PRICE TWO CENTS

Newman Dance Comes on 28th

Carleton Hall the Scene and Two Dollars, Subscription

The annual dance of the Newman Club will take place on the evening of April 28 at Carleton Hall, 127th street and Lenox avenue. The committee in charge, composed of Walter J. Gallagher, '17, chairman; Raymond Kehoe, '17, Harold Emerson, '18, and Herbert Tinsley, '19, has made extensive arrangements and is now ready to assure all that the affair will be one of the most successful ever conducted by the club. Subscription is two dollars.

De'lonico's was the scene, on last Tuesday afternoon, of the annual lecture and dance of the confederation of college catholic clubs. Dr. James J. Walsh, of Fordham University, addressed the gathering of several hundred young men and women on "The War and its Place in the History of Education." After the lecture, the customary homage was paid to Terpsichore.

Henry Mannix, '17, was elected president of the Newman Club at the annual elections last week. The other officers chosen are: John Brophy, vice-president; Joseph Guinane, secretary; Jack Gehan, treasurer, and Albert D' Andrea, historian.

Professor Coleman spoke on the advisability of sending representatives to a proposed conclave of college societies at the Catholic Summer School this year.

The opening of an alcove library and reading room was favorably considered. A dozen new men were voted in as members.

Issue Pledge Cards

Pledge cards for the Menorah Banquet at the Hotel Breslin in May, have been issued. They may be obtained during the week from Trachman, Ornstein, V. Reichert and Hyman.

Thomas W. Churchill At Shakespearian Assembly To-day

Last Assembly Before Vacation Will Form Part of Celebration.

There will be an assembly in observance of the tercentenary anniversary of the death of Shakespeare as part of the City College contribution to the nation-wide observances during this month and May.

The Hon. Thomas W. Churchill, 1882, formerly president of the Board of Education and an ex-officio trustee, will be the principal orator of the occasion. Mr. Churchill is a recognized authority on Shakespeare and a speaker of rare oratorical gifts. Professor Duggan will also address the assembly, the Glee Club will perform and there will be appropriate organ numbers. The Dramatic Society will produce a part of the play, "The Taming of the Shrew," of which rehearsals are now being held in preparation for the productions next month. President Schattman, of the Council, will preside.

The seating arrangements will be according to classes. This will be the last gathering before the spring vacation.

NEW ZIONISM LECTURE COURSE BEGINS

Dr. Kohn First Lecturer in Zionist Series.

Dr. Jacob Kohn, a Zionist and resident rabbi of Temple Anshe Chesed, in speaking on the subject of nationalism and internationalism, last week at the College, said that the problem of the brotherhood of man is the problem of the relations between East and West. The cleft now existing and all thought of the "Yellow Peril" must be obliterated, he said, for such is the ultimate problem of civilization.

The lecturer gave the various definitions and explanations for "Zionism" and "Nationalism." He dwelt on the true meaning of the word "Jew," and the provisions of Jewish law for apostates or "renegade Jews."

Race and religion interlaced are the two factors which constitute Jewish nationality. A Jew, he said, is any Jew who is born so, or who, not being one by birth, becomes one by accepting the propositions and covenants of Judaism. He concluded with a survey of the international brotherhood proposition, uttering the fervent hope that Judea's ideals would be fulfilled and accomplish the much needed reforms.

The lecture was the introductory talk of a series to be given under the direction of the Zionist Society throughout this term and next. Stephen S. Wise of the Free Synagogue will give a talk some time during May.

Ballopticon Purchased for Lectures

The Physics Department has recently bought a Bausch and Lomb Ballopticon which will be used in connection with lectures conducted under the auspices of the department.

TOMAHAWKS TO GIVE WAY TO PEACE PIPES

Hotel Endicott Scene of Fresh-Soph Peace Banquet.

The night of Sunday, April 30, will be a memorable one in the history of City College. With the coming of dusk and electric lights, crowds may be seen hastening in the direction of that famous hostelry—Hotel Endicott, Eighty-second street and Columbus avenue. Yes, gentle reader, you have guessed it—they are the 1918 and 1919 men bound on a mission of peace. They intend to bury the hatchet of war and drown their hostile feelings in bowls of punch and grape juice.

The way in which tickets are going indicates that at least two hundred and fifty will be there. A number of prominent faculty and students will be present as guests.

Tickets are selling for one dollar and a half, and you will get more than that in the eats alone. There will be professional and amateur entertainment—the best in New York. Of course, there will be souvenirs.

Tickets may be secured from W. Reich, Tow, Mendleson, Pelunis and Deutsch.

Prize Speaking Totals Friday

The preliminary trials for the semi-annual prize-speaking contest will be held on Friday at 3 in Room 221. This is for the oration competition for Juniors and Seniors.

Dime Day Brings in \$136

It has been announced by Nudell that the receipts for dime day totalled \$126.

Graduates Appointed

Twelve Men Secure Professional Positions in Chemistry.

A dozen recent graduates have lately received appointments to positions through the Chemistry Department, between December 1, 1915, and March 1, 1916. These appointments were obtained mainly through the efforts of Professor Baskerville.

The following is the list of men and their positions:

Adler, Howard,
Assistant Tutor Evening Session, private assistant to Prof. Stevenson.
Alport, Max,
with Dr. J. M. Matthews.
Berkowitz, Harry,
Private assistant to Prof. Moody.
Bondy, Alfred A.,
Chemist, Belais & Cohn Co., New York City.
Ciaccio Paul,
Chemist, West Virginia Prepared Paper Co.
Fidler, Peter,
Chemist, Weiller Mfg. Co., New Brunswick, N. J.
Gross, Paul,
Assistant Tutor, College, private assistant to Prof. Baskerville.
Isaacson, Victor I.,
Assistant Chemist, Montefiore Home.
Marcus, Sieghert,
Assistant Chemist, Toch Bros., New York City.
Nord, Sol.,
United Piece Dye Works, Lodi, N. J.
Wechsler, Ralph,
Chemist, Remington Arms Co., Bridgeport, Conn.
Wikoff, Alan G.,
Chemist, Dr. Thatcher.

The members of the Social Club were entertained by Professor Baldwin and the College Orchestra at their last meeting on the day of the Interclass Meet.

REVIEW OF THE MUNICIPAL SERVICE SURVEY REPORT

Committee Decides How College Can Help Civil Service Conditions.

At the beginning of the present semester, the Faculty Committee on Municipal Service Survey presented its findings and recommendations to President Mezes. The report is a comprehensive study of the present situation in the municipal civil service, and offers recommendations and methods for bringing the college into closer union with the city administration. President Mezes appointed to membership in the committee Professors Baskerville, Clark, Farmlly, Storey and Duggan, chairman. In his letter of transmittal to the president, Professor Duggan says: "The committee was directed, generally speaking, to consider and to report the ways in which the college might be of service to the city government in preparing students for positions in the city employ and in improving the efficiency of those already in the city service."

"The committee," continues Professor Duggan, "met on March 9, 1915, and after a careful consideration of several plans decided to limit its investigations, at first, to those departments of the city government the work of which is of high educational and technical character and for which the college could directly prepare, especially the Departments of Finance, Health, Education and Public Works. Moreover, as the detailed investigation would require a great deal of time and effort, it was decided to request the president to appoint a sub-committee composed of representatives from the college departments most interested." Professors Breithut, Goldfarb, Klapper, Woolston and Farmlly formed with Chairman Duggan this sub-committee.

After a preliminary study and a careful gathering of material secured from various sources, the sub-committee sent a questionnaire to the employees engaged in the various grades of the city service to find out what courses these employees themselves wished to pursue to increase their efficiency and to secure advancement in grade.

Dr. Breithut Gathers Data.

Professor Breithut secured all available data, and wrote the report, a work covering thoroughly every phase of the subject. For his excellent compilation of facts, and for his scientific handling of the subject, Professor Breithut merits the hearty congratulations and sincere thanks of every person who has the interests of the college at heart. The report is a painstaking research, a practical compendium that will be of lasting benefit to the present generation of students, and to the numerous classes to come.

Trustees Pleased with Report.

The Board of Trustees met on March 21 to adopt the report of the Committee on Trustees appointed to consider the recommendations made by the Committee on Municipal Service. The report is praised highly by the Trustees, who call it "an excellent presentation of the subject matter," and one which "further bears evidence by the voluminous data given in the several tables of classification of the conscientious and

(Continued on Page Four.)

