

MENORAH HEARS TALK BY DR. JUDAH MAGNUS

The Topic is "The Jew and the Present World"—Wants Independence of Thought

Dr. Judah L. Magnus spoke on "The Jew and the Present World" to a large audience in Room 126 last Thursday at 1 o'clock. The meeting was held under the auspices of The Menorah Society.

Touching briefly on the problems of the day, Dr. Magnus outlined the conditions facing the world. He asserted that editors, statesmen, literary men, college professors, and others who mould public opinion have lost their power of independent thinking in the last few years.

The lecturer said that western civilization is doomed to destruction unless different peoples cease to be suspicious of one another, and unless the nations learn to understand each other. "Another war is near at hand," he exclaimed. Its cause was laid primarily to the lack of independence of mind which makes possible the hatred and malice that still fill the world.

Under such conditions, Dr. Magnus continued, it is beneficent that the Jews maintain their individuality. He raised the question whether the Jews should give up their religion, their philosophy, their ethics, and their ideals for a civilization that is leading the world into another war.

The task for the Jew, Dr. Magnus pointed out, is to apply his independence of mind, his ideals, and his ethics, in teaching the world to remedy its ills. The world has need of this service.

The talk was concluded with an appeal that the Jew be allowed to retain his spiritual identity and his distinctions, which have persisted through centuries.

INTERCOLLEGIATE NOTES

Fresh-Soph Activities in Other Institutions

CARNEGIE TECH

Once more the "burying of the hatchet" has ended the hazing period at the Carnegie Inst. of Technology. After winning the annual contests the Sophs decided that the plebes should not go unhazed. The result is described by the Tartan, the college publication.

"It was a strange sight which greeted the eyes on approaching the campus. On Woodlawn avenue many plebes were contesting their love for the fair coeds. On the Leeu some ingenious engineer had laid a track composed of freshmen. Over this express trains were running each train consisting of a plebe walking on his hands, being pushed by the feet of a second plebe. The grand finale was reached at night when the sophs decided to have a midnight pajama parade. The plebes, clad in night shirts and colored pajamas, were rowed out of their beds. After being made to serenade the various girls' dormitories they were marched to the swimming pool. The sophs didn't stop at this point, however, but marched the plebes through the icy cold pool."

MUHLENBERG

The freshmen at Muhlenberg College came out victorious in the annual tug of war with the sophs. Although the frosh were at a disadvantage from the start because a soph captured one of their ropes it was not long before they had pulled the sophs past the goal line.

CEDAR CREST

The freshmen rules drawn up by the sophomore class of Cedar Crest College are interesting because of their ultra-originality. Here they are in part:

1. Large napkins must be worn around the neck for breakfast with a string of twelve safety pins each two inches long on the outside.
2. An umbrella must be carried while on the campus and raised when a sophomore passes.
3. No rouge, powder, or jewelry, except watches, are to be worn.
4. Hair must be worn with a puff over the left ear and drawn back tightly on the right side with the ear visible.
5. Oxfords must be worn with green laces.
6. Froshmen are warned to avoid the campus.

MENORAH ADDS NEW BOOKS TO LIBRARY

Expect Large Circulation—Library Includes Books, Pamphlets and Newspapers

The Menorah Librarian reported that the student body last term availed itself of the Menorah Library more than on any preceding term. The demand was so great that new books were added during the term, and, in addition, a considerable sum of money has just been appropriated for more new books. The library now contains more than two hundred volumes, including the Jewish Encyclopedia, and one hundred pamphlets, on every Jewish and closely allied subject. There are, in addition, more than a score of newspapers and periodicals, from every section of the country, representing every shade of opinion on the current problems of Jewish importance.

The Menorah Library is becoming a college institution. It is useful not only in more fully acquainting students with Jewish culture and ideals, but also in giving students help in connection with the regular college work in the departments of philosophy, history, public speaking, and others. The library also possesses a number of bibliographies on many subjects, and these may be obtained upon request. They will be very useful to those who partake in the Menorah and Zionist prize essay contests. An efficient staff of librarians is ever present and anxious to advise and assist the students in every way possible.

The Library is open to all faculty members and students, but non-Menorah members must pay a deposit before taking books out for the term.

SWIMMING TEAM STARTS PRACTICE

The City College swimming team has started practice already and is preparing for a difficult season. A large number of candidates have answered the call for practice, including all of last year's squad except Captain Lehman, while in water polo C. C. N. Y. will have the same team as last year. MacTague will captain the natators and Menkes, last year's all-collegiate forward, the water poloists.

The lavender schedule includes a number of the strongest colleges in the country. The season will open up with a meet against Penn and wind up with a contest against C. C. N. Y.'s old time rivals, Columbia.

The schedule is as follows: December 2, U. of P.; December 9, Columbia; December 16, Yale; December 23, Princeton; February 10, U. of P.; February 17, Navy; February 24, Princeton; March 10, Columbia. The first four contests will be held in the C. C. N. Y. pool, while the remaining meets will be held away from home.

MENORAH FORUM PLANS INTERESTING LECTURES

The Menorah Forum again promises to be one of the most popular features of student activities. Such men and women as Dr. Magnus, Fannie Hurst, Louis Marshall, Rose Pastor Stokes, Rev. Percy W. Grant, Rabbi Stephen S. Wise will surely have a message that can, with profit, be listened to by the entire student body.

