The combination in one date of the annual spring show and the Senior Class dance which two events have always ranked separately as the two most important functions of the College social calendar, is in itself a move that assures a gala evening.

THE NEW CONSTITUTION

The acceptance of the plan suggested by Dr. Robinson to the Student Council for the formation of its new constitution speaks well for the final adoption of a charter which will probably be a milestone in student government at the College. President Robinson suggests that the Council, instead of presenting a finished constitution to the Board of Trustees for ratification, make its request for the new document in the form of general recommendations which can be discussed by the Trustees and put into constitutional form by them. The finished articles can then be handed back to the undergraduates as a charter with the complete approval of the authorities of the College.

The Campus feels that the suggested procedure has a great advantage over the plan of presenting a finished document for approval. The Council will be able to present all of its ideas as to the powers which should be delegated to it in a better method than The paragraphers would permit. These arguments will in turn be discussed by the proposed framers of the constitution and perhaps be amended by them to advantage. In this way, the suggestions of two groups will be incorporated into the completed work. Furthermore, the members of the Board of Trustees are men far more skilled in the fine points of constitution making that the officers of the Student Council are. Hence, the final document will probably be technically correct.

The need of such co-operation between the authorities of the College and the representatives of the student body shows that the activities of the two groups should not be considered as lying in distinctly separate spheres. Most matters which affect the policies of the College are as vital to the students as they are to the administration and vice versa. Hence, the Student Council in its recommendations should plan for such co-operation. Students should be given charge of several phases of College life which have heretofore been considered to be wholely within the range of faculty duties. Such questions as those of compulsory chapel and required courses are questions in which the voice of the students should bear some weight. Provision for such questions in the new constitution would mark the beginning of a distinctly progressive student government at C.C.N.Y. The entire student body is looking forward to an exceptional work on the part of the Student Council and the Trustees and feels confident that it shall be

FRIENDS ONCE MORE

Will you please call to see me at my office on Friday, April 8, at 1:00 P. M.?

> Daniel W. Redmond (Dean)

Dear Dan.

Why, Dan, you can't imagine how glad I am to hear from you. I almost thought you had forgotten me or perhaps you were trying to snub me. Do you think that is so unlikely? Why, think of it, Lewis whom I always used to help with his Milton and his Shakespeare, hardly looks at me now, and even Camillo says he'll never play with me again. He says his mother doesn't like me because I forgot to clean my nails.

And so for a time I thought that you too would refuse to play with me. I noticed you were inviting all my friends to lunch-all except me. Honest, I couldn't stand it. They would come up to me and show me your invitation, and all the time they would be leering at me as if to say, "See, Dan doesn't want to have anything to do with you." What could I say? I ask you?

But I knew all the while you wouldn't go back on me. I confess I was at fault. I kept on going to classes regularly as if Bird, and Lew, were my best friends and not you. I think I too would feel peeved. But now you see I haven't been going so often, and you see now that after all I care more for you. That is why you are inviting me to lunch, isn't it?

Please don't have too elaborate a lunch there, Dan, I don't want the rest of the fellows to get jealous. Have, say a mutton chop or two, with lots of onions, and, oh yes, don't put any cheese on the spaghetti. I can't stand cheese, can you? As for the drinks, nothing lavish. I think a little rye and some sherry would go quite a way toward cementing our little difference oand making it seem like old

Gosh, Dan, you can't think how good I feel to think that you and I are going to be friends again. It just shows how foolish it is for sensible people to get peeved about trifles. But all that is a thing of the past, ch Dan? What say, Dan, bottoms up?

Yours for old time's sake,

YORICK

"A kiss shortens human life three minutes, students in the department of psychology at Western State College have decided," reads an article in the New York Times. "A survey in genetic psychology showed that a kiss causes such palpitation of the heart that the extra beats amount to the normal number taking place in three minutes."

Which only goes to prove that the average modern dapper has died long before he's been born.

Mr. David Kanstoren suggests that we used the dernier issue of Gargoyles as an application for Lock and Key .- Which amply proves our modesty in omitting the latter in our string of activities.

One of our cronies, whose sarcastic wit has evidently suffered no ill effects at our hands, opines that the wording in the second question in our "Ask Me Another" list, i. e., "What great columnist's initials are T. B. E.?", necessitates slight correction. He suggests that the "great" be changed to "greatest".

FLOWER PHANTOMS by Ronald Fraser. New York: Boni and Liverwright. \$2.

For a beautiful adventure into the rhyme of writing, this reviewer wholeheartedly and unreservedly recommends Ronald Fraser's exotic novel of poetic prose, Flower Phantoms. Landscapes With Figures, Mr Fraser's first novel, many will recall as being a genuine experience in reading. But I am unqualifiedly in favor of this, his second, as being the more singularly exceptional of the

This is the story of o young girlkeenly alive to the wonders of plant life-who, in her sensitiveness to the beauty of flowers, confuses and symbolizes flowers with people, until they are undistinguishable to her mind. The story is nothing compared to the fantastic imaginings of Judy, whose most intense moments are spent with thoughts of flowers.