RE-EXAMINATION NOTICE

Editor of the CAMPUS—Sir: I should be greatly obliged if you would print the following notice in regard to re-examinations:

All re-examinations in all subjects will be held on Wednesday, April 26, at 9 A. M. Students of the Senior, Freshman and special classes will be examined in the Doremus Lecture Theatre, and students of the Junior and Sophomore classes in the gymnasium. Students may find out their seat numbers on application at the Dean's office.

The examinations will begin promptly at 9 o'clock, and students who are late may be denied admission to the examination rooms. The time allowed will vary with the different subjects, the maximum allowance being two and one-half hours for any single examination and five hours for any two examinations. Those who have examinations in two subjects will receive the papers in both subjects at 9 o'clock and will be required to finish both before leaving the examination room.

The student who does not pass in any subject will be rated "Failed" in that subject and will

be required to repeat it during the term beginning in September, 1916. If the failure thus incurred is in a subject which is prerequisite to one which the student is pursuing during the present term, he may be required to drop the advanced subject. In this matter different departments will follow different policies, but the student who is interested may learn at the Dean's office what the practice of any department will be.

On the other hand, a student who is carrying a deficiency in a subject which is prerequisite to one which he is pursuing during the present term, may, in the discretion of the department concerned, be given credit without re-examination for the prerequisite subject if his work in the advanced subject seems to the department to justify such action. But no student will be excused from the re-examination under this provision unless written authorization for such an excuse is received by the Dean's office from the Head of the department concerned. Students interested may learn by inquiry at the office on Thurs-

day, April 13, whether they have been so excused.

Students deficient in Art or Public Speaking will report for re-examination at the appointed time (9 A. M. on April 26), but not at the place or places above mentioned; instead, those deficient in Art will report at Room 416, Main Building, and those deficient in Public Speaking at Room 226, Main Building. If, however, a student deficient in Art or in Public Speaking is also deficient in some other subject, he must in all cases take the examination in such other subject first, i. e., at 9 o'clock, in the general examination room of his class, and report immediately after finishing it for his examination in Art or in Public Speaking.

There will be no college exercises for any College class on the day appointed for the re-examinations. For the Academic classes recitations will be held as usual, and any College student who is taking an Academic subject will be required to attend recitations in such subject unless he has a re-examination. CARLETON L. BROWNSON, Dean.

General Wood Lectures (Continued from Page One.)

If we treasure our lives and liberty.

"Preparedness does not necessarily mean that we become aggressive. We can be ready and self-restrained. Preparedness does not mean a large standing army. The officers don't believe in one and don't want it.

"But we do want a large reserve. We must have a large reserve of trained men, a reserve of munitions of war, which are difficult to make. Conditions have changed from the days when a man merely had to take his rifle and fight.

"Weapons of war are complicated machines today, and men must be trained in their use.

National, Not State Guard, Essential. "We must have a first class navy and a national guard; a national guard, not a State militia. The militias have done their best, but it is the system that is at fault. We must have Federal troops to aid in time of contingency.

"We must build up a moral organization among the people of the nation. We give many liberties to our people and newcomers and ask little, if anything, in return.

Manhood Obligation a Vital Issue. "Manhood suffrage means manhood obligation. No argument can deny this. Organization does not mean that a man must be in the front ranks with a rifle in his hand. He must be placed where he can do his part whether it is in the ranks or in the munitions factory.

"This is what is meant by organization. We owe the nation our support. If the country is to last we must do something all together.

"In the training, men will be brought together. No man can regard another as of another class when he has undergone a military training together with him. When they rub shoulders, the cheap distinctions of religion and wealth will be wiped out. We will be all alike, and must all go as Americans.

Preparation Requires Time. "We cannot make hurried preparations. We must work in times of peace. One means of preparation is the military training camp.

"We expect a large attendance of college men at Plattsburg this season. A great physical and moral improvement results from good training.

"In Switzerland and Australia, one of whose systems we expect to adopt, there is a murder rate lower than ours. Men acquire good habits and become infinitely better after a training at a summer camp.

Beware of Militarism! "We do not want anything that savors of militarism, that is, a small group determining the affairs of the army and navy.

"We do not want to see you unprepared in case of war. We cannot predict wars or tell which is, was, or will be the last.

The Lessons of History. "Let us do what we can for peace. But do not let us disregard our present status. We are plain fools if we do not realize that our history will not be different from that of other nations. I repeat, a rich, unprepared nation is a great temptation. We want you to come to our camps. We will give you a good training. We want as many of you as can come."

After the applause which followed General Wood's talk had unbridled, Hallberg, the peerless cheer leader of '18, jumped on the platform and led a loud and stirring "big varsity."

Then Up Bobs Sampson. As Colonel Lydecker was coming forward to thank General Wood, Sampson, '18, got up in the back of the Great Hall and shouted, "All those who are against preparedness follow me." He went out with the assistance of the ushers, but no one evinced any inclination to follow him.

Speech Making in Alcoves. After the meeting in the Great Hall, Natapoff, '18, got up in the '17 above and tried to make a speech. He was booed down and a Miss Wygant, of the Socialist Suffrage Campaign Committee, got up to speak. She was interrupted by the Dean, who requested that she leave the building.

Excitement on Campus. Meanwhile, Natapoff had gotten up on the senior pedestal on the campus and was making an impassioned harangue. He was pulled down by several men who objected to his views and was only saved from bodily injury by the fortunate arrival of several policemen.

Miss Wygant then climbed on the pedestal and all afternoon the strains of oratory floated up to the well-known lambent sky, while groups of students gathered here and there in the College and out, and argued 'till the janitor closed the building.

STUDENT COUNCIL FULLY CLEARS UP AGITATION

The Student Council has taken action in regard to the recent disturbances centering around General Wood's speech. The following resolution in regard to Leon Samson, was unanimously passed by the Council:

Whereas, Leon Samson, during a general assembly in the Great Hall on Thursday, March 30, at the end of an address by Leonard Wood, rose from his seat and shouted; and

Whereas, The act was one of extreme discourtesy to General Wood, who was a guest of the college at this time, and to the faculty and students of the college; be it

Resolved, That the Student Council, representing the opinion of the students of the college, severely reprimand Leon Samson for his unseemly act; and be it further

Resolved, That the Student Council demand an immediate written apology to General Wood and to the students and faculty of the college.

Gitelson, chairman of the Assembly Committee, then made a statement as to the exact status of the assembly last Thursday. He said in part:

"Much has been said, but little has been really known about the relationship between the Student Council and the faculty regarding the General Wood assembly. The powers of the Student Council were not over-riden in any way whatsoever. The Student Council had planned an assembly for March 23, with Chamberlain Bruere as the main speaker.

The Student Council Assembly Committee was informed that President Mezes had invited General Leonard Wood, and that the latter had accepted the invitation, and was to speak on March 30. Because of practical difficulties, it was decided to give up the Student Council Assembly on March 23. Not only was no pressure brought to bear upon the students, but the President has been kind enough to grant the third Thursday of every month for the exclusive use of the Student Council. The relations between the Student Council and the faculty have always been of the most cordial nature."

It was then moved to present the following resolutions to the New York papers. The resolutions were drawn up by a committee, consisting of Grablowsky, Greenberg and Mantband, and sum up the situation most fully:

Inasmuch as there have appeared erroneous statements relative to the assembly on March 30, at which General Leonard Wood addressed the students of City College, the Student Council, the official representative of the student body, hereby presents the following true facts concerning the above-mentioned situation:

1. That the Board of Trustees of the College has sanctioned no course in military training, either compulsory or elective. All that has occurred is the referring of the advisability of such a course, to a special committee of the trustees and the faculty.

2. Contrary to published statements, the students have in no wise defied or rebelled against the faculty.

3. That any so-called riots were the actions of a handful of over-zealous students in no way representative of the sentiment of the student body as a whole.

4. That the Socialist Study Club of the College has officially denied any connection with the disturbance at the College.

5. That the Senior Class neither

SECOND Y. M. C. A. SOCIAL SERVICE BANQUET MONDAY

Commissioner Hodge of Public Service Commission the Speaker.

