## SAYS EMPLOYMENT BUREAU LABORS UNDER HANDICAPS

### College Lacks Interest In Its Work--- Prejudice In Business World Against City College Men

Mr. Henry Katz, Secretary of the Employment Bureau, addressed the members of the Student Council at its regular meeting last Friday afternoon and showed the handicaps under which the Bureau was laboring.

"One of the greatest difficulties with which the Employment Bureau has to contend," said he, "is the lack of interest in the College towards its efforts. This indifference even manifests itself among the students who are seeking employment thru the Bureau. The majority of the applicants have neglected to file their schedules with me, which entails more and unnecessary labor for the Bureau, and increased difficulty in obtaining employment for them. This apathy has given rise to a feeling of levity among the students in their dealings with the Employment Bureau which is entirely unwarranted. The Bureau is doing good work. Cases of undue preferment, such as were in evidence in previous years, are unknown.

"Another obstacle in the path of the Employment Bureau is the prejudice in the business world against City College men. This impediment can be only partially removed by the efforts of the Bureau. The work of dissipating this prejudice devolves mainly upon the students themselves.

"The deep interest and willingness to help shown by President Mezes and the Faculty Committee on Employment of which Professor Duggan is chairman have materially aided the Bureau, which is gradually attaining a position of some importance.

"Plans are being made for the future. I intend to have prominent business men speak at the College next Fall, so as to bring about a better mutual understanding between the business world and the College. Advance notices of Civil Service examinations will be posted conspicuously. In conjunction with these activities an active advertising campaign will be carried on."

(Continued on Page 2)

## AUTOMOBILE TIRES MADE FROM CORN

### Food Exhibit in Biology Museum Presents Interesting Side-lights on What You Eat

"Foods—"

"Oh, don't bother me. The place for foods is in the mouth and when a person's mouth is full he shouldn't talk. Foods are vulgar. It bores me to hear talk about foods."

"But do you know you can get an auto tire out of corn—plain, everyday, field corn?"

"Get out."

"Sure thing. I can show you. Come along to the Biology Museum.

"There, in little bottles, you can see the entire grains of corn, then the broken grains—grains in one bottle, hulls in another—and a whole series of sugars and syrups and oils and starches, some for eating, some for cooking, some for paints some to sweeten beer, and that heavy black stuff is to be vulcanized for auto tires.

"Or, take the cotton-seed oil. Today we have this cheap, good food; yet only a few years ago these seeds were thrown out, considered useless. In other bottles in this exhibition is cotton with the seeds, and with the seeds removed, then in two bottles the two parts of the broken seeds—hulls and kernels—finally the heavy, dirty oil that refined and further refined becomes the mild, excellent food.

"There is a certain measure known to all engineers, the unit measure of heat, called the calorie. For many purposes and from many points of view the human body is a machine—particularly because of the fact that the body must have fuel so that heat may be generated. The food we eat is the fuel for our body machine. And an ordinary man at moderate work requires each day fuel to produce 3000 calories. It is most important to know that the foods we buy in grocery, butcher-shop and from the fruiterer's stand are not of equal value as fuel. This is not the sole consideration. Other matters must be reckoned with—digestibility, kinds and proportions of

food-stuffs and the mineral content of foods; but calories are a good start from which to consider foods. So, you can turn from the bottles already hastily described to others that contain 100-calorie portions of food. They offer a most interesting progression from the large jars with their bulk of tomatoes and radishes to the bottles with the dash of peanut butter and orange marmalade. Orange marmalade is good food, and tastes good. These specimens, carefully weighed and arranged, are the work of Prof. Wilson of Hunter College.

"Nor is this all. There are numerous pictures of these same shops showing the successful efforts put forth by honest, law-abiding dealers to meet the educative work of food inspectors. This work was done a year or so ago thru the initiative of Miss Laura A. Cauble of the Association for Improving the Conditions of the Poor. She went about inspecting shops for this private institution till she saw the necessity of authority. An inspector was then assigned to her by Commissioner Lederle. Shop after shop was inspected. Evil conditions were discovered and brought to the attention of the shop-keeper. In a short time the places were reinspected. So tactfully had the inspecting been done and the directions given that the transformation in the district, 59th to 79th Streets, Third Avenue to East River, was little short of wonderful. And in this exhibit to illustrate the right way of caring for foods are ice-boxes, baskets, and show-cases.

