Penn. Swimming Meet
This Friday Evening
In Our Pool

VOL. XVIII. No 2.

FEBRUARY 16, 1916

PRICE TWO CENTS

PRINCETON AND ANNAPOLIS OUTSWIM OUR VARSITY

Jones Breaks Annapolis Plunge Record - C. C. N. Y. Water Polo Team Furnishes Surprise of Princeton Meet. Scores Against Opponent's Strong Team Meet Penn. This Friday Night

The Annapolis Swimming Team defeated our natators, last Saturday evening, by a score of 50 to 13. The only first we took was in the plunge. Bill Jones traveled the length of the Naval Academy Pool—60 feet—in 29 seconds, thereby breaking the record for that pool.

The summaries:
Hundred and Sixty-yard Relay—Won by Navy, with Cook, Herndon, Dishell and Browning. Time, 1 minute, 21 4-5 seconds. City College swimmers, Howay, Bosworth, Handschuck and Behr.

Plunges for distance, first, Jones, New York C. C., 60 feet, in 29 seconds; second, Post, Navy, 60 feet, in 33 seconds; third, Coney, Navy, 60 feet, in 55 seconds.

Forty-yard Dash—First, Herndon, Navy; second, Browning, Navy; third, Behr, New York C. C. Time, 21 1-5 seconds.

Forty-yard Breast Stroke—First, Vytlacl, Navy; second, Babor, New York C. C.; third, Caldwell, Navy. Time, 26 1-5 seconds.

Hundred-yard Dash—First, Cook, Navy; second, Dashiell, Navy; third, Bosworth, New York C. C. Time, 59 4-5 seconds.

Forty-yard Back Stroke—First, Post, Navy; second, Behr, Navy; third, Behr, New York C. C. Time, 25 seconds.

Two Hundred and Twenty-yard Dash—First, Haight, Navy; second, Eekhout, Navy; third, Howay, New York C. C. Time, 37 minutes, 44 seconds.

Tiger Wins

The Princeton Swimming and Water-Polo Teams, both of them crackjacks, defeated our amphibians last Friday evening by a score of 46 to 8 and 35 to 2, respectively.

The surprise of the evening came in water-polo. The Tigertown boys have the strongest water-polo team in the Swimming League and all they could do was score seven goals. They had a hard time doing that, for our boys played like fiends and had them going.

At one time, our boys got the ball and started passing it around for several minutes among themselves. The Princeton team was unable to obtain the ball and protested to the referee who, surprisingly, shut them up.

Auerbach scored our two points, on a free throw. This is the second time we have scored this season and this is the first season we have been able to score in three seasons.

The team-work of our boys was very good. Considering that Princeton beat Penn by a score of 68 to 6, we did remarkably well. It was necessary to recruit Bosworth, we are informed, in order to have a complete team in the pool.

As to the swimming races, although the score is large, the races were all close. Burdenal was the star of the meet, winning the 50 and 100, beside bringing home the bacon in the relay race. Bosworth starred for our boys, swimming in three races and playing polo.

The best race of the evening was the 100. Bosworth led for three lengths and it certainly did look as though we were going to win when Burdenal came through with a sprint, closely followed by Lester.

Bill Jones, the newly-elected captain of the team, plunged 65 feet, thereby obtaining the only second place we managed to get.

EXTRA

Felix S. Phillips, Lower Freshman, of 204 West 118 Street, while on his way to the natatorium with a Hygiene One squad yesterday afternoon, stumbled on the stairway and was hurled head first, to the landing. Death was instantaneous, his neck having been broken.

Dr. Brehner of the Department notified Phillips' father. The youth's mother died but a few months ago. He graduated from Townsend Harris Hall only last month.

His nearsightedness and the fact that he was not wearing his glasses at the time, contributed to causing the fatal accident.

EX-WARDEN OSBORNE AT SOCIAL SERVICE DINNER

Will Speak on Industrial Service - Y. M. C. A. Plans for Term Announced

Thomas Mott Osborne, ex-warden of Sing Sing, is announced as the main speaker of a "Social Service" dinner of the Y. M. C. A. in the student concourse on February 29th, at P. M. His subject will be industrial service for college men and prison reform.

Everett P. Wheeler, President of the City College Club, will address the diners as well as some of the alumni and faculty who will attend.

The various lines of social service will be elaborated on by the student speakers, and newcomers will be introduced to the activities of the association.

Tickets which cost \$25 may be secured from members and in Room 16-A.

Increase in Mid-Term Registration

In the entering class of the College are registered 345 new students, of whom 215 come from other institutions than the preparatory department, and 120 from Townsend Harris Hall.

This makes the complete College registration 1,939 at the present time, as compared with 1,845 at the beginning of the Spring term last year.

CALENDAR FOR THE WEEK

(Inserts for publication must be received by Friday.)
Thursday, February 17th.—12 M. Social Club, 12.
Friday, February 18th.—3 P. M. Herberman Classical Society, 24.
Saturday, February 19th.—8 P. M. Meeting of Chemistry Teachers' Club.
Sunday, February 20th.—2 P. M. Joint Meeting of the City College's Menorah Societies, Doremus Lecture Theatre.
Wednesday, February 23rd.—Third Issue of THE CAMPUS.

COLLEGE EXPANDS

Broadens Scope of Activity Through Municipal Courses

"In August, 1915, Mayor Mitchel appointed a committee of six to bring together in helpful co-operation the courses of instruction which were being conducted for city employees by the Extramural Division of New York University . . . and those offered by the Evening Session of the College of the City of New York. Through the medium of this Supervising Committee, the two institutions now join in organizing instruction which is designed to broaden the outlook of those engaged in the work of the municipality and to increase their technical knowledge and skill. . . ."

