PRICE FIVE CENTS

COACH PREDICTS GOOD YEAR FOR LAVENDER FIVE

Aggressiveness, Ability and
Experience of Men
Pleases Coach

FIVE VETERANS REMAIN

Capt. Raskin, Rubinstein,
Hirsch and Meisel Are
Regular Combination

In a recent interview, Coach Nat Holman of the varsity basketball team expressed himself as being "wholly optimistic concerning the coming season. I am pleased with the good spirit and enthusiasm exhibited by the players and believe this 1926-27 quintet to be as good as any the College has produced in recent years," continued the popular mentor.

Coach Holman has at his disposal for this year's team five veterans from last year, three stars from the freshman team and a good number of promising substitutes. The entire squad numbers sixteen men, larger than the usual Lavender squad, but as there are so many lower classmen of promise, it is Holman's intention to retain all these players, if possible, in preparation for next season.

The most promising feature of the team is the long experience all of the basketeers have had. All of the men played at high school and on institutional teams, a fact which gives them poise and confidence rarely found on any but professional teams. Each man has exhibited a thorough knowledge of the game and it will take an exceptionally smart team to pull the unexpected. So confident is Coach Holman of his men that he ventured to state that no other team in the country could present a five with a more expert knowledge of basketball than the City College team.

Another outstanding feature is the excellent co-operation of all the men. Holman's system calls for five men all carrying an equal share of the work, making it practically impossible for any one man to dominate the rest of the team by his flashy playing. Although every player is a potential star, each man has cheerfully subordinated his own brilliance for the welfare of the team.

Four men of the first team have been practically decided on, with the fight for the last place chiefly centering about three others. Captain Tubby Raskin is a fixture at forward, Jack Hirsch and Ed Meisel are sure to start at guard, and Hick Rubinstein in all probability will be at center. Sam Liss and Sid Lechner are waging a merry battle for the remaining forward post, but Jack Goldberg is a capable performer too and may tap the ball, thus placing Rubinstein at forward. Other prominent members of the squad who are sure to break into the games frequently are Jack Sandack, Bernie Bienstock, Gordon Lebowitz, Sam Gordon, Emil Kanovsky, Jules Fraulich, and Sid Liftin.

Anyone who has seen Captain Raskin play will realize why he is a fixture at forward. His speed and accurate passing and shooting account for this, while his temperament is ideal for a team leader. Hick

Committee Now Selling Class Insignia to Seniors

Men graduating in February or June '27 can now secure their keys or graduation pins from Eddie Richter, chairman of the Pin and Key committee, by dropping a note in locker 1305. Other members of the committee from whom pins may be obtained, are Eddie Gall and Max Slavin. '28 men who will graduate in '27 can also be accommodated by this committee.

ECONOMICS STUDENTS VISIT MARKETS OF N. Y. C.

Byers Leads Group Through
Distributing Center in Early
Morning Hours

The provisioning of New York City was studied at first hand last Friday night by a group of students in Economics 2 classes who were conducted through the various markets and distribution centers by Mr. John Byers of the Economics department.

Meeting at Penn Station at 11:30 p. m. the group, augmented by a number of girls from the New York School of Education, and Mr. Hastings of the Economics department of the College, listened to a short explanatory talk by Dr. Arthur E. Albrecht, director of the New York office of the State Department of Markets and then left via bus for the outlined tour.

The first stop was the Milk Station at West 29th Street and 10th Avenue, where Supervising Inspector Flangan of the Department of Health informed the party as to the manner of handling incoming cars of milk in cans. About 400 refrigeration cars of milk are received at this station daily, each car having a capacity of 200 to 300 cans.

From here the party rode to the milk plant of the Dairymen's League Co-operative Association at Avenue B and 19th Street, and were led through the plant by the superintendent who explained in detail the process of pasteurization, the testing of the milk and filling of the bottles. Mr. Shelly the superintendent was so hospitable, that he refreshed the group with several cases of bottles of chocolate milk and some graham crackers.

Next were visited the Gausevoort Market, West 12th Street and West Street, which contains Farmers' Public Square, and West Washington Market where live poultry from New York and New Jersey is handled; also the wholesale fruit and vegetable market along Washington Street, where produce is unloaded from trucks and piled on the sidewalks for selling to jobbers and retailers.

