

THE CAMPUS

A Semi-Weekly Journal of News and Comment

Vol. 30 FRIDAY APRIL 28, 1922 No. 16

Published semi-weekly, on Tuesday and Friday, during the College year...

COLLEGE OFFICE, ROOM 411, Main Bldg.

The accumulation of a fund from the profits which fund shall be used to aid, foster, maintain, promote, realize or encourage any aim which shall go towards the betterment of College and student activities.

- EDITORIAL BOARD: Sidney Pepper, Editor-in-Chief; Samuel Lipschitz, Business Manager; George Mandelbaum, Managing Editor...

CHANGING THE CURRICULUM

In another column we are printing a letter from a student who goes at great length into an examination of the defects, as he sees them, of the course in Quantitative Analysis.

Few of the students here will hesitate to say that dissatisfaction with the present curriculum is general. The instructing staff of the College, with some notable exceptions, does not seem to understand the attitude of these students.

We understand that a committee of the Faculty is working on several contemplated changes in the curriculum. Little publicity has been given to the work of this committee, and evidently it does not want any.

Dissatisfaction with the curriculum manifests itself in various ways. Men in the Arts course have not the same grievances as men in the Science course, but in general the students in all courses are agreed upon several things.

Gargoyle Gargles

This is Physical Culture Week. Observance of a few simple rules will help materially in maintaining the proper standard of living. Never bet on games of any sort.

THE GREAT NATIONAL PASTIME THE PROFESSIONAL GAME

While on physical culture we wish to register a violent kick. We ate at one of Mr. McFadden's physical culture vegetarian restaurants the other day.

Bored looking young men from Squeedunk Corners, Mich., and San Antonio, Texas, wearing New York uniforms and proudly hailed as Father Knickerbocker's worthy sons...

THE COLLEGE GAME

Other young men imported from Squeedunk Corners, Mich. High School, which fact causes coaches of schools not so fortunate in importing their material to discourse at great length on the evils of athletic scholarships.

The above remarks were not prompted by the Columbia game. The writer has spent many hours of his life in the past, hours which might have been put to a more worthy use, in hating, both privately and publicly, baseball in all its phases.

OUR OWN MYSTERIOUS MESSAGE DIDN'T THEN SECOND BELL RING YETXX?

Elsewhere on this page appears the list of the fortunate men, women and children who won valuable prizes by deciphering the mysterious message printed above.

COLLEGE MEN FAVOR A LIBERAL ELECTIVE SYSTEM

College men favor a liberal elective system, with regulations to prevent too wide a scattering of interests. Whether certain courses, such as English and Hygiene, should be prescribed for all students or not, is a matter over which there is a legitimate difference of opinion.

Many men, especially those in the Arts course, are dissatisfied with Chemistry 1 and 2. They claim, with much truth, that it is too technical and theoretical.

Biology 1 also comes in for its share of denunciation, on the ground that the course attempts to crowd too much into a short space of time.

One thing is certain, City College men know what they want, though they all do not want the same thing. The Faculty would do well to listen to them, provided it is really sincere in its desire to change the curriculum for the better.

The Campus believes that there is no better way of presenting the students' side of the question than by allowing them to write what they think on the subject.

STUDENT OPINION

To the Editor of The Campus:

Rumor has it that the Committee on Curriculum is contemplating certain changes in the courses of study. As matters now stand in our educational system, all we can do is pray that the Faculty break with precedent, and instead of increasing the number of required courses, cut the list of requisites.

There are numerous courses in the present curriculum which are attached by numerous students. My complaint is not identical with many of them because I have been fortunate enough to have waded through most of the required subjects.

The Department of Chemistry has a provision in its regulations which rules that if a student is to choose any elective in that science after he has completed his Chem 3 course, he must not only avoid D's in his previous work in chemistry, but must spend at least eight official hours a week for an entire term, learning in some miraculous manner, technique—a necessary attribute, they assert, for further work in that science.

The student who is unfortunate enough to be a "pre-med" has to take that course to be permitted to study any other chemistry work which medical schools require. The academic student who wishes to learn the fundamental principles of organic or physical chemistry must also undergo that requirement.

Benjamin Jowett, the Master of Balliol, is reported to have said: "Never retract, never explain; get it done; let them howl." But when they who have a right to howl are my very good friends, the students of City College (and they certainly would have a right to howl if I had said, which I did not, "My students have no minds.") it is wise and proper, I think, to make explanation. It is a pleasure to note that the report of my address as given in the Campus was by far the most accurate.

may indeed be imperative for Tech men and chemical engineers to take a course in Quantitative Analysis, but why a student in search of general knowledge should devote a comparatively large portion of his precious four years of college work to the study of that subject, if he doesn't care to, I cannot comprehend.