And yet again, these are not much which the author paints in strong, deft strokes of his pen. For example. "'They are somewhere near me' she whispered, 'the plant people. On the other side of a silence. Behind the light.' She half closed her eyes for the sweetness of her sensations and the mass of ferns looked. through her eyelids, like forests hanging on the mountains, with hyshoulder of the range like a cascade .. A green auerole of maidenhair clung to a hanging basket: she took the delicate sprays in her hands, and pressed her face into the heart of the moist gren cloud. Then swiftly opened her eyes and stared round her: for had there been a movement, a murmur? No. There was no movement, no murmur."

"This is a strange, exotic and singularly beautiful book," says the blurb on the jacket. With which statement I, for once, most heartily

Ask the advice of any man who's solidly wedded to a perfect pipe and you'll find he attributes the success of their happy union to one thing: Granger Rough Cut... For there's nothing like Granger for assuring happiness and harmony between a man and his pipe.

Here's tobacco worthy of the most wonderful pipe in the world... and because it is sensibly packed, in a practical foil-pouch (no costly tins) it sells at a price that settles the 'expense' problem. . . If a man and his pipe stick to Granger they're bound to live happily... ever afterwards!

# ON 'JEW AS SCHOLAR'

Asserts That Reuben Cohen Is Most Promising Type of Scholar

"Reuben Cohen, the scholar, has in his blood a tradition which deter mines attitude towards scholarship, declared Prof. Camillo von Klenze i his talk to the Menorah Society Wednesday at two o'clock in room

Dr. von Klenze's lecture was the third of a series having as their purpose the impartial study of cholarship, ,character, and activity of the Jewish student at C.C.N.Y. In speaking of college education

this country, Professor von Klenze deprecated the Anglo-Saxon tra will furnish the syncopation for point of view in respect to learning "The American college student does not know what in heaven's name he is in college for. He doesn't get any guidance from home. He lacks respect for learning. The college is made a place merely for the forming of friendships and associa. tions. Business is at the root of our education"

He showed that Reuben Coher as, on the other hand, a greater appreciation of intellectual values respect for knowledge. "America has been passing through the pioneering stage and is now enter ing upon an era of scholarship and research. Reuben Cohen, though he has faults which he should strive to correct, if he applies and disciplines himself I would consider him the post promising type for schoolboy life in the country. Professor von Klenze, announcing

nis retirment at the end of this semester, declared that his stay at the College and his contact with Jewish students has been of the utmost pleasure to him. Robert Marcus '27 acting as chairman, express ed the regret of those present on hearing the news of the professor's leparture.

"Reuben Cohen the Philosopher" by Professor Harry A. Overstreet and Reuben Cohen, the Student of English" by Prof. William B. Otis were the forerunners of Professor on Klenze's address.

#### Young People's League to Conduct Passover Seder

For the fourth year the Young People's League of the United Synagogue at the Jewish students' House has undertaken to provide college students who are away from home, strangers in the city, and young people who have no other Seders to attend, with an appealing, inspirational Seder Service, that means "home" to them

The home's sanctity, its joy and its spirit are beautifully represented in the Passover communal service. The Seder is the one great feast at which all Jews unite under the common bond of their religion and lose their strangeness to become friends for the Passover.

College students, strangers in New York and others may dispel one of the very saddest moods that might be experienced, by making reservations for the Passover Seders, which will be held on Saturday and Sunday evenings, April 16th and 17th by communicating with the Students' House, 523 W. 113th St., N. Y. City. Membership in the Students' House is not requisite-all are welcome

### Poetry Contest Entries Must Be in Tuesday

Poems for the prize contest of the Poetry Society should be submitted to Mr. Goodman in Room 119 before April 12, was the announcement made yesterday afternoon. The contest is open to all students of the College. Rules are posted on the bulletin board of the English Department.

### ELIMINATION MATCHES WILL DETERMINE TEAMS LINEUP

Squad Cut Down to Eleven in Preparation for Match With Pratt

With the Pratt Institute match looming less than two weeks away the tennis team is busily engaged in obtaining a lineup for the opening encounter. Elimination matches are being held at every practice session and by this means the squad has been cut down to eleven men.

Weather permitting, the weeding out will be continued today four maches being scheduled to be played. In the first, "Al" Parsont who defeated Dave Millstein and eliminated him from consideration at the last practice, will meet Seymour Brick, the third singles man of last year's freshman team. Both men are players of the steady type and consequently a close heady battle is expected. The second engagement will bring forth Jack Slonim and second men respectively of the Frosh racqueteers. Both these contestants are terrific drivers and a colorful and interesting encounter will probably ensue. Eddie Sisselman and Edward Phillips are to meet in the third match.

In the last match Will Parsont and Dan Bronstein, two men who played on last year's varsity will encounter each other in an attempt to establish themselves as regulars.

THAT'S the way P. A. talks to you in the bowl of a pipe. This great national gloom-chaser stabs the darkest clouds with a ray of sunshine. Buy a tidy red tin of Prince Albert today and see. Tamp a load of this friendly tobacco into your jimmy-pipe and light up.

Cool as a sub-cellar. Sweet as the breath of fresh-cut violets. Fragrant in the tin and fragrant as you smoke it. Never a tongue-bite or a throat-parch. So mild you can hit it up from sun-up to sun-down, yet with a body that satisfies completely.

There's more philosophy in a pipe-load of P. A. than in the average Doctor's thesis. No matter what brand you are smoking now, you don't know how much your jimmy-pipe can mean to you until you pack it with good old Prince Albert. Get started now.