"These courses are designed to meet the needs of persons in all grades of services. Fundamental work is provided for those who wish to supplement their mastery of particular, localized tasks with a general fundamental training which may enable them to appreciate the broad field, to assume higher executive positions and to undertake more intense specialization in a definite direction. Special courses will be conducted in a thorough manner so as to prepare students for new positions or to offset the tendency to fall into the ruts of routine and antiquated methods."

So reads the register describing the courses offered by City College and New York University in the Municipal Building. Since its publication, the Supervising Committee has placed all the work for Municipal students under the direction of the College. The present article was written largely to acquaint the regular day students of the College with the manner in which their institution is expanding and the prospects of future growth.

The traditional and agreed function of the City College is to prepare men to take their rightful place of leadership in the affairs of the City. "Effective and intelligent training for citizenship" must ever be the City College slogan. Men of sharpened insight and vision broadened by intimate contact with the best current knowledge of science, language and art will make ample return for the city's educational outlay by increased devotion to the city's interests. The College of the City of New York encourages its young men to continue their fundamental education as long as they can, and to undertake specialization as late as possible, affirming thereby that later specialization will be more effective. But adverse economic conditions frequently compel our students to cut short or to terminate entirely their broad interest in fundamentals, and to embrace whatever opportunity is afforded to specialize in such fields as lead immediately to the satisfaction of bread and butter demands. Such diversion from the regular and established course is not the result of deliberate choice, but is motivated by economic insecurity. The City College, seeking to meet this emergency, broadens its scope when it provides not only cultural, but also specialized courses, for instance, courses in business, accountancy, and the like.

The City College in promoting and encouraging evening sessions of the regular College courses of study, is offering excellent opportunities for self-improvement through broad culture to the young men who are doing the world's work in factory and office. It is the combination of two things; actual participation in

N. Y. U. VARSITY DEFEATS CITY COLLEGE QUINTET

University Five Barely Succeeds In Triumphant Over Our Men. Game Repete With Rough by Playing N. Y. U.

Holman's Guarding Feature of Game

The New York University Varsity Five defeated our Basketball Team by a score of 32 to 23 last Saturday evening, in one of the most exciting games of the season.

From the start it looked as though there would be blood-shed. First off, N. Y. U. refused to accept our officials. So Is. Ornstein went hunting around town and finally picked the Thorpe Brothers who were acceptable to our visitors. They had quite a little cheering section of their own. Not that there were no City College rooters up there.

The crowd was big enough to warrant Solon Bernstein's looking

happy these days. (Solon's the A. A. Treasurer, if you remember rightly). The Faculty were represented, all right. Quite a number of them were up with their wives. It looked as tho every-one who had heard of either of the two Colleges were there.

The N. Y. U. Boys had our team outweighed some thirty pounds to a man. Their shortest man was about as big as Joe Drake. So you can just about picture what little Holman looked like when he stood up against Cann of N. Y. U. Near the end of the game, when Coach Palmer took out Joe Drake, Lefty was the biggest man we had, and Harry Schwartzman the heaviest.

For sheer playing ability, we'd pick our own varsity any day of the year. We're better players than they are. The only reason they shoot so well is because they don't shoot—if the parabox is possible. They walk up to the goal and stoop down—taking care not to hit the beams—and drop the ball in.

The N. Y. U. team is a football team, not one of the Basketball variety. Almost every man they had on the floor has played football for them. They simply tore through our boys, when Mussy gave them a chance.

As it was, they all played good games—meaning the visitors. For their style of play, they're stars.

Every man on the field played a sterling game for us. Lefty with his crack foul shooting, Bronstein with his marvelous shot, Tich with his own brand of field goals, Joe Drake, who played better than usual, and Holman It was all Holman. His guarding was the finest seen on this court. In spite of the fact that his opponent, Cann, was about twice the size of him, he stuck to his man like glue, and when he was put out of the game because of too many personal fouls, the crowd certainly gave him some ovation. He was hurt in the first half, but he managed to stick it out.

All we have to say about our team that for a City College team, it is one of the finest playing teams we have ever had. And City College teams are always good. With a little more weight to our teams, we'd trim any basketball team out. And that goes.

When the men lined up for the first jump, Mooney looked terribly big against Joe Drake.

Ed. Thorpe threw up the ball, blew the whistle and the game was on. Mooney got the jump on Joe, and passed to Cann. Holman tackled Cann, took the ball away from him and passed to Julian Bronstein, who from the three-quarter line, caged the finest goal we have ever seen. The ball didn't even touch

(Continued on page 3)

CLASSES ELECT THEIR OFFICERS DURING THE WEEK

Contests Already Held in Three Classes—In Rest This Week

Job-hunters are having the time of their lives these days—class elections are in season. They were held in the June '16, February '18 and June '19 classes last week, and will be held in the remaining classes this week. The lucky candidates:

JUNE, 1916
Herman Grablowsky, President; Jacob Livingston, Vice-President; Lucian Lamm (yes, our own Lucian), Secretary, and Herbert Ackman, Treasurer.

FEBRUARY, 1918
James Mendelson, President; Morris Engel, Vice-President; Morris Reichel, Secretary, and J. Rudnick, Athletic Manager.

JUNE, 1919
Here, after rather exciting campaigning, six T. H. H. men were selected by the voters: Abraham Tow, President; Nim Cohen, Vice-President; I. J. Palestine, Secretary; Jacob Needles, Treasurer; Shirley Epatain, Athletic Manager, and Raphael Phillipon, Marshall.

The '20 Class held a Mass Meeting under the auspices of the Student Council on Friday last in the Great Hall. Mr. Norman Salt, Vice-President of the Student Council, acted as Chairman, and told the Freshmen of their opportunities in extra-curricular activities while in college. He pleaded with them to go out for athletics, join the societies, and take part in student affairs.