At 3 a. m. breakfast was had at a Child's Restaurant and a short rest taken before leaving the piers of the Old Dominion Steamship Line and the Pennsylvania Railroad along the North River where southern produce could be seen arriving via carfloats from the other side of the river and by steamship directly from the South. Here the superintendent of the Penn piers explained at length how the incoming fruits and vegetables were handled. Pier No. 29 sometimes receives as many as 400 cars of perishable fruit nightly, most of which is disposed of the same

STUDENTS CONSIDER MANHATTAN TILTS

Committee to Meet Manhattan
Students to Discuss Proposed
Athletic Break

A committee to consult with the delegates of Manhattan College to adjust athletic relations between the two institutions, was appointed at a joint meeting of the Faculty Athletic Committee, the Student Council, and other interested students held in Dr. Robinson's office Friday afternoon. The committee is to consist of David W. Kanstoren '27, Isidore Seidler '27, and Tubby Raskin '27.

The action was taken as a result of the demand of the Student Council and of individual students that Manhattan be dropped from City College's schedule in all athletic events due to the aftermath of the football game on Election Day.

The athletic authorities of Manhattan heard of this action, and Brother Richard, graduate manager of athletics, communicated with Dr. Robinson and explained that the disturbance was not caused by students of Manhattan, but by outsiders.

A committee of Manhattan students, consisting of the president of the Student Council, president of the A.A., and captain of the basketball team visited the College Thursday to consult with the C.C.N.Y. students, but the officials of the Student Council and A.A. could not be found.

The Manhattan committee will be invited to consult with the College committee on the cause of the actions following the football game. It was felt that no drastic action which might result in permanent ill-will between the two institutions should be taken before all facts in the case are discovered.

Following the game on Election Day, the City College roofers started a snake dance on the field. A group of people from the Manhattan stands attempted to break up the dance, and a general melee ensued. A similar occurrence at a basketball game, a few years ago was also discussed at the meeting.

Fire Brings Out 2 Engine Companies As R.O.T.C. Battles in Smoke Screen

Fire! Fire! yelled the kids, as eight engines of two fire companies careened down Amsterdam Avenue Friday about 4 p. m. Some four score firemen strained at their posts as the red devils clanged and screeched their way through traffic and around corners. Tense, keyed to the point of efficiency, the valiant fire fighters leaped from the engines as they noisily drew up in front of the magnificent armory of our own private R.O.T.C., so dear to the hearts of all we aspirants to D's.

Thick clouds of smoke rolled out from the upper windows. The seriousness of the situation was reflected in the awed countenances of the thousands which gazed upward at the spectacle from the sidewalks of 140th Street. Fourteen boy scouts who happened to be in the neighborhood quickly cleared a space in which the helmeted warriors feverishly rushed up the stairs with pulsed hose, and leaned tall ladders against the smoke belching windows.

In the midst of the excitement a brave shout was heard. "R.O.T.C., R.O.T.C.," guide right! By the left

SENIORS SET DATES FOR SOCIAL EVENTS

Informal Dance Will Be Held
Thanksgiving Eve.; Prom
on December 18

The semi-annual informal dance of the senior class will be held Thanksgiving evening, November 25 in the gym. Tickets for the affair are being sold at \$1.50 per couple.

The elaborate arrangements made by the dance committee headed by B. F. Daneman, promise to make the dance the biggest and best social event of the season. Ed Berlin's Moon Glo Orchestra will furnish the syncopation. Professional entertainment in the form of singing and dancing has been provided for. Miss Rubertina Justy will dance the Black Bottom Charleston. Inasmuch as Miss Justy sang the opening number of the 1925 follies and is now in the cast of the 1926 edition, the dancers are due for a real treat. The famous follies member was engaged by Daneman.

The gym will be decked in all the splendor of Thanksgiving decorations. Streamers, pumpkins, and other special favors will impart the real Thanksgiving spirit. Souvenirs, and it is rumored worth-while ones will be disturbed. Refreshments will be served.

A meeting of all members of the dance committee and all selling tickets for the affair will take place today at 3 p. m. in the A. A. room for the purpose of making returns. The committee at present consists of Ben F. Daneman, chairman, Irving Ephron, vice-chairman, and Irving Turafsky, Hyman Fine, and Nathan Hirschberg. A few more seniors are wanted for membership in the committee. These should apply to either the chairman or vice-chairman.

The Senior Promenade, the formal affair of the '27 class, will be held this term on Saturday night, December 18th, in the Hotel Claridge. Tickets will be put on sale today at \$5.00 per couple, according to Herman Kirshbaum and Edward Richter, co-chairmen of the prom committee.