The Hebrew Forum also is expected to attract every Hebraist in the College. Dr. Turov, Prof. Kaplan, Mr. Seharistein, Mr. Brainin are some of the well-known men who will address the Hebrew Forum.

MENORAH PLANS LAID FOR SOCIAL SEASON

A dance that shall live up to the best tradition of the College, will be given in the near future by Menorah. Those who remember the dances last year, in the Webb Room will look forward to the announcement of the date of this dance with pleasure.

A novel feature is being planned for this season, in the form of an inter-Menorah dance, to be held jointly by the Hunter and City College Societies.

The Intersarsity Menorah is also planning an unusually attractive set of social events, at which City College is expected to be well represented.

"Y" GIVES DINNER

(Continued from page 1.)

learned to love. The Dean said "The whole college is deeply interested in freshmen, and full of kindly intentions and hearty good will from the college men themselves and the faculty, all the way up to the president of the college. Don't ever hesitate to come to the faculty for help and advice." Professor Brownson closed by wishing a long life in the college, but at the roar of applause that greeted this unconscious statement, he hastened to amend it by adding "not too long."

Professor Burchard then arose and expressed the pleasure of the "Y" in having a World War veteran to address it, introducing Major Herrick. Major Herrick mentioned his own Alma Mater and told of his troubles in passing West Point examinations. Major Herrick selected City College from a list of fourteen others, including his own University of Illinois.

He urged that students take a more lively interest in the extra-curricular activities of the College, athletics in particular. In this connection he laid a special emphasis upon football, exhorting every one to give staunch support to the Freshman eleven, maintaining that the institution of this sport at C. C. N. Y. was one of the greatest benefits it could possibly acquire. Citing his own particular case as an example he admitted that he would greatly desire to witness some of the important gridiron contests at West Point during the ensuing season, but that he intended to forego this desire in order to attend a Freshman game because he felt that C. C. N. Y. was now his college and deserving of his undivided support. As a conclusion to an address which was both interesting and helpful and which was appreciated as such by all present, the major told several anecdotes of life at the United States Military Academy.

Among the other speakers of the evening were Flynn, president of the Newman Club; Donald Roberts, the "Y" secretary, and Hofflinger, president of the "Y".

The dinner came to a close with a session of enthusiastic cheering and spirited singing, led by Professor Baldwin.

DEFEAT FORDHAM PREP.

DR. BASKERVILLE WILL ADDRESS CHEM SOCIETY

To Repeat Lecture on "Chemistry and Civilization"—Plan to Invite Prominent Men

The Department of Chemistry is at present arranging its schedule of lectures for this term. Dr. Baskerville will initiate this series of talks with an address on "Chemistry and Civilization." Dr. Baskerville recently addressed the members of the American Chemical Society on this topic. Inasmuch as Prof. Baskerville's address was much heralded by American chemists, the professor has consented to repeat the major part of the lecture for the benefit of the college men.

It is customary for the Department of Chemistry to conduct a series of lectures by prominent chemists each term. In this way students of chemistry are enabled to view those aspects of the science not touched in the classroom or lecture hall.

Some of the most noted American chemists have been invited to speak. Dr. Edgar Smith, president of the American Chemical Society, has already accepted and the other lecturers will be announced later.

As usual, the lectures will be held on a different day each week so that every student of chemistry will have the opportunity of attending at least one of these talks.

PROF. COHEN LECTURES

(Continued from page 1.)

It is this tendency of social sciences to accept mere resemblance while chemists, not satisfied with similarity in appearance of various materials, analyze and experiment that forces us to conclude that Economics, Politics and Social Psychology cannot be placed in the category of sciences.

The final difficulty, the professor stated, was the complexity of the subject. Physics and Chemistry deal with inanimate objects and hence are comparatively simple. Such subjects tend to accuracy and precision. However, society cannot be as readily analyzed as atoms and molecules.

Professor Cohen concluded with the statement that in his estimation physical sciences will always be more advanced than social sciences.

On October 21, at 1 p. m., in Room 126, Chandler Owen, editor of The Messenger, a negro magazine, will address the Social Problems Club on "The Ku Klux Klan"

WRESTLING TEAM IS WELL REPRESENTED

About forty candidates reported for practice at the first meeting of the wrestling squad. Captain Silver, Balostsky, Glasgold, Wolff, Gade and Spitz, all veterans, were among the men at the initial meeting. Two former wrestlers also returned to the squad. They are Olsen and Greenberg.

Freshmen and Sophomores may prepare for the coming cane spears by practicing regularly with the wrestling team on Tuesday, Thursday and Friday at 1 P. M. Coach Cantor is volunteering his services for those who are either interested in wrestling or in the cane spears. The wrestling team, from a first glimpse, is well supported in every class except the 175 lb. class. Men who like the sport, irrespective of previous experience, are requested to report to Manager Chabon, '22, at any time.

