Quintet Choice Over Jaspers In Tilt Tonight

Cagers Set to Extend
Four Game Streak
In Garden Twin Bill

By Arthur Susswein
Having succeeded at last in compiling a four-game winning streak, the basketball Beavers will attempt to extend it to round numbers at the expense of Manhattan's quintet on the Madison Square Garden court at 8:15 tonight. The College contingent will be strongly favored to hang up its fourth straight win in Metropolitan competition and third straight over the Green.

That elusive victory chain was brought about as a result of last week's 57-34 rout of Brooklyn and a 48-41 trimming of the Fordham five. Twice before this season the Holmen have won three in a row, only to be stopped—first by Wyoming and then by St. Joseph's.

Hopes Run High

Lavender fans are hopeful, however, that losses are a thing of the past as far as this year's team is concerned. They have plenty of basis for their hopes in the steadily improving performances turned in by the team during the second half of the season.

The return to action of senior six-footers Dave Laub and Harvey Lozman has given Professor Nat Holman a backboard-con-

'Merc', Sexy as Usual, Appears Tomorrow

Coming once again to delight the hearts of entering freshmen and all others initiated in the ways of womanhood *Mercury*, sometimes chastened, but never chaste, makes its maiden appearance of the term tomorrow.

Featuring the issue is a track story "A Knight in Nasseau" by Bob Schultz '44. Also prominent is "An Expose of the Senior Prom" by Julie Aarons '42. Regular features such as *Merchurochromes* and other articles round out the issue.

Council Fights NYA Slash

SC Schedules Rally,
Circulates Petitions

As the first step in its crusade to have this year's Congressional cut in the NYA appropriation restored, the SC NYA Committee will circulate petitions among the student body this week. These petitions will be forwarded to the President and will request him to use part of the \$100,000,000 allotted him for student aid for the purpose of offsetting that cut.

Next Thursday, March 5, at 12, the committee will stage a rally in the Great Hall. Mr. Lewis Jackson, director of the College's NYA unit will present prominent speakers who will speak on the dangers of insufficient student aid.

On Friday, there will be a Public Speaking local contest of the National Extempore Discussion Conference on Inter-American Affairs in 221 Main at 2.

The New York College Teachers Union plans to hold its fifth annual forum on Saturday at the Hotel Diplomat, 108 West 48 Street. The general topic will be

Frosh Eligible To Participate In Varsity Ball

Teams to be Provided
With Sufficient Power
To Counteract Draft

For the first time in College athletic history, freshmen will participate in all varsity sports, according to a ruling last week by the Faculty Athletic Committee. The new rule is already in effect, Acting Manager of Athletics Anthony Orlando reported, although it will not influence this season's basketball setup.

"Our primary intent," commented Dr. Orlando, "is to provide our teams with sufficient manpower to enable us to carry on our intercollegiate athletic program without the necessity of curtailing varsity athletics. However, we shall probably find it necessary to shorten our junior varsity schedules."

The action of the committee was necessitated by the action of opponents in legalizing use of freshmen, by the loss of varsity team members to the army and defense industries, and by the possibility that the college curriculum may be shortened to three years.

In regard to transfer students, the committee ruled unanimously that one year's study at the College be required for eligibility to compete on varsity teams.

The depletion of varsity teams this year because of the war is being to teach Proporsky, Managing Editor. All contributions must be sent to *Pulse*, box 50, Faculty Mailroom.

Norman Birnbaum '46 will represent the College branch of the Student League of America in a round-table discussion entitled "Subversive Influences in America" on WEVD at 9:30 tonight.

College to Obtain Orphan Asylum Site For Post-War Expansion Program; CDC Reorganized to Include Students

Defense Council Begins Book, Paper Salvage Drives

The College Civilian Defense Council will distribute 23,000 consumer pledges to the students of the College next Monday.

Urged by the War Production Board to conduct a campaign for the salvage of waste paper, magazines, collapsible tubes and rubber, the CDC will ask the students to pledge to buy carefully and waste nothing.

In addition to the salvage campaign, the CDC is sponsoring a Victory Book Campaign for the armed forces. The City College quota is 5,000 books. It is hoped that the Main Day Session will collect 1,000 books. A Victory Book Barrel to receive contributions has been placed in Lincoln Corridor near 100 Main.

Students who have articles which can be salvaged for national defense are urged by the CDC to bring them to the Salvage Table which is also located near 100 Main.

One month's supply of ammunition cases requires approximately 10,000 pounds of paper, according to statisticians. The

First tickets, at 75 cents per couple, will go on sale tomorrow at the IFC meeting in 13 Main at 12:30.

Defense Stamps On Sale Outside 100 Main

Tech Offers War Courses

Training Not Limited
To College Students

A new series of defense training courses in Engineering and Management will be offered at the College, according to Prof. William Allen, chairman of the C.E. Dept., and Institutional Representative of the Engineering, Science, and Management Defense Training Program. Sponsored by the United States Office of Education, the courses will comprise an intensive eight to sixteen week training program in out, will remove the possibility of books being lost. The location will be more suitable than a corner in Lincoln Corridor, and more experienced countermen will operate the exchange.

The committee, according to Duhl, is making a strong effort to have text-books standardized so that students will have a chance to sell their books at better prices.

Nine Students To Attend First Meeting Tomorrow

The City College Civilian Defense Council, reorganized this week to include more adequate student representation, will hold its first meeting under its new set-up tomorrow at 2 in the Faculty Meeting Room.

Previously, only Richard Goldberg, ex-President of the Student Council of the School of Commerce, and Elliot Bredhoff, Main Center SC President last term, were student representatives on the Committee which is headed by Professor Richard B. Morris (History Dept.).

Nine Students on Committee

The reorganization, advocated by the SC with the approval of President Harry N. Wright, places nine students on the Committee.

They are: Elliot Bredhoff, Leonard Cohen, Alexander Greene, Samuel Halpern, Morris

The Council at its session last Friday also approved a letter of condolence to Mr. and Mrs. Herman Franklin, parents of Monroe David Franklin '39, the first College casualty of this war. The Council dedicated itself in the letter to the elimination of the "possibility that more men of the same caliber as your son lose their lives."

Friday is Last Day For St. Francis Tickets

Profiting from the experience gained last year when a near-riot accompanied the last-minute selling of tickets for the St. Francis game, the Athletic Association announces that for Saturday's home game against the highly-rated Brooklyn club, the box office will be closed this Friday at 5 o'clock. No tickets will be sold after this deadline or at the game.

Summer Term Extended

War Forces Change to
12 Weeks, 12 Credits

Summer Session will be run for 12 weeks, from June 8 to August 28, Director Frederick C. Shipley (English Dept.) announced yesterday.

In view of the extended session, Department Shop, are scheduled to undergo a dismantling operation in the near future. According to Dr. Joseph Barmack (Psychology Dept.), the machines were acquired from the Police Department after the recent confiscation of such devices.

On different occasions, two slightly conflicting explanations have been offered; 1: that the parts would be used to construct apparatus for experiments in

Bd. of Education, BHE, to Share Property Equally

The College's hopes for expansion of its facilities were greatly increased with the disclosure yesterday by President Harry N. Wright that the purchase of the Hebrew Orphan Asylum property, pending for several months, will go through in the near future.

The deal has already been approved by the Mayor and other city officials and must await final approval by the Board of Estimate.

City to Purchase Land

The city will purchase the land, it was learned, for joint use of the Board of Higher Education and the Board of Education. Both Boards will make a formal request for the purchase of the grounds at their next regular meetings. It is understood that the land will be divided equally between them.

Various departments to fill the shortage in electrical equipment caused by the war.

There is no doubt, of course, that the machines will be used in some such scientific manner. If however, you happen to see your engineering professor using one of these devices for the purpose for which it was originally constructed, it is requested that you do not push the machine, as they are very easily tilted.

Sports Slants

By DICK COHEN

City's five goes out onto the Garden court tonight in a better frame of mind and in better spirits than at any time since the overtime period of the St. John's game.

That's the news from the Hygiene Building this week where the boys have been working out for what may be their most important intra-city game this half of the season. The Rams will be tough. They're a fast and rangy gang, rough under the backboards and in the jumps. And they'd like nothing better than to wipe the floor with the Beavers and get into the scramble for city honors.

But from this observer's eyrie among the gargoyles it looks like a Lavender night—maybe by as much as ten points. Two straight out-of-town wins over a pair of teams well-rated in their own sectors have given the boys what amounts to a shot in the arm, and they're ready to start rolling once again and make the experts wonder whether the St. John's victory really was a fluke.

In Philadelphia two weeks ago Bill Holzman showed once more how he'll take over when there's scoring to be done by pouring sixteen points through the hoop. Claude Phillips proved he still had it by pulling a couple of his terrific feints and knocking in fourteen markers. And Harvey Lozman started a nifty come-back by actually fighting for the ball and doing aggressive work off the boards.

Against highly touted Niagara Saturday night a couple of more recent developments arose. Lozman twisted and injured his knee but Mike Shinkarik performed creditably as his replacement. Meanwhile Dave Laub continued his steady improvement and Sonny Hertzberg shot back into the scoring columns with a high of fifteen points, his first big night in a month.

Bill and Sonny have been the chief topics of conversation among the College court cognoscenti for weeks. Right after the miserable St. Joe's defeat last term when Leo Levine and Chile Edelstein quit overnight, rumors were flying thick and fast that Holzman and Hertzberg were of their way out too and that the St. Nicks were through for the season.

The stories had it that the team was dissatisfied with the whole basketball set-up at the College. It was said the hoopsters were fed up with the petty scramble for a couple of comps every week, with the jobs they didn't get and with the holier-than-thou attitude in regard to even furtive subsidization as expressed by certain (anonymous) administrative spokesmen.

Coach Holman came in for his share too.

He heaped personal abuse upon his players; he showed favoritism to some of his stars; his interest in the progress of the team and its season record was a selfish and self-centered one; the players weren't trying hard enough because they couldn't get along with the coach.

I talked with Coach Holman about this Monday afternoon up in the main gym as the jayvee and some of his varsity players were tossing up their shots at the two glass-backed baskets.

"I'm a hard teacher," he said, "and I know I drive the boys hard. But that's the only way to teach big-time, Madison Square Garden basketball. Twenty-three years at the College have taught me that. Any man who won't give me everything he's got can quit today—I don't want him. That's my attitude."

"I'm hard all right but the boys love it—otherwise they wouldn't come up here to run their legs off every afternoon the way they do during the season. Last Saturday at Buffalo the team played a driving, winning ball game. They showed me they're ready to play the kind of basketball that produces results. The boys were in fine spirits. We had a swell trip up there. I think we're ready to move from here in."

Whatever the reason for the emotional and physical collapse that took place around the middle of last month—whether it was the war or the new draft or the coach or the revamping of the spring semester or just too much basketball—it seems to have taken its toll and disappeared. The boys are in stride again, their resentment forgotten, and they feel pretty good over the workman-like job they turned in against the big Niagara quintet, giving them nine wins out of eleven for the season.

They're a better ball club than Fordham and tonight they'll prove it.

Boxers Bow to Coast Guard; Matmen Eke Out 16-14 Win

If the boxing team didn't put on a good fistic showing in its 6-2 loss to the U. S. Coast Guard Academy last Saturday night, it certainly added a touch of humor to the proceedings. The laugh was provided by Coach Justin Sirutis' effecting a reversal of the Samson and Delilah legend by which he succeeded in securing a draw for Bill Sherman in the 175-pound bout. Whereas Delilah's shearing of Samson's locks weakened him, Coach Sirutis' tonsorial operation on Sherman before the start of the third round in the light-heavyweight bout enabled the latter to earn a draw.

Lenny Traube, Lavender welterweight, shot an uppercut that caused his opponent's nose to bleed. The Coast Guardsman was awarded the decision. Stan Romero suffered his first loss in two seasons in the middleweight contest. The bout was cut short in the second round when Romero opened a cut under his opponent's left eye and the Coast Guardsman, leading on points, received the decision. The third Beaver to hit hard enough and yet lose was heavyweight Stan Mintz, who put up a good fight against a taller opponent.

The Lavender's only win was scored by 120-pound Captain Norman Rosman in the bantamweight contest.