A basketball game will precede this function. A bloc of seats will be reserved for those in formal dress.

flank Hank." A platoon of future generals in their best Sunday khaki, hacking their way through the mob furiously, with flashing sabres, charged the stairs parapet and struggled heroically in capturing the enemy and putting out the fire by stepping on it.

The enemy was then picked up and on closer examination proved to be a peacefully smoldering, inoffensive, cute little smoke bomb. Upon being questioned as to its reprehensible behavior, it shamefacedly hung its head and informed the milling capturers that it had been seduced by some designing alien into passionate outpourings of its soul in the form of dense, pungent, yet perfectly innocent smoke.

It is estimated by the janitor in charge that it will take the better part of 2 years to completely repair the damage done in subduing the passionate bomb. The total damage was: One broken pane in the skylight, one incapacitated door whose only lock was inconsiderately chopped on and a number of cubic feet of sweet air made not so sweet.

RESOLUTION ADOPTED BY COUNCIL TO EJECT CAMPUS FROM UNION

Handbook Distributed at
Campus Circulation Desk

All "U" members who have not as yet received their College handbooks have until Wednesday, November 24, between 12 and 2 o'clock, to get them. The handbook has been distributed for the past two weeks at the Campus circulation desk, and will be on sale at the usual price of \$.35 following the distribution to "U" members. Contrary to popular opinion, not only frosh but all classmen can receive the Lavender Book.

FROSH HOLD SOPHS TO TIE IN SOCCER

Maintain Lead of One Point in
Interclass Struggle for
Athletic Supremacy

Playing in a steady drizzle Thursday afternoon, the frosh maintained their one-point lead in their struggle for the supremacy by tying the sophs in the frosh-soph soccer game. Klein and Schwalbenast starred for the sophs while Bandier and O'Brien played well for the frosh.

The sophs won the toss and chose the wind so the frosh kicked off. During the first five minutes the ball see-sawed back and forth but the freshmen were forced to play a defensive game. The advantage of a year at college showed greatly in the soph's game. Their team play was very fine while the freshmen, in the beginning, at any rate, played individual games. After about six minutes of play Klein made a kick from the side for the sophs which Rubin playing under the handicap of an infected foot, let pass for a goal. The freshmen put Lynch in for outside left.

The superior teamwork of the sophomores was a big factor in the game and, although the Frosh put up a good fight, their lack of organization contributed to keeping the ball in their territory.

As the game progressed the freshmen gained confidence and began to cooperate with each other and after about ten minutes of play the ball started to circulate. Toward the end of the first half the ball was kept entirely in sophomore territory, the freshmen playing an offensive game. Every attempt to put the ball in the frosh danger zone was foiled by the freshmen fullbacks, who played better than any other men on the team.

Finally, just before the end of the half, Klinger kicked a goal for the freshmen.

In the second period no scoring was done by either team, although the freshmen kept the ball in soph territory, and several times had a chance to kick a goal. It seemed as though the freshmen desired merely to prevent the sophs from winning rather than to play desperately so that they might win. Although they had several good opportunities they seemed to lack the spirit and punch to score in the second half.

This leaves the freshmen one point ahead in the Frosh-Soph activities.

AMENDMENT STILL NEEDED

Constitutional Changes Necessary
Before Publication Can
Be Dropped from "U"

S. C. GRANTS ALLOTMENT

'Campus' to Receive Four-
Sevenths of \$2.90 for Pres-
ent Semester

A resolution to the effect that the *Campus* be granted its allotment for the present term, and that it be dropped from the Union at the end of the term, was adopted by the Student Council at a special meeting Friday. However, the latter provision cannot be put into effect until an amendment to the constitution is passed.

The adoption of the resolution took place after a lengthy discussion and the final vote was nine to two. Jack Rothenberg '28, representing the Mercury, and Ben Fabian Daneman '27, who represents his class, cast the dissenting votes. A great deal of discussion was raised as to the advisability of dropping the *Campus* from the Union immediately, but after several re-votes, the provision was finally included.

At the meeting of the Student Council held on November 12, the president appointed himself a committee of one to frame such a resolution after it seemed to be the opinion of the Council that such an action would be the most desirable settlement of the Student Council-Campus controversy. Several attempts at compromise with the *Campus* Association were unavailing.