Next Monday evening, at 6 o'clock the second of a series of Y. M. C. A. "Social Service Dinners" will be given in the student concourse, with Public Service Commissioner Henry W. Hodge and Professor Overstreet as the speakers of the evening.

Mr. Hodge will take for his topic "The College Man in Public Service." The hundreds of students, faculty members and graduates who heard Thomas Mott Osborne's stimulating and profitable address will doubtless be eager to attend the second of the series. Tickets, costing twenty-five cents, may be procured from Secretary Hood in Room 16-A.

In an endeavor to create an atmosphere of sociability and college spirit the committee will have at hand the organization's piano, and there will be the usual vocal entertaining—singing and cheering.

Mr. Hodge is one of the foremost engineers in the country. He constructed the Singer and Metropolitan buildings, the Blackwell's Island and Manhattan bridges and the span across the St. Lawrence river, the largest railroad bridge in the world. He has been awarded the contract for the proposed bridge across the North River at Fifty-seventh street. The speaker is a trustee of New York University and was placed on the Public Service Commission recently by Governor Whitman.

attempted nor contemplated any concerted demonstration at the meeting.

6. That practically all the excitement on the campus and within the college buildings resulted from the free distribution of a special edition of the New York Call, and also from the presence of a number of unauthorized outside speakers.

7. That the faculty in arranging for the above assembly, in no wise over-rode or violated the privileges of the Student Council.

8. That the Student Council has unanimously passed the following resolution:

It was then moved that the Student Council request the Dean to prohibit any unauthorized speakers from speaking on the campus, and that all speakers talk in rooms within the college, obtaining such rooms in the usual manner.

CHEMISTRY DEPARTMENT GETS LIQUID AIR

The Western Electric Company, through the efforts of Professor Baskerville, has presented the Department of Chemistry with almost a gallon of liquid air contained in three Dewar flasks.

At his lectures last week Professor Baskerville performed several experiments to illustrate the properties of the liquified gas.

It is expected that the donors will continue to supply the college with the liquid air whenever necessary.

MAC WANTS MEN FOR TRACK AND FIELD.

Mac wants every man who ever did any running to come out for practice. With constant practice, Mac ought to be able to turn out a good team for the R. P. I. and Stevens meets. Mac is particularly in need of men in the field events.

RE-EXAMINATION NOTICE

Editor of the CAMPUS—Sir: I should be greatly obliged if you would print the following notice in regard to re-examinations:

All re-examinations in all subjects will be held on Wednesday, April 26, at 9 A. M. Students of the Senior, Freshman and special classes will be examined in the Doremus Lecture Theatre, and students of the Junior and Sophomore classes in the gymnasium. Students may find out their seat numbers on application at the Dean's office.

The examinations will begin promptly at 9 o'clock, and students who are late may be denied admission to the examination rooms. The time allowed will vary with the different subjects, the maximum allowance being two and one-half hours for any single examination and five hours for any two examinations. Those who have examinations in two subjects will receive the papers in both subjects at 9 o'clock and will be required to finish both before leaving the examination room.

The student who does not pass in any subject will be rated "Failed" in that subject and will

be required to repeat it during the term beginning in September, 1916. If the failure thus incurred is in a subject which is prerequisite to one which the student is pursuing during the present term, he may be required to drop the advanced subject. In this matter different departments will follow different policies, but the student who is interested may learn at the Dean's office what the practice of any department will be.

On the other hand, a student who is carrying a deficiency in a subject which is prerequisite to one which he is pursuing during the present term, may, in the discretion of the department concerned, be given credit without re-examination for the prerequisite subject if his work in the advanced subject seems to the department to justify such action. But no student will be excused from the re-examination under this provision unless written authorization for such an excuse is received by the Dean's office from the Head of the department concerned. Students interested may learn by inquiry at the office on Thurs-

day, April 13, whether they have been so excused.

Students deficient in Art or Public Speaking will report for re-examination at the appointed time (9 A. M. on April 26), but not at the place or places above mentioned; instead, those deficient in Art will report at Room 416, Main Building, and those deficient in Public Speaking at Room 226, Main Building. If, however, a student deficient in Art or in Public Speaking is also deficient in some other subject, he must in all cases take the examination in such other subject first, i. e., at 9 o'clock, in the general examination room of his class, and report immediately after finishing it for his examination in Art or in Public Speaking.

There will be no college exercises for any College class on the day appointed for the re-examinations. For the Academic classes recitations will be held as usual, and any College student who is taking an Academic subject will be required to attend recitations in such subject unless he has a re-examination. CARLETON L. BROWNSON,
Dean.

General Wood Lectures
(Continued from Page One.)

...ary if we treasure our lives and liberty.

"Preparedness does not necessarily mean that we become aggressive. We can be ready and self-restrained. Preparedness does not mean a large standing army. The officers don't believe in one and don't want it.

"But we do want a large reserve. We must have a large reserve of trained men, a reserve of munitions of war, which are difficult to make. Conditions have changed from the days when a man merely had to take his rifle and fight.

"Weapons of war are complicated machines today, and men must be trained in their use.

National, Not State Guard, Essential.
"We must have a first class navy and a national guard; a national guard, not a State militia. The militias have done their best, but it is the system that is at fault. We must have Federal troops to aid in time of contingency.

"We must build up a moral organization among the people of the nation. We give many liberties to our people and newcomers and ask little, if anything, in return.

Manhood Obligation a Vital Issue.
"Manhood suffrage means manhood obligation. No argument can deny this. Organization does not mean that a man must be in the front ranks with a rifle in his hand. He must be placed where he can do his part whether it is in the ranks or in the munitions factory.

"This is what is meant by organization. We owe the nation our support. If the country is to last we must do something all together.

"In the training, men will be brought together. No man can regard another as of another class when he has undergone a military training together with him. When they rub shoulders, the cheap distinctions of religion and wealth will be wiped out. We will be all alike, and must all go as Americans.

Preparation Requires Time.
"We cannot make hurried preparations. We must work in times of peace. One means of preparation is the military training camp.

"We expect a large attendance of college men at Plattsburg this season. A great physical and moral improvement results from good training.

"In Switzerland and Australia, one of whose systems we expect to adopt, there is a murder rate lower than ours. Men acquire good habits and become infinitely better after a training at a summer camp.

Beware of Militarism!
"We do not want anything that savors of militarism, that is, a small group determining the affairs of the army and navy.

"We do not want to see you unprepared in case of war. We cannot predict wars or tell which is, was, or will be the last.

The Lessons of History.
"Let us do what we can for peace. But do not let us disregard our present status. We are plain fools if we do not realize that our history will not be different from that of other nations. I repeat, a rich, unprepared nation is a great temptation. We want you to come to our camps. We will give you a good training. We want as many of you as can come."

After the applause which followed General Wood's talk had unbridled, Hallberg, the peerless cheer leader of '18, jumped on the platform and led a loud and stirring "big varsity."

Then Up Bobs Sampson.
As Colonel Lydecker was coming forward to thank General Wood, Sampson, '18, got up in the back of the Great Hall and shouted, "All those who are against preparedness follow me." He went out with the assistance of the ushers, but no one evinced any inclination to follow him.

Speech Making in Alcoves.
After the meeting in the Great Hall, Natapoff, '18, got up in the '17 above and tried to make a speech. He was booed down and a Miss Wygatt, of the Socialist Suffrage Campaign Committee, got up to speak. She was interrupted by the Dean, who requested that she leave the building.

Excitement on Campus.
Meanwhile, Natapoff had gotten up on the senior pedestal on the campus and was making an impassioned harangue. He was pulled down by several men who objected to his views and was only saved from bodily injury by the fortunate arrival of several policemen.

Miss Wygatt then climbed on the pedestal and all afternoon the strains of oratory floated up to the well-known lambent sky, while groups of students gathered here and there in the College and out, and argued till the janitor closed the building.

STUDENT COUNCIL FULLY CLEARS UP A SITUATION

The Student Council has taken action in regard to the recent disturbances centering around General Wood's speech. The following resolution in regard to Leon Samson, was unanimously passed by the Council:

Whereas, Leon Samson, during a general assembly in the Great Hall on Thursday, March 30, at the end of an address by Leonard Wood, rose from his seat and shouted; and

Whereas, The act was one of extreme discourtesy to General Wood, who was a guest of the college at this time, and to the faculty and students of the college; be it

Resolved, That the Student Council, representing the opinion of the students of the college, severely reprimand Leon Samson for his unseemly act; and be it further

Resolved, That the Student Council demand an immediate written apology to General Wood and to the students and faculty of the college.