A crucial triumph by heavy-weight Artie Goeschel gave the City College wrestlers a 16-14 victory over East Stroudsburg Teachers College last Saturday night. By pinning Paul Heffer-son in 5:45 with a half-nelson crush hold, Goeschel earned the five points which won the meet, first for the Beavers this term.

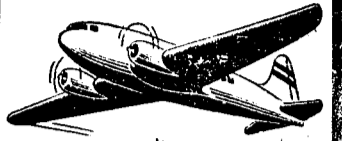

The matmen bolted into the lead when Jake Twersky threw Lewis Wheeling in 1:38, but three of the five points scored by Twersky were whittled away when John Mujica, one of four rookies, was defeated by his Stroudsburg opponent. Harold Cohen then won his 136-lb. event, but Ed Holden and Abe Badian were defeated before Murray Federman stemmed the tide by taking the 165-lb. event. East Stroudsburg went ahead when Beaver wrestler Joe Beck was thrown in 8:08. Then Goeschel won his bout.

Mujica and Holden made their wrestling debut in this meet and Cohen and Badian were in action for only the second. Thus, it will be with more experience under their belts that the Beaver matmen will clash with the Montclair State Teachers a week from this Saturday in the Montclair gym. Their next home encounter will be with Temple on March 7.

St. John's Hands Fencers First Defeat of Season

Though defeated by St. John's 16-11 at the Brooklyn College gym last Saturday night, the College foilsmen expect to lunge right back against Fordham on February 20, to whom they never lost.

Despite the apparent difference in the final result, the teams were more evenly matched than the score shows, as four matches were lost by one point.

important in the planning of... offensive as well, while Lozman indicated that he still has an eye for the basket by throwing in 8 points against the Rams and 10 against the Kingsmen. Red-headed Claude Phillips also had a great night on the Brooklyn court last Saturday, scoring 23 of the Beavers' points.

Although Holman appears to have only two outstanding reserves in Captain Sam Deitchman and Joe Lauren, his starting unit doesn't seem to need much in the way of relief. If tonight's game follows past performances, the Beaver coach should get a good opportunity to experiment again with his reserve material.

Terriers Title Threat
Saturday's home game with St. Francis looms as a much greater threat to the Beavers' defense of their metropolitan title than does tonight's tilt. The Terriers—only once defeated in three outings with local teams and undefeated in 11 games with out-of-town aggregations—have their best team in several seasons.

Realizing that they are still in the race for met honors, despite their 40-37 loss to NYU, the Terriers will be out for blood Saturday night and a goodly crowd is expected to be in on the letting, although St. Francis will be favored for the victim role.

City's recent victories, coupled with the Violets' losses to Temple and Notre Dame and Temple's beating of St. John's, have put the Beavers at the top of the local heap with LIU and these two teams are once again favored to represent New York in the Writers' Invitation Tournament next month. If the Holmen get by Manhattan and St. Francis, NYU will be the only team that can keep them out of the tourney. 'Nuff said.

College Foilsman Face NYU Saturday

When it administered a 23-4 shellacking to Fordham last Saturday, City's fencing team served notice on NYU's crack squad to prepare for trouble at their meeting Saturday. Although the Rams can hardly be classified as "opposition," Saturday's match did show that Coach Montague's boys must be reckoned with, especially in the foil and epee divisions.

Against the Violets, however, the Beavers will be handicapped by two factors—a lack of experience and Bill Talbert. Talbert, the Violet's great fencer, is just about the hottest thing hereabouts wearing a monkey suit and bird cage.

work a month. The committee's chief purpose, announced Martin Conrad '43, chairman, is to restore those totals to their original figures—750 and 30, respectively.

'Campus' Reporter, a la 'PM', Proves Drill Hall Can Be Sabotaged

By Arnie (PM) Rosen
I could have sabotaged the new CCONY drill hall and all I needed was a few explosives and a friendly feeling for Berlin, Tokio, or NYU.

With absolute freedom I could have opened a window on 141 St. from where it is only a drop of ¼ of a mile to the floor. Instead I walked through the main entrance with a swastika on each sleeve and a press pass from the Volkischer Beobachter. Inside, units of the ROTC were going through what looked like a football scrimmage but turned out to be a freshman parade. Banana peels or used chewing gum in enemy hands could have made things chaotic, if the limit had not already been reached.

I carried a large box under my arm but was not challenged although I walked all over the drill hall. One corner of the building

was filled with highly inflammable cadet officers. "Banzai," I said loudly, shaking the box I carried. The box, had it contained a high explosive, could easily have upset the armory, to say nothing of your reporter.

There was a little man on one of the stairways. I asked him the way to the Major's office. "Me busy," he said, "please not to bother." I squinted back at him and walked on still unaccosted. In five minutes I could have undone the expenditure of thousands of dollars, months of labor, and LaGuardia's dedication speech. I lit matches in all four corners of the drill hall. Only once was I told that using matches was prohibited and even then I was offered a cigarette lighter.

After going unchallenged all this time I decided to see the

Major in command. His office overlooking the drill floor was closely guarded by two No Admittance signs. The Major looked as though he had taken to munching hand grenades in his youth. "Heil Hitler," I said. "Eh?" replied the Major. "Heil Hitler," I shouted. "No," he said, "there's no one here by that name."

I played at lighting matches, placing time bombs, and photographing equipment for fully thirty minutes. The drill hall at any minute could have reverted to its former status as a hole in the ground. 39 seconds before this story was published The Campus notified General Wavell, the Junior G men, and Melvyn Douglas of the situation so that adequate precautions might be taken to protect the drill hall.

SC Boatride Set for May 24

The date for the annual Boatride has been definitely set for Sunday, May 24, according to Max Rosenbaum '43, Chairman of the newly elected SC Boatride Committee. This will be after the term will have ended, as the last final exams will take place May 22. The S.S. State of Delaware, which is the largest boat on the River, will take some 2,500 people to Bear Mountain and back.

Tickets are 95 cents per person, tax included, and will be on sale very shortly. There will be dancing on a "gorgeous dance floor", entertainment and refreshments.

Frat Dance Tickets On Sale Tomorrow

Promising the College its outstanding social event of the semester, the Inter-Fraternity Council has scheduled a Victory Dance in the Main Gym on Saturday, March 14—three days after the NYU game.

Carrying out the sports theme of the affair, the Greeks are donating a share of the profits to the Stein Memorial Fund and have invited basketball coach Nat Holman and his entire squad to be guests of honor.

First tickets, at 75 cents per couple, will go on sale tomorrow at the IFC meeting in 13 Main at 12:30.

Defense Stamps On Sale Outside 100 Main

vary with the intensity of the course, but range from a high-school education to a college degree in engineering. Regularly enrolled College students will not be considered unless they intend, upon completion of the course, to enter defense employment or the armed forces and do not intend to re-enroll in college within the next academic year.

Specifically the courses include: Chemistry of Powder and Explosives; Elements of Applied Heating, Ventilating, and Air Conditioning; Industrial Safety Engineering; Inspection and Expediting; Personnel Management; Preparation of Specifications; Production and Stock Control; and the Development and Use of Standards.

Applicants for the Engineering Courses should write to Prof. Allan, in care of the College. For admission to the Management courses, the candidate should present himself today from 6:45 to 9:00 p.m. at the downtown center of the College to make application and be interviewed.

Defense Stamps in Tech
Defense savings stamps will be sold in the Tech Building, according to Dave Siegal, chairman of the Engineering Stamp Committee, a sub-committee of the Engineering Defense Commission.

Sales will begin this Thursday at 12, near the Amsterdam Avenue exit from the building. "Although we are about \$70,000 behind the sales of the Student Council Stamp Committee, we feel we can make a comparative showing in a short time," said Mr. Siegal.

Dean Newman to Address Tech Men

Professor Albert B. Newman, Dean of the School of Technology, will address the Tech men on "Engineering Students and the War," this Thursday in the auditorium of Townsend Harris Hall. Among the speakers will be Mr. William J. Armento, selective service advisor to the Tech school, who will talk on selective service.

Book Exchange To Be Permanent

With a record of having sold 800 out of 1300 books submitted, the Student Council-Alpha Phi Omega Book Exchange is set to become a regular institution at the College.

The volume of business was so great, according to Arthur J. Duhl '42, A.Phi.Om. chairman, that the Exchange Committee was entirely unprepared for it. For that reason, books were lost and the money spent to pay for them out the profits down to only \$25. This money will be used to set up a permanent book exchange.

Plans for next term, if carried out, will remove the possibility of books being lost. The location will be more suitable than a corner in Lincoln Corridor, and more experienced countermen will operate the exchange.

The committee, according to Duhl, is making a strong effort to have text-books standardized so that students will have a chance to sell their books at better prices.

Student representation has also been provided for on the various working committees of the ODC. These sub-committees include the Committee on Personnel Qualifications and Public Relations; on Defense Bonds, Stamps, and War Relief; on Civilian Protection; on Courses of Training; on Research and Public Information; and the Women's Committee.

Crane to Give Radio Talk

Continuing its series of radio talks on topics of vital interest to the people of this city, the CDC will present Professor William G. Crane (English), Liaison Officer of the U. S. Navy and Marine Corps at the College, over station WNYC at 4:45 tomorrow. Professor Crane will speak on "The Tools of Victory—Armies."

A new radio lecture series under the direction of Professor Oscar Janowsky (Hist.) is being planned. Included on the list of speakers will be Professor Harry J. Carman of the Board of Higher Education, Orway Tead, Chairman of the Board, and Dr. George Shuster, President of Hunter College.

Dramsoc Show Casting Begins

Casting for *Out of the Frying Pan*, recent Broadway hit and Dramsoc's choice for its spring Varsity Show, began yesterday in 306 Main and will continue tomorrow from 5 to 7 and Friday from 2 to 5. The play will be directed by Mr. Frank Davidson (Public Speaking Dept.).

The Dramatic Society is also sponsoring a jingle contest, the two winners of which will be awarded a pair of complimentary tickets to the show. All jingles should be addressed to Dramsoc in the Faculty Mail Room before March 10.

If you can write something like this, send in your jingle.

"It's on the way,
So don't delay,
Just let your best girl know—
That you and she
Will have to see
The Varsity Show."

Council Re-elects Tuttle as Advisor

The Student Council at its meeting last week unanimously reelected Dr. Tuttle as its faculty advisor. Dr. Tuttle told the Council that the work of its committees was important and receiving wide praise from the faculty. Stressing their educational value, he expressed the hope that SC social functions would be carried on as usual.

The Council at its session last Friday also approved a letter of condolence to Mr. and Mrs. Herman Franklin, parents of Monroe David Franklin '39, the first College casualty of this war. The Council dedicated itself in the letter to the elimination of the "possibility that more men of the same caliber as your son lose their lives."

Seniors who, at the end of this term, will need 12 credits or less to graduate will have in this way, an opportunity to earn them before being drafted. More elective courses will be offered this summer than in any previous year. Those who need more than 12 credits may get permission to take up to 18 credits by applying to the Committee on Course and Standings.

Lower classmen, too, will be offered an opportunity to obtain their degrees much faster than they had expected. Under the proposed setup, three years instead of the usual four, will be the time needed in which to complete the 128 credits necessary for graduation.

Attendance Not Compulsory
Those who work during the summer, as many do, need not worry about having to give up that source of income, for it will not be compulsory to attend. Day Session students who expect to work in the city may, if they like, register in the evening Summer Session and take as many as eight credits.

The whole summer program has been geared to allow this year's seniors to graduate before being drafted, and to enable present and future lower classmen to become seniors by the time they have to register. This plan has a better chance to succeed in City College than in most other colleges since the average age of the freshman class is considerably lower than that of other institutions.

To Post List

In the next two or three weeks a list of all the courses available to summer registrants will be posted. If a sufficiently large number of students request the addition of other courses, every effort will be made to carry out their request.

These plans include the Schools of Liberal Arts and Sciences, Commerce, and Education. Plans for the School of Technology are still pending, but quite a few Tech men will no doubt be among the 5,500 or more students expected to attend school this summer.

FACULTY CHANGES

The war emergency has claimed Mr. French Fogel, (English Dept.) who has resigned to enlist in the Marine Corps. He has already been replaced by Mr. John Yohannan, former evening session tutor, according to Prof. Alfred Compton, Chairman of the Department. He is the fifth member of the faculty to enter the armed forces since last semester.