NEWMAN CLUB PLANS DANCE ON HALLOWE'E'N

The Newman Club is planning to hold a Halloween dance in the College gym on Friday evening, Oct. 25. Frank Jones, chairman of the committee in charge, promises that the affair will be the best of the season. Beside many other attractive features, there will be novel decorations and anti-Volstead punch.

College Books of all publishers, new and secondhand, at reduced prices. We can save you much money on your schoolbook bills, especially if you can use secondhand books. J. HOWARD STRICKLAND CO., INC. PRINTERS, 133 WOOSTER ST., N.Y.

The Campus Association regrets that pressure of outside work has compelled Mr. Carlin to resign his post as editor-in-chief of "The Campus."

Mr. Carlin takes with him the well wishes of the association and of the entire staff for his untiring services last year both as reporter and news editor.

Mr. Lewis E. Zorn, whose record on "The Campus" is well known to the student body, will assume the duties of editor for this and succeeding issues.

FACING THE ISSUE SQUARELY

For several weeks now the Student Council has delayed investigating a most important matter. A member of the Council is charged with conduct unbecoming a gentleman and a representative student of the College and a class is called to account for the damages caused by several of its members.

The Campus has refrained from comment upon this episode, believing that the Student Council would dispose of it in a prompt and satisfactory manner. This does not seem to be the disposition of the Council.

A LITERARY OPPORTUNITY

A professor of English at our College volunteered to act as the guiding spirit in the maintenance of an open literary forum in the College. This forum would be modeled after the famous "Boar's Head" of Columbia.

The professor raised only one condition: namely, that all agitation for the establishment of the

Gargoyle Gargles

Vol. XXIX. Oct. 14, 1921. No. 4.

Three more days to chapel. Don't get impatient.

All the jokes that are fit to print.

THE CHAPEL

The Dean's office, yielding to popular clamor and acting under the advice of counsel, has decided to revive, early next week, a well known institution—the weekly chapel.

The sale of seats has been brisk from the outset. Long lines of prospective purchasers have formed in front of the dean's office.

The reserved seats will be exhausted by tomorrow. Seats in the bleachers will be thrown on sale on the day of the performance only.

An elaborate and interesting program has been prepared for Tuesday's opening, which bids fair to be a howling success.

Professor Baldwin's Jazz Band will then render some of the season's popular hits. The band has undergone considerable training in preparation for the event,

Professor Guthrie will then announce the batteries and formally open the performance.

The feature of the program is shrouded in the deepest mystery. All parties concerned have professed complete ignorance and have certainly looked the part.

Professor Baldwin's Jazz Band will then render some of the season's popular hits.

Mr. Warsoff led in the first election.

OUR OWN INQUIRING REPORTER

Question Asked—What do you think of the present situation? The Answers—1. President Mezes—I am not sufficiently well acquainted with the situation.

OUR OWN STUDENT OPINION

Beginning with Tuesday's issue GARGOYLE GARGLES will conduct a student opinion department. Grievances of all kinds will be welcomed and given an airing.

CAUSE AND EFFECTS

An advertisement for Korein tabules which "reduced weight happily" reads: Her Weight Reduced 6 Inches —He Lost 31 pounds.

OVERCROWDING AT COLUMBIA

forum come entirely from the student body.

forum come entirely from the student body. We believe that this opportunity to make our extra-curricular life more interesting and profitable should not be lost.

Judging from the preparations of the Social Problems Club and the Civics Club, it's going to be a warm winter.

STUDENT OPINION

To the Editor of The Campus:

I wish to bring to the attention of the Student Body certain interesting facts in connection with the A. A. elections held toward the end of last term; certain "anomalies", introduced in the election for the office of secretary, are of peculiar interest.

Mr. Warsoff obtained a clear plurality.

In the second election Mr. Warsoff was defeated by four votes.

For the first time in the history of the college, class held its election for class officers, in the same alcove and at the same time, that the A. A. held its election; furthermore, at this same election, the election committee of this same class was permitted to sit in the alcove where the elections were held and the ballot boxes were so arranged that before a man of the above class could drop his ballot for his class officers, he had to pass the A. A. ballot box, where he was asked to vote.

Permitting for this unprecedented procedure was granted by the president of the A. A. election committee, who, it might be added, was a supporter of Mr. Warsoff's opponent.

2. The class thus privileged was the one and only class to the exclusion of all the other classes of the college.

The above two facts would seem to be of peculiar significance in the light of the further fact, that the selected class sought out for this privilege was the '24 class, the class against whom Mr. Warsoff, as president of the '23 Class, had had occasion to direct certain sporadic hazing parties and other nefarious expeditions of class rivalry flavor; in other words, a class from whose members, support for Mr. Warsoff could be least expected.

The recent episode, involving certain pitiable manikins of the '24 Class, in manhandling Mr. Warsoff, throws more emphasis on this point.

.C.N.Y. CLUBDOM

The end of the first month of the semester finds most of the clubs of the college already actively engaged in their work.

Both are sincere in their beliefs and both call upon the most famous exponents of their creed to address the college. Many interesting lectures are thus supplied.

The literary societies are already in the field. Phrenocoma, the sedate upper classmen organization, has announced and held its first meeting.

Half a century has passed since these men were at the height of their activity.

The clubs interested in technical and professional work form a great part of the clubs of C. N. Y.

