ARMY ARRIVES

---The German Army

'Kampfus' Now Free Paper (It Says Here)

A new and democratic way of running *Mein Kampfus*, national-socialist newspaper and successor to *The Campus*, subversive rag, was announced yesterday by Quisling Extraordinaire Stanislaus Lions, Associate Quisling Rurray Meich, and Quisling Stodge Rernie Bosen.

While the paper will be run entirely by the staff, there will be a representative Advisory Council with powers to execute the editor-in-chief, managing editor, and copy boy on 24-hour notice. Elections to Managing Board positions will take place democratically. Every staff member shall cast a ballot, and ballots judged subversive shall be confiscated by Advisory Council members.

To prevent any democratic-communistic-subversive talk of dictatorship and suppression, punishments for disciplinary infractions shall be very light. Authors of punctuation mistakes shall only be pressed through the printing presses once; committers of spelling mistakes shall be pressed through twice; and perpetrators of sentence structure errors shall be melted into type.

The editors will have control of the contents of the paper's columns, the only exception being the first four pages. Page five will be devoted to party news; its fifth column will contain the names of those executed as twenty-fifth columnists, such as former *Campus* editors.

Taffet Appointed College Gauleiter

Our Fuehrer announces the appointment of Joseph Taffet (Geo-Politics) to a rank especially created for him: So-I-Don't-Know-Nothing-But-I-Got-Pull Gauleiter. "Uncle Joe," as he is affectionately known in mugging circles, will also double as waiter in the Faculty Lunchroom because he has the suit for it, and it will enable him to pick up a few extra tips.

In a citation accompanying announcement of the promotion, Our Fuehrer said: "Through many dark years when his Aryan soul revolted at the sight of gefilte fish being sold in the cafeteria, Professor (heh-heh) Taffet kept his uppers stiff and worked for Der Tag. Also Der Forvertz. Following is a partial list of his great deeds:

1. Selling poisoned meat balls and kreplach to democratically-minded students in class.
2. Undermining the currency by selling one-dollar bills with a picture of Taffet on them.
3. Spreading revolt by threatening to write a book entitled, "Money and Banking."

Gauleiter Taffet in his spare time is president of the Crooked Taffet National Bank, situated at Maiden Lane.

DER FUEHRER Gives Manhattan Back To Cherokee Clan

At 3 p.m. yesterday, Adolph Hitler gave Manhattan back to the Indians. Chief Millerofsky, Cherokee Chief, represented the twelve great tribes at the ceremony and was the recipient of the Island.

In return for the isle, the Chief gave the Fuehrer sixteen strings of orange beads, and two lacrosse sticks. While the Chief smoked his pipe of peace, Hitler offered him his hand in a friend-

First photos of the Fuehrer giving Manhattan Island back to Chief Millerofsky.

ly gesture. Suddenly, discarding the pipe, the Chief tomahawked the Fuehrer's right hand off.

Millerofsky turned to the enthusiastic throng of Comanches, Blackfeet, Cherokees, and Sioux, and said, "Ugh, ounpaouli toisimo hasta la tue has."

The entertainment for the affair was supplied by Local 502 of the Indian War Dance Union. Simple Indian contests like drinking a quart of sulphuric acid, cutting off fore-fingers, and holding up both legs at the same time were won by the Chief easily.

"That sulphuric acid is nothing like the fire water my ancestors used to drink," he belched out to the crowd in a burst of flame. After the innocent games were over, Hitler entered Millerofsky's tepee to discuss the Indian Scalper as compared to the fifty cent John the Barber.

Hitler definitely proved to the Chief that the average barber gives a much better cut. When he noted the Chief's embarrassment he said, "Boy, is your face red," so he lost his left hand.

Jail Zumsteg For Part In Gefilte Fish Plot

In a lightning move, the mystery of the mysterious Gefilte fish was cleared up when Doris Zumsteg was caught in the act of putting chicken fat into, what the high command later determined, was the odious beginning of a Filthy fish sandwich. This was a difficult bit of detection since all the other food also tastes like fish.

Fang Shein Oon, Apology editor of *Mein Kampfus*, was the one who caught Zumsteg. "It was a tough job but I finally got the goods though," he said.