Mr. Whitner, of the committee that will supervise the '20 Class, then spoke. His statement that he felt confident that the '20 class would follow the other even numbered classes, '16 and '18, and come out victor in the Fresh-Soph activities, was greeted with much applause. The announcement was made that elections would be held for class officers and Student Council Delegates and that nominations were open.

Dr. Henry Hurwitz, National Chancellor of the Menorah, then told the new men about the advantages of the Menorah Society. He emphasized the non-sectarian policy of the Menorah movement and invited the Freshmen to join.

STUDENTS' AID TRUSTEES MEET
A meeting of the Students' Aid Trustees was held on Monday, February 14th. Meetings will now be held regularly. All information regarding the committee may be had at the Dean's office.

COLLEGE SPORTSMANSHIP

"College Sportsmanship" is a hallowed term-hallowed more by the ideal man which is conjures up than by empiricism. Time and again, we have seen visiting teams in a moment of desperation...

We ourselves, are not free from the taint. Only last Saturday we were guilty of an offense both flagrant and disgraceful—that of hissing at a referee's decision.

SHOULD THIS BE NECESSARY?

One naturally associates the spectacle of a stairway littered with lunch paper and fruit skins with the elementary school and the six-year-old child. Would you say that City College harbors a number of morons...

THE LATENESS RULES

It is gratifying to note that the usual disorder and confusion resulting from a misunderstanding of the rules regarding lateness and absence has been conspicuously absent this term.

Assistant Wanted in the College Library

To the Editor of "The Campus": Sir: I have a proposal which I think you may be willing to lay before the students of the College. I may say that it met the approval of the President of the Student Council last term...

requisite to that improvement could not be found.

In this situation I would call upon the students for assistance, and I believe there will be ample response. Mr. Schwartz and I now often receive timely aid for which we are indeed very grateful.

There would be compensation in the experience gained in regular library work, for which I could give credits and recommendations of some value.

Those who wish to know more of this matter should apply to Mr. Schwartz in the Library this week or next. Sincerely, HENRY E. BLISS, Acting Librarian.

FACULTY NOTES

Professor Saurel, of the Mathematics Department, returned Monday to resume his duties after an absence of over a month, due to a severe attack of pneumonia.

Dr. Paul H. Linehan of the Mathematics Department was awarded the degree of Doctor of Philosophy in Mathematics by Columbia University on February 15th.

Altho not fully recovered from a severe attack of laryngitis, Professor Baskerville has returned to his lectures, much to the pleasure of the students in Chem. 1 and 2.

Chemists Very Active Dr. Estabrooke spoke on "Trench Gases and Masks" at the last meeting of the Chemical Society.

At a recent meeting of the Chemical Society, Professor Friedburg delivered one of his usual interesting talks on "Whiffs from the Work-shops of a Chemist and Scraps from his Desk."

Dr. Baskerville addressed the 31st Annual Banquet of the Drysalers of New England on the "Preparation of American Chemical Industries for Peace" on January 26th.

"Chemistry and the War" was the subject of Dr. Baskerville's talk before the Amicible Union at the University Settlement on January 30th.

The current issue of the Journal of Industrial Engineering Chemistry also contains an article on "Refining Vegetable Oils" by Professor Baskerville.

The Food Symposium meeting of the New York Chemistry Teachers' Club will be held at Rensenweber's and P. and S. on Saturday Evening, February 19th, at 8 P. M.

The first issue of the Filter Press, official organ of the club was issued last week. Dr. Curtis of C. C. N. Y. was elected editor by the club.

The paper contains the minutes of previous meetings, reports on new mechanical devices, trips thru manufacturing plants and clippings from other publications.

Prof. Heckman Lectures

Dr. Samuel B. Heckman, of the Department of Education, will lecture before the Federation for Child Study on "The Rights of the Child to be Understood," to-morrow afternoon.

In the current number of School, Dr. Heckman is the collaborator with the editor on an article concerning the work of the clinics supervised by Professor Heckman.

The article gives special attention to reasons for truancy and causeless absences.

How fruitful of results is the research, and how extensive the excavations carried on, on the site of the ancient Roman Forum, was the substance of a scholarly lecture delivered by Professor Edward W. Clark, archaeologist and educator, of Rome, on January 13th.

The "Cannibals" Convene

"The Cannibals" met at Castle Inn to discuss the latest current topics and smoke their briars. At the previous meeting, the Cannibals listened to a most interesting talk by Professor Robinson of Columbia.

Gargyle Gargles

Within Our Midst

A crash! A wall! The limousine sped on, and left its victim sprawling, senseless. Two more rushed to help the fallen. They gasped! ... An old man! ... Dying!

According to Prof. Klapper, the method of teaching must be adjusted to the pupil's age and understanding. Wonder how Prof. Johnston handles that one about G. Washington and the cherry tree.

The surprise of our young life came last Sunday. We attended the wedding of an alumnus and a telegram of congratulation from President Wilson was not read.

Classroom levity is, at times, justifiable. But when a student of Applied Economics, on being asked to name a corporation, to which the Sherman Law might be applied, said: "Billy Watson's Beef Trust"—well, that o'erleaps ALL bounds.

The young hopeful and heir to the hurrah sat laboriously turning page after page of this book.

"That's right, my son!" said his father. "I am glad to see you make a grand survey, a circumspect examination of the whole field of study, before attempting the details."

"Aw, that ain't it, Father! I'm lookin' ta see if there's any pitchers that takes up a lot o' space."

