

VARSITY BASEBALL TEAM MEETS BROOKLYN POLY IN STADIUM TOMORROW

THE A. A. CONSTITUTION IS FOUND!

Where, we have frequently asked and been asked, is the A. A. Constitution? In the hands of Prof. Woll of the Hygiene Department, where it has remained for nearly six months, practically untouched by him,—this in spite of his demand soon after it had been ratified by the A. A. Board and Prof. Williamson, that his approval had to be given it before it could become valid. The demand was based on his position of acting head of the Faculty Athletic Committee.

Since the time the constitution was given him by the A. A. Board, Prof. Woll has neither read the document sufficiently carefully to pass judgment on it nor has he, as far as the college knows, ever called a meeting of the committee to consider it. For the last six months his one answer when asked by the A. A. President to accept or reject the document has been to the effect that he was too busy to do it then, but that he would surely let the A. A. Board and the college have it next week.

The matter of the constitution may be a small thing in itself, but it is indicative of the attitude taken by the F. A. C. towards all activities here. With the possible exception of Prof. Holton, we doubt whether any member of the committee is sufficiently interested in athletics to know what is going on, to attend the infrequent meetings, or to voice his opinions on the things that come up from time to time. In a superficial way and as a side-issue they are, of course, interested, but actively—well hardly.

F. A. C. DISCREDITS A. A. BOARD ON SWIMMING DECISION

Two weeks ago, for example, the A. A. Board decided to reduce swimming to the rank of a minor sport because of the team's poor showing during the last six years and because swimming, even at Yale and Penn., that produce winners, is only a minor sport. Three days after the board's action and before he could possibly have called a meeting of the F. A. C., Prof. Woll sent the A. A. Board a letter in which he said that the board had no power to take the action it did; that until such time as the F. A. C. saw fit, swimming was a major sport.

HOW MANAGERS ARE TREATED BY F. A. C.

The same inefficient methods as those exhibited by the committee with regard to the A. A. Constitution have been adopted by it in dealing with the managers of the various teams. It has specifically laid down the rule that all schedules must be submitted to it for approval one month before the first scheduled game, regardless whether this is physically possible or not. As a punishment for not doing this it threatens to cancel the first scheduled game or meet even though it has the sanction of Prof. Williamson, the secretary of the committee.

It is almost impossible to see Prof. Woll to get advice, the professor being too busy to see the managers. He refers the men to Prof. Williamson.

F. A. C. WENT AT FOOTBALL HALF-HEARTEDLY

The F. A. C. went at the restoration of football half-heartedly ever since the movement started last year. At first it hardly wanted to consider the movement, and when it did finally deign to do so, it imposed a set of conditions that practically would squelch all hopes of ever reviving the sport. Chief among those conditions was one that demanded that sufficient funds to guarantee the costs of football for a full year period were to be gotten together before or pledged before active work was begun. This has now been changed, chiefly through the efforts of Prof. Williamson, to a three-thousand-dollar fund, two-thirds of which is already collected.

Nearly all the letters sent by Prof. Woll, supposedly as the committee's spokesman to Morris Weintraub, '21, chairman of the Student Committee, seemed to view the re-establishment of football pessimistically. There was not the slightest ray of hope for its success here, according to the letters.

Meanwhile, single-handed, Prof. Williamson who, for the first time has received a vote on the F. A. C. this year, had been fighting for football. We can say without any fear of contradiction that it is because of his efforts primarily that there is any chance of reviving the sport. It was his firm assertions at the joint meeting of the F. A. C. and the A. A. Board that convinced Dean Brownson that football was essential to the welfare of the college and that a method had to be found to bring it back.

THE ALUMNI PROTEST F. A. C.'s POSITION

In this connection the position of the Alumni is interesting and significant. At the recent joint meeting of the Alumni Committee and the Student Football Committee—Prof. Williamson, by the way, was the only member of the F. A. C. who found time to attend—Harry Gell, '12, stated their position when he said that the F. A. C., accidentally or otherwise, had always alienated the graduates. It has repeatedly refused the graduate body any representation in the athletic councils of the college as is done at other universities. It has, in short, adopted the attitude that once out, an alumnus is an outsider.

