## Clark Gets Send-Off At Soiree

PRESENT DEPARTING PROFESSOR WITH LOVING CUP AT S. C. SOIREE

Prof. William J. Clark, departing head of the Political Science Department, who left New York last Sunday night to become president of the University of Nevada, was given a rousing send-off at the Student Annual Soiree, held at the City College Club last Wednesday evening. The speakers included Professors Robinson, Turner and Otis, Milt. Schaltman, 17 and Lou Corrigan, 17, Julius Hyman, 14, and Samuel Markowitz, president of the Evening Session Student Council. Joel Liflander, 18, spoke on behalf of the committee consisting of Shapiro, 18, Treanor, 18 and Adler, 18, who raised a fund among Professor Clark's students to present him with a silver loving cup.

"I have come into contact with Professor Clark as a student at the College, as an alumnus, and as a member of the faculty," said Professor Robinson in bidding him farewell, "and I am sure I express the feeling of the students, alumni and faculty when I say we will miss his stalwart personality, his brisk walk through the hall, his clear eye. I have known Professor Clark in his younger days when there was no trace of gray in his hair, when his figure was not so full, but it was always his eyes that fascinated me and I know that as the years roll on, his hair will become grayer still, he may lose that vigorous walk, but his eyes will always be the same." Professor Robinson also told how Professor Clark had built up the present Political Science Department in the College from the one little course in Money and Banking that was included in Professor McNulty's Philosophy Department, and how he had worked out the details of the new Social Science course which is in accordance with the true spirit of the modern collegiate education.

Professor Turner spoke of Professor Clark's fine character in deciding to go into new fields and face large obstacles once he had fulfilled his mission at the City College and Professor Otis told of the vast possibilities of the undeveloped West, he himself having been graduated from the University of Iowa.

In accepting the silver loving cup, which was presented by Sidney M. Wittner, president of the Student Council, Professor Clark said that he would always cherish the pleasant memories of the seventeen years he had spent at C. C. N. Y., and would always treasure the loving cup as symbolical of the experience he had gained at the College. He felt, however, that it was his duty to enter new fields after he had done all that he was capable of doing at the City College, for he believed that whenever a man becomes settled in his environment he should transplant himself and tackle new problems. He described in detail the University of Nevada, and spoke of the difficult problems he would have to surmount there. He said that he regarded himself as being the father of the Student Council in the College as he was the first faculty adviser of the Council under Dr. Finley. He spoke of the Student Council as being a training school of democracy within the democracy of the College.

## Government Exposition Changes Home

FIRST PERMANENT MUNICIPAL MUSEUM IN THE UNITED STATES

Lincoln Hall is somewhat upset these days, but the turmoil will soon come to an end, and students will once more be able to meet or their noon-day chats and recreation, undisturbed by outside activities.

The City Government Exposition is packing up prior to its removal to its final and permanent home in the Old College at 23rd Street and Lexington Avenue.

The College of the City of New York in co-operation with the various city departments, will have the distinction of having established the first permanent Municipal Museum in the United States.

This museum is intended to act somewhat as an academic clearing house—though popular in tone and expression—between the citizens of the city and those who govern it, supplying statistical data and general information to municipal employees, civic workers and co-operating with real estate Boards of Trade, Merchants' Associations, Bureaus of City Inquiry, Municipal Research Societies, Welfare Leagues, always aiming for "more light," in Goethe's phrase, on municipal matters, advocating and prosecuting a pitiless publicity campaign for the guidance and protection of all citizens.

Mayor-Elect Hyman appreciates the need for such a Municipal Museum, saying, "Some way should be found, it seems to me, to submit to the people for their approval or disapproval the expenditure of any sum of money over \$500,000," also "The taxpayers and rent payers are equally interested in the proper expenditure of the city's money." We have "monkey houses" and "botanical gardens" and "lion houses," but this is the first "house" to be built for Father Knickerbocker in which to "tell his story."

The Japanese Mission now visiting the United States received its official welcome to the City of New York at the City Government Exposition and expressed great interest in the upper institution, and the Paris Government Institute of Civics is in correspondence with the College with a view to establishing a similar museum in Paris.

(Continued on Page Four.)

## FOOD EXHIBIT OPENS IN LINCOLN CORRIDOR

Through the instrumentality of Professor Frederick E. Brethout and with the co-operation of the American Museum of National History, a food exhibit has been installed in the Lincoln Museum. This exhibit was prepared with a view to giving the citizens of this city accurate, scientific information on foods.

The co-operation of Professor Margaret Wilson, of Hunter College, has also been secured and new material will be added from time to time, while that which has grown of less value will be withdrawn.

## PROF. GOLDFARB DELIVERS SECOND LECTURE

Last Thursday night, Professor Goldfarb delivered the second of his series of lectures before the New York Dental Society. The subject of his discourse was "The Problems of Biologists and Methods for Their Solution."

