LACROSSE TWELVE ENDS SECOND YEAR OF ORGANIZED PLAY

Lavender Team Closes Year With Record of One Win in Seven Starts

TEAM SHOWED PROGRESS

Hampered by Inexperience-Coach Rody Deserving of Praise

With a record of one victory in seven starts, the varsity Lacrosse team has completed its season, the second organized one in the College history. The record, as such, does not read very impressively, but when it is remembered under what conditions the twelve labored, their slate is not as bad as it seems.

In the first place, the game of lacrosse is a highly intricate one, requiring a special aptitude which cannot be gained in one, or even two seasons. Practice and plenty of it, is essential in the sport, and here Coach Rody was faced with another problem, for the Stadium was in daily use by the baseball and track aggregations, and the Lavender mentor was forced to institute daily morning workouts in order to get his squad into condition. The team also stacked up against some of the strongest teams in this section, and this fact ought not to be overlooked in reviewing the seasen.

The team thus handicapped, opened their season against the New With the completion of the paving York Lacrosse Club and won by a on St. Nicholas Avenue, the public 2-0 score. The twelve showed po- authorities advised the Fifth Avenue tentialities in that engagement, and Coach Co. to resume the original route also played well in their next game, of Bus Number 3. Dramatic Society to Pick Administrative Managers

The offices of Business and Publicity Managers of the Dramatic Society will be filled tomorrow at 12:15 p. m. at the meeting of that organization to be held in room 112. Next year's President, Stage-manager and Secretary were elected at last week's meeting of the Society. Various matters of importance will be discussed.

Close of A. A. Nominations Postponed to This Friday

The closing date for nominations for the offices of the Athletic Association has been deferred from May 21 to this Friday. All applications will be considered until 1 p. m. of that day. Aspirants may present petitions signed by ten members of the A. A. Only holders of "U" tickets will be permitted to run for office or vote in the elections.

Candidates for the position of manager and assistant manager of intramural sports will be voted upon at the meeting of the A. A. this Friday at 1 p. m.

BUSES TRANSFERRED FROM CONVENT AVE,

Original Route Along St. Nicholas Avenue to Be Resumed Tomorrow

Bus Number 3, heretofore operating on Convent Avenue past the College, will be transferred tomorrow to Street and the termination of the route, 181st Street. This step will serve to alleviate to some extent the present traffic disturbance in the College vicinity.

The route of the Number 3 bus was changed late in 1925 owing to the subway construction on St. Nicholas Avenue. Heavy traffic in the construction aread was deemed unfeasible and unsafe.

According to a statement made by Stevens defeated the College Mr. Winter of the bus company, the

The Woiking Boy's Halo Fades

THE heroic figure of the poor boy who works his way through college has become traditional. He is respected by all but a few, and is looked upon as the ideal type of youth. Yet a consideration of the true of us to change our opinions.

We have taken occasion several times this semester to propound in this column the theory that college can be looked upon as an extension of the play period for the individual; that its essential value can rather be found in freedom from the cares of an eccnomic existence than in any specific preparation for a renumerative later life. Too many students look upon college as merely a place to garner the number of credits necessary for admission to a professional school or necessary to obtain a teacher's license. Too many students look upon college not as a good in itself, but as a means to some other

To work after school is to lose to a large extent this fundamental value of college life. The student who must rush to his place of employment immediately after his last class, and remain there for some four or five hours a day can certainly not hope to do any study besides regular assignments, if he can manage to get that much done. To him, school work becomes by necessity a series of tasks which must be shirked as much as possible.

But it is not only with class work that after-school jobs interfere. None of the carefree college life is his. He cannot partici pate in any of the extra-curricular activities of the college. Any interests he may develop outside of his regular assignments are necessarily thwarted. The freedom which should characterize the college man's years is lost when he is employed after classes.

Yes, it is true that some students must work. It is true that for some it is a question of some work after classes or no college came to the College to see whether some steps could be taken to prevent their sons from dividing their time between college and work.

