Program Urges Concerted Action, Embargo on Japan

A program for the Faculty-Student Armistice Day Rally to take place on Thursday, November 10, was accepted by the Student Council Executive Committee yesterday when it used its powers to legislate in an

The committee declared an emergency because Armistice Day preparations must be made immediately and since the Council does not meet until Friday, action taken at the meeting would be ineffective, a spokesman for the committee said.

Recommended by the SC Peace Committee, the program calls for "necessary concerted action (short of military) to prevent aggression," an embargo on Japan, and "urging the U. S. government to withdraw American troops from China and to work for the removal of all foreign troops from Chinese soil."

With a keynote of "Eternal vigilance is still the price of liberty," a Call for the Armistice Day Rally was accepted by the council on last Friday.

The Rally is dedicated "to the task Tenure Policy of fostering sentiment at the College and throughout the United States to preserve peace and democracy."

Circulate Call

Already circulated among the faculty for approval, the Call provoked more than an hour's discussion at the council meeting. A substitute motion asking that diverse opinions be represented at the Rally was first tied at held in Doremus Hall yesterday under his vote to make the deadlock. Folwas defeated by a vote of 14 to 13, this time the chairman voting to break

"The crying need of the people struggling against unprovoked aggression is humanitarian aid," the Call this term, the possibility of retrench-states. "We urge support of The ment of salary scales and tenure for Bowl of Rice Day' on November 9," it continues. On this day the Lunchroom will be asked to sell only rice, with the proceeds to go to the Far Eastern Student Service Fund.

Junior Prom King To Be Chosen

Dean Discusses Reorganization

Acting President Nelson P. Mead and Dean Morton Gottschall addressed a forum on the policies of the present College administration which was 13 to 13, with the chairman casting the auspices of the College Chapter of the New York College Teachers lowing this, the substitute resolution Union. About one hundred members of the College's instructional and noninstructional staffs attended.

The discussion dealt with promotion of instructional staff members under the system of tenure being instituted the non-instructional staff.

Speaking of his policy in recommending to the Board of Higher Education, advancement of staff members, Professor Mead declared, "I shall make no recommendation based on personal friendship or the desire to settle old scores."

Professor Mead also stated that he did not think that the question of retrenchment has influenced the deliberations of the Faculty Committee on considering the recommendations for promotions made by department heads, prior to sending its own suggestions

No Concessions

A LL is not rosy on the Social Functions front.

For instance, the 'Forty-one Class was thrown for a loss Saturday night when its affair was poorly attended. It is futile to belabor classmen with pleas to attend their functions; class spirit cannot be forced down unwilling throats. All of which adds up to the conclusion that something had better be done quickly about the Social Functions financial situation.

Steps in that direction have been proposed by the Student Council Executive Committee which made several proposals to be brought before the council Friday. At present the check. ing and food concessions are rented out to individuals who make a profit on their fellow students. The committee feels that this system should be done away with. The arguments it advances are sound: it is only fair that profits should accrue to the organization running the affair and that checking fees be reduced to ten cents, as the committee suggests. The recommendation that three NYA workers should be used for the job of checking is a valuable one, likewise.

Also in order is an investigation of just what happens to the \$35 which organizations are required to pay for use of the Exercising Haii. We have been told that Professor Williamson stated that \$5 is paid to a matron in the women's room. We have also been informed that she has never been seen. This divergence of opinion calls for a straightening out of accounts. Students have a right to know where their money goes.

The Student Council should pass both these proposals at its meeting Friday.

We Need Action

LWAYS on the alert for practical ma-A terial and unbiased expert opinion on the need for free higher education in the city (and especially such concerning the College) we clipped this leading letter to the Sun last Tuesday:

"Would it not be practicable for our public schools and higher educational institutions to instruct the youth of our cities to turn to the right? Almost every day on the sidewalks or subway steps I am bumped into by male or female persons who persist in turning to the left.

"At the 134 Street subway station not long ago I witnessed a rush of City College students down the subway stairs, many of the swarm taking the left side and pushing aside those ascending.

"Are there foreign countries in which it is the custom of pedestrians to turn to the left?

WHIDDEN GRAHAM." The Campus endorses whole-heartedly this friendly spirit of constructive criticism and on behalf of the 8,000 students of the College it prostrates itself in atonement. Entirely too often have we turned to the left, arousing all right-minded citizens, such as you, Mr. Whidden Graham. Your letter to the liberal Sun brings to light for once and all the cause of the stigma attached to the name of City Col-

We would somewhat modify the question as to the queer ways of foreigners. It is not that un-American pedestrians turn to the left, but that foreign autos have the steering wheel on the wrong side. Perhaps the cause (and we don't mean excuse) of City College leftturning is the influence of these expensive foreign cars. These alien ideas we view with alarm.

Most assuredly the turning-course lack in the College curriculum, must be brought to the attention of the Faculty committee. We understand the importance of our stake in the matter and we will press for speedy remedial action. We will not equivocate. And we will be heard!

Curtain Call

WITHIN twenty years and two weeks after the curtain fell on the War to End All Wars, it will rise again on another dramatic scene. But this one will be less bloody and more on the side of brilliant satire and fast-moving theater.

To make the Thanksgiving weekend more meaningful, the Dramatic Society will offer its interpretation of the Pulitzer Prize play, Robert E. Sherwood's Idiot's Delight. We congratulate Dram Soc.

The annual fall Varsity Show has been a feature of life at the College for more than fifty years. For over half a century, which encompassed several wars, Dram Soc has entertained undergraduates and alumni.