There is, of course, no need to show how bad is this attitude. The very fact that this same F. A. C. is now asking the alumni to back football is sufficient refutation to this position. An alumni body, properly organized so as to make use of the immense resources, should and can be of the utmost advantage to athletic and other activities.

The Faculty Athletic Committee, practically a one-man body, has been wholly inefficient because to its chairman the duties the position carries with it are not foremost in his thoughts but are rather subordinate to his more important lecturing and writing. In other words, to the members of the F. A. C. the duties of the committee are secondary to the duties as members of the faculty.

ATHLETIC DIRECTOR WOULD SOLVE PROBLEM

Now we believe that there is but one solution to the problem, and that is the abolition of the F. A. C. and the substitution for it of an Athletic Director, who shall devote all his time to athletics. Under such a system, and especially when the man chosen will be required to get results to hold his job, athletics are bound to advance.

It will, furthermore, give the college added prestige in the eyes of other colleges. Whereas a college will not treat a manager backed by an F. A. C. decently in the way of giving him suitable dates, guarantees, and so on, it will respect and try to please a college whose manager's letters are countersigned by an athletic director. It is also to advance the old argument, the method used in nearly all colleges in the country, City College being, as far as we know, the only college in the East still using the old F. A. C. system.

Admitting these things, there remains but the choosing of the man to fill the position of athletic director. As we have so frequently said, Prof. Williamson is the ideal man for the position. He is interested, heart and

THE VARSITY

'21 WINS TRACK MEET

(Continued from Page 1)

fourth, he displayed a good bit of talent. Teitelbaum, '24, and Levinson, '21, fought throughout the entire contest for supremacy. During the first four laps they kept abreast, but the lower classman, in the last lap, sprinted and snatched first honors. Bonnyay, '23, dodged behind Levinson, '21, and took third position. The time for this event was good.

Again in the two-mile race Levinson, '21, after maintaining the lead for the greater part of the race, was beaten out. Bernhardt, '24, and Patent, '24, who appeared at the start of this event to be out of the running for first and second positions, flashed an unexpected sprint and nipped the latter positions, respectively. The winner ran at a steady pace and during the last two laps let out his speed, which was sufficient to outdistance Levinson. Leon, '24, finished in last place.

The number of entrants in the field events was not enough to satisfy the coach. The running broad jump, shot-put and high jump constituted the program for the field events. Rosenwasser, '23, Schapiro, '23, and Spheigels, '25, were the winners in the broad jump, shot-put and high jump, respectively.

Summary:—

100-yard dash—Won by Horn, '21; second, Botwin, '24; third, McConnell; fourth, Fleury, '25. Time, 10 3-5 seconds.

220-yard dash—Won by Bisgier, '21; second, Factor, '23; third, Fleury, '25; fourth, Militinavitch, '22. Time, 24 4-5 seconds.

440-yard race—Won by Horn, '21; second, Militinavitch, '22; third, Factor, '23; fourth, Bennett, '25. Time, 54 seconds.

880-yard race—Won by Bisgier, '21; second, Fagin, '24; third, Priesi, '23; fourth, Murphy, '24. Time, 2 minutes, 11 2-5 seconds.

One-mile race—Won by Teitelbaum, '24; second, Levinson, '21; third,

soul, in athletics. He knows our athletes and students at first hand and not from a lecture platform. He is well known and well liked by the alumni. Above all, he is where one can find him, always ready to advise despite his duties as an associate professor of hygiene.

To be really efficient, however, Prof. Williamson must be able to devote all his time to athletics. He must be relieved of his duties in the hygiene department, and he must be removed from the control of the petty, disinterested and inefficient Faculty Athletic Committee.

PRES. MEZES SHOULD TAKE ACTION

There is but one way for this to happen. President Mezes is the only man in a position to change conditions. With these facts brought to his attention it seems to us that he should look into the matter more closely.