The great majority of students who are employed after classes do not have to work. Most of them wish to have some degree of their pockets and too often they forget the dash-but he is peculiarly C.C.N.Y. sacrifice which this entails in frustrating their development in college. A little ambition can tervals, we think it appropriate to analyze

at all, there can be no question of the choice. dish looking. But that this particular them to a realization of their folly.

The Youth Has His God

T IS DIFFICULT to determine the extent of youth's concern with God. Certainly he has enough provocation to thought. Controversies unnumbered rage about his head; gogue has its little problem of the modernist and the orthodox. A few sceptics still annoy the Southern Baptists and inject trusting young. The spectacled scientist has emerged from his laboratory to argue whether a new conception of God is the scientist's concern, and Bishop Berkeley's conclusions still provide the idealists with dialecti-

And where does the undergraduate enter? lack of snark at College.

Does he, with customary carefree abandon, ignore the problem? Still, it is too easy a solution to represent him as totally apathetic, just as it would be too optimistic to say that many pursue this vexing problem of the Prime Mover to some adequate. intelligent onclusion.

Up here in the office one finds a fairly representative group of the more intelligent college students, and it is striking that there is absolutely no agreement in their religious outlooks.

There is first a rather blatant fundamentalist who believes there is no Judaism but orthodox Judaism. To offset him there is the just as belligerent atheist who travels around his pockets loaded down with Ingersoll's speeches-in the little Blue Book series-and who will quote, at the drop of a hat, and with the utmost joy, excerpts from "Heavenly Discourse." A half-baked notion of evolution, something from Voltaire, a little form Paine, constitute his stock in trade. He is prepared to stand up with Sinclair Lewis in any pulpit and dare God to strike him dead.

Between these two extremes are the rest epresenting a host of floating, restless spirits who no longer can naively say that they believe in God, nor are quite ready to disavou him. In their hands He becomes a plastic idea, a more or less formless mass into which the individual intelligence may read order, value of after-school work may dispose many and out of which they may fashion something in which they can believe.

Some. having read rather extensively in Wordsworth and Coleridge and Shelley, refer to themselves as atheists. Others, having dabbled in philosophy, play around with Spiritual Pluralism and Universals. Many are agnostical, frankly stating that in the absence of evidence or any powerful inner urge to believe, they prefer precariousy to balance upon the edge of the precipice, neither desiring to fall into the vague depths of total disbelief nor to stand callously and firmly on the

There is an outmoded Wildian who is enchanted by the litanies, the singing masses of the true believers, the colorful ritual of the Catholic Church. Another one wanders from church to church, now warming to Unitarianism but ultimately going off in the same wracking state of doubt in which he started

It is safe to say that most of us have diswith the One in a gilded throne at the top flanked by the Archangel, and being pleas antly hymned by the lyres of the heavenly hosts. But to affirm or prophesy further would be to court disaster.

Dissimilarity-Snark or Boojum?

THE C.C.N.Y. STUDENT, however elusive and diverse his other qualities may be to observers, solidifies at least in the general agreement of his dissimilarity to the products of other educationaries. This assumed unlikeness is both a source of pride and cause for lament; collegians, graduates and at all. Yet this is only true in a minority of faculty alike regard it as a thing to peck at, cases. We know many cases of parents who and on various occasions the pecking has been choice and noisy. The wood of contention may vary as to kind, but the grain always runs the same way. The C.C.N.Y. man is not rah-rah, he is over studious, he is an intellectual sncb, he has no college spirit, he is too professional, he is too radical politicindependence; they wish to have money in ally—and an assorted lot of other balder-

rs,

It's A Quaint Old Custom

F it would not be rank impertinence on our part, we would remind the ball team that for generations and generations mittee are E. Halpern, chairman. G. Prisant, Phil Moses, P. Shapiro, J. it has been quite the thing for the College's representatives Binder, and J. Kershbaum. on the diamond to come through with at least one outstanding performance against a major opponent during the year. And who, to quote a most estimable gentleman of the troupe, is the PARMELEE TO ADDRESS 29 team to break that tradition? With only three more games remaining, Doc Parker's merry men will have to work fast indeed to get that one superlative performance off their collective chests before the Stadium is given over to the more genteel art of pursuing the Lost Chord rather than the elusive horse-Chemistry" is the title of the talk which Dr. H. C. Parmelee, former

