THE COLLEGE OF THE CITY OF NEW YORK

Vol. X.

MAY 8, 1912

No. 12

## Friday's Celebration.

**C**HARTER Day will be celebrated on Friday. The two city blocks which have been added to the physical equipment of the College and upon which will be erected an athletic field and stadium will be formally turned over to the College. At 11:45 the bells will ring and the students will proceed immediately to the Great Hall where seats will be assigned. At the conclusion of a brief exercise, the invited guests, the Faculty, the Seniors in academic costume, followed by the students of the College and of Townsend Harris Hall, will proceed in two columns to exits three and four which face on St. Nicholas Terrace. There a Scotch band will head the procession. One column will turn left and march to 140th street, to Amsterdam avenue, down to 136th street. The other will turn right and march to 138th street, to Convent avenue, down to 136th street, and up to Amsterdam avenue where it will meet the other column. At this moment everybody will hold hands forming a complete circle about the entire College including the new land. At a given signal — the ringing of the tower bell — hands will be released and the procession will adjourn to the field directly south of the gymnasium where the transfer of the land to the College will take place. A pageant of about one hundred students dressed as surveyors, laborers, athletes and actors will proceed from the gymnasium to the field to symbolize the construction of the stadium and athletic field and the uses to which they will be put. At 3:30 everybody will proceed to Olympic Field, 135th street and Madison

avenue, to witness the Faculty and Seniors engage in a struggle for baseball supremacy. Among the invited guests are Mayor Gaynor, Comptroller Prendergast, Borough President Mitchell and members of the Sinking Fund Commission, Commissioner of Parks Stover, the members of the Mayor's Advisory Committee on Parks, the representatives of various associations interested in park developments, Mr. Adolph Lewisohn who donated the money necessary to build the field and stadium, Senator Wagner '98 and Assemblyman Nelson '90 who introduced the necessary bills in the Senate and Assembly respectively, and the representatives of the Governor.

Friday, May 10th, will be one of the most momentous days in the history of the College. The addition of two city blocks to the present land of the College is an event which should awaken the pride of every undergraduate and friend of the College. No student who feels any loyalty towards his Alma Mater will be absent from any of the ceremonies which will take place on that day. The entire student body should be there "to a man." Participation in the events will make better men of us, will bind us more closely to the institution whose greatness and service is being continually increased.

#### City College First.

The excellent showing made by students of the College in the French Prize Examinations held under the auspices of the National Society of French Professors in America, reflects great credit on the French Department. Representatives from leading universities and colleges were entered in the competition. Max Sindeband and Joseph Mintzer of the College carried off the first and second prizes of honor respectively. In the "Version" Philip Lang received third prize and Rosenzweig and Mintzer received honorable mention. Sindeband took second prize in "Composition Francaise" and Mintzer received mention.

One hundred and eleven students were entered in this competition from thirteen high schools; nineteen were entered from Townsend Harris Hall. Second honor was won by a T. H. H. student, honorable mention was given to another, and these two students also won the first and second prizes in French composition. In all, thirteen prizes were won by Townsend Hall students.

## ATHLETICS.

### A. A. Election To-Morrow.

To-morrow from nine until two, the space outside the "Lost and Found" room will be crowded with candidates and voters. This year the struggle is only for three offices, but offices important enough to cause our future politicians great anxiety. All week long they have been canvassing the College for votes. To-morrow, they will be crazy in the morning, raving maniacs during the lunch period, and while the votes are being counted they will be in a state bordering upon complete exhaustion. Then comes the announcement and they get ready for the re-election, for two of the offices have three candidates apiece, and a majority vote is required for election. The election is in charge of Mitchell Cahn, "Rouge" Friedman and A. B. Thomas, a committee which will have no difficulty in keeping things in order.

Bertram Sommer has no opposition for President. Sommer has "made good" in this capacity and the A. A. is fortunate in having his services for another term. Property Manager Nussbaum, and Assistant Treasurer Sullivan have no opponents. Next year they will therefore be known as Treasurer Nussbaum and Secretary Sullivan. The big fight is for the Vice-Presidency: Sommer graduates in February, 1913 and the man we choose as vice-president to-morrow will be present from February to June, 1913. Francis R. Dieuaide, William Hasenfratz and Jerome Kohn are running for this office. The first two are on the present A. A. board and Kohn has been on the Swimming Squad. Any of the three will "make good" is our prediction. Three dark horses, all members of the 1915 class, are candidates for the office of Assistant Treasurer — Lerner, O'Connell and Summerfield. Take your pick, voters! Salzman, the present Assistant Property Man, and Hammond, a member of the track team oppose each other for the office of property man. Every member of the association should vote to-morrow. The election will result in the choosing of good men no matter what the outcome may be — but "May the best men win!"