"This exhibit has been gotten together by Miss Cauble.

"Foods—if you get them right, they're fascinating. Look the exhibit over and see why."

*Continued from Page 1.*

Mr. Katz then asked the Council to help the Bureau. A committee of five, Meyrowitz, '15, chairman; was appointed to cooperate with the Bureau.

#### **Eighty Dollars Pledged to Book Store**

The Book Store Committee, consisting of David H. Cohen, '16, and Henry Harap, '16, discussed the work done towards the establishment of the Student Book Store. To show the Faculty Committee which is considering the proposition the student sentiment in favor of the Book Store, the Committee collected eighty dollars from the students in pledges within four hours. This sum consisted of one-dollar loans

payable January 1st, 1916. The present incumbent of the book stand has made an itemized report of his financial status, and with this as a basis the Committee is able to prophesy that the Book Store will be a profitable undertaking. The following tentative plans have been formulated for the management and maintenance of the enterprise:

A committee of two students and one professor who will act as treasurer will be formed. They will have complete control of the Book Store. One hundred dollars will be collected, twenty-five from the Council and the rest from the students. The present incumbent will be retained as manager with a salary. A certain sum will be retained either in stock or cash, and the surplus will be divided in half, part to go to the Council and the rest to the treasury of the Committee.

These tentative plans will probably be accepted by the Faculty Committee to whom they must be submitted for approval.

The Council unanimously voted in favor of the project.

#### **Feb. '15 Meets at City College**

##### **Club and Elects Officers**

The class of February, 1915 met at the City College Club, 302 Madison Avenue on Sunday, April 18th.

In the elections for the coming year, Gabriel Youngwitz was unanimously chosen President, Charles Planick was elected Vice-President, Ferris Waring, permanent Secretary, and Leon Regard, Treasurer. The new organization numbers one hundred.

It was announced that "Gym-Jams" netted \$73.55 and that the "Hop" reaped a profit of \$21.70.

A new class constitution was read and adopted.

#### **Morris H. S. Association To**

##### **Give Concert and Dance—Mayor**

##### **Among Prominent Guests**

The Morris High School Association will give a Concert and Dance at the Bronx Church House, Fulton Avenue and 171st Street, on Monday, May 3rd at 8.15 P. M. for the benefit of needy students. Among the invited guests are Mayor Mitchell and Douglas Mathewson, President of Bronx Boro. Several prominent film artists will attend.

Those interested may see Macdonald, '17, for tickets which are twenty-five cents each.

**C. C. N. Y. RELAY TEAM  
BREAKS RECORD AT PENN**

**Jimmy Moonan Races Home With A Good  
Fifteen Yard Lead—Quartet Wins in,  
3:35:3-5**

On Saturday, April 24th, at the 21st Annual Penn Relay Carnival, the City College team easily took first place in their heat, winning their race in the fast time of 3:35:3-5, creating a new record for their class. The best previous time was 3:36:2-5. Last year the mile was covered in 3:47.

"Dutch" Schaeffer was the first man off. He had the inside position but lost at the start, a Stevens man jumping in front of him. Half way around the track "Dutch" was pocketed and lost a second or two. He ran well.

"Petit" Ben Margolis snatched the baton from Schaeffer and proceeded to lessen the space between himself and his leader. It was left to "Jerry" Vriens, however, to leave them all behind. Jerry ran a great race.

"Jimmy" Moonan widened the lead already gained and easily finished fifteen yards in front of his nearest opponent.

Stevens Institute came in second, Drexel, third, and Temple University fourth. C. C. N. Y. also won first place in last year's races.

Besides receiving gold watches individually, the College's athletic representation brings the College a banner.