20 Pinball Machines to be Used For Science, (It Says Here)

Twenty pinball machines, now idly reposing in the Psychology Department Shop, are scheduled to undergo a dismantling operation in the near future. According to Dr. Joseph Barmack (Psychology Dept.), the machines were acquired from the Police Department after the recent confiscation of such devices.

On different occasions, two slightly conflicting explanations have been offered; 1: that the parts would be used to construct apparatus for experiments in

Street and from Amsterdam Avenue to Hamilton Place. At present the Orphan Asylum building and an elementary school are situated there but these will probably be razed because of their age. It is expected that the Board of Education will erect a new elementary school with its half of the property.

While any construction for the College must await the end of the war, plans for future buildings are now being formulated. They call for a new School of Technology with greater facilities than is possible at present. The present Tech buildings will house other divisions of the College. While the Tech school is badly crowded and needs greater space at present, College officials are cognizant of the fact that the engineering boom has been caused by the war and that there will be a drop in tech registration when the war ends. Dr. Wright indicated yesterday that other College activities will have to be seriously considered in the future plans.

Tech School Crowded

Negotiations for the property date back to the time that the Asylum was vacated last Fall. The College immediately became interested inasmuch as it represented about the only possible outlet for a sorely needed expansion. The price asked by Asylum officials then was about \$1,750,000 but it is believed that the price was reduced considerably.

Enrollment Grows in Tech

The number of students leaving school is "heavier than ever," according to Mr. Robert Taylor, Registrar. He believes that this is because of the opportunities in defense industries "to a greater extent than the draft."

According to available figures, 604 students failed to return to the Day Session in Sept., 1941.

Mr. Taylor also disclosed that of the 5,534 students in the College, 2,521, or 57%, are enrolled in the School of Technology. There has been a gradual increase in Tech School enrollment since 1938. The total enrollment of the Tech School has almost doubled since the spring of the same year.

Despite the draft and openings in defense industries, there are 200 more students in the College this term as compared to last semester.

Sports Slants

By DICK COHEN

City's five goes out onto the Garden court tonight in a better frame of mind and in better spirits than at any time since the overtime period of the St. John's game.

That's the news from the Hygiene Building this week where the boys have been working out for what may be their most important intra-city game this half of the season. The Rams will be tough. They're a fast and rangy gang, rough under the backboards and in the jumps. And they'd like nothing better than to wipe the floor with the Beavers and get into the scramble for city honors.

But from this observer's eye among the gargoyles it looks like a Lavender night—maybe by as much as ten points. Two straight out-of-town wins over a pair of teams well-rated in their own sectors have given the boys what amounts to a shot in the arm, and they're ready to roll once again and make the experts wonder whether the St. John's victory really was a fluke.

In Philadelphia two weeks ago Bill Holzman showed once more how he'll take over when there's scoring to be done by pouring sixteen points through the hoop. Claude Phillips proved he still had it by pulling a couple of his terrific feints and knocking in fourteen markers. And Harvey Lozman started a nifty come-back by actually fighting for the ball and doing aggressive work off the boards.

Against highly touted Niagara Saturday night a couple of more recent developments arose. Lozman twisted and injured his knee but Mike Shinkarik performed creditably as his replacement. Meanwhile Dave Laub continued his steady improvement and Sonny Hertzberg shot back into the scoring columns with a high of fifteen points, his first big night in a month.

Bill and Sonny have been the chief topics of conversation among the College court cognoscenti for weeks. Right after the miserable St. Joe's defeat last term when Leo Levine and Chlie Edelstein quit overnight, rumors were flying thick and fast that Holzman and Hertzberg were off their way out too and that the St. Nicks were through for the season.

The stories had it that the team was dissatisfied with the whole basketball set-up at the College. It was said the hoopsters were fed up with the petty scramble for a couple of comps every week, with the jobs they didn't get and with the holler-than-thou attitude in regard to even furtive subsidization as expressed by certain (anonymous) administrative spokesmen.

Coach Holzman came in for his share too. He heaped personal abuse upon his players; he showed favoritism to some of his stars; his interest in the progress of the team and its season record was a selfish and self-centered one; the players weren't trying hard enough because they couldn't get along with the coach.

I talked with Coach Holzman about this Monday afternoon up in the main gym as the jayvee and some of his varsity players were tossing up their shots at the two glass-backed baskets.

"I'm a hard teacher," he said, "and I know I drive the boys hard. But that's the only way to teach big-time, Madison Square Garden basketball. Twenty-three years at the College have taught me that. Any man who won't give me everything he's got can quit today—I don't want him. That's my attitude."

"I'm hard all right but the boys love it—otherwise they wouldn't come up here to run their legs off every afternoon the way they do during the season. Last Saturday at Buffalo the team played a driving, winning ball game. They showed me they're ready to play the kind of basketball that produces results. The boys were in fine spirits. We had a swell trip up there. I think we're ready to move from here in."

Whatever the reason for the emotional and physical collapse that took place around the middle of last month—whether it was the war or the new draft or the coach or the revamping of the spring semester or just too much basketball—it seems to have taken its toll and disappeared. The boys are in stride again, their resentment forgotten, and they feel pretty good over the workman-like job they turned in against the big Niagara quintet, giving them nine wins out of eleven for the season.

They're a better ball club than Fordham and tonight they'll prove it.

Boxers Bow to Matmen Eke Out

If the boxing team didn't put on a good fight showing in its 6-2 loss to the U. S. Coast Guard Academy last Saturday night, it certainly added a touch of humor to the proceedings. The Justin Strutis' effecting a reversal of the Samson and Dellalah legend by which he succeeded in securing a draw for Bill Sherman in the 175-pound bout. Whereas Dellalah's shearing of Samson's locks weakened him, Coach Strutis' tonsorial operation on Sherman before the start of the third round in the lightweight bout enabled the latter to earn a draw.

Lenny Traube, Lavender welterweight, shot an uppercut that caused his opponent's nose to bleed. The Coast Guardsman was awarded the decision. Stan Romero suffered his first loss in two seasons in the middleweight contest. The bout was cut short in the second round when Romero opened a cut under his opponent's left eye and the Coast Guardsman, leading on points, received the decision. The third Beaver to hit hard enough and yet lose was heavyweight Stan Miltz, who put up a good fight against a taller opponent.

The Lavender's only win was scored by 120-pound Captain Norman Rosman in the bantamweight contest.

Major in command. His office overlooking the drill floor was closely guarded by two No Admittance signs. The Major looked as though he had taken to munching hand grenades in his youth.

"Heil Hitler," I said. "Eh?" replied the Major. "Heil Hitler," I shouted. "No," he said, "there's no one here by that name."

I played at lighting matches, placing time bombs, and photographing equipment for fully thirty minutes. The drill hall at any minute could have reverted

to its original purpose as a storage room for the college's surplus of defense stamps.

'Campus' Reporter, a la 'PM', Proves Drill Hall Can Be Sabotaged

By Arnie (PM) Rosen

I could have sabotaged the new CCNY drill hall and all I needed was a few explosives and a friendly feeling for Berlin, Tokio, or NYU.

With absolute freedom I could have opened a window on 141 St. from where it is only a drop of 1/4 of a mile to the floor. Instead I walked through the main entrance with a swastika on each sleeve and a press pass from the Volkischer Beobachter. Inside, units of the ROTC were going through what looked like a football scrimmage but turned out

to be a drill. The Major in command. His office overlooking the drill floor was closely guarded by two No Admittance signs. The Major looked as though he had taken to munching hand grenades in his youth.

There was a little man on one of the stairways. I asked him the way to the Major's office. "Me busy," he said, "please not to bother." I squinted back at him and walked on still unaccosted. In five minutes I could have undone the expenditure of thousands of dollars, months of labor

with highly inflammable cadet officers. "Banzai," I said loudly, shaking the box I carried. The box, had it contained a high explosive, could easily have upset the armory, to say nothing of your reporter.

Specifically the courses include: Chemistry of Powder and Explosives; Elements of Applied Heating, Ventilating, and Air Conditioning; Industrial Safety Engineering; Inspection and Expediting; Personnel Management; Preparation of Specifications; Production and Stock Control; and the Development and Use of Standards.

Applicants for the Engineering Courses should write to Prof. Allan, in care of the College. For admission to the Management courses, the candidate should present himself today from 8:45 to 9:00 p.m. at the downtown center of the College to make application and be interviewed.

Lower classmen, too, will be offered an opportunity to obtain their degrees much faster than they had expected. Under the proposed setup, three years instead of the usual four, will be the time needed in which to complete the 128 credits necessary for graduation.

Attendance Not Compulsory Those who work during the summer, as many do, need not worry about having to give up that source of income, for it will not be compulsory to attend Day Session students who expect to work in the city may, if they like, register in the evening Summer Session and take as many as eight credits.

Although Holman appears to have only two outstanding reserves in Captain Sam Deitchman and Joe Lauren, his starting unit doesn't seem to need much in the way of relief. If tonight's game follows past performances, the Beaver coach should get a good opportunity to experiment again with his reserve material.

Terriers Title Threat Saturday's home game with St. Francis looms as a much greater threat to the Beavers' defense of their metropolitan title than does tonight's tilt. The Terriers—only once defeated in three outings with local teams and undefeated in 11 games with out-of-town aggregations—have their best team in several seasons.

Realizing that they are still in the race for mat honors, the Beavers are expected to put up a good fight. The U. S. Coast Guard Academy last Saturday night, it certainly added a touch of humor to the proceedings. The Justin Strutis' effecting a reversal of the Samson and Dellalah legend by which he succeeded in securing a draw for Bill Sherman in the 175-pound bout.

Whereas Dellalah's shearing of Samson's locks weakened him, Coach Strutis' tonsorial operation on Sherman before the start of the third round in the lightweight bout enabled the latter to earn a draw.

Lenny Traube, Lavender welterweight, shot an uppercut that caused his opponent's nose to bleed. The Coast Guardsman was awarded the decision. Stan Romero suffered his first loss in two seasons in the middleweight contest. The bout was cut short in the second round when Romero opened a cut under his opponent's left eye and the Coast Guardsman, leading on points, received the decision. The third Beaver to hit hard enough and yet lose was heavyweight Stan Miltz, who put up a good fight against a taller opponent.

The Lavender's only win was scored by 120-pound Captain Norman Rosman in the bantamweight contest.

Coach Holman came in for his share too. He heaped personal abuse upon his players; he showed favoritism to some of his stars; his interest in the progress of the team and its season record was a selfish and self-centered one; the players weren't trying hard enough because they couldn't get along with the coach.

I talked with Coach Holzman about this Monday afternoon up in the main gym as the jayvee and some of his varsity players were tossing up their shots at the two glass-backed baskets.

"I'm a hard teacher," he said, "and I know I drive the boys hard. But that's the only way to teach big-time, Madison Square Garden basketball. Twenty-three years at the College have taught me that. Any man who won't give me everything he's got can quit today—I don't want him. That's my attitude."

"I'm hard all right but the boys love it—otherwise they wouldn't come up here to run their legs off every afternoon the way they do during the season. FEATURING: MARRINSON'S COUNTRY MAN'S BAKED

War Forces Change to 12 Weeks, 12 Credits

Summer Session will be run for 12 weeks, from June 8 to August 28, Director Frederick C. Shipley (English Dept.) announced yesterday.

"In view of the extended session," said Mr. Shipley, "classes will be only 50 minutes long instead of the usual summer periods of 2 hours."

Seniors who, at the end of this term, will need 12 credits or less to graduate will have in this way, an opportunity to earn them before being drafted. More elective courses will be offered this summer than in any previous year. Those who need more than 12 credits may get permission to take up to 16 credits by applying to the Committee on Course and Standings.

Lower classmen, too, will be offered an opportunity to obtain their degrees much faster than they had expected. Under the proposed setup, three years instead of the usual four, will be the time needed in which to complete the 128 credits necessary for graduation.

Attendance Not Compulsory Those who work during the summer, as many do, need not worry about having to give up that source of income, for it will not be compulsory to attend Day Session students who expect to work in the city may, if they like, register in the evening Summer Session and take as many as eight credits.