Gitelson, chairman of the Assembly Committee, then made a statement as to the exact status of the assembly last Thursday. He said in part:

"Much has been said, but little has been really known about the relationship between the Student Council and the faculty regarding the General Wood assembly. The powers of the Student Council were not over-ridden in any way whatsoever. The Student Council had planned an assembly for March 23, with Chamberlain Bruere as the main speaker.

The Student Council Assembly Committee was informed that President Mezes had invited General Leonard Wood, and that the latter had accepted the invitation, and was to speak on March 30. Because of practical difficulties, it was decided to give up the Student Council Assembly on March 23. Not only was no pressure brought to bear upon the students, but the President has been kind enough to grant the third Thursday of every month for the exclusive use of the Student Council. The relations between the Student Council and the faculty have always been of the most cordial nature."

It was then moved to present the following resolutions to the New York papers. The resolutions were drawn up by a committee, consisting of Grablowsky, Greenberg and Mantinband, and sum up the situation most fully:

Inasmuch as there have appeared erroneous statements relative to the assembly on March 30, at which General Leonard Wood addressed the students of City College, the Student Council, the official representative of the student body, hereby presents the following true facts concerning the above-mentioned situation:

1. That the Board of Trustees of the College has sanctioned no course in military training, either compulsory or elective. All that has occurred is the referring of the advisability of such a course, to a special committee of the trustees and the faculty.

2. Contrary to published statements, the students have in no wise defied or rebelled against the faculty.

3. That any so-called riots were the actions of a handful of over-zealous students in no way representative of the sentiment of the student body as a whole.

4. That the Socialist Study Club of the College has officially denied any connection with the disturbance at the College.

5. That the Senior Class neither

SECOND Y. M. C. A. SOCIAL SERVICE BANQUET MONDAY

Commissioner Hodge of Public Service Commission the Speaker.

Next Monday evening, at 6 o'clock the second of a series of Y. M. C. A. "Social Service Dinners" will be given in the student concourse, with Public Service Commissioner Henry W. Hodge and Professor Overstreet as the speakers of the evening.

Mr. Hodge will take for his topic "The College Man in Public Service." The hundreds of students, faculty members and graduates who heard Thomas Mott Osborne's stimulating and profitable address will doubtless be eager to attend the second of the series. Tickets, costing twenty-five cents, may be procured from Secretary Hood in Room 16-A.

In an endeavor to create an atmosphere of sociability and college spirit the committee will have at hand the organization's piano, and there will be the usual vocal entertaining—singing and cheering.

Mr. Hodge is one of the foremost engineers in the country. He constructed the Singer and Metropolitan buildings, the Blackwell's Island and Manhattan bridges and the span across the St. Lawrence river, the largest railroad bridge in the world. He has been awarded the contract for the proposed bridge across the North River at Fifty-seventh street. The speaker is a trustee of New York University and was placed on the Public Service Commission recently by Governor Whitman.

attempted nor contemplated any concerted demonstration at the meeting.

6. That practically all the excitement on the campus and within the college buildings resulted from the free distribution of a special edition of the New York Call, and also from the presence of a number of unauthorized outside speakers.

7. That the faculty in arranging for the above assembly, in no wise over-rode or violated the privileges of the Student Council.

8. That the Student Council has unanimously passed the following resolution:

It was then moved that the Student Council request the Dean to prohibit any unauthorized speakers from speaking on the campus, and that all speakers talk in rooms within the college, obtaining such rooms in the usual manner.

CHEMISTRY DEPARTMENT GETS LIQUID AIR

The Western Electric Company, through the efforts of Professor Baskerville, has presented the Department of Chemistry with almost a gallon of liquid air contained in three Dewar flasks.

At his lectures last week Professor Baskerville performed several experiments to illustrate the properties of the liquefied gas.

It is expected that the donors will continue to supply the college with the liquid air whenever necessary.

MAC WANTS MEN FOR TRACK AND FIELD.

Mac wants every man who ever did any running to come out for practice. With constant practice, Mac ought to be able to turn out a good team for the R. P. I. and Stevens meets. Mac is particularly in need of men in the field events.

PRICE TWO CENTS

Newman Dance Comes on 28th

Carleton Hall the Scene and Two Dollars, Subscription

The annual dance of the Newman Club will take place on the evening of April 28 at Carleton Hall, 127th street and Lenox avenue. The committee in charge, composed of Walter J. Gallagher, '17, chairman; Raymond Kehoe, '17, Harold Emerson, '18, and Herbert Tinsley, '19, has made extensive arrangements and is now ready to assure all that the affair will be one of the most successful ever conducted by the club. Subscription is two dollars.

Delmonico's was the scene, on last Thursday afternoon, of the annual lecture and dance of the confederation of college catholic clubs. Dr. James J. Walsh, of Fordham University, addressed the gathering of several hundred young men and women on "The War and its Place in the History of Education." After the lecture, the customary homage was paid to Terpsichore.

Henry Mannix, '17, was elected president of the Newman Club at the annual elections last week. The other officers chosen are: John Brophy, vice-president; Joseph Guinane, secretary; Jack Gehan, treasurer, and Albert D' Andrea, historian.

Professor Coleman spoke on the advisability of sending representatives to a proposed conclave of college societies at the Catholic Summer School this year.

The opening of an alcove library and reading room was favorably considered. A dozen new men were voted in as members.

Issue Pledge Cards

Pledge cards for the Menorah Banquet at the Hotel Breslin in May, have been issued. They may be obtained during the week from Trachman, Ornstein, V. Reichert and Hymau.

Thomas W. Churchill At Shakesperean Assembly To-day

Last Assembly Before Vacation Will Form Part of Celebration.

There will be an assembly in observance of the tercentenary anniversary of the death of Shakespeare as part of the City College contribution to the nation-wide observances during this month and May.

The Hon. Thomas W. Churchill, 1882, formerly president of the Board of Education and an ex-officio trustee, will be the principal orator of the occasion. Mr. Churchill is a recognized authority on Shakespeare and a speaker of rare oratorical gifts. Professor Duggan will also address the assembly, the Glee Club will perform and there will be appropriate organ numbers. The Dramatic Society will produce a part of the play, "The Taming of the Shrew," of which rehearsals are now being held in preparation for the productions next month. President Schattman, of the Council, will preside.

The seating arrangements will be according to classes. This will be the last gathering before the spring vacation.

NEW ZIONISM LECTURE COURSE BEGINS

Dr. Kohn First Lecturer in Zionist Series.

Dr. Jacob Kohn, a Zionist and resident rabbi of Temple Anshe Chesed, in speaking on the subject of nationalism and internationalism, last week at the College, said that the problem of the brotherhood of man is the problem of the relations between East and West. The cleft now existing and all thought of the "Yellow Peril" must be obliterated, he said, for such is the ultimate problem of civilization.

The lecturer gave the various definitions and explanations for "Zionism" and "Nationalism." He dwelt on the true meaning of the word "Jew," and the provisions of Jewish law for apostates or "renegade Jews."

Race and religion interlaced are the two factors which constitute Jewish nationality. A Jew, he said, is any Jew who is born so, or who, not being one by birth, becomes one by accepting the propositions and covenants of Judaism. He concluded with a survey of the international brotherhood proposition, uttering the fervent hope that Judea's ideals would be fulfilled and accomplish the much needed reforms.

The lecture was the introductory talk of a series to be given under the direction of the Zionist Society throughout this term and next. Stephen S. Wise of the Free Synagogue will give a talk some time during May.

Ballopticon Purchased for Lectures

The Physics Department has recently bought a Bausch and Lomb Ballopticon which will be used in connection with lectures conducted under the auspices of the department.

TOMAHAWKS TO GIVE WAY TO PEACE PIPES

Hotel Endicott Scene of Fresh-Soph Peace Banquet.

The night of Sunday, April 30, will be a memorable one in the history of City College. With the coming of dusk and electric lights, crowds may be seen hastening in the direction of that famous hostelry—Hotel Endicott, Eighty-second street and Columbus avenue. Yes, gentle reader, you have guessed it—they are the 1918 and 1919 men bound on a mission of peace. They intend to bury the hatchet of war and drown their hostile feelings in bowls of punch and grape juice.