The best ball team the Stadium has seen this year makes its Mines, will deliver before the Society appearance this afternoon when a habitually powerful N.Y.U. of Chemical Engineers of the College, nine and the Lavender get together for what is sincerely hoped tomorrow at 12:30, in room 204 of to be a game, after a fashion. It is of comparative unimportance that mighty few good teams have made their bow in the who is editor of the chemical periodlocal stronghold this spring. The budding Violets, undoubted icals of the McGraw-Hill Publishing edly, constitute a perfect target for a surprising upset, and if Company and Secretary of the Amerithe St. Nick forces have a good game under their belts, any- can Institute of Chemical Engineers, thing may happen. And if most of the anticipated things do will review the activities of the chem happen, it will be just too bad for old New York-our guests ist and chemical engineer in the de today presumably, for there is still dat debbil Outstanding velopment of American industry. Performance hanging around the corner.

Since 1921 the home boys have had the pleasure of down-day. Frank J. Donahue was elected ing today's invaders but twice. We can still remember pleasureably that game of two years ago when Artie Moder et. al. president; Frederick Cering, corresturned in a neat 3-2 victory, which we sincerely hope will be ponding secretary; Victor Rosen-repeated today. No matter what happens, it will be a lot of bloom, recording secretary; and Wilfun, which in itself is something to look forward to.

UR most estimable tennis team complains of being slighted in the columns of this equally estimable journal of news and comment. A fact underliably true. Any team that wins four out of five with very excellent chances of adding wo more victims to its list before the exams start facing us, should break into front page headlines more often. We personally believe the tennis team is a good team, a fine team, a great team, a swell team, in many respects a splendid aggregation. And that's that.

NE of the few bright spots on the athletic horizon has been the exploits of the trackmen who wind up activily game. There are several private ten ties this week with a dual engagement against Rensselaer Polytech at Troy. By defeating Fordham by a convincties at Indian Point. The sole use of ing margin, many persons in the immediate vicinity became this park for the 25th has been securaware of the fact that the College of the City of New York ed for the students travelling in the was supporting a track and field team that has done consid-Technology Section of the Day erably more than its share to bring the College's grand aver- Liner. age up to the .500 mark.

Four men will remain undefeated in their specialities and will take a lot of beating before succumbing to the superior Schlachter or from the Tech. office speed and agility of the opposition. In the order of their appearance, Lester Barckman in the high hurdles: Woody Liscombe, a running fool if ever there was one; George Bull-SUMMER SESSION winckle, a most capable convenient person to have around when one is required to travel over a mile quickly and efficiently; and Fred Babor, the College's first six-foot high-jumper in its history, all have come through splendidly this season.

Add to this quartet such competitors as Ed Yockel, Ben Lamhut, Jess Grosberg, Whitty Lynch, Morris Tannenbaum, Ernie Tietjen, Jess Siegal, Gus Enders, Bill Tauber, Larry Hirsch, Paul Fitzgerald, Jules Saphier, Ed Schneer, and the two Kaplans, and you have a most cogent reason for the reappearance of the lower Sophomores, 2, 4, 5, 10 a. m. Sophomores, 3, 11 a. m. of that evangelical smile on the beaming countenance of the Lower Sophomores, 3, 11 a. m. jovial Lionel B.

ACROSSE deserved a better fate than the record of the team reveals, but apparently a game in which experience is at such a premium, cannot be revived after a lapse of twenty years with immediate success. Even if their technique was a bit off color, there was nothing wrong with the boys' spirits, which moved them to chase a hard-rubber India ball over the spacious confines of the Stadium at the slightly unearthly hour of 6 A M earthly hour of 6 A. M.

Such procedure was made necessary by the fact that three or four other teams used the Stadium practically all day for their daily stints. Which brings to mind a pertinent question raised some time ago regarding our little agitation for a more extensive program of intramurals. Even if a "sport for all" policy were adopted at the College, finding a suitable play-ground would certainly embarrass the officials and would certainly ultimately result in the abondonment of such a system under the present conditions. Which would never do at