A diligent survey of the catalogues of more than a score of colleges of this country fails to reveal another where a similar restriction exists. Quantitative Analysis is considered a course, necessary for a professional chemist, but in no way required for the student who wishes to know the chemistry of organic substances or any other course.

Crowded conditions do prevail in the Chem. Department and certain limitations may be inevitable, but the reason for the existence of that requirement is given for the above mentioned reason—that it teaches technique. I question the necessity and wisdom of that pre-requisite which dampens the spirit of exploration into a most fascinating scientific field.

FACULTY COMMENT

Editor The Campus:

Dear Sir: May I ask you to be good enough to publish the following letter which, after considerable thought, I am sending to The Times.

Editor The Times:

I have been so annoyed by the pained condolences of my friends during the past few weeks following the report of my address in Dr. Holmes's Church that I am breaking a fixed habit and writing a mild protest.

There are numerous courses in the present curriculum which are attached by numerous students. My complaint is not identical with many of them because I have been fortunate enough to have waded through most of the required subjects.

The Department of Chemistry has a provision in its regulations which rules that if a student is to choose any elective in that science after he has completed his Chem 3 course, he must not only avoid D's in his previous work in chemistry, but must spend at least eight official hours a week for an entire term, learning in some miraculous manner, technique—a necessary attribute, they assert, for further work in that science.

Benjamin Jowett, the Master of Balliol, is reported to have said: "Never retract, never explain; get it done; let them howl." But when they who have a right to howl are my very good friends, the students of City College (and they certainly would have a right to howl if I had said, which I did not, "My students have no minds.") it is wise and proper, I think, to make explanation.

Very truly yours, H. A. OVERSTREET.

WHAT'S UP! Today

- 1.00 P. M.—Robert Minor to address Social Problems Club in Room 126. 1.15 P. M.—Track practice in Stadium. 2.00 P. M.—Student Council in Room 205.

COLLEGE TO ATTEND SOPH DANCE TONIGHT

Six-Piece Band, Punch, and Fine Programs to Delight Assembled Faculty and Students

The Soph Dance will take place this evening and tomorrow morning in the Gym Building.

The committee has been especially liberal in its preparations for the function. The punch will be present in plentiful amounts, and will not, it is promised, run out early in the night, as was the case at a recent dance.

The large outlay for the band makes it certain that the music will be the finest obtainable—pure, unadulterated, imported Broadway jazz.

The dance undoubtedly will be a true College affair, for tickets have been sold to members of every class. A splendid eight-page souvenir program, gold embossed, and with lavender pages, will delight the damsels.

Under the surveillance of Nicolais, a skillful decorator, the gymnasium will be adorned in an elaborate manner.

DEAN ROBINSON ONE OF DIRECTORS AT COUNCIL

On May 4 and 5, Dean Robinson will attend the annual convention of the American Educational Council in his capacity as secretary of the Association of Urban Universities.

At the same time, Professor Robinson will confer with his fellow members of the Council's Executive Committee. This last is a board of eight elected from the 120 delegates to the Council, to direct the organization's work.

LECTURE ON EVOLUTION SPONSORED BY NEWMAN

This evening at 8:15 o'clock the Newman Clubs of the New York Provinces and the Tenth Legion will sponsor a lecture on "Evolution" by Sir Bertram Windle, F. R. S., at the Hotel Waldorf-Astoria.

SENIOR PINS MAY BE OBTAINED IN ALCOVE

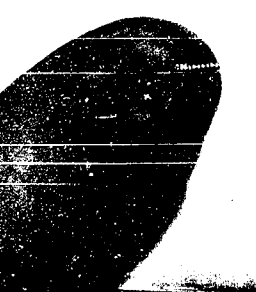

The '22 class pins have been finished and may be obtained from the committee after today. Some materials which had miscarried were located early this week in time to have the emblems ready for the Seniors who had ordered them.

SENIOR CLASS PLANS BIG FAREWELL DANCE

The Class of 1922 will hold the final dance of its undergraduate career on the evening of May 27 at the Waldorf-Astoria Hotel. Tickets are now on sale for three dollars per couple.

COLLEGE REPRESENTED AT ACADEMY MEETING

Professors Mead, Schapiro and Duggan are to represent the College at the annual meeting of the American Academy of Political and Social Science to be held in Philadelphia May 12 and 13.

FROSH NINE BEATEN BY STUYVESANT HIGH

Yealings Ouhit Opponents, But Field Poorly—Barnes Pitches Good Game

The Freshman baseball team continued its losing streak, dropping a game to Stuyvesant High School on Tuesday in the Stadium. The score was 6 to 2. Again weak fielding by the yearlings offset good pitching. Jess Barnes who was on the mound for the Freshmen pitched a fine game, allowing only six hits and striking out eleven men. Most of the visitors' runs were unearned.