## PUBLIC SPEAKING DEPT. PUBLISHES FINAL EXAM. QUESTIONS

The examination questions for Public Speaking Courses Five and Six shall consist of the following propositions:

1. Resolved: That we approved the Government's war insurance plan for soldiers and sailors.
2. Resolved: That Congress was justified in declaring war on Austria-Hungary.
3. Resolved: That for the duration of the war, the Federal Government shall supply labor to farms under a compulsory draft system.
4. Resolved: That the New York Railway Companies shall be permitted to charge two cents for every transfer issued.
5. Resolved: That the sale and distribution of milk in New York City shall be conducted by a city department.
6. Resolved: That in New York City full authority over the education in the common schools should be vested in a board to consist of not more than seven and not less than five paid experts.
7. Resolved: That the United States and her Allies should recognize the Bolshevik officials as the de facto government of Russia, and treat them as such.

The student should carefully note the following directions:

1. Each student shall prepare a complete paper on one of the above propositions.
2. Care should be taken to adhere to the three column form of the brief proper, introduction and conclusion to be in the ordinary outline form.
3. Each student must be prepared to discuss in a five minute speech, any phase of the question which the instructor may select from the brief.

## JUNIORS PROM. TO BE HELD AT "NETHERLAND"

DATE TO BE JANUARY 26

The Junior Promenade will be the biggest event in the class history of nineteen. The Prom will be held at Hotel Netherland, Fifty-ninth Street and Fifth Avenue.

In an endeavor to make the affair very popular, the committee has decided, after an extensive and careful canvass of the class, to omit the dinner which was made an innovation by the class of 1913. The price this year will be \$4. With a dinner the cost would have been exactly doubled. Nevertheless elaborate refreshments will be served.

The date is January 26. This falls on the Saturday directly preceding the opening of the Spring term, and follows the two examination weeks of the present term. This will allow the Juniors to enjoy themselves untrammelled and unhampered by sordid cares.

## ZIONISTS TO HOLD SEMI-ANNUAL DANCE

The Semi-Annual Dance of the Zionist Society of the College of the City of New York will take place Monday, December 31 (New Year's Eve), at 8 P. M. in the College gymnasium.

The Zionist Society has been particularly successful this term in its various meetings and forums. The members evinced a keen interest in all its activities and they are all eagerly anticipating an enjoyable time in the coming events.

## Rally in Second Half Helps N. Y. U. Defeat Varsity Five

Heights Visitors Overcome Our Early Lead. Usual Rough Playing by N. Y. U. Team—Egan Ejected For Foul Tactics—Projansky Shows Up Well in Foul Shooting—Tish and Holman Also Play Good Game—Final Score: N. Y. U., 18; C. C. N. Y., 16.

### FREHMAN DEFEAT N. Y. U. FRESHIES, 16-10

"Of all sad words by tongue or pen, The saddest are these, 'We lost again.'"

Stepping briskly off the floor of the gymnasium at the end of the first half of its yearly set-to with New York University, the City College basketball team said to itself, "This is the easiest game we've had in some time. Here the score is eight to four in our favor and we are just beginning to find ourselves." And the members patted each other on the back. Between the halves, our cheering section sang in the most affecting manner imaginable the "Undertaker Song." We strolled about, conversed with old acquaintances and said that "it was too bad our men did not play like this in the Princeton game."

Then the intermission ended; the referee's whistle sounded and the game was on once more. Before we could get comfortably re-seated, N. Y. U. had scored twice from the foul line and once from the foul line; the score was 11-8 and we were on the short end! Once in front, our opponents were never headed and the close of the game found us the recipients of a 16-14 set back and incidentally suffering from our second consecutive defeat. We had lost two of the first three games played, and of course our dreams of having an invincible team were shattered.

A good crowd was on hand by the time the preliminary game had finished and our Varsity team had taken the floor. The boys showed plenty of dash in their practice work and an air of confidence seemed to pervade Captain Holman and the others as they went through their paces. Some time elapsed before their opponents made their appearance. A long "confab," in which the rival captains, coaches, and the referee were principles ensued, and then the game was on.

### CO-OP TO BUY MANY NEW TEXT BOOKS

The work of the Faculty Committee for the Co-op is piling up. The inventory now under consideration will be reproduced as soon as it becomes available.

Manager Scholt sent a letter to all members of the faculty, its purpose being to obtain the aid of all instructors in making the work of the Co-op most effective at the least possible expense and delay. Any action taken upon his request directly concerns the entire student body. The message is addressed individually and reads as follows:

"Dear Sir:  
As a member of the Faculty of the College of the City of New York, you are asked to co-operate with us in an enterprise that can be of decided benefit to the instructors and the students of the College.

"The purpose of the C. C. N. Y. Co-operative Store is to meet all the needs of the students at a reasonably low expense to them, and this object has been in great measure realized.

Floyd Egan, the athletic mainstay of the visitors, scored the first point of the game on a try from the foul line following a misplay on the part of Holman. A moment later he had a chance to duplicate his shot and again made good. Score, 2-0 in favor of N. Y. U.