The Engineering Club has announced its organization meeting.

The religious organizations are too well known to be discussed here. The work of the "Y", the Menorah, and the Newman Clubs speaks for itself.

IN THE LIBRARY

Though the war came to an end more than two years ago, it is only during the last few months that it has been possible for libraries in this country to obtain books from Germany.

Of the books recently received at the College Library, a few are worth noting:

Otto Ernst—"Asmus Sempers Jugendland," the story of a boy who grew up in the sixties and seventies of the last century.

Other German books of interest are: Herbert Eulenberg, "Sonderbare Geschichten"; Keyserling, "Schwule Tage"; and "Vischer-Auch Eimer".

Allyne Ireland, writing "Democracy and the Human Equation", tries to prove that representative government is gradually being supplanted by mob rule, and that, if substantial improvements do not take place, the real one hundred percent Americans will soon be called upon to undertake a desperate fight against the rest of the people.

The present-day tendency is to regard literature merely as one of the fine arts.

In the period beginning about 1830 the attitude towards literature was a far different one.

Half a century has passed since these men were at the height of their activity.

The clubs interested in technical and professional work form a great part of the clubs of C. N. Y.

The Engineering Club has announced its organization meeting.

The religious organizations are too well known to be discussed here.

EVERYBODY'S LOOKING FORWARD TO THE WORLD SERIES NOWADAYS, BUT WE'RE GOING TO HAVE OUR OWN SERIES AT OUR OWN LITTLE POLO GROUNDS—THE LEWISOHN STADIUM—and there surely will be more excitement after the game than after the Yankees-Giants contest. The Frosh-Soph baseball contest has always been a very exciting event in the interclass rivalry. The odds are with the Sophs, but beware of the Frosh, they're on the warpath.

THE FRESHMAN CROSS-COUNTRY TEAM OPENS UP ITS SEASON AGAINST YONKERS HIGH SCHOOL TOMORROW AT VAN CORTLANDT PARK. With the beginning of this sport, the college now sees action in every Freshman sport—football tomorrow with Stuyvesant—swimming Monday with Townsend Harris Hall—basketball soon, practice going on now. The hill and dale climbers will travel up to meet their opponents with a strong aggregation and will put up a strong fight for victory.

THE LAVENDER FRESHMAN FOOTBALL TEAM TO BATTLE STUYVESANT ELEVEN TOMORROW IN THE THIRD CONTEST OF THE YEAR. Well, boys! Those who did not see the Fordham Prep game certainly missed a fine exhibition of football. An eighty-yard run and several other exciting moments furnished the audience with thrills and, on the whole, those who did witness the game were glad that they had not stayed away. However, tomorrow's struggle is expected to be the hardest and closest one of the season. Stuyvesant will be represented by a powerful eleven and will furnish strong opposition for the yearlings. The team will be on the field tomorrow and a victorious one, but where will its supporters be? You've pledged your support, so let's see you WITHOUT FAIL tomorrow in the Stadium at 2:30 p. m.

The purpose of this column is constructive and in general to say every thing that is said in a truthfully and helpful manner. The editor does not wish to incur the enmity of anybody, but would like to have the hearty support of all those concerned, in taking things in the right light. The football situation, so far, is fine, but could be still better and, in fact, has to be better in order that varsity football be established at C. C. N. Y. The co-operation of the faculty is a necessary element to success and so far has been very good except in one department. The military science department could, we are sure, make some allowance, or change in program for the football men. Every other department has done it and it was done wholeheartedly at Cornell, N. Y. U., Ohio State and many other institutions where military training is compulsory special allowance is made for the football players.

Just review what has happened in the past week. Monday, the team took its workout with the Military Science Department, Tuesday and Wednesday were holidays and today the men will go through a light practice for the next day's game; so in reality Thursday was the only day for a stiff workout and then the players could not break into the practice too rapidly for fear of injuries. Well, there is the situation. A well balanced team needs every afternoon for practice and if varsity football will ever come, the men must practice every day. Football is a sport that demands daily workouts and unless such requirements are met, it is hardly possible to have a successful team.

MIND YOU, WE DO NOT SUPPORT ANY SUCH RADICAL IDEA AS THAT OF ABOLISHING STUDIES FOR ATHLETICS. NO SUCH IDEA has ever come to our minds, but what we do advocate is that SOME ALLOWANCE be given to football men. WE ARE NOT ASKING FOR IMPOSSIBILITIES, BUT REASONABLE CONSIDERATION. After all, it is the athlete that brings prestige to the college. Why has Dartmouth and the rest of the colleges where the attendance is small such a national and international reputation? ATHLETIC PRESTIGE, as well as EDUCATIONAL HONORS answers the question. The men desire to come out for teams and most important of all is that conditions are made such that they can come out.

The whole argument rests on the one point THAT CITY COLLEGE HAS NOT REMOVED THE OBSTACLES FROM THE PATH OF THE ATHLETES. As long as these obstacles remain, the sports that are interfered with will have to be practically dormant. The quicker the situation is realized, rather is intended to be remedied as it certainly is realized, the sooner will City College athletics progress.