Crane to Give Radio Talk

Continuing its series of radio talks on topics of vital interest to the people of this city, the CDC will present Professor William G. Crane (English), Liaison Officer of the U. S. Navy and Marine Corps at the College, over station WNYC at 4:45 tomorrow. Professor Crane will speak on "The Tools of Victory—Armies."

A new radio lecture series under the direction of Professor Oscar Janowsky (Hist.) is being planned. Included on the list of speakers will be Professor Harry J. Carman of the Board of Higher Education, Ordway Tead, and others.

Now Elementary School

The property is a block square, extending from 137 Street to 138 Street and from Amsterdam Avenue to Hamilton Place. At present the Orphan Asylum building and an elementary school are situated there but these will probably be razed because of their age. It is expected that the Board of Education will erect a new elementary school with its half of the property.

While any construction for the College must await the end of the war, plans for future buildings are now being formulated. They call for a new School of Technology with greater facilities than is possible at present. The present Tech buildings will house other divisions of the College. While the Tech school is badly crowded and needs greater space at present, College officials are cognizant of the fact that the engineering boom has been caused by the war and that there will be a drop in tech registration when the war ends. Dr. Wright indicated that other College buildings to be serious future plans.

Harvey Lozman, who was injured in the Niagara game, may not be available for the game against St. John's. Other outstanding players include: Bill Holzman, Fred Foster, and others.

The price of the paper is 10 cents. The price of the paper is 10 cents. The price of the paper is 10 cents.

Quintet Choice Over Jaspers In Tilt Tonight

Cagers Set to Extend
Four Game Streak
In Garden Twin Bill

By Arthur Susswein

Having succeeded at last in compiling a four-game winning streak, the basketball Beavers will attempt to extend it to round numbers at the expense of Manhattan's quintet on the Madison Square Garden court at 8:15 tonight. The College contingent will be strongly favored to hang up its fourth straight win in Metropolitan competition and third straight over the Green.

That elusive victory chain was brought about as a result of last week's 57-34 rout of Brooklyn and a 48-41 trimming of the Fordham five. Twice before this season the Holmen have won three in a row, only to be stopped first by Wyoming and then by St. Joseph's.

Hopes Run High

Lavender fans are hopeful, however, that losses are a thing of the past as far as this year's team is concerned. They have plenty of basis for their hopes in the steadily improving performances turned in by the team during the second half of the season.

The return to action of senior six-footers Dave Laub and Harvey Lozman has given Professor Nat Holman a backboard-conquering team for the first time in a good many years. Laub is an outstanding defensive player anywhere on the court and is an important cog in the passing offensive as well, while Lozman indicated that he still has an eye for the basket by throwing in 8 points against the Rams and 10 against the Kingsmen. Red-headed Claude Phillips also had a great night on the Brooklyn court last Saturday, scoring 23 of the Beavers' points.

Although Holman appears to have only two outstanding reserves in Captain Sam Deitchman and Joe Lauren, his starting unit doesn't seem to need much in the way of relief. If tonight's game follows past performances, the Beaver coach should get a good opportunity to experiment again with his reserve material.

Terriers Title Threat

Saturday's home game with St. Francis looms as a much greater threat to the Beavers' defense of their metropolitan title than does tonight's tilt. The Terriers—only once defeated in three outings with local teams and undefeated in 11 games with out-of-town aggregations—have their best team in several seasons. Realizing that they are still in

'Merc', Sexy as Usual, Appears Tomorrow

Coming once again to delight the hearts of entering freshmen and all others initiated in the ways of womanhood *Mercury*, sometimes chastened, but never chaste, makes its maiden appearance of the term tomorrow.

Featuring the issue is a track story "A Knight in Nas-seau" by Bob Schultz '44. Also prominent is "An Expose of the Senior Prom" by Julie Aarons '42. Regular features such as *Merchurochromes* and other articles round out the issue.

Council Fights NYA Slash

SC Schedules Rally,
Circulates Petitions

As the first step in its crusade to have this year's Congressional cut in the NYA appropriation restored, the SC NYA Committee will circulate petitions among the student body this week. These petitions will be forwarded to the President and will request him to use part of the \$100,000,000 allotted him for student aid for the purpose of offsetting that cut.

Next Thursday, March 5, at 12, the committee will stage a rally in the Great Hall. Mr. Lewis Jackson, director of the College's NYA unit will present prominent speakers who will speak on the dangers of insufficient student aid.

The NYA this term has been able to enroll only 538 students at a maximum of 24 hours of work a month. The committee's chief purpose, announced Martin Conrad '43, chairman, is to restore those totals to their original figures—750 and 30, respectively.

Frosh Eligible To Participate In Varsity Ball

Teams to be Provided
With Sufficient Power
To Counteract Draft

For the first time in College athletic history, freshmen will participate in all varsity sports, according to a ruling last week by the Faculty Athletic Committee. The new rule is already in effect, Acting Manager of Athletics Anthony Orlando reported, although it will not influence this season's basketball setup.

"Our primary intent," commented Dr. Orlando, "is to provide our teams with sufficient manpower to enable us to carry on our intercollegiate athletic program without the necessity of curtailing varsity athletics. However, we shall probably find it necessary to shorten our junior varsity schedules."

The action of the committee was necessitated by the action of opponents in legalizing use of freshmen, by the loss of varsity team members to the army and defense industries, and by the possibility that the college curriculum may be shortened to three years.

In regard to transfer students, the committee ruled unanimously that one year's study at the College be required for eligibility to compete on varsity teams.

The depletion of varsity teams this year because of the war is illustrated in the cases of hoop stars Julie Gerson and Harry Fishman, now employed in airplane production, and Marty Sheinkman who joined the Air Corps; Dave Budoff, varsity wrestler, a draftee; and Sy Balkin and Bob Blenderman of the baseball team who also joined the Air Corps.

College to Obtain Orphan Asylum Site For Post-War Expansion Program; CDC Reorganized to Include Students

Defense Council Begins Book, Paper Salvage Drives

The College Civilian Defense Council will distribute 23,000 consumer pledges to the students of the College next Monday.

Urged by the War Production Board to conduct a campaign for the salvage of waste paper, magazines, collapsible tubes and rubber, the CDC will ask the students to pledge to buy carefully and waste nothing.

In addition to the salvage campaign, the CDC is sponsoring a Victory Book Campaign for the armed forces. The City College quota is 5,000 books. It is hoped that the Main Day Session will collect 1,000 books. A Victory Book Barrel to receive contributions has been placed in Lincoln Corridor near 100 Main.

Students who have articles which can be salvaged for national defense are urged by the CDC to bring them to the Salvage Table which is also located near 100 Main.

One month's supply of ammunition cases requires approximately 10,000 pounds of paper, according to statisticians. The College's goal has been set at 500 pounds of paper per day.

In addition to the salvage and book drives which are of recent vintage, the CDC is well on its way in its Defense Bond and Stamp drive. Up till now, close to \$100,000 has been collected from students and faculty.

Tech Offers War Courses

Training Not Limited
To College Students

A new series of defense training courses in Engineering and Management will be offered at the College, according to Prof. William Allen, chairman of the C.E. Dept., and Institutional Representative of the Engineering, Science, and Management Defense Training Program. Sponsored by the United States Office of Education, the courses will comprise an intensive eight to sixteen week training program in various specialized fields essential to national defense.

The courses will be of college grade. Admission requirements vary with the intensity of the course, but range from a high-school education to a college degree in engineering. Regularly enrolled College students will not be considered unless they intend, upon completion of the course, to enter defense employment or the armed forces and do not intend to re-enroll in college within the next academic year.

Specifically the courses include: Chemistry of Powder and Explosives; Elements of Applied Heating, Ventilating, and Air Conditioning; Industrial Safety Engineering; Inspection and Expediting; Personnel Management; Preparation of Specifications; Production and Stock Control; and the Development and Use of Standards.

Applicants for the Engineering Courses should write to Prof. Allan, in care of the College. For admission to the Management courses, the candidate should present himself today from 8:45 to 9:00 p.m. at the downtown center of the College to make application and be interviewed.

Nine Students To Attend First Meeting Tomorrow

The City College Civilian Defense Council, reorganized this week to include more adequate student representation, will hold its first meeting under its new set-up tomorrow at 2 in the Faculty Meeting Room.

Previously, only Richard Goldberg, ex-President of the Student Council of the School of Commerce, and Elliot Bredhoff, Main Center SC President last term, were student representatives on the Committee which is headed by Professor Richard B. Morris (History Dept.).

Nine Students on Committee

The reorganization, advocated by the SC with the approval of President Harry N. Wright, places nine students on the Committee.

They are: Elliot Bredhoff, Leonard Cohen, Alexander Greene, Samuel Halpern, Morris Rudis, George Katz, David Helfeld, and also the SC presidents of the Commerce Day and Evening Sessions, and the Main Evening Session.

Student representation has also been provided for on the various working committees of the CDC. These sub-committees include the Committee on Personnel Qualifications and Public Relations; on Defense Bonds, Stamps, and War Relief; on Civilian Protection; on Courses of Training; on Research and Public Information; and the Women's Committee.

Crane to Give Radio Talk

Continuing its series of radio talks on topics of vital interest to the people of this city, the CDC will present Professor William G. Crane (English), Liaison Officer of the U. S. Navy and Marine Corps at the College, over station WNYC at 4:45 tomorrow. Professor Crane will speak on "The Tools of Victory—Armies."

A new radio lecture series under the direction of Professor Oscar Janowsky (Hist.) is being planned. Included on the list of speakers will be Professor Harry J. Carman of the Board of Higher Education, Ordway Tead,

Friday is Last Day For St. Francis Tickets

Profiting from the experience gained last year when a near-riot accompanied the last-minute selling of tickets for the St. Francis game, the Athletic Association announces that for Saturday's home game against the highly-rated Brooklyn club, the box office will be closed this Friday at 5 o'clock. No tickets will be sold after this deadline or at the game.

Summer Term Extended

War Forces Change to
12 Weeks, 12 Credits

Summer Session will be run for 12 weeks, from June 8 to August 28, Director Frederick C. Shipley (English Dept.) announced yesterday.

"In view of the extended session," said Mr. Shipley, "classes will be only 50 minutes long instead of the usual summer periods of 2 hours."

Seniors who, at the end of this term, will need 12 credits or less to graduate will have in this way, an opportunity to earn them before being drafted. More elective courses will be offered this summer than in any previous year. Those who need more than 12 credits may get permission to take up to 16 credits by applying to the Committee on Course and Standings.

Lower classmen, too, will be offered an opportunity to obtain their degrees much faster than they had expected. Under the proposed setup, three years instead of the usual four, will be the time needed in which to complete the 128 credits necessary for graduation.

Attendance Not Compulsory
Those who work during the summer, as many do, need not worry about having to give up that source of income, for it will not be compulsory to attend. Day Session students who expect to work in the city may, if they like, register in the evening Summer Session and take as many as eight credits.

Bd. of Education, BHE, to Share Property Equally

The College's hopes for expansion of its facilities were greatly increased with the disclosure yesterday by President Harry N. Wright that the purchase of the Hebrew Orphan Asylum property, pending for several months, will go through in the near future.

The deal has already been approved by the Mayor and other city officials and must await final approval by the Board of Estimate.

City to Purchase Land

The city will purchase the land, it was learned, for joint use of the Board of Higher Education and the Board of Education. Both Boards will make a formal request for the purchase of the grounds at their next regular meetings. It is understood that the land will be divided equally between them.

Now Elementary School

The property is a block square, extending from 137 Street to 138 Street and from Amsterdam Avenue to Hamilton Place. At present the Orphan Asylum building and an elementary school are situated there but these will probably be razed because of their age. It is expected that the Board of Education will erect a new elementary school with its half of the property.

While any construction for the College must await the end of the war, plans for future buildings are now being formulated. They call for a new School of Technology with greater facilities than is possible at present. The present Tech buildings will house other divisions of the College. While the Tech school is badly crowded and needs greater space at present, College officials are cognizant of the fact that the engineering boom has been caused by the war and that there will be a drop in tech registration when the war ends. Dr. Wright indicated that other College buildings to be serious future plans.