The way in which tickets are going indicates that at least two hundred and fifty will be there. A number of prominent faculty and students will be present as guests.

Tickets are selling for one dollar and a half, and you will get more than that in the eats alone. There will be professional and amateur entertainment—the best in New York. Of course, there will be souvenirs.

Tickets may be secured from W. Reich, Tow, Mendleson, Pelunis and Deutsch.

Prize Speaking Begins Friday

The preliminary trials for the semi-annual prize-speaking contest will be held on Friday at 3 in Room 221. This is for the oration competition for Juniors and Seniors.

Dime Day Brings in \$136

It has been announced by Nudell that the receipts for dime day totalled \$136.

Graduates Appointed

Twelve Men Secure Professional Positions in Chemistry.

A dozen recent graduates have lately received appointments to positions through the Chemistry Department, between December 1, 1915, and March 1, 1916. These appointments were obtained mainly through the efforts of Professor Baskerville.

The following is the list of men and their positions:

Adler, Howard,
Assistant Tutor Evening Session, private assistant to Prof. Stevenson.

Alport, Max,
with Dr. J. M. Matthews.

Berkowitz, Harry,
Private assistant to Prof. Moody.

Bondy, Alfred A.,
Chemist, Belais & Cohn Co., New York City.

Ciacio Paul,
Chemist, West Virginia Prepared Paper Co.

Fidler, Peter,
Chemist, Weiller Mfg. Co., New Brunswick, N. J.

Gross, Paul,
Assistant Tutor, College, private assistant to Prof. Baskerville.

Isaacson, Victor I.,
Assistant Chemist, Montefiore Home.

Marcus, Sieghert,
Assistant Chemist, Toch Bros., New York City.

Nord, Sol.,
United Piece Dye Works, Lodi, N. J.

Wechsler, Ralph,
Chemist, Remington Arms Co., Bridgeport, Conn.

Wikoff, Alan G.,
Chemist, Dr. Thatcher.

The members of the Social Club were entertained by Professor Baldwin and the College Orchestra at their last meeting on the day of the Interclass Meet.

REVIEW OF THE MUNICIPAL SERVICE SURVEY REPORT

Committee Decides How College Can Help Civil Service Conditions.

At the beginning of the present semester, the Faculty Committee on Municipal Service Survey presented its findings and recommendations to President Mezes. The report is a comprehensive study of the present situation in the municipal civil service, and offers recommendations and methods for bringing the college into closer union with the city administration. President Mezes appointed to membership in the committee Professors Baskerville, Clark, Parmlly, Storey and Duggan, chairman. In his letter of transmittal to the president, Professor Duggan says: "The committee was directed, generally speaking, to consider and to report the ways in which the college might be of service to the city government in preparing students for positions in the city employ and in improving the efficiency of those already in the city service."

"The committee," continues Professor Duggan, "met on March 9, 1915, and after a careful consideration of several plans decided to limit its investigations, at first, to those departments of the city government the work of which is of high educational and technical character and for which the college could directly prepare specialists in the Departments of Finance, Health, Education and Public Works. Moreover, as the detailed investigation would require a great deal of time and effort, it was decided to request the president to appoint a sub-committee composed of representatives from the college departments most interested." Professors Breithut, Goldfarb, Klapper, Woolston and Parmlly formed with Chairman Duggan this sub-committee.

After a preliminary study and a careful gathering of material secured from various sources, the sub-committee sent a questionnaire to the employees engaged in the various grades of the city service to find out what courses these employees themselves wished to pursue to increase their efficiency and to secure advancement in grade.

Dr. Breithut Gathers Data.

Professor Breithut secured all available data, and wrote the report, a work covering thoroughly every phase of the subject. For his excellent compilation of facts, and for his scientific handling of the subject, Professor Breithut merits the hearty congratulations and sincere thanks of every person who has the interests of the college at heart. The report is a painstaking research, a practical compendium that will be of lasting benefit to the present generation of students, and to the numerous classes to come.

Trustees Pleased with Report.

The Board of Trustees met on March 21 to adopt the report of the Committee of Trustees appointed to consider the recommendations made by the Committee on Municipal Service. The report is praised highly by the Trustees, who call it "an excellent presentation of the subject matter," and one which "further bears evidence by the voluminous data given in the several tables of classification of the conscientious and

(Continued on Page Four.)

RE-EXAMINATION NOTICE

Editor of the CAMPUS—Sir: I should be greatly obliged if you would print the following notice in regard to re-examinations:

All re-examinations in all subjects will be held on Wednesday, April 26, at 9 A. M. Students of the Senior, Freshman and special classes will be examined in the Doremus Lecture Theatre, and students of the Junior and Sophomore classes in the gymnasium. Students may find out their seat numbers on application at the Dean's office.

The examinations will begin promptly at 9 o'clock, and students who are late may be denied admission to the examination rooms. The time allowed will vary with the different subjects, the maximum allowance being two and one-half hours for any single examination and five hours for any two examinations. Those who have examinations in two subjects will receive the papers in both subjects at 9 o'clock and will be required to finish both before leaving the examination room.

The student who does not pass in any subject will be rated "Failed" in that subject and will

be required to repeat it during the term beginning in September, 1916. If the failure thus incurred is in a subject which is prerequisite to one which the student is pursuing during the present term, he may be required to drop the advanced subject. In this matter different departments will follow different policies, but the student who is interested may learn at the Dean's office what the practice of any department will be.

On the other hand, a student who is carrying a deficiency in a subject which is prerequisite to one which he is pursuing during the present term, may, in the discretion of the department concerned, be given credit without re-examination for the prerequisite subject if his work in the advanced subject seems to the department to justify such action. But no student will be excused from the re-examination under this provision unless written authorization for such an excuse is received by the Dean's office from the Head of the department concerned. Students interested may learn by inquiry at the office on Thurs-

day, April 13, whether they have been so excused.

Students deficient in Art or Public Speaking will report for re-examination at the appointed time (9 A. M. on April 26), but not at the place or places above mention; instead, those deficient in Art will report at Room 416, Main Building, and those deficient in Public Speaking at Room 226, Main Building. If, however, a student deficient in Art or in Public Speaking is also deficient in some other subject, he must in all cases take the examination in such other subject first, i. e., at 9 o'clock, in the general examination room of his class, and report immediately after finishing it for his examination in Art or in Public Speaking.

There will be no college exercises for any College class on the day appointed for the re-examinations. For the Academic classes recitations will be held as usual, and any College student who is taking an Academic subject will be required to attend recitations in such subject unless he has a re-examination. Managing Editor for this issue: Lionel S. Auster.

I believe the Call to be the paper most friendly to, and the most sincerely interested in the welfare of the students, and my statement to the Call expressed my views in a nutshell.

In regard to the action of the Discipline Committee I believe it was entirely unjust, un-American, and undemocratic.

First, Because I didn't get a hearing to present my side of the case.

Second, Their action was autocratic insofar as they gave me an ultimatum; hence, forcing, not asking an apology. As regards an apology I have nothing to apologize for, because my act in the assembly on Thursday last was meant for the welfare of the College and meant no insult to anybody. It was ushers who created the disturbance and not I; in fact these in front among whom some of the faculty were present told me they didn't hear any disturbance whatsoever. Hence the disturbance they made was insignificant.

Furthermore, I expected an apology from Mr. Healy of the Dean's Office, who struck me in the presence of witnesses and the College ought to have expected an apology from General Wood for insulting their intelligence by tempering his speech in such a manner as to make it appear as if he were merely lecturing and by not giving them credit for being able to read between the lines of a so-called peaceful militarist speech.

In regard to those misguided individuals who brand me as a notoriety seeker I simply say that they are slanderers and not college men.

As to the attitude of the Socialist element of the College toward me, some of them have personally told me that they would come out with statements for me if it were not for the fact that they expect favors in the shape of tutorships from the authorities, so they are licking the boots of power to save their own necks. I have no respect for they are not real Socialists.

LEON SAMSON.

We publish the above statement of the student who was suspended for refusing to apologize after he had created a disturbance in the Great Hall during the assembly to General Wood.