The text of the resolution as adopted by the Council follows:

Whereas: This Student Council of the term September 1926 to February 1927 is in accord with the intentions of the Student Council of last term, which on May 7, 1926, decided to withhold from the *Campus* its Union allotment for the year September 1926 to June 1927, because it felt that Student editorial freedom was being unduly restricted;

And, Whereas: the President of the Student Council, during the summer interval, authorized the inclusion of the *Campus* on the Union ticket under the understanding that a suitable compromise would be achieved;

And Whereas: the *Campus* Association has persistently rejected the repeated proposals of the Student Council in its efforts to effect such a compromise;

And, Whereas: the Student Council feels that further squabbling would only be detrimental to the best interests of the College and would neither clarify nor remedy the situation;

Therefore, Be It Resolved: that the *Campus* be granted its Union allotment for the single term, September 1926 to February 1927,

And Be It Further Resolved: that all further connections between the Student Council and the *Campus* Association be completely and immediately severed.

The *Campus*-Student Council controversy was begun about the middle of last semester, when Harry Heller

(Continued on Page 4)

PARKER TO DIRECT FROSH BASKETEERS

Quintet to Meet Sophomores Before the Game with St. Francis

Doc Parker, relieved of his duties with the football team by the close of the season, will devote all his attention to the frosh basketbeers. The quintet will immediately begin intensive work for its first tilt, in which they are to meet the sophomore team.

For three weeks the squad has been working hard, under the direction of Assistant Coach Leo Palitz. All indications point to a smooth, fast-working machine. The game with the sophomores is a preliminary to the varsity contest with St. Francis. As in former years, the second year men are not expected to prove troublesome, and a victory is practically a certainty for the cubs.

The first team has been playing together quite some time. It consists of Spindell, who is playing center; Fleppa and Trupin, occupying the forward positions; and Lechner and Hochman, the guards. The combination is a fast and shifty one. Every member of the team has had much experience, consequently the basketbeers present an almost veteran appearance. Denenholtz, Riah and Cantor are the most promising of the substitutes.

Dave Kosh, manager of the five, expects to make the schedule public next week. It is expected to contain games with almost all of the city high schools as well as a number of college freshman teams.

PROF. DOWNER SPEAKS TO CERCLE JUSSERAND

"La Clarté de la Langue Française" was the subject of an address delivered by Professor Charles A. Downer, head of the department of Romance Languages, before the Cercle Jusserand on Thursday, November 18.

Professor Downer, using illustrations, pointed out why French was the international tongue. This, he claimed, was due to its preciseness and clarity. He cited Voltaire as an example of the clearness and simplicity of the French authors.

Comparing French with other languages in relation to clarity, Professor Downer found that most other languages were not as concise as French. Latin and German were given as instances.

Manager Issues Call for Assistants in Basketball

Positions of junior assistant in basketball, according to Herbert Williams '27, manager of the team, are still open. Those who wish to try for the position should see the manager any day during practice. Freshmen and sophomores are eligible.

ED CLUB TO WATCH MODEL CLASS WORK

William Shapiro Is New Vice President; Morris Shapiro Elected Secretary

Dr. Vertel of the Speyer Junior High School, according to an announcement by the education club will bring a model class to the college on December 22, for the demonstration of a socialized recitation. A similar feature was on the Ed Club's program last year when the lecture hall was filled with a multitude of interested students. The coming event will be open to the college student body as in previous times.

Efforts are being made by the club to secure Professor John Dewey of Columbia University, the foremost educational philosopher in the country, to address the student body late this term. They also endeavor to get Will Durant, author of "The Story of Philosophy", and Clarence Darrow, the eminent lawyer, to lecture before the members of the society.

In order to assure greater publicity for the actions of the club in the future a publicity committee was chosen. Lederman '27 is the chairman with Shapiro '27, Hirsch '27, and Simpelson '27 as assistants.

The recent resignation of the president and secretary of the Education Club necessitated a meeting last Thursday to fill the vacancies. Morris Schappes was the unanimous choice for secretary, while William Fox, the former vice-president, was advanced to the presidency. William Shapiro '27 was elected vice-president. Gus Packer, the previous head, was chosen the honorary chairman of the organization.

Students desiring to join the Ed Club are asked to see anyone of the men above mentioned. The club meets in Room 305 every Thursday.

VETERANS REMAIN FOR LAVENDER FIVE

(Continued from page 1)

Rubinstein is one of the most consistent men on the team, as is Jack Hirsch, also a fine player.

Coach Holman regards Ted Meisel, better known as a gridiron star, as one of his most valuable members, for Meisel's aggressiveness seems to provide the necessary fighting spirit for the rest of the team. Sam Liss, captain of last year's freshman team, and Sid Lechner are battling for a permanent berth, while Jack Goldberg, a football man, is also to be reckoned with.