Other record performances in the class relays were made, by Lehigh University and Holy Cross. Lehigh's four did the mile in 3:31:4-5 and Holy Cross did exceptionally well, her quartet covering the ground in 3:26:4-5. Both these colleges were in better classes than the Lavender and Black team.

In 1895 City College won first place in their class winning in 3:55:1-5.

In 1896 the College won again in 3:4. This makes the fourth time City College has won in their class, but this year, was the first time they broke a record for the mile. According to Schaeffer the time this year was much better than "was" expected.

**A Matter of Taste**

Johann—Did you call me a liar?

Henri—Not at all! I merely remarked that the sinosity of your ultimate conclusion was due to a superficial succedaneum of the veracious reality. Have a Fatima.—Punch Bowl.

**Test Mississippi Anti-Frat Law**

The constitutionality of the Mississippi Anti-Fraternity law was urged in a brief filed last week in the Supreme Court by attorneys of the University of Mississippi. A member of Kappa Sigma seeks to enjoin the officials of the University from enforcing the law excluding from the institution those affiliated with Greek letter societies. The case will be argued before the court in a few weeks. The matter is attracting the interest of many colleges as they may be materially affected by the decision.

**Only Four Chosen in P. S. Trials**

Prize Speaking trials for the Drummond Prize, held last Friday eliminated all but four of the contestants. The four chosen are: Brown, Edelman, Grablowsky, and B. Kaplan.

Ordinarily six men are chosen. However Professor Palmer has ruled that if there are not six men really competent and worthy in this competition, he will refuse to choose the full six. Accordingly, last year five men were selected and this year only four.

**Italian Club Plans Play**

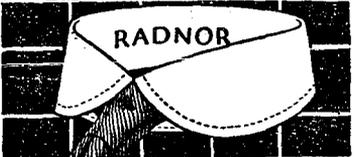

The Circolo Dante is planning to give a play in conjunction with the Italian Club of Hunter College on May 22nd at Terrace Garden.

The play is a two-act comedy entitled "L'Oro e L'Orpello." An informal dance will follow the performance.

**N. Y. U. Offers Business Fellowships**

Many business fellowships are offered by New York University for College students. Those interested should apply to Prof. Jenks at N. Y. U.

**RADNOR**

**THE NEW  
ARROW  
COLLAR**

260 WORDS PER MINUTE  
BY STICK '15

**Amateur Champion Shorthand Writer Gives Demonstration at Bushwick and Julia Richman High Schools**

Speeding along at 260 words per minute, Herman Stich, '15, gave a demonstration of stenographic ability that evoked continued applause at Bushwick and Julia Richman High Schools.

On March 26th the following letter was received by Isaac Pitman & Sons: Julia Richman High School.  
March 15, 1915.

Messrs. Isaac Pitman & Sons,  
5 West 45th Street,  
City.

Gentlemen:

We should like to have a champion shorthand writer give a demonstration in our lower assembly. Do you know of any such person who will be able to come? If so we should like to have either him or her give this demonstration on Monday, April 26th at 9 A. M.

The stenographer will have about twenty minutes in which to show our girls how fast an expert can write.

Very truly yours,  
*Rose Adelaide Levy.*

The concern recommended Stich as an expert. On the 14th he gave a demonstration before the assembled students of the Bushwick High School.

He will address the New York Stenographic Association on May 8th.

**Richmond Hill Alumni From Club**

Through the kind assistance of Professor Palmer, graduates of the Richmond Hill High School at the College have formed a club for the purpose of cherishing a memory of their school and promoting a better knowledge of C. C. N. Y. in Richmond Hill.

The officers are, Fiedler, '16, President, and Colbeth, '17, Secretary.

**D. V. Holds Theatre Party**

The Deutscher Verein and the students of German 11 attended the gala performance of Goethe's "Egmont," given by the Deutsches Theatre Stock Company at the Metropolitan Opera House last Tuesday evening.

Several members of the German Department were also present.

