

SPORT SPARKS

BY HECK

FOUR HUNDRED NEW MEN in the college, the vanguard of what should be the greatest and best of all classes! How are you, '25? Glad to see you here, the FINEST college in the country, Columbia and all those others not excepted. Of course.

WE'RE ALL GLAD to see you. Especially '24. That much you already know. The question is:

HOW ABOUT YOU? ARE YOU GOING TO BE DOERS for your college or are you only going to stand around and talk? We don't intend to tell you what the college will do for you. If that's all you're here for, the sooner you get out the better for all concerned. No one can get something from the college in this world, notwithstanding, and this, the college, is no exception. What we want to know is what you intend to do for the college, now you're here.

YOU'RE THROUGH WITH YOUR HIGH SCHOOL DAYS. You're full-fledged men now. Are you going to take your full share of duties or do you intend to remain kids? Remember, the college is what you make it—in school by working to better it, outside to let others know what the college is.

THE COLLEGE HAS A RECORD AS BRILLIANT as any in the country. We're proud of what C. C. N. Y. has accomplished and we expect you to feel the same way about it. Get acquainted with your college, its history, past and present, its achievements, its men and activities. Get into activities yourself. Above all, BOOST YOUR COLLEGE. Agreed, '25? All right, then. SHAKE, FRESHMEN! GOOD LUCK!

TO THE REST OF THE COLLEGE, HELLO. Most of you are, no doubt, wondering whether we're back in college by way of the finals. No, we got through nicely and got our degree in Feb. But we've not yet learned all about the mysteries surrounding flies, bugs, frogs, and cats, and the smell of formaldehyde is still pleasing to us. And anyhow, we're not ready to leave yet, so here we are back at the old typewriter in a new office for a new and, we hope, very successful term, athletically speaking.

ER, WE BEG PARDON for our last remark. It's a new typewriter bought as a special inducement for us to be on time this term, our new business manager informs us. We are duly reprimanded. With these customary preliminaries over, we shall now get down to our own job.

THE JUNIOR METROPOLITAN 300-YARD TITLE and second place in the Senior Metropolitan 75-yard run are held by the college. George Bisgier, familiarly known as "Bis," brought home the bacon in his last two starts. Trimmed Lally, Meehniks, the great Frank Loomis into the bargain.

MUCH AS IT SURPRISED OUTSIDERS, we expected something like this. Constant practice such as George did and the serious way he went at the job could have no other result. It took lots of work, but then * * * A TITLE! Incidentally, it may interest some of our would-be athletes who are hankering to get 'athletic scholarships' to the other colleges that George has for the last two years refused such awards by Columbia, N. Y. U., and a few other "amateur" athletic colleges. "The Lavender is good enough for me," says George.

A CHAMP DOES NOT MAKE A TRACK TEAM. The college must have immediately at least fifty men who will come out for regular practice at the specified hours. Otherwise, track athletics must go where soccer went. Will it? Let's hear your answer in the negative on the track in the gym today.

SPEAKING OF PRACTICE, reminds us of the fact that for the first time in at least four years there is going to be regular practice in all major sports. All candidates must report together. No longer will regular swimming practice consist in having one plunger we knew come down at 11 A. M. for a half hour workout, a diver at 1 o'clock, and two distance men for a few minutes before the pool closed at 5 o'clock. It's got to be all at one time or not at all, just like the basketball team, our most consistent winner.

WHILE YOU'RE AT IT, MAC, WHY NOT EXTEND THE NEW SYSTEM TO THE MINOR SPORTS, TOO? WHAT REGULAR HOURS CAN DO FOR THE MAJORS, THEY OUGHT CERTAINLY TO BE ABLE TO DO FOR THE LITTLE FELLOWS.

WRESTLING IS AT LAST a recognized sport at the college. After long years of unrewarded, quiet work in which they gave up many hours they could well have used for purposes other than to promote a sport which was not even on the roster of Lavender athletics, the grapplers are now to receive recognition.

FOUR MEN DESERVE CREDIT for the establishment of the sport. Our own "little" Sol Brin first started active agitation for the sport last spring and, with Capt. Wittmer, was instrumental in bringing the large squad of sixty men out last season. Chabon, '22, himself a wrestler of no mean ability, carried on from where Brin left off.