The Freshmen outbit their opponents, eight to six, but scored in only one inning. This was the fifth. Ralph Levine, the cub first baseman, started by knocking a home run—his third of the season—over the right field fence. Healy singled and advanced to second on Kostly's fumble. Barnes walked and both runners advanced on a balk by Steinberg, the Stuyvesant pitcher. The Freshman left fielder of the same name then rapped out a single bringing Healy in.

The high school team scored four runs in the fourth, being aided materially by the misplays of the Lavender cubs. They added a run in the fifth and another in the final inning.

Summary table for Stuyvesant vs Freshmen game. Columns: AB, R, H, O, A, E. Rows: Wendt, Nevon, Whelon, Flynn, Hoelman, Beck, McLoughlin, Kosly, Steinberg, Totals.

Summary table for C. C. N. Y. Frosh. Columns: AB, R, H, O, A, E. Rows: Friedman, Steinberg, Langsam, Bastian, Frucher, Fischer, Levine, Healy, Barnes, Totals.

VARSITY TENNIS TEAM OPENS SEASON TODAY

Lavender Racquet Wielders Face Brooklyn Poly at Nottlek Courts This Afternoon

The Varsity tennis team will play its first match of the season against Brooklyn Poly this afternoon at 2 o'clock at the Nottlek Courts, 143rd street and Convent avenue. The Lavender players will be Abbe Epstein, "Pete" Denker, Chickailis and "Bill" Diamond, all of whom have had experience and will in most probability make a good showing.

Captain "Bob" Fuentes and Rosenwasser have been declared ineligible by the F. A. C., the latter because he is now captain of the track team and cannot therefore compete on another team.

ANNUAL SPRING DANCE OF C.D.A. BIG SUCCESS

The dance of the Circolo Dante Alighieri held in the gymnasium last Friday evening was considered so successful by the arrangement committee as to warrant the holding of another similar function later in the term.

The brilliant galaxy of multi-colored balloons and streamers was considered by many to be the best decorations seen at any dance this term. Almost one hundred couples tripped the light fantastic to the strains of "Bob Witzky's Six Syncopators."

TEAM IS PICKED FOR PENN. RELAY CARNIVAL

"Bugs" Bayer, Multinovitch, Murphy and Captain Rosenwasser Selected to Run Tomorrow

Plans are now completed for the college relay team's trip to Philadelphia tomorrow to participate in the annual Relay Carnival held under the auspices of University of Pennsylvania. Coach Mackenzie has spent a great deal of time in coaching the team and is confident that his selection will place in their class. The other teams in the same class with the Lavender runners, among whom are Villanova, Ursinus, Geneva, Westminster and New York Dental, have their eyes focused on the college's representatives, who are the strongest contenders for the initial place.

The Varsity team selected, after a number of preliminary races, is composed of Bayer, Rosenwasser, Murphy and Multinovitch. "Bugs" Bayer, veteran Varsity track man, will be anchor man on the team. "Bugs" displayed unusually good form in the preliminary try-outs held recently, in which he took first place. "Heb" Multinovitch, the college's champion hurdler last year and Varsity letter man, was second choice for the team. Captain Rosenwasser, the Lavender all-around track star, who with "Bugs" Bayer ran on the team that took second place in the relays last year in the fine time of 3:30, will run third for the team. Murphy, the last man chosen to represent the college, but who will be the first man to leave the post in the meet, was the winner of the 440 in the interclass track meet held a while ago.

NEW BOOKS IN LIBRARY

Aside from some duplicate works of Ibsen, D. Annunzio and Wilde, the Library has received and placed in circulation an abundant number of books. Among the new books are: Don Marquis. Poems and Portraits; Byron. Correspondence; O'Brien, Best Short Stories of 1921; Colum, Anthology of Irish Poetry; Masters, Children of the Market Place; Pitkin, Art and the Business of Story Writing; Santayana, Interpretation of Poetry and Religion; Repington, After the War; Paine, Lost Ships and Lonely Seas; Brinckmeyer, Hugo Stinnes; Maughan, Trembling of a Leaf; Lewisohn, Modern Book of Criticism; Gorky, Form a Gordyuff; Artsybashev, Millionaire; Beresford, Revolution; Poole, Beggars' Gold; Repington, First World War; Stoddard, Rising Tide in Color; Plays; Andreyev, Plays; Bjornsen, Reinsch, American Diplomat in China 1913-1919; Cherkow, Cook's Wedding and Other Stories.

DOUBLES TEAM LOSES IN HANDBALL TOURNEY

Milgram and Swertlow, College representatives in the Metropolitan Four-wall Handball Championship, were defeated last Friday in the third round by Brady and Adams of the Pastime A. C. by the score of 21-17, 21-14. It was the second match of the evening for the Lavender players, who were therefore at a disadvantage.

ENGINEERING STUDENTS WILL VISIT FACTORIES

The class room work in the School of Engineering is being supplemented with trips to the various engineering projects in the vicinity of New York. These trips give the engineering student an opportunity to observe the practical aspect of their future vocations.