**Mirth Flows at Students' Kommers**

"A jolly old German time," is the unanimous dictum of those who attended the Students' Kommers of the Deutscher Verein last Saturday. Dr. De Walsh presided over the gathering.

**Student Speaks on Submarines**

At the meeting of the Engineering Society held last Thursday, Trigger, '15, spoke on "Submarines—Diving Bells, Caissons, Their Construction and Uses." Welke, '15, delivered an instructive report on "Alternating Current Rectifiers."

A trip to the Brooklyn Navy Yard was arranged for Saturday. Students who wish to join the members of the Society in interesting discussions and trips are welcomed at meetings held every other Thursday. The dates and programs are posted on the Engineering Society Bulletin Board.

**Excursionists Will View**

**Battleships From Steamer "Albion"**

An opportunity to view the warships of the Atlantic Squadron which are soon to be stationed in the North River will be offered on the excursion to Bear Mountain under the auspices of the Y. M. C. A.

Don't forget that the 'Varsity goes along and plays Brooklyn College on the grounds, and that boating and swimming is very inviting at Highland.

Tickets are procurable in THE CAMPUS office.

**"Standards of Criticism"**

The first step of the Clonina Literary Society in a series of criticisms on literary topics was taken at the last meeting when Bertram D. Wolff gave an enlightening talk on "Standards of Criticism in Poetry."

**MURAD**  
THE TURKISH CIGARETTE

Last year more MURADS were smoked than any other 15c Turkish cigarette in the world.

## PRINCETON IDEAL IS

## BRUNETTE HELEN

Twenty-Two Per Cents of Graduating Class Have No Sweetheart in Sight and Blame the Girls

PRINCETON, N. J., Saturday.—Moving pictures, blue eyed girls of the brunette type, and the ability to loaf intelligently are cited as some of the most popular ideals of the Princeton University students in the annual compilation called "Senior Statistics." The seniors, who perpetrate this publication, in the serious parts of the pamphlet say that four per cent of the class is wholly self-supporting, while twenty per cent supports themselves partly. The average expense of education, as given by the figures submitted, was \$3,850.

Suggestions were made by the graduating members that if they had their say in the Princeton curriculum they would recommend making extra entrance requirements more difficult, abolition of the compulsory chapel, extension of the honor system, abolition of the whole club system. The statistics show that the moving pictures have come into strong popularity, and that the stage is declining, but that Shakespeare goes on forever in the hearts of the students.

Relating to girls, twenty-two per cent of the class is bereft of betrothal or not even on the right road. They give various excuses, saying that they have not chosen yet because of lack of beauty or other charms. They do not admit, any of them, that perhaps many of the girls had something to say in the matter. They all voted that the favorite girl of to-day would be a brunette, with blue eyes, and Helen would be her name.

## Numeral Lights Scheduled for May 8

The Numeral Lights Exercises of the June, '15 class is scheduled for Saturday evening, May 8th

Some of the features of the program are a piano solo by Miss Adele Katz, vocal selections by Mr. Chase of the Art Department, and songs by an operatic star. The services of a professional violinist have also been secured. Prof. Baldwin will be at the organ.

Mr. Oesterreicher, chairman of the committee, who made the beautiful design for the exercises last term, is preparing for a unique plan for the June, '15 tablet.

## Seventeen Smoker Soon

The Smoker of the '17 Class will be held on May 6th at the College. Those in charge predict a big success, for an elaborate program is in process of formation. Tickets at thirty-five cents are procurable from sons of Seventeen.

## Orchestra and Glee Club Concert May 5th

The Annual Joint Concert of the College Orchestra and the Glee Club will take place Wednesday evening, May 5th, 8.15 P. M. Admission will be without ticket, and Professor Baldwin extends an invitation to all.

The program:

Orchestra: Overture, "Ruy Blas," Mendelssohn.

Glee Club: "Pilgrims' Chorus," Wagner.

Violin Concerto, First Movement, Mendelssohn. Nathan Singer, Milton J. Rettenberg at the piano.

Orchestra: Symphony No. 6, "Pastoral," Beethoven.

Glee Club: "A Chilly Serenade," Gottschalk.