There can be no objection raised to Samson's using the columns of The New York Call to state his defense—despite that worthy sheet's apparent disregard of veracity. However, one might take exception to the tone of that statement which to say the least was arrogant and unrestrained.

In answer to Samson's charge that he was not given a hearing, we would remind him of the rules of the Joint Committee. The Committee hears witnesses to establish the guilt or innocence of an accused person. It does not hear a defendant in his own defense nor an accuser's accusation, unless there be some question as to the actual commission of the offense. In this case, the guilt of Samson was clearly established. He, himself, does not deny that he shouted out in the Great Hall. As to his reasons for creating the disturbance—they are irrelevant, suffice it to say that he committed the offense

FACULTY NOTES GARGOYLE GARGLES

Professor Morris R. Cohen has been chosen a member of a committee to formulate the policies of a newly endowed commission for the furtherance of research in ethics. The endowment is one of seventy-five thousand dollars given by an anonymous donor. The other members of the commission are Professors Dewey, of Columbia, and Paton, of Princeton.

President John H. Finley's new educational bill has been the cause of a number of meetings and debates among prominent educators.

Professor Duggan was the chairman of a dinner of Local School Boards given last week at Browne's Chop House at which a debate was held on the subject.

Another meeting was held last Friday at the High School of Commerce. Professor Duggan was present, representing the City Club.

"I believe that the passage of this bill which repeals 426 other bills will have a far-reaching and progressive effect on the educational system of the whole state," said Dr. Duggan in an interview. "The Board of Estimate's efforts to suppress its passage are detrimental to the best interests of education."

President, Judge of Debate

President Mezes is to be the chairman of a triangular inter-collegiate debate between New York University, Trinity and Rutgers, to be held tomorrow night at New York University.

Dr. Goldfarb, of the Department of Natural History, has been elected an executive member for five years of Section K of the American Association for the Advancement of Science. Section K is the division which interests itself in physiology and experimental medicine. The other members of the committee are Professor Lee, of Columbia; Professor Winslow, Yale; and Professor Thorndike, Columbia.

Professor Guthrie will be the City College representative at the tenth annual convention of the American Society of International Law, which will be held from April 27th to the 29th.

charged against him. Therefore, it only remained for the committee to set the penalty, as the judge does when the defendant pleads guilty.

Samson's next statement regarding the actual disturbance in the Great Hall is very incoherent and confusing. He showed very little judgment in what he considers action for the welfare of the College. It is unnecessary to remind him that he would be ejected from any theatre if he should be so ungentlemanly as to hiss a performer. Again the significance or insignificance of the disturbance is irrelevant—there was an unnecessary disturbance.

Samson knows that he can obtain redress if he can prove that Mr. Healy struck him. We would advise him to produce his witnesses. It is rather amazing that Samson was able to distinguish Mr. Healy from among all those who were concerned in the confusion that followed his ejection from the hall. We wonder whether this serious charge is not a product of Samson's rather vivid imagination—as the little school child, who, when chided, will solemnly declare that he was struck.

Samson's interpretation of different speeches and statements obtained as he says, "by reading between the lines" leads us to seriously believe that in reading between the lines, he neglected to read the lines themselves. His charge against the Socialists is wild—to say the least, and we do not hesitate to say that it is a falsehood—either deliberate or conjured up from a morbid imagination.

We have attempted to answer Samson's charges and the fair-minded reader will see the fallacies and errors in Samson's statement. Although we think that Samson has been given too much notoriety already, we print and answer his statement to refute the charge that we are a faculty sheet and are unable to answer the accusations he makes.

A City College Anthology

VII. PHILIP REICHERT.
They say,
That when a man has given
Long years to an occupation,
He grows strongly to like it.
MERCURY is my life,
Without me it could not live!
I am MERCURY
And MERCURY I.

ALZEE.

Were it not for the Fresh-Soph scrambles in September, the flag rush and occasional campus disturbances, such as The New York Call and the T. H. H. kids have been supplying, the cops in this vicinity would grow fat from inertia.

The class of 1924, C. C. N. Y., looks highly promising. In one of their offensive skirmishes they nearly mauled up Bigbill Jones. And hadn't it been for the timely aid of Mac Greenberg, poor Jones would perhaps now be persuading Satan to get a cap and gown.

Linguistic Preference.

(With acknowledgment to Norman Salt.)
Some love to hear the Irish brogue,
The Scotch dialect to some is sweet.
The Spanish accent some doth please,
And Swedish, too, some say is neat.
Italian speech but few abhor,
And French, I know, most men adore.
But I a tongue that has no rime
Do love, and that is
Lucian Kolditsch.

Well, DER TAG is April 26, but we should worry. Till then—

Here's hoping you'll vacate happily.

LUCIAN.

Campus Riot Action Taken

The recent disturbances on the Campus has resulted in crystallizing college opinion as follows:

The College men have no objection to the use of the campus by Harris students for quiet recreation and for study. They strenuously object, however, to having small boys eat lunch, play ball, start fights and fling missiles at College men who have gathered on their respective pedestals. The campus is primarily college ground. T. H. H. is invited to use it, but not to abuse it.

Professor Sim, in charge of T. H. H., agrees entirely with the above, and requested the College men to obtain the name of any Harris man playing ball or misbehaving on the campus. He will summarily deal with all such offenders.

1917 Men Meet

The 1917 class held a mass meeting last Friday with Gitelson presiding.

Tryouts for the '16-'17 debate will be held sometime this week. In an effort to help the Microcosm, resolutions will be forwarded to the faculty requesting them to quicken their action on the '17 Mike. As an evidence of the class' good intentions, another resolution will be advanced, all men signing this pledging their support by their subscription.

A committee was appointed to assist the student council in collecting the '16 Mike debts. Charter Day will be graced by an informal dance in the gym. Tickets will be one dollar. The meeting was adjourned with a rousing cheer.

Shrew Cast Complete

Rehearsals on "The Taming of the Shrew" are now being regularly held, and all indications point to its successful presentation.

Two performances were to be given on the evenings of May 12 and 13, but the former date conflicts with Prize Speaking Night. The new dates for the play have not yet been decided upon.

Dr. Taaffe coached the players in the induction last Wednesday, and the others last Thursday and Friday in Room 112. He will post all notices pertaining to the players' rehearsals in particular on the English Department bulletin board as daily announcements may have to be made. All men should have filed a schedule of hours with Dr. Taaffe by this time, so that he may regulate rehearsals for the convenience of the greatest number. It has not yet been decided whether to rehearse the cast during Easter week.

The cast of "The Taming of the Shrew" is now complete.

All students who desire to secure employment during the coming summer should communicate at once with Mr. Katz, of the Employment Bureau. Arrangements are now being made to secure positions for the students and the late comers may find themselves idle.

Evening Session

The Phi Kappa Sigma Fraternity held a supper and gathering in the tower bench room on the evening of April 4. This was one of a series of affairs the fraternity has been holding throughout the college year. A sociable and later a dance have also been planned.

Let us of the Night Session follow the good work which the Council of the day college is doing. We have the material; all we need is the guiding spirit, and Student Council must assume the leadership.

WILLIAM F. REICH, JR.

BLUE AND WHITE WARRIORS VICTORS IN OPENING FRAY

Our Boys Fall Before Brilliant Hurling Columbia Moundsmen—Poor Base-Running Another Factor in Defeat.

The much heralded 1916 C. C. N. Y. baseball team fell into action with the Columbia forces on South Field last Wednesday afternoon. When the din of battle had died away, the shattered Blue and White standard flapped over the field of combat. Our boys were knocked out by a score of 5 to 2, but not until after they had made a gallant fight.

The team showed up well on the field, but the work on the bases was slow and the handling of the bat worse. But two more weeks of practice should strengthen the team in these departments.

Columbia got off with a flying start in the first chapter, when Rosenberg winged Watt, passed Bonajouro and let Mernstein connect with one of his curves. The ball sailed over first and landed deep in the field. Two men crossed the plate before Suffin got the leather to Goldberg, but Mernstein was nabbed stretching his hit to a triple.

Another Columbian registered in the fourth, when Houck smashed a hot grounder to Tinsley, who heaved it high over Si Perkins' head. A fan made bold to pick up the ball and hindered the Washington Bearcat in fielding the pill; but Umpire Arlie Latham wouldn't see it. Houck came home from third on Dwyer's wallop to Tucker. Lane skied to Perkins.