The college at large wants an investigation and a change. The high authorities of City College have until now either not seen or have not wanted to see conditions as they are. Will they continue to neglect the facts?

BROOKLYN POLY MEETS VARSITY ON WEDNESDAY

Tomorrow afternoon Brooklyn Poly will visit the Stadium for its annual tussle with the College nine. The visitors to date have been successful in their engagements and pre-depart sent out by the Brooklynites indicates a sharp struggle.

Last season the Lavender ball-players annexed the game by an 8-2 score. "Chick" Feigen, who was slated to pitch the Drexel engagement, will most likely twirl the pill for the Varsity.

SPORT TAX REPEAL

The agitation for the repeal of the ten per cent. tax on sporting goods has assumed national proportions, with practically every amateur athletic organization behind the movement.

During the war, the Government levied a tax of three per cent. and after the armistice the rate was raised to the present standard. The unjustness of the levy can be seen from the facts that professional players buy only a very small part of the total amount of sporting goods, thus placing the burden on the amateur.

Everyone interested in this repeal is urged to write his Representative in Washington, urging him to vote for the reduction.

Bonyay, '23; fourth, Burman, '24. Time, 4 minutes, 55 3-5 seconds.

Two-mile race—Won by Bernhardt, '24; second, Patent, '24; third, Levinson, '21; fourth, Leon, '24. Time, 11 minutes, 19 seconds.

Running broad jump—Won by Rosenwasser, '23; second, Factor, '23; third, Wolff, '22; fourth, Guttner, '24. Distance, 18 feet, 7 inches.

High jump—Won by Spheigels, '25; second, Rosenwasser, '23; third, Payne, '24; fourth, Weinberg, '24. Height, 5 feet, 3 inches.

Shot-put—Won by Schapiro, '23; second, Jones, '22; third, Goldberg, '21; fourth, Bluestein, '25. Distance, 37 feet, 9 1-2 inches.

FOOTBALL PLANS ARE PROGRESSING; SEEK GAMES FOR FROSH ELEVEN

Prof. Williamson Busy With Schedule—All City High Schools Canvassed

STUDENT DRIVE, MAY 16

To Last Entire Week—Tags to be Sold for Subscription Fee—Combination Tickets to Alumni

The football committee held its meeting last Friday in the A. A. rooms and decided upon certain plans. In order to have football come back and remain on a strong foundation, it is necessary that a sufficient sum of money be collected for this purpose. The football fund, as it now stands, contains a little less than two thousand dollars. This amount is hardly enough to bring back the desired sport. At least one thousand dollars more is necessary.

For the first time since the project was begun, the matter has taken a tangible form. Heretofore, football was a matter of conjecture and discussion with no definite action being pursued. Money was collected but no steps were taken to overcome the bigger obstacles in the way. Now, however, a schedule for a yearling eleven is in the making. That such a thing may be a reality, Prof. Williamson has taken it into his own hands and is now canvassing the various city High Schools for bookings. As previously mentioned in the "Campus," the Faculty has agreed to arrange the class schedules in such a manner as would facilitate regular practice for the Freshman players.

The combination season tickets have solved the "money" problem. Only three hundred of these pasteboards will be sold and will be limited to alumni only. The holders are entitled to one admission to all swimming meets, basketball, baseball and football games upon the initial payment of fifteen dollars for a ticket. Of

ARRANGEMENTS MADE FOR '24-'25 DEBATE

Final arrangements for the debate between the classes of '24 and '25 are being completed. The '24 team was selected by Professor Redmond on Friday, after a competitive tryout. The men selected were Jeremiah Beriman, Francis E. Corbie and Albert H. Aronson. After a conference between Buschnel and Warsoff, managers, respectively, of the Soph and Frosh teams, it was decided that the '24 team would propose a topic for the debate and the '25 team select a side. The date of the final debate has not yet been definitely decided.