Give credit where credit is due. THE MILITARY SCIENCE DEPARTMENT CERTAINLY HAS A FINE SET OF OFFICERS, WITHOUT EXCEPTION. In a way they are helping our men athletically, as military training is very good for the development of the body and mind. The staff of officers also have helped our men athletically by coming out and lending their service as football advisors.

"BOB" KELLY HAS BEEN WORKING HARD ON A SCHEDULE AND WILL SOON HAVE IT READY FOR PUBLICATION. He won't let us see it now, but he says it's going to be the best one the Lavenderites ever saw. In the meanwhile, the basketball team, under the leadership of "Tubby" Raskin, intends to better the achievement of last year's quintet. That is probably the reason for starting practice so early in the season. Anyhow! it is a very good plan. Go to it, boys! Everything is in your favor.

WITHOUT ANY TRICKS OR MISLEADING STATEMENTS THE UNION MEMBERSHIP HAS REACHED THE ELEVEN HUNDRED MARK. This would be a surprise to some of the former anti-unionists. Considering that the price of the "U" ticket has gone up fifty cents and that the present economic conditions are not very good, the "U" campaign so far has been very successful. The present membership is but two hundred below the mark reached last year, but after the "U" drive last year's high mark is expected to be beaten. The students are gradually realizing the necessity of supporting athletics and all other college organizations.

FRESHMEN TO HAVE A CRACK SWIMMING TEAM

Harvey, Guernsback and Rabinowitz Show Fine Form So Far

The College is especially fortunate this year in having a large host of capable freshmen from which to choose a natorial aggregation. Most of the swimmers have ably proved their prowess in high school meets and undoubtedly will better their marks when they represent the College. No definite schedule has as yet been arranged but it is practically certain that all meets will be held on Mondays, beginning with a contest with Townsend Harris Hall on Monday, Oct. 17. If the freshmen can defeat the swimming delegation from across the street, they are doing well, because our younger brothers won the championship of the city last year. The likelihood is that the freshmen will take the youngsters in hand and get off to a flying start. Come out, freshmen, and also upper classmen, and see the team in action. You will not regret it, for they will ably uphold themselves and the College.

Captain Harvey will capably take care of the century race, possibly handle the 50-yard event, and also find a place on the relay. Guernsback is a surety in the 220-yard event and the relay, while Rabinowitz will be a point-winner in the five. Several other men are out for places in these events and the competition is bound to be keen.

There will be no plunging event in the freshmen meets.

Following is a list of events with available entries for each.

- 50-yard—Harvey, Guernsback, McKenna, Eaton.
- 100-yard—Harvey, Greenblatt.
- 220-yard—Guernsback.
- Relay—Harvey, Guernsback, McKenna, Greenblatt, Clancey, Eaton.
- Dive—G. Rabinowitz, Brodsky, Shufro, I. Cohen.

SELECT CONTESTANTS FOR CHESS TOURNAMENT

No entries for the tournament to select the Varsity Chess team will be accepted after next Friday. Four men will be chosen to represent C. C. N. Y. in the Intercollegiate Chess League.

The team will be matched against N. Y. U., U. of P., M. I. T. and Cornell. C. C. N. Y. was second in the league last year. This year first place in the final standing seems assured.

The tournament will be held during the Christmas holidays. Among those who have already entered are Captain Slochower, Grossman, Tholfsen, Schlachter, Bredi and Jacobs.

The Chess Club meets every afternoon in Room 219.

SOPHS PLAN EXTENSIVE ACTIVITIES THIS TERM

Extensive preparations are now being made for the Soph Smoker to be held on ?? It can be definitely stated that several freshmen have already been secured as entertainers. Further details will be announced later.

The treasurer of the '24 class announces that 160 tax tickets have been sold to date.

The Sophomore class intends to hold a dance in the near future. Definite plans have not yet been formulated, but the committee is preparing to make this the most brilliant affair in the history of the class.

THE CROSS-COUNTRY SEASON IS HERE, BUT WHERE IS THE LAVENDER TEAM? The response to the call for candidates was not very encouraging, in fact, was totally disappointing. Where are you men with any ability as hill and dale climbers? A little push on the part of the Varsity and Freshman Managers would not hurt. Let's see some more signs and publicity.

WHAT HAS HAPPENED TO INTERCLASS AND INTERFRATERNITY ATHLETICS? The swimming, indoor track, basketball, wrestling and handball seasons are now on. This is a good time to farm out material for varsity sports. What good is there in holding these events after the various seasons are over? MANAGERS, HERE IS AN OPPORTUNITY TO IMPROVE YOUR SPORTS, AND WHY LET IT GO FOR NAUGHT!

THE SWIMMING TEAM IS PROGRESSING RAPIDLY. Regular daily practice is gradually putting the natators in fine form and getting them ready to tackle some of the strongest college teams in the country. ON THE OTHER HAND, THE SEA DOGS ARE RATHER CONFIDENT OF A SUCCESSFUL SEASON.

INTERCOLLEGIATE NOTES

FRESH-SOPHS RULES IN OTHER COLLEGES

RUTGERS
A new design for frosh hats has been introduced at Rutgers College, which is quite striking. The caps are six inches in diameter and green in color. Surmounting this creation is a garnet button three inches in diameter. After allowing for shrinkage, one may picture the result.