Orchestra: Suite, "A Day in Venice," Nevin.

Glee Club: "The Old Kentucky Home," Foster.

Trumpet Solo: "Inflammatus," Rossini.

Glee Club: "College Medley," Robinson.

Orchestra: "Elsa's Bridal Procession."

—"Lohengrin," Wagner.

## "Siegfried" for Harvard

Ten sections will have to be eliminated from the stadium of Harvard University, at Cambridge, Mass., to build a stage for the outdoor production of Wagner's "Siegfried," which will take place on Friday night, June 4, under the direction of Alfred Hertz, of the Metropolitan Opera Company.

Among the singers to take part in it are Meses. Gadske and Schumann-Heink, Johannes Sembach, Albert Reiss, Clarence Whitehill and Basil Ruysdael.

## Quartets Formed in Music Society

Several single and double quartets have been formed under the auspices of the Chamber Music Society. It is planned to have a general meeting before the term ends in which further arrangements may be made.

The Annual Joint Concert of the Glee Club and Orchestra will take place on May 5th.

## Civic Club Holds Mock Congress

A mock Congressional meeting of the Civics Club was held on Thursday, April 22nd.

The participants aimed to duplicate conditions in the United States Senate and House of Representatives as far as possible.

## University of Texas Gets Yacht

The University of Texas has been presented with a \$100,000 yacht which is to be used in hydrographic courses.

*"The accumulation of a fund from the profits . . . which fund shall be used to aid, foster, maintain, promote realize or encourage any aim which shall go towards the betterment of College and student activities . . . This corporation is not organized for profit."*

—Article of Incorporation of  
*The Campus Association.*

The action of the Board of Trustees of the College in authorizing a number of courses, particularly those which broaden the scope of the curriculum of the Education Department, is indeed a cause for mutual congratulations on the part of the students pursuing educational courses with a view towards teaching in the elementary schools of the city, and the Education Department itself.

**TRUSTEES AUTHORIZE  
NEW COURSES**

**Course in Harmony Offered  
Six in Education**

The Board of Trustees of the College have authorized the following elective courses, provided a sufficient number of students apply for them.

In the Department of Music—  
Music III. *Harmony*, to cover one term, 2 hours a week, 2 credits, course to alternate with Music II.

In the Department of Education—  
*Educational Psychology*, one term, 3 periods a week, counts 3. This is designed to give a knowledge of the

nature and activities of the mind from the standpoint of development, and with special reference to the needs of the teacher. To this end such mental processes as perception, imagination, attention, memory, apperception, judgment, reasoning, feeling and will are considered from the viewpoint of their psychological and pedagogical application to the class-room work. The prominent instincts of children, as play, curiosity, imitation, emulation, etc., are considered in detail, as are likewise the processes of habit formation. Other topics such as heredity, individual differences, and fatigue are also studied. In addition to reference readings, reports are to be made, and the work of the course supplemented as far as possible with experimental demonstrations.

*Methods of Teaching Music*, one term, 2 periods, counts 1. To prepare the student in the theoretical, practical, and pedagogical phases of the work, thus qualifying him to teach music in the elementary schools.

*Methods of Teaching Drawing*, one term, 2 periods, counts 1. For teachers of drawing. Divided into three parts, dealing with representative drawing, decorative design and with working drawings and patterns. Principles of art studied both theoretically and in practice periods, students' work criticised and the mode of presentation, illustration and drill in class are fully discussed.

*National Systems of Education*, one term, 3 periods, counts 3. A comparative study of the educational systems of England, France, Germany and the United States and of the aim, organization, content, and method in the fields of elementary, secondary and higher education.

*Educational Seminar*, one term, 3 periods, counts 3. A study of important educational problems from educational records and thru examination of actual conditions in the school system. It is proposed to take up problems which are now confronting the Board of Superintendents and the Department of Reference and Research, and to use these as laboratory material for specially selected students.