'Campus' Reporter, a la 'PM', Proves Drill Hall Can Be Sabotaged

By Arnie (PM) Rosen

I could have sabotaged the new CCNY drill hall and all I needed was a few explosives and a friendly feeling for Berlin, Tokio, or NYU.

With absolute freedom I could have opened a window on 141 St. from where it is only a drop of 1/4 of a mile to the floor. Instead I walked through the main entrance with a swastika on each sleeve and a press pass from the Volkischer Beobachter. Inside, units of the ROTC were going through what looked like a football scrimmage but turned out

was filled with highly inflammable cadet officers.

"Banzai," I said loudly, shaking the box I carried. The box, had it contained a high explosive, could easily have upset the armory, to say nothing of your reporter.

There was a little man on one of the stairways. I asked him the way to the Major's office.

"Me busy," he said, "please not to bother." I squinted back at him and walked on still unaccosted. In five minutes I could have undone the expenditure of thousands of dollars, months of la-

Major in command. His office overlooking the drill floor was closely guarded by two No Admittance signs. The Major looked as though he had taken to munching hand grenades in his youth.

"Heil Hitler," I said.
"Eh?" replied the Major.
"Heil Hitler," I shouted.
"No," he said, "there's no one here by that name."

I played at lighting matches, placing time bombs, and photographing equipment for fully thirty minutes. The drill hall at any minute could have reverted

Mailbag

To The Campus:

I should like to express my indignation at the rise of prices in our lunchroom. Not only has this rise in price taken place, but the unappetizing character of the food usually served remains the same. Why?

I believe that the quality and quantity of the food served in neighborhood cafeterias is superior to that offered in our "non-profit" lunchroom. On what basis was the rise in chocolate milk ordered? It so happens that the cost of milk in retail grocery stores has been reduced.

It should also be pointed out that prices in the lunchroom of the Commerce Center of the College have remained unchanged.

It seems to me that a lunchroom managed by a faculty-student committee would provide the answer to the problem.

Max Rosenbaum, '43.

Ed. Note: The Campus has investigated prices at the Commerce Center. Prices are the same as always, downtown. Sandwiches are selling for ten cents. Milk and chocolate milk are still priced at five cents.

News in Brief

(Continued from Page one)
The students from other colleges, and two experts, Dr. Lean Khead, National Director of Friends of Democracy, and Professor William Agar of Columbia, will participate.

The Winter Issue of the *Journal of Social Studies* will appear Tuesday, March 3. It will contain 14 full-length articles. The *Journal*, which was due to come out last term, was postponed because of staff disagreement as to editorial policy.

St. Francis Game Season's Key Battle as Beaver Quintet Eyes Tournament Invitation

By DICK COHEN

How good is Nat Holman's current basketball team?

That's the question bothering College hoop fans this week as the Beavers enter the stretch drive for city honors and a bid to the invitation tourney. And the only answer seems to be that they're getting better every time.

The boys hit what may turn out to be their season peak in the first half of the Fordham game last Wednesday. They were fast, they were tricky, they drove hard, they worked their plays, their defense was tight, they controlled both backboards. Bill Holzman was superb, directing the attack and defense, passing, feeding, cutting intercepting passes. Sid Hertzberg—high man with fifteen points—and Claude Phillips were "on", pitching baskets from outside and laying them in from up close. Harvey Lozman continued improving—he was aggressive, smooth and he found the old set-shot spot he used to beat NYU from. And big Dave Laub was phenomenal—grabbing the ball off the boards, breaking up Fordham plays, using his height to deadly advantage. Playing their parts too were a trio of factors that this year's five has repeatedly shown—the will to win, great team play, and great coaching.

Against Brooklyn last Saturday, the team turned in a more consistent performance, and Red Phillips had one of the hottest nights any City man ever had. Holman's quintet increased a nine-point halftime lead by 14 at the final whistle. Phillips went crazy with 23 points in 28 minutes, and Brooklyn fell apart as the Beavers kept pouring it on.

City's main strength this season seems to lie in the essential makeup of the first five. In Holzman, Hertzberg, Phillips and Lozman, the team has four potential high scorers, any one of whom might break loose with a great night. And in Red Holzman, the greatest player in College basketball, you have a double threat.

Holzman will score heavily when there's no one else around, as he showed in the LaSalle game when he took command with 16 points, and (omen) in last year's St. Francis contest, leading with 21. But when a man is hot, Holzman will feed, feed, feed the enemy dizzy. Against Niagara and Fordham, Sonny Hertzberg was hitting the hoop and Bill kept playing him. In the first half of the Brooklyn game, Lozman sank five field goals on direct passes from Holzman, one a beauty on a deep cut and tap-in. Phillips went wild in the second half and Holzman kept concentrating on his red-headed alter-ego.

Lozman, incidentally, has made the galleries forget about Leo Levine, who quit school at mid-year. Harvey's height and shooting eye have made him even more valuable than the shifty, snaky left-hander, and with Laub playing the best ball of his career, Holman has two tall men able to fight it out with any giants from Texas, Rhode Island or Kalamazoo.

Tonight's Manhattan game will further indicate how good the team is. The Kelly-greens aren't too talented, but they're a scrappy, often-times dirty bunch, and they won't wilt as easily as the fidgety Brooklyn squad. Coach Cohalan is even going around town predicting a Manhattan victory. City should win though—how about 52-40?—and face St. Francis in the season's key game Saturday with confidence and an improving record.

The home court ought to help too. Holzman has always rolled up his biggest totals on the main gym floor, and Phillips seems to like it too. St. Francis will go all out to win this one (their tournament hopes are at stake)—so get there early for the fun, kiddies.

Intramurals Get Started; JV Five Trims Brooklyn

Third Period Spurt Overcomes Foe's Lead

A whirlwind third quarter, in which they scored 17 points to the Brooklyn JV's two, enabled the JV hoopsters to pull a 36-30 win out of the fire in the prelim to last Saturday night's varsity encounter with Brooklyn. This was the second time this season that the JV beat the boys from over the bridge.

As *The Campus* went to press, the JV was facing the St. Francis Frosh on the latter's court in the first game of a home-and-home series. The Baby Beavers will meet the Friars again Saturday night before the Lavender varsity takes on the St. Francis varsity in the Hygiene Building.

Swimmers Meet St. Joe's Friday

With a record of victories over Fordham, Scranton, and Manhattan and losses to Seton Hall and Brooklyn, the Lavender swimmers will try to keep over the .500 mark against St. Joseph's this Friday evening at the home pool. The first event takes place at 8:15, and AA members can get in free.

Last week, the Beavers were edged out 45-30, by Brooklyn taking three out of nine events. Falling behind at the outset, the natators kept plugging but lost despite triumphs by Leroy Weiner in the 100, Julie Mondschlein in the 440, and the 400-yard relay team of Howie Moskowitz, Al Kohn, Tommy Pavone, and Leroy Weiner.

ROOMS FOR RENT

Furnished room—610 Riverside Drive, corner 138 St., Apt. 26. Studio couch, quiet, clean, private family, no other roomers. Within walking distance of College, subway, buses. \$4 a week. Phone EDgecomb 4-7235.

CHEERFUL FURNISHED ROOM for instructor or student. Elevator, private toi., AU-3-4942. Reasonable. 540 W. 144 St., Apt. 51 Call evenings or Sat., Sun.

Five Tournaments Start Tomorrow

Max Plasner '42 and Fred Buterman '43 topped a field of 55 entrants in intramural basketball field day last Thursday to enter the playoff for first place tomorrow at noon in the main gym. The competition in foul, set, and 30-second shooting started this term's ambitious intramural campaign rolling.

Another in the series of intramural sports clinics will be held next Thursday, March 5, in Doremus Hall with baseball as the subject and the official National League films as the main attraction.

Five sports—basketball, horse-shoeing, archery, volley-ball, and four-wall-handball singles—will begin activity tomorrow. Last minute entries can be filed at the intramural office in the Stadium today.

If you're not the athletic type, you can find your place in the intramural sun anyway. Board members to do executive work and officials for the various tournaments are still needed. Information concerning these positions and tournaments may be obtained at the Intramural Office.

Baseball Tryouts Start This Week; Gridsters Train

Baseball, tennis, and football are rushing their seasons this week.

Grid coach Benny Friedman announces that football spring training will commence tomorrow at 3 p.m., and according to Sam Winograd, diamond mentor, all regularly enrolled students, including freshmen, are eligible to try out for varsity baseball.

Baseball candidates should report to the Tech Gym at 11:30 a.m. this Saturday in complete gym uniforms, including sweat-shirts and gloves. Athletic eligibility cards, which may be obtained after a medical exam by the College physician, must be presented. Practice will also be held on Wednesday, March 4, and Friday, March 16 at 4 p.m.

"All freshmen and sophomores who feel that they have not the ability to play on the varsity squad are eligible to play for the junior varsity," Winograd stated. First JV tryouts will be held on Saturday, March 7, at 11:30 in Tech, with the same equipment, including the athletic eligibility cards.

Tryouts for the tennis team are to be held this Saturday at 10 in the new ROTC drill hall, according to Cocah Abraham Sperling. All candidates should bring rackets and tennis shoes.

SENIORS LAST CALL!!!

All men who have signed pledges but have not taken pictures should make an appointment at the *Microcosm* office, Hat 's Locker Room.

Pictures of non-subscribers will not appear in the 1942 *Microcosm*.

impossible to solve City's MacArthur-like defense. Bill Holzman held the St. Francis ace, Tony Braginetz, to a standstill, while pouring through sixteen points himself to take scoring honors. Claude Phillips and Sonny Hertzberg each contributed ten points, while Dave Laub tallied eight.

St. Francis Starts Fast
St. Francis took the offensive at the opening buzzer to gain a 4-1 lead, but then faded before the Beavers' superior set shooting to drop behind, 13-5, several minutes later. The Lavenders kept pouring it on and Bill Holzman's great three-quarter court set shot with five seconds to go gave City a 24-12 lead at the half.

St. Francis pulled up within five points at the start of the second half, but was snowed under by another City rush as the Beavers went into a 36-22 lead. The victory over St. Francis clinch the meet. His points were needed since Abe Badian, Murray Federman and Joe Beck lost their matches. At this point, Applebaum stepped in to keep the Beavers in the running and Goeschel supplied the clincher. The matmen will meet Temple at home this Saturday.

Weiner Gains Trophy As Outstanding Merman

Co-captain Le Roy Weiner, ace free-styler, and his Beaver mermen closed out a good season Friday night, beating St. Joseph's of Philadelphia, 40-35. Murray Gartner, co-captain of the team in 1932, presented the Gartner Trophy to Weiner for being the outstanding swimmer of the year. Le Roy broke the college records for the 220- and 100-yard free-style events this season.

The 300-yard medley relay team, consisting of Tommy Pavone, backstroke; co-captain Carl Weinstock and Howie Moscovitz, free-styler, started the evening off right, and won by two and a half laps. At no time did St. Joseph threaten, the Lavender natators taking six out of eight events. When the last race came up—*University Administration Quarterly*, edited by Dr. David A. Weaver (Education Dept.) is now on sale at a subscription rate of three dollars per annum.

Tomorrow
The Reverend James Robinson of the Church of the Masters will address the Frederick Douglass Society on "The Negro and the War" in 129 Main at 12:30.

Padraic Colum (English Dept.), well-known Irish poet and lecturer at the College for over a year, will speak to the Writers' Club on "New Problems in the Novel" at 12:30 in 126 Main.

Dr. Charles H. Page, Columbia, will speak on "Changing Structure of Society During a War" before the Sociology Society in 213 Main, at 12:30.

Microcosm takes pictures of Student Groups in the Harris Auditorium at noon.

Harold Stone of the National Starch Company will address the Baskerville Chemical Society on "The Adhesives Industry" at 12:30, in 204 Chem.

Safe at Home, official National League film will be shown at Doremus Hall at 12:15. Sam

Four Years of Hygiene Endorsed by SC, FDC

Major Raymond Purcell (Hygiene Dept.), a member of the Faculty Defense Council, declared last Monday that it would be advantageous to extend compulsory hygiene to four years. He stated that the new program would be entirely in accord with the "national trend manifested in colleges throughout the country." During the last year at least a dozen colleges have initiated this type of four-year hygiene program.