HIMMLER PLANS To Institute 9 Month-Year

Heinrich Himmler has taken over the German Agricultural Ministry in a drive to increase reproduction. He became dependent on hearing that our Oriental Allies had encountered unsurmountable difficulties in the program to exterminate Japanese Semities when Japan's only Jew, Moishe Ben Yokahoma refused to commit Hari-Kari with a *milchadika* knife. Hitler has been absent from his private sanatorium at Bertchesgarten where he has been ever since a crazy chef served him *KREP-LACH*.

Himmler's first move was to increase the percentage of wood-dust in flour. This ended in disaster when the German populace reacted by stripping the market of saws. German bread is now sliced. In a surprise order to make the most important Nazi crop annual, the former Gestapo chief shortened the year to nine months.

Last week the new minister made a pep speech at the Convention of Dairy Industries. His theme was, "Get a hold on this ticklish situation." In a revival of concentration camp tactics, he shot a subordinate who suggested, as an aid to morale, the dropping of the last word in the German women's motto of "Fatherland, Family and Kitchen."

ROMMEL RIFLES TO Anihilate Pledges

There will be a special meeting of the Rommel Rifles tomorrow at 3 in the Old Armory where 23 pledges will be shot by a firing squad. All members of the Reich Officers Training Corps are invited to attend. Reichsmarshal Kook will preside as master of ceremonies.

Due to the shortage of meat, there will be a potato race with prizes of choice parts of the executed, after the ceremonies. Remaining sections of the carcasses will be raffled off by Oberlieutenant Master. Instead of the old way of marching, the goose step will now be used. Our Fuehrer warns, however, that the forty inch interval between ranks must be maintained.

Another new development is that the wooden rifles now in use will be replaced by celluloid pea shooters and the old ones sent to the Russian front, to be used as kindling wood.

The ROTC band announces the selection of a new drum major, Hilda Spodheim. She is six-foot-two, weighs 196 pounds, and will play star fullback for the football team this fall.

BULLETIN By Otitis Media

The army finally arrived here yesterday but in direct violation of the contract signed with the College, it turned out to be the German Army.

Troops began immediately to move into Army Hall formerly known as the (censored) last night before a crowd of one person—the caretaker.

Before the soldiers could reach their bunks, however, they had to fight their way through piles of dust and cobwebs which have formed there since work on the barracks was suspended in 1492.

Commented President Wright on the new turn of affairs, "I would like to state here and now that I have nothing definite to say."

His sentiment was echoed by his aide, Mr. William Finkle (Public Speaking) who said, "Well, ahem, as I see it, it could mean many things, but on the other hand—"

Said Stanislaus Lions, Dance chairman, "As long as they turn over 50 per cent of the profit of any affair, it'll be alright."

"We must maintain the plan you know," he said as he was led to the chopping block.

Said a Tech man, "Will this mean that the Tech school will be overcrowded and I won't be able to get all the courses I want?"

Commented a Liberal arts student, "Will I be in 2-A if I tell the draft board I'm a Psychology major?"

Members of the BHE could not be reached for comment. Said the Board secretary, "The members of the board are in perfect agreement, the members of the board are in perfect agreement, the members are—"

Authorities announced meanwhile that the following curriculum will be given the student soldiers. The partial list follows:

- Poronography 2—W. B. Elevator
- Confusion 1—Robert L. Tailor
- Production 9—Abe Spoiling

And Furthermore . . .

— Встань, встань! — говорил он внушающе и ласково. — Встань!..

Сарра не потеряла сознания. Подняв к Саббатаю голову, она руками уцепилась за край его одежды и глазами, полными слез, молила не трогать ее, не поднимать, оставить так, простертой у его ног. Саббатай опустился на диван. Лицо его пылало. Сев, он опять склонился к ней — близко, к самому ее лицу, у своих колен, и возбужденно повторил:

— Встань!.. Откуда ты?

— Тут, тут, у ног твоих! — шептала Сарра, задыхаясь и протягивая к нему руку. — Это — Ты, Ты, Ты!.. Мессия! Мессия!

— Откуда пришла ты? — в третий раз спросил Саббатай повелительно и строго.

— От кладбищ... От могил... От пожаров... От крови... Мессия, Мессия! Я искала тебя. Весь мир обошла. На моих ногах раны от всех камней мира, от всех камней мира... Прими меня, прими!.. Мессия, Мессия, Мессия...

Экстаз Сарры достиг пределов невыносимых. В нем выливалась вся страсть души, все трагические переживания всей жизни. Ее шопотные слова постепенно перешли в вопли, потрясшие всех присутствующих, и в особенности Пингейро и Примо, знавших, какое значение Мессия придавал появлению неведомой женщины... Как некогда в смирнской синагоге, они задрожали восторгом откровения и устремили на Саббатая свои напряженные взоры, связавшись с ним магнетическим током. Они стали частью его души. Что скажет он этой женщине, искавшей его по миру и нашедшей?