MOST IMPORTANT OF THE QUARTET IS COACH CANTOR. Sam, though very busy, willingly consented to aid the boys with his wrestling experience and ability—both of first class calibre—when asked last spring. As to his accomplishments, we can say no more favorable thing than that all the men on the squad, Wittmer, Glassgold and Wolff included, were developed by him from unexperienced material. Now they are ready and easily fit to enter intercollegiate competition, which is some feat for one man to do in so short a time.

AGAIN, HOWEVER, THE ARRIVAL OF THE SPORT doesn't mean that we're to lie down on the job. Sam needs more men all the time, if we really intend to make it more than a flash in the pan. If you don't come out now, don't yelp afterward about "the impossibility of having athletics at City College," etc.

TWO HUNDRED MEN TRAVELED to Princeton to cheer the basketball team—COLLEGE SPIRIT. A SMALLER NUMBER ACCOMPANIED the team to West Point and made the old Hudson echo with their cheers—COLLEGE SPIRIT! GREAT CROWDS SPUR THE BASKETBALLERS TO victory in the gym Saturday nights—COLLEGE SPIRIT!!! ONE THOUSAND MEN NEEDED to wake up Brooklyn this Saturday night at the Poly game—COLLEGE SPIRIT? SURE. You bet, but see the Co-op Store for your pasteboard at once.

J. S., '24, WRITES, "When you please let me know where I can find a copy of the A. A. Constitution? Also, please explain just what the A. A. Board is supposed to do and what it does do." We do not know of any document such as you refer to J. S., '24. We have never seen a copy of it, but we should be thankful to anyone showing it to us. As for the second question—well, wait until we see the constitution and can talk the matter over. Offhand we should say nothing and everything at once, so rapidly does it vote itself powers. But then, as we said before, wait till we see the constitution.

WE LICKED FORDHAM AND AMHERST. Now we're going out to change Brown to blue and dye Yale a deeper shade.

Baseball Candidates Answer Coach's Call

Fifty Men Report to Mac—To Start Work at Once in the Cage—Schedule Nearing Completion

That spring is near was verified by the initial call for baseball candidates issued by Manager Shalvey last Wednesday noon. About fifty prospective ball players for both Varsity and Freshman teams, including veterans of last year, reported to Coach MacKenzie in Room 126.

Mac in his customary terse manner outlined his course of training for the coming season. Those men who are unable to report to at least four practice sessions a week are not wanted. The regular outdoor training periods will take place from four to six every afternoon.

Until the weather is suitable for outdoor play the large, netted baseball cage in the gymnasium will be used by the candidates. The basketball men who play ball will not report until after the N. Y. U. fracas.

Manager Shalvey has prepared a most alluring schedule for the college nine. It is rapidly nearing completion and includes games with some of the biggest eastern universities. It is probable that West Virginia will furnish part of the Charter day program in May. The schedule will be published in the Campus as soon as it has been accepted by the Athletic Association. The home contests will take place on Wednesday and Saturday afternoons.

The Freshman schedule is being filled rapidly and will be announced shortly.

New men who were not present at the rally should report to Mac any afternoon after four in the gym.

HEAVYWEIGHTS NEEDED FOR WRESTLING TEAM

Last Thursday noon twenty new men reported to Coach Cantor in the wrestling room, veterans of the art also appearing at the meeting.

Wrestlers for the 175-pound and heavyweight classes are needed to round out an efficient group of grapplers. Manager Chabon is at present securing outside competition for the matmen.

Men who are interested in this branch of sports and willing to report regularly are urged to see Coach Cantor. Having been recognized as a minor sport, the regular minor-sports insignia will be awarded by the A. A. to those men who actively represent the college in intercollegiate meets.

NEW MARKING SYSTEM IN MILITARY SCIENCE

Colonel Arnold, Professor of Military Science and Tactics, has announced that beginning this term a cadet will be graded not only on his examination mark, but upon his term's work. Extra credit will be given for good work during the term. Similarly, a cadet whose behavior is such as to do injustice to himself as well as to the course and to the students taking the course will have points deducted from his final standing.