COLUMBIA
Idiosyncrasies of various individual members of the new Freshman delegation at Columbia College are rapidly being unearthed by the observant Sophomores and ruthlessly brought to light.

One yearling who assumed a prominent position by dint of his untamed shock of brown hair, was immediately dubbed the Trotsky of his class when he appeared to purchase his cap and rules. After suffering the indignity of having this Samsonian mop braided by the Sophs, and then undergoing the added humiliation of delivering a speech on "Why I believe in Herpicide" from the pedestal supporting the statue of Alexander Hamilton, the unhappy freshman made straight for a barber shop and appeared yesterday shorn of his locks, much to the delight of those Sophomores who had taken him under their tutelage.

MATMEN CONFIDENT OF SUCCESSFUL SEASON

With intercollegiate matches only a few weeks off competition for positions on the wrestling team has become very keen. Some of the men that would have made the squad last year, but had to quit for certain reasons, are back again this year and are forcing the veterans to exert their utmost abilities to maintain their places on this team's squad. The entire group of wrestling candidates, about forty men, have appeared regularly for training, and Coach Cantor is very confident that the grapplers will have the strongest aggregation that ever represented City College.

"Milt" Greenberg, 115-lb. class, has displayed remarkable speed and endurance. Against men much heavier than himself he has shown that he has the grit and sticktoitiveness that is manifest in a successful wrestler, while Finkel, 145-lb. class, and Finkel, 150-lb. class, after much practice, have improved their style of attack greatly. "Rea" Ferber and Moe Kirshner, men who have been out for this sport since its inauguration at the college, are furnishing strong opposition for the veterans. Besides these candidates, there are the performers of last year, Captain Silver, Bealotosky, Wolff, Glasgold, Gade and Spitz, all of whom expect to better their past achievements on the mat. Practice will continue to be held on Tuesday, Thursday and Friday at 1 P.M. Manager Chabon, '22, has been working on a schedule and expects to make it public very soon.

EMPLOYMENT BUREAU REPORT ENCOURAGING

The Employment Bureau reports that although they have more applicants than positions to fill, yet the condition in general has improved since the previous week. Some of the faculty have responded but not as strongly as was expected. More co-operation is needed.

Students may file their applications any day in Room 305A before 5 o'clock.

"Four New York Stores"

Wallach Bros.

Hats, Haberdashery, and
HART SCHAFFNER & HART
Clothing

Our Stores are Your Stores

Thousands of young men in and out of college have made the Wallach stores what they are today.

The fine clothes, hats and haberdashery we sell are the kind you like to buy; the style and quality of our goods are the sort for which you have shown a decided preference.

And our prices make these things doubly interesting—due to the great size of our business which permits us to take a tiny profit on many sales as against a big profit on a few.

"Satisfaction or Money Back"

Two elements are needed to promote a successful concern. One is a desire on the part of the management to please its patrons. The other is the good will of the clientele.

The Students' Lunch Room desires to serve the best interests of the students and requests their co-operation.

LIEUTENANT JACOBS ADDED TO FACULTY

Newton M. Jacobs, first lieutenant infantry, has recently been added to the staff of the Military Science Department. Lieutenant Jacobs is a graduate of the Class of 1920, West Point. He has been on duty with the 63rd Infantry at Plattsburg Barracks for some time and is a graduate of the Infantry School at Camp Benning, Ga. During the past summer he assisted in the training of the R. O. T. C. and of the Civilian Military Training Camps at Plattsburg.

The official roster of the R. O. T. C. at City College shows that 1,470 students are now enrolled in the cadet corps, the largest in the history of the college. New uniforms have been received here and during this week all students will be able to make exchanges and secure a proper fit.

ART SOCIETY TO MAKE POSTERS FOR COLLEGE

In order to centralize the responsibility for publicity for all college affairs, the Art Society has delegated four of its members to attend to all work on the concourse bulletin board.

Representatives of the various organizations are asked to get in touch with the man assigned to take care of their publicity.

The following are the assignments of the term:
Michael Ginsburg, '25—Athletic Bulletin Board and lecture notices.
Nidel, '25, and Ginsburg, '25—Student Council Bulletin Board.
Sol Dickstein, '23—Publicity of interest to entire college, such as "U" campaigns and news of major athletic sports.

'22 CLASS PRESIDENT APPOINTS COMMITTEES

At a recent meeting of the '22 Class council President Wolff, of the combined Feb. and June Classes, selected the following committees: Dance—Oseas, chairman; Schaeffer, Brin, Fagin and Vesell. Publicity—Gerber, chairman; Fusco, Pin-Kunz, chairman; Horowitz and Gerber. Alcove—Jacobson, chairman; Lilling.

The Financial Committee will consist of an advisory board to the president. This board will include Fagin, Levine, Brin, Vessel and Efron.

The '22 Class hopes to make this year the most successful, socially and otherwise, of the four it will have spent at the college. "Is" Oseas, chairman of the dance committee, contemplates holding a dance in the Gym on or about Thanksgiving.

JOHN F. X. FINN RETURNS AS COLLEGE INSTRUCTOR

John F. X. Finn, summa cum laude man of the class of 1920, has returned to the college, to resume his duties as Reference Librarian, and also to conduct several courses in public speaking.