Goldberg started the scoring for C. C. N. Y. in the sixth, when he lined a "beaut" into left field for a single. Rosenberg fanned, Suffin hit a roller to the pitcher, but caught Goldie between second and third. Our catcher then outguessed the pitcher and made third. Kramer walked. Lowenthal slashed a single to left, Goldberg racing home.

Columbia drove home a brace of runs in the unlucky seventh, and we registered one more in the ninth.

Smythe, batting for Suffin, grounded out. Salzman fanned. Lowenthal got a safety on an infield hit and advanced to third on Horak's clout along the third-base line. Tinsley drove Lowenthal home with a hit to short, Horak perching on the midway station.

'Twas two out, two on base and "Spike" Shannon at the bat. A homer would tie the score. "Spike" coolly looked Columbia's lanky hurler, Smith, in the eye. C. C. N. Y. hopes were rising strong. But "Spike" did what fifteen of his team-mates did—struck out.

Goldberg caught his first game and too much cannot be said for him. Rosenberg allowed but a few scattered hits, and if his support had

lightened in the pinches, Columbia would have been held scoreless. Captain Kramer fielded his many chances like a leaguer.

The line-up:

SPORT COMMENT

This season is an auspicious one from the baseball point of view. A fair-sized A. A. appropriation, the Stadium, and a great squad of candidates herald the beginning of a bright baseball era.

All the members of the squad, from Captain Kramer down, unite in praise for Coach Holz, who for the past week has been bending all his energies in whipping the men into form. The coach is an excellent batter and his advice on this phase of the game has proved of immense value. Coach Holz has won the confidence of his men and will doubtless inspire them with the all-important "fighting spirit."

Under the direction of hard-working Captain Kramer, who is an expert, a diamond was cut out in the Stadium Saturday. This diamond is modeled somewhat after Fordham's, one of the finest in the country. Both fields are deep, right field being fifteen feet long and the left garden seventy.

Due to the condition of the

ground, the Stadium field was not used for practice last week, and it was found necessary to obtain a permit for the use of Jasper Oval. There was about an average of thirty men out for practice each day, discounting from our figure the students of the neighboring university.

There seems to be a disposition on the part of some of last season's veterans to evade daily practice. "They think," said one of the authorities, "that because they played ball last year they ought to be handed out berths this season." This will not be the case. Right of seniority is not going to be respected, and the positions will fall to the best candidates. There are a few new men who might be called "fnds," and these fellows will win out over a last year's man who doesn't report for practice.

It is up to the whole college whether or not baseball is successfully established here. It is up to the players to work their hardest on the field, and up to the entire student body in supporting them.

'18 WINS MEDLEY RACE Juniors Make Close Second in Fast Race.

In the last of the interclass relays, the "medley," '18 showed its heels to a classy field. The Juniors were second best, while '19 and '20 finished third and fourth.

The starters on the teams ran six laps; the second men, four; the third, two; the fourth, eight, and "anchor" covered fifteen laps. In the "six-lap" Fischer, '19, led the field by one-half lap, Morris, '18, and Friedman, '17, following. Murray, '19, held his teammate's lead, while Emerson, '18, and Conover, '17, competing second for their respective teams, remained in second and third places. Running third for '19, Wettels easily outdistanced his opponents, MacDonald, '17, and Rudnick, '18, who tied for second. Vriens, '18, and Alshorn, '19, fought it out for first. Webby held third. Jerry held his lead over Alshorn, handing '18's "anchor," Landis, a big lead. Greenberg, '19, started out with a rush, and Skelding, '17, followed suit. Sked kept his eagle eye on Landis, in order not to be passed by that worthy. When he was sure of his position he went out to beat Greenberg. This he did by a wonderful spurt. Landis came out unscathed in the encounter. Sked was second and Greenberg third. '20 was a poor fourth, having been lapped by the three other teams.

Only two teams entered the "medley" for "seconds"—'18 and '17. The Sophs easily copped this event, with '17 an almost close second.

Summaries:
Medley for first teams—Won by '18 (Morris, Emerson, Rudnick, Vriens, Landis); second, '17 (Friedman, Conover, MacDonald, Weber, Skelding); third, '19 (Fischer, Murray, Wettels, Alshorn, Greenberg); fourth, '20 (Rosenberg, Rokov, Handschuck, Phelps, Rosovsky). Time of winner—3:22 1/2.
Medley for second teams—Won by '18 (Jones, Hallberg, Suchman, McGrath, Tucker); second, '17 (Mabel, Tanz, Shubert, Rindler, Weinberg). Time—10:2.

TRACK TEAM PUTS STADIUM INTO CONDITION

Thanks to the perseverance of Mac and the track team, the Stadium track is once more assuming an air of "try-me-out." For about a week the boys, with Mac's aid and supervision, have worked on the track almost daily, with the result that they will soon reap the fruits of their labors—or something like that.

A little outdoor exercise wouldn't harm us. Let us, then, take this splendid opportunity of working in the open by aiding the track team to treat the track. Green cards are not compulsory.

You all expect to use the Stadium some time or other. Do your part of the work. It's not too late. Come on!

'18-'19 Meet in Stadium Today.

In order to settle the question of superiority in track between '18 and '19, the track management has arranged a dual meet in the Stadium today at 12. The managers of these classes are advised to get their men out to make this meet a success.

'19 BASKETBALLERS CAGED BY '16

Fast Playing Ends in Score of 16 to 9.

Nineteen ran up against a stone wall when it met the '16 combination last Thursday, losing by a score of 16 to 9.

The Seniors, led by I. Gilbert Orn.

(Continued on Page Four.)

REORGANIZATION DISCUSSED

A. A. Board Offers Plaque to Winner of Meet.

The A. A. Board has decided to present a plaque to the winner of the Interclass Track Meet. It was announced that the Intercollegiate Freshman Basketball League has not yet been formed, the entry of one more college being necessary. Thus far Yale, Pennsylvania, West Point and C. C. N. Y. have signified their intention of joining. This league will have a common treasury upheld by a fee of \$120 to be paid by each college.

In conjunction with the Student Council, the A. A. is planning to tax each student who enters any activity—be it club, society, college team or any other organization—the sum of one dollar (\$1.00) per year, seventy-five cents of which to go to the A. A. and twenty-five to the Student Council. This will be separate from the regular A. A. and season tickets. A general treasurer—a Junior—will be elected by the students.

One thousand dollars (\$1,000) have been allotted by the Board of Estimate for the improvement of the Stadium. Seven hundred dollars (\$700) will not be spent for the Stadium screen, as previously planned.

The following were elected to fill vacant managerships: Handball manager, Spiegel, '17; assistant handball manager, Brillstein, '18; assistant swimming manager, Jonas Shapiro, '18; assistant tennis manager, "Mac" Cohen, '17.

Forty dollars (\$40) was added to Manager Hertzberg's tennis budget.

HANDBALL MEETING TOMORROW

Plans in the Campaign for the Title Are On.

C. C. N. Y. is endeavoring to follow up its successful year in athletics by clinching the handball title.

Practice is to begin very shortly and candidate for the team are urged to meet Bernard L. Spiegel, manager, in the A. A. room on Thursday at 1.05. Discussion regarding the schedule, trips and the choice of a coach will be held.

1920 Starts Smoking

"Twenty" entered the social life of the College with its smoker last Saturday. A large and enthusiastic crowd turned out.

Milton Schattman was one of the notables present. On behalf of the Council he handed out advice to the Freshies. He brought out the importance of extra-curricular activities and urged the men to enter into all of them.

Irving Berlin's rags were sewed up by Tommy Tucker and Rudy Pelunis, '18. Billy Nutt, '20, pulled cabaret stuff, and a professional from the Loew circuit did some turns. An upper classman (sh—mysterious stuff) twanged away on his banjo in the intervals.

George M. Hyman, president of the class, gave a brief, direct talk emphasizing the necessity for the class to stick together and asked the co-operation of every man in the unification of the class.

The committee, to which praise is due for its excellent work, consisted of Lachowski, chairman; Gelb, Sugarman, Nelson and Hecht.