Holman then caged a pretty basket but the points did not count as Referee Thorpe had called a foul on Ebenfeld, of N. Y. U., while the ball was still in the air. Projansky made good the foul. The playing was rough at this stage of the game and fouls were frequent. Pro missed a foul and then made one. The College, as has been its custom this year, was missing many chances to score from the field. Following a foul committed by Egan, Pro made the score 4-2 in our favor. Holman located the basket with a pretty toss from the middle of the court. Schmidt also talked with their goal, receiving the ball on a pass from Lipton. Pro was given the opportunity to score a point from the foul line as a result of Egan's rough playing, and made good. Loew, the right guard of the visitors, brought the crowd to its feet with a clean throw from the center of the floor that found the basket. Referee Thorpe here ejected Egan from the game upon the occasion of his fourth personal foul. The doughty little captain was replaced by Steinberg and playing was resumed. Shortly afterward the whistle blew and the half ended with City College in the van by a score of 8-4.

What was said to the University players in the dressing room is known only to those men who heard it, but from the start of the second half the game was no longer our. Three field goals in rapid succession followed by a point scored from the foul line not only wiped out our apparently safe lead, but gave our opponents an advantage that was destined not to be overcome, although for a moment, following three successful foul shots by Pro, the two teams were on even terms.

A double foul called on the College players netted the visitors two points and broke the tie. Pro, shooting with deadly accuracy now, located the basket with a throw from the foul line. Marin, not to be outdone, also caged a free try following a foul called on Lipton. Baker, the tall, rangy pivot-man of the visitors, who throughout the game played an excellent article of ball, further increased the advantage of his team with a clever field goal and the score was 16-12.

Coach Deering, with a minute to play, made his first substitution of the game, and incidentally of the season. Schwartzman was sent to guard and Tichinsky was moved up to forward replacing Pro. It has been a source of wonder to those interested on the progress of the team this winter that Tish has been played at guard instead of at his old position of forward, at which latter position it is clearly seen

(Continued on Page Three.)

THE CAMPUS
A Weekly Journal of News and Comment

VOL. 21. DECEMBER 20, 1917 No. 14

Published weekly, on Wednesday, during the College year, from the third week in September until the fourth week in May, excepting the fourth week in December, the second, third and fourth weeks in January, the first week in February, and the third week in April.

Entered as second-class matter March 14, 1916, at the post office at New York, N. Y., under the Act of March 3, 1879.

College Office, Room 410, Main Building

"The accumulation of a fund from the profits... which fund shall be used to aid, foster, maintain, promote, realize or encourage any aim which shall go towards the betterment of College and student activities.

Price, Three Cents the Copy.

The subscription rate is one dollar a year by mail. Advertising rates may be had on application. Forms close Friday of the week preceding publication.

REPORTERS Leon J. Greenblatt, Edward Garlock, Bernard R. Press, Benjamin A. Borkow, Fabian Schweitzer, Aaron Edelman

EDITORIALS
In the name of the students of the College THE CAMPUS bids farewell and good luck to Au Revoir Professor Walter E. Clark, formerly chairman of the Department of Political Science, now President of the University of Nevada.

From the time of its... its subject had become one of the most important divisions of the curriculum. Dr. Clark has guided the destinies of the Department of Political Science.

The present popularity of the Political Science courses is a tribute to Dr. Clark and his knowledge of what the College ought to do to prepare its students for the business world.

Big in intellect—broad-minded, patriotic—Dr. Clark typifies the ideal American pedagogue.

Though appreciating the difficulty that will arise in order to find a worthy successor to Dr. Clark, we bid him God-speed, knowing that he is entering a broader field of endeavor.

This is Red Cross Week. Have you given your dollar? If not, do so at once. Help your College make a showing.

Pledges are still opened for the Jewish War-Sufferers' Fund this week. Do your share to help this worthy cause.

THE CAMPUS wishes the students and faculty a Merry Christmas! Even in these times of national crisis it is fitting that we rejoice in the spirit of the season.

The action of the Dean in suspending students who failed to attend the military drills will have a distinctly salutary effect upon a number of others in our midst.

Biology Teacher—"Is the body of the bird all covered with feathers?"
Miss Adler—"No ma'am, there are some spots that aren't."

EXHIBITION AT FOLSOM GALLERIES

MR. WEINBERG DISPLAYS HIGHLY-PRaised WORKS

Mr. Louis Weinberg, of the Art Department, is having a very interesting exhibition of his work at the Folsom Galleries, 396 Fifth Avenue.

The oil paintings are: "Old Man Grim," "Irma," "Tena," "Dora," "My Friend Ernest Cook."
The water colors are: "Madison Square—Autumn," "Sunken Garden," "The Valley of Valhalla."

Some of these Pastels were on display in the Lincoln Corridor for a few days and have been highly praised.

One of the pictures which Mr. Weinberg had included in the Penquin Exhibition of Contemporary Art was singled out from among the hundred shown there for special comment by the Art Critic of the New York Globe.