During the past year, Mr. Finn has been conducting several personal surveys in the fields of law, teaching, and business. Incidentally, he also found time to bring the colors of C. C. N. Y. to the fore by winning first honors at the Fordham School of Law.

PRIZE SPEAKING TO BE HELD ON NOV. 11

Spivak, Sauber and Rosen Chosen for Declamations—Tryouts for Orations Soon

The Speaking Contest for the Fall semester will be held on Friday evening, November 11. The program will consist, as usual, of four original orations and three poetical declamations.

Tryouts for the declamations were held last Spring. Benjamin L. Spivak, Irving E. Sauber and Samuel Rosen were chosen by Mr. Hatch of the Department of Public Speaking, who is coaching these men for the contest.

The contestants in the oratorical half of the program have not as yet been selected. Two weeks before the contest formal tryouts will be conducted. All those intending to participate should have their orations completed by that time. Professor Mosher will then select the four men who are to deliver their orations on November 11.

Prize speaking contests have become an established institution in College since 1852, when a prize was awarded by the Board of Education for excellence in public speaking. The successive Boards of Trustees have continued this practice to the present date.

The first prize for excellence of oratory is known as the Board of Trustee Prize and ranges from \$20 to \$30.

The second prize is the Hyman Freiberg Memorial Prize. In reference to this, the following is found in the College Register: "The Omega Pi Alpha Fraternity in 1920 established a prize for excellence in public speaking in memory of Hyman Freiberg of the Class of 1915, who was killed in action in France in August, 1918, under circumstances of heroism that earned for him the Distinguished Service Cross."

The prize for the best rendition of a poetical selection is called the Roemer Prize. "In 1892, upon the death of Professor Roemer, it was found that for thirty-eight years, he had provided anonymously a prize for the declamation of poetry. In recognition of this fact and in honor of his memory, the Roemer Prize Fund was established by a gift of \$300 from a group of officers and graduates of the college."

Both Professor Mosher and Mr. Hatch are striving to make the contest of this term one of the best ever held.

Professor Baldwin will officiate at the organ.

The chairman of the evening will be Mr. Hatch. The judges will be selected from the members of the faculty. Further details will be announced later.

LOST—Buchanan's "Household Bacteriology, 1920 edition". Reward to finder. Return to Campus office.

LOST—Loose leaf note-book containing valuable notes. A liberal reward will be given to the finder. Drop note in locker 1496.

College Books of All Publishers

also School Books of all publishers, new and secondhand, at reduced prices. We can save you much money on your schoolbook bills, especially if you can use secondhand books. Write for our catalogue, or if you live near New York call and personally select the books you want. There is no school or college book published that we cannot furnish.

BROKAW BROTHERS
1457-1463 BROADWAY
AT FORTY-SECOND STREET

PROF. STAIR AT BOHEMIA
Professor Stair will speak under the auspices of "Bohemia" today at 2:30 in Room 308. The topic of his talk will be "Back to Methuselah", the most recent of the books of George Bernard Shaw. All students and members of the faculty are welcome.

ECONOMICS ESSAY

Monetary prizes to the value of \$1,500 are being offered for the best essays written on the following economic subjects:

1. The part that money plays in economic theory.
2. The cause of unemployment and its remedies.
3. Conditions which determine how much the consumer gets for his money.

For the first prize, which is \$1,000, anybody, without any restriction whatsoever, will be allowed to compete, but for the second prize of \$500, only undergraduates of a recognized college are eligible.

The essays must not consist of more than ten thousand words and must be mailed in for consideration on or before December 31, 1921.

Anyone desiring further information can obtain it by addressing Dr. William T. Foster, director, Newton 58, Massachusetts.

REGISTRATION EXCEEDS TOTAL OF LAST YEAR

The latest report from the Dean's office on registration this term gives a sum total of 2,103 students registered in the day session at the Main Building, and approximately 3,000 at the Commerce Building, Twenty-third street. There are 700 students meeting now in the Municipal Building and 800 in the Brooklyn Branch. There have been increases of 25 per cent in the day session and 15 per cent in the evening session, as compared to the respective day and evening registrations last fall.

The registration in the School of Education, which now embraces most of the extension courses for teachers that are given by the college, and the registration in the evening session of the college at the Main Building are also large. The exact figures are not yet available.

SOCIAL PROBLEMS HAS STUDY GROUP TO-DAY

Forum Instead of Lecture This Week—Chandler Owen to Speak Next Friday

Because of the new arrangement this term whereby the lectures of the Social Problems Club are to be held every other week rather than weekly as was the case last year, there will be no lecture today. In its stead, however, a forum and study class will be held at which current events and the outstanding political, economic and social problems of the day will be investigated and discussed. All who are interested in this type of activity are urged to attend.

One week from today, Mr. Chandler Owen, who is editor of The Messenger, a negro magazine, will address the club in Room 126 on the "Ku Klux Klan". This lecture should prove to be of vital interest, inasmuch as the activities of the "Klan" has aroused nation-wide discussion, and Mr. Owen has made a special investigation of the organization.

