were the adoption of a "charter" governing the publication of *Microcosms*, and the re-election of Dr. Robinson and Mr. Coleman as Faculty Advisors of the 1912 *Microcosm* board.

Our New Professor.

Prof. H. A. Overstreet, our new Professor of Philosophy, has written many critical papers which rank him among the foremost of the younger philosophers in this country. The following are some of his better known works: "The Basal Principle of Truth Evaluation," "The Philosophical Significance of Charles Darwin," and "The Dialectic of Plotinus." He has also a high repute as a teacher, and is a man of great personal charm.

In Brief.

Monday, a week ago, President Finley's family sailed for Europe.

Last Tuesday afternoon, the College was visited by Rev. Peter Z. Easton, '65, who is a missionary at Tabriz, Persia.

A meeting of the Associate Alumni will be held on the evening of Oct. 15 at Townsend Harris Hall.

Yes, *Mercury* 'll "come out!" Watch for the Columbus number, next Tuesday morning.

Society Activities.

With rooms thronged to the very doors and reflecting a success never before attained in the long history of these societies, Phreno and Clio held their second meetings of the term last Friday evening. Among the many interesting numbers that Phreno presented were "Mark Twain's Humor," "The Freedom of the Press," and an original short story. Among the numbers on the program of Clio were a discussion on "Psychology and the Detection of Crime," and a most interesting talk by Professor Guthrie concerning "The Opportunities Open to C. C. N. Y. Graduates in the West."

Last Friday's program of the Adelprians was a literary treat. There was a most interesting "Exposition of the Berry-Picking Industry" by Magui, and a well worked out original paper on "The Political Situation" by Gergofsky. The officers elected for the next term are Meyer Magui, president; Isidore Lewis, vice-president; Joseph Hertzstein, secretary; Hyman Schwartz, program executive. All Freshmen and Sophomores are eligible for membership.

At the first meeting of the Chemical Society, Professor Friedburg, honorary president, gave an address on the past, present and future of chemistry. The next meeting of the society will be held this Saturday at 10 A. M. All those wishing to become members should consult one of the following officers: M. Neidle, president; B. Halperin, vice-president; I. Katz, secretary, or the executive committee, consisting of H. Cief and C. Rosenberg.

The Zionist Society is collecting a number of pamphlets and books dealing with Zionism and Jewish Nationalism. It hopes to be able to put these in circulation among the students who wish to be informed on these questions. Those who desire further information apply to Mr. Alex M. Dushkin, Lower Senior Alcove.

Number 143.

The 143rd Public Organ Recital by Professor Baldwin will be given this Sunday afternoon at 4 o'clock. Among the numbers on the program are *Liebstraum* by Lemare, Rubinstein's *Kamennoi Ostrow*, and *Prelude and Fugue on the name "Bach"* by Liszt. Next Wednesday afternoon, Columbus Day, a recital will be given as usual, the program being devoted principally to the works of American composers.

Of the Faculty.

Professor Baskerville has recently published the following papers: "The Smoke Problem," "Alumni Oration at the University of Virginia" and "Ether." His work on "Qualitative Analysis," written in collaboration with Dr. Curtman, will appear shortly from the press of the McMillan Co. Our professor has been elected chairman of the New York Section of the American Chemical Society, and during the summer he served on a committee of five for the plan and scope of the Eighth International Congress of Applied Chemistry to be held in New York and Washington in 1912.

Professor Guthrie begins next week a course of twenty-eight lectures on "Methods and Means of History Study." These will be given Thursday evenings at Commercial High School.

In Brooklyn Now.

So popular have become the Extension Courses for Teachers given under Professor Duggan's direction that they are being given also in Brooklyn under the auspices of the Brooklyn Teachers' Association. This transfer was effected for the benefit of those teachers who found it impossible to make timely transit connections.

ATHLETICS.

All for "One Bone."