PROF. DUGGAN TO TALK BEFORE ALLIANCE

Professor Duggan of the Department of Government will address the World Alliance for International Friendship Through The Churches at its annual meeting in Cleveland on May 16. The topic of the meeting is "International Cooperation" and Professor Duggan who is Director of the American Institute for International Education will speak on how international cooperation may be achieved in the realm of education.

COLUMBIA TRIUMPHS

(Continued from page 1) perched on third and Murray on second. Trulis then ripped another two-bagger to left, and both the men on base scampered across. Trulis was stranded when Eisenstein was thrown out by Watt.

Columbia went the college one better in the fourth. Hartman, the first batter singled through third. He was advanced when Strom walked. Clark forced Strom at second, Salz to Kelly, Hartman going to third. Hartman came home on Stocks single, Clark going to third. Watt walked, filling the bases. Moescher cracked a double to left, Clark and Stack registering and Watt pulling up at third. Van Brocklin walked, filling the bases again. Tedford forced Van Brocklin at second, Raskin to Salz, Watt ringing up at home and Moescher resting up at third. Tedford and Moescher engineered a successful double steal when Murray received Kelly's return of his leg too late to catch Moescher at home. Smith lifted on to Raskin for the last out.

The sixth inning was a weird one. Hits, errors, affronts to the umpire's dignity, and the consequent banishment of Axtell, accompanied by the shifting of Tubby and Rieser made the stanza a weary one. The Columbia team fattened its total by six runs more. The game proceeded listlessly the rest of the way, a superfluous tally being scored in the seventh on hits by Watt and Moescher and Eisenstein's error. The Varsity team had lost its pep and went out 1-2-3 in the eighth and ninth.

Summary table for Columbia vs Freshmen game. Columns: AB, R, H, O, A, E. Rows: Hahn, Kelly, Nadell, Raskin, Murray, Trulio, Eisenstein, Garvey, Axtell, Rieser, Salz, Totals.

RADIO FOR APARTMENTS SUGGESTED BY STUDENT

A radio receiving set for every apartment, much after the central-less telephone system, is the suggestion of Richard Carlisle, '22, chief operator of the City College Radio Club. Mr. Carlisle expressed his idea in an article printed in the New York Evening Journal in answer to the request of a prominent builder who wishes to provide antennage and lead-ins for the apartment house.

SUMMER ENGINEERING COURSES ANNOUNCED

Dean Skene of the School of Technology, announces that the following courses will be given during the coming summer: C. E. 102, Practical Surveying (First Summer Camp); M. E. 210, Forge and Foundry Laboratory, and M. E. 220, Pattern Making. The special course in Auto Mechanics, tuition fee, \$50, will be given this summer. This course is a non-credit course for those interested in the theory and practical work of auto mechanics.

DR. GOLDSMITH LANDED AS "RADIO PERSONALITY"

Mr. Edgar Felix, writing in the "Radio Broadcast," says "When Dr. Goldsmith speaks of the future of radio telephony, he speaks with authority." This appeared in an article on "Radio Personalities."

DR. GOLDSMITH LANDED AS "RADIO PERSONALITY"

Dr. Goldsmith has been editor of the "Proceedings of the Institute of Radio Engineers" since 1912, and secretary of the Institute for the past five years. He is also director of research of the Radio Corporation of America, the dominating organization of the radio industry. This position places him foremost among radio authorities in the country.

FROSH TENNIS TEAM LOSES FIRST MATCH

Yearlings Beaten 4-1 by Evander—Ambitious Schedule Arranged for Team

The Freshman tennis team lost its first match of the season on Monday on the home courts, Evander Childs being at the long end of a 4-1 score. Charles Goldberg, playing first singles for the yearlings, was the individual star, beating out Kunsberg, captain of the high school team, in three sets, 2-6, 6-3, 6-4.

Ruhl and Bogart, the doubles team of the frosh, also played well but were outclassed by their opponents. They were defeated in straight sets, 6-3, 6-2, by Gale and Lumbard. Kelly and Zentelsky showed a lack of experience in their matches, but indicated that they would do well later in the season. Kelly lost to Maitnow, 6-3, 6-5, while his team-mate was beaten 6-3, 6-1, by Antles of Evander.

The next match of the Freshman team has been arranged for Wednesday with Boys' High. It has not been decided where the match will be played. The remainder of the schedule follows:

- Friday, May 5—Columbia Frosh at home. Tuesday, May 16—N. Y. U. Frosh at N. Y. U. Saturday, May 20—Stuyvesant at Stuyvesant. Wednesday, May 24—Morris H. S. (tentative). Wednesday, May 31—Fordham Frosh at Fordham. Saturday, June 7—Brooklyn Poly at Poly.