*Social Factors in Education*, one term, 3 periods, counts 3. The social factors and forces which operate to produce the greatest social efficiency of the individual, as vocational education, moral training, the delinquent, the reformatory its methods and limitations, social agents in education, like the settlement, club, etc.

**Professor Woolston Leads****Discussion on Social Service**

At an open forum discussion held under the auspices of the Menorah Society last Tuesday in the Society Alcove, Professor Woolston pointed out the vast opportunities open to College men in the field of social service.

The United Hebrew Charities, the immigrant aid societies, and the hosts of private concerns are looking for men with organizing ability and capacity for carrying on house to house investigations. A speaking knowledge of Yiddish is demanded in most cases.

The forum discussions are to continue throughout the term on Tuesdays at 1 o'clock in the Menorah Alcove.

Some of the speakers will be Dean Brownson, Professor Guthrie, and Professor Turner.

**Board of Trustees for Hunter**

Hunter College will have its own Board of Trustees instead of being under the supervision of the Board of Education.

**Professor Downer, President of Alliance Francaise**

Prof. Charles A. Downer was elected president of the Alliance Francaise at its recent meeting. Professor Delamarre was reelected secretary.

**Dr. Curtman Reads Paper on Copper Test**

At the April meeting of the New York Section of the American Chemical Society, Dr. Curtman presented a paper entitled "A New Test for Copper."

**Dr. Emerson Lectures at College**

Dr. Haven Emerson of the Department of Health lectured at the College last Thursday on "What the Public Can Do to Assist the Board of Health."

He explained the organization of the Department of Health and showed how the public can assist the department by an intelligent appreciation of the value of community health.

**Professor Guthrie Elected Speaker of The House of Representatives**

The Civic Club will hold a mock meeting of the House of Representatives to-morrow at 12 o'clock in Room 306.

Prof. Guthrie will act as Speaker of the House.

Students will introduce bills and committees will make reports. A public hearing will be given to all bills, thus enabling everybody to have a voice in the proceedings.

**Professor Goldfarb to Take Part in Carnegie Institute Expedition**

The Marine Biological Laboratory of the Carnegie Institute has invited Prof. Goldfarb to take part in the expedition which goes south on May 15th to study tropical fauna and flora.

Pres. Mezes has granted Prof. Goldfarb the necessary leave of absence.

Prof. Goldfarb was lately elected President of the Bio-Chemical Association of Columbia University.

**Dr. Meras '00 To Give****Courses at Columbia**

Albert A. Meras, Ph. D., '00, has been appointed to give two courses at the Summer Session of Columbia University. "The Teaching of French in Secondary Schools" will be given with "The Direct Method of Teaching French," a demonstration course in which a class of students from the Horace Mann School will be taught by the instructor.

Dr. Meras will also assist Prof. Bagster Collins in his well-known course, "The Teaching of Modern Languages in Secondary Schools."

**"The Rise of Democracy"**

Prof. Guthrie spoke on "The Rise of Democracy" in the Washington Irving High School on Thursday evening, April 22nd.

He defined and discussed initiative, referendum, recall, commission form of government, short ballot and public service commission. He emphasized the fact that in dealing with monopolies and business in general the interests of both parties should be considered. His next and last lecture promises to be unusually interesting. A few singers of the College Club will entertain the audience and several men of note will give brief addresses. This lecture will be delivered on Thursday, April 29th.

**Dr. Schapiro Lectures on****"Renaissance of Nationalism"**

Dr. J. Salwyn Schapiro of the Department of History lectured on "The Renaissance of Nationalism," before the Men's Club of the Lenox Avenue Unitarian Church on Saturday evening, April 24th.

**Professor Woolston to Represent****C. C. N. Y. at Convention**

Professor H. B. Woolston has been appointed to represent the College at the 42nd annual meeting of the National Conference of Charities and Correction to be held at Baltimore from May 12th to May 16th.

## CORRESPONDENCE

## The Adelpian Society

To the Editor of THE CAMPUS:

Sir: May I, thru the medium of your paper, urge all '19 men who have ever believed they possessed literary ability to attend the meetings of the Adelpian Literary society. This society is the representative literary society in the college. Since many of its former members have entered the Junior year, there are vacancies which should be filled. The society meets Friday evenings at 8 P. M. All are invited to attend.