The "dollar scheme" is a name that is pretty well understood by most men actively interested in C. C. N. Y. athletics. This, in brief, is its content: That the fee for membership in the A. A. be \$1, and that such membership entitle members to free admission into all basketball games, track meets, swimming meets, gymnastic exhibitions, etc., held in our Gym building. If you wished to "take in" all those events and you were not a member, the cost to you would be approximately \$12—perhaps more. If you were a member under the existing fee, the cost to you would be anywhere from \$6 to \$9. Membership under this new scheme will entitle you to all of them for just \$1. Then, too, you get all the other privileges attendant upon A. A. membership, such as reductions on purchases of athletic goods, the privilege of competing in inter-collegiate and inter-class athletics, etc. All for *one bone*.

Of course this will not be a cinch for the Association to arrange. A large number of tickets must be guaranteed in order to assure the safety of the scheme. For that reason this canvas is being made. Let us know if we can come to you and say, "Here, you've made a promise; live up to it." Remember, this does not promise you the institution of the "dollar scheme." The promise is made providing you prove the feasibility of the proposition.

(Drop in A. A. Letter Box in Room 121)

If the plan is found practical by the Athletic Association,

NAME

CLASS

.....
promises to purchase a membership ticket in the Athletic Association for the sum of \$1.00, in accordance with the so-called "dollar scheme."

Of course present members, if the plan is adopted, will have to add but 60 cents to the 40 already paid. Don't let this slip you. Sign it and deposit it *at once*.

Tank Drippings.

Captain Edman of the swimming team improves with every race, and has recently negotiated 100 yards in 1.10 Keep on, "Adie," and we'll soon forget "Kid" Schmidt.

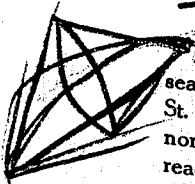

Harold Rouse, our sylph-like plunger, has entered the University of Pennsylvania. His loss will not be much felt, as Frank Mayer, the P. S. A. L. champion at the distance plunge, is now a member of the Freshman class.

Swimming practice will commence at once, and in a week or two the first of a series of inter-class meets will be held in the pool.

A feature of this year's inter-class aquatic meets will be the water polo games. Each class will be represented by a team, thus insuring a "Varsity" polo squad of at least twenty-four men.

Acting Manager Caulfield of the swimming team is ill. During his absence ex-Manager Rapp will shape the destinies of the team.

WESTON Weston, Jr's.

The Finley Walking Club had its first ramble of the season on Sunday, September 25th. Starting from the St. George ferry, the tramps meandered through the northern part of Staten Island till Midland Beach was reached. Here progress was barred by a succession of swamps and creeks, and after several duckings were experienced in attempts to cross streams, the weary wanderers retraced their footsteps, stopping on the road to devour their lunch of "dogs" and cakes. The members of the club who braved the perils of remote Richmond were M. Judelsohn, '11; E. P. Ward, '11; O. Kerpen, '11; M. Jailer. ex-'11; "Joe" Dolan, '12, and L. Goldstein, '12.

Voluntary "Gym" Periods.

The periods for voluntary attendance in the gymnasium for this term will be as follows:

Hand-Ball Courts—Daily from 10 A. M. to 5 P. M., except the fifth hours on Mondays and Thursdays. Also on Saturdays from 1 P. M. to 5 P. M.

Exercising Room—See Mr. Hurd in the Faculty Athletic Committee's room.

Exercising Hall—Daily from 12 M. to 1 P. M. Daily from 1.45 P. M. to 2.30 P. M. Mondays and Wednesdays 4.15 P. M. to 5 P. M. Tuesdays and Thursdays from 2.45 P. M. to 3.30 P. M. and from 4.15 P. M. to 5 P. M. Fridays from 2.45 to 5 P. M. Saturdays 1 P. M. to 4 P. M.

Swimming Pool—Daily 9 A. M. to 1 P. M. by appointment with Mr. Mackenzie. Daily 12 M. to 1 P. M., and 1.45 to 2.30 P. M. On Mondays, Tuesdays, Wednesdays and Thursdays from 4.15 P. M. to 5 P. M.; Fridays from 2.45 P. M. to 5 P. M. and Saturdays from 1 P. M. to 4 P. M.