The team has profited greatly from practice games with Holman's aggregation, the world's champion Original Celtics, and other professional teams. The pros have been surprised at the ability of the College boys who have given them hard tussles every time. Last Friday evening the Lavender engaged the Brooklyn American League team.

ECO 2 STUDENTS VISIT MARKETS OF NEW YORK

(Continued from Page 1)

Wallabout Market, in Brooklyn, the largest farmer's wholesale market in the country was next visited. The dealers get most of their produce by truck from the surrounding jobbing market which can accommodate over 400 wagons or trucks. A large variety of fruits and vegetables, chiefly, at this time of the year, grapes, apples, cauliflower, lettuce and cabbage is on display in boxes, crates, barrels and baskets each morning long before dawn.

The last place, and perhaps the most active, visited was the Fulton Fish Market along the East River. Here were seen millions of all varieties of sea food, from oysters to eels, all non-interested causes of the incessant haggling between dealers which goes on about them. Sold at wholesale, the fish are received by express or by boat direct from all parts of the country and adjacent waters.

SEVEN MEN CHOSEN BY "Y" FOR STUDENT CONVENTION

Fifteen Students Still to Be Picked as College Delegates to Conference

The National Student Convention mass meeting was held Thursday, November 18, in the "Y" alcove under the auspices of the "Y" for selection of delegates to the convention. Mr. Wesley Eastman and Mr. George Oliver, general secretaries will attend the conference as secretaries of the "Y". President George S. Teter '27, was chosen as head of the "Y" delegation, and will be accompanied by Stanley Olsen '28, Jack Connor '30, John White '30 and Elliot Zeitlin '27, secretary-treasurer. George P. Bischof '25, who has been in charge of the freshmen this past year, will accompany the delegation.

Mr. Eastman is personally interviewing students of the College who have been recommended by professors of the various departments.

The "Y" intends to conduct a campaign among the "Y" members to raise about seventy-five dollars to cover the expense of President Teter, the official delegate to the conference.

The "Y", as a Milwaukee committee, intends to choose at least fifteen students as College representatives to the convention. These delegates will be entertained in Milwaukee on the "Harvard Style", i.e., free lodging and breakfasts during the convention from December 28 to January 1.

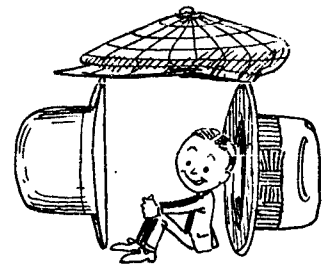

VARSITY MATMEN TO GET UNIFORMS

Meet Elizabeth Y.M.C.A. Friday—Schedule Announced Next Week

The varsity matmen, for the first time in the history of the sport at the College, will be given uniforms. They will be distributed to the varsity men during the coming week. Now that Shapiro and Puleo of the varsity gridders have begun practice, the team is finally being moulded into shape for its opening match. Next Friday the grapplers will meet the Elizabeth Y. M. C. A. team. Since Elizabeth was the amateur champ last year, the prospects for a successful season will be well defined by this match. On December third the wrestlers will open their home season with a match against Temple U.

The Frosh will meet Columbia '30 and Brooklyn Poly '30 in early season matches. The schedule for both varsity and frosh will be announced next week.

CAMPUS GRANTED UNION ALLOTMENT

(Continued from page 1)

'27, then editor-in-chief of the *Campus*, was deposed by the *Campus* Association for "violating the canons of good taste" by some remarks in an editorial entitled "Oracular Mysticism".

The Student Council then communicated with the *Campus* Association and informed them that unless a suitable plan were adopted for the election and deposition of the editor to guarantee editorial freedom, the *Campus* would be refused its allotment for the following year.

Meanwhile, many members of the *Campus* staff resigned because they felt that editorial freedom was invaded by the deposition of Heller. Sidney L. Jacobi '26, was elected editor to succeed Heller.

The *Campus* Association adopted a new plan for the election and deposition of the editor, which plan is now in effect. In the election of the editor, first there is general discussion participated in by the members of the staff and of the Association. Then, the Association retires and elects an editor. The name of this student is then presented to the executive and associate boards of the *Campus*, who may veto this election by a two-thirds vote. If the choice of the Association is rejected by the student boards, the Association may still elect the editor by a four-fifths vote. The editor may only be deposed by a two-thirds vote of a joint meeting of the executive and associate boards and the Association. However, the Association reserves the right to suspend an editor.

