Reappoint Arm

NE more step toward the final decision in the case of tutor Sigmund S. Arm is expected at the Board of Higher Edu cation meeting Monday night. For months the affair has dragged on, from Department to Faculty Council to Board. The investigating committee, after much delay is at last ready to report.

The decision on Mr. Arm will mean more than a job lost or regained. It will demon strate whether or not the Borad intends to consider the sentiments of the student body: a student body which has repeatedly shown its respect for Mr. Arm both as a teacher and a leader

As we see it, there is only one fair deci sion that the Board can make. Reappoint

People To Know:

Young, husky and full of pep, Irving Rosenthal (English Dept.) is the College representative of what 'Campus' men call the greatest racket on earth-the profession of journalism. Every staffman postpones tak ing English 53 and 54, Rosenthal's courses in newspaper history and the technique of newspaper writing, until his senior year. They aren't just English courses to him: they constitute the City College School of Journalism.

When college days are over, the future re porter usually turns to Irv Rosenthal for the 'open sesame" to the newspaper world. Unfortunately, Irv can hand out more advice than jobs, and will probably tell you to search your family tree for a managing editor of 'The New York Times' or 'Tribune' who might exert a little influence in your behalf. If such relations are missing, Rosen thal will recommend enrollment in a jour nalism school with a very, very good place ment bureau.

Actually Irv has launched many students on successful careers. He was responsible for the appointment recently of Calmen Seigel '38 as full time correspondent of the "Times." From among his former Disciples Ben Goldberg '26 has become an instructor in the University of Missouri School of Jour nalism; Bernard Rothenberg '38 is a Pulitz er scholarship winner, Irv Gellis '39 is an assist to the economics editor of the Journal-American: Al Gross '38 is now Picture Editor of the 'Herald Tribune'; and Bob Selltitz '36 works full time for the United Press-to mention only a few.

Lectures by outstanding figures in the newspaper world constitute one of the most interesting features of Irv's class in the history of journalism, English 53. "Our stu dents make the acquaintance of important people and vice versa," says the stocky, dark-haired public relations man, 'and these contacts may prove beneficial when the students graduate. For example, Edward L. Bernays, public relations counsel, was once so favorably impressed by the students during a lecture that he sent a telegram to John T. Flynn, of the Board of Higher Education, praising his audience.

Other lecturers have included Ralph Thompson, book reviewer of the 'Times, John E. Allen, Managing Editor of the 'Lin otype News.' Lewis Gannett of the 'Tribune and Jimmy Powers, Sports Editor of the 'Daily News.

Irv Rosenthal's life has been mostly one of, for, and filled with, newspaper work. A Opinions expressed in these columns are determined by the Editorial Board. In cases of dispute, majority vote determines our stand.

Valentine, who received the alarm in a radio car, at first thought it was for a riot of City College students.

For the benefit of the Commissioner, The Campus will sponsor a riot, to be held on Monday at 3 p.m. outside the Main Build ing. All students are invited to participate

The College's Publicity Man

Manhattan native, he moved to Brooklyn early in life. He made his way through Eastern District High School on a diet of the following extra-curricular activities High School correspondent for the 'Brooklyn Eagle,' World-Telegram' and other newspa pers at a salary of twelve dollars a week; gossip columnist for the 'Williamsburg News'; head of the school press club; Business Manager of 'The Daisy,' the school publication; Manager of the debating team; and Fresident of the Student Council. He

was graduated as an honor student.
At the College, Irv limited his extra-curricular work to reporting for the 'Brooklyn Times' and the 'Daily Eagle,' and to writing for 'The Campus,' Mercury' and 'Microcosm.' Appointed a fellow in his senior year, he edited the Faculty Bulletin, and undertook to do publicity for the College. At present he has several assistants-some of them 'Campus' men-who write and send out press releases concerning College events to all metropolitan papers. In addition to directing publicity work, he teaches in both the Day and Evening Sessions, edits the College Catalogues and the Weekly Cal-endar of Events, is studying "The History and Functions of University Presses in America" for a doctorate at Columbia and is secretary of the Round Table Conference on Student Publications.

Small wonder, then, that the senior class last term elected him the "most industri-ous" faculty member.