A CORRECTION

In last week's issue, The Campus erroneously referred to the Menorah Society as the Menorah-Zionist Society. There is a Zionist Circle in the organization but the name of the society is simply the Menorah.

NOTICE

Due to an unfortunate typographical error, the word "inspired" was substituted for "suspended" in the third paragraph of Professor Cohen's letter to the Menorah.

DR. HECKMAN TALKS TO TEACHER'S LEAGUE

Professor Heckman of the Department of Education delivered an address on September 28 to the members of the Teachers' Welfare League of Brooklyn, in the auditorium of the Public Library on Pacific street. His topic was "Intelligence Tests".

The League is composed of both elementary and high school teachers.

C. D. A. TO GIVE BUST OF DANTE TO COLLEGE

On Tuesday, Nov. 2nd, a bust of Dante will be presented to the college by the C. D. A. of C. C. N. Y. A campaign to complete the raising of money for this purpose is now under way.

At this time in all colleges, a week has been set aside in commemoration of the six hundredth anniversary of Dante's death. As its part, the college has given over the chapel of November 1, which will be known as "Dante Chapel." Among the noted speakers who will address the students of the college on this occasion is Dr. John H. Finley, former president of the college.

Opposite Main Entrance

Three Dollars

may seem a large sum of money to spend outright for a "U" ticket, but consider this little statement of savngs which can be made by any Union man:

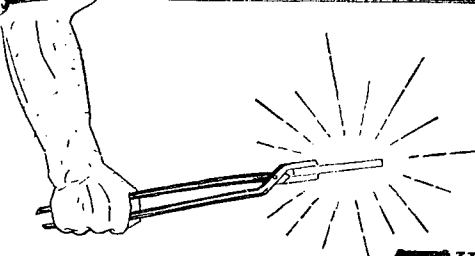

Saving on 8 football matches at 25c.....	\$2.00
Saving on 8 basketball games at 50c.....	4.00
Saving on 8 swimming meets at 25c.....	2.00
Total Cash Saving.....	\$8.00

To save the cost of subscription, one need attend only four football and four basketball games—surely a very small and reasonable number.

These are merely the "Strictly Cash" Benefits of "U" membership, for besides, "The Campus", "The Mercury" and free admission to all clubs are included.

If for no other reason than plain horse-sense, realize that nothing is being put over on you and

How Do Hot Things Cool?

THE blacksmith draws a white-hot bar from the forge. It begins at once to cool. How does it lose its heat? Some is radiated, as heat is radiated by the sun; but some is carried away by the surrounding air. Now suppose the bar to be only one-half the diameter; in that case it loses heat only half as fast. Smaller bars lose in proportion. It would seem that this proportion should hold, however much the scale is reduced. But does it? Does a fine glowing wire lose heat in proportion to its diminished size?

The Research Laboratories of the General Electric Company began a purely scientific investigation to ascertain just how fast a glowing wire loses heat. It was found that for small bodies the old simple law did not hold at all. A hot wire .010 in. diameter dissipates heat only about 12 per cent more rapidly than a wire .005 in. diameter instead of twice as fast as might be expected.

The new fact does not appear very important, yet it helped bring about a revolution in lighting.

It had been found that a heated filament in a vacuum evaporated like water and that this evaporation could be retarded by introducing an inert gas such as nitrogen or argon. But it had long been known that the presence of gas in the ordinary incandescent lamp caused so much heat to be carried from the filament that the lamp was made useless. The new understanding of the laws of heat from wires, however, pointed out a way of avoiding the supposed necessity of a vacuum.

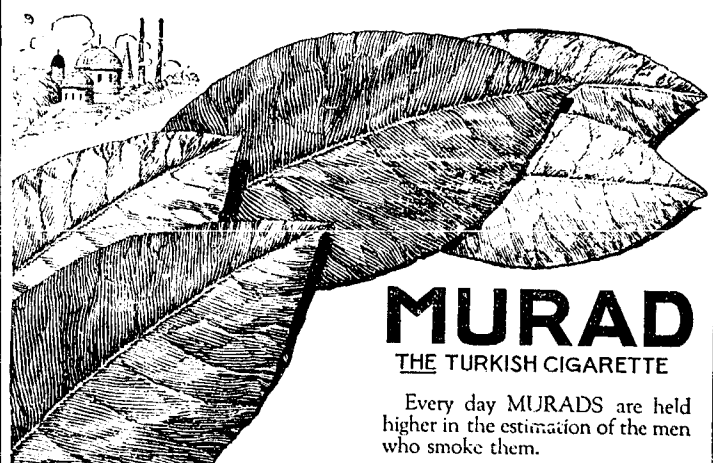

By forming the fine tungsten filament into a helix the heat loss was made much less prominent. The light radiated is then about the same as if the wire were stretched out, but the heat loss through the gas is very much less. So the tightly coiled filament was put into the gas-filled bulb—and a new lamp was created. At the same cost it gave more and better light.

Thus pure research, conducted primarily to find out how hot things cool, led to the invention of the gas-filled lamp of today—the cheapest, most efficient illuminant thus far produced.

Sooner or later research in pure science enriches the world with discoveries that can be practically applied. For this reason the Research Laboratories devote much time to the study of purely scientific problems.