At the last meeting of the Student Council, the extension of the compulsory hygiene program was endorsed. The new courses would be called 5, 6, 7 and 8. All upper classmen would be required to choose one hour a week for the courses. There would be a varied selection of sports with the choice up to the student. The speaker. The admission is 5 cents.

The Astronomical Society holds a business meeting in 111 Main, at 12:15.

"A Jewish Army and the Arab Problem" will be the panel discussion of the Betar Society in 20 Main, at 12:15.

Meeting in 403 Harris at 12:30, the Geological Society will hear Dr. Gerhart Saenger on "The Psychology of Americanization and its Relations to Civilian Morale."

There will be a House Plan Tea sponsored by Eliot '43 at HP at 4. Professor Benjamin Harrow (Chemistry Dept.) will lecture on "Nutrition in Connection with National Defense." Movies will also be shown.

"Orders of Infinity" will be the topic of tomorrow's meeting of the Mathematics Colloquium in 132 Main, at 12:50.

Friday
"Continuous Friday afternoon dances will be held," announces the Student Council-House Plan Committee. They take place from 4 to 6 in the Harris Auditorium. Admission for men is 5 cents. Gals are admitted free.

Dr. Wright will transmit the message to the Board of Higher Education for final approval. Dean Turner's shift to what would be his new position as Professor of Economics is not expected to go through until the end of the year.

The Dean said yesterday that he had long been his desire to return to the classroom. He made it clear that he did not consider return to teaching any less important administrative duties in the College. While he likes his present duties he liked teaching much better and pointed out that Economics had been his life work.

Turner took a step back to his former professorial role last semester. He is now teaching Economics 7, a course in the Department of Economics thought.

Dean of Men took his position in Economics at Princeton University in 1913. He was the economist and chairman of the advisory board of the Tariff Commission in the administration of Calvin Coolidge. His first post as Dean of Washington College of NYU in 1917 when he relinquished in 1928 to become president of West Virginia University. He assumed his present position in 1935.

Dramsoc Show Goes to Hunter
Dramsoc has finally changed theaters. According to an announcement by Warren Schoonmaker, president of the College Dramatic Society, the Hunter College Little Theater will be the site of this term's production. Normie Robbins, who's been going around beating national champs like Jose de Capriles lately, took two bouts, along with Co-captain Widoff and Salzberg. "Jive" Li Calsi won a pair in the foils, and in the sabre division, Co-captain Baumgartner, Dember and Amster took two bouts apiece.

HP Teas On Upbeat, To Feature Entertainment
House Plan's series of Thursday teas will hit a high point of the semester tomorrow at 4, when the New York City Health Department presents lectures and movies on "Nutrition and National Defense" at a tea sponsored by Bowker '43. This affair will be followed next Thursday by a tea for President Harry N. Wright and the Deans of the various schools sponsored by Remsen '42 and Gibbs '42.

Lock & Key Applications Available Until March 10
Applications for the Lock and Key will be available in Dean Turner's office until March 10. The filled out applications should be put in Box 22 in the Faculty Mail Room.

Plans for the military ball to be held by the ROTC Officers' Club were being whipped into shape this week with final decisions due in the near future. The ball will be held in the drill hall about April 11 and will be open to all College students. Negotiations for a name band are still proceeding.

With an attendance of over 1000 expected, a majority to be in uniform, the affair promises to be one of the most brilliant the College has seen, according to Horace O. Kippels '42, President of the Officers' Club. Invited guests will include not only the regular army officers of the College's unit, but also military notables of the Second Corps Area.

For the occasion, the drill hall tented in the newspapers of the city and on the radio. It was deemed sufficiently important to warrant comment on the first page of the New York Times.

Two weeks hence, the last lecture will be given by the Honorable Jerome N. Frank, Circuit Judge of the United States Circuit of Appeals, on "Courts and Administration Today." Dr. Morris R. Cohen, Professor-Emeritus of Philosophy at the College will chair this meeting.

Tickets may be obtained free of charge by communicating with Dr. Edwards.

Boxers to Meet Indiana State

Yustin Sirutis' College boxing team will take part in the second half of a double-header at the Commerce Center gym Saturday night when it faces the Indiana State Teachers. The Beaver wrestlers will meet Temple on the same program.

The boxers did not put on a very good show in their last home meet when they lost to Coast Guard and this will be their last opportunity this season to show the home fans that they are still championship material.

Tried Summer urses Offered

A wide range of elective courses are offered in the forthcoming summer session, according to Rick C. Shipley (English), Director of the Summer Session. Courses are as follows: following elective courses are offered in the School of Business Administration—110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

The CDC announces that the course for the aspiring "Oscars-of-the-Waldorf" will be given only if a sufficient number of registrations are received. All interested applicants are urged to register at the CDC headquarters at 280 Convent Ave. on or before Friday, March 6.

There will be no fee charged for the course which will last until mid-June and will be held at the Food Trades Vocational High School at 207 West 13 St. The first class will be held about March 10 and will be held thereafter on every Tuesday and Friday from 4 until 7 o'clock.

Graduation Date Set

Two academic years. Level examinations will determine acceptance by the Navy and the course of future specialized training. The Navy has also relaxed its requirements for admission into the United States Maritime Commission Cadet Corps. The Navy Signal Corps has open, in addition, positions for men with experience in electrical physics.

Undeclared Rifle Team Faces Threat in NYU

Undeclared in seven starts, the College rifle team meets NYU, also undeclared, in the most important match of the season this Friday at 6:30 on the Violets' range. The Lavender marksmen, with Wes Serra, Arthur Kaiser, and Henry Eichelmann high scoring for Coach Bachlken's squad, nosed out Brooklyn Polytech last Saturday, 893-892.

ROOMS FOR RENT

Furnished room—610 Riverside Drive, corner 138 St., Apt. 26. Studio couch, quiet, clean, private family, no other roomers. Within walking distance of College, subway, buses. \$4 a week. Phone EDgecomb 4-7235.

Techmen Hear Dean's Speech

Newman Says Industries May Lose Vital Workers

Speaking before a group of 250 Tech students at their annual meeting held last week in Townsend Harris Hall, Prof. Albert B. Newman, Dean of the School of Technology, warned that "war industries are going to be robbed of vital personnel." He explained that it was America's job to keep the armies of Britain, Russia, and China supplied with the tools of war.

Explaining the relation of the engineering schools to the war program, Prof. Newman stated that "the proper support of the engineering degree. Upon graduation we would be placed on active duty, doing technical engineering work, with opportunities for responsibility and rapid advancement. Interested students should see Prof. Theobald in room 113a Tech.

William J. Armento (C.E. Dept.) selective service advisor to the Tech School, cited the vagaries of engineering firms in hiring with regard to the draft status. New draftees are advised to see Mr. Armento as soon as notice to report is received.

he found the post "overwhelmed by administrative routine" and that it did not allow time for him to pursue his professional interests and scholarly activities. Dean Feldman suggested to Dr. Wright that the resignation go into effect as of September 1, "in order that you may have ample time to choose a successor."

Dean Feldman paid high tribute to the student body of the school who, he said, "have in the past been misrepresented by the publicity given to the actions of a misguided few. Our students have personal and professional potentialities as fine as I have found in any student body, and it is with the greatest reluctance and after many debates with myself that I leave them and my associates at City College."

Before accepting the post at the College in 1939, Dean Feldman, who is widely known for his research, books, and service in the field of labor and man-prizes, dance contests, chorus-girl souvenirs, and a balmy evening are running rampant and the largest crowd of the young social season is expected.

The Fraternity boys have decided to share their proceeds with one of the College's worthier causes—the Stein Memorial Fund and the basketball team and its coach, Professor Nat Holman, have been invited to be guests of honor. The admission price will be 75 cents per couple and ducats can be had from now on.

International News

Marshall Petain has promised President Roosevelt that Vichy will not cede French warships to the Axis powers. It would be considerably embarrassing, however, if the warships were turned over in return for bases.

The House has voted to table the President's unemployment relief bill. If only for their own futures this is an extremely shortsighted decision.

Representative Dies is seeking another appropriation for his Committee. To get the money as Wake and half-a-Wake.

Sports Slant

By DICK COHEN

City's five goes out onto the Garden court tonight frame of mind and in better spirits than at any tin overtime period of the St. John's game.

That's the news from the Hygiene Building this the boys have been working out for what may be the portant intra-city game this half of the season. The F tough. They're a fast and rangy gang, rough under the and in the jumps. And they'd like nothing better than floor with the Beavers and get into the scramble for c

But from this observer's eyrie among the gargoyle like a Lavender night—maybe by as much as ten straight out-of-town wins over a pair of teams well-ra own sectors have given the boys what amounts to a arm, and they're ready to start rolling once again an experts wonder whether the St. John's victory really w

In Philadelphia two weeks ago Bill Holzman showed how he'll take over when there's scoring to be done sixteen points through the hoop. Claude Phillips pro had it by pulling a couple of his terrific feints and l fourteen markers. And Harvey Lozman started a nifty by actually fighting for the ball and doing aggressive v boards.

Against highly touted Niagara Saturday night a cou recent developments arose. Lozman twisted and injur but Mike Shinkarik performed creditably as his r Meanwhile Dave Laub continued his steady improv Sonny Hertzberg shot back into the scoring columns v of fifteen points, his first big night in a month.

Bill and Sonny have been the chief topics of c among the College court cognoscenti for weeks. Righ miserable St. Joe's defeat last term when Leo Levine Edelstein quit overnight, rumors were flying thick and Holzman and Hertzberg were on their way out too an St. Nicks were through for the season.

The stories had it that the team was dissatisfie whole basketball set-up at the College. It was said the were fed up with the petty scramble for a couple of ce week, with the jobs they didn't get and with the holler- attitude in regard to even furtive subsidization as ex certain (anonymous) administrative spokesmen.

Coach Holman came in for his share too.

He heaped personal abuse upon his players; he sho itism to some of his stars; his interest in the progress of and its season record was a selfish and self-centered players weren't trying hard enough because they couldn't with the coach.

I talked with Coach Holman about this Monday aft in the main gym as the jayvee and some of his varsi were tossing up their shots at the two glass-backed b "I'm a hard teacher," he said, "and I know I driv hard. But that's the only way to teach big-time, Madis Garden basketball Twenty-three years at the College hi me that. Any man who won't give me everything he' quit today—I don't want him. That's my attitude.

"I'm hard all right but the boys love it—otherwise the; come up here to run their legs off every afternoon the do during the season. Last Saturday at Buffalo the tea a driving, wining ball game. They showed me they're play the kind of basketball that produces results. The boy fine spirits. We had a swell trip up there. I think we'r move from here in."

Whatever the reason for the emotional and physical that took place around the middle of last month—whe the war or the new draft or the coach or the revampin spring semester or just too much basketball—it seems taken its toll and disappeared. The boys are in stride agt resentment forgotten, and they feel pretty good over the v like job they turned in against the big Niagara quintet, gi nine wins out of eleven for the season.

They're a better ball club than Fordham and tonig prove it.

The Student Council and Defense

Student Council has at last given its constituents a program which a united student body can support. A couple of boys named Adolf and Hirohito must be given an assist on this, for it is the national defense effort that has awakened the Council from its three-year lethargy.

It is common knowledge that the Council's De-fense Committee sold over \$85,000 worth of defense bonds and stamps last term. Few people realize, how-ever, that the Committee put in much work on the special defense courses held last month, aided in reg-istration of 200 blood donors and 1,000 air-raid war-dens, and sponsored rallies attended by notables Lewis Corey, Burgess Meredith and Dorothy Lamour. Students working with the Committee have done much of the work on the 1,000-page Defense Hand-book which will soon be published.

Now the College's Civil Defense Council, headed by Professor Richard B. Morris, has been enlarged to in-clude as broad a student representation as possible. Besides its multifold efforts on local defense problems, the Council is preparing several campaigns for this semester to make life more comfortable for College men in the armed forces.

Full cooperation of the student body is necessary for the continued successful operation of the Defense Council's program.

'Campus' Column:

Dan's Yiddish Accent

(EDITOR'S NOTE: This term we are resuming a former custom of allowing members of The Cam-pus staff who feel they have something important to say to "get it off their chests." The ideas expressed in these Campus Col-umns are those of the writer and do not necessarily reflect the opinions of the rest of the staff or of the Governing Board.)