"The Department of Military Science and Tactics," said Colonel Arnold, "hopes that any man who desires information or help regard to the course will come to the office and make his wishes known. The Department will be glad to help him in any way possible, consistent with the military system."

Students taking the advanced courses in military science will receive from the government approximately \$200 for commutation and rations. If the cadet has done good work, he will be given a commission in the Officers Reserve Corps, if he so desires.

POLEBRONZY SUBJECT OF BIO CLUB MEETING

The problem whether more than one individual can be developed from one egg was discussed by Mendel Jacobi at the last meeting of the Bio Club.

There has been wide experimentation in this question and the results in the case of the armadillo prove that it is possible to develop a large number of perfect but smaller individuals from one egg. The effect of this experimentation, if carried on with success upon humans, would be so stupendous as to tax the imagination.

J. H. Astrowitz spoke about chemotherapy or the synthetic preparation of chemical compounds for the cure of diseases. The speaker picked as an example the cure of sleeping sickness.

The results of the Bio Fund Drive last term have been made public by Astrowitz, the treasurer. \$101.25 was obtained, bringing the fund to about \$910.00. The goal of one thousand dollars, it is expected, will be reached this term, and City College will have two representatives at the Wood's Hole Laboratories this summer.

SANDS AND PRERAU TO RUN FOR COLUMBIA

Two star track men have departed from C. C. N. Y. and are now affiliated with Columbia University. Al Sands and Sid Prerau, both of whom have done hard work on the cinder path for City College, are now studying at the Morningside Heights institution. The former performed excellently on the cross-country team, while the latter was a member of the Lavender relay quartet which took second at the Penn games last April.

Although the track team has lost these men it will be represented by a group of accomplished harriers who will be capable of equalling the feats of last year's aggregation.

Indoor practice is now being held regularly in the gym and all athletes desirous of becoming varsity track men must report for training during the hours set aside for this purpose. Coach MacKenzie states that material for all field events is lacking and urges the students to respond to the call for candidates in this particular branch of sport.

HANDBALL TEAM SHOWS SUCCESSFUL RECORD

To date the handball team has played four games, winning two and losing two. The schedule calls for two more games, one with the Lone Star Boat Club and the other with the City Athletic Club. Both matches will be played at home on Feb. 26 and March 5, at 3 P. M., respectively. At present negotiations are being carried on with many teams of excellent calibre, and it is hoped that some of the latter combinations will soon be added to the schedule. Practice days will be announced presently.

Past Record.

FRESH SWIMMING TEAM IN NEED OF MEN

The Freshman swimming team has not made a very good showing during the first half of the season, due to lack of material. Men had not responded to the call for candidates.

With the opening of the new term, the yearlings remain with only two veterans, Captain Lease and Chadrick. So far there has not been any improvement over the passed semester, in respect to the number of men trying to gain berths on the team, necessitating the cancellation of the contest with the Columbia Freshmen. In order that there be a team, men are urged to report to the pool at the same hours that the varsity holds its sessions.

CHESS CLUB APPEALS FOR NEW CANDIDATES

H. Slochower, '23, was elected the president of the Chess Club at its last meeting of the fall term. H. Grossman, '23 was elected secretary.

The Chess Club will compete with many of the greatest chess clubs in the city, during this term. At the present time more men are needed for the team in order to maintain the high reputation that the college chess team has enjoyed in the past. All who can play chess, especially freshmen who have recently played on high school teams, are urged to try out. The Chess Club meets every afternoon from 1 to 5 P. M. in Room 219.

PHYSICS DEPARTMENT MAKES STAFF CHANGES

Major MacCleave of the Physics Department has severed connections with the college. Mr. C. S. Broos, a graduate of Michigan University, Massachusetts Institute of Technology, and Harvard, his successor will teach surveying and mechanics of materials.

Mr. J. W. Hayward, a man of wide experience in practical and mechanical engineering, has been added to the staff of the Department of Mechanical Engineering. He will teach machine design, hydraulics and elementary electricity.

Registration for the mechanical engineering courses was so heavy that two classes of the same subject had to be formed to meet the demands of the students.

All engineering subjects now count toward a baccalaureate degree and the courses are so arranged that students upon completion of 4 degrees work receive their B. S. upon completion of a fifth year of work, which consists of engineering courses, a student receives a degree in any one of the four engineering courses, namely, C. E., M. E., E. E., Ch. E.