IMPORTANT

The following regulations will be strictly enforced by class marshals and members of the Student Council:

I. The names of all students who fail to deposit papers and refuse in the proper receptacles, or who in any way litter up the Concourse, will be reported to the Student Affairs Committee for disciplinary action.

II. Students must appear before the Student Affairs Committee when summoned; failure to comply will be followed by suspension for three days or one week.

III. Eating in the alcoves is prohibited.

IV. All infractions of these rules will be followed by severe punishment.

MENORAH RECEIVES GIFT

Mr. Arthur M. Lampert, president of the Natolic Securities Company, donated one hundred dollars to the Menorah Society.

the receipts from the sale to our grads, one-third is to be devoted to football. Tickets sold in this manner for several years will not only place the sport on a sound financial basis, but will re-arouse the interest of the "old men" in our athletic endeavors. As a further-aid to the financial situation, a screen, the money for which has been appropriated by the Board of Estimate, will be erected about the field during the summer months.

The Football Committee has formulated a plan to raise as much money as possible. During the next month, one school week will be set aside for this drive. This week, from May 16 to May 30, will be called tag week. Every student in the college will be approached by the members of the Football Committee and the price of one tag will be 50 cents. It is expected that every student will co-operate with the committee and make their task as easy as possible. Their work is constructive and for the benefit of the entire student body, so give when you are asked.

After this plan was formulated the committee glanced over the work that is being attended to at present. Professor Williamson has already begun on the formation of a Freshman schedule. This part of the affair is well taken care of and in the near future a schedule will be ready for publication. Among the Freshman rivals there will probably be some of the best high school and college Freshman teams.

Letters have been sent to all the high schools in the city, informing the students that C. C. N. Y. will have football by September. Plans are also being made for certain students to visit the high schools of the city and talk to the various football players that are graduating in June.

This Thursday, immediately after chapel, there will be a meeting of all prospective candidates. Only members of the Class of 1925 are eligible. This gathering has been called in order to make arrangements for an early start next term.

PHOTOS OF EINSTEIN TO APPEAR IN "MIKE"

Will Contain Picture Taken Thursday in Stadium—Extend Time of Payment to May 20—Faculty Support Enthusiastic

The visits of Professor Albert Einstein to the College during the past week have made a possible feature in the 1921 "Microcosm," consisting of six or seven informal pictures of the great scientist.

The enthusiasm with which the faculty are supporting the "Microcosm" made possible the taking of an excellent picture of the faculty in the Webb Room.

The picture of the College, faculty and students, taken last Thursday in the Stadium, has not yet been developed. If it turns out to be satisfactory it will be reproduced in the "Mike." Single copies of the picture will also be put on sale.

An effort is being made to have an engraving of "The Graduate" in colors appear opposite the picture of the interior of the Great Hall. This is being done with a view to beautifying the annual.

The page devoted to C. C. N. Y. Alumni, who have achieved world-wide fame, is rapidly being filled. Pictures of men who are known to all the world for their success in science, literature, finance and other fields, will be printed.

The business manager of the "Mike" announces that the students are subscribing in satisfying numbers. Subscription will be kept open until May 1. All the money must be paid by May 29. The extension of time was made to meet the inevitable shortness of funds among the students, due to the Alumni Library Drive, Varsity Excursion and kindred activities.

The "Mike" will be ready for distribution by June 15. Copies will be mailed to the homes of men who are not in College at the time of distribution.

TO HAVE RIFLE TEAM

The R. O. T. C. is to hold a special rifle match at Camp Perry this summer. The American Exchange National Bank of New York is offering a trophy and a cash prize of \$100. Teams will consist of six men and will be selected from those who distinguish themselves at the regular summer camp. The teams will represent their college as a unit. Another National rifle match will be held at Camp Perry at which not only the R. O. T. C. but the military and naval academies will be represented, and all military organizations of the country.

At the last rifle match City College attained considerable distinction through the remarkable records made by Captain Hoeflinger, who won several medals and awards for his shooting. It is hoped that this year even more distinction may fall to the share of our College and that we will have a rifle team which will be a credit to the entire student body.