A. Drachman.

## Herberman Society Discusses

## Roman Numbers

At the meeting of the Herberman Classical Society some interesting arithmetical manipulations with Roman numbers were performed by Louis Notkin.

A discussion ensued over the use of an alphabet for numbers among the ancients. Lucian Lamin delivered a paper on "The Differences in the Spirit of the Greeks and Hindoos, as evidenced in their Literature, Religion, and Art."

## Says Nationalism Destroys Religion

Dr. S. Schulman of the Temple Beth-El spoke last Thursday before the Menorah Society on "The Dangers of Nationalism." Dr. Schulman said that modern nationalism tends to destroy religion, ethics and morality.

## University of California Offers Scholarships

The University of California offers several fellowships and scholarships in medicine, physics and chemistry to undergraduates of any college. Further information may be obtained from the bulletin on the Executive Council Board.

On the same board may be found an interesting account of Home free scholarships offered by the Current Opinion Fund. They are to be non-competitive, and from \$300 up.

## Weighty Learning in University of Kansas

The University of Kansas boasts that it has the biggest department of Economics in the United States. The four members of the department faculty average more than six feet in height and each tips the beam at more than 200 pounds.

## Dance of Newman Club Friday

This Friday the dance of the Newman Club will be held in Carleton Hall, 7th Avenue and 127th Street.

Tickets admitting two are \$2.00 and are procurable from Gallagher, '18.

Boosting the Knocker  
We've knocked the knocker long enough,

Let's boost him once in song;  
There are worse than he, for don't you see,

He helps the game along.  
Things aren't exactly perfect yet,  
And he who shows the ways  
Where we have strayed and errors made

Is worthy of some praise.  
Think of the knockers of olden times  
Who knocked the iniquitous—

The old bad kings and unjust things—  
And bettered the world for us.

Ben Franklin, a hard knocker was,  
Unawed by England's might;  
And then, you know, there's bold Rouseau

Who knocked for the truth and right.  
And Patrick Henry knocked and knocked

Until he raised a row.  
Suppose he'd said, "All's well" instead,  
Who'd honor him for it now?

So for the knocker, just this once,  
Bouquets instead of rocks;  
For it all depends, my kind good friends,  
On what the knocker knocks.

## CALENDAR FOR THE WEEK

Wednesday, April 28—

3 P. M. Baseball, C. C. N. Y. vs.

Manhattan, Van Ness Oval.

4 P. M. Organ Recital.

Thursday, April 29—

12 M. CIVIC CLUB MOCK CONGRESSIONAL MEETING, 306.

Deutscher Verein, German Library.

1 P. M. Clinton Club.

Friday, April 30—

8 P. M. PHRENOCOSMIA-CLIONIA DEBATE, T. H. H.

8.30 P. M. Newman Dance, Carleton Hall.

Sunday, May 2—

4 P. M. Organ Recital.

Monday, May 3—

1.45 P. M. "Zionism," Menorah Lecture.

8 P. M. Morris H. S. Association Concert and Dance, Bronx Church House.

Wednesday, May 5—

8 P. M. Concert by Glee Club and Orchestra.

## ATHLETICS

## WEEKLY CHAT WITH VIC.

All the Merediths, Adamases, and Zbyskos of C. C. N. Y. are racing for A. A. offices.

The whole place is full of signs "Vote for Blank, the man that put C. C. N. Y. on the map."

Some of them are so modest that they put a rhinoceros crouching in a field of violets to shame.

Go to it, fellows. The best man will win. This may mean you.

## TRACK

The men who represented us at the Penn Relays Saturday are Moonan, '17, Schaffer, '15, Vriens, '18, and Margolis, '17. At the try-outs last Wednesday, the men came in in the order named, Moonan equalling the College record for the quarter with 53:1. Among the contestants was Tabor, '16, a member of two Penn Relays who had the misfortune to be knocked down at the start and badly hurt. Skelding, '17, our half-miler came in strong behind Margolis. Schattman, '17, ran well.