Mr. Weinberg's exhibition of Manhattan Pastels, which was on display in the Lincoln Corridor, has been requisitioned by the Lecture Bureau of the Board of Education to be paced in a number of the Public Libraries.

Learned But Not Applied
Father—"What new thing did you learn in school today?"
Son—"We learned to be polite, saying, 'Yes, sir, and no, sir, and yes ma'am and no ma'am.'"

Father—"That's fine, and you will always remember to use it, won't you son?"
Son—"Yep."

Miss Jones—"And what is the other plural of appendix?"
Riley (pleased with himself)—"Appendicitis."

Gargyle Gargles

Here we are, back on the job!

Several weeks ago THE CAMPUS published the introduction to a little song about Thanksgiving. The song disappeared. The following is another song, almost as good as the lost one:

MARY ATE SOME OYSTERS (Tune—"John Brown's Body")

Mary ate some oysters,
Mary ate some ham,
Mary ate some marmalade,
Mary ate some jam,
Mary ate some limburger,
And Mary drank some beer,
And Mary wondered what made her feel so queer.

Up came the oysters,
Up came the ham,
Up came the marmalade,
And up came the jam;
Up came the limburger,
And up came the beer,
And Mary knew what made her feel so queer.

As "Berny" Lehner would say:
"That sounds like some lunch."
(See, "Berny," I did give you a write-up).

Of course, we saw that awful error about our Varsity five beating the St. Louis Quartet, but we refrained from saying "Who couldn't beat four men?" Because we thought that "Tom" would swipe the stuff. He did.

During an hour in Statistics 57 we learned several very interesting facts, these being conveyed to us by our fellow students. Most facts need to be conveyed in order to reach us, but—Well, judge for yourselves:

- (1) People die rather regularly.
(2) Most people die in the period between the month of March and that of December.
(3) (We forgot this one).

After taking the above course for a few weeks we feel like making out our will. Who wants to inherit Gargoyles? Answers will be considered strictly confidential.

All of which reminds us of that beautiful little piece of pathos entitled "Another Little Job For the Undertaker." That refrain, we cannot refrain from saying, is a good one and quite worthy of having been written by us (but it wasn't).

This job of trying to fill up a column is some work, believe us. We need an overexuberance of hot air, and it can't be spared during these war days. (As Eliza would say, "The poor war gets the blame for everything." Yes, say we, even for these lines of Lingo).

Speaking of hot air, did you notice the lack of gas at the City College Club during the Student Council Soiree. We believe that someone forgot the quarter for the meter, but there was no need to worry. Prof. Turner and Dr. Robinson were there to help out Sid Wittner with the "gas." Prof. Otis also contributed his share of the old juice.

Objection was raised at the above mentioned affair to Prof. Turner giving his Psychology course during the summer. It was rumored that the girls in the class took the "pep" out of the course. Ask Dr. Robinson, he knows!

Apropos of the women getting the vote, we repeat Prof. Cozenza's would-be motto for the Suffrage Party—"Dux femina facti."

-S. E. S.

Over the Top

John Ralph Hewitt, June, '19, left college last May to enlist in the Quartermaster's Corps, U. S. A.

Early in June he was offered a chance of going to France if he would enlist in the Overseas Forces. He jumped at the opportunity, and a few days later was on his way. On the trip over his ship just missed, by a bare margin of twenty feet, a torpedo fired by a hostile submarine.

After a voyage of thirteen days the ship arrived in France. Here Hewitt after six weeks of active service in his department was seized with a sickness which left one of his legs practically useless. He spent four months in a French hospital, and was subsequently sent back to the U. S. He is now at the Columbia War Hospital, from where he sends his best regards to all the boys.

MEDICAL PROBLEMS OF WAR TO BE DISCUSSED

PROF. GOLDFARB NOW ARRANGING FOR INTERESTING DISCUSSIONS

As secretary of the Section on Experimental Medicine and Physiology of the American Association for the Advancement of Science, Professor Abraham J. Goldfarb has been busy arranging the program for the meeting of his section at Pittsburgh on December 31.

In co-operation with the Sugerong-Genral's office, and with French and English army surgeons, Professor Goldfarb has arranged for a discussion of the medical problems arising from the war.

An important feature of the program will be a motion picture showing Dr. Alexis Carrell and his assistants at work.

LORENZ REICH SPEAKS AT EUTERPEAN

Lorenz Reich, '11, president of the Campus Association, spoke to the Euterpean Literary Society at its last meeting. He dwelt on the necessity of college spirit, and the mutual advantages derived from it. Though the talk was impromptu it produced a marked effect on some of the men present.

The meeting as a whole was extremely interesting. Mr. Owen read an essay on the trend of events, which was very well written and brought forth some new and interesting points. Original poetry was also read which were well received.

C. C. N. Y. LEADS AT BUSHWICK CLUB ELECTION

C. C. N. Y. captured the premier position of the Intercollegiate Bushwick Club by the unanimous election of Ben Borrow, secretary of the College Chapter, to the presidency. George MacGregor, an evening session man, was chosen financial secretary. The I. B. C. is composed of Bushwick High School graduates attending the various colleges.