Our good fortune these frigid A. M.'s is unprecedented in its intensity. Frinstance, one morning only eight Bronx trains, each five minutes apart, preceded a Broadway.

They All Look Good, Etc.

That young lady From Worcester. We thought her a squab But she turned out A rochester.

Sir—I "sprung" this one on my "prof." Said he, "Please write your surname." Said I, "I'm a girl. I have no surnames!" Don't you think this is a dandy "contrib"?

ELAINE T. Say, Elaine, you're lucky the age of chivalry isn't dead yet.

In one respect, at least, our College environment is truly rural. You can tell it snowed two months after a snowfall.

The Advertiser's "Amores"

If successful thou wouldst be in masonry, Give heed unto thy haberdashery.

Our more or less esteemed contemporary, THE NEW YORK AMERICAN, states that "the Joliet Township High School has declared that Shakespeare, Tennyson, Milton, Goethe, Longfellow, Chaucer, Dante, and Poe, shall be ousted from the curriculum of the literature department."

*** The New York Journal's editorials. LUCIAN.

Social Club Adopts Constitution

The first regular meeting of the Social Club for this term will be held to-morrow in Room 12, at 12.45 P. M.

Last week at a special meeting of registered members, a constitution was officially endorsed and the aims of the Society set forth and explained. The fact was emphasized that in order to get a Social House or, as the Alumni are planning, a combined Library and Social House...

Following are excerpts from the constitution:

Elections Among Zionists

The newly organized Zionist Society held an election of officers last Thursday. E. Gamoran '17, was chosen President, I. Konowitz '17, Secretary, and F. Rabinowitz '17, Treasurer.

Prominent speakers will address the club during the term. It will meet regularly on Thursdays at 12 in room 308.

Appoint New Supervisors of Instruction in T. H. H.

The recently appointed Administrative Board of Townsend Harris Hall, the heads of the departments of the College, and President Mezes, have appointed the following supervisors of instruction in the preparatory school who will act as heads of the departments in that institution:

Dr. Stair, English; Mr. Chase, Drawing; Mr. Canfield, History; Dr. DeWalsh, German; Prof. Brown, Greek; Prof. Fuentes, Spanish; Dr. Camera, French; Dr. Quackenbos, Latin; Dr. Lineham, Mathematics; Dr. Wetzel, Physics; Prof. Holton, Woodwork; Prof. Lett, Natural History.

Pol. Sci. Courses Over-crowded

So numerous have been the applications for admission to Professor Woolston's course in Statistics that it has been necessary to create a new section.

"This," said Professor Clarke, head of the department of Political Science, "is a refutation of the claim, so often made, that students elect Political Science for easy courses. The young men who take Professor Woolston's course have to work and work hard and yet so many apply that a new class must be formed."

Lectures Before the Newman

A lecture on "Modernism" was given by Father Chambers of the Church of the Blessed Sacrament before the Newman Club last week. This is the first, this term, of a series of lectures to be delivered every alternate Thursday before the club.

At the meeting Henry Mannix, '17, was elected Vice-President in place of Moonan. A committee in charge of Bracken, '16, was appointed to make arrangements for the annual spring "Communion Breakfast" of the club on March 12th.

The Verein Elects

Henry Caro was elected President of the Deutscher Verein at the last meeting. Gustav T. Nebel, Vice-President, Henry Jahrling, Secretary, and Adolph Geiger, Treasurer. The new officers are to be installed to-morrow in Room 308.

A lecture by Professor Hartmann is announced for the following meeting.

A luncheon to Principal Ernest Von Nardoff of Stuyvesant High School on January 19th, at which our scientific courses were the subject of discussion, was attended by President Mezes and six members of the Faculty.

Since January 27th, the President has been giving a series of "get-together" dinners at his home with members of the Board of Trustees and Faculty as guests.

"Production of Monsters" "The Production of Monsters" was the subject of an illustrated lecture delivered by Professor Goldfarb before the Biological Society last Thursday. He was followed by L. Levy, '16. Discussions and refreshments completed the meeting.

N. Y. U. TRIMS US

Continued on page 1

the rim. This in the first five seconds of play.

The crowd went wild. It looked as though we ought to be able to trim the visitors.

Ed Thorpe called a foul on Tich. White caged the shot, making the score 2 to 1, in our favor. Lefty added to our one point lead when he caged a foul shot. Then the boys started some pretty passing. We had it all over the N. Y. U. Team. They were absolutely bewildered. The Thorpe twins called a foul on Cann for tackling Holman and we got another point.

On a double foul on Bronstein and White, neither White nor Lefty, the foul-shooters, were successful.

Something occurred that caused the crowd to hiss the referee. The ball was thrown outside. Ed Thorpe yelled "New York out." Tich thought that he meant that it was our out, so he picked up the ball. White of N. Y. U., who, by the way, is a very good friend of the referee, said to him, "Foul for delaying the game." Whereupon the referee yelled, "Foul on City College for delaying the game." Not that we think the referee was unfair! Not in the least. But we were about one foot away when this happened and the Gym Department never told us that we're particularly deaf.

When the crowd heard what Thorpe said, they started to hiss and jeer, all of which isn't particularly gentlemanly. The referee announced that any more hissing would cause a foul to be called on our entire team; no more hissing! White didn't make the shot.

Cann caged two beautiful shots for N. Y. U. A foul was called on Bronstein for a discontinued dribble. White didn't get this one either. Lefty caged a foul shot. White had another chance at a foul, and didn't make it.

White's foul shot made the score 6-6. Tich caged a peach of a goal with Bronstein's assistance. Lefty and White got a foul shot. Cann and Mooney got a field goal apiece between them. Lefty and White caged two foul shots each, and Cann got a peach of a field goal. Some one sat on Holman, injuring his right leg. The half ended with the visitors in the lead by a score of 15 to 10.