Get the Range of Smoking Satisfaction

Roll "Bull" Durham into a cigarette and you have a smoke with all the vim, vigor and dash of Uncle Sam's fighting men. That's why the American Army is an army of "Bull" Durham smokers. "Bull" Durham puts snap into their action and "punch" into their systems. For a virile, lively, manly smoke, "roll your own" with "Bull" Durham.

GENUINE "BULL" DURHAM SMOKING TOBACCO

"Bull" Durham is the mildest of all tobaccos. It has a unique aroma and a distinctive mellow-sweet flavor that no other tobacco can give you.

Made of the famous "bright" Virginia-North Carolina leaf, "Bull" Durham has been the great American smoke for three generations. You "roll your own" with "Bull" Durham and enjoy a real smoke.

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

THE AMERICAN TOBACCO CO.

(Continued from Page Three.)

stein, had things their own way during the first half, rolling up 10 points and holding their opponents scoreless.

Steerman started proceedings with a field goal. Ornstein caged one. Spinner tallied twice on free tries. Rivlin, with two pretty shots, ended the scoring for the half. It was fast going all the way.

With a changed line-up Nineteen came back strong. During the first few minutes the Seniors were swept off their feet. Morris tallied Nineteen's first points with a neat shot from mid-field. Welner added another one from the foul line. Morris made it one more with another foul. It looked bad for '16, but Ornstein, with one of those long shots, put courage into the hearts of the Seniors. They then started to sew up the game. Rivlin got a basket, his third, and Spinner a foul. Nineteen made several substitutions.

The new men, by some clever passing, did more scoring in five minutes than their predecessors during the entire game.

Let us forget. Felix Kramer got in and also scored.

SENIORS CONQUER FRESH QUINTET

The lofty Senior met the lowly Freshman on the field of battle Tuesday, March 28, and in accordance with the principles of pacifism dealt him the deadly blow.

The Senior quintet romped away with the best played game of the year, when they downed these same humble Freshies by a score of 30 to 12. For the first time this season the Seniors had their regular men on the floor, and what they did to the Freshies was to be expected. The splendid passing of the upper class men and the poor guarding of the '20 team were conspicuous.

Ornstein and Spinner starred for '16, while Rivlin caged a number of baskets from all corners of the court. Moskowitz and Felmberg played well for the Freshmen.

The '17-'20 game, which was scheduled for last week, will be played tomorrow. Both teams are evenly matched, a fact which will add to the interest of the match.

PROMINENT VARSITY NATATOR TO LEAD TEAM NEXT SEASON

Through an unfortunate error, the election of Bosworth to the swimming captaincy was omitted from the sporting news last week. We take this opportunity to apologize to him and to assure him that it was not intentional.

Since his Freshman year, "Boss" has performed admirably for the college. His election shows that the amphibians appreciate his past record, in the hope that under his captaincy City College will have even more success than in the past season.

The Track Management gave us three erroneous results of the Interclass Track Meet: Milt. Schattman, '17, third in the "440," and Young, '18, fourth, instead of the other way around. Roller, credited by the Track Manager to be a '19 man, is in reality a staunch '18 contender. After having studied rule books and consulting Mac, the Assistant Manager finally decided that third place in the high jump goes to Donaldson, '18, and fourth place to Seidel, '19.

These corrections having been verified and certified by the diligent Track Managers, the official joint score now stands in favor of '18 with 45 points; '19 is a very close second with a score of 44, followed by the '17 class which tallied 31; '20 and '16 have 5 and 2 respectively.

MUNICIPAL SERVICE REPORT.

(Continued from Page One.)

thorough study and survey which have been made."

The Trustees, however, are unwilling to follow the recommendation to create a directorate of public service training at the City College. They hold that "public service is a phrase which is used to cover a great variety of interests. All education given at the college is predicated upon the intention to create capable citizens, and the college should not yield to the desire to emphasize features which lead students to imagine that they may quickly find place in public service in this city at the risk among other matters of doubt or lowering a standard of scholarship to which the college must always strive."

The resolution of the Board of Trustees calls for the appointment of a College Standing Committee on Public Service Training, to consist of the president and four members of the faculty to be selected by the president. This committee will report to the Board of Trustees such courses "as shall be desirable to co-ordinate the work of education with the duties of municipal employees."

Tables Present Many Facts.

The statistical tables included in the report are the result of a most painstaking and intensive study of the present organization of the municipal service. Table 1 is an especially commendable piece of work. This chart is a complete picture of the municipal service as it is at present. Each of the 86,397 positions in the city government is listed. The committee classified these positions into 371 types, distributed among 62 departments and bureaus. Table 2 shows these positions grouped vocationally. Table 6 contains a summary of the numbers and salaries of certain typical positions which might be regarded as attractive to college graduates. Table 7 shows the number of appointments made to all positions during the years 1908-1915 from competitive eligible lists, and stars indicate those positions which are most likely to appeal to college students or graduates. The last table contains a list of probable examinations for the year 1916.

Problem a Threefold One.

Professor Brethout's report says: "As a result of its investigation the committee finds that the problem of municipal service training resolves itself into three distinct parts:

- (1) The training of those already in the public service.
- (2) The training for entrance into the service in the lower grades.
- (3) The training of those in groups (1) and (2) for the higher positions: "Technical, professional and administrative."

Space will not permit us to discuss here all the recommendations made by the committee. The suggestions "for immediate action" are, however, interesting and important. The committee recommends that there shall be appointed at the college a Director of Public Service Training. "It shall be the duty of this officer to keep a record of all municipal positions which are open to college students, and the subjects and dates of approaching examinations. He shall also establish at the college, in co-operation with the Municipal Civil Service Commission an intelligence office or clearing house for civil service positions, and he shall be prepared to advise students as to the courses and methods to be pursued in preparation for such positions. He shall confer with the civil service commissioners and chief examiners as to the relation between college instruction and civil service, as to examinations, standards, credit for field work and eligibility."

It is further recommended that a College Standing Committee on Public Service Training be appointed

(Continued, Column Three.)

ZETKIN WINS IN THE INTERCLASS TOURNAMENT

M. "Zimmis" Zetkin, '17, of wrestling fame, "beat" "Tubby" Schwartz on points last Thursday in ten minutes. This was Schwartz's first try at the grappler's game and he has hopes of some day beating the unexcelled "Zimmis."

In the other bout of the hour, Kunan did up Kaufman in the short time of 2.32.

The wrestling tournament will continue every week hereafter, the next bouts being held tomorrow at noon in the "gym."

Addition to List

Through some unexplained error, the names of three initiates to the Soph Skull were omitted in these columns last week, although they were mentioned in the matter submitted to the printer. The names of Henry Tucker, baseball team; Hallberg, cheer-leader, and Howay, swimming squad, should be added to the list.

to co-operate and advise with the director. Such a committee should have among its membership representatives of the departments most concerned in the technical training of those who will enter public service.

Co-operation between the college and the Training School for Public Service and the Bureau of Municipal Research, especially with a view of exchanging students, instructors and credit, is advised.

College Center for Problem's Solution.

In conclusion, the committee states "its belief that the City College, of all institutions of learning, is in a strategic position to attack the problem of public service training. If this institution fails to undertake this work, democratic education is missing one of its highest functions and one of its truest opportunities."

What better return could an institution such as ours give to the city which maintains it than a body of public servants specifically trained for the work they are to perform? The citizens of this municipality naturally look to their college to supply this need. Indeed, the college has frequently been described as a civil West Point.

Mutual Help Practicable.

"The college, in turn, feels able and glad to serve the city. And this is said, too, with a full realization that the college has as much to learn from the city departments as the city departments have to learn from the college. Certainly nothing but good to all concerned—citizens, city, students and college—can accrue from such understanding and such co-operation."

Official Notice

The Joint Committee on Student Affairs was informed by the President of the Student Council that the following resolution had been unanimously adopted by the Student Council on March 31, 1916:—

The Committee was further informed that Mr. Samson had refused to apologize, and the matter was referred to the Committee for action. The Committee accordingly voted that Mr. Samson be suspended until September, 1916, and be not then reinstated unless he shall have met the requirements of the Student Council.

April 4, 1916.

College Men in Boy Scouts

The fact that a number of College men are in Troop 121, N. Y. of the Boy Scouts, was brought out by Mr. Lorne Barclay at a recent Menorah forum. The troop which is considered by many to be one of the most progressive in the city, is under the scoutmastership of Arthur C. Epstein, '08.