This year's post-Golden Jubilee choice is a wise one. Perhaps the November production of Idiot's Delight will help to keep our boys out of the trenches until after Christmas and

Home Fires Burning

WO students died and fifty were injured I when a fire starting in the bookroom swept through three floors of the Main Building yesterday, wrecking laboratories and equipment and spreading panic.

In a rush for exits, several students were trampled and severely injured. Others were burned. The cost of the fire was put at \$30,000.

No, we're not trying to imitate Orson Welles. We don't want you to go around in an asbestos overcoat, wearing a gas mask. But you should know that there was a fire at the College on Friday.

No one was killed, no one was burned, and the cost of the fire was only \$30. But there was a fire and it took almost half an hour

Why so long? Because, when custodial employees grabbed a hose it couldn't get within range of the fire. They got an extension, but it didn't work. They got fire extinguishers, but the fire kept right on burning.

We don't want fires at the College any more than we want Mr. Welles' men from Mars. Although nothing can be done about the Martians, we can prepare for a fire.

A system of regular fire drills and careful inspection of fire-fighting equipment must become the rule here. Now.

This is no false alarm.

About Arnold, Probability Pepsies & Women

As I came into Luigi's I saw Arnold sitting at a table blankfacedly sipping a Pepsi Cola. Since there was no one around who could possibly have bought it for him, there was but one explanation

"Arnold," I screamed, "You have won the sweepstakes!" Arnold did not stir. "Arnold," I repeated, changing my wording, "Have you won the sweepstakes?" No answer. "Don't you know?" I asked. Again silence. There was but one way to learn the truth. Would he buy me a Pepsi Cola? "Buy me a Pepsi Cola," I said.

"How much have I won?" he inquired, slyly.

'What?" said Arnold.

"Why you are going to school." Arnold leaned over the table with his face close to mine.

AA College Spirit Its Raison d'Etre And Elan Vital

By Philip Minoff -

(Note-While our sports editor is on his annual two-week vacation in the library, this space will be taken over by guest columnists).

By Bobby Sand

The College has been undergoing a revival of spirit. The ASU held a "Joe College" dance; Frosh-Soph activities were renewedand the effect upon a regeneration of an clan vital at City College

What is the raison d'etre for such a program? Neither the ASU, the Student Council, nor the administration has defined clearly what it means by college spirit. Furthermore, I ask whether they have considered all possible means to achieve this goal, before embarking upon this policy.

If this revivalism is an attempt to remove a radical stigma from thte College's fair name, I believe these groups are barking up the wrong tree. Those students, whose undergraduate activities we are trying apparently to to recover at two inopportune momdecry, were sincere individuals who fought for progressive ideas and opposed reactionary situations within the College and community. Changes at the College accepted blithely today; such as removal of reactionary authorities for five yards to make it 19-0. and the present democratic faculty set-up, we owe in part to their intensive struggle. To renounce their efforts and ideals and to introduce a Hollywood bled on his own thirty-five. Weissbrod concept of college leaves a had taste in my mouth.

If this spirit is an attempt to develop a higher appreciation of the social emenities, then a comprehensive course in etiquette by the House Plan and the frats may fill the bill. But to resuscitate "college spirit" by a single dance or group of dances and the limited nature of Frosh-Soph activities is futile, for it lacks clarity of purpose and adequate scope of action,

Based on the contentions that sports is a common meeting ground of all minds and that attractive appeals can be made to all groups in the College to kicked the final point as the game make them feel their common interests, a plan has been advanced by several members of the Executive Boasd of the AA to round out the present social program of the College. Under their constitution which is undergoing revision ter than the score indicates. To the this afternoon, a social function division has been created. The plan outlined Beavers thirteen first downs and 180 for this division, which is to be run by students and a Faculty Adviser ap- yards gained by rushing, the Weavers proved by the Executive Board, calls for alumni and faculty activities.

Faculty relations are to be stressed by a tea every semester to the AA. Faculty Athletic Committee, the Hygiene Department, the coaches and general student body. A dinner in the spring will also be held to which faculty, alumni, Varsity athletes and the student body are to invited.

In addition to the Varsity and intramural sports program and participation in the above affairs, two dance-intramural carnivals, student rallies, teas at the House Plan after football games and the official greeting of visiting teams will serve to further the AA's appeal for greater student interest within

The success of this plan depends upon the immediacy of action, the personnel selected for the Social Functions Division, the cooperation of the headed by chairmen elected by the faculty and alumni and the support of the student body. Garbage Bags Blaze On Campus Grounds

Six tarpaulin garbage bags, valued at thirty dollars, were destroyed Friday in a fire outside the south entrance to Main.

Starting at about 10:05 a.m., the fire was whipped up by a high wind. It blazed for almost twenty-five minutes, sending billows of smoke into the halls and classrooms on the south side of the building.

Irving Handshu, a clerk in the College Store, discovered the fire. He notified Joseph H. Lombardi, custodian, who put his staff to work fighting the fire.

The men attempted to bring a hose into play, but it was too short to reach the door. An extension was found, Mr Lombardi said, but it was faulty and the hose had to be discarded.

While several men were sent for another hose, others tried to battle the flames with extinguishers. But, according to eyewitnesses, these proved ineffective in the face of the wind.

A new hose was finally put into action and soon afterwards firemen appeared to put out the last remnants of

Mr. Lombardi said the blaze was probably set off by sparks from a wood-fire on the embankment opposite the entrance.