ODE TO FRANCE

France, we sing of thy fame, shouting with joy. Glorious Freedom's fight Thou hast fought and fought well,—valour sublime—Hope in the blackest night. Great shall be thy reward, great too shall be thy name—Blessing of future days. Where, Oh, where, would be Peace, menaced by pow'r fearful in hundred ways? Where, Oh, where, would be States, strangled by might, crushed by the pounding steel? Who could feel himself safe, ever in fear, broken on Hell's own wheel? Thanks, Oh, thanks to thee, France; thanks to thy sons, thanks for thy stubborn lance. We will never forget, never forget, deeds such as thine, Oh France.

VARsITY PHOTOGRAPHER APPOINTED

LESLIE P. GESTEFELD FIRST TO HAVE HONOR

The Student Council has brought another innovation which fills a serious need. It has appointed a Varsity photographer, who will be present at all College functions and endeavor to keep photographic record of them. Leslie P. Gestefeld, '20, who was official photographer of his class (the first class to have an official photographer), has been given this honor. The Student Council has appropriated \$5 with which to purchase a scrap book in which the photographs will be kept.

Mr. Gestefeld will do this work at his own expense. He will try to recompense his loss by offering copies of the pictures he takes for sale to the student body, at a minimum price. In this way both the students and the College will, with little trouble, have a permanent, accurate and interesting record of all activities.

A committee of two, consisting of Curt Von Boetisher and Raymond Grutzen, will assist Gestefeld in this work. This will be a permanent institution in the College. When Gestefeld graduates he will appoint his successor who will in turn appoint the committee.

DR. ZIMMERMAN PUBLISHES INTERESTING ARTICLE

In the latest issue of the Journal of Educational Psychology, but recently released to the public, there appeared an article written by Dr. Joseph Zimmerman. The author is a member of the medical staff of the Educational Clinic, and has based his treatise upon the personal examination of one hundred children at the Clinic. The article is entitled the "Comparative Study of Binet-Simon Intelligence Scale and the Yerkes Point Scale."

THE CAMPUS has been successful in obtaining a promise from Professor Heckman to write a few lines concerning some of the interesting cases that are brought to his attention. Weekly announcements of the Clinic's business will be included within each issue.

At a meeting of Phrenocopia last Friday night in Room 209, Dr. Jacob W. Hartman spoke on a topic of current literary interest. The audience was large and appreciative. Meetings are held every Friday night at 8.30. Junior and senior visitors are invited.

Phren will hold its annual dance on the evening of Friday, December 21, in the Webb Room of the College. Tickets will be sold only to members, who are requested to pay the assessment to Victor E. Reichert, '18.

PROFESSOR SCOTT REPORTS ON SUMMER WORK

Professor George G. Scott, of the Department of Biology of the College, has just sent his "Report on the Preservation of Fish Foods by Dehydration" to the United States Bureau of Fisheries. The report entails the results of his work at Wood's Hole during last summer.

On Thursday, December 6, B. Lehnen, '18, spoke before the Chem Society on "Bio-Chemistry."

# SPORTING COMMENT

By TOM

Those of us who were under the impression that the basketball team would wade through all its opponents this year were rudely disillusioned by the Princeton game. Current opinion had it that the team which was coming down from Princeton was a poor one. The members of our team did at any rate. Perhaps the lesson, that was taught to them during the game, served to instill them with them with the spirit they displayed in the N. Y. U. game. The showing in this latter game was a great improvement over that exhibited the previous week. The aggressiveness and dash so essential for a successful basketball player to have was evidenced in the work of each of our men.

The threat of Coach Deering to replace certain members of the team with second string men evidently supplied the much needed capsicum. "There is nothing like capsicum to bring out the old pep," says Joe. He has Schwartzman, Feinberg and Raspin striving to displace the regular forwards. Somers, the sub-center, is developing rapidly, and it would not be at all surprising to see this man break into the game at any time. Fleigel, a guard, is also displaying an excellent brand of basketball as it should be played, and should be heard from before the season is many weeks older.

The Freshman team also is giving signs of promise and no doubt will furnish many men for the Varsity next year. Such men as Krinsky, Bolotofsky and Schwartzman, judging from the article of ball they are playing, should have no difficulty making the College squad next fall.

The game this Saturday night with Union College should prove one of the best of the season. This team comes all the way from Schenectady, N. Y., to play us and its personnel includes some of the greatest basketball players in the Collegiate ranks to-day. It is the first time that our management has been able to persuade the Union authorities to meet us in several years and we were forced to offer strong inducements. The up-State team each year meets the foremost basketball teams from all over the country, and last year won ninety per cent. of their scheduled games. So, this year, with practically their entire team of last season, Union College will indeed prove a worthy opponent.

While on the topic of coming games we must not forget that of the fifth of January. On that evening the line-up will be against the championship army team from Fort Slocum. This team is composed of stars recruited from all parts of the country and should put up a very interesting game against the College. Our Athletic Association has decided to turn the entire proceeds of the game over to some worthy war relief fund.