The members of the Varsity Gymnastic Team met Wednesday afternoon in order to choose a captain to succeed B. Borokov, '12, who has left college. Sidney Kranz was elected to the office vacated by Borokov. Manager Freynick has issued a call for practice, which will commence Monday. So far sixteen men have reported, and everything points to a season of success, both financially and in competition, for our bar-and-mat artists.

Tennis Tournament.

Manager Storfer, of the Tennis Team, has arranged a handicap Tournament to be run at Crotona Park. The first games will be played next Saturday, October 8. New blood is needed for the team, and all newcomers will be welcomed. Hand in entries to Manager B. Storfer, 1911, H. Shapiro (1911), or Slater (1913), as soon as possible. Singles and Interclass doubles will be played, and a banner given to the winning class. Class managers, take notice.

The War of the Classes.

There is no need of apologizing to Jack London for borrowing the caption to this article, for little real *warring* is indulged in by our Freshmen and Sophomores. Each "hostile" move seems to be regulated by a specific agreement between the classes. Sophs are to haze only under this or that condition. Freshies are not to haze at all—except at their banquet. Truly has this been called a "pap" age. Time was, and in our own day, too, when the opposing hosts of Freshmen and Sophomores made things hum about the college campus.

Of course, we do not advocate a too vehement manifestation of the tiger in our lower brethren; but we must observe that rules giving almost full power of hazing to the Sophomore class, and making the lot of the Freshmen a matter of merely complying with Sophomore regulations, indicate degeneracy somewhere. The Sophs delegate to themselves the privilege of bull-dozing, kidnapping and "fathering" the lower classmen, and these seem incredibly meek in submitting with such good grace as they have evinced. The only really commendable item in the agreement between the classes is that which calls for the wearing of lavender-buttoned skull caps by the Freshmen. This restores a practice that smacks of the spirit of the good old days and certainly adds an element of distinction to our campus gatherings.

Lorenz Reich

The Bamboo Stick, Now.

Making of our college atmosphere a swill receptacle for all sorts and kinds of foreign and domesticated disease germs is a proceeding that should not be tolerated, and which by law, makes the responsible person or persons liable to arrest and punishment. An injunction should therefore be placed upon those numerous beaters of old rags, disease ridden rugs, and dirt littered carpets, who ply their germ disseminating trade under the very windows of our buildings. Throughout the day you can at almost any hour see a dozen or more "cleaners" squatting in the lot at 140th Street and Convent Avenue "beating the stuffings" (typhus, tuberculosis, diptheria, and scarlet fever bacteria) out of old cloth that the Board of Health should have condemned long ago.

The law in the case is plain enough. Steps ought to be taken promptly to put down the practice which, if it doesn't immediately threaten our health, certainly constitutes an infraction of the health code of the city. There are plenty of lots in this neighborhood that might serve the "cleaners'" purpose as well as the one right under our noses.

On Historic Ground.

President Finley spent all last week, and will probably spend the greater part of this week, in the libraries of Pittsburg and Chicago where he is completing his work on the lectures to be given at the Sorbonne. There, our President is on historic ground, for the region of the Great Lakes was the country explored by the French pioneers.

All registration cards, fully endorsed by the several departments, should have been turned into Dean Brownson's office on Monday. Students who have failed to comply with this rule make themselves liable to serious inconveniences.

Scholarship and fellowship are separable in all cases in the year but five.

BROWN

At The Polls.

Although much of our interest last week was centered on the course of events at Saratoga and Rochester, nevertheless our own world of politics created enough excitement and enthusiasm to remind one, in more respects than one, of the "landslide" up in Maine. Following are the officers elected for the present term: Class of February, 1911—Philip D. Bookstaber, president; Julius Kuschner, vice-president; John H. McBride, secretary; Murray J. Leventhal, treasurer; Morris Passloff, athletic manager; Maxwell Goldstein, marshal; Joseph J. Alexander, prophet; Alfred Duschatko, historian; Abraham Feldmam, Herman Henry, Max Osterman and Lorenz Reich, student council representatives.

