### TRUSTEES TO GET NEW GRILL PLAN

President Robinson to Present Student Council Petition at This Next Meeting

CAMPUS AND MERCURY SIGN

Sandwich and Drinks Counter to Serve as Temporary Relief in Lunch Situation

President Frederick B. Robinson will present, at the next meeting of the Board of Trustees, a petition drawn up by the Student Council embodying the desire of the Council and the Publications Union to have a temporary sandwich and soft drink counter installed in the Main Building of the College.

the Student Executive Affairs Committee last Monday, when the urgency of instituting a relief measure was explained to him, President Robinson has promised to give his support to the petition.

Plans which have been formed by the college authorities for the establishment of a permanent lunchroom are not yet in a position where they can be carried out, and it is hoped that the proposed sandwich and drink counter will serve to alleviate the situation until their project becomes

particular management for the counter, leaving the decision on this point quaintanceship with the Justice, the entirely to the discretion of the Board of Trustees. Of the several line of the history and origin of the schemes suggested, however, the following are the most predominant:

(1) That the counter be managed as a subsidiary activity o the Coop store. (2), that it be managed by a Faculty-Student committee as a special co-op understanding.

### Text of Petition

The text of the petition reads as follows: The Board of Trustees,

The College of the City of New

York, "Whereas, it has been the pleasure of the Board of Trustees, in accord-

ance with the petition of the Student Council and the Publications' Union fended on the grounds that it had of the College, submitted last spring, to remove the students' lunch room of satisfying human needs. The rewhich formerly occupied part of the quirement of a unanimous agree-Concourse, and

of the student body, feel that there on justice. is an urgent need for some adequate substitute until such time as a permanent arrangement can be made,

"The Student Council in connection with the Publication's Union do hereby petition that a temporary candwich and soft drink counter, to be fact that it installs a wholesome remanaged in any manner that shall seem suitable to the Faculty of the College, be installed in the Main Building of the College."

#### SENIORS TO HOLD DANCE IN GYM ON NOVEMBER 2

### **Business Center Adds** To Hygiene Course

Boxing and Fencing Made Compulsory as part of Downtown Branch Hygiene Course

Because boxing and fencing train business men to think fast in tight situations, Professor Canute Hansen s introducing both sports into the Hygiene Courses at the Commerce Center. Later, boxing will be instituted at the Main Center as part of the change planned in the physical training curriculum to get away from calisthenic drills.

In explaining the reason for the ourse, Dr. Hansen said: "The purposes of this training are threefold. First, boxing and fencing serve to enhance the physical and mental well-being of the student. Secondly, we intend boxing to take the place of the old, slow-moving calisthenics which are almost mechanical movements and do not have the element of pitting one opponent against the other. Finally we expect these new sports to create an interest on the part of the student which he will carry over into later

These special training courses will be a step in the development Hygiene curriculum. The first move was the introduction of folk dancing with musical accompaniment to the present civilian drill. course which was inaugurated the beginning of this semester. was inaugurated

### THE MATTER RESTS WITH THE BOARD

IT is to be hoped that the Board of Trustees will approve the Student Council's proposal for setting up a lunch counter within the Main Center building. If this is done promptly, at least as promptly as the action of the Board in acceding to the demand for Hammond's removal, the ensuing good-feeling will be wide-spread. The student body can have further cause to feel that the Board has its best interests at heart.

The present also is an appropriate time to clear up two matters bearing on the lunchroom situ ation. The first is that this sandwich and drink counter is a temporary measure. It is not a reversal of last term's actions. It is designed to bridge the gap between no lunchroom at all and the time when the proper space and facilities are available for the establishment of a grill in keep ing with the full demands of the College. We can safely state that the College authorities have in mind a definite plan for setting up a high-grade restaurant. But the time is not yet ripe therefore the desire for the counter arrangement.