Cadet Finklestein of Co. C, 1st Platoon, is endeavoring to organize a band or bugle corps or some similar organization within the R. O. T. C. All those who can play any instrument or are interested in the matter should see him and make plans for the organization of such a unit.

CIVICS CLUB LECTURE

(Continued from Page 1)

Modern philosophers, Prof. Keasby asserted, see only the exploiting element of the human race, and base their logic on the one-sided point of view. The fact that society exists to-day is in itself conclusive proof that life is composed of other elements than perpetual strife and struggle. Prof. Keasby stated the three essential requisites to the successful working out of the principle of "Symbiosis." This spirit of "Symbiosis" or co-operative exchange is the only hope of the world to-day, in Prof. Keasby's opinion. He also expressed the belief that Europe at the present time is much further advanced in this principle than is America.

At the conclusion of the address several minutes were devoted to an informal discussion of the question, in which Prof. Guthrie took an active part.

SALE OF TICKETS FOR BANQUET TO END SOON

Thursday Last Day to Buy—Elaborate Program and Epicurean Meal Are Promised.

Professional entertainers will provide the amusement at the Fresh-Soph Peace Banquet, to be held on Sunday evening, May 1, at the Cafe Boulevard, Broadway and 40th Street. A syncopated jazz band will supply the music for the evening. Nothing has been left undone to ensure an enjoyable evening to '23 and '24. The dinner committee has also promised a number of special features and novelties for the affair, so that both classes will forget their old enmity and become friends forever. The meal itself will play an important part in the program and will consist of enough courses to satisfy the most energetic "foodhound."

The sale of tickets will stop on Thursday, in order that the committee may know beforehand how many men to provide for. Those who have not completed payments on their tickets must do so at once.

SUMMER JOBS SUPPLIED BY EMPLOYMENT BUREAU

The Employment Bureau is already preparing to secure summer jobs for the students. Last year a great many students were placed in positions in the city and on the farms for the summer, but the jobs this year are a great deal scarcer. Nevertheless, Mr. Rose, employment manager, is confident that he can place many students in summer positions if they will file applications with the Bureau. A notice announcing the date and time when these applications for summer jobs should be filed will be posted soon in front of Room 305A.

VISIT TO SING-SING WITH PROF. GUTHRIE

To Meet at 10:30 on Saturday, April 30, at Kingsbridge Station—Warden to Conduct Party Through All Departments in Person

Prof. Guthrie will conduct a trip to Sing-Sing Prison, under the auspices of the Department of Government and Sociology, on Saturday, April 30th. The modern penal methods will be explained to the party and all the various departments of the prison will be open for inspection.

The students who will make the trip will meet at the Kingsbridge subway station, Marble Hall, on the N. Y. Central railroad, and will take a local to Ossining, where they will arrive at 10:30 A. M. Each one will bring his lunch along, so that at noon-time a regular picnic will be held. The warden will meet the party and conduct them through the prison.

All those who would like to make this trip must register beforehand with Prof. Guthrie, so that accommodation for the entire party can be provided.

ENGINEERING CLASS FORMING AT POLY

Since E. E. 230 and E. E. 240 are not offered by the College at present, a group of students is being formed to take equivalent work elsewhere, and then complete the remaining Electrical Engineering work at the College. Two courses in the Evening Session of Brooklyn Polytechnic Institute, similar to the above courses, are acceptable by the College as suitable substitutes. Each extends over a period of one year, i. e., thirty weeks requiring three hours per week. Fee for both is \$55. Those desiring to take the courses next Fall and Spring sign names and addresses on notice to that effect posted on Physics Bulletin, adjoining Room 2.

A CHALLENGE AND A COMPLIMENT

When we invite you to a test of our efficiency we at the same time pay you the compliment of expressing our belief, both in your seriousness of purpose and in your ability. If you want to be a stenographer, a bookkeeper, an accountant or a private secretary of real big money-earning power, let us point you the way. We'll gladly send you one on request.