There is nothing wrong with Dan Parker—that a good psy-chologist couldn't figure out.

A recent correspondence with the daily sports columnist of the *New York Mirror* convinced me that what seems to be anti-Sem- itism in his writing is merely an outcropping of Parker's fine Gaelic sense of humor that never got beyond his adolescent days in vaudeville.

Prompted by my own feelings—as well as the comments of many students at the College—I wrote to Parker telling him that I believed his articles about the City-Brooklyn football game, which featured the dialect that has made him the Aesop of Ja-cob's Beach, smacked of anti-Semitism and anti-City College-ism.

Back came a letter which told me: (1) the Jews who used to be able to "joke about themselves with more good humor than any other race, have suddenly be-come too sensitive because of the events in Europe"; (2) he had written in a like vein about NYU without getting any complaints and had given us so much atten-

tion because the College was "neglected by most papers", and (3) "the *Mirror* is loaded with City College grads... we think they're tops."

When I told Parker that I felt he had missed the important point—that it wasn't his own feelings as much as his influence on his readers that counted, he seemed slightly peeved. It seemed that I, too, had missed the point. He was only writing about what he had actually seen; I was at-tempting to make something sin-ister out of what was only a humorous episode; the only thing he might be "anti" is Larry MacPhail; and his 17-year stand against anti-Semitism and anti-Catholicism doesn't "hog-tie me when I feel the urge to indulge in my weakness for writing dia-lect, does it?"

My own conclusion is that Parker, like his *Mirror* colleague—"Admiral" Walter Winchell—was intended for the stage. Hav-ing been misdirected into the newspaper business, he finds himself periodically compelled to let the thespian out of his sys-tem by getting it into printer's ink.

Anyone who has a different theory about "The Irish Gollitz-laner"—as Parker on occasion calls himself—may submit same anytime this week with three sugar-cube-wrappers from Lin-dy's. To the writer of the best letter will go one bagel and one free ticket to Parker's next "her-ring-terring potty."

—Arthur Susswein.

Off the Disc

Les Brown emerges with the best twosome of this week's thin-crop of releases, pairing *Every-body's Making Money But Tchai-kovsky* with *Hereafter* for Okeh. In the *Tchaikovsky* number, Brown kids his fellow bandlead-ers for their musical grave-robb-ing, with the instrumental chorus that combines several of the "stolen" tunes overshadowing the none-too-clever lyrics. On *Hereafter*, the band drifts through a smooth chorus, but Ralph Young's vocal is a little too strained.

Claude Thornhill stays in his own medium with a slow dance

arrangement of *Ya Lu Blu* (Co-lumbia), but loses out on *Some-body Else Is Taking My Place*, a bounce number which Benny Goodman has shown to better advantage.

Under Horace Heidt's direction, *Moonlight Cocktail* (Columbia) becomes a mickey with not even Frankie Carle's piano able to save a badly paced arrangement. Ditto *Whistling Cowboy* on the reverse side.

Tommy Tucker, on Okeh, wax-es Carmen Lombardo's *Some-times* in the true Lombardo tra-dition with *Pretty Little Busy-body* on the backside not quite

...ball team? fans this week as honors and a bid to seems to be that over the bridge. As *The Campus* went to press, the JV was facing the St. Francis Frosh on the latter's court in the first game of a home-and-home series. The Baby Beavers will meet the Friars again Saturday night before the Lavender varsity takes on the St. Francis varsity in the Hygiene Building.

Intramurals Get Started; JV Five Trims Brooklyn

Third Period Spurt Overcomes Foe's Lead

A whirlwind third quarter, in which they scored 17 points to the Brooklyn JV's two, enabled the JV hoopsters to pull a 36-30 win out of the fire in the preliminary last Saturday night's varsity encounter with Brooklyn. This was the second time this season that the JV beat the boys from over the bridge.

Swimmers Meet St. Joe's Friday

With a record of victories over Fordham, Scranton, and Manhattan and losses to Seton Hall and Brooklyn, the Lavender swimmers will try to keep over the .500 mark against St. Joseph's this Friday evening at the home pool. The first event takes place at 8:15, and AA members can get in free.

Last week, the Beavers were edged out 45-30, by Brooklyn taking three out of nine events. Falling behind at the outset, the natators kept plugging but lost despite triumphs by Leroy Weiner in the 100, Julie Mondschein in the 440, and the 400-yard relay team of Howie Moskowitz, Al Kohn, Tommy Pavone, and Leroy Weiner.

ROOMS FOR RENT

CHEERFUL FURNISHED ROOM for instructor or student. Elevator, private tel., AU-3-4942. Reasonable. 540 W. 144 St., Apt. 51. Call evenings or Sat., Sun.

Baseball Tryouts Start This Week; Gridsters Train

Baseball, tennis, and football are rushing their seasons this week.

Grid coach Benny Friedman announces that football training will commence tomorrow at 3 p.m., and according to Sam Winograd, diamond member, including freshmen, are eligible to try out for varsity baseball.

Baseball candidates should report to the Tech Gym at 11 a.m. this Saturday in complete gym uniforms, including sweaters, shirts and gloves. Athletic eligibility cards, which may be obtained after a medical exam, must be presented. Practice will also be held on Wednesday, March 11, and Friday, March 16 at 4 p.m.

"All freshmen and sophomores who feel that they have not the ability to play on the varsity squad are eligible to play for the First JV tryouts will be held Saturday, March 7, at 11:30 a.m. in the new ROTC drill hall, Tech, with the same equipment including the athletic eligibility cards.

Tryouts for the tennis team are to be held this Saturday at 10 in the new ROTC drill hall, according to Coach Abraham Spertling. All candidates should bring rackets and tennis shoes.

SENIORS LAST CALL!!!

All men who have signed pledges but have not taken pictures should make an appointment at the *Microcosm* office, Har 's Locker Room.

Pictures of non-subscribers will not appear in the 1942 *Microcosm*.

The Student Council

Student Council has at last given a program which a united student body has long awaited. A couple of boys named Adolf and given an assist on this, for it is their effort that has awakened the Council from its year lethargy.

It is common knowledge that the Defense Committee sold over \$85,000 worth of bonds and stamps last term. Few ever, that the Committee put in special defense courses held last month. In the first half of the year, the Council is preparing several courses to make life more comfortable for the student body.

Now the College's Civil Defense Professor Richard B. Morris, has been elected as broad a student representative as possible. Besides its multifold efforts on local fronts, the Council is preparing several courses to make life more comfortable for the student body.

Full cooperation of the student body for the continued successful operation of the Council's program.

called eight.
St. Francis Starts Fast
St. Francis took the offensive at the opening buzzer to gain a 4-1 lead, but then faded before the Beavers' superior set shooting to drop behind, 13-5, several minutes later. The Lavenders kept pouring it on and Bill Holzman's great three-quarter court set shot with five seconds to go gave City a 24-12 lead at the half.
St. Francis pulled up within five points at the start of the second half, but was snowed under by another City rush as the Beavers went into a 36-22 lead.
The victory over St. Francis insures the College quintet of at least a tie in the local standings. A loss to NYU would place the Beavers in a deadlock with St. Johns in case of a Redmen win over St. Francis that night.
In any event, next Wednesday's double-header will decide New York's other entry in the National Invitation Intercollegiate Tournament. LIU is already in, while City, St. Johns, and NYU are in the running for the other post.

City Matmen Victors, 15-13

Triumphs by Marv Applebaum and Artie Goeschel in the last two events gave the City College wrestlers a hairline 15-13 decision over the Montclair State Teachers last Saturday in the home gym.
The lavender matmen broke into the lead at the outset when Herb Wexler won the 121-lb. event, Jake Twersky captured the 128-lb. test, and Harold Cohen, 136 pounder took his third straight decision in varsity competition.
The 145-lb. event was then temporarily postponed since Marv Applebaum, suffering an arm injury, wished to compete only if points were needed to clinch the meet. His points were needed since Abe Badian, Murray Federman and Joe Beck lost their matches. At this point, Applebaum stepped in to keep the Beavers in the running and Goeschel supplied the clincher.
The matmen will meet Temple at home this Saturday.

Help Wanted

100 shoe salesmen wanted for evening and Saturday work.
Mature applicants only. The firm will run classes for inexperienced salesmen.
Office work—typist with knowledge of Bookkeeping—Mornings or afternoons—4 hours, Monday to Friday.
Evening session student wanted for full time position—applicant must have knowledge of accounting.
Cashier wanted—10:45 a.m. to 1:30 p.m.—Monday to Friday.
Chemical Engineering student for evening work, Monday to Friday.
Dance bands are urged to register for the summer.
Social Directors, waiters, bus boys, counselors wanted for summer placement.
A. J. Rose, Room 108 Harris

Friday night, 10:30 p.m.
Murray Gartner, co-captain of the team in 1932, presented the Gartner Trophy to Weiner for being the outstanding swimmer of the year. Le Roy broke the college records for the 220- and 100-yard free-style events this season.

The 300-yard medley relay team, consisting of Tommy Pavone, backstroke; co-captain Carl Weinstock and Howie Moscovitz, free-styler, started the evening off right, and won by two and a half laps.

At no time did St. Joseph threaten, the Lavender natators taking six out of eight events. When the last race came up—the 400 yard relay which counts seven points—St. Joe was trailing by 28-40 and the Beavers had already clinched the meet. Coach Rad McCormack put in the second-stringers, and they came within two yards of winning.

The traditions attached to closing the season were faithfully carried on when Co-captains Weiner and Weinstock combined forces to toss Manager Dick Colgan into the pool. Dick swam a neat, if not gaudy, two laps to prove that his association with the team for the past three years was worth while.

SC to Analyze Electives, Publish Findings

The Student Council, last Friday, appropriated \$50 for a student project analyzing present elective courses with regard to teachers, content, required readings, etc. The findings will be published in a SC Bulletin of Courses, and distributed free to students.

News in Brief

The winter issue of a new education magazine, *University Administration Quarterly*, edited by Dr. David A. Weaver (Education Dept.) is now on sale at a subscription rate of three dollars per annum.

Tomorrow
The Reverend James Robinson of the Church of the Masters will address the Frederick Douglass Society on "The Negro and the War" in 129 Main at 12:30.

Padraic Colum (English Dept.), well-known Irish poet and lecturer at the College for over a year, will speak to the Writers' Club on "New Problems in the Novel" at 12:30 in 126 Main.

Dr. Charles H. Page, Columbia, will speak on "Changing Structure of Society During a War" before the Sociology Society in 213 Main, at 12:30.

Microcosm takes pictures of Student Groups in the Harris Auditorium at noon.

Harold Stone of the National Starch Company will address the Baskerville Chemical Society on "The Adhesives Industry" at 12:30, in 204 Chem.

Safe at Home, official National League film will be shown at Doranus Hall at 12:15. 5am

He stated that the new program would be entirely in accord with the "national trend manifested in colleges throughout the country." During the last year at least a dozen colleges have initiated this type of four-year hygiene program.

At the last meeting of the Student Council, the extension of the compulsory hygiene program was endorsed. The new courses would be called 5, 6, 7 and 8. All upper classmen would be required to choose one hour a week for the courses. There would be a varied selection of sports with the choice up to the student.

The proposed courses are a part of the Hygiene Department's program of cooperation with the national defense effort by increasing physical fitness.

However, there are still a few wrinkles to be ironed out. Lockers for 1500 students and many more instructors will be needed.

Phi Beta Kappa Elects 16 Seniors

The following students of the Class of February '42 were elected last week to the College chapter of Phi Beta Kappa:

Wilbur Daniels, Albert Fuhrman, David Haber, Paul Jacobs, Walter Gilbert Leight, John Lawe, Salvatore Ramondine, Jr., Burton L. Shapiro, Franklin Abbott Smith, Herman Leon Wagner, Marvin Wolfson.

The following are members of the Class of May '42 who were selected:

Albert Altman, Harvey Cohen, Abraham I. Hochberger, Julius Rutzky, Saul Scheidlinger.

Winograd (Hygiene Dept.) will be the speaker. The admission is 5 cents.

The Astronomical Society holds a business meeting in 111 Main, at 12:15.