Nab Hastings For Shaking Nazi Morale

John Hastings (Mops) has been sentenced to a lifetime subscription to National Geographic Magazine on two counts at an open trial held in the 2nd floor phone booth yesterday at 2:31 a.m.

Hastings was found guilty of having "definite semitic tendencies." Prosecutor Ginsburg (Hans, you mean Gainsborough) submitted in evidence a picture of Hastings' grandmother's uncle's cook.

When questioned Hastings said, "We will discuss that when we come to Palestine."

Two members of Avukah were carried screaming out of the courtroom, shattered by the awful sight.

Commented Gabriel Heatter on the proceedings.

Good evening, ladies and gentlemen:

Tonight a little man is sitting on a cold radiator in a chilly apartment and that man is saying to himself, "I knew it, if only I could have foreseen."

Oh if only he could have foreseen. For the words he said then are only too true when applied to the world situation as it stands tonight.

And when a little Kreml is applied to your hair, what a difference it will make tonight as a little man sits on a cold radiator in a chilly apartment and that man's name is Oswald Flunk.

No more has to be said, no more questions asked, but one, "Who the hell is Oswald Flunk?"

Technically Speaking

By Horace Q. Stumblebum

This is a psychological war and our Fuehrer's agents are men of wisdom. Two special Gestapo investigators are on the trail of the editors of Die Technische Zeitung, underground paper of the Tech School. For the duration of the present emergency, therefore, editors Ernie Bosen, Dichard Bibner, and Y. Shakerup will give up their super-intelligence and go around looking like ordinary Techmen. Our Fuehrer, in his infinite wisdom, hopes to force these intrepid men to disguise themselves as liberal arts students, in which case they will be murdered by their com-

A special industrial commission moved to organize the School of Technology, it was learned from reliable sources. The first step was the internment of union organizers Bowling, Stark, Applehead, and Hachmirmicht-keincheinik. At a secret trial held in the chambers four levels below the tunnels, these traitors to the Reich were charged with unionizing Tech students and guaranteeing them a 40 hour week with a minimum of eight hours sleep a night. The quartet has been found guilty and sentenced to two years at hard labor. They will be forced to listen to each other's lectures. For the first time since the beginning of their careers at the College, these men will have to work for their salaries.

From the Office of Blitzkrieg Information: A Liberal Arts Anschluss to take over the Tech School was revealed today from unrevealable sources. The English majors have already started infiltration tactics across Convent Avenue, which may help to explain how the Gremlins appeared on the drafting 201 plates last term. Any social science man captured on enemy territory will be interned and sentenced to the Black Gang.

Four government agents were sent to investigate labor conditions in the Tech School. They disappeared into the depths of the ME lab and have not been heard from since. We are permitted to quote from their last message: "... we entered the Building and were greeted by a

blast of superheated steam . . . Two of us roasted immediately, while the others, one broiled and the other slow baked, proceeded to a vast room. Rows of seats were occupied by queer looking creatures (later identified as Techmen) who sat and watched a row of pipes. Another of the queer fellows was atop a huge boiler reading a dial indicator. My compatriot climbed up and peered inside. As he disappeared from view, he was heard to mutter something about static heads, velocity heads, and hydraulic gradients. . . . Alone I wandered down a long corridor . . . down, down, to the depths. Squads of men were chained together and operated huge machines under the direction of a six-foot-six overseer, who wielded a long black whip."

The disappearance of this last investigator remains a mystery. Any information as to his whereabouts should be communicated to this publication.

E.E. News: The Henry Lamp and Motor Works will go on a full time war production basis, according to a directive from the Minister of the Interior. . . . The electronic wizards, Professor H. Werewolf and Dr. Henry Handstand, have come up with a secret weapon, which is supposed to afford supremacy in long-range artillery. The Tech tower houses the cannon and is made so that it can be set at any angle. Controls are housed in the basement of the Chem Building. The mechanism is operated on the principle of a cathode ray tube, and the projectile, a super enlarged electron will be accelerated and deflected by accelerating and deflecting

 plates. A preliminary test is
 scheduled for next week and it
 is expected that we will no longer
 be bothered with Brooklyn
 College.