Between the halves the City College and N. Y. U. cheering sections had a contest, apparently, in each they tried to find out who could make the most noise. The singing and cheering was very good, particularly our cheering. Hallberg, the newly elected cheer-leader, officiated for the first time, and certainly did get a lot of stuff out of our crowd.

The second half opened with a foul on Cann, which Lefty caged, making the score 15 to 11. Tich's first goal brought the score to 15 to 13, but Egan's first goal of the evening made N. Y. U.'s end of the score two points bigger. A foul shot by Lefty and a field goal by Egan made the score 19 to 14.

Coach Palmer substituted Projansky for Bromstein, Tichinsky for Drake, and Lipsky for Tichinsky. White caged two field goals and Lefty got one. Score 21 to 15. A personal foul was called on White, making his fourth of the evening. He was taken out and Carroll took his place. Lefty caged the foul shot.

Cann, now shooting fouls for White, had two tries and got one of them. Lefty came back on a foul on Cummings. Two field goals by Cann and Mooney and Cann's goal on foul made the score 27 to 17, in N. Y. U.'s favor. Holman was taken out because he had four personal fouls on him. Harry Schwartzman was sent in for him. Cann caged a foul shot. 28 to 17. Two beautiful goals by Tich and a foul shot by Lefty made the score 28 to 22. Egan caged two field goals, and Lefty caged a foul. Score, 32 to 23. The final whistle blow, several seconds later. The N. Y. U. crowd didn't seem particularly proud of their victory. We don't blame them.

When you come down to brass tacks, it's a football team that makes a basketball team. That's the why and wherefore of N. Y. U.'s victory. The N. Y. U. crowd were particularly impressed by the playing of our two guards, Holman and Lefty. When the former was taken out, the

Penn. This Friday

This Friday, our natators meet the U. of P. boys, who have beaten us once at the races and in the Water-polo game. A chance for revenge! Be there!

A new faculty committee to take charge of the athletic affairs of Townsend Harris Hall has been organized. The Advisory Board which is to supersede the present administrative body, consists of Drs. William A. Whyte, Chairman, George P. Quackenbos, Secretary, and Paul H. Lineham, Ellis A. Johnson, Chas. E. Marshall, William H. Fernschild and Louis S. Friedland.

TRACK NEWS

Prospects certainly do seem bright in the track line for the coming season. Only the other day, we met a Freshie (name forgotten), who some time ago copped first place in the Mile Run at the Millrose A. A. Games.

Joe Scariata is the only track artist of any ability who was lost thru graduation. Of course we have gone and lost several men thru flunks but that shouldn't make any difference. Apologies are due to Allan Conover, '17, and Bill Cairns, '18, for the omission of their names from the list of the veterans of last year's Baseball Team.

Apologies are due to Tichinsky for misspelling his name throughout our career as Sporting Editor of The Campus.

Apologies are due to Mussy Holman for calling him Mussy, a name he doesn't care to see in print.

On the return of the Swimming Team from its trip to New Haven, and Amherst, I was so enthusiastic at the reception given us, especially at Amherst, that my account to Mac was both flowery and voluminous. It is at his suggestion that this article is placed before the student body, sans flower but with all the facts.

How the team made out is known to everyone. The scores, it is true, were mighty against us, but the competition, close and hard-fought, was encouraging to those who are looking to next year. Every man on the team did his best and it may be safely predicted that 1917 will see a winning aggregation from C. C. N. Y.

The Swimming Team must have more backing and support. Whether winning or losing, the pool should be full of spectators to cheer the boys on and make them realize that they are competing, not for themselves but for C. C. N. Y. Incidentally, the department will be made self-supporting, but what is more important, the number of men trying for the team will be increased. From a large squad, with the difficulty of making the team increased, a good strong, well-balanced representation is inevitable.

Turning from the team itself to the reception at Amherst, I am pleased to say that if there is any institution with which we must continue relations in swimming, it is Amherst.

The men from C. C. N. Y. were met at the Gym and promptly taken in pairs to the different fraternity houses. There they were given the opportunity to rest, given dinner, and treated royally. After the meet, the competitors were again taken to the houses where they spent the night. Each man was afforded a hearty welcome and was made to feel at home. The spectators filled the pool liberally to overflowing in spite of the fact that the total register of the school is about 400.

Can't we have the same spirit here? Can't we, when another team comes as our visitors, make them as comfortable as our boys were made? Think it over, fellows, and next year you'll have a chance to reciprocate.

J. JOHN SCHULMAN

visitors' cheering-squad cheered him. Perhaps it was because they were glad he was out. Perhaps it was because they were delighted by his playing. We'll let it go as combination of both.

Credit is particularly due to Lefty. His wonderful foul shooting gave us whatever chance we had for a victory. A sporting writer for N. Y. U. asked us how much longer Lefty would be in College. When we told him that this was Lefty's senior year, he smiled. We wonder why!

The two classy Freshies, Lipsky and Projansky, played for the Varsity for the first time, and they played pretty well, considering the size of the men against them.

We'll lay for New York University next year, and here's hoping that we trim them!

The Line-up:

N. Y. U. (32) C. C. N. Y. (23)
Cann—R. F. Bronstein
Egan—L. F. Tichinsky
Mooney—C. Drake (Capt.)
Cummings—R. G. Letkowitz
White (Capt.)—L. G. Holman
Substitutions.—Carroll for White.
Projansky for Bronstein; Tichinsky for Drake; Lipsky for Tichinsky.
Field Goals.—Cann, 5; Egan, 4; Mooney, 2; Tichinsky, 4; Bronstein, 1.