The second point concerns the policy of the Campus in this entire question. The cardinal demand in the campaign waged last spring by the Campus was a sweeping improvement in lunch-room conditions, and in the event of failure to achieve this, the removal from control of Hammond. When the campaign later became one against the concessionnaire, the Campus advocated as the healthiest substitute for him a co-operative arrangement on the style of the book store. The vote of the student body in the referendum, where both Hammond and the co-operative idea were rejected, did not meet with the complete approval of the Campus. We recognized the danger in the complete absence of a lunchroom, and early this term we demanded that a grill arrangement be made quickly by the Student Council. The Campus finds itself so well satisfied with the present plan that the draft of the proposal submitted to the Board of Trustees contains its own specific backing. The Campus eagerly awaits the settling of this temporary mat-ter by the Board, and also looks forward to the time when the College will possess a thoroughly representative grill.

COME out to the Stadium tomorrow and see if some real home-town support will not make that pale pink Lavender team suddenly see red, rip into its opponents, and come off the field with one sweet victory.

SOCIAL life at the Business Center will be inaugurated on November 2 with the holding of the Council dance in the Commerce gymnasium. To the several hundred students study ing at twenty-third street the occasion should mean the start of a significant part of their collegiate activities. The dance deserves to be successful both because in itself it should fare well, and because it is the forerunner of a program of activities destined to work only for the good of the Commerce student. Also it offers, this to the Main Center student, an opportunity to visit and examine the Business building, and to participate in a festive occasion with fellow Lavenderites.

### Gargoyles

Exam With apologies to A.L.

All night long I have been working. Now it isdawn. I call: "What time is it?" There is only a rustling of blankets. The house is very quiet. The sun shines in on the books, On the pen and ink, On the rule and pencil, On me. Then I see you. Your alarum has sounded And with weary gestures your day begins. I wait with bated breath And peer thru heart-flamed eyes. You lazily close your shaded window. Burning beneath the darts of Amor, I know a night's cramming

No matter how much you may love football you can't see all the games you want to see. They are too far away or tickets are too scarce or there is something else you must do. But you can read the vivid accounts of the games in The Sun and that's the next best thing to seeing the games. Every Saturday in the sports edition of The Sur you will find detailed reports of the big games played on the same day. And during the week you will find a large volume of football news describing the progress of the teams, the development of new plays and changes in the line-ups. The staff that covers the football games for The Sun is the largest in the country. And, what's more, it is made up of men who are football experts-men who understand the game thoroughly and know how to write about it interestingly.

ZENO

of the two Incide Manhattan fore they r metropolita

THE NEWSPAPER OF DISTINCTION IN ITS READERS, ITS NEWS AND ITS ADVERTISING

ANY reference to football made in the immediate vicinity must, of necessity, be couched in rather tactful terms. To say that the current campaign on the grid thus far has been a keen disappointment would be putting it mildly, but the boys are still out there trying, and at least Louis Engdahl, National Secretary that's something. Just because a couple of football games—and after all, that's all they are have been lost is no reason for going into an official period of intensive mourning, or post-mortems. However, it's getting irksome, to say the least, waiting for that first victory of the season. There ought to be a law or something. . . .

PERTISING

More miserable football than we'd care to see again in a half-season of play has been shown by the College team this autumn, with the Lowell game the only redeeming performance. Inexperience has been the most damaging handicap Coach Parker has been combating all year, and this, combined with a woeful dearth of reserve material, has not contrived to make the good doctor's path a particularly easy one.

This disastrous slump is one that seems to afflict every team periodically. After all, no team can expect to lose men like Willie Halpern, Lester Barckman, Ben Cohen, Johnny Clark, Tom Gannon, Eddie Bokat, Hank Rosner, and Ben Schlachter without keenly feeling the effects. Inexperience is one obstacle no football teacher can confidently hope to clear successfully.

Chick Meehan has often said that good material is ninety percent of a coach's effectiveness. If that's the case, Parker has been holding out on the boys when that remaining ten percent comes up for discussion if his work during the last six years may be taken as a criterion.

THE basis and backbone of any fairly strong football team is the line, and it is in this department of play that the Lavender is weakest this season. Theoretically, the backfield should be the strongest unit ever assembled in Lewisohn Stadium, what with three veterans back in harness, all football wiser and hardier, and we have a sneaking suspicion that some fancy ball toting would be seen on display if Messers Bienstock, Targum, Goldhammer, and Schlesinger, were given the necessary time and protection by the forward wall in the execution of their plays.