News Release from the Office
 of War Production: The soldiers
 of the Reich will be given a spe-
 cial course in mass production
 techniques, Sex T 19: One recita-
 tion, two lectures, and four
 laboratory hours per week. A
 five dollar laboratory fee is pay-
 able before the first hour.

Professor Gus Fishup (M.E.)
 will give a sequence of courses
 in shop processes. The first will
 introduce the techniques of
 shop-lifting. In succeeding
 terms, ME 3856, shop-burning
 and insurance collecting, and
 Fire Sales 6 will be offered.

Professor John J. The Bold, of
 the C.E. Dept. is reputed to be
 able to multiply in his head to
 five places. He will be loaned to

industrial concerns on a short
 term lease, as a solution to the
 slide rule shortage.

Dr. C. Joyful is doing research
 work for the Westinghouse El-
 ektrizitats-gesellschaft on a su-
 per-portable walkie-talkie. The
 complete unit is self-contained,
 requires no power, and measures
 only six by two by two inches.
 It has seven tubes and a loud-
 speaker. A special self-inductive,
 non-inductive inductance en-
 ables the unit to operate on the
 ultra - ultra - high - ultra -
 frequencies. Miniature loud-
 speakers are constructed in the
 base of the tubes and are oper-
 ated in series.

The tubes are of the cold-
 cathode types, and the plate
 supply is obtained from the con-
 tact potential. Super amplifica-
 tion is obtained without a grid.
 A cockroach is placed in the
 space charge to hustle things up
 a bit.

The Chemmies come through
 with a solution to the fuel short-
 age. Deep within the Chem
 Building, they have developed a
 machine which will run on hot
 air piped from the faculty lunch
 room.

DICTIONARY:

- Papoose: Consolation prize for taking a chance on an Indian blanket.
- Vice: A thing you enjoy that is bad for you.
- Mistress: Something between a mister and a mistress.

House Plan Exposed

Den of Iniquity Discovered At HP 'Social' Crime Club

In one of the most extensive raids in recent years, the Gestapo has rounded up the entire House Plan ring, led by the notorious Louis Heiler, president. Blood-curdling screams which terrorized the entire campus have been traced to the second-floor back at 292 Convent Avenue.

Swimmers Receive Fresh Water Every 2 Months

City College's sport stock rose sharply today when special orders received from Herman McNutt's Headquarters revealed that special waivers had been obtained from Der Fuehrer to permit Lavender athletes to use special transportation ration cards. The report goes on to say that Ludwig Greenberg, Wilhelm DiMaggio and Heinrich Mize have been granted leaves from the Karkhov front to play with Baron Winograd's Beaver "nine" in the Saar Basin loop.

The special communique also states that the swimming team will receive fresh water every two months.

House Plan, ostensibly organized as a social club, was found to contain gambling machines, an electric razor, and Hunter girls.

The electric razor has so changed the facial appearance of CCNY men that they have often been confused with Harvard students who are called "CCNY men with a shave."

The Hunter girls had thrown the entire male populace of the College into a panic. It has been rumored that they would hide in the Coca-Cola machine and jump out when someone put a nickel in to get a drink.

The gambling machines include a large green pool table and a short green piece of "pot-sy" chalk.

Rumors, however, of a torture chamber where leading capitalists have been entertained, were found to be definitely untrue. The only room approximating a torture chamber was one where two students were banging away at a piano while twenty others tried to study in vain.

Latest News:

Sub-human races will be scientifically and painfully exterminated by being forced to remain in the College locker rooms during the change from dirty underwear to dirtier gym uniforms. The odor thus generated (ten times stronger than mustard gas) will kill 90% of those confined while the stronger 10% will be trampled to death in the hourly rush.

Although the plan appears foolproof, the fact that the carcasses thus produced are too contaminated to be changed into soap is an obvious drawback.

Yesterday at Doremus Hall had the famous chemist Dr. Schmellikepolekatz over the topic "Will the Aryan Bagel Ever Replace the Rubber Tire?" speak. This had like an interesting afternoon looked for since the Anschluss bagels for tires on his car using been and was to lecture quite qualified.

To his point prove he an old inner tube downed which caused weaker pupils regurgitating from the room carried to be carried. Suddenly the lecturer collapsed and on the floor bouncing began. The students choosed sides and play handball.

Latest Hit Parade released last week by the Fuehrer who tabulated the results himself. Figures were taken from all the sources possible, including the poolroom jukebox.