Goals from foul.—Letkowitz, 13 out of 14; Cann, 2 out of 3; White, 7 out of 10.

Time of Halves.—Twenty minutes each.

Score at end of first half.—15 to 10, in favor of N. Y. U.

Final Score.—N. Y. U., 32; C. C. N. Y., 23.

Referee.—Ed Thorpe, De La Salle. Umpire.—Tom Thorpe of Columbia.

Be it noted that Lefty caged thirteen foul shots out of fourteen tries. That's as good a record as any collegian can make.

A. A. BOARD MEETS

Property, Track and Assistant Managers Elected

Tentative Baseball Schedule Out

The Executive Board of the A. A. held its second regular meeting last Friday afternoon. The elections of Property-man, Track Manager and Assistant Manager and Cheer-Leader were the important points of interest.

J. Aaronstam was elected Property Man; Clendennin, '16 and L. P. Jones, '18, got the Managership and Assistant Managership, respectively, of the Track Department, while Hallberg, '18, obtained the position of Cheer-Leader.

The Managers of the Tennis and Baseball Departments submitted reports of what has been done by them up to date.

Herb Herzenberg, of the Tennis Department, stated that besides the five matches already settled, he had matches pending with Leland Stanford, Michigan, Lafayette and Hamilton.

Colgate, according to him, desires \$20 and sleeping quarters for four men as a guarantee for a match to be played on May 10th. The Army regretted that a match this year was impossible. Prof. Reston Stevenson will be unable to coach the Tennis Team the coming season. Due to the decision of the Discipline Committee, Lou Joffe has resigned his Tennis Captaincy. In addition to the above, Herzle begged and prayed that his budget be increased. Manager Jimmie Bracken reported that the fol-

lowing was his schedule as far as he had gone.
March 29th—Cooper Union at home.
April 1st—Open.
5th—Columbia at home.
8th—Open.
12th—Open.
15th—Seton Hall at home.
19th—Open.
26th—Manhattan at home.
29th—Hamilton at home.
May 3rd—St. John's at home.
6th—Conn. Aggies at Conn.
10th—N. Y. U. at South Field.
13th—Open.
17th—Fordham at Fordham.
24th—Stevens at Stevens.

Harry Schaffer asked for the A. A. Board's approval of a dual meet with Rensselaer on May 6th, in our Stadium, for which the Engineers are to get \$100. The Board signified its approval of the meet.

The question of having a swimming meet in place of the Harvard Meet was brought up. It was decided to hold some event, but also to refund 25c. to those holders of good-for-all-games Season Tickets, who desired their money.

This is the first Executive Board meeting which representatives of the College press were permitted to attend. Here's hoping it won't be the last.

Hygiene Lecture No. 1
Milord Mike Bonney has complained to Dr. Storey about the condition in which members of the A. A. who use Room 105 (the A. A. Room) leave it. He states that the floor is always littered with paper. We have seen two prominent A. A. officials pegging card-board boxes at each other.

The thing's no joke. Mr. Bonney is right. Occupants of Room 105 should remember that they obtain the use of that room through the courtesy of Dr. Storey and should show their appreciation by keeping the A. A. Room clean.

TRACK TEAM FINISHES THIRD

Columbia Relay Teams Wins One Mile Race

Our Mile-Relay Team was entered in an Inter-Collegiate Mile Relay Race at the Fordham Games, which took place last Friday evening, at the 22nd Regiment Armory. The team didn't make a wonderful showing; it took third place.

Columbia's crack relay won in the fine time of 3:39.8. Fordham finished a poor second, so you can imagine how far behind Columbia we finished. Jim Moonan was unable to run. The relay team consisted of Jerry Vriens, Fisher, Wettels and Al Skelding.

Jerry Vriens, who was entered in the 300-yard run, didn't do as well as he expected. Our correspondent, who seems intent on alibi-ing Jerry, tells us that there was a mix-up at the finish line in the trial heat and the judges overlooked the fact that Jerry came in second.

The College has entered two Relay Teams in the Horace Mann Games which take place Monday, February 21st.

Mac has picked Al Skelding, '17, Weberpals, '17, Murray, '19, and Fischer, '19, to represent us in a match One-Mile Relay with Princeton University. Our hard-working coach feels that our team has a fighting chance against Princeton, in view of the fact that Princeton's only good quarter-miler is Billy Moore. The other three men do not compare with him. Our team on the other hand, is better balanced, and is making fine time.

In the same set of games, Wettels, Moonan, Landis and Vriens will represent the College in the Medley Relay Race for the Championship of Greater New York. Every college in the vicinity is entered, but that should not make a bit of difference to us. Our crack quartet ought to be able to handle our end of the affair.

Team Goes On Trip

Is. Ornstein and Coach Palmer will on February 19th lead our Varsity Basketball Team up-state where they hope to make up for our recent defeats.

February 19th the team meets Rochester, the same bunch which recently beat us by a score of 30 to 24, by pulling away from us in the extra period.

February 21st the Varsity will take a crack at the Clarkson Tech Five which, in the last contest between the two teams, smeared us badly.

St. Lawrence will, on the following night, be the next victim. The Canton boys ought to be easy for us, now that we beat them down here.

The team ought to be able to win these three games. They can earn their Varsity Insignia by doing so. Anyway, here's luck.

Good Boy, Bill!

Bill Jones is working hard these days in hope of breaking the record for the plunge recently made by Carl Lehman of the U. of Penn. In a meet against the U. of Pittsburgh, Lehman plunged 78 ft. 6 in., 6 inches better than the previous record made by Willis of Yale.

All students having claims for Numerals and Varsity Insignia should present same to the A. A. Board immediately, if they ever expect to get them.