Irv has his office in a cubbyhole in Dean Turner's office, and keeps his busy publicity staff up on the seventh floor of the Main Tower.

I write this, probably my last column, in a bitterness of heart which I hope I shall never experience again. For the last week, most of us on the staff of this dying paper have had little sleep. Waking or sleeping, almost every moment of our lives has been filled with the same thought: The Campus is through! And the thought is terrifying. Most o fus lived for this paper -classes were but an unpleasant interlude in the mad whirl of putting out eight pages of news and features a week. And now the end has come

Campus men are newspapermen; and newspapermen are not sentimentalists. Most of the forty-odd men who are The Campus will deride me for expressing these sentiments here. No matter what they feel—and most of them have felt this last week's

experience vividly—they do not think it wise to tell the world. For feelings are not news stories.

We have sat in the Campus office for these three days, writing this falling paper, turning out what may be the last issue of The Campus. "33 Years of Journalism" is going to be terminated Monday night. And there is nothing we can do now to save it. All that had to be done has been done. It hasn't been enough.

Most of us have no illusions about the fate of this paper. We know that the Association will never permit The Campus to continue under current conditions. And, I think, in our heart of hearts most of us on the staff know the Association is right if it suspends the paper. These hundred ex-Campus editors and business managers in the Association have to pay the bills-the

really astronomical,, four figure bills which The Campus runs up for printing every term. The Association members saw their capital melting away, their bank reserve dwindling, and rather than lose everything in a year or two, they have gambled their all on one desperate move, one last subscription drive. And, as far as we can see, as we put out this last issue, the Association has lost, and The Campus will

'Campus' Adieu! -- Maybe

We'll Be Seeing You Again

There is not much more to be said. What little is left will be discussed — and thoroughly — by the Association Monday night. What this staff will do if there is no paper is hard to say. We'll turn to something, I suppose, to fill the gap. Eventually-maybe —there will be another paper for them to put out. Until then, The Campus and myself bid our friends adieu. Maybe we'll be seeing you again.

The Truth About Brenda Frazier Gargoyles:

By SOL GOLDZWEIG

Whenever people ask me about Ginger Rogers I tell them that the relation is strictly platonic. There are some, I know, who will doubt this. To these fingerwaggers I say, "If it were not strictly platonic, what would I be doing here when Ginger is in Hollywood?'

The answer is that I am waiting for her to come back. Ginger and I first met at a Hunter-SC dance. "What was she doing there" you will ask. You may well ask. But for me it was enough that she was there. The moment our eyes met we knew it was platonic friendship at first tial calculus and the gravitational attraction of the moon. Miss Rogers told me she disapproved of Einstein's theory. I could see she had a beautiful mind. But

What I am trying to say is that I want Ginger to come back, and I know that platonic friendship or no platonic friendship she will never return until we City men have learned how to behave at a Hunter dance, and perhaps equally important, how to dance.

Myself, I'm a purist, I won't step onto a dance floor until I can show everyone how. Meanwhile I stay home and practice. You should see me waltzing around, bumping into the furniture. And don't think I haven't improved. I can even ask a girl her name while dancing without falling flat on my face (but not alas, without getting out of step).

But when I go to a dance I'm the belle of the stag line. I'm not

TO THE EDITOR:

For six months, investigations have been going on to determine an adequate site for the Junior Prom. At the Council's meeting on October 3, the Council voted on and approved to hold the Junior Prom at the Paradise Restaurant on December 8. I had fought for that particular situation, because it would be not only novel. but absolutely satisfactorily (as guaranteed) and totally, financially safe for the Class. Other Proms have lost money. We can-not afford to do that. Therefore, since we are not obliged to offer any guarantee whatsoever at the Paradise, the Class would not possibly incur any debt. It was in this belief, to have acted for the common good of the members of the Class of 1941, that I and a lot of my friends-who knew what they were talking about - advocated the Junior Prom! If you want a Prom, please appear with others at the next meeting, Tuesday, October 17. 4 p.m., in Room 124.

one of those tongue-tied Romeos. And I don't spend the whole dance trying to find out just where the girl lives. After all, fellows, that kind of stuff gets a girl sore, especially if she happens to live in Brooklyn.