LOWER CLASSES PAINT ETERNITY ROCK WITH VARIEGATED SIGNS

Eternity Rock and its vicinity has been painted and repainted several times within the past week by the Freshmen and Sophomore artists. The blazing emblems of both classes have alternately adorned the campus, until '24, which was more persistent than their rivals, erased all the '25 numerals in sight and painted their instead. Now the Class of 1925 is waiting for an opportunity to turn the tables.

STUDENTS' AID.

The Students' Aid Committee, a little known though highly helpful organization, is as ever aiding needy students. Already this term it has provided funds for the maintenance and continuance of the Employment Bureau. It has also secured positions as library assistants to those students requiring such help.

Big Enrollment in Economics Courses

Elective Registration Exceeds Tat of Any Other Department in College

The Economics Department has a larger enrollment in its elective courses than any other department in college. All the courses that were offered are filled to capacity and in a few cases special sections had to be formed to accommodate the increased number of students desiring admission.

The cause for this, according to Professor Robinson, is the fact that students are gradually awakening to the opportunities in business for graduates of the School of Business and Civic Administration.

This school offers four curricula, ranging from the thorough and broad course leading to the degree of M.B.A. (Master of Business Administration) to the more narrow and technical course leading to the Certificate of Junior Accountant.

The department plans to offer, in the coming semester, courses in certain technical and special subjects, such as Business Finance, Business Statistics and Business Investment, and thus give the students an opportunity for specializing along certain definite lines.

PROF. GOLDFARB MADE SECTION SECRETARY

Professor A. J. Goldfarb, 1900, was elected secretary of the section of medical sciences of the American Association for the Advancement of Science at its last meeting, held in Chicago during Christmas week.

Professor Goldfarb was also chosen by his associates to represent the City College Chapter at the meeting of university professors, representatives from all parts of the United States met to discuss the improvement of conditions in colleges and universities.

NEWMAN CLUB TO HOLD COMMUNION ON SUNDAY

The annual communion and breakfast of the Newman Club will be given on Sunday morning, Feb. 20th, at the Church of the Paulist Fathers, 59th street and Columbus avenue. Communion will be held at 8 A. M. and breakfast will follow at Reisenbuer's at 9:30 A. M.

The regular meetings of Newman will fall on the second and fourth Thursdays of each month this semester. Father Reilly, Chaplain, will address each meeting.

BIG DELEGATION AT Y. M. C. A. CONFERENCE

The college Y. M. C. A. sent nine men, the largest delegation present, to the conference held from Friday evening, Feb. 11, to Sunday afternoon, Feb. 13, at Englewood, N. J.

Representatives from Rutgers, N. Y. U. and Columbia were present. The question discussed was how to extend the activities of the "Y" in the various institutions represented.

NEW SCHOLARSHIPS OF SCANDINAVIAN FOUNDATION GIVEN

Seniors and Juniors of Scandinavian descent, born in America, are eligible for a new scholarship offered by the Scandinavian Foundation. The scholarship carries a stipend of at least one thousand dollars a year and provides the holder with an opportunity to study in Denmark, Sweden or Norway. Anyone at all interested should consult Dean Brownson.

EL CIRCULO CERVANTES ANNOUNCES PROGRAM

At the first meeting of "El Circulo Cervantes" held last Monday in T. H. H. election of officers was held and plans were formulated for the coming term. It is intended not only to equal but surpass the achievements of the past term. Included in the program will be weekly addresses by members of the faculty on topics of vital interest, Spanish songs and games, trips to the Hispanic Museum and to local theatres presenting plays of interest to Spanish students ("The Bad Man" with Holbrook Blinn, at the Comedy Theatre), and visits to neighboring high schools which produce Spanish plays.

TRIP TO ITALY PRIZE FOR STUDENT ESSAY

The Italy-America Society offers a trip to Italy during the summer vacation of 1921 as a prize for the best essay submitted by an undergraduate student of an American college or university on the subject, "Italy's Contributions to Modern Culture." The judges of the contest will be Dr. John H. Finley, former President of this College; Dr. S. O. Duggan, Director of the Institute of International Education, and Professor Ernest H. Wilkins, head of the Department of Romance Languages and Literature at the University of Chicago.