Gym Open in Morning

The pool, the track and the gym floor are open from 10 to 11.30 A. M. to all students. This arrangement gives fellows having morning off-house, an opportunity heretofore not offered. Why not take advantage of it?

A. Murray, '19, took first place in the 300 yard Run for Grads in the Erasmus Hall Games, thereby copying a nice gold medal.

We desire to thank John Schroeder for his aid in the reporting of the basketball meet.

Get the Range of Smoking Satisfaction

Roll "Bull" Durham into a cigarette and you have a smoke with all the vim, vigor and dash of Uncle Sam's fighting men. That's why the American Army is an army of "Bull" Durham smokers. "Bull" Durham puts snap into their action and "punch" into their systems. For a virile, lively, manly smoke, "roll your own" with "Bull" Durham.

GENUINE "BULL" DURHAM SMOKING TOBACCO

"Bull" Durham is the mildest of all tobaccos. It has a unique aroma and a distinctive mellow-sweet flavor that no other tobacco can give you.

Made of the famous "bright" Virginia-North Carolina leaf, "Bull" Durham has been the great American smoke for three generations. You "roll your own" with "Bull" Durham and enjoy a real smoke.

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

THE AMERICAN TOBACCO CO.

C. C. N. Y. FRESHIES WIN

Trim N. Y. U. Frosh in Exciting Game by Score 18-17

Our Freshman Basketball Team trimmed the N. Y. U. Freshman team by a score of 18 to 17; it was, according to Mr. Hansen, the closest game his team has played. The Freshies won the game on a foul shot. The foul was called a second or two before the whistle blew, and according to the rules, the shot was made after the game was over, being in reality an extra period.

The team that appeared on the floor had never played together before. Mr. Palmer had taken the two Freshman forwards, Lipsky and Projansky on the Varsity squad, thereby almost breaking Mr. Hansen's heart. You can't blame him. He worked hard—very hard and turned out a peach of a team—we must admit it. The team gets broken up by funks, etc., and the only two men left are taken on the Varsity. However, the Varsity should come first!

Whatever credit is due for our Freshman victory belongs to Mr. Hansen. In three days of practice, he managed to turn out a team that could beat the N. Y. U. team—Freshman team—which is quite a bunch of cracks in itself.

Lebovsky played the best game for our '19 team, scoring fourteen of their eighteen points. He takes after Lefty and Projansky when it comes to foul shooting, coralling eight successes out of ten tries. Kurtzman and Rovener were the other point-scorers, each getting a field goal.

The N. Y. U. Freshman team played together, and played well. Near the end of the game they rallied and it looked as though they would bring home the bacon. But not so! The Freshies—our Freshies—managed to pull through with Lebovsky's assistance.

Right at the start of the game, Lebovsky coralled three foul shots. McDonald of N. Y. U. '19, caged a field goal. Score 3 to 2, favor of our Freshies. Lebovsky—he worked overtime—caged two more fouls, and Vanderbeek, shooting fouls for the other team, got one, making the score five to three. Vanderbeek tied the score with a field goal, but Rovener and Lebovsky made the score 9 to 5, by scoring a field goal apiece. McKenzie's field goal made the score 9 to 7, ending the half.

The second half started off with a rush by the home team. A field goal by Kurtzman and a field and foul goal by Lebovsky made the score 14 to 7. The visitors caged three goals in succession, making the score 14 to 13. McDonald's foul shots put the visitors in the lead by one point, and a field goal by Abele gave them a three-point lead, which was overcome by a field goal and a foul shot by Lebovsky, which tied the score. A foul was called on N. Y. U. '19, and the whistle blew.

The N. Y. U. team protested against the foul, but Michael J. Jones, the w.k. referee, stood firm. Lebovsky caged the foul and the game was over.

The Line-up:

C. C. N. Y. '19	N. Y. U. '19
Lebovsky—R. F.	McDonald
Rovener—L. F.	Marin
Schmidt—C.	Vanderbeek
Kurtzman—R. F.	Weisman
Schoen—L. G.	McKenzie
Substitutions.—Abele for Vanderbeek, Vanderbeek for Weisman, for Marin, Biegeleisen for Schmidt.	
Field Goals.—McDonald, 2; Abele, 2; Weisman, Vanderbeek, McKenzie, Rovener, Lebovsky, 3; Kurtzman.	
Goals from Foul.—Lebovsky, 8 out of 10.	
Vanderbeek, 2 out of 5.	
McDonald, 0 out of 2.	
Referee.—M. J. Jones.	
Score at end of first half.—9 to 7, favor C. C. N. Y. '19.	
Final Score, 18 to 17, with C. C. N. Y. '19, leading.	

Joshua Rabinowitz, a lower senior, and Samuel Rabinowitz, a freshman, his brother, have won two out of the ten \$25 prizes offered by the Collegiate Single Tax League for the best essays on the Single Tax.

Arthur E. Albrecht also won a prize consisting of a copy of Henry Georges' "Progress and Poverty." The contest was open to all undergraduates of the universities and colleges of the State.

COLLEGE GROWING

Continued from page 1

commerce, and knowledge which lifts one above the immediacy and the deadening routine of a daily job by concentrating strong light all around it, which gives a man the broader outlook on life, and the richer philosophy.

Our college, being peculiarly the college of the city, and supported by city funds, can do things of an important vocational character for those who have received a training which equips them for that further aim. A good illustration is the department of education. Young men are afforded special training to enable them to enter the school system immediately after graduation. In the extension division, teachers already in the employ of the city receive technical help and broader training which immensely increase their value to the children and to the municipality. A definite body of public servants constantly receives new stimulus by increased devotion to broad educational, literary and social interests. The question naturally arises: Why not go a step further, and offer the same advantages and opportunities to city employees in other departments?