Take Brenda Frazier, for instance. When she came over and asked me to dance with her I was polite. I explained to her about the bumps on the floor.
"They are bumps," she said.

And that wasn't all that was wrong. There was too much restraint. Either you let yourself go or you don't let yourself go. She asked me why I didn't come to her party. Well, after all, I

There were bumps on her floor too, only they were laid out differently. It was all I could do to keep on my feet. Every time I started counting "One . . Two . . Three and bump and lose the rhythm entirely. And I was having a hard time of it until Brenda suggested that I try singing a song that I knew I could dance too. The only song I can dance to is Sweet Le-

lanie I told her.

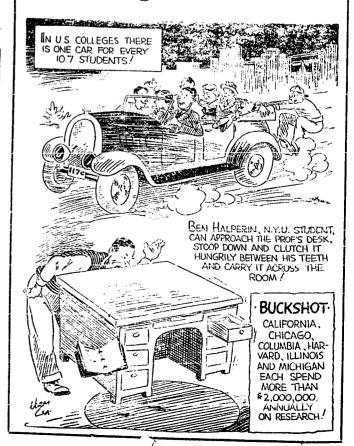

"Well, sing it," she said.
"But the orchestra . . ." I said.
"Don't be silly," she said. "they only work here. I want you to enjoy yourself."

So I sang, but it was work to keep singing louder than the orchestra and after a while I got kind of hoarse. Brenda didn't know what to do with herself She got me a warm blanket and a bathrobe and finally she packed me off home with a warning to take some hot tea and lemon and she'd be over in the morning. And that was why the poor girl had nothing to do all night but sit around and hold hands Peter Arno. That's the truth about Brenda Frazier and I still say Brenda is allright even if she didn't come over in the morning.

I called up my girl friend Flo either. She told me she was locked in with Pope, Dryden, Smollett and three English novelists whose names I forget at the moment. I told her I didn't know about the others, but Smollett was one boy to watch out for and she said it was O.K., she could take care of herself.

Since then I've been a purist. As for Ginger Rogers, I don't know how I offended her. It couldn't have been anything I said about differential calculus. After all, what can you say about differential calculus that would offend someone? Then again, I'm no Fred Astaire, but what can a

As added incentives, the Intramural Board awards numerals, medals, and minor letters to successful intramuralites.

In order to make the scope of its program as all-inclusive as possible, the Board dishes up new sports for competition each term. The program today includes eighteen sports and more than twenty-five different tournaments. Within just the past year, archery, deck and paddle tennis and shuffleboard have been added, and if you fellows show enough interest, a clock-golf tourney will be run off this term. Next Thursday, for example, October 26 at noon is the date set for a recent innovation, a basketball field day witn three events on the card-foul shooting, long shots and thirty-second shooting. Need we mention the fact that entries are now on hand in the Intramural Office?

Intramurals Road Race Set For Thursday

By HAROLD KOCIN

"Doc Krulewitz looked scared. He had been sitting in his palatia loffice underneath the Stadium when a Campus reporter barged in and asked for a copy for today's issue of The Campus. "It may be the last issue that The Campus will ever publish,"

he was warned.
"Doc" dived into his file cabinet and came up waving a sheaf of notes. "I've got 2,500 fellows depending on The Campus for news of Intramurals. College Students Earn \$116,000 On NYA Projects During Year

Placement Bureau, Scholarships Net \$100,000 More

College students earned a total of \$212,509 during the academic year ending last June, according to an announcement last week by Acting President Nelson P. Mead. Over half of this sum, or \$110,000, was earned by 1200 NYA students engaged in clerical or research work, while Tre main scholarships and positions obtained through the Placement Bureau accounted for the remainder

The Placement Bureau suc ceeded in finding 2,134 jobs which paid \$84,967 to the students involved. 252 honors men aided by grants totalling \$11.542.75 in Tremain Scholar ships administered by the Stud-

To obtain the NYA grants, which were made on the basis of good scholarship and actual need, undergraduates worked thirty hours a month for fifteen dollars and graduates worked thirty-three hours for \$24.75.
Of the NYA positions, Dr.