To our untutored eyes, the line's chief weakness is not apparent, although we can definitely state that it is not Ed Dubinsky's fault that New Jersey strikers and the wartime before the influx of courses in insurthe team has failed to click to date. The vigorous and enthusiastic play Mooney-Billings trial. of Dubinsky, the Red, at tackle has been one of the all too few highlights of the season and is especially commendable in view of the fact that he had never played in the line until four days before the first big

If Dubinsky dominates the work of the line sturdy Morris Goldhammer surely is outstanding among the backs. Goldhammer takes the work of the team more seriously than most men of the squad and has virtually played himself out in every game trying to bolster his slipping

Another distressing problem Coach Parker has to combat is the really startling lack of reserve material in the backfield. Only seven ball carriers have broken into action and one of them, game little Abe Grossman, is out for the remainder of the season. The acuteness of the situation may be appreciated when it is learned that Morris Dulberg carried the ball in scrimmage for the first time last Saturday when he started against Drexel. The present combination of Bienstock, Targum, Goldhammer, and Schlesinger is well-balanced, and versatile, but it would be just too bad for the home team if one of them were incapacitated for even a part of any game.

SEVERAL exciting and interesting afternoons are in store for the Lavender during the next three weeks before they pack away the foot -late in November. Of the four games remaining on the schedule, at least three give promise of rousing battles with anything liable to happen

George Washington has had as much trouble in getting started as the College, and has lost three straight games, dropping a tough 7-6 decision to Dickinson last week. Coach Parker's men trounced the Colonials, 33-0, last year but we refuse to incriminate ourselves with any predictions for tomorrow.

It was our private contention that R. P. I. had one of the snappiest combinations the local men faced all last year, but the team from Troy has not been particularly impressive this year, although they have taken

three out of four games from teams that have shown little or nothing. It appears at the present writing that St. John's may furnish a most unpleasant surprise to the College in its first appearance in the Stadium. Ray Lynch has assembled a real team in Brooklyn this year that is favorable. ored to knock over a crippled Manhattan team tomorrow. The Green eleven took a bone-crushing defeat from Lafayette's rugged crew that may wreck its chances for the best season the Jaspers might ever have experienced on the gridiron. St. John's is probably the more dangerous of the two teams and will be a hard club to hurdle, especially if the redmen set back Manhattan as is expected.

Incidentally, it may be of interest to note that both St. John's and Manhattan will have extremely busy afternoons in store the weeks before they meet the College to decide the disposition of the "little three" metropolitan title. St. John's meets Loyola at Baltimore next week while Manhattan takes a long hop to Atlanta, the week before taking on the College, to meet Oglethorpe, the crew that upset the dope by defeating Georgia a rew weeks back. And you all know what Georgia did to Yale's little excursion two weeks later. Things may not be so quiet on the St. Nick front after all.

## GASTONIA CONVICTION TERMED "FRAME-UP"

L. Engdahl, Labor Defense Secretary, Charges Strikers Sentenced for Political Beliefs

Claiming that the conviction of the seven men tried for the killing of Police Chief O. F. Alderholt was conviction based on the beliefs and opinion of the indicted men rather than on the evidence accrued by the prosecution lawyers, Mr. J. of the International Labor Defense, called the recent Gastonia trial a 'frame-up' at yesterday's meeting of the Social Problems Club.

As a result of the police raid on the strikers tent colony on the night of June 7, where some strikers and police were wounded and Police Chief O. F. Alderholt killed, twenty three members of the strikers in the struggle were arrested. Of this number sixteen were charged with murder in the first degree. This charge was later reduced to the second degree and all but seven of the indicted men were dismissed.

Discussing the ensueing trial, Mr. Engdahl said, "The trial which began as a murder trial turned into a trial and examination of the beliefs of the men arrested and of the issues of the strikers and their unions as well." "The credibility of the witness' assertions were tested on their belief or disbelief in future eternal damnation and on their attitude towards the class struggle," he charged.