In logical answer, the City College is now presenting an imposing array of courses to municipal employees in the Municipal Building, with the distinct aim of making them better fitted for the service in which they are at present engaged. The preparation is specific, but the ideal is absolutely different from the one reflected by the "exam" civil service school. The men are expected to apply themselves intensively, but at all times they are given a broad view of the specific thing they wish to master. The College's starting point in this new branch of its educational work is to provide the highest grade of instruction; each course is given by a man thoroughly experienced, and master of the theoretical as well as the practical end of his work. The policy was begun in 1911 when the course in municipal technology embracing elementary and advanced construction, the building and laying of sidewalks, inspection, etc., was given at the College by Dr. Ray, then City Superintendent of Buildings. The group of courses in the Municipal Building as well as in the College is provided with expert instructors. It has now definitely been shown that the incremental cost of instituting these new courses in the Municipal Building is insignificant in comparison with the gain to be had. The buildings and much of the material are already on hand; whatever cost is involved in administration and in procuring instructors is met entirely by the nominal fee, in most cases ten dollars, charged to each student.

Thus, on a financial ground, the municipal courses offered by the College can meet with no objections. Neither can fault be found with the work on the basis of scholarship, for the highest possible standards in instruction and in demands made upon students are maintained. Besides, we have a right to regard ourselves as the city's agent in educational matters; our functions are fundamentally municipal. The College cannot be charged with too great and vaunting ambitions, of any sort, for it takes as its field none other than that which already belongs to it. Plans for future development are being drawn; the work will grow steadily in significance and in comprehensiveness; what has already been accomplished demands watchful waiting and steady nursing. Whole new vistas have been opened to the College for further service to the city.

Dr. Frederick B. Robinson who is Director of the Evening Session and who has recently been given complete charge of the Municipal courses, is now negotiating with the Civil Service Commission of New York City, in an effort to devise a scale of credits for advancement in the Civil Service for those students who successfully complete their municipal courses. Such recognition of the merits of these courses by the Civil Service Commission will give an added impetus to the movement to bring the College to closer and more sympathetic relations with the City, and will give the men now holding municipal positions new incentive for improving their efficiency through additional study. Besides this work for those in the service, the College

on the heights will be supplying more men ready to enter the Civil Service at higher levels. Municipal credit for work done at the College is not without precedent. The Board of Education accepts, as qualifications for advancement, certificates showing the successful completion of work in the Teachers' Extension Division. The comprehensive plan of credit will be worked out principally by the examiners in the office of the Civil Service Commission.

Asked to comment on this new phase of the College's activity, Director Robinson declared enthusiastically: "The continuation branch already established has proved pre-eminently successful, and is capable of almost unlimited expansion. It redounds to the credit of the College that although it has engaged in this kind of vocational and technical work, it has never once allowed its high scholastic standards to be reduced.

"The continuation division is a form of service which gives great evidence to the community that the College is doing all within its present power to better the municipal service. The College reasserts its belief that improved government will be made possible not only through the enactment of laws modifying or changing the structure of government, but also through increasing the efficiency of those who are paid to serve the city.

"At present, students both of Day and Evening Sessions in the Chemistry Department who take Chemistry 3, 4, and 5, and follow these up with Municipal Chemistry (Chem. 17) and Food Chemistry (Chem. 19) together with the proposed courses in Water Analysis and Fuel Analysis are sufficiently prepared to take examinations to enter the Civil Service, and are qualified to fill various positions in the chemical laboratories of the city. Advanced students in the physics department who take courses in Mechanics, Materials of Construction and Strength of Materials, will be in a position to take examinations in City engineering departments for Inspector, and for certain grades of junior engineer. In the Department of Natural History, the students who pursue courses in Sanitation and Bacteriology are ready to take examinations for Bacteriologist and Analyst. Students in the Political Science Department who have had courses in Municipal Affairs and in Accountancy together with Economics and other work in the Department are in a position to take examinations for various grades of Clerk where a knowledge of accountancy is essential. In short, students who are taking the college courses in either session, may select their elective subjects with a civil position in view. Furthermore, this field of preparatory work is being constantly enriched.

"According to present Civil Service rules, many advanced positions are open only to those already in the service at lower levels. We are trying to work out a scheme whereby our students will be able to enter at the higher levels because of credit given them by the Civil Service Commission for preparatory work done at the City College."

Colleges and universities are gradually entering into more intimate and mutually beneficial relations with municipal, state and national governments. All concerned profit by this changed attitude. Governments profit by the improved personnel of those who serve it. Colleges are quickened with new impulses. To the student, new ideals are reflected. Interests are heightened because the goal to be achieved is definite, and the rewards are not too meagre or too long postponed. The student is suddenly awakened to the fact that his education has for him a "cash value," to use a current pragmatist phrase, which he may, with the expenditure of a reasonable amount of energy, realize. Listless indifference and lolling nonchalance are quickly changed into determination to achieve. No longer does the student regard himself merely as a fact-absorber, or a memorizer of other men's thoughts, the battered output of a machine for grinding out knowledge—his college; he becomes a creative agent, a planner, an investigator, an organizer dealing with complex human relationships.

with the man who prides himself on smoking Tuxedo. He knows whereof he speaks when he talks of mildness, fragrance, flavor, sweet comfort and happy days.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

"Tux" has all the sweet, mellow flavor and rich relish you are looking for in a pipe tobacco—and that sound, solid, serene satisfaction that you get only from Burley leaf.

And you can smoke Tuxedo every time you happen to think of it—all day long, if you wish. The "Tuxedo Process" removes all the harshness, all the parch, all the bite—and this original process is used only in Tuxedo.

YOU CAN BUY TUXEDO EVERYWHERE