The following Saturday will see the fast Amherst team in action and the New Englanders confidently expect to carry away the laurels of victory. This is another College that we have never met on the basketball court, although our swimming team has met theirs on numerous occasions, but has yet to be victorious. Amherst has a large following among its alumni in New York and Brooklyn, and requests are even now coming in for tickets.

Other games on our schedule which should attract large throngs include the Dartmouth game on New Year's night, which game usually crowds our symposium to its utmost capacity; the Pennsylvania game in February, and the game with Colgate on March 16. The number of games that our team plays this year exceeds that of last year, and in fact our season is longer this year than it has been in many years. Due to war-time conditions prevailing at many of the colleges, Manager Lipton has had no easy time securing games. That he has been successful in bringing such a large number of stellar attractions to our court this year merits him much praise.

The Soccer Team representing the College wound up its season last Saturday with a decisive victory over Princeton. The team on the whole made a very creditable showing, defeating Yale University and several strong club teams in and about New York. Two games were lost, one resulted in a tie and five were victories. The individual members of the team played well throughout the season, the work of Lehrman, McGrath, Harsney, Matthews, Rosenberg and Roberts, the captain-elect of next year's team being especially good. Manager Rosenzweig deserves much credit for the really capable manner in which he took care of the interests of the team, but the bulk of the praise for the team's showing must go to its coach, Mr. Holman, who worked hard with the men, many of whom had never before played soccer, and was responsible for their development. He was well liked by the players, which part was responsible, to a great extent, for the willing spirit the men exhibited at all times throughout the season.

## College Chatter

**Missouri.**—It is planned to float a Service Flag bearing a thousand stars from the Student Union Building at the University of Missouri. This will be one of the largest Service Flags in the United States, and will have stars for men ranging in rank from private to provost marshal.

**Ohio State.**—The aviators of the Ohio State University are to have the best equipped barracks in the United States. The quarters are being built with the view of turning them into Freshmen dormitories after the war.

**Penn.**—The students of the University of Penn. are sending Christmas boxes to former students who are in the service of the government.

**Cornell.**—A reclamation gymnasium will soon be opened by the Cornell Medical College for the benefit of those who have been rejected by the Army and Navy because of minor physical defects. This plan will soon be put into effect in several cantonments with the purpose of reclaiming men with slight deficiencies.

## WINNER OF CANE SPREES TO RECEIVE BANNER

Thursday, December 20, the award of the Student Council banner for Fresh-Soph activities will be decided in favor of the winner of the Cane Sprees.

The Sprees were scheduled for last Thursday, but were postponed to give both teams more practice. Candidates for the teams have not shown up regularly for practice. George Feigin, manager of the Freshman team, gives the list of those who will probably represent '21. They are: Levinson, 115 lbs.; Dicker, 125 lbs.; Lehrman, 135 lbs.; Diamond, 145 lbs.; unlimited—Kahn or Feigin. The referee will be a "gym" instructor. Admission will be free in the gym at 12 o'clock, Thursday.

## SOPH-SKULL SOCIETY TO MEET

There will be an important meeting of the Soph-Skull Society on Friday evening, December 28, at 609 West 189th Street. It is urged that all members be present as elections to the Society will be made and other important business will be transacted.

## RECREATIONAL EXERCISE OFFERED STUDENTS

The second series of athletic contests of this term was held in the Exercising Hall on Friday, December 7, 1917. Three events were held: 1, Three-legged race; 2, Running Broad Jump; 3, One lap Relay Race.

Team 1, consisted of Captain Stolowitz, L. So. 3; Bonaparte, L. F. 3; Godberg, L. F. 3; Halmowitz, L. F. 3; Furman, L. So. 3.

Team 2 consisted of Captain Schnell, U. F. Z.; Lobensky, L. So. 1; Gorson, L. F. 3; Skir, O. So. 3; Fine, L. So. 1; Gilbert, L. Jr. 3.

Three-legged race was won by Team One. First, Sirolowitz and Bonaparte; second, Schnell and Labensky; 3rd, Goldberg and Halmowitz.

The Running Broad Jump results were: 1st, Goldberg, 16 feet; 2nd, Bonaparte, 14 feet, 9 inches; 3rd, Halmowitz, 14 feet, 9 inches; 4th, Sigler, 14 feet, 9 inches.

The Relay Race was won by Team One.

The coming events are: 1, Sack Race; 2, Hop Step and Jump; 3, Medley Relay Race.

These students' opportunity to organize a team of their own and challenge the above contestants.

Remember—Gymnastic contest January 2, 1918, and the Competitive Games as according to the option of dates.

Team Two consisted of Captain Rottenberg, J. L. Fr. 3; Schnell, C. U. Fr. 3; Furman, A. L. So. 3; Friedenberg, G. U. Fr. 3; Hollander, I. U. Fr. 3.