In an interpretation and examination of the events leading up to the trial, the speaker called the conflict in Gastonia merely another example of the class struggle between capitalists and workers. "It is the same outbreak of fighting and struggle as was evidenced before by

DON'T want to laugh, yet anything, however shocking it may have been at first, will with repeated occurrence become farcical. So it is rather complacently that I contemplate the suggestion that the Real Estate Board of New York petition the trustees of Columbia University and the Board of Regents "to establish a new set of collegiate degrees, namely, Bachelor, Master and Doctor of Science in Real Estate Administra-

But I think it is almost time to pay our last respects to a once honored and meaningful word, and then gently send it packing. "College degree" like "Humanist' and 'Cultured", (very likely it isn't mere coincidence) no longer confers upon its possessor either distinction or status. Let us bury it before too many crimes are committed in its name. And just as eulogies recalling the noble virtues of the dead precede interment so a dialectic on the word "college" may evoke its former giories and serve as the last rites.

Graduation from high-school occasions a choice between tradeschool, college, and until recently, professional school. Obviously between the first two—the last need not pe considered—there must be some distinction. A trade-school is a commercial institution that drills you in the use of the tools of some craft. College, on the other hand, should attempt to inculcate an integrated mode of living rather than a way of making a living. Or I might phrase it that the college should attempt to teach self-control and not control of material things.

Unfortunately-to anticipate an objection-whenever the two have been fused, the latter has always been shunted aside. Examine the catalogues of most colleges and you will discover how the humanities (most students call them the "snap courses") are gradually yielding dards left after the inroads of comance, public utilities and carpet-

City College is not excepted. Men graduated from the Commerce Cener, despite their ownership of a degree, are not "college" graduates. And the raid upon the curriculum by the business interests has had another more blighting effect. The four years at college no longer have intrinsic value—I grant that this is a disease of milieu. As children! impatiently mark time before a the undergraduate body restlessly endure the four years of college life. Would it be heresy to suggest that college should be a four year loaf-a loaf on a grand scale; a leisurely journey through realms of a sombre, glowing beauty; through regions brittle and icy: an utterly incongruous propaedoutic to

However, moral people will frown upon such sentiments. To appease them, I shall add that it is the function of the college, particularly in a democracy, to produce leaders who shall serve as knight-exemplars. Julien Benda attributes the chimerical state of contemporary French poetry to the decline of the aristocracy. Perhaps that is why our artistic taste is, ordinarily, that of either the garbage man or Aunt Sue. And while we debate the relative virtuous of a Paulian and Russellian morality it might be wise to read Plato. It is possible for most undergraduates to obtain their degree and not even glimpse the Republic. But it is commonplace that our colleges instead of striving to preserve the few stan-

routine dullness of later life?

### Business Air College Gives Second Lecture

Dr. Joseph Klein, member of the School of Business faculty, and senior member of the firm of Klein, Hinds, and Finke, accountants, delivered the second lecture of the Business Air College's course, last night over station WNYC.

A discussion of the place accountancy occupies in modern big parade so do three-quarters-and scale business, and the pointing out that is a benevolent estimate—of of new accounting devices now being perfected, made up the main content of the talk.

> mercialism, romanticism, and the rest of the isms, hasten to pull down the barriers and to join in America's raucous hymn to Chaos.

# Chick MEEHAN on Football

NEW YORK UNIVERSITY'S brilliant coach will for the first time invite the readers of The Evening World this season to match their skill with his in choosing an All-American football team.

Meehan's expert observations, including careful analyses of players, contests and teamwork, will materially assist readers in arriving at their choice of players, and for the contestants who come nearest "Chick" Meehan's choice, and most cleverly explain the reasons therefor, the following prizes will be awarded:

> \$100—First Prize \$50—Second Prize

\$30-Third Prize \$20-Fourth Prize

Follow "Chick" Meehan and pick the winners of the 1929 season. Full particulars of the contest appear daily in

### Cross Country Team In Tri-corner Race

Hill and Dalers Compete With Manhattan and Lafayette Squads Over Van Cortlandt Course

This afternon Coach Mac Kenzie's cross country outfit inaugurates the 1929 season in a three-cornered fight against Manhattan and Lafayette over the Van Cortlandt Park course. This overland test with the Green and Easton has become an outstanding feature of the Lavender schedule during the past two years.