The essay should consist of not less than 3000 nor more than 10,000 words. The contest will close on April 15th. All essays should be mailed to Mr. Irwin Smith, 23 West 43rd Street, New York City.

DR. TALMEY TO SPEAK

On Thursday, February 17th, at 12 o'clock, in Room 126, Dr. Max Talme, celebrated linguist and author, will give an address on the Solution of the Problems of an International Auxiliary Language.

Social Problems Club Announces Speakers

Authors, Poets and Liberals Are Among List — Club Plans Study Circles

The Social Problems Club is contemplating launching itself upon a term of intensive activity. A list of speakers, whom it intends to invite to address its members, has been submitted to the Faculty Committee on Student Activities.

The list of speakers is as follows: Floyd Dell, author of "Moon-Calf"; Harry Watson, author of "Pain and Pleasure"; Astuso, Giovanni, poet and labor agitator; Van Wyck Brooks, critic, essayist; Francis Nielson, editor of the "Freeman"; Crystal Eastman, editor of the "Liberator"; Nicholas Murray Butler, President of Columbia University; William Z. Foster, author of the "Steel Strike"; Louis Brandeis, author of "System of Wax"; Henry Kahn, formerly editor of "Weekly People"; Rose Pastor Stokes, poet and dramatist.

This term, the Social Problems Club is inaugurating a rather novel feature in creating study circle and discussion groups. The club is anticipating enrolling the support of every man whose clear vision and keen mind has not been warped by prejudice.

ALUMNUS WINS HONORS

Jerome Sammet, '21, a C. C. N. Y. alumnus, has received the Inman Fellowship in Chemistry at New York University. He will divide his time there between teaching and research work.

FOUNDED 1856

THE fixed basis for clothes economy — unquestionable quality, unblemished tailoring, uncommon designing and unusual value.

Our Winter clothes provision for young men — from head to foot — fulfill every essential tending to true economy and lasting satisfaction.

BROKAW BROTHERS 1457-1463 BROADWAY AT FORTY-SECOND STREET

NEW COURSE IN COPY WRITING INAUGURATED

A very practical course in copy-writing will be conducted this term by Mr. B. H. Collins in the Evening Session. The course will treat very comprehensively the preparation of advertising copy for magazines, newspapers, billboards and street-car cards. This laboratory course will be given both in the Main Building and the Commerce Building, beginning February 18. A fee of \$10 will be charged for the entire course.

PROF. LEASE TO SPEAK

Professor Lease, of the Latin Department, will speak at the Recreation Rooms and Settlement, 186 Chrystie Street, on February 25. The topic of his lecture will be "Mystic Numbers in Literature, Religion, and Folk-Lore."

SUBJECT OF TREMAIN CONTEST ANNOUNCED

The topic for the General Tremain Prize Essay, which has just been announced by the History Department, is "The Causes of the Great Civil War in the United States."

The competition is restricted to juniors and seniors. All men are advised to consult Professor Mead in the office of the History Department before doing any work on their essays.

There are two prizes: \$150.00 for the best essay, and \$50.00 for the second best. The contest will close shortly after the Easter holidays.

A CORRECTION

The price of the "Mike" was misquoted in the previous issue of Campus. The price per issue is two dollars.

College Books of all publishers, new and secondhand, at reduced prices. We can save you much money on your schoolbook bills, especially if you can use secondhand books. Write for our catalogue, or if you live near New York call and personally select the books you want. There is no school or college book publisher that we cannot furnish.

MURAD

THE TURKISH CIGARETTE

Mrs. Fox was bragging one day about the large number of her cubs.

"How many cubs do you bring into the world at one time?" she asked the LIONESS.

"Only ONE," replied the Lioness—"but it's a LION."

MURADS COST 20 CENTS for a BOX of 10—BUT THEY'RE MURADS!

MURADS would be lower priced if we left out all or part of the 100% Turkish tobaccos of the purest and best varieties grown—or if we substituted inferior grades of Turkish tobacco.

But they wouldn't be MURADS—they'd only be Foxes!

"Judge for yourself—!"

Special attention is called to Murad Cigarettes in Tin Boxes