June, 1911—Jacob Shapiro, president; vice-president, Isaac Perlstein; secretary, David Zuckerman; Harry Cooper, treasurer; Morris L. Jacobs, poet; M. I. Aronson, athletic manager; Richard Stern, marshal; student council representatives, George Edwards, Isidore Eisenberg, Morse S. Hirsch and Stephen K. Rapp.

February, 1912—S. Valenstein, president; W. M. Finger, vice-president; J. L. Greenberg, secretary; S. Kraft, treasurer; H. Mahon, athletic manager; H. J. Gutman, marshal; R. C. Whitford, poet; I. B. Berkson, S. E. Perlman and L. Ruderman, student council representatives.

June, 1912—President, E. Kelley; vice-president, S. Siegel; secretary, S. Miller; treasurer, B. Frumberg; athletic manager, H. Goldstein; student council representatives, M. Nadler, A. Noschkes and J. T. Shipley.

June, 1913—A. Victor, president; I. Weinstein, vice-president; M. Magui, secretary; I. Rashkin, treasurer; F. Siegel, athletic manager; B. Meyer, poet; J. Fallon, marshal; C. Nadler and J. Schiff, student council representatives.

February, 1914—H. Wolfson, president; M. Zanderer, vice-president; secretary, L. J. Goldsmith; treasurer, M. H. Benedek; athletic manager, J. Rosenfeld; student council representative, I. A. Chapman.

June, 1914—President, C. Weg; vice-president, A. Pruzan; secretary, E. Southwick; H. Caicedo, treasurer;

E. Lewin, poet; S. Bluhm, historian; J. McPherson, marshal; P. Germansky, athletic manager; E. Goldenburg, student council representative.

Physical Education.

A paper entitled "The Application of Hygiene in The College of the City of New York," written by Professor Storey, was presented before Section Two of the International Congress On School Hygiene, in Paris, on August 5th. Professor Storey has also contributed a chapter on "General Exercise" to a two volume work which will be published shortly by Dr. Robert H. Hare of Philadelphia.

Dr. Weill Honored.

Dr. Felix Weill, for many years an "Officier de l'Academie de France," has had conferred upon him the title of "Officier de l'Instruction Publique." This is the highest honor that can be conferred by the French Minister of Education, and reflects much credit upon Dr. Weill, our French "colony" and the College.

Business Manager, Room 412.

T. H. H. NEWS.

"Regents" Showing.

The recent Regent's Examinations taken by the upper "A" students of T. H. H. showed most gratifying results. In French and Latin every man passed his examination; of those who took Latin Prose, 92% succeeded; in advanced algebra, 91% passed, and in plane and spherical trigonometry, the number to pass reached 98%. Of the students who took algebra, 7% attained the mark of 100, while many more received 95 and above.

No Football?

Owing to the change of Mr. Mackenzie's schedule, he probably will be unable to coach the T. H. H. football squad. And if he does not coach it, it is also probable that T. H. H. will have no team—which would be unfortunate. Isn't it possible for "Mac" to make some other arrangements?

A. A. Officers.

Following is the result of the A. A. elections held last Friday in Townsend Harris Hall: President, L. Edwards; vice-president, H. Thomas Hyman; treasurer, G. Kallman; recording secretary, W. Webster; corresponding secretary, C. Weber.

ATHLETES!

"A" Men To Use "Gym."

Dr. Storey has given the Upper and Lower "A" classes permission to use the gymnasium on Saturday afternoons, from 1.00 to 4.00 o'clock. The north subway of the "Gym" will be used as a dressing room.

Edman, Stern, Shipley, Coughlin and all of the rest of last year's swimmers are back at college, and the squad has been strengthened by the admission to the college of several former T. H. H. amphibians.