The veteran Lavender mentor, who is in charge of the swimming and water polo aggregation as well. has concentrated his attention upon the cross country team in their daily practice sessions. Favored with fine weather during the past weeks the St. Nick squad has lengthened its stride and lowered its time for the gruelling hill and dale path and is likely to do better than last year.

A squad of nine men will be en tered in the run including the following, according to Stan Frank, manager: George Bullwinkle, Ed-Tietjeu, Captain Lou Dlugatz, Roland Kaplan, George Steckler, Morris Hollander, Henry Berkman, Gerald Cohen and Bill Popeck.

### GEORGE WASHINGTON TILT

C.C.N.Y.-Washington game will be broadcast by the Radio Club broadcasting station tomorrow afternoon at 2:30 p. m.

Weekly tests for the past month between the College and the George Washington University Radio Society have proved successful and Washington's students will be enabled to have a first hand story of the game.

The Fall number of the City College Alumnus appears with its customary account of football prospects, reviews of books published by alumni, and an outstanding article on "Men of Science" of the College of the City of New York.

With the exception of a comparaed students, the undergraduate botains the completely unfounded notion that Alma Mater has produced few, if any, notable scientists. To dispel this chimera, the Alumnus draws upon the new edition of James M. Cattell's "Men of Science" which lists the most important names in American science today. Of some fifteen hundred who are considered leaders in their fields, eighteen are City College men, and of sixty-five hundred lesser lights, sixty-four are Alumni. In consideration of the huge number of institutions higher education in the country, the percentage of more than one is a figure with which to conjure up pride rather than despair.

In addition to the discussion of our scientists, the number contains an article on the summer Stadium RADIO CLUB TO BROADCAST Concerts of the Philharmonic Symphony Orchestra, the usual array of A play-by-play description of the the Athletic Association. The Alumnus is edited by Donald A. Roberts

Lavender Team Out to Avenge Last Year's Defeat by Blue and White

A fairly strong Lavender Jayvee dy of the College (and consequently, for the second time in two years. a large part of the Alumni) enter- Last year Coach Ally Dreiband's aggregation met defeat on the Morningside Heights gridiron and this season's junior varsity is out to avenge that defeat.

> Both teams made unimpressive while the Blue and White eleven was trounced by Manhattan College.

Capt. "Mush" Weiner, the Jayvee leader is very optimistic as regards this afternoon's game. The Lavender lineup will be practically the same as that which bucked up against the Brooklyn team last Saturday. Harry Schneer, George Clemons, Abe Zakin and Joe Horowitz will start behind the line.

On the forward wall, Coach Ally Dreiband has besides Weiner, Dave Phillips, Frank Jacone, Jack Susser man, Gilbert Seldin, Jerry Leon, Harry Rosenfield, Harry Hoffstein, Marvin Stern, Morris Rosenfeld, Harold Weinstein and Ned Schwartz.

## Just Naturally Good

Good tobaccos . . . made good by Nature, not by "artificial GOLD'S goodness OLD

A chef may be able to make a doubtful steak taste good by artificial flavoring and sauces . . . But it's still dangerous to your stomach.

So it is with cigarette tobaccos. "Heat-treating" is useful to "set" and "sterilize" the tobaccos... and all cigarette makers have used it for years. But "heat-treating" cannot take the place of good tobacco in making a honeysmooth cigarette.

OLD GOLD tobaccos are naturally good. Carefully selected from Nature's best for smoothness, flavor and freedom from throat-scratch.

You have only to try a package to get the thrill of this smoother and better cigarette. That will tell you why OLD GOLD'S sales are ALREADY THREE TIMES GREATER than the combined sales of three leading brands during a like period of their existence.

Better Tobaccos make them smoother and better . . . with "not a cough in a carload" On your Radio, OLD GOLD-PAUL WHITEMAN HOUR. Paul Whiteman, with his complete orchestra, every Tuesday, 9 to 10 P. M., Eastern Sta