In a practice race later in the day, Horowitz, '17, beat Margolis and Skelding in the quarter but did not do as good time as Margolis had previously done.

Twenty-seven dollars and fifty-five cents was subscribed by students to send the team to the Penn meet.

## BASKETBALL

It was a great surprise to all when 1918 beat 1919 in the last Inter-Class game by the score of 28-15.

The victory ties 1918 with 1915 and when the two meet to scrap it out—'nuff said. Feeling ran high at the game between the Freshmen and Sub-Freshies and after the game, when 1918 tried a snake-dance on the Gym floor, the air suddenly became dense with hurtling bodies and the dull thud of fist meeting countenance became distinctly audible. What's your hurry? You'll get all you want in September.

## WRESTLING

The Wrestling Tournament started last Thursday afternoon. In the 115 lb. class, Teddy Greenbaum, '17, despite his being handicapped with a weak knee and a weak ankle, threw Bisgeier, '18, in 4 minutes and 45 seconds. Weinberg, '17, lost to Girsdansky, '18, on points. On Friday afternoon, Granich, '17, threw two '19 men, taking about 4 seconds for each. Tannenbaum, '17, lost to Nunken, '19, on points. Later a bout between Nemser and Zetkin, our star wrestlers, resulted in a victory for Nemser.

Last year, 1917 won the Inter-Class wrestling Meet and the Sophs have high hopes of repeating the performance. With Nemser, Zetkin, Greenbaum and Granich they have an excellent chance of making good.

## BOXING

A boxing club has been organized under Mr. Simmons' charge to meet 3 P. M. Fridays. The object of the club is to cultivate the quickness of the eye, sense of balance, and the "manly art of self defense." No bouts or slugging will be permitted.

## ODDS AND ENDS

*Foreword*—In naming this column "Odds and Ends" we realize that many of the members of this institution would prefer to have it called "Odds and Evens." However, fearing lest it lend countenance to that noble game familiar to all, we shall have to let it remain as it is. So "Odds and Ends" it will be.

By the way, don't you think it would be a good idea to call the College buildings by their proper names. The Mech. Arts is Compton Hall and the Chem. building might be called Doremus Hall. Mac says he has no objections whatever to having the Gym named Mackensie. But seriously speaking, don't you think it would be a good idea.

"Procrastination got it in the neck this time," said a student gazing fondly at the Stadium.

## A. A. Offices Open

The offices of president and vice-president of the A. A. for the term of 1915-1916 are open to the 1916 class.

Nominations must be signed by twenty-five A. A. members. Nominations close April 30th.

Names should be handed to one of the following: Nat. Rauch, chairman, Henry Boston, Gilbert Schulman, Ralph Guinness.

## Harrison Fisher

Famous Artist and Illustrator, says:

*"I have yet to find the equal of Tuxedo."*

## TUXEDO in a Class by Itself

Tuxedo was put on the market 10 years ago. It was the first tobacco ever made that absolutely will not bite the tongue. Since then imitators have sprung up, and after having failed to steal the famous "Tuxedo Process" have put out processes which they claim are "just as good."

# Tuxedo

*The Perfect Tobacco for Pipe and Cigarette*

This "Tuxedo Process" is the original and best process for removing all irritation from the natural tobacco leaf. This process is a secret, known only to the makers of Tuxedo. To get the best—get Tuxedo.

When you smoke, you smoke to get joy and repose—that comfy, gosh-but-life-is-good feeling. That's why you'll like Tuxedo. Tuxedo is all pleasure and a yard wide. Roll those old creamy puffs of Tuxedo, from your pipe or cigarette, around in your mouth! Get that aromatic fragrance! Get that smooth-as-cream tobacco richness! And it's all so mild and gentle you can smoke Tuxedo all day long if you like.

No other tobacco compares for an instant with Tuxedo. Get some and see for yourself. Tuxedo stands absolutely in a class by itself.