"A Jewish Army and the Arab Problem" will be the panel discussion of the Betar Society in 20 Main, at 12:15.

Meeting in 403 Harris at 12:30, the Geological Society will hear Dr. Gerhart Saenger on "The Psychology of Americanization and its Relations to Civilian Morale."

There will be a House Plan Tea sponsored by Eliot '43 at HP at 4. Professor Benjamin Harrow (Chemistry Dept.) will lecture on "Nutrition in Connection with National Defense." Movies will also be shown.

"Orders of Infinity" will be the topic of tomorrow's meeting of the Mathematics Colloquium in 132 Main, at 12:50.

Friday
"Continuous Friday afternoon dances will be held," announces the Student Council-House Plan Committee. They take place from 4 to 6 in the Harris Auditorium. Admission for men is 5 cents. Gals are admitted free.

Goettschall and Turner agreed to support the committee and are enlisting faculty support. Mr. Lewis Jackson, College Administrator of NYA, has assisted the committee in obtaining the services of the NYA speakers.

Dramsoc Show Goes to Hunter

Dramsoc has finally changed theaters. According to an announcement by Warren Schoonmaker, president of the College Dramatic Society, the Hunter College Little Theater will be the site of this term's production of *Out of the Frying Pan*.

Air conditioning, clean seats and decent acoustics are features of the new theatre, which replaces the Pauline Edwards auditorium, traditional site.

Casting for the spring show has been completed. Lynn Willis, Frances Santora, Lorraine Gouerman, Esther Soler and Florabelle Houston will handle the feminine roles, with Stanley Gold, George Brager, Joel Friedman, Jack Schwartz, Alfred Goldfinger, Murray Sklaroff, and Bob Matheo acting the stronger sex.

First night is April 3, the start of Easter week-end (no vacation this year). The show runs the two following evenings. A bird's eye view of the forthcoming entertainment will be provided at the Frosh Chapel on March 31. Ruby Fisher and Lenny Scherer are handling the program.

Foilsmen Make History, Defeat Violets, 15-12

City's fencers beat NYU for the first time in history last Saturday, which may explain why they're walking around with their swords in their pockets. Despite NYU's Art Tauber, national champ, City's great epee work, backed by a fighting sabre team and adequate foils won a 15-12 victory.

Normie Robbins, who's been going around beating national champs like Jose de Capruiles lately, took two bouts, along with Co-captain Widoff and Salzberg. "Jive" Li Calsi won a pair in the foils, and in the sabre division, Co-captain Baumgartner, Dember and Amster took two bouts apiece.

HP Teas On Upbeat, To Feature Entertainment

House Plan's series of Thursday teas will hit a high point of the semester tomorrow at 4, when the New York City Health Department presents lectures and movies on "Nutrition and National Defense" at a tea sponsored by Bowker '43. This affair will be followed next Thursday by a tea for President Harry N. Wright and the Deans of the various schools sponsored by Remsen '42 and Gibbs '42.

Lock & Key Applications Available Until March 10

Applications for the Lock and Key will be available in Dean Turner's office until March 10. The filled out applications should be put in Box 22 in the Faculty Mail-Room.

With an attendance of over 1000 expected, a majority to be in uniform, the affair promises to be one of the most brilliant the College has seen, according to Horace O. Kippels '42, President of the Officers' Club. Invited guests will include not only the regular army officers of the College's unit, but also military notables of the Second Corps Area.

For the occasion, the drill hall will undergo a complete transformation. The floor will be waxed and the walls brightened by decorations and multicolored spotlights. The military science offices will be turned into dressing and check rooms.

Banker Talks Here Tonight

The third in a series of four lectures on our national war effort will feature Emmett F. Connelly and Dr. Virgil Jordan in a discussion of "Investment Banking Under a War Economy" in the Great Hall tonight at 8:30.

Mr. Connelly, former President of the Investment Bankers Association, is the principal speaker while Dr. Jordan, President of the National Industrial Conference Board, will act as chairman.

The lecture tonight, a part of the John H. Finley Memorial series, is sponsored by the 1911 Class and is being conducted by the Economics Department under the chairmanship of Professor George W. Edwards '11 (Economics Dept.).

The talk given two weeks ago by Dr. William M. Leiserson, of the National Labor Relations Board, received widespread attention in the newspapers of the city and on the radio. It was deemed sufficiently important to warrant comment on the first page of the New York Times.

Two weeks hence, the last lecture will be given by the Honorable Jerome N. Frank, Circuit Judge of the United States Circuit of Appeals on "Courts and Administration Today". Dr. Morris R. Cohen, Professor-Emeritus of Philosophy at the College will chair this meeting.

Tickets may be obtained free of charge by communicating with Dr. Edwards.

Boxers to Meet Indiana State

Yustin Sirutis' College boxing team will take part in the second half of a double-header at the Commerce Center gym Saturday night when it faces the Indiana State Teachers. The Beaver wrestlers will meet Temple on the same program.

The boxers did not put on a very good show in their last home meet when they lost to Coast Guard and this will be their last opportunity this season to show the home fans that they are still championship material.

There will be no fee charged for the course which will last until mid-June and will be held at the Food Trades Vocational High School at 207 West 13 St. The first class will be held about March 10 and will be held thereafter on every Tuesday and Friday from 4 until 7 o'clock.

Graduation Date Set

Commencement exercises will take place in Lewisohn Stadium on Tuesday, June 2, according to Dr. Frederic Woll (Hygiene Dept.), Faculty Chairman of the Commencement Committee.

The graduating class is expected to be somewhat smaller than usual, owing to the number of seniors leaving the College to enter the armed forces or war industries.

The Commencement Committee headed by George Schonberg '42 and Al Finklestein '42, is negotiating for caps and gowns, a hotel, and name band for the Farewell Dance.

"This affair," said Schonberg, "will be one of the best ever held. The cooperation displayed by both Main and Commerce Session Committees has been most gratifying."

Navy to Train College Students

The Navy will accept voluntary enlistments in the V-1, apprentice seaman class in a new plan to direct the student curriculum so as to prepare for entrance into the Navy.

In this program, men between 17 and 19 years of age inclusive will continue in college, taking this pre-induction naval training on an inactive basis for a period of two academic years. Later examinations will determine acceptance by the Navy and the course of future specialized training.

The Navy has also relaxed its requirements for admission into the United States Maritime Commission Cadet Corps. The Navy Signal Corps has open, in addition, positions for men with experience in electrical physics.

Undeclared Rifle Team Faces Threat in NYU

Undeclared in seven starts, the College rifle team meets NYU, also undeclared, in the most important match of the season this Friday at 6:30 on the Violets' range. The Lavender marksmen, with Wes Serra, Arthur Kaiser, and Henry Eichelmann high scoring for Coach Bachlken's squad, nosed out Brooklyn Polytech last Saturday, 893-892.

ROOMS FOR RENT

Furnished room—610 Riverside Drive, corner 138 St., Apt. 26. Studio couch, quiet, clean, private family, no other roomers. Within walking distance of College, subway, buses. \$4 a week. Phone EDgecomb 4-7235.

meeting held last week in Townsend Harris Hall, Prof. Albert B. Newman, Dean of the School of Technology, warned that "war industries are going to be robbed of vital personnel." He explained that it was America's job to keep the armies of Britain, Russia, and China supplied with the tools of war.

Explaining the relation of the engineering schools to the war program, Prof. Newman stated that "the proper support of the engineering school is the most important war effort of the City." However, this would not involve speed-up of the curriculum. According to a recent plan adopted by most colleges, the Dean revealed, there was to be no speed-up for the first three years, and the last year was to be a short one of intensive training, so as to release the engineers to take their place in the war program. "We want engineers, but we don't want any half-baked engineers," he added significantly.

Opportunities in Armed Forces
Prof. J. J. Theobald (C.E. Dept.) Naval Engineering advisor, and Prof. William G. Crane (English Dept.), College liaison officer for the Air Corps, Marine Corps, and the Navy, discussed the opportunities for college men in the armed forces. Speaking particularly of the Reserves, Prof. Crane emphasized the possibilities of the student receiving a commission, and at the same time, completing his college education.

"The Navy is particularly anxious to get engineers," stated Prof. Theobald, and explained the possibility of obtaining a provisional ensignship in the Naval Reserve branches of Aviation, Ordnance, and the Bureau of Ships. The student, who must be a junior or senior, would be expected to obtain his engineering degree. Upon graduation he would be placed on active duty, doing technical engineering work, with opportunities for responsibility and rapid advancement. Interested students should see Prof. Theobald in room 113a Tech.

William J. Armento (C.E. Dept.) selective service advisor to the Tech School, cited the vagaries of engineering firms in hiring with regard to the draft status. New draftees are advised to see Mr. Armenton as soon as notice to report is received.

Chairman Jerry Gutman '43, former IFC president, is handling ticket sales with Karl Niemcow '44, IFC secretary, and these boys are promising a grand time to all comers. Rumors of door prizes, dance contests, chorus-girl souvenirs, and a balmy evening are running rampant and the largest crowd of the young social season is expected.

International News

Marshall Petain has promised President Roosevelt that Vichy will not cede French warships to the Axis powers. It would be considerably embarrassing, however, if the warships were turned over in return for bases.

The House has voted to table the President's unemployment relief bill. If only for their own futures this is an extremely shortsighted decision.

Representative Dies is seeking another appropriation for his Committee. To get the money

past been misrepresented by the publicity given to the actions of a misguided few. Our students have personal and professional potentialities as fine as I have found in any student body, and it is with the greatest reluctance and after many debates with myself that I leave them and my associates at City College."

Before accepting the post at the College in 1939, Dean Feldman, who is widely known for his research, books, and service in the field of labor and management, had been for fifteen years Professor of Industrial Relations at the Amos Tuck School of Administration and Finance, Dartmouth College. He plans to return to that position in the fall, he said in an interview in his office last night.

Dean Feldman has conducted extensive research in unemployment and labor problems. He was economic adviser to the United States Personnel Classification Board from 1928 to 1930, a consultant to the National Committee on Law Observance and Enforcement in 1931, chairman of the New Hampshire Committee on Unemployment Reserves in 1933, and a labor arbitrator for the NRA.

IFC to Hold Victory Hop

Those signs plastered all over the College advertising the IFC Victory Dance indicate that the Greeks have found a committee that will do a good job on the affair which takes place in the Main Gym on Saturday night, March 14.

Chairman Jerry Gutman '43, former IFC president, is handling ticket sales with Karl Niemcow '44, IFC secretary, and these boys are promising a grand time to all comers. Rumors of door prizes, dance contests, chorus-girl souvenirs, and a balmy evening are running rampant and the largest crowd of the young social season is expected.

The Fraternity boys have decided to share their proceeds with one of the College's worthier causes—the Stein Memorial Fund and the basketball team and its coach, Professor Nat Holman, have been invited to be guests of honor. The admission price will be 75 cents per couple and ducats can be had from now on.

Dies may even decide to support America's declaration of war against the Axis.

It is interesting to note that General Gamelin refuses to put up a defense at his trial. Whatever else may be said against him it must be admitted that he's consistent.

It has now become apparent that Wake Island will represent a more glorious chapter in our history than Pearl Harbor. People are already referring to them as Wake and half-a-Wake.

In any event, next Wednesday's double-header will decide New York's other entry in the National Invitation Intercollegiate Tournament. LIU is already in, while City, St. Johns, and NYU are in the running for the other post.

City Matmen Victors, 15-13

Triumphs by Marv Applebaum and Artie Goeschel in the last two events gave the City College wrestlers a hairline 15-13 decision over the Montclair State Teachers last Saturday in the home gym.

The Student Council

Student Council has at last given a program which a united student A couple of boys named Adolf and given an assist on this, for it is the effort that has awakened the year lethargy.

It is common knowledge that fense Committee sold over \$85,000 bonds and stamps last term. Few ever, that the Committee put in special defense courses held last isiration of 200 blood donors and Lewis Corey, Burgess Meredith and Students working with the Com much of the work on the 1,000-

Now the College's Civil Defense Professor Richard B. Morris, has clude as broad a student represent Besides its multifold efforts on the Council is preparing several semester to make life more com men in the armed forces.

Full cooperation of the student for the continued successful operat Council's program.