### One Champion Team.

At last we have a championship team, that holds undisputed supremacy. Pushing one's sixteen pieces through the Ruy Lopez opening or the Sicilian defence may not involve much athletic ability, but we imagine that the brain-power involved would run dynamos for several days. Well, as you probably have assumed by this time, we have another champion chess team. Captain Eolis, and his worthy assistants Rosowsky, Lindholm, Goldman, Shipley and Hertan have won the championship of the Inter-State League for the second year running. Not content with calling a defeat of N. Y. U., and Stevens a good year's work our your Marshalls and Laskars are engaged in an inter-class tournament. At present 1912 is leading, but its old rival 1913 is only half a game behind.

---

### Tennis.

To-day our racquet wielders captained by Weisenburg '14 will endeavor to humble the '40-love" aggregation from Columbia. Among the C.C.N.Y. defenders will appear "Gus" Berman our champion diver. If "Gus" can perform as well on the tennis court as he does on the spring board, the Blue and White team will find an opponent hard to beat. Edwin Levinson '13 and Fred Goldberg '15 will also play for the Lavendar and Black, "Good Luck, fellows!" Let's hope a loyal crowd of rooters will be down at South Field this afternoon at half past three, to cheer our team on to victory.

---

### Faculty Tennis.

Not to be outdone by the students, the faculty are selecting a tennis team to play tournaments with the faculty racquet slingers of other institutions.

Positions on the singles and doubles are open to candidates. Those wishing to lend their services to the team should notify the Committee in Room 005 of the Chemistry Building immediately,—as the first tournament will probably be played May 11th.

Those of the faculty who are members already are instructors Feinberg, Hilliard, and Stevenson, and Professors Winslow and Overstreet. With that combination in action the spectators should see some classy tennis manoeuvres.

## ATHLETICS.

### A. A. Election To-Morrow.

To-morrow from nine until two, the space outside the "Lost and Found" room will be crowded with candidates and voters. Those of the faculty who are members already are instructors Feinberg, Hilliard, and Stevenson, and Professors Winslow and Overstreet. With that combination in action the spectators should see some classy tennis manoeuvres.

1913 Wins Basketball Game.

Furious at learning that 1912 was leading the Inter-class Chess Tournament, 1913's five upheld the honor of the class, and trounced the Seniors by a score of 29—20. The game was one of the fastest ever seen in an inter-class series, and the few fans present were thrilled again and again by the upper-classmen's work. Sorrin and Weirich starred for the '13 team, while Notarius and Fielding showed that the graduates know a few things about the game. The officials reversed the usual order of things. Coach Palmer refereed the game while "Rouge" Friedman coached and kept time, and "Whitey" Kaufman kept score.

This is the line-up. Every man deserves commendation for his good work.

1913		1912
Sorrin	R. F.	{Gottlieb
S. Cohen	L. E.	{Strumwasser
Weirich	C.	Notarius
A. Schapiro	R. G.	Fielding
Kaplan	L. G.	Noschkes
		Slutzker

A. A. Property to be Returned.

Property Manager, Sidney Nussbaum desires members of the Basket-ball, Swimming and Track teams to return all A. A. goods that they may have in their lockers.

Hitherto, property of the A. A. has not been returned as promptly and "fully" as might be desired. So fellows, try and "deliver the goods" as quickly as possible.

Subscribe, Now.

The editors of the *Microcosm* have ordered only a limited number of books to be printed. In order to insure the reservation of a copy subscriptions should be given immediately to Netter, the business manager. Part of the the annual is already in print and the editors hope to be able to distribute the book within three weeks.

Mr. J. T. B. Bowles, former Sanitary Engineer of the Panama Canal will deliver a lecture, "Sanitation on the Isthmus," in room 315 at nine o'clock this morning. All are invited to attend.

## A College of Commerce.

A meeting of the Chamber of Commerce, last Thursday, it was announced through Mr. A. Barton Hepburn, the retiring president, that the members had pledged themselves to the raising of a fund sufficient to provide a building for a College of Commerce on the site of the old City College building. The plan for the college of commerce is part of the general scheme of the Chamber of Commerce for increased facilities for commercial education. A year ago the chamber appointed a committee whose report strongly urged an increase of facilities in this regard, and only a few months ago a conference on commercial education was held in the chamber, attended by prominent educators. Before that conference President Finley called the attention of the committee to the availability of the old City College site for a free commercial college along the lines advocated. A committee immediately took the matter up with a view to tearing down the old building on the site and erecting a new structure

for the training of properly equipped men for domestic and international trade, and which should house not only a college of commerce, but a commercial and civic museum as well. In a previous issue of THE CAMPUS the details of the museum were set forth and the possibility of establishing a night college was suggested.

The importance to the College of this undertaking cannot be overemphasized. It means that the Chamber of Commerce, which is one of the most powerful bodies in the City, has come into co-operation with the College. Not only will the College benefit from this extension of its scope, not only will the students be given new fields to explore, but also the City will gain immeasurably from the double service which the College will now be able to render. At present it is developing a most desirable type of citizen. Soon, the College will send forth men who will combine the traits of good citizens with the ability to further the commercial interests of this vast metropolis.

