Where did you come from, baby dear?

Okay. The presbytery-plan of here.

Where do you get your temper so grand?

But tell us now, lady, how did you start?

To those who have read the original of our book we make sincere and abrupt apologies. We went up a friend’s house last night, and he showed us one of those baby books— you know the kind.

First Srove—Jan., 1910—First Srove—Jan., 1910, etc. And in the book were the verses which inspired us. As far as we know, we are the only practical people in the world to have been inspired by a poem.

It all comes of our being a sentimentalist. We were not like that before, but steadily we become more and more sentimental. Our present interest in sentiment takes on a sinister meaning for us. The joy has been taken out of life. Weep for us, ye faithful— Weep for us while we tell you this story.

The excerpt which is to follow has been deleted by the censor.

—Editor’s Note.

For first prize in the Great Optimism Contest we nominate the Campus’s editorial writer, who demands the “elimination of all politics from campus appointments and enactments while acting only upon consideration of merit.”

That if what might be called a pious hope, incapable of fulfillment, if we are not mustering strength takes on a sinister meaning for us. The joy has been taken out of life. Weep for us, ye faithful— Weep for us while we tell you this story.

But hunger gone on forever.

Consider these lines the opening shot in this column’s campaign for a luncheon. The present condition leaves us distinctly disgusted—and hungry. The situation seems to resolve itself into doing one of three things, in this matter of food.

1. Bring lunch to school and choke for lack of liquid support.

2. Eat outside and work up an appetite walking back to class with that sort of flagging spirit.

3. Don’t eat at all.

The last proposition is the only practically one for a student without all hours—and we are not meaning that statement merely to cast stones at the Stoved Council. When national, state and city legislative councils make appointments and enactments, while acting only upon consideration of merit, the failure to

Hammard’s may come—and Hammard’s may go.