Team One won the Relay Race. The time being 1 minute and 20 seconds. Both teams tied in the Running High Jump.

Capt. Stolowitz and Mr. Halmowitz jumped 4 feet 6 inches. This, however, was not the best performance of either men. Time prevented them from making a better showing.

Students interested in this type of contest should make their desire known. It is suggested that teams of six men be organized and that they challenge other teams in at least three athletic events.

The Division has on hand equipment for Three-Legged and Sack races. These events are not only a novelty but they are both interesting and exciting events for competition.

The first series of organized team games of Indoor Base Ball for this term were held in the Exercising Hall on Thursday, November 22, at 1.30 P. M. This game presents a large amount of amusement and excitement for the players. Mr. Kistnick was captain of one team and Mr. Margolin was captain of the other. Mr. Margolin's team won the game played on this game. It is hoped that other students will take the initiative and organize teams of their own and arrange future games.

A large number of students have taken upon themselves the responsibility to organize teams of their own and meet in competition other teams in such games as handball, volley ball, indoor baseball and other team games. There are a number of voluntary hours open for such organized activities. We hope the students will take this opportunity to secure the maximum exercise during a minimum amount of time during their free periods for exercise; furthermore, it is a known fact that competition will prolong one's interest in exercise.

The students are asked to see Mr. Reichardt for suggestions and reservation of a voluntary period for their challenged game and contests.

The Freshman Handball Tournament is nearing a close, and will be over in a week or two. The two teams in the lead are Fretzer-Kaplan and Jonas-Blum. These will meet this week. The winning team will be presented with handballs and will play the representatives of the Sophomore class.

## N. Y. U. DEFEATS VARSITY

(Continued from Page One.)

Play was resumed. Lipton, unassisted, scored with a clean throw from mid-floor. As in the Princeton game a week ago, the crowd was on its feet pleading with the College team to even the score. Schwartzman missed a hard try that surely seemed as if it were going in the basket, and then Tish missed one. To relieve the tension, time was called for a moment and then play was resumed with 40 seconds to go. Lipton was replaced by Friedman but before the new combination could get started, the whistle, ending the game, brought home the fact that City College has not as good a basketball team as we had hoped for. Tish, Projansky and Holman played their usual good game for the College, while Baker and Marin, of the visitors, showed up well. Pro's shooting from the foul line was much improved over that of last Saturday.

The line-up:  
N. Y. U. (16) C. C. N. Y. (14)

Position	N. Y. U.	C. C. N. Y.
Egan	L. F.	Projansky
Marin	R. F.	Lipton
Baker	C.	Schmidt
Ebenfeld	L. G.	Holman
Loew	R. G.	Tichinsky

Goals from field—Marin (2), Baker, Loew, Steinberg; Lipton, Schmidt, Holman. Goals from foul—Projansky (8), Egan (2), Marin (4).  
Substitutes—N. Y. U.: Steinberg for Egan; C. C. N. Y.: Schwartzman for Projansky; Feinberg for Lipton. Referee—Tom Thorpe.

In the opening game of the evening, our yearling team defeated the N. Y. U. cubs in a hard fought contest. The playing was fast, rough and exciting. The first half saw City College at the top of an 8-7 score, while the score at the final whistle was 16-10. The rivalry between the two teams was keen throughout the contest, as was evidenced by the fact that one player from each side was banished on account of undue roughness. Most of the scoring done by either side was the result of free tries from the foul line. Bolotofsky excelled in this department. Krinsky, Schwartzman, and the two guards also played well for the home team, while Hauser and Delaney distinguished themselves for the visitors.

## Henley's Twentieth Century Book of Recipes, Formulas and Processes

Edited by G. D. Hiscox, M. E. This book is the most complete and valuable techno-chemical formulae book ever published, including over ten thousand selected scientific, chemical, technological and practical recipes for the making of valuable articles for every-day use. It covers every branch of the useful arts and tells hundreds of ways of making money. It is of as much practical value to the housewife and the layman as it is to the specialist in any laboratory, office or workshop.

One useful recipe will be worth many times the cost of the book. New Edition 800 large Octavo (6x9 1/2) pages. Price, \$3.00, Cloth Binding; \$4.00, Half Morocco Binding. Sent prepaid to any address on receipt of price. Remit by Draft, Postal or Express Order or Registered Mail.

## SIGNAL CORPS ORGANIZES BASKETBALL SQUAD

Dept. Co. H, of the U. S. Signal Corps, which is stationed in Townsend Harris Hall, has organized a basketball squad and intends to play teams of other military camps and any college or school teams that will play them. There are many basketball stars in Co. H from colleges and schools throughout the United States, and therefore the soldier team bids fair to rival many varsity teams.

Corporal A. H. Fenning was unanimously elected manager, with Sergeant Phelps, Captain and Private Lannie, Coach. Some of the promising candidates are Lannie, of Colgate; Owen, of Cornell; Engle, of Penn State; and Van Mater, Durand and Taylor, of Rutgers. Lack of practice will of course prevent the team from showing its true speed in the first few games, but they are spending all available time in the "gym." The first practice game will probably be played this week against Townsend Harris Hall.