---

#### Professor Werner Convalescing.

Professor Werner is recovering rapidly from his attack of appendicitis and is regaining his strength remarkably fast. Yesterday, was the first time since he was suddenly taken to the hospital for an immediate operation that Dr. Abbé permitted visitors to see him. Although he will have completely recovered within a few weeks it is doubtful whether he will resume class room work this term.

---

#### Vice and Crime.

Mr. Frederick W. Whitin, spoke last Friday on "Methods of Treating Vice and Crime in New York City," and asserted that laws are efficiently enforced only when there is a universality of public sentiment behind them. Those laws which are not supported by public opinion are dependent upon the use of force—the army and the police. He illustrated his point by quoting several cases which have come up under the operation of the present law concerning the sale of liquor. In all of these, the malefactors escaped punishment through legal technicalities.

---

Last month the entire eligible list of men teachers was exhausted by appointments made by the Board of Education. Of the fifty-eight appointments of men, twenty-nine were former students of this College.

## In Brief.

At the meeting of the Chemical Society held last Saturday, Samuel Monash '12, discussed "Petroleum and its Products," and E. Frankel '12 read a paper entitled "Synthetic Caochouc."

Dr. Moody's class in Industrial Chemistry made an excursion to the plant of the National Rubber Works at Newark, New Jersey, last Friday.

On Saturday evening, April 27, the City College Club held a symposium on "The Recall of Judges." Mr. Bernard Naumburg '94 and Professor Overstreet took opposite sides and an interesting and scholarly discussion ensued. A general debate followed in which Dr. B. M. Briggs '61, Julius Hyman '94, Magnus Groos '78 and Dr. Morris R. Cohen '00 took active part. At the recent elections the following were elected to office: President, Everett P. Wheeler '56; First Vice-President, Bernard Naumburg; Second Vice-President, Frederick C. Hobart '61; Treasurer, Robert C. Berkahn '01; Secretary, Gabriel R. Mason '03; Historian, John Hardy '53.

### Biology Notes.

The fourth semi-annual dinner of the Biological Society will be held in the General Webb Room, May 16th. Subscriptions should be tendered to Adlerbloom '12.

At the Students' Seminar, Schlesinger, '12 read a paper entitled "The Diagnosis of Cholera," and Feldstein '12, spoke on the "Chemistry and Physiology of Antipieretics."

Weekly field trips have become one of the leading activities of the Society. Last Sunday, a trip was made to Montclair Heights, New Jersey, under the direction of Dr. Goldfarb. Fresh water life in early spring was studied.

---

### Regents Examinations.

The results of the recent Regents examination in Advanced Algebra and Trigonometry are indicative of the work which the Mathematics Department of the College is doing. Of the one hundred and two men who were examined in Advanced Algebra only four failed to pass and more than one quarter of the students received marks ranging from 90 to 100 per cent. In Trigonometry five students received perfect marks and eighteen received more than ninety per cent. Especial credit is due Professors Hanaway and Pedersen, instructors in Higher Algebra and Mr. Smith who taught Trigonometry.

---

### Biometrics.

Dr. R. H. Lowie, Assistant Curator of the Department of Anthropology at the Museum of Natural History will address the members of the Biological Society to-morrow evening at 8.30 P.M., in Room 315, on the subject of "Biometrics." This important and little understood field is of intense interest to all who are conversant with the problems of experimental biology. The students and their friends are invited.

---

---

### EASY SELLING PROPOSITION.

Wanted students to do light work in leisure hours. Call Wednesday and Thursday afternoons at H. Weissberger Co., 207 E. 133rd St., after 4:30 P.M. Evenings call at S. Glick, 254 W. 129th St., or phone 2678 W. Morningside.

## General Items.

The 1913 class will held a reunion in the lunch room on Saturday evening. Practically the entire class will be present and preparations are being made to hold the most elaborate gathering the class has ever undertaken.

The annual dinner of the Evening Sessions will be held at the Hotel St. Denis, Saturday, May 18th.

At the mock Republican Convention held recently, Roosevelt received the nomination by a vote of 135 to 110 for Taft.

The Socialist Society has changed its name to the Social Science Club and will continue its activities and lectures. The society is still affiliated with the Inter-collegiate Socialist Club.

## Y. M. C. A. Entertains.

The Young Men's Christian Association at the College entertained the Student Volunteer Union in the General Webb Room last Monday evening. Mrs. President Finley and the wives of several members of the Faculty helped to make the reception of the future missionaries a pleasant one. After the reception everybody adjourned to the Great Hall to listen to several selections on the organ by Professor Baldwin.

A new constitution was adopted unanimously by the members of the Y. M. C. A., last Friday. This is the first revision which has been made in ten years.

Dr. Walsh, Dean of the Fordham Medical School will deliver a lecture before the Newman Club on "What Is the Evidence For Evolution?" this Friday evening. All are invited.