This plan was accepted by the editorial and business boards of the *Campus*, and the present editor was elected according to this plan.

The Student Council rejected the plan as unsatisfactory, and refused to grant an allotment to the publication. They did, however, set aside \$2.00 out of every \$7.00 "U" ticket

LACROSSE TEAM PRACTICES

The lacrosse squad is considerably bolstered up by the appearance of several football players who are trying out. Now that the football season is over, Schlaeter, Rosner, Shorr, and Voso are appearing regularly in Jasper Oval for practice with the squad.

In the spring it is expected that the team will play several unofficial practice games with various neighborhood clubs, and possibly with some freshman teams of other colleges.

for a paper to be published by the Student Council. The Trustees refused permission to conduct this proposed publication. There, matters stood at the beginning of the summer.

During the summer, David W. Kanstoren '27, president of the Student Council, and Edward W. Stitt Jr., president of the *Campus* Association, agreed that the *Campus* be put on the "U" booklet, and that the entire question of the allotment be re-opened this term.

At its first meeting of the term, the Council re-affirmed its position of last term and refused to accept the compromise of the Association. Some time later, a committee was appointed to propose a compromise plan and to present it to the Association. Mr. Stitt informed them that the plan would probably never be adopted by the Association.

The Council then felt that the action of its president in putting the *Campus* on the "U" ticket, and because of the fact that the *Campus* has been distributed to "U" members all term, that in all fairness the *Campus* be granted an allotment for one term, and that then, all relations between the Association and the Council be severed.

Before the *Campus* can be ejected from the Union, and before the editor can be denied his seat in the Council, constitutional amendments must be passed.

BIO CLUB TO HOLD SMOKER WEDNESDAY

Music and Humorous Talks to Be Part of Evening's Program

The Biology Club will hold its semi-annual reunion and smoker, according to its usual custom, on Thanksgiving eve, Wednesday, Nov. 24, at 8:00 p. m. in room 319.

The committee in charge of the reunion consists of Eddie Gall '27, chairman; S. Licht '27, E. Lipshitz '27, J. Rabinowitz '27, and J. Scalice '28.

In addition to serving a reunion of the alumni members of the club with the undergraduates, the smoker will give some of the new members an opportunity to deliver their pseudo-scientific papers, prepared as a part of their initiation. The feature of the evening will be a paper on "The Physiology of a Passion", written by Sidney Licht '27. Licht will illustrate his talk by some original photographs, drawings, charts, graphs, and apparatus used in his investigations.

Two of the alumni members will also take part in the program for the evening. Bernard Fread '25, former president of the club, who is now at the Cornell Medical School, will give a talk on the "Comparative Anatomy of People I Have Met". His talk will also be illustrated by photographs. Milton S. Levine '24, the other alumni member taking part in the program, will entertain with his banjo and "Biological Ballads." Incidental music will be furnished by the club's string quartet, under the direction of Norman Joy.

VARSITY WATER POLO SQUAD HOLDS PRACTICE IN POOL

Coach Mackenzie Supervises Training After Absence of Over a Week

With Coach Mackenzie back after his illness, the varsity water polo team held practice in the pool last Thursday at 5 o'clock. In order to get the men warmed up the mentor put them through a series of setting-up exercises followed by several laps of fast swimming. Several of the basic plays of the game were then explained by Coach Mackenzie. The men who were concerned in the plays carried out the instructions accompanied by much scrapping and splashing which was promptly stopped by the coach who explained that energy should be conserved as much as possible in a game like water-polo and that all unnecessary expenditure of energy should be stopped.

Those present for practice were then divided into two teams and scrimmage practice was started. An interesting sight was presented to spectators as twelve men resembling so many sea monsters fought furiously for the possession of a small white ball which rode serenely on the surface of the water.

A smoking pleasure that never fails

HERE is the outstanding fact of the entire cigarette industry: *Camels never tire the taste, no matter how liberally you smoke them; never leave a cigaretty after-taste.*

Only the choicest tobaccos that nature produces, only the finest blending ever given a cigarette could produce a smoke that never fails to please, that always brings the utmost in smoking enjoyment. Regardless of how often you want the comfort of a smoke, of how steadily you light one after another,

Camels will never fail you, never give you any but the finest thrill of smoking pleasure.

That is why Camel sales, by far the largest in the world, keep overwhelming in the lead. Increasing millions are discovering the incomparable Camel quality—smoothness and mellowness.

If you want the one and only cigarette that's good to live with strenuously from morn to midnight—the cigarette that *never tires the taste*—Have a Camel!