Manager Fenning will announce his line-up and schedule in the next issue of THE CAMPUS.

## Imported Golf and Sport Hosiery

In Attractive Designs for Men and Women

- No. 10** Finest Scotch Llama wool Socks in black, khaki, white, gray, brown, green, heathers and white with colored clocks, light, medium and heavy weights. **\$1.50** a pair

**CITY GOVERNMENT EXPOSITION TO OCCUPY OLD 23rd ST. BUILDING**

**PERMANENT MUNICIPAL MUSEUM WILL BE LOCATED IN OLD COLLEGE BLDG.**

**MAYOR-ELECT HYLAN APPROVES**

(Continued from Page One.)

The Board of Estimate, the executive branch of the City Government, does its best to arrange for an equitable distribution of the city funds, but finds its problems constantly increasing. It is difficult to know how to make up such a staggering budget and it is hoped that this new institution—now housed in the main building of the College of the City of New York for which it is a part—will aid the City Fathers by the information it will exhibit dealing with the various departmental activities and showing work already accomplished or in process of completion. Models of new subways, ferry terminals, school houses, play-grounds, municipal baths, etc., are shown.

Statistics, charts, diagrams are shown, as are many beautiful pictures, all relating directly to the departmental activities. Municipal moving pictures are shown three times a week. It is planned to have a Health Day at the Museum, when a Health Commissioner will give an informal talk to taxpayers and students on the work of this important department; a Police Day; a Fire Day; a Subway Day; a Civil Service Day; a Charities Day; a Correction Day, etc., etc.

The committee in charge of the Municipal Museum is made up of Deputy Comptroller Edmund D. Fisher, Secretary of the Board of Water Supply, George Featherstone; Director of Vocational Subjects of the College, Dr. Frederick B. Robinson, who is intensely interested in the Museum, and the President of the College, Dr. Sidney E. Mezes, Francis J. Oppenheimer, the Director of the Museum, comes well equipped for the task. An ex-

**NEW COURSE GIVEN BY DIVISION OF VOCATIONAL SUBJECTS**

The Division of Vocational Subjects and Civic Administration is offering a course in Industrial Inspection. This is a practical course for investigators and inspectors of factories in municipal, State and Federal Industrial and Labor Bureaus and Departments.

The course will be given in the Municipal Building by Dr. George M. Price, who is at present Director of the Joint Board of Sanitary Control in the women's garment trades in New York City. Dr. Price was formerly director of investigation of the New York State Factory Commission, and has been for many years connected with the Health Department of this city. He is the author of "The Modern Factory," of the U. S. Department of Labor Bulletin on "Factory Inspection in Certain European Countries," and also of numerous reports and monographs on industrial subjects.

The course for the positions will embrace a thorough, theoretical instruction in labor legislation, factory inspection and industrial investigation. This theoretical instruction will be combined with a practical demonstration in various industrial establishments and factories of the principles of accident prevention and industrial sanitation, as well as practical demonstration of the functions and duties of factory inspectors.

The fee for the course will be \$20. The instruction will consist of twenty to twenty-four lectures and will include considerable home-work, the study of questions, criticism of answers, occasional and final examinations, and also visits to industrial establishments in the city and vicinity.

perenced newspaper man, he has already prepared two Budget Exhibits for the City of New York which were instrumental in making such tremendous savings for taxpayers. He has also been a pioneer and organizer in many other civic movements.

**VARSITY REORGANIZES BAND**

On Monday, December 10, the C. C. N. Y. band, reorganized and held the first of its weekly rehearsals in the Band Room of the Stadium. One of the first projects of the new band is a Fife and Drum Corps, which will play for the C. C. N. Y. Regiment in training at the 22nd Engineers Armory.

The band intends to furnish music at public events of the College, games and other affairs. All men who played in the band last year are asked to register now for the coming year. Also new men who can play a band instrument may register to play after taking a short preliminary examination.

The band has a number of instruments which can be loaned to men who can play them. A notice is posted on the Bulletin Board announcing the meetings.

A request has been received to mention the fact that the C. C. N. Y. band did not substitute for the Hebrew Orphan Asylum Band, which was scheduled to play at the Service Flag-raising last week. A number of players volunteered at the eleventh hour to play as best they could in the absence of the regular band.

**COLLEGE SPIRIT REVIVES IN SONG GATHERING**

Of last Friday at noon Harry Hallberg made an attempt to blend college spirit with war relief activities. After calling upon all loyal students to contribute to the enormous fund now being collected over the entire country, he sold several hundred copies of the College "gem." The singing class that was then held was perhaps the most fraternal meeting that the College is able to boast of for this semester.

*College Book of all Publishers*  
also School Books of all publishers, new and secondhand, at reduced prices. We can save you much money on your schoolbook bills, especially if you can use secondhand books. Write for our catalogue, or if you live near New York call and personally select the books you want. There is no school or college book published that we cannot furnish.
